

## Community Mental Health Services by County

**\*\*\*Call before you go.** If you have flu-like symptoms or have reason to think you might have COVID-19, let your healthcare provider know before you visit. This will help avoid exposing anyone else at the provider’s facility. Upon arrival to any of the locations, children and families may be screened at the front door for temperature and other health related concerns and will be asked to maintain safe social distancing measures.

\*Telehealth means both audio and visual capacity for appointments
