

# The ODF Urban & Community Forestry Assistance Program Oregon TreePlotter Inventory (TPI) Users Monthly Discussion Group

Is your city using or considering using Oregon TreePlotter Inventory, the ODF Urban & Community Forestry Assistance Program's free to cities tree inventory platform? If so, please join us for our once-a-month discussion group we call **TPI Tuesdays!**

Every **fourth Tuesday from November 2021 - February 2022, 2:30 - 3:30 pm.**

Register for one or more meetings using the link below. After registering, you will receive a confirmation email containing information about how to join the meeting.

## **General Meeting Agenda**

This is a *discussion group* – not a webinar, not a formal meeting – it is a time for us to discuss how things are going with your inventory efforts and TPI software use. What is and what is not working? What have you discovered? What bugs you?

We will begin each session with a brief check-in to hear “what’s been going on with you.”

If there are a lot of new users or “just-looking” folks, we will start with a short overview of the TPI software. Next, we will talk about the questions we’ve received and our responses to them.

We may view a training video from PlanIt Geo on an aspect of TPI and discuss its application.

There will be time for questions and answers. We may look at the Oregon TPI home screen together to discuss ideas and approaches to using the OR TPI software and conducting tree inventories in your town.

## **Please note**

Neither Kristin nor Katie are TPI or GIS “experts” like our ODF-GIS wizards and the support staff at PlanIT Geo. We try to answer most TPI questions that come our way, but if we can’t, we will refer the question and/or the questioner to ODF-GIS or PlanIT Geo.
