

Submitted: March 5, 2019

Gentlemen: I am opposed to any further regulations regarding forest lands. Should the marble marlett impact the forest lands for restrictive use, I will impose the 5th and 14th amendments. This will constitute a form of taking and will require just compensation be paid to all land owners impacted. I also feel the persons or board members who vote for such regulation be personally and financially responsible. This can be accomplished by piercing the corporate shield. Thanks for voting against further forest regulations.
