

## Quick Start Guide

Oregon's Department of Education (ODE) is leading a statewide effort to develop high-quality educational materials and outreach campaigns to support substance use prevention and opioid awareness in schools. Whether you're an educator, administrator or community partner, this Quick Start Guide introduces key project components and deliverables—each designed to strengthen prevention education and support implementation across Oregon's education system. Below, you will find an overview of available resources and their intended users.

	<b>Educators</b>	<b>Professional Learning Facilitators</b>	<b>School and District Leaders</b>	<b>Community Partners</b>
	Classroom teachers, health educators, paraprofessionals	Instructional coaches, professional learning providers	Principals, district leaders, teacher leaders, student support staff	Students, families, caregivers, community organization staff
<b><u>K–5 and 9–12 Lesson Plans</u></b> Curriculum-aligned, age-appropriate lesson plans for students in grades K–12 on substance use prevention. Instructional materials are provided for specific grade bands (K–1, 2–3, 4–5, 9–10 and 11–12) to augment annually required prevention lessons.	*		*	*
<b><u>Substance Use Prevention Professional Learning</u></b> Two six-hour synchronous professional learning sessions, one elementary and one secondary, for educators and administrators that provide the opportunity to learn about substance use prevention in Oregon schools. Materials include facilitator guides, slide decks and handouts. For more information, please contact <a href="mailto:ode.substance-prevention@ode.oregon.gov">ode.substance-prevention@ode.oregon.gov</a> .	*	*	*	
<b><u>Virtual Substance Use Prevention Professional Learning Materials</u></b> A four-part virtual learning session series for Oregon educators, designed to build awareness of the opioid epidemic, support compliance with new state legislation and equip school staff with strategies, resources and K–12	*	*	*	*

lesson plans for effective opioid prevention education.				
<u>Bilingual Social Media Campaign</u> School media campaign, including assets in English and Spanish and implementation guidance, designed to support substance use prevention awareness for K–5 parents and 6–8 and 9–12 students.			*	*
