

STAFF REPORT

Agenda Item No.:	8
Topic:	Environmental Benefits of Sustainably Managed Forests
Presentation Title:	Oregon Forest Resources Institute's (OFRI) Video "Forest to Frame"
Date of Presentation:	September 7, 2016
Contact Information:	Timm Locke, Director of Forest Products (OFRI)

A new video produced by the Oregon Forest Resources Institute highlights the environmental benefits of wood construction and using wood products sourced from sustainably managed forests. The five-minute "Forest to Frame" video seeks to enhance public understanding of how building more structures with wood helps address pressing global challenges such as population growth and climate change.
