SUMMARY

Oregon revised statutes define the Department’s Fire Protection Policy, which requires a complete and coordinated system. This system relies on the partnership between the Department and forest landowners with a commitment to ongoing communication and collaboration with many other state and federal agencies. Fire management leaders from the Department will provide a briefing on some of the ongoing coordination and an up-to-date fire season status report during this agenda item. A weather forecast and fire season outlook will also be included in this agenda item
