

Elevating the voices of young people.

North Bend Middle School
6th grade Social Studies <3

What should Oregon's leaders be learning from the COVID-19 crisis?

They should learn how important basic supplies like hand sanitizer and soap is.

They should have learned how to use their supplies well and wisely.

Well they should be learning we don't need all the things we think we do like factories.

Just because something scary is going on doesn't mean you should be scared

No matter how bad the situation is, you should always protect your people!

That more healthy stuff comes first before any junk food

To stock up on the essentials when there is a virus going around

You need to be prepared for anything! Stock up on things and provide more essential things.

They should stop making us do school work about the virus but instead work on what we would have learned before the virus

They should learn everything!

When there is news of a virus making lots of people sick you should take it seriously.

They need to stalk up on toilet paper and stuff people keep hoarding

They should make a limit on how much of one thing you can buy.

That the citizens aren't just gonna sit back and watch them not make the right decisions and mess up!

How to unite while social distancing and in a crisis

For us to be more prepared for situations like these

Don't touch thing that you don't need or are going to use.

That people should not overreact in a crisis

People need to stalk up on stuff in case something like this happens again

If U cant afford one of them we can not afford 2 of them

Be sure to have all the supplies you need to survive just don't be greedy

I rate 2020 a half star... it was terrible!! No one buy this game on the App Store!!

Have a better state of emergency plan in place

I hope the world opens and we can go places again

Even tho there's a huge thing going on there's maybe 4 cases I think in Coos Bay but there is none in North Bend so why do we have to suffer if it's not even here!!

What do you think learning should be like following this pandemic?

Smaller class size so we can stay free of viruses.

Online and safe at home

Learning should be the same but just know that staying clean is important

I don't think that moving desks and working outside will help because we go on buses, we use the same bathrooms, pencils, papers, books etc.

I think we should have it a little more easier in trying to reach each other

Classes outside so we can social distance while we learn.

I like what we are doing this is fine

I think it should be like before the pandemic just with different rules to keep the virus from spreading.

I believe that the online Schools who were functioning through all of this when we had a one month break SHOULD GET TO KEEP THEIR GRADES because THEY NEVER STOPPED WORKING!!!!!!!!!!!!!!

Classes should be as far away from personal confirmation . So staying away from each other is fine and dandy
I think it should go back to how it was before.

I think we should social distant more and classes should be shortened with time and people, and we should also have to wear masks.

Desks should be farther apart to slow the spread of the virus.

I think we should do distance learning until this is over. I do not want to wear a mask all day and have to worry about it all day.

A lot shorter than normal, so we are not stressed and overworked, Also we should be able to have the time to hang out with family

It will probably cause schools to have less kids in them so that we don't get another pandemic like this.

I think they should make next year a little longer so that way we can catch up on everything we missed this year.

Why are we starting to not quarantine i mean we are on phase one this is crazy corona hasn't stopped. So have we stopped quarantine

Are we all going to die?

What question would you like to ask Oregon's leaders?

This might be a stupid question, but I was wondering why all businesses can't open up, even if it's almost always half capacity, because most or some businesses will go out of business because they just opened up!

Why are they not increasing the productions of goods that we need instead of stuff we don't need.

Are we ever gonna go back to school? Are they ever gonna find a cure? Are we ever gonna have a normal life again?!

Why does the media make this and other things so scary?

Why is this still going on? No one listens.

When can we go camping again?

What will happen to people like my mom who lost their job, income, retirement, health benefits?

How are we going to get through this year and the next?

What is going to happen to our education? What is it going to be like next year at school?

When the time comes, will everything open at the same time, or will everything open slowly? Like, one at a time.

When can we see our friends?

Are you going to answer our questions?

Why are you closing the hospitals? People are in need of service.

This isn't a question, but if anything, our stock market will go down from this!

When can we go back to real school?

Just why? They are just doing things that are wasting money when we could give it to important things like hospitals, schools, police, etc.

What will it be like for the years to come?

When do you think people will find a cure?

How is it going to be next year?

What are you going to do later in the year?

Why were people not aloud to vote what was shutdown?

IT'S NOT FAIR THAT YOU ARE TAKING AWAY THE GRADES OF THE KIDS WHO ALREADY DID ONLINE SCHOOL, AND WORKED THROUGH ALL OF THE BRICK AND MORTAR SCHOOLS BEING SHUT DOWN! THEY TOOK NO BREAK! AND THEY NEVER EVER STOPPED WORKING! ARE YOU GUYS SERIOUS!?! THEY EARNED ALL OF THEIR GRADES! DON'T PASS OR "INCOMPLETE" THEM!!!!!!!

Will our investments and stock market grow from this

Stay AWAY!

BE KIND!

*Don't be dumb like my neighbors and hang out with each other EVERY SINGLE DAY!
And be careful of the people who have underlying health conditions! (Like Myself!) <3!*

Share our supplies with those in need

Donate to people in need

Stay safe

Be careful around everyone and anyone!

Don't touch other people!

Stay in contact with friends and family over the phone

Be kind!

Support each others decision

Be kind, be there for your family and friends

KEEP IN TOUCH!!

Help your parents out they are stressed too

Help Out!

Don't hang out with people

Hang out with people that are alone

Donate supplies

Don't get more

Don't bother your parents about things that aren't important.

Stop people from hoarding toilet paper!

Wear a mask!!

Please, please don't take more than you need from stores! Other people need it more than you.

Wash your hands

Stay home

Don't worry to much.

Help other people be safe

Be careful!

Remember to take care of yourself!

Instead of asking for gifts for your birthday, ask for money to donate to a charity.

Wear masks when going to the grocery store.

Don't get coronavirus!!!!!!

Can you imagine ways we can better help each other?

RESPECT EACH OTHER
