Executive Summary

DATE: April 8, 2025

TO: Governor Tina Kotek
Secretary of State Tobias Read
State Treasurer Elizabeth Steiner

FROM: Kate Skinner, Interim Oregon State Forester

SUBJECT: Fiscal Year 2024 Annual Report for Common School Forest Land

During fiscal year 2024 the Oregon Department of Forestry (ODF) managed 28,093 acres of Common School Forest Land (CSFL). As trustee of the CSFL, the State Land Board (SLB) oversees management to provide Oregonians the greatest benefit, consistent with resource conservation and sound land management strategies. Within this context, these lands are managed to maximize revenue to the state's Common School Fund (CSF) through an agreement among ODF, the SLB and the Department of State Lands (DSL). The DSL 2012 Real Estate Asset Management Plan states that these lands are "managed primarily to produce merchantable timber on a sustainable basis in accordance with plans adopted by the Land Board in cooperation with the Board of Forestry." Net revenues generated from CSFL are dedicated to the CSF.

This agreement and partnership among ODF, DSL and the SLB requires ODF to present an annual report regarding the status of management of CSFL. This status report includes information related to timber management (volume and value of harvested, sold and planned timber sales), fiscal year operating costs, revenue transferred to the CSF, reforestation, intensive management accomplishments and costs, and other information affecting CSFL management and operations.

Fiscal Year 2024 Harvest and Revenue

In 2024, net operating income decreased to \$908,696 due to decreased volume harvested from CSF timber sales. ODF continues stewardship of 28,093 acres of CSFL through active management, supervising and administering timber operations, monitoring environmental successes and sustaining critical wildlife habitat areas.

A number of reforestation and replanting projects were completed successfully, and young stand management activities continue to actively grow healthy, sustainable forests for future generations – providing a range of longer-term natural benefits such as wood products, diverse ecosystems and habitat, and clean air and water.

1. CSFL Harvest Volume:
 - a. 3.87 MMBF
 - b. 41 percent decrease from FY 2023
2. Revenue Transfers to CSF:
 - a. \$2.31 million
 - b. 16 percent decrease from FY 2023

3. Net Operating Income (NOI): NOI is the total revenue received by ODF minus management costs. It is influenced by the same factors that affect volume and value, as well as management expenses.
 - a. \$908,696
 - b. 26 percent decrease from FY 2023
4. CSFL Management costs:
 - a. \$1.41 million
 - b. 8 percent decrease from FY 2023
5. CSFL sales sold in FY 2024 (not yet harvested)
 - a. 4.89 MMBF
 - b. Approximately \$2.53 million in timber sale value (prior to CSFL management costs)

Other Forest Management Activities

Reforestation and young stand management are integral to ensuring a sustainable flow of wood and future habitat development. On CSFL in FY 2024, 233 acres were reforested and 1,346 acres received young-stand management treatment, improving overall forest health and future growth.

This annual report summarizes CSFL management activities from July 1, 2023 through June 30, 2024.

Financial and Asset Management

Overview

This report primarily focuses on FY 2024 (July 1, 2023 through June 30, 2024). However, forest management often requires evaluating trends in revenue and costs for previous biennia (e.g., sales approved in one year’s operating plan may be harvested over one to three subsequent years). Revenue transferred to the CSF from management of CSFL has varied over the past 10 years from \$1.9 million to \$6.4 million annually. This time period includes fiscal years prior to July 1, 2017, when ODF managed the Elliott State Forest.

The primary factors influencing revenue fluctuations include: housing starts, lumber prices, harvest timing, individual sale volumes and value, changing ratios between harvests on CSFL and Board of Forestry lands (BOFL), Endangered Species Act protection measures and uncertainty and constraints associated with litigation.

Net Operating Income (NOI)

NOI for CSFL for FY 2024 was \$908,696. NOI was calculated by subtracting costs from total revenue transferred to DSL. NOI ranged from \$908,696 to \$1.9 million for CSFL in the past 5 years (Table 1).

Table 1: Net Operating Income	
FY2024	\$908,696
FY2023	\$1,226,043
FY2022	\$1,890,650
FY2021	\$1,119,587
FY2020	\$1,103,223
5 Year Average	\$1,249,640

Annual Revenue

Annual revenue is reported throughout this report, with influencing factors included for context.

Fiscal Year 2024 Revenue and Investment Costs

During FY 2024, \$2.31 million in revenue was transferred to DSL (Table 2). Total charges for managing the CSFL totaled \$1.41 million during FY 2024 (Table 2). These expenditures include State Forests Division personnel in Salem, three regional areas, and seven districts. The units are responsible for timber sale contract development and compliance, reforestation and intensive management activities, Endangered Species Act compliance, research and monitoring, forest planning and public engagement, and overall program administration.

Other charges to the CSF, referred to as “Net Revenue Transfers,” totaled \$250,826 in FY 2024 (Table 3). This is approximately 18 percent of total overall costs. Revenue transfers include a prorated portion of ODF’s total costs for capital improvement projects, debt service, and seed orchard management.

Revenue transfers include a portion of overall agency administration prorate which totaled \$243,545. It is ODF's goal to ensure that allocation of agency administrative costs accurately reflects work performed by administrative and managerial staff, and that each program pays their appropriate share of administrative costs.

J.E. Schroeder Seed Orchard costs for FY 2024 were \$4,445. These funds were used to produce genetically improved seed (superior growth, wood quality, and disease tolerant characteristics as identified through traditional breeding and selection methods) appropriate for reforesting state forestlands.

The fire protection cost for 28,093 acres of ODF managed CSFL was approximately \$150,818.

CSFL Revenues and Expenditures for FY 2024

¹ Average stumpage for new sales sold during the fiscal year and is not related to the harvested volume and value columns, which cover harvests spanning multiple fiscal years.

² Timber Sale Value is gross timber sales value before project work credits have been subtracted.

Forest Land Management

During FY 2024 ODF managed 28,093 acres of CSFL (Table 5). Activities conducted on CSFL managed by ODF include: timber harvest, reforestation and young stand management, and road construction and maintenance.

Timber Management Activities

A total of 10 active sales were harvested in FY 2024, producing 3.87 mmbf of volume with a value of \$2,174,432 (Table 7). In addition, there were 6 sales sold in FY 2024, totaling approximately 4.89 mmbf of timber volume (Table 6).

All planned sales on CSFL in FY 2025 are estimated to produce 188 mbf of timber volume with a net value of \$60,791 (Table 8).

Reforestation and young stand management activities such as site preparation, planting and thinning are used to promote healthy and productive forest land. Table 9 summarizes planned and completed acres and costs for these activities on CSFL.

Table 10 provides information about the road system management on CSFL by District and County.
