Director's Message

July 9, 2025

State budget overview: what's ahead for 2025-27

I'm pleased to share that the Oregon Legislature has concluded its regular session and approved ODHS' budget for the 2025–27 biennium. Thanks to many months of thoughtful collaboration with the Governor's Office and Legislature, the agency's approved budget includes **$7.5 billion in General Fund dollars**—a **23% increase** over the previous biennium—along with **11,384 positions**.

In a time of constrained state resources and uncertainty around key funding streams, this budget represents a significant accomplishment for our agency and the people we serve. Its investments will support the core needs across our programs, strengthen our operational foundations and improve safety for our clients and staff. Together, the resources will help ensure we can continue delivering equitable and effective services to Oregon's children, families, older adults and people with disabilities.

General Fund investment highlights

- **Focus on safety and oversight**: A **$2.8 million** investment in Senate Bill (SB) 5526 will strengthen oversight capacity in the offices of Aging and People with Disabilities and Developmental Disabilities Services, allowing more timely inspection of newly licensed or newly purchased community-based care facilities. The budget also includes investments in Shared Services security contracts to improve the safety of staff and clients in our local offices, and for positions in Vocational Rehabilitation that will ensure effective administration of employment services contracts.

- **Youth and family support**: SB 5526 also makes meaningful investments in prevention and intervention services, including **$19.7 million** to sustain core services in the Youth Experiencing Homelessness Program and **$7 million** to continue implementation of the Family First Prevention Services Act, aimed at

helping families avoid child welfare system involvement.

- **Services for older adults and people with disabilities:** The agency's current service level (CSL) budget includes a **$56.9 million** increase to implement the Agency with Choice service model, which will expand options for consumers of in-home supports to direct their own care.
- **Provider rates:** To support continued access to quality care, the budget includes **$75 million** to increase Medicaid provider rates in the offices of Aging and People with Disabilities (APD) and Developmental Disabilities Services (ODDS), plus **$2.5 million** to increase payments for the Independent Living Program administered by Child Welfare. These increases are in addition the 6% Behavioral Rehabilitation Services (BRS) and 11.3% nursing facility increases included in the CSL.
- **Shoring up operations**: The budget includes several investments to strengthen operational infrastructure in the Oregon Eligibility Partnership, including **$2.2 million** for mainframe modernization and **$4.5 million** to continue leveraging national data services to efficiently process Oregonians' benefit applications.

Additional budget direction

Alongside these investments, SB 5526 is associated with several budget notes related to provider rates and wages. One directs ODHS to collect and analyze wage data from assisted living, residential care, memory care, adult foster home, and in-home care providers serving Medicaid beneficiaries, and to report findings to the Legislature by spring 2027. Two additional notes direct the agency to implement restructured rate methodologies for payments to adult foster home and residential care facility providers.

House Bill (HB) 5006, an omnibus bill passed near the session's end, also includes a budget note pertaining to ODHS. Aimed at ensuring Medicaid compliance for the Stabilization and Crisis Unit (SACU), the note directs the agency to develop a plan in partnership with community for returning SACU to its original purpose as a short-term crisis stabilization setting.

Closing thoughts

We will continue to analyze the impacts of the recently passed federal budget bill and will communicate our findings in the coming days and weeks. However, the state budget is a strong vote of confidence by our local leaders in ODHS, our mission, and the thousands of staff members whose daily efforts turn legislative investments into real results for the people we serve. In a time of limited resources and competing priorities, these investments unequivocally affirm the value of this work and recognize the difference you are making for Oregon's children, families,

older adults, people with disabilities and Federally Recognized Tribes. I'm deeply grateful for your continued commitment, and I look forward to all the ways your care, creativity and collaboration will bring these investments to life in the biennium ahead.

In appreciation,

Fariborz Pakseresht, Director
Oregon Department of Human Services

Oregon Department of Human Services

Overview

The mission of the Oregon Department of Human Services (ODHS) is to help Oregonians in their own communities achieve safety, well-being, and independence increasingly through locally informed, culturally appropriate, customer focused services and customer service provided at the State and/or Local level in a way that protects, empowers, respects choice, and preserves dignity of all Oregonians in need of ODHS services.

As described in more detail in the ODHS LAB Director's letter is based on advancing the Building Well-being Together initiative through investments in the following three key areas:

1. **Strengthening ODHS foundations –** building the capacity we need to serve our communities more equitably and effectively;

2. **Preparing for and responding to emergencies –** providing mass care, shelter, food, and water in times of disaster while investing year-round in agency and community preparedness; and

3. **Creating the future of ODHS and human services in Oregon –** working internally and externally to break down siloes, connect systems together and identify gaps in services. This includes engaging local communities impacted in the process. By analyzing these gaps, we can better identify and implement, including input from local communities to determine for any improvements or rule/statutory which pay include systemic barriers we are dedicated to dismantling. ODHS acknowledges that people and communities are the experts in their own lives and partnering with them to design services that better support their needs and goals will lead to better outcomes.

Funding

The ODHS Legislatively Adopted Budget provides ODHS a General Fund investment of $7.45 billion General Fund and $23.01 Billion total funds for the 2025-27 biennium.

ODHS	GF	OF	FF	TF	POS	FTE
Leg Approved 23-25	6,287,082,252	1,260,881,493	13,167,271,588	20,715,235,333	11,282	10,960.24
Leg Adopted 25-27	7,456,846,683	1,304,300,928	14,244,129,234	23,005,276,845	11,384	11,305.19
Difference 23-25 LAB - 25-27 LAB	1,169,764,431	43,419,435	1,076,857,646	2,290,041,512	102	344.95
% Difference 23-25 LAB - 25-27 LAB	18.61%	3.44%	8.18%	11.05%	0.90%	3.15%

Major changes from 23-25 LAB to 25-27 are driven mainly by:

- Roll up of 23-25 investments
- Phase out of one-time funding for nonrecurring expenditures
- Standard inflation
- Forecasted Cost per Case and Caseload changes including related staffing
- Changes in Federal Medicaid Assistance Percentages (FMAP)
- Phase out of ARPA HCBS Funding

Strategic Funding Investments and Adjustments

Descriptions of each major Policy Option Package (POP) and other Package investments/reductions are included in the appropriate programs budget narrative in the following sections of the ODHS ARB document. The list below is not in ODHS's priority order.

ODHS	GENERAL	OTHER	FEDERAL	TOTAL FUNDS	POS	FTE
POP 101 Strengthening Safety and Regulatory Oversight	2,834,473	-	2,834,473	5,668,946	33	21.27
POP 104 Federally Required Changes to Data Services Hub	4,461,370	-	13,471,166	17,932,536	-	-
POP 105 Contract and Fiscal Compliance	745,663	-	-	745,663	4	3.00

POP 112 Family First Prevention Svcs Act Implementation	7,041,752	-	7,041,752	14,083,504	2	1.50
POP 201 Mainframe Modernization	2,207,443	407,237	3,618,002	6,232,682	6	4.50
POP 501 HH - FC Youth: Path to Housing Stability	2,453,197	99,059	112,219	2,664,475	3	1.50
POP 502 HH - YEHP Core Service Maintenance	19,707,205	-	-	19,707,205	6	5.25

Conclusion

For the 25-27 biennium, the LAB invests in an array of services that promote safety, wellbeing, diversity and improving the economic sustainability, increasing safety, and achieving Wellbeing for some of Oregon's most Vulnerable. These investments will help ODHS meet the needs of Oregonians in this period of increasing diversity, change and growth.

Oregon Department of Human Services
Central Services

Overview

ODHS Central Services provide essential supports to ODHS programs, helping each achieve their vision, realize target outcomes, and advance the wider agency mission.

It consists of the Office of the Director and Policy including the Chief of Staff, Tribal Affairs, the Deputy Director, the Office of the Chief Financial Officer, the Office of Immigrant and Refugee Advancement, and the Governor's Advocacy Office. Central office also includes the Office of Equity and Multicultural Services (OEMS), the Office of Resilience and Emergency Management (OREM), the Office of Human Resources, the Central ODHS Budget, Planning and Analysis Office, the Public Affairs office which includes Government Relations, Public Records, Legal Unit and Communications, the Office of Program Integrity, the Office of Reporting Research, Analytics and Implementation, the Office of Business Information Services, the Office of Information Support Services and the Integrated Eligibility and Medicaid Eligibility ONE Program Office. These offices provide essential business supports to programs in achieving the department and programs mission, vision, and outcomes.

The ODHS Central, budgets are structured and administered according to the following principles:

Control over major costs. ODHS centrally manages many major costs. ODHS also strongly supports and actively participates in statewide efforts to locate work across the enterprise and install performance management systems to perform administrative functions more efficiently and effectively.

ODHS continues with the Fundamental's map process, including Quarterly Performance Reviews. ODHS has an expectation of managers and all staff to bring forward ideas for process improvement.

ODHS is also in the initial stages of the Wellbeing project, including a dedicated focus of becoming a non-racist Agency, and looking at new inventive ways to look at how human services are delivered in the future. Being more customer centric and doing outreach to local communities, with an intentional focus on engaging marginalized and underserved communities.

Oregon Department of Human Services
Central Services

The ODHS Legislatively Adopted Budget (LAB) provides funding for Central Services at $96.9 million General Fund and $178.1 million Total funds:

Central	GF	OF	FF	TF	POS	FTE
Leg Approved 23-25	115,722,365	25,258,259	61,031,180	202,011,804	384	381.37
Leg Adopted 25-27	96,988,677	16,566,828	64,594,611	178,150,116	395	393.02
Difference 23-25 LAB - 25-27 LAB	(18,733,688)	(8,691,431)	3,563,431	(23,861,688)	11	11.65
% Difference 23-25 LAB - 25-27 LAB	-16.19%	-34.41%	5.84%	-11.81%	2.86%	3.05%

Major changes from 23-25 LAB to 25-27 LAB include mainly:

- Standard inflation
- Phase out of one-time climate, water, and resiliency related funding

Strategic Funding Investments and Adjustments

None.

Below is an overview of the offices within the Central Budget.

