

Smoke Management Public Comments

Name	Comment
Alan Unger (Deschutes Co.)	Get to more solutions
	Pilot project here in central Oregon or Deschutes Collaborative
	Personal Protection Plans
	Local actions
	Check data on weather 5/8 - 5/12
Craig G. (USFS-BLM)	Good opportunity to move forward
	Base future plan on biophysic realities that wildfire does not equal more smoke
	Only manage some aspects of fire but seize opportunities to increase outcomes we want
Amanda Stamper (TNC)	Trade-offs
	Mechanical treatments good/needed but we need prescribed fire to achieve more
	Only few more resources to burn 200 acres vs only 20 acres
	Try for more acres
	Hard to quantify an "advanced scenario"
Ray Wilbery (Sierra Club alt)	May not be able to catch-up
	PE on piles toxic cocktail
Rex Storm (AOL)	Balanced harm assessment with legal sufficiency to increase prescribed burning vs. wildfire smoke
Kendal Martel (Sustainable NW)	Expanding interaction between/among collaboratives "Blues" Network
	Data on public health, especially vulnerable populations with areas in Oregon
	Increase collaboration in this effort
	Community outreach
DJ (FS; FMO COFMS)	Federal folks surround these communities and we would want to be engaged
Mark Stern (TNC)	Ashland & Bend as pilots to "test" the opportunities
