Oregon Board of Forestry
2019-2021 Agency Request
Biennial Budget Approval
Tuesday, July 24, 2018
I. Executive Summary

The Oregon Board of Forestry and Department of Forestry are working to complete the 2019-21 Agency Request Biennial Budget (ARB). The biennial budget development process is a long, iterative, and often changing process dependent upon a number of internal and external relationships, inputs and analyses. The ARB is the first phase of that process. The ARB proposed by the Department was developed in accordance with the Board’s and the Department’s missions, legal responsibilities, obligations, and strategic and operational plans as well as a set of principles outlined by the Governor.

The Department’s current 2017-19 Legislatively Approved Budget through February 2018 provides a stable basis for developing the 2019-21 biennial budget.

The Current Service Level (CSL) is the estimated cost of continuing current programs into the next biennium, as required by law. The Department’s CSL is calculated based on specific budget instructions provided by the Department of Administrative Services (DAS). The CSL totals approximately $379.2 million which is a $120.5 million or 24% decrease from the 2017-19 Legislatively Approved Budget.

In order to meet Board and Department goals and objectives, support Board work plans, meet statutory and rule obligations and responsibilities, manage risk and increase efficiency in the delivery of services, the Department is proposing a total of five new investment packages, totaling $50.5 million total funds, with an increase of 69.77 FTE.

The sum of an agency’s CSL and policy packages comprise the ARB. The Department is proposing an ARB of $429.8 million for a $70 million or 14% decrease from the current biennium’s Legislatively Approved Budget. The number of Department Full-time Equivalent (FTE) increases by 54.96 for a total of 922.26 FTE.

The Department will continue to involve stakeholders in the budget development process, and update the Board during regularly scheduled meetings, or more frequently as necessary, on any and all changes initiated by the Governor to the Department’s Agency Request Budget.
II. 2019-2021 Biennial Budget Update – Status of Current Biennium’s Budget

Chart-1

Chart-1 shows the agency’s 2017-19 Legislatively Approved Budget as of February 2018 by program area and percentage of the total budget.
Chart-2

Four of the Department’s eight program areas currently have state General Fund dollars: Fire Protection, Private Forests, Debt Service, and Agency Administration. General Fund in these programs leverages both Other and Federal Fund dollars.
Result of Interim Legislative Actions

The Department’s Legislatively Approved Budget through February 2018 provides a stable basis for developing the base budget for the 2019-21 biennium. As necessary, all other post-February 2018 Legislative Session & Emergency Board actions for the current biennium will be incorporated into the budget process for consideration during either the Governor’s Budget or Legislatively Adopted Budget phases.

III. The Biennial Budget Development Process

The 2019-21 budget process has four major phases. The Board and Department are currently in the Agency Request Budget phase.

<td>State Forests – Sort Sale Limitation</td>
<td>Proposes an Other Fund limitation increase to administer the sort sale method of timber sale contracts. In a traditional timber sale the Agency receives revenue for stumpage and the Purchaser is responsible to contract the associated activities. Under the sort sale method ODF would contract for these activities and receive revenue for logs delivered to a mill. VII. Governor’s Budget

Pending Board approval, the Department will formally submit the 2019-21 Agency Request Budget to the Governor on or before August 31, 2018. The Governor and her budget analysts will then analyze the request and make changes based on the Governor’s priorities which will be constrained by the projected amount of available General Fund resources.

The Board and Department can anticipate the following decisions to be made by the Governor:

- In order to achieve a balanced budget the Governor may require the Board and Department to undertake a certain level of General Fund budget reductions; and
- The Governor may choose not to fund all proposed policy enhancement packages put forth by the Board and Department in the Agency Request Budget.

The Department will continue to update the Board during regularly scheduled meetings or more frequently as necessary on any and all changes initiated by the Governor to the Department’s Agency Request Budget. The Department will also continue to work closely with stakeholders on key budget issues.