Office of the Director

The ODHS Director's Office is responsible for agency leadership, policy development, resource allocation, and administrative oversight for all programs, staff, and offices in ODHS in a manner that supports equitable outcomes for Oregon's diverse population. These functions are led by the Director and Deputy Director and coordinated by the Director Cabinet members, with the Governor's Office, the Oregon Legislature, state and federal agencies, Tribes, community partners, communities of color, LGBTQIA2S+ communities, local governments, advocacy and client groups, and the private sector. The Director and Deputy Director oversee Internal Audits and the Office of Training, Investigations and Safety, which provide shared services for both ODHS and OHA.

Chief of Staff

The Chief of Staff to the agency enables the Director to work most effectively with internal and external partners to fulfill commitments that achieve the agency's mission, goals, and outcomes. This is a strategic and facilitative role that requires a combination of focus and flexibility, as well as a willingness to play an active, behind-the-scenes role as the Director's trusted advisor.

Governor's Advocacy Office

The Governor's Advocacy Office (GAO) is the office of Human Services Ombuds. Ombuds (also "ombudsman" or "ombudsperson") are neutral or impartial conflict resolution practitioners who may provide confidential and informal assistance to ODHS clients and others affected by the Department's action or inaction. The GAO is a part of the ODHS Director's office and resolve issues and track trends on behalf of the ODHS Director. The office includes:

- ODHS Ombuds - the GAO has Ombuds dedicated to serving client and others with questions, concerns, and complaints about all ODHS programs and services.
- Foster Care Ombuds - the Foster Children's Bill of Rights requires that ODHS foster youth are enabled to make complaints and assert grievances regarding their care, safety, or well-being.
- Client Civil Rights investigations - ODHS non-discrimination rules and policies require investigation of reports of discrimination.
- Oversight of the ODHS formal complaint process - by rule, the Department maintains a process for handling formal complaints. While complaints may be resolved locally, the GAO partners with supervisors to oversee this process.

Tribal Affairs

The Tribal Affairs Unit within the ODHS Director's Office is a team committed to all Oregon Tribal communities thriving mentally, physically, spiritually, and emotionally. Tribal Affairs works with all five ODHS programs to create and provide Tribally appropriate programming, services, policies, and support. Through Tribal consultation with Oregon's Nine Federally Recognized Tribes, ODHS ensures programming, services and policies meet the needs of Oregon Tribal communities.

Office of Immigrant and Refugee Advancement

The Oregon Legislature through SB 778 established the Office of Immigrant and Refugee Advancement (OIRA). Transferred to ODHS from the Governor's Office in 2022, OIRA is dedicated to identifying the gaps within existing structures and strives to promote the successful social, linguistic, educational, economic, and civic integration of Oregon's immigrant and refugee communities.

The office accomplishes its work through partnering with state agencies, community-based organizations, refugee resettlement agencies (RRAs) and immigrant and refugee advocacy groups to help coordinate strategies, create policy,

develop programs, review legislation, develop tracking systems to monitor potential investments and efforts in the state, advocate that resources are being allocated equitably and effectively, and ultimately implement plans that aid in the advancement of immigrants and refugees across the state. The office conducts outreach and education and serves as a resource on state initiatives and programs to ensure equitable access for immigrants and refugees.

Office of the Chief Financial Officer

The Office of the Chief Financial Officer provides optimal business services to ensure accountability, data-driven decisions, and stewardship of resources in support of the ODHS mission. This is done by:

- Working closely with ODHS and OHA programs and the OHA Chief Financial Officer to ensure culturally competent and equitable services and accurate, timely, and efficient recording and management of financial resources.
- Authorizing the redistribution of available resources to meet changing needs; and
- Establishing administrative controls.

This office also oversees budget, planning, and analysis functions for ODHS-based programs as well as coordination and leadership of the ODHS budget with the Governor's Office, Legislature, Department of Administrative Services, Legislative Fiscal Office, and ODHS partners.

Office of Human Resources

Human Resources (HR) enables the organization to equitably recruit, support and engage a diverse workforce in a collaborative partnership to foster an environment where employees maximize their potential to achieve the agency's mission. The office serves as a strategic partner to ODHS programs, providing proactive, comprehensive human resources services in alignment with agency and program mission and goals.

HR works closely with internal customers on workforce strategies that support agency and program strategies as well as a healthy workplace culture of ongoing development and feedback. Through these efforts, HR helps ensure that ODHS has the right people with the right skills, training, and support to do their work, now and in the future.

Budget, Planning and Analysis

This office functions as the central budget for ODHS based programs working under the guidance of the CFO. Main duties include: (1) development and preparation of the department's biennial budget documents and leadership of the ODHS budget with the Governor's Office, Legislature, Department of Administrative Services (DAS), Legislative Fiscal Office (LFO) and DHS partners; (2) initiating, coordinating and developing the department's budget rebalance plans and Legislative Emergency Board items; (3) providing fiscal analysis of proposed legislation and responses to inquiries regarding fiscal impacts of policy changes; and (4) providing management accurate budget and projections to assist in the management of the overall ODHS budget of over $23 billion total funds and over 11,000 budgeted positions.

Public Affairs Office

This office supports the ODHS mission by connecting Oregonians with the information they need to access, receive, or understand department services, and to collaborate with the department to advance human services in the state.

Within the office, the **Communications** team helps engage the public in the work of ODHS, which leads to more effective and inclusive policy making. This includes implementing communication plans, coordinating social media and website content, writing direct notices to clients, and talking with the media and legislature. The communications team engages with diverse audiences, including employees, clients, legislators, advocacy and interest groups, providers and partners, local governments, state and federal agencies, policymakers, Oregon's Nine Federally Recognized Tribes, the news media, targeted audiences, and the wider public. The unit strives to use culturally relevant and linguistically competent communication practices to effectively reach Oregonians. Effective communication is the primary vehicle to demonstrate public transparency, accountability, and trust. The office also provides support to the department's priority projects as defined by the ODHS Director and executive team.

The Office of Public Affairs also includes the **Government Relations** unit. This unit advances the ODHS mission by ensuring that statutory, policy, and budget implications positively impact the Oregonians that we serve. The Government Relations team coordinates all ODHS legislative matters and works closely with the Governor's Office and key community, state, and federal partners. The team also supports field and central office staff by providing consultation and support related

to legislative and policy changes. Staff in this unit support the director of ODHS, the directors of all agency programs, and operations in the field. Legislative work is conducted with the intent of eliminating existing inequities and promoting equitable outcomes, using a comprehensive equity lens.

The ODHS **Public Records** unit reviews, completes, and responds to public records requests from clients, the media, public entities, and individuals. With a focus on equitable service delivery, the unit focuses on consistency, transparency, and adherence to public records law across all programs within the agency. The centralized team affords the ODHS workforce and partner with streamlined responses for records requests and serves as a single point of contact for records-related questions.

The **Legal** unit, also housed in Public Affairs, manages all lawsuits, tort claims, and subpoenas related to ODHS program and operations. Staff in this unit provide expert consultation to ODHS field and central office staff and Department of Justice and Department of Administrative Services Risk Management in policy related to legal matters. The team ensures timely completion of the required judicial documents to move smoothly through a complex legal matter.

Office of Equity and Multicultural Services

The Office of Equity and Multicultural Services (OEMS) provides leadership and direction in the integration of equity, diversity, and inclusion policies and initiatives throughout the agency. As an office that assists all ODHS program areas, OEMS has two main charges: The first is to guide the agency to ensure a diverse workforce with the cultural agility and language skills to serve the needs of all Oregonians, and the second is to help the agency work toward equitable outcomes for all populations using ODHS services. OEMS accomplishes this mission though policy making, strategic planning, quality improvement consulting, technical assistance, research, Employee Resource Groups (ERGs), Diversity Committees, community engagement, advocacy, ally-ship, partnerships, and continuous learning.

Office of Program Integrity

The Office of Program Integrity's mission is to support the Oregon Department of Human Services (ODHS) and Oregon Health Authority (OHA) by monitoring and measuring federal compliance, making recommendations, taking appropriate action, providing support, facilitating activities, training/coaching field staff, and reporting

trends and statistics to ODHS and OHA leadership, stakeholders, and federal agencies.

Office of Reporting, Research, Analytics, and Implementation
The Office of Reporting, Research, Analytics, and Implementation (ORRAI) compiles reports, conducts research, analyzes data, implements research, and provides both enterprise-wide and inter-agency, program-level data. ORRAI provides mission-critical information to directors, legislators, partner agencies, and the public. The office utilizes predictive analytics, workload modeling, and ODHS and inter-agency program data to improve outcomes for children and families. The office translates data into information and develops practitioner tools to ensure decisions are data informed.

Office of Resilience and Emergency Management (OREM)
The Office of Resilience and Emergency Management (OREM) focuses on the needs of people before, during and after disasters, reducing disaster impacts in times of crisis and investing in communities year-round to ensure greater resilience. OREM carries out ODHS' roles in Oregon's Comprehensive Emergency Management Plan as the primary agency for mass care, food and water in disaster situations and social services during recovery. The office centers equity in its work, ensuring that the goals and needs of vulnerable communities directly inform resilience plans and that our response systems effectively address disproportionate disaster impacts. OREM also assists other ODHS programs in preventing, mitigating, responding to, and recovering from natural, technical, and human-caused hazards.

OREM recognizes that being ready and quickly responsive hastens recovery. To achieve this, the office adheres to National Incident Management System standards and carries out a statewide strategy that aligns with the 2022-2026 Federal Emergency Management Agency (FEMA) Strategic Plan. Its staff are dispersed around the state to better identify local needs and enhance community-level relationships. To prepare for catastrophic events, OREM is:

- Establishing a mass care network consisting of public and private partners.
- Conducting exercises and drills around the state alongside local, state, federal and Tribal partners.
- Identifying needs and gaps in Oregon's mass care systems.
- Investing in county-level mass care capabilities.

- Helping to build local capacity for emergency preparedness
- Collaborating with a range of partners to advance resilience through education.

Oregon Department of Human Services
Shared Services and Statewide and Enterprise-wide Costs

Overview

Customer-driven shared services. When the agency split, ODHS and OHA agreed to maintain many infrastructure functions as shared services to prevent cost increases, maintain centers of excellence, and preserve standards that help the agencies work together.

ODHS Shared Services supports both ODHS and OHA by providing critical business services that are data-informed, accountable, and transparent. ODHS and Oregon Health Authority (OHA) govern their shared services through a board composed of operational leaders from the two agencies who ensure that shared services are prioritized and managed to support program needs. The board and its subgroups have established service level agreements and performance measures for each service, implemented recent budget cuts, moved staff in and out of shared services to rationalize service delivery, and begun implementing more integrated systems to support the performance of all our employees.

