

ODF Incident Resource Agreement (IRA)

2025 Resource Rate Guidance Information

The resource rates in this guidance have been identified as 2025 median 'Wet' Rates for the ODF Incident Resource Agreement (IRA) resource types in the Oregon/Washington region. 2025 rates reflect a 2.6% increase across the board for all resources based on the Consumer Price Index (West Region) All Items Index, annual percent change from July 2023 – July 2024.

Purpose

It is strongly encouraged that vendors review this guidance when determining rates to be offered under the IRA.

IRA resources with rates that more than 10% above the ODF median rates as stated herein, may be subject to being offered assignments only after all other resources (including available federal resources) are depleted.

Rates for Resources that are not listed in this guidance will be reviewed by ODF for appropriateness and may require a discussion with ODF and the vendor prior to execution of an IRA.

**** Rates are based on a 14-hour shift.**
