1) Prepare for and set aside time for the meetings and the entire process,
2) Participate fully, honestly, and fairly, commenting constructively and specifically,
3) Speak respectfully, briefly, and non-repetitively; not speaking again on a subject until all other members desiring to speak have had the opportunity to speak,
4) Allow people to say what is true for them without fear of reprisal,
5) Avoid side conversations during meetings,
6) Provide information as much in advance as possible of the meeting in which such information is to be used and share all relevant information to the maximum extent possible,
7) Generate and explore all options on the merits with an open mind, listening to different points of view with a goal of understanding the underlying interests of other RAC members,
8) Consult regularly with their appointing/nominating bodies and provide their input in a clear and concise manner,
9) Each member agrees to work toward fair, practical, and durable recommendations that reflect the diverse interests of the entire RAC and the public,
10) When communicating with others, accurately summarize the RAC process, discussion, and meetings, presenting a full, fair, and balanced view of the issues and arguments out of respect for the process and other members,
11) Not attempt to affect a different outcome outside of the RAC process once the RAC has reached a "consensus" recommendation,
12) Strive vigorously for consensus and closure on issues, and
13) Self-regulate and help other members abide by these commitments.