Shared Services are completely Other Funded and provide services to both ODHS and OHA. Funding for Shared Services is included in the Shared Services Funding portion of the Statewide and Enterprise-wide Costs (SAEC) budget in each agency.

ODHS Shared Services

The Legislatively Adopted Budget (LAB) for shared services is $234.5 million Other Funds. The LAB for SAEC is $480.9 million General Fund and $851.1 million Total Fund.

Shared Services	GF	OF	FF	TF	POS	FTE

Major changes between LAB and GRB include:

- Phase in of investments made in 2023-25
- Standard Inflation

Strategic Funding Investments and Adjustments

Proposed investments in Shared Services and SAEC include:

Shared Services and SAEC	GENERAL	OTHER	FEDERAL	TOTAL FUNDS	POS	FTE
POP 109 Office and Worker Safety	1,748,000	140,000	2,112,000	4,000,000	-	-
POP 201 Mainframe Modernization	1,822,997	407,237	3,233,556	5,463,790	2	1.50
POP 501 HH - FC Youth: Path to Housing Stability	61,794	99,059	36,446	197,299	1	0.50

In some cases, the shared service investment is only part of the larger POP with the remainder in other program areas.

POP 109 ODHS-OHA Office and Worker Safety

Oregon's Department of Human Services is struggling to maintain adequate safe and secure working environments across its statewide operations. Data shows a 450 percent rise in threatening incidents at offices over the last five years, a trend accompanied by a growing inability to meet employee health and safety needs. This funding was approved for facilities improvements and security and outreach contracts.

POP 201 Mainframe Modernization

ODHS continues to utilize mainframe computer systems that are more than 50 years old and increasingly unsupported, which is limiting the agency's ability to timely and accurately meet legislative and customer/provider requests. In bargaining for homecare workers (HCW) and adult foster home (AFH) providers, SEIU regularly voices concerns about this outdated technology and its impacts on providers. ODHS and OHA were

funded for an initial phase of planning related to modernizing our mainframe systems. Now, additional funding and staffing are necessary to realize the goal of getting off the aging mainframe – supporting the planning, contracting and implementation necessary to move forward with the transition. Additionally, during this phase ODHS will consider options to move payroll functions off the mainframe and continue to focus on development of new systems for financial costing, reporting, taxation, client benefit issuances and payments. Without this investment, system constraints will continue to impact our ability to implement legislative requirements and respond effectively to customer/provider requests.

POP 501 Foster Care Youth: Path to Housing Stability
Nationally and in Oregon, young people with experience in the foster care system are disproportionately represented in counts of youth experiencing homelessness. To address this disparity, ODHS Child Welfare is requesting the necessary resources to develop a central strategy for improving housing outcomes for youth with experience in the Child Welfare system. The proposed work aligns with the State of Oregon Homelessness Response Framework (HRF) Pillar 3, Youth Deliverables 3, 5, 6, and 8. Without the requested staffing and other resources, Child Welfare will remain constrained in its ability to conduct comprehensive planning to improve youths' housing outcomes following their exit from foster care.

Overview of Shared Services

ODHS Shared Services contains the following key offices and programs:

Shared Services Administration provides leadership and direction for shared services and business continuity planning efforts for both ODHS and OHA.

The Budget Center provides budget planning, financial analysis, position management consultation, facilities and motor pool coordination, and technical budget support for ODHS and OHA. These services are provided for department leadership, programs, policy and field managers, staff, and external policymakers.

The Office of Forecasting, Research and Analysis (OFRA) provides accurate, timely, unbiased caseload forecasts and related research and analysis to support budgeting, policy development, identification and elimination of inequitable outcomes, and operational planning. OFRA maintains the Integrated Client Services data warehouse, which provides caseload forecasters and other researchers with data from multiple systems within ODHS and OHA, uniting

individual person records from separate siloed enrollment systems into a cohesive whole, showing the interconnected patterns of human services as they are experienced by Oregonians in need.

The Office of Enterprise Data Analytics (OEDA) which conducts inter-agency research and advanced statistical modeling to answer cross agency and/or cross programmatic operational questions. The research analysts, economists, and information technology positions work among agencies to translate data into information; that information promotes data-informed decisions and improves outcomes for children and families. OEDA uses advanced analytics with human service organizations, health organizations, public health organizations, corrections, the courts, employment, housing, and education.

The Office of Financial Services (OFS) provides leadership, fiscal policy direction, financial systems management, and coordination of core financial accounting, payroll, and financial reporting services for ODHS and OHA. Services include but are not limited to:

- Receipting, recording, and applying millions of dollars in state and federal revenue.
- Accounting for and disbursing resources to clients, providers, vendors, and contractors.
- Managing client trust accounts.
- Administering employee payroll and benefits to approximately 14,500 employees.
- Managing cash flow, completing federal draws, and reconciling Treasury accounts.
- Ensuring accounting transactions are accurately recorded, reconciled, and reported to state and federal partners.
- Compiling, reporting, and managing federal grant awards.
- Developing financial statements, completing tax reporting.
- Overseeing e-commerce programs including ACH and credit card payments and the SPOTS Visa program.
- Managing the federal Public Assistance Cost Allocation plan and process.
- Developing and managing financial systems including all sub-system interfaces; and ensuring a proper control environment is maintained.

The Office of Health, Safety & Employee Well-being (OHSW) provides services including employee occupational health and safety, workers' compensation tracking and program analysis, property loss tracking, threat management assessments and tracking, trauma-informed services, a suicide prevention program, administration of the Employee Assistance Program (EAP), and risk management. Work within these program areas includes the development and delivery of training, regulatory compliance monitoring, strategic planning, and legislative tracking. OHSW also maintains responsibility for statewide emergency management and recovery operations under the Oregon Emergency Operations Plan and the Oregon Recovery Plan and represents ODHS on the Oregon Emergency Response Council.

Background Check Unit (BCU)

The Background Check Unit provides a comprehensive background screening process to determine if an individual should be allowed to have access to vulnerable people, IT systems or client information. BCU also provides centralized support for FBI Criminal Justice Information Services (CJIS) clearance and training for ODHS and OHA staff. BCU is also Oregon's point of contact for processing out-of-state child protective service check requests in support of federal legislation. BCU provides background check services and support to all ODHS and OHA divisions for employment purposes; for those who provide services or seek to provide services as a contractor, subcontractor, vendor, or volunteer; and for those who are employed by qualified entities that provide care and are licensed, certified, registered, or otherwise regulated by ODHS or OHA.

The Office of Facilities Management manages 2.7 million square feet of leased property for OHA and ODHS statewide. This includes support and management of over 160 offices on behalf of ODHS and OHA. This office is responsible for managing maintenance, remodeling, furniture acquisition and reconfiguration, staff relocations, coordination with DAS and state brokers on lease negotiations, and analysis of the costs and benefits of space utilization, ADA compliance, Trauma Informed spaces, and energy conservation.

The Office of Imaging and Records Management provides services tailored to business and program operational needs related to:

- Agencies' delegated authority regarding imaging and electronic and physical document and records management.
- Data entry and transmission of data to mainframe applications that generate

payment to medical and childcare providers.
- Imaging and data capture of source documents into a central repository.
- Imaging and data capture of documents into electronic workflow, eliminating the need for the customer(s) to process physical documents.
- Archive storage of physical records.
- Tracking and shipping of archived records; and
- Destruction of physical documents/records per agreement and the Secretary of State's Office retention schedule.

The office converts more than three million pieces of paper – applications, bills, claims, checks, and more – each month, making information more readily available and saving money on storage costs.

The Office of Contracts and Procurement (OC&P) provides contract and procurement services for ODHS and OHA by procuring supplies and services in the most cost-effective manner through innovative and responsible solutions. The unit provides guidance, training, and support to meet contracting and procurement needs and assists agencies with supplier diversity programs that seek to include women- and minority-owned and emerging small businesses.

The Office of Investigations, Training and Safety (OTIS) ensures safety and protection to the more than 77,500 people per biennium who receive mental health, developmental disability, or children's therapeutic services in Oregon. The office consists of four primary functional units: Investigations, Children's Care Licensing, Contested Case – Administrative Law Judge Hearings, and Training and Transformation (TnT - which includes: Quality Management and Prevention, Policy and Legal, Data, and Investigator training). Together, these functional units provide services to several programs of ODHS and OHA that serve some of Oregon's most vulnerable citizens.

The Internal Audit and Consulting (IAC) provides independent and objective information and consulting services for ODHS and OHA. The internal audit team reviews all areas of ODHS/OHA, including central operations and programs, field offices, and institutions. The unit provides other services such as consultation on internal controls and process improvement efforts, facilitation of risk assessment activities, coordination of external audits and tracking and follow-up on both internal and external audit findings.

The Office of Payment, Accuracy and Recovery (OPAR) identifies, establishes the extent of, and recovers monies owed to ODHS or OHA by clients, providers, and third-party payers for services provided by our state and federally funded health and human services programs. The office carries out these responsibilities in a customer sensitive manner and returns owed monies timely to agency programs. Its staff work in collaboration with agency programs to continuously improve the accuracy of provider and client payments and program integrity and to serve as a deterrent presence through working relationships with law enforcement and client and provider organizations, and by publicly communicating the outcomes of OPAR's fraud investigation and collection-related unit activities.

Publications and Creative Services (PCS) manages the writing, design, development, printing, and distribution of ODHS and OHA publications for internal and external audiences, including those in accessible formats and multiple languages. This unit plays a central role in document translation services for both agencies. PCS provides consulting to plan professional quality print and digital publications that reflect ODHS and OHA style guidelines; edits and proofs materials created by staff experts and partners in their individual fields; and provides graphic design, layout, illustration, and form creation services.

Overview of State Assessments and Enterprise-wide Costs (SAEC)

ODHS has state assessments including DAS charges: State Government Service Charge, Risk Assessment, and enterprise technology services. ODHS rents are budgeted in SAEC. This budget includes the computer replacement budget for the entire agency. The Shared Services funding is the underlying funding for the ODHS portion of ODHS and OHA shared services.

