Testimony Against Petition for More
Item #6 Rules & Regulations to
on Agenda Protect Coho Salmon & restricting
Timber Production, Harvest & Ownership.

Oregonians do not need one more
restriction, inspection, requirement, policy, law
to protect the Salmon. We have more
than enough. Do not accept any
portion of this petition.

Stop the continuous attempts of these
environmentalists to destroy our timber
industry & family tree heritage farms.
They want to buy up every piece of
land in this state. The government
already owns 20% - leave the rest to
us. Take care of your own! This
petition will destroy our jobs & state revenue.
Sincerely, Lynnette Hofler member
OSWA & timberunity
