

ODF Incident Resource Agreement (IRA)

2023 Resource Rate Guidance Information

The resource rates in this guidance have been identified as 2023 median 'Wet' Rates for the majority of firefighting resource types in the Oregon/Washington region.

Purpose

Vendors are not required to utilize this guidance; however, it is strongly encouraged that vendors review this guidance when determining rates to be offered under the 2022-2024 IRA.

ODF will accept rates in the Optimal Range Margin of 95% - 110% of the median rates listed in this guidance without conciliation.

ODF may accept rates above the Optimal Range Margin of 110% of the median rates listed in this guidance pending negotiation discussions with ODF District Offices or the Protection Contract Services Unit (PCSU).

If a vendor's offered rate remains above the Optimal Range Margin of 110% of the median rates listed in this guidance **OR** the rate accepted by ODF after negotiation, ODF may still execute an IRA with that vendor. Resources with rates that are outside of the ODF accepted rates as stated herein, may be subject to be offered assignments only after all other Resources are depleted.

Rates for Resources that are not listed in this guidance will be reviewed by ODF for appropriateness and may require a discussion with ODF and the vendor prior to execution of an IRA.