Debt services funding pays the balances for "borrowed" funds such as Certificates of Participation or Q-Bond loans taken for major ODHS projects. Each service, both shared and assessed, are important for ODHS to attain its programmatic outcomes. It is critical to continue to look for efficiencies in our systems, processes, and staffing.

This budget also includes the costs of telecommunications, unemployment insurance, mass transit, administrative hearings, and limitation for a line of credit from the Treasury Department used for cash flow purposes at the end of the biennium.

Oregon Department of Human Services
Child Welfare Programs

Overview

The Child Welfare Vision for Transformation is based on a belief that children do best growing up in a family and on values related to honoring and supporting cultural wisdom, building community resilience and voice, and ensuring the self-determination of our communities of color and those who have historically experienced the worst outcomes.

The Child Welfare Division serves children and families who are facing challenges that can affect child safety and responds when children are subject to abuse and neglect. Skilled and diverse Child Welfare staff respond to reports of child abuse and neglect, helping to assess whether supports or services can be provided to the family to prevent the need for out-of-home care and coordinating foster care placement in cases where a child cannot be maintained safely at home. The primary goal is to keep children safe while providing equitable services to support timely and safe return to their families in cases where an out of home placement is necessary.

The Child Welfare Division's work encompasses the following areas:

1. Child Abuse Hotline
2. Child Safety Program
3. Child Fatality Review and Prevention Program
4. Family Preservation
5. Child and Family Well-Being Programs
6. Permanency Program
7. Program Design & Delivery
8. Federal Policy, Planning & Resources, and Child Welfare Policy

Other Central Office Programs and Focus Areas

Child Welfare is working to improve equity and inclusion in all aspects of our program and to provide inclusive, equitable and culturally responsive and appropriate services to children, young adults, and families. Additionally, Child Welfare is working with communities, Tribal Nations, and other child welfare partners to:

- Centering equity in all aspects of the work
- Creating more transparent and meaningful partnerships
- Sharing quality data and outcomes
- Including the voices of the community and those with lived Child Welfare experience in planning and in decision-making

- Creating a shared vision for how meaningful partnership will promote improved child and family outcomes

Child Welfare is constantly looking for ways to assess how policies, rules, organizational culture, and practices are contributing to inequitable outcomes. Among the division's priorities are:

- Better honoring the sovereignty of Oregon Tribal Nations,
- Re-envisioning and increasing the use of culturally relevant services and supports,
- Increasing the inclusion of and sharing power with those most impacted by child welfare systems and reviewing all policy, rules, and procedures for evidence of unintended contributors to equitable outcomes.

Funding

The Legislatively Adopted Budget (LAB) for Child Welfare is $1.2 billion General Fund and $1.9 billion total funds for the 25-27 biennium.

CW	GF	OF	FF	TF	POS	FTE
Leg Approved 23-25	1,013,832,599	49,701,966	616,342,581	1,679,877,146	3,594	3,411.39
Leg Adopted 25-27	1,150,445,676	44,914,816	640,489,967	1,835,850,459	3,590	3,555.41
Difference 23-25 LAB - 25-27 LAB	136,613,077	(4,787,150)	24,147,386	155,973,313	(4)	144.02
% Difference 23-25 LAB - 25-27 LAB	13.47%	-9.63%	3.92%	9.28%	-0.11%	4.22%

Major changes from 23-25 LAB to 25-27 LAB are driven mainly by:

- Standard inflation
- Forecasted Cost per Case and Caseload changes
- FF to GF fund shift related to changes in Federal Fund Match Rates

Strategic Funding Investments and Adjustments

The Child Welfare Division's mission is to ensure every child and family is empowered to live a safe, stable, and healthy life. This mission is based on a set of beliefs and core values:

- *We believe* our child welfare agency and its dedicated and diverse partners can better ensure people's safety, health, and well-being if they work in constant collaboration and proactively engage individuals, families, and communities.
- *We believe* children, youth and young adults do best growing up in a family.

- *We believe* when families and communities are strong, fewer children experience abuse and neglect.
- *We believe* earlier, less intrusive support for families means more children can remain safe and healthy at home and in school, where they can maintain the bonds and connections that are critical to their well-being, leading to better long-term outcomes for children and young adults.
- *We believe* families and communities working together in a more proactive, holistic way will also help free up budget and staff resources. This allows ODHS and its partners to allocate resources in ways that have the greatest impact for children and young adults. Integrating services will mean less need for costly foster care, residential placements, and other crisis support, creating opportunities for more innovation, creative solutions, and new business models.

CW	GENERAL	OTHER	FEDERAL	TOTAL FUNDS	POS	FTE
POP 112 Family First Prevention Svcs Act Implementation	7,041,752		7,041,752	14,083,504	2	1.50
POP 501 HH - FC Youth: Path to Housing Stability	2,391,403		75,773	2,467,176	2	1.00

POP 112 Evidence Based Services for Community Pathways to Prevention: Federal Prevention Plan Implementation

To continue work currently underway as part of the federal Family First Prevention Services Act (FFPSA), ODHS is requesting funding for implementation of evidence-based programs related to parenting skills, substance use disorder and mental health services. Funding would advance Family First work serving Tribal communities, kinship caregivers and families across Oregon, promoting resilience and healing by addressing the underlying reasons children enter foster care. Funding will enable ODHS to continue prevention work beyond 2026, when federal Family First Transition grant funding ends. State funding would give ODHS access to 50 percent federal reimbursement dollars for ongoing Family First implementation, including training and technical assistance to build the behavioral health and parenting service array. Without a state investment, ODHS will not be able to continue implementing Family First Prevention Services and families would lose access to critical services that prevent costly and less-than-ideal downstream Child Welfare interventions such as foster care.

POP 501 Foster Care Youth: Path to Housing Stability

Nationally and in Oregon, young people with experience in the foster care system are disproportionately represented in counts of youth experiencing homelessness. To address this disparity, ODHS Child Welfare is requesting the necessary resources to develop a central strategy for improving housing outcomes for youth with experience in the Child Welfare system. The proposed work aligns with the State of Oregon Homelessness Response Framework (HRF) Pillar 3, Youth Deliverables 3, 5, 6, and 8. Without the requested staffing and other resources, Child Welfare will remain constrained in its ability to conduct comprehensive planning to improve youths' housing outcomes following their exit from foster care.

Conclusion

The Child Welfare Vision for Transformation is based on the belief that children do best growing up with their family, and on core values related to honoring and supporting Tribal and cultural wisdom, building community resilience and voice, and ensuring the self-determination of all communities – particularly those that have historically experienced poor outcomes in our system.

ODHS Child Welfare will achieve this Vision for Transformation through:

- Assessing child safety and providing in-home supports to prevent unnecessary separation of children from parents, family, friends and community.
- Expanding services to prevent foster care placements and ensuring that intensive interventions are as safe and effective as possible.
- Ensuring foster care is family- and community-based, time-limited, culturally responsive and designed to stabilize families rather than serving primarily as a placement for children and young adults.
- Ensuring we are building a kin-first system and establishing that children and young adults will be in the care of family, friends and known community whenever possible, and further that we are helping children keep connections to their cultures, Tribal Nations and communities.
- Recognizing the necessity of short-term, individually customized treatment programs for children who have higher-level physical, developmental and/or mental health needs. These supports should occur while children or young adults are living in families with birth or adoptive parents, relatives, close friends or foster caregivers (resource families).
- Collaborating and building strong relationships with Tribes, communities, people with lived expertise and systems partners.

- Striving for a well-supported workforce that has the developmental opportunities, and access to the resources and services needed to support children, young adults, families and communities; and
- Dismantling structural and systemic racism and moving toward a more equitable and fair system of support for all families.

Oregon Department of Human Services
Self Sufficiency Programs

Overview

Oregon Department of Human Services' Building Well-being Initiative (BWBI) is advancing a future where all who live in Oregon, regardless of race, identity, age, disability, or place, have the needed supports to achieve whole well-being for self, family, and community.

In alignment with the agency-wide BWBI, Self-Sufficiency Programs (SSP) is working toward a future where its services and resources are centered around whole-person well-being. This represents a fundamental shift from SSP's previous system-centered approach in which services and resources are primarily shaped by federal programs and funding sources like TANF and SNAP. As we move the person or family to the center of our work, federal programs like these become tools in a suite of resources to help families meet their basic needs and achieve economic stability. This approach acknowledges the complexity of needs that must be met if individuals and families are to thrive in our economic and social climate – including stable housing, affordable childcare, and adequate cash resources. Without these basic supports, individuals and families cannot be expected to exit poverty.

In Oregon, the burden of poverty is not equally shared: Communities of Color are disproportionally impacted as are residents of rural communities, women, youth, LGBTQ communities, people with disabilities, immigrants, and refugees.

SSP recognizes the structural racism and oppression embedded within our programs and is committed to addressing historic and current harms while working with impacted communities to transform these systems. With this transformation, individuals and families can not only reach stability but also have access to asset-building tools, generational wealth, and equal economic and social mobility opportunities.

The programs within SSP include:

- Supplemental Nutrition Assistance Program (SNAP) and related programs:
    - SNAP Employment and Training Program (STEP)
    - Able-Bodied Adults without Dependents (ABAWD) Program
    - SNAP Nutrition Education (SNAP-Ed)
- Commodities Supplemental Food Program (CSFP)

- The Emergency Food Assistance Program (TEFAP)
- Temporary Assistance for Needy Families (TANF) and related programs:
    - Job Opportunity and Basic Skills (JOBS) program
    - Family Support and Connections (FS&C)
    - State Family Pre-Supplemental Security Income (SSI) and Supplemental Security Disability Income (SSDI)
- Temporary Assistance for Domestic Violence Survivors (TA-DVS)
- Youth Services

Seeking Self-Sufficiency

SSP administers an array of programs to Oregonians experiencing low or no income. These benefits and services are aimed at helping individuals and families move out of poverty into economic stability. Historically, SSP's programs have operated within silos – each with its own unique resources, policies, processes, and systems. This approach has created a fractured service array and presents challenges to individuals and families as they navigate multiple programs and services. SSP is now taking steps to unify its service approach, thereby improving the accessibility and navigability of its programs. The launch of the ONE eligibility system and the Oregon Eligibility Partnership (OEP) represents the first wide-scale attempt to weave together department-wide services for individuals and families. We acknowledge that there is still a long way to go.

