## Blacktail Deer - Study

**Directions:** Complete the following graphic organizer on the Blacktail Deer Video Parts 1 & 2. This worksheet will help you complete another activity later.

<p><b>What is the Blacktail Deer Study trying to accomplish?</b></p>	<p><b>How did the researchers find the Blacktail Deer on the Grand Ronde Reservation?</b></p>
<p><b>Why is the research/study important to the Confederated Tribes of Grand Ronde?</b></p>	<p><b>Why does the tribe need to know how many hunting tags to give out each year?</b></p>

Blacktail Deer - Study

<p>What is the Blacktail Deer Study trying to accomplish?</p> <p><b><u>They are trying to determine the population of the Blacktail Deer on the reservation and where they are living.</u></b></p>	<p>How did the researchers find the Blacktail Deer on the Grand Ronde Reservation? Can they identify individual deer?</p> <p><b><u>Researchers looked for what deer leave behind when they visit an area.</u></b></p> <p><b><u>Researchers analyzed stool samples to determine the number of individuals living on the reservation.</u></b></p>
<p>Why is the research/study important to the Confederated Tribes of Grand Ronde?</p> <p><b><u>Deer is an important resource for tribal members. Also, this study will allow the Tribe to know if they need to do anything to improve the population of the deer on the reservation. They will know if they need to issue more or less hunting tags.</u></b></p>	<p>Why does the tribe need to know how many hunting tags to give out each year?</p> <p><b><u>It is essential for the tribe to know how many hunting tags to give out for Blacktail deer to make sure that the population is not being over hunted. They need to ensure that the population is healthy enough for hunting to take place.</u></b></p>
