**SUMMARY**

The purpose of this agenda item is to seek approval from the Board of Forestry to commence rulemaking processes to repeal and modify rules as directed by 2025 legislation.

**CONTEXT**

The 2025 Legislature passed SB 83 and HB 3349, both amending and/or repealing Oregon Revised Statutes. The corresponding Oregon Administrative Rules must now be corrected to align with the new altered statutes.

**BACKGROUND AND ANALYSIS**

SB 83 repealed ORS 477.490 that established the Statewide wildfire hazard map and rules relating to it. OAR chapter 629, Division 44 is the set of rules that resulted from ORS 477.490 setting the guidelines for its implementation. With the passage of SB 83, ORS 477.490 has been fully repealed, negating the rules set forth in OAR Chapter 629, Div 44. Additionally, OAR chapter 629, Division 01 rules will be amended to remove references in procedural rules to the hazard map.

HB 3349 amended ORS 477.406 to include “mitigation” in the list of allowable activities in this statute alongside “prevention” and “suppression”. The context of this statute change is that mitigation activities are now included in cooperative contracts and agreements for forest protection. OAR chapter 629, Division 41-0100(1) and (6) must now be amended to match the referenced ORS. The word “mitigation” will be added to both (1) and (6) of this ruleset.

**ALTERNATIVES CONSIDERED**

- No alternatives considered

**RECOMMENDATION**

The Department recommends the Board of Forestry authorizes the Department to commence the rulemaking processes to repeal and amend Oregon Administrative Rules as described.

**NEXT STEPS**

With BOF approval, the Department will begin the rulemaking process as described in ORS Division 183 and the Administrative Procedures Act to repeal and

amend the OAR's as described. Following notice to the Secretary of State, a public comment period will be held as required in the APA. Next the BOF will be presented with Draft Rules representing the changes for final approval and filing.

#### **ATTACHMENTS**

1 attachment with draft rules and draft rule filing notice.

RULE TITLE: Wildland-Urban Interface Identification Criteria

RULE SUMMARY: Wildfire Hazard rules repeal. Wildland Urban Interface Definition.

RULE TEXT:

(1) The Wildland-Urban Interface is a geographic area comprised of tax lots, or portions of tax lots that includes an average density of one structure or other human development per 40 acres and either:

(a) meets with wildland or vegetative fuels; or

(b) intermingles with wildland or vegetative fuels; or

(c) is an occluded geographical area.

(2) The Wildland-Urban Interface also includes:

(a) lands identified within an urban growth boundary or unincorporated community boundary by local comprehensive plans that meet the criteria in (1)(a); or

(b) a planned development, within the urban growth boundary or unincorporated communities, that is not identified in 1(a) but that is approved for development that meets the criteria in 1(a).

(3) If multiple structures or other human developments are located on a single tax lot, then the totality will be considered a single structure or other human development.

(c) High Wildfire Hazard. A value greater than 0.137872 .

(2) It is recognized that natural vegetation is highly variable and that the fuel models used in subsection (1) of this rule may not always accurately reflect expected wildfire behavior, due to variations in local species and vegetation conditions. Therefore, consistent with peer reviewed methods, modifications may be made to the hazard rating to ensure accuracy.

(3) Each wildfire hazard zone assignment shall be based on the average pixel-level wildfire hazard values within each tax lot.