We also acknowledge that federal programs alone are not enough to move individuals and families into economic stability, a key social determinant of health. SSP needs added capacity and state investment to build policy and programs in partnership with impacted communities to better collaborate with community partners and our sister agencies to coordinate a comprehensive suite of services that meaningfully improve well-being for Oregonians.

SSP continues to see caseloads driven by the shortage of affordable housing, the COVID-19 pandemic, catastrophic wildfires, economic conditions, and a shortage of available and affordable childcare and attainable living-wage jobs.

SSP is committed to creating an integrated human service continuum of care that addresses these compounding trends and serves the holistic needs of individuals and families. To do this, we must think differently and creatively, listen more effectively to communities, and

collaborate across multiple systems to create and coordinate services. We must also allocate more resources toward the most impacted communities to reduce systemic disparities. In other words, our work is larger than the programs we currently administer; we must focus on holistically improving the conditions in people's environments, from food security to housing security to wealth building.

The social determinants of health are foundational to the well-being of individuals and families and SSP policies and programs must be structured to address that reality. In addition to maintaining and optimizing federal program administration, SSP is arranging our broader policy work around food security, housing security, economic and social mobility, equitable budgeting and implementation, and data. In our future vision, we are committed to investing in communities across all aspects of peoples' lives.

Current Funding

The Self Sufficiency Legislatively Adopted Budget (LAB) is $340.6 million General Funds and $4.9 billion total funds primarily driven by SNAP benefits.

SSP	GF	OF	FF	TF	POS	FTE
Leg Approved 23-25	389,500,487	479,537,160	4,291,733,545	5,160,771,192	1,061	1,015.21
Leg Adopted 25-27	340,607,259	487,415,526	4,050,448,063	4,878,470,848	1,033	1,032.00
Difference 23-25 LAB - 25-27 LAB	(48,893,228)	7,878,366	(241,285,482)	(282,300,344)	(28)	16.79
% Difference 23-25 LAB - 25-27 LAB	-12.55%	1.64%	-5.62%	-5.47%	-2.64%	1.65%

Major changes from 23-25 LAB to 25-27 LAB are driven mainly by:

- Phase in of investments from 2023-25
- Phase out of one-time funding
- Standard inflation
- Mandated staffing increases

Self-Sufficiency Programs uses a combination of General Fund and federal fund resources. The TANF program requires a minimum state expenditure level, known as Maintenance of Effort (MOE). Total fund split is 96.5% Federal fund, 3% Other fund and <1% General fund. Below are the proposed 2025-27 Policy Packages.

SSP	GENERAL	OTHER	FEDERAL	TOTAL FUNDS	POS	FTE
POP 108 SNAP Elderly Simplified App Process (ESAP)	104,838	-	104,838	209,676	1	0.75
POP 502 HH - YEHP Core Service Maintenance	19,707,205	-	-	19,707,205	6	5.25

POP 108 SNAP Elderly Simplified Application Project (ESAP)

The Supplemental Nutrition Assistance Program (SNAP), a federal program that provides monthly benefits to help people buy food, is an important tool for ending hunger in our state. By opting into the federal Elderly Simplified Application Project (ESAP), Oregon can make sure that eligible older adults and people with disabilities aren't missing out on these critical benefits. ESAP would improve overall program access to older adults and people with disabilities by allowing for a simplified 2-page application. It would also extend the certification period to 36 months and allow staff to leverage federal data to verify required household information, which would help reduce workload within the state's eligibility enterprise. The ESAP would also significantly improve customer service to older adults and people with disabilities through a dedicated call center with ESAP specialized staff. If Oregon elects not to participate in the ESAP option, it will miss the opportunities to a.) improve SNAP access for these priority populations, b.) improve customer service and recertification processing timelines and c.) help ease workload demands on Oregon's characteristically overextended eligibility staff.

POP 502 YEHP Core Services Maintenance

We have a shared obligation to support youth who are experiencing homelessness, helping them not only find housing but also access the wider array of services and supports they need to build well-being and long-term stability. The Youth Experiencing Homelessness Program (YEHP) coordinates statewide service planning to support youth who are experiencing homelessness. In 2023, House Bill 5019 allocated a one-time investment that allowed YEHP to more than double the number of localities served and triple the number of YEHP providers. However, this funding is set to expire in June 2025. This policy option package proposes an investment that will sustain YEHP's current local presence while also expanding its core services into unserved and underserved communities around the state, allowing more young people to access the supports they need to disrupt the cycle of homelessness and move toward permanent housing stability. YEHP is also requesting an investment to continue and expand its successful Direct Cash Transfer (DCT) initiatives to help more young people surmount financial barriers

to secure and stable housing. Without these investments, YEHP's budget will be reduced by approximately 75 percent, which would substantially shrink Oregon's current youth homelessness response system and prevent youth in underserved localities from accessing critical services.

Conclusion

SSP efforts strengthen ODHS foundations through collaborations that continually improve the delivery of basic needs programs, including financial assistance, domestic violence services, employment and training, and refugee and youth services. Staff also provide disaster program support, including benefit assistance for individuals affected by natural disasters according to federal eligibility criteria. SSP staff coordinate with Child Welfare to work with families that have or are at risk of having Child Welfare involvement to increase family stability and keep children and parents safely together whenever possible. D&I collaborates with Child Welfare and community partners in designing the least intrusive, most family-centered and culturally responsive service delivery.

Additional collaborations with community partners and Tribal nations have been built around domestic violence, housing, alcohol, drug and mental health treatment, workforce development, vocational rehabilitation, health care and education.

Following the transition of eligibility services and staff to OEP, SSP is currently revising processes and outcome measures to reflect the changed scope of work pertaining to Design and Delivery.

Oregon Department of Human Services
Aging and People with Disabilities Programs

Overview

The Oregon Department of Human Services Aging and People with Disabilities (APD) program mission is to help Oregonians in their own communities achieve well-being and independence. The program is built on a foundation of supporting independence, choice and dignity while protecting the most vulnerable Oregonians.

APD's programs provide a broad array of services that meets older adults and people with disabilities where they are at. Services range from preventative services that help individuals engage in their community to full-time, around the clock care for those who can no longer meet their own needs. Through Adult Protective Services and licensing and regulatory oversight, the program ensures the safety of individuals regardless of payor source.

During the biennium, APD expects to serve:

- More than 41,769 older adults and people with physical disabilities per month who qualify for Medicaid-funded long-term services and supports.
- More than 150,000 older individuals who benefit from Older Americans Act services.
- About 175,000 people who need Medicare Premium assistance.
- About 36,300 Oregonians who rely on long-term care settings that APD licenses.
- More than 80,000 individuals who receive a Social Security Disability determination and need help accessing federal income benefits available to individuals with a disability.
- About 2,000 unique individuals aged 60 and older who seek help through Oregon Project Independence.
- More than 1,200 people who receive long-term care options counseling from the Aging and Disability Resource Connection.
- Individuals who will make more than 50,000 calls seeking to report abuse or neglect or request information and referral services from Adult Protective Services.

Oregon's population is aging

The aging population is growing rapidly. The number of people 65 and older in the United States is expected to increase to 70 million by 2030, and to 88.5 million ─ or 20 percent of the population ─ in 2050.

The aging population in Oregon will continue to grow dramatically as more baby-boomers reach retirement age. In 2016, approximately 17 percent of Oregon's population was 65 years or older. By 2030, the percentage is expected to increase to nearly 20 percent. In addition, nearly 10 percent of Oregon's population that is younger than 65 is living with a disability. Further, in Oregon, people 85 years or older make up a small but rapidly growing portion of the total population. This older cohort is the mostly likely to need long term services and supports.

Guided by the ODHS Equity North Star, APD programs and services continue to evolve through a focus on equity and inclusion for individuals of all races, ethnicities, sexual orientations, gender identities and expressions, disabilities, ages, geographic locations, and Tribal affiliations. By working closely with communities to design and deliver services, APD helps ensure that all of Oregon's older adults and people with disabilities have access to the supports they need to achieve and maintain whole well-being.

We have prepared a strategic budget to focus on continuing modernization and improvements to help Oregonians sustain long term care services, become more independent and safer.

Funding

The cost to operate the Aging and People with Disabilities (APD) Legislatively Adopted Budget (LAB) is $2.4 billion general fund and $6.9 billion total funds for the 2025-27 biennium.

APD	GF	OF	FF	TF	POS	FTE
Leg Approved 23-25	1,932,088,337	378,611,338	3,589,881,020	5,900,580,695	1,557	1,541.96
Leg Adopted 25-27	2,417,905,246	408,285,886	4,172,592,885	6,998,784,017	1,638	1,616.30
Difference 23-25 LAB - 25-27 LAB	485,816,909	29,674,548	582,711,865	1,098,203,322	81	74.34
% Difference 23-25 LAB - 25-27 LAB	25.14%	7.84%	16.23%	18.61%	5.20%	4.82%

Major changes from 23-25 LAB to 25-27 LAB are driven mainly by:

- Phase In of rate increases and new programs from 23-25

- Phase Out of funding for one-time activities related to COVID-19
- Standard inflation
- Above Standard Inflation for In-Home, CBC and Nursing Facilities
- Forecasted Cost per Case and Caseload changes including AAA stafffunding
- FF to GF fund shift related to changes in Federal Fund Match Rates
- Phase Out of ARPA HCBS funding

Strategic Funding Investments and Adjustments

The following independence, safety and health investments are being proposed to improve services to Oregonians:

APD	GENERAL	OTHER	FEDERAL	TOTAL FUNDS	POS	FTE
POP 101 Strengthening Safety and Regulatory Oversight	1,283,611	-	1,283,611	2,567,222	19	8.75

POP 101 Strengthening Safety and Regulatory Oversight

When community-based facilities and homes that serve older adults and/or people with disabilities are newly licensed or change hands, Oregon Department of Human Services (ODHS) must be able to conduct timely site visits to help ensure licensing compliance and the health and safety of residents. This policy option package (POP) would provide investments to strengthen ODHS' regulatory oversight of newly licensed APD Residential Care Facilities, APD Adult Foster Homes, ODDS Residential Training Facilities, ODDS Residential Training Homes and ODDS Adult Foster Homes. The funding would allow ODHS to review community-based care facilities and homes within 120 days after being newly licensed or after a change in ownership, helping ODHS identify licensing compliance concerns earlier, provide opportunities for proactive technical assistance and support to help facilities and homes correct identified compliance issues, and most importantly, help ensure the safety and well-being of residents, including those receiving Medicaid-funded HCBS services. Without this investment, APD would lack the staff necessary to conduct timely site visits when facilities are newly licensed or change hands, which could contribute to a continued increase in licensing and abuse complaints and hinder APD's ability to meet CMS HCBS safety requirements. Additionally, a lack of investment may perpetuate an evolving narrative and public perception that ODHS regulatory oversight is ineffective and unresponsive to safety concerns that have received wide publicity.

