

Work Order Contract Pre-Operations Report

Project Name: Wildcat Crushing
County (%): Washington (100%)
Elevation: 3,070 ft

Tax Code(s): n/a
BOF%: 100 **CSL%:** 0

Legal Description:

Quarry: T2N, R5W, Sec. 13
 Stockpile Sites: T2N, R5W, Sec 13
 T3N, R5W, Sec 28
 T3N, R6W, Sec 25

I. PROJECT SUMMARY:

Description of Project: Crushing of approximately 27,500 cubic yards of 1 ½”-0 rock at the Wildcat Mountain Quarry. This project will be within the footprint of the existing quarry; no timber removal is necessary with this project. The crushed rock will be stockpiled at the Wildcat, Ingersoll and Cochran Road 4.5 Stockpile Sites. This rock will be used for forest road maintenance, road improvement and road construction needed for future timber sales.

1. Is the project within a Habitat Conservation Area? Yes No

The Ingersoll and Cochran Road 4.5 Stockpile sites are established stockpile sites and located within a Habitat Conservation Area in the Wheeler Basin. The Wildcat Quarry and Wildcat Stockpile Site are located outside of any Habitat Conservation Areas. All activities will be within the existing footprint of the quarry/stockpile sites.

2. WOC Cost estimate: \$750,000

II. ACCESS CONSIDERATIONS

Table 1. Transportation Management Summary (Miles)

Activity	Mainline	Collector	Rocked Spur	Dirt Spur
Construct	0	0	0	0
Improve, Rock, and/or Maintain	0	0	0	0
Block (Dormant)	0	0	0	0
Vacate	0	0	0	0
Stream Crossings: install on existing road (IE)/replace on existing road (R)/install on new construction road (NC)				
Type F - SSBT ^a	0	0	0	0
Type F – Non-SSBT	0	0	0	0
Type N	0	0	0	0

a. Salmon Steelhead and Bull Trout (SSBT)

1. Are easements required for the haul route? Yes No
2. Rock Sources for this operation: Wildcat Mountain Quarry
3. Are property line surveys required for this operation? Yes No

III. RELATED OPERATIONS

1. Is this WOC Project associated with, or in close proximity to any other WOC Project, Harvest Operation (either planned or sold), or Recreation Project? No Yes, describe coordination needed.
 - FY27 Triple Play timber sale will be crushing out of the Wildcat Mountain Quarry. Coordination will be needed if operations are active at the same time.

IV. WILDLIFE AND T&E SPECIES CONSIDERATIONS:

1. A portion of the WOC project is within (Check all that apply):
 - TAS NSO Circle or Home Range, or Baseline or Elevated Baseline Thiessen
 - MMMA None If yes, consult with the Area Wildlife Biologist and describe outcome here.
2. Will this WOC project modify potential habitat (i.e. remove trees over six inches in diameter) that would require habitat review? No Yes, please describe:
 - If it is determined that modification of potential habitat is necessary during project implementation, the Area Wildlife Biologist will be consulted.
3. Are there any additional considerations (FPA Resource Sites, Species of Concern sites/Plant , big game habitat/management, other)? No Yes, please describe:

V. AQUATIC RESOURCES:

1. Do any streams require additional review for the following?
 - Fish presence No Yes
 - Perennial/Seasonal: No Yes
 - H.E.R./P.D.F.T: No Yes
2. Will this WOC Project occur within the Riparian Conservation Area of any stream?
 - Unknown No Yes, describe the # of crossings, stream classifications, planned crossing types:
3. Is a portion of the project within an Aquatic Anchor? No Yes, name:
4. Are any Points of Diversion (Domestic Water) located downstream within 3,000 feet of the WOC Project? No Yes, describe protection measures:

VI. SLOPE STABILITY ISSUES:

Table 2. Summary of Slope Stability Assessment

Project	Project Review Complete	Public Safety Review Complete	Additional Comment
Wildcat Crushing	Y	Y	

Geotech Review: Additional consultation with Geotechnical Specialists will be done during project finalization as needed.

VII. RECREATION RESOURCES

1. Recreation issues/coordination: No Yes, please describe:
 - Recreation resources exist along the haul route. Reehers Camp Trailhead and Campground along with several non-motorized trail junctions exist along Cochran Rd. The recreation unit will work with the roads unit to minimize impact to public access into the designated recreation facilities and to trails.

VIII. HISTORIC AND CULTURAL RESOURCES:

1. Has the WOC Project been reviewed by a qualified archaeologist for potential historic or cultural resource presence? No Yes
 - Cultural Resource Review will be conducted prior to project layout.

IX. SCENIC RESOURCES:

1. Are there scenic resources in the vicinity of this operation that need additional consideration?
 No Yes, please describe:

X. OTHER RESOURCE CONSIDERATIONS:

1. Has a review of the FLMCS layer determined that any resources not mentioned in the report above need additional planning? No Yes, describe below
2. Are there any other resources present that need additional consideration? No Yes, please describe:
