September 25, 2026

Megan Tschida

Community Nutrition Manager

Oregon Department of Education

255 Capitol Street NE

Salem, OR 97301

Dear Megan Tschida:

This letter is in response to the waiver request from the Oregon Department of Education (ODE) received on September 22, 2026, requesting to waive the Child and Adult Care Food Program (CACFP) regulation requiring sponsoring organizations to conduct onsite monitoring reviews of day care homes (DCHs). Under the waiver authority granted at section 12(l) of the National School Lunch Act (NSLA) (42 U.S.C 1760(l)), the Food and Nutrition Administration (FNA) approves ODE's request to waive the regulations at 7 CFR 226.16(d)(4)(iii), as it relates to onsite monitoring reviews of DCHs. Specifically, ODE is permitted to allow sponsoring organizations in good standing to conduct one offsite monitoring review of DCHs within the program year.

In its request, ODE requested that CACFP organizations in good standing be permitted to conduct one of three required monitoring reviews virtually for DCHs due to required staff travel and facility retention. ODE stated that there are currently three sponsoring organizations of DCHs with 1,415 providers who are eligible to participate in this waiver.

ODE would require sponsoring organizations to submit, for review and written approval, monitoring plans including how technology solutions will be utilized to perform monitoring reviews, as well as provide technical assistance, and address missed reviews and any serious deficiency determinations. Upon approval, ODE will allow eligible sponsoring organizations to conduct one offsite monitoring review of DCHs to include the required review elements and documentation listed at 7 CFR 226.16(d)(4)(i)

via Zoom, Microsoft Teams, FaceTime or Google Duo. Sponsoring organizations granted this flexibility by ODE will be required to conduct a phone or video call to conclude their review.

FNA approves ODE's request to allow sponsoring organizations in good standing to conduct one offsite monitoring review virtually and has determined that continuing to allow some virtual reviews will facilitate program operations and help mitigate challenges related to monitoring in remote or isolated geographic areas. Therefore, FNA's approval of this waiver will not compromise the integrity of the CACFP. Provided that the sponsoring organization in good standing submits and receives approval from the State agency for a virtual monitoring plan as described above, ODE is approved to:

- Permit sponsoring organizations in good standing to conduct one annual monitoring review offsite;
- Require that at least one onsite monitoring review of each DCH provider be unannounced and include a meal service observation; and
- Require that the offsite review includes a phone or video call to complete the review.

This waiver is in effect from October 1, 2026, through September 30, 2027.

The waiver authority at section 12(l) of the NSLA requires FNA to review the performance of any State or eligible service provider that was granted a waiver. Therefore, no later than November 1, 2027, ODE must provide their assigned FNA Office with a written report quantifying the impact of the waiver, as described below. The report must include:

- A description of how this waiver allowed the Program(s) to provide nutritional meals and/or snacks to Program participants;
- A description of how this waiver improved services for the Program(s) participants;
- A description of how this waiver reduced the administrative burden necessary to

operate the Program(s);

- A description of how this waiver has facilitated sponsoring organizations' oversight abilities and responsibilities;
- A summary of how many sponsoring organizations utilized this waiver and how many were recruited or retained as a result of the waiver approval;
- A summary of how many DCHs were monitored off-site during the waiver period;
- A summary of program integrity measures taken to identify any misuse of Federal funds and identify fraudulent activities, and, if anything was identified, any actions taken; and
- A summary of any technical assistance measures that were provided by the State agency to sponsoring organizations and to DCH providers by the sponsoring organizations.

FNA appreciates the efforts of ODE to support institutions in conducting effective monitoring to ensure program integrity. If you have any questions or concerns, please contact your FNA Office.

Sincerely,
