Note: Original questions are summarized to leave out identifying information.

Q1: The Round 4 Performance Period seems to go through June 30, 2023. Would this allow us to fund a program through the end of the summer 2023?

A1: Due to the biennium ending on June 30, 2023 that is the last date that awarded funds can be spent by. Final claims and reports will need to be submitted before the end of 2023 summer. Note that this is not always the case. Funding through this grant for the next biennium would allow for spending through the full 2024 summer.

Q2: Does Addendum 2 allow funds be used for enrichment and outreach as outlined in Attachment D?

A2: The Addendum only addresses changes to the original RFA and is not an updated RFA. The eligible expense categories outlined in the original RFA and in attachment D would still be eligible use of funds.