Conclusion

APD's focus during 2025-2027 is to strengthen our foundation and excel in our core mission. We will focus our energy on enhancing our system, improving customer service and equity, and building lasting public trust. To achieve this, APD's vision encompasses four key layers of accountability and impact:

- Layer One: APD/AAA Staff and Program Operators – APD's vision is for every staff member to understand their roles and the core responsibilities for which they are accountable; that they have access to the information, training, and resources necessary to support their work; and they receive comprehensive onboarding, mentorship, and timely, constructive feedback on their performance.
- Layer Two: Long-Term Care Providers: We license 698 long-term care facilities and 1,324 adult foster homes. APD's vision is for residents to be safe from abuse and neglect; providers to understand licensing requirements and experience quality, consistent, and timely interactions with APD/AAA licensors and staff; that they have access to technical assistance and support to maintain compliance or work toward it; and that consumers have access to reliable data and information about long-term care facilities and homes to make informed decisions about where they want to receive care.
- Layer Three: Long-Term Care Workforce: A limited workforce supply poses a significant threat to our ability to deliver timely, quality, and affordable services to a population facing major demographic shifts and increasing complexity in needs. APD's vision is that provider rates reflect higher wages for workers; the long-term care workforce is valued and respected for their essential contributions; and direct care and personal care roles are professionalized.
- Layer Four: In total, APD, our AAAs and partners serve more than 400,000 individuals across the spectrum of our services each year. This includes Adult Protective Services, Older Americans Act and related services, long-term services and supports, General Assistance, Social Security Disability determinations and over seventeen thousand individuals served in APD licensed care settings. APD's vision is that older adults are not forced into poverty to access necessary services; aging is recognized as a natural part of life.

For the 25-27 biennium, APD is proposing a package of services that promote safety and well-being for Oregon's older adults and people with disabilities. These investments will help ODHS meet the needs of Oregonians in this period of change and growth. APD's goals are:

Safety and well-being: Older adults and people with disabilities feel safe and experience their best quality of life.

Accessibility: Oregonians can readily and consistently access timely, person-centered services and supports to meet their needs.

Quality outcomes: Oregonians engage in services and supports that are preventive, evidence-informed and lead to quality outcomes.

Service equity: Oregonians experience programs, services, and supports that are designed, improved and responsive to historical inequities, current disparities and individual experiences.

Engagement: Through strong, collaborative partnerships and rich community dialogue, consumers are provided information and are engaged in two-way communication and regular opportunities to voice their needs and opinions.

Oregon Department of Human Services
Intellectual and Developmental Disabilities Program

Overview

The Office of Developmental Disabilities Services (ODDS) provides support across the lifespan to Oregonians. ODDS, partners, and the developmental disabilities community come together to provide services, supports, and advocacy to empower Oregonians with intellectual and developmental disabilities to live full lives in their communities.

ODDS serves people with intellectual disabilities (IQ 75 or below) or developmental disabilities such as autism, Down syndrome, and cerebral palsy. These disabilities are lifelong and have a significant impact on a person's ability to function independently. Some people with Intellectual and/or Developmental Disabilities (I/DD) may also have significant medical or mental health needs. Most people with I/DD meet Medicaid financial eligibility requirements.

The I/DD program fulfills its mission and carries out its responsibilities while adhering to the following values:

- Choice, self-determination, and person-centered practices
- Children and families together
- Health, safety, and respect
- Community inclusion and community living
- Strong relationships
- Service equity and access

ODDS worked with a diverse group of partners representing all areas of the intellectual/developmental disabilities (I/DD) service delivery system to develop a strategic plan that will guide its work for the next biennium and beyond. The strategic planning process resulted in a firm understanding that the person, their family, and the goals they want to achieve remain at the core of our system. As a result of this process, the agency also committed to develop a Service Equity Plan that includes reaching out to underserved populations, removing barriers to access, and providing services by staff who have appropriate cultural and linguistic capacities.

ODDS seeks to achieve the following strategic goals**:**

- Create a system that is sustainable and easy to use with effective communication and equitable access.

- Honor and support people to make their own choices about who they want to be and what they want to do in their lives.
- Support equal opportunity for living options and meaningful employment in an integrated community setting.
- Provide families the amount and type of supports they need to raise their children at home, or when necessary, in another family home within their community.
- Support health and safety while people live rich, full lives.

History and Future State

Oregon is recognized nationally as an innovative leader in developing community-based services for persons with I/DD. Oregon is one of the few states that have no state- or privately-operated, institutional-level services specifically for people with developmental disabilities. In fact, the majority of persons with developmental disabilities in Oregon are served in their own home or their family's home.

Oregon is recognized nationally as an innovative leader in developing community-based services for persons with I/DD. ODDS and its partners take a self-directed, family-involved, individually focused, culturally appropriate and sustainable approach to service. Oregon is one of the few states that have no state- or privately- operated, institutional-level services specifically for people with developmental disabilities. Ongoing input from our partners both nationally and in Oregon indicates that the number of people with I/DD-related needs is growing. As of June 3, 2024, ODDS served 36,224 individuals with I/DD compared to 21,294 in July of 2013 when the K-Plan was implemented. Since then, I/DD system has experienced 70 percent growth in total enrollment.[1]

We are also observing significant growth in the number of provider agencies and 24-hour residential providers, which, since 2020, have experienced average annual growth rates of 25 and 20 percent, respectively.

[1] Source: ODDS data team, June 3, 2024.

Cumulative new I/DD providers by year						
Provider type	2020	2021	2022	2023	As of March 2024	Average annual % growth
Agencies	374	489	636	823	855	25%
Residential	827	967	1177	1422	1498	20%

(Source: ODDS Licensing Unit)

Using the same average annual growth rates as above for 2024, we anticipate there will be 215 new agency providers and 300 new residential providers in 2024. However, based on the pending number of applications as of March 2024 (145 and 136, respectively, according to the ODDS Licensing Unit), we expect the 2024 growth rates to be much higher than 25 and 20 percent.

Funding

The Legislatively Adopted Budget (LAB) to operate the People with Intellectual & Developmental Disability (I/DD) program for the 2025-27 biennium is $2.5 billion in General Fund and $6.9 billion total funds.

I/DD	GF	OF	FF	TF	POS	FTE
Leg Approved 23-25	1,995,990,623	32,174,448	3,755,656,611	5,783,821,682	991	979.64
Leg Adopted 25-27	2,486,722,731	34,277,318	4,379,288,295	6,900,288,344	1,035	1,023.08
Difference 23-25 LAB - 25-27 LAB	490,732,108	2,102,870	623,631,684	1,116,466,662	44	43.44
% Difference 23-25 LAB - 25-27 LAB	24.59%	6.54%	16.61%	19.30%	4.44%	4.43%

Major changes from 23-25 LAB to 25-27 LAB are driven mainly by:

- Phase In of rate increases from 23-25
- Standard inflation
- Forecasted Cost per Case and Caseload Program changes, including CDDP and Brokerage funding
- Changes in Federal Fund Match Rates
- Phase out of ARPA HCBS funds

Strategic Funding Investments and Adjustments

With the ultimate goal of preventing or delaying access to the highest cost services within our system, we plan to direct funds to improve outcomes, expand on service

innovations and strategically advance initiatives in the following areas:

- Stable and competent workforce for I/DD services throughimplementation of transparent rate models
- Case management system and IT improvements
- Increased home and community-based services reach
- Service capacity and service equity

IDD	GENERAL	OTHER	FEDERAL	TOTAL FUNDS	POS	FTE
POP 101 Strengthening Safety and Regulatory Oversight	1,550,862	-	1,550,862	3,101,724	14	12.52

POP 101 Strengthening Safety and Regulatory Oversight

When community-based facilities and homes that serve older adults and/or people with disabilities are newly licensed or change hands, Oregon Department of Human Services (ODHS) must be able to conduct timely site visits to help ensure licensing compliance and the health and safety of residents. This policy option package (POP) would provide investments to strengthen ODHS' regulatory oversight of newly licensed APD Residential Care Facilities, APD Adult Foster Homes, ODDS Residential Training Facilities, ODDS Residential Training Homes and ODDS Adult Foster Homes. The funding would allow ODHS to review community-based care facilities and homes within 120 days after being newly licensed or after a change in ownership, helping ODHS identify licensing compliance concerns earlier, provide opportunities for proactive technical assistance and support to help facilities and homes correct identified compliance issues, and most importantly, help ensure the safety and well-being of residents, including those receiving Medicaid-funded HCBS services. Without this investment, APD would lack the staff necessary to conduct timely site visits when facilities are newly licensed or change hands, which could contribute to a continued increase in licensing and abuse complaints and hinder APD's ability to meet CMS HCBS safety requirements. Additionally, a lack of investment here may perpetuate an evolving narrative and public perception that ODHS regulatory oversight is ineffective and is unresponsive to safety concerns that have received wide publicity. With this POP, ODDS is requesting fourteen (14) limited duration positions approved in 2023 be made permanent positions in the 25-27 biennium. ODDS requires this investment to maintain sufficient staffing of the licensing/certification unit where scope and amount of work continues to grow. Without the requested resources, ODDS will not be able to meet current

workload, let alone growth in the provider networks and new initiatives to improve oversight, quality, and safety of the individuals we serve. The Licensing Team would lose approximately half of its current workforce.

Conclusion

ODDS is committed to providing choices for individuals to choose a living setting that is right for them and helps them achieve their goals. To reach underserved and underrepresented communities, we must continue our efforts to build a diverse workforce capable of delivering linguistically and culturally agile services. To do this, we are working to ensure capacity and staffing within its existing care settings and programs. One such effort is Impact Oregon, a website that connects job seekers with careers in Oregon's I/DD system of services and supports.

