Dear Colleague:

We are writing to reaffirm the position of the U.S. Department of Education (ED or Department) that all young children with disabilities should have access to inclusive high-quality early childhood programs where they are provided with individualized and appropriate supports to enable them to meet high expectations. Over the last few years, States and communities have made progress in expanding early learning opportunities for young children, with all but four States investing in free public preschool programs.¹ The Federal government, while aligning with the movement of States, has led several efforts to increase access to and the quality of early childhood programs, such as the Preschool Development Grants and expansion of Head Start. States have focused on improving the quality of early learning programs, including the development of early learning program standards and incorporating these into Quality Rating and Improvement Systems (QRIS).²

Peb yuav sau tuaj rov qhia meej txog txoj hauj lwm ntawm Teb Chaws Meskas Lub Thawj Fab Saib Xyuas Kev Kawm (ED los sis Lub Thawj Fab Saib Xyuas Hauj Lwm) uas txhua tus me nyuam tseem yau uas muaj kev xiam oob qhab tsim nyog muaj kev nkag cuag tau rau cov khoos ks kev pab tus me nyuam thaum tseem yau uas muaj kev ua tau zoo tsim nyog uas lawv tau txais nrog cov kev txhawb nqa ib tug zuj zus thiab tsim nyog los pab kom lawv ua tau raws li cov kev cia tsiab ntau tshaj plaws.

SUBJECT: Inclusion of Children with Disabilities

ABSTRACT:

This Information Memorandum (IM) highlights requirements in the Head Start Program Performance Standards (HSPPS) related to the inclusion of children with disabilities and delays. It includes a list of free resources for grantees' use in implementation efforts.

BACKGROUND:

Head Start and Early Head Start programs are required to ensure that at least 10% of enrollment slots are occupied by children with disabilities. In fact, Head Start's founders and early pioneers recognized that both children with and without disabilities would benefit from participating together in the same classrooms. Since 1972, over 3 million children with disabilities have fully participated in Head Start.

The 2016 HSPPS provide additional specificity regarding the inclusion of children with disabilities within Head Start and Early Head Start programs. Additionally, at [45 CFR §§1302.62](#) and [1302.60](#), the HSPPS explicitly require that every effort be made to include and provide services to children identified with delays or suspected delays, even if they are not eligible for services under Individuals with Disabilities Education Act (IDEA).

Section [640\(d\)\(1\)](#) of the Head Start Act defines the term "child with a disability" as:

- A child with a disability, as defined in section 602(3) of IDEA
