

Eastern Oregon Regional Forest Practices Committee Meeting – October 2024.

Forest Practices Technical Guidance (FPTG) Development Update:

In just over a year, the Forest Resources Division has developed 10 FPTG documents as part of the new FPA ruleset. An additional 2 Forest Practices Technical Notes were updated.

Most recently:

- Forest Road Inventory and Assessment (FRIA) – Published to ODF Website
- Wet Weather Road Use – Published to ODF Website
- FP Technical Note #2 and #6 (HLHL Landslide Public Safety) are in the final stage of updating. This work started in 2020. Rules have not changed; we had a bit of extra capacity to finish these.

FPTG drafts:

- All Stream Crossings – Draft should be ready for review the end of October or Early November 2024.
- Water Classification and Flow Calculation (FP Tech Note 1 Update) - current draft. We are still working through a couple of policy decisions.
- Fish Stream Crossings / Fish Passage – Currently drafting - TBD (2025)
- Fish Salvage and Isolation - Currently drafting - TBD (2025), further discussion with other agencies.
- 100-year peak flow for stream crossing (FP Tech Note 5) – TBD (2025), evaluating process.
- Vacating Forest Roads and Water Crossings - TBD
- Road Drainage Systems (current Tech Note 8) - TBD