ODDS has also seen a trend of child foster homes closing. In 2019, there were 223 child foster homes. That number steadily dropped each year. The total number of child foster homes in 2023 was 159, a 29 percent decrease from 2019. This decline limits the out of home service setting options for children to primarily 24-hour residential settings that utilize shift staff, rather than a family-like setting. Additionally, children placed in ODDS-certified child foster homes have not been able to access home modification services. This means children placed in a foster home may not have the accessibilities needed during their stay. Funding home modifications in child foster homes would build more capacity by increasing the pool of providers that have the appropriate home environment to meet accessibility needs. The proposed policy option package (POP), "ODDS Certified Child foster care capacity and accessibility supports," will fund recruitment and development of child foster care providers, including culturally and linguistically specific providers. This will create a more robust pool of skilled child foster providers capable of supporting children who cannot be served safely in their own family homes due to their complex support needs.

ODDS Operations is also modernizing its IT systems to improve and standardize processes for case management entities and the access for individuals and families. This will be achieved with a statewide case management system which will go live in 2025. ODDS is also adding a new IT system for enrolling and maintaining providers. This will be implemented in two phases; phase 1 will be agency providers and foster care providers to replace the ASPEN system and phase 2 will be personal support workers, homecare workers and personal care attendants. The first phase will go live in fall of 2025. The current eXPRS system allows CMEs to

enter service authorizations for individuals, which allows providers to bill and receive payment. Operations is also responsible for contracting, including the contracts and grants currently involved with ARPA, auditing the financial impacts of a completed contract or grant and reviewing other contract obligations, enrolling PSW providers, and providing technical assistance to all CMES and providers.

Oregon Department of Human Services
Vocational Rehabilitation Programs

Overview

Vocational Rehabilitation (VR) is a state and federal program authorized by state law and the federal Rehabilitation Act of 1973 and amended in 1998 and in 2014 by the Workforce Innovation and Opportunity Act (WIOA).

VR staff work in partnership with Oregonians with disabilities, communities, and businesses to develop employment opportunities and provide individualized services to each eligible person.

Employment helps people with disabilities live independently, become involved in their communities, and live more engaged and satisfying lives.

VR helps Oregonians with disabilities gain employment through a variety of services. These include but are not limited to:

- Helping youth with disabilities transition to jobs as they become adults,
- Providing individualized counseling and supports to job seekers with disabilities to help overcome barriers to employment,
- Helping employers realize and receive the benefits of employing diverse people with disabilities, and
- Partnering with other state and local organizations that coordinate and provide equitable employment and workforce programs.

All working-age Oregonians who experience a disability and are legally entitled to work are potentially eligible for VR services. Individuals who experience a medical, cognitive, or psychiatric diagnosis that results in a functional impediment to employment are typically eligible. Recipients of Social Security disability benefits are presumed eligible for services.

Current Funding Levels

The Legislatively Adopted Budget (LAB) to operate the Vocational Rehabilitation (VR) program for the 2025-27 biennium is $44.9 million in General Fund and $152.7 million total funds.

VR	GF	OF	FF	TF	POS	FTE
Leg Approved 23-25	41,219,772	17,520,260	107,620,931	166,360,963	285	280.34
Leg Adopted 25-27	44,891,292	3,207,510	104,601,012	152,699,814	286	284.04
Difference 23-25 LAB - 25-27 LAB	3,671,520	(14,312,750)	(3,019,919)	(13,661,149)	1	3.70
% Difference 23-25 LAB - 25-27 LAB	8.91%	-81.69%	-2.81%	-8.21%	0.35%	1.32%

Major changes from LAB to GRB are driven mainly by:

- Standard inflation
- Changes in Federal Reallotment funding

VR is funded through the U.S. Department of Education. It receives a formula-based grant with Match and Maintenance of Effort requirements. The match rate for Vocational Rehabilitation is 21.3 percent General Fund; 78.7 percent Federal Funds. For Independent Living the match rate is 10 percent General Fund; 90 percent Federal Funds. Grant dollars cannot be utilized by other programs. Program income, which is reinvested back into VR, includes Social Security reimbursement and Youth Transition Program grants.

Strategic Funding Investments and Adjustments

We have prepared a strategic budget to improve our programs effectiveness and enhance the program's ability to provide further employment outcomes for Oregonians. Continuous program improvements focus on return-on-investment through outcomes for our clients.

VR						
	GENERAL	OTHER	FEDERAL	TOTAL FUNDS	POS	FTE
POP 105 Contract and Fiscal Compliance	745,663	-	-	745,663	4	3.00

POP 105 Contract and Fiscal Compliance

In 2023, Vocational Rehabilitation (VR) received a monitoring report from the federal Rehabilitation Services Administration (RSA) that had specific corrective actions to address insufficient fiscal oversight and monitoring of contracts administered with VR's federal award. Currently VR does not have adequate staff to effectively address RSA's corrective actions and the long-term solutions that are mandated by federal rules and regulations. This POP would fund four full-time positions to equip VR to meet the expectations of RSA and its Corrective Action Plan as well as improve and expand employment services throughout the state. Without this investment, the state risks non-compliance in the control and administration of the federal grant. This could result in sanctions on its VR program and a reduction in federal grant funds, which in turn would force a reduction in services available to people with disabilities in Oregon.

Conclusion

As the economy continues to recover from the impact of the pandemic, the focus on workforce development, employment and opportunity for *all* Oregonians will increase. The Vocational Rehabilitation program welcomes the opportunity to help the growing number of Oregonians with disabilities meet their employment goals,

This proposal represents the next phase of strategic investments required to leverage employment services to enhance the lives of Oregonians and contribute to local economies. VR will also continue to identify new ways to enhance its work with the Oregon Workforce Investment Board, Local Workforce Investment Boards, and the Workforce Policy cabinet in the implementation of the Oregon Workforce Talent Development Board's strategic plan and local board's efforts to better align economic and workforce development activities. All of these efforts will provide greater access for Oregonians who experience disabilities who are seeking competitive integrated employment. This is an intentional approach to equity for people with disabilities as the core mission for VR.

Oregon Department of Human Services
Oregon Eligibility Partnership

Overview

There are core needs every person must address to thrive in our communities. Sometimes when an individual or family's circumstances change, they need help with basic supports to get through the bumps in the road on their way to well-being. Oregon Eligibility Partnership (OEP) provides medical, food, cash, and childcare benefits to one in three people in Oregon. OEP is dedicated to simplifying access to these essential services, so people receive the supports they are eligible for and don't backslide on their journey to well-being.

OEP prioritizes equitable service delivery and providing direction and resources to employees who determine eligibility. To these ends, OEP has established structured governance and processes that unite historically independent programs together to better support individuals and families.

OEP's core responsibility is to make sure eligibility determination services receive robust technological and staffing support. The goal is to maintain a customer service experience that is consistent and delivers equitable, prompt and accurate eligibility determinations.

OEP is steadfast in adhering to program eligibility rules and regulations and the service delivery expectations of our federal partners. OEP actively collaborates with partners, staff, community members, and sovereign Tribal communities to address operational impacts and identify opportunities to improve customer service.

Current Funding Levels

The Legislatively Adopted Budget (LAB) to operate the OEP program for the 2025-27 biennium is $438.4 million in General Fund and $975.4 million total funds.

OEP	GF	OF	FF	TF	POS	FTE
Leg Approved 23-25	378,218,901	14,344,102	439,289,016	831,852,019	2,624	2,579.95
Leg Adopted 25-27	438,376,111	12,302,457	524,719,215	975,397,783	2,616	2,612.89
Difference 23-25 LAB - 25-27 LAB	60,157,210	(2,041,645)	85,430,199	143,545,764	(8)	32.94
% Difference 23-25 LAB - 25-27 LAB	15.91%	-14.23%	19.45%	17.26%	-0.30%	1.28%

Major changes from 23-25 LAB to 25-27 GRB are driven mainly by:

- Standard inflation
- Phase out of one-time funding
- Mandated staffing increases

OEP's funding is derived from a combination of federal funds allocated through the Center for Medicare & Medicaid Services (CMS) and the Department of Agriculture Food and Nutrition Services (FNS), as well as General Fund allocations that support programs which do not receive federal administrative funds, meaning that federal dollars allocated to these programs are strictly designated for services. This includes programs like Employment Related Day Care (ERDC), Temporary Assistance for Needy Families (TANF), certain portions of Healthier Oregon, and Veteran and Compact of Free Association (COFA) dental programs.

Strategic Funding Investments and Adjustments

Oregon Eligibility Partnership (OEP) provides medical, food, cash and childcare benefits to one in three people in Oregon. OEP is dedicated to simplifying access to these essential services so people receive the supports they are eligible for and don't backslide on their journey to well-being.

OEP	GENERAL	OTHER	FEDERAL	TOTAL FUNDS	POS	FTE
POP 104 Federally Required Changes to Data Services Hub	4,461,370	-	13,471,166	17,932,536	-	-
POP 108 SNAP Elderly Simplified App Process (ESAP)	476,087	-	476,087	952,174	1	0.75
POP 201 Mainframe Modernization	384,446	-	384,446	768,892	4	3.00

POP 104 Maintaining technology and supporting effective customer service

The Oregon Eligibility Partnership (OEP) has completed the OpenScape Call Center (OSCC) migration, enabling a unified statewide system for over 3,000 representatives to provide comprehensive support for medical, food, cash, and childcare benefits. This significant upgrade required rapid implementation without sufficient resources to ensure ongoing system support, maintenance, and coordination. This POP proposes hiring additional staff to establish a statewide support/helpdesk team to improve customer service and support the work of ODHS as we continue to transition through the structure of the EIS statewide phone systems. This team will be able to support ODHS when we eventually transition this biennium from OpenScape and onto a

system that can meet our federal and state needs.

In parallel, the Oregon ONE Mobile app continues to see rapid adoption, providing a self-service option for benefit recipients. With over 49,000 users and growing, the app demands dedicated technical support to address issues, manage updates, and ensure seamless user experiences. The requested funds will allow the hiring of technical support staff to optimize app usage, reduce workloads for eligibility staff, and enhance overall customer satisfaction.

Finally, this POP provides the funding for the Federal Data Services Hub. This has been used since 2015 in Oregon at 100% federal funding. Federal regulations now cover 75% of the costs but require States to cover 25%. These data hubs allow 60% of medical applications to be processed without a worker interaction, allowing for quicker benefits, greater accuracy, and increased efficiency today. Not funding this places risk on the whole Medicaid system for the State of Oregon. Without this investment, OEP risks degraded customer service, inefficient operations, and missed opportunities to leverage these technological advancements fully.

POP 108 SNAP Elderly Simplified Application Project (ESAP)

The Supplemental Nutrition Assistance Program (SNAP), a federal program that provides monthly benefits to help people buy food, is an important tool for ending hunger in our state. By opting into the federal Elderly Simplified Application Project (ESAP), Oregon can make sure that eligible older adults and people with disabilities aren't missing out on these critical benefits. ESAP would improve overall program access to older adults and people with disabilities by allowing for a simplified 2-page application. It would also extend the certification period to 36 months and allow staff to leverage federal data to verify required household information, which would help reduce workload within the state's eligibility enterprise. The ESAP would also significantly improve customer service to older adults and people with disabilities through a dedicated call center with ESAP specialized staff. If Oregon elects not to participate in the ESAP option, it will miss the opportunities to a.) improve SNAP access for these priority populations, b.) improve customer service and recertification processing timelines and c.) help ease workload demands on Oregon's characteristically overextended eligibility staff.

POP 201 Mainframe Modernization

The Oregon Department of Human Services (ODHS) relies on mainframe systems that exceed 50 years of age, posing significant risks to service delivery, system integrity, and legislative compliance. These outdated systems hinder the agency's ability to meet modern technological, security, and operational demands, leaving critical services for over 1.5 million Oregonians vulnerable. Staff and advocates, including SEIU, have raised concerns about how these systems negatively impact homecare workers, adult foster home providers, and other vital services. The requested funding and staffing for the 2025-27 biennium will support the planning, contracting, and continue the implementation necessary to transition off this antiquated infrastructure. This modernization will enhance program efficiency, provider payment accuracy, and benefit delivery, while aligning with federal expectations for sustainable IT solutions. Failure to act risks prolonged system outages, increased manual interventions, and compromised service quality for vulnerable populations across Oregon.

Conclusion

OEP serves as the primary resource for many people in Oregon seeking assistance to achieve and maintain health, safety and independence. OEP is fundamental to the ODHS core mission, as it provides individuals with essential benefits and promotes service equity by incorporating REAL+D information, respecting individuals' preferred names over legal names, and offering application options in multiple languages. A significant portion of our caseload comprises mandated cases, highlighting our obligation to serve individuals in need. Moreover, our work often runs counter to economic cycles - during economic downturns and tight budgets, we observe an increase in workload as more individuals require assistance.

OEP consistently reviews data and information within our program, ensuring transparency by sharing it with staff on internal websites. We also have eligibility operations dashboards posted for the public at benefits.oregon.gov where people can get information about application processing and the ONE Customer Service Center.

			CW	Foster Care	Prevention & Preservation	Provides services to safely support children in their own homes and support family stability.	Timeliness and permanency of child reunification	12	0	0	0	0	0	0	0.00	N	Y	FM	ORS 419A and 419B	All - see program unit/activity description	
			CW	Foster Care	Family Safety Services	In-Home Safety and Reunification Services program provides culturally appropriate intensive, short term services to families with children who can remain safely in their homes, and to children and families who are safely reunited. ISRS provides a combination of safety and strengths-based services that lead to lasting safety changes within the family. These services are time limited and are complemented by SPRF services for families in need of longer term or more intensive services. The Strengthening Preserving and Reunifying Families law (ORS 418.575-418.598) allows funding for an array of services for families through collaboration between DHS and local community partners. The Department has developed outcome-based contracts for services to specifically address the needs of children and families who come to the attention of child welfare through a screened in report of abuse or neglect. These outcome based contracts are foundational for an overall ability to report on results associated with SPRF services and funding.			29,228,297	254,404	25,263,755	0	54,746,456								
			CW	Foster Care	Child and Family Supports	System of Care funds support Oregon's most vulnerable children by providing local child welfare offices with the flexibility to purchase specific services to meet a family's specific needs to assure the safety, permanency and well-being of their child(ren). Services are identified and planned for through family engagement and involvement in case planning. Whenever possible, shared funding of custom-designed services is achieved through collaboration with community partners. Client Transportation is used to fund transportation related to visitation, medical appointments, court hearings, etc.			33,465,455	535,970	20,460,862	0	54,462,287								
			CW	Foster Care	Foster Family Shelter Care	A limited term payment provided to a certified family when a child or young adult in the legal or physical custody of the Department moves to a certified family's home from a placement with a BRS provider and there is no current level of care determination - paid for the first 20 days to allow time for the CANS to be administered.		12	2,941,973	336,763	3,470,784	0	6,749,520	0	0.00	N	Y	FM	ORS 418.015	All - see program unit/activity description	
			CW	Foster Care	Regular Foster Care	Temporary out-of-home care provided by a relative caregiver or general applicant foster parent who has been authorized to provide care to a child or young adult in the legal or physical custody of the Department.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	62,733,112	2,807,255	45,109,108	0	110,649,475	0	0.00	N	N	FM	ORS 418.015	All - see program unit/activity description	
			CW	Community Based Domestic Violence Services		DHS makes grants available to domestic violence and sexual assault service providers throughout Oregon. These providers offer crisis lines, crisis response, emergency shelter and other related services to survivors of sexual assault, survivors of domestic violence, and their children, in a culturally and linguistically appropriate manner.	Absence of repeat maltreatment	12	0	0	0	0	0	0	0.00	N	Y		ORS 409.290 to 409.300		
			CW	Residential Care	Residential Treatment	Behavioral Rehabilitation Services (BRS) and therapeutic foster care for children with high needs.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	40,964,860	10,730,689	33,044,959	0	84,740,508	0	0.00	N	Y	FM	ORS 418.015	All - see program unit/activity description	
			CW	Residential Care	FOCUS Children	Child specific contracts for out-of-state placements and additional supports to assure children's needs are being met while they are in care.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	21,125,889	204,771	5,492,748	0	26,823,408	0	0.00	N	Y	FM	ORS 418.015	All - see program unit/activity description	
			CW	Foster Care	Personal Care	Specific services provided to a child with a chronic medical condition, with medical needs requiring specialized care, or with a physically handicapping condition requiring care and assistance in most domains of daily functioning.	Teen suicide, Absence of repeat maltreatment	12	5,597,277	244,201	7,282,155	0	13,123,633	0	0.00	N	Y	FM	ORS 418.015	All - see program unit/activity description	
			SSP	TA Domestic Violence Services		The TA-DVS program provides temporary financial assistance and support to families affected by domestic violence during crisis or emergent situations when other resources are not available. TA-DVS is used to help the domestic violence survivor and the children address their safety concerns and stabilize their living situation, reducing the likelihood of the survivor returning to the abuser. The TA-DVS Benefits are 100% federally funded by the TANF Program.	TANF re-entry, TANF family stability, Absence of repeat maltreatment	12	692,702	5,145,389	32,388,315	0	38,226,406	0	0.00	N	N	FO	45 CFR 260.31 (b) & ORS 411.117 (1) (e)		
			SSP	TA-DVS Advocates / Co-Located Advocates		DHS contracts with local Domestic Violence Sexual Assault agencies to provide co-located Certified Domestic Violence (DV) Advocates in Self-Sufficiency and Child Welfare offices. The goal of the Co-located DV Advocates Program is to improve outcomes and stability for families experiencing domestic violence through services including but not limited to: safety planning, risk and fatality assessment, shelter services, support in referrals to other community resources such as housing, mental health services, counseling, peer support groups, etc.		12	14,781,261	0	0	0	14,781,261	0	0.00	N	N	S	ORS 411.117 (1) (c)		
			CW	Community Based Sexual Assault Victims Fund		DHS makes grants available to domestic violence and sexual assault service providers throughout Oregon. These providers offer crisis lines, crisis response, emergency shelter and other related services to survivors of sexual assault, survivors of domestic violence, and their children, in a culturally and linguistically appropriate manner.		12	0	0	0	0	0	0	0.00	N	Y		ORS 409.273 to 409.285

			APD	APD Program	In-home Program	In-home services are the cornerstone of Oregon's community-based care system. For older adults or people with physical disabilities, the ability to live in their own homes is compromised by the need for support in regular activities of daily living. For more than 25 years, Oregon has created options to meet people's needs in their own homes. All options are funded with support of the Medicaid program through home- and community-based waivers or state plan options. Oregon has been able to create cost-effective programs that meet people's needs in their homes and other community settings using these options and spared Oregonians from the unnecessary use of much higher cost services, primarily offered in nursing facilities. Services to older adults and people with physical disabilities are designed to support assistance with fundamental activities of daily living (ADLs), such as mobility, cognition, eating, personal hygiene, dressing, toileting and bathing. To receive in-home services, an individual must be financially eligible for Medicaid. A case manager works with the client and together they identify needs and develop a plan for the in-home services.		12	717,743,947	6,571,424	1,229,882,653	0	1,954,198,024	0	0.00	Y	N	FO	ORS 410.070	All - see program unit/activity description	
			APD	APD Program	Community-Based Care Facilities	These include a variety of 24-hour care settings and services to provide an alternative to nursing facilities. Services include assistance with activities of daily living, medication oversight and social activities. Services can include nursing and behavioral supports to meet complex needs. State and federal guidelines related to health and safety of these facilities have to be met.		12	718,748,499	16,109,942	1,262,275,250	0	1,997,133,691	0	0.00	Y	Y	FO	ORS 410.070	All - see program unit/activity description	
			APD	APD Program	Nursing Facilities	Institutional services for older adults and people with physical disabilities are provided in nursing facilities licensed and regulated by DHS. Nursing facilities provide individuals with skilled nursing services, housing, related services and ongoing assistance with activities of daily living. Oregon has led the nation since 1981 in the development of lower cost alternatives to institutional (nursing facility) care. Home- and community-based alternatives to nursing facility services emphasize independence, dignity and choice and offer needed services and supports at lower costs than medical models.		12	538,284,483	241,309,169	1,158,980,753	0	1,938,574,405	0	0.00	N	Y	FM	ORS 410.070	All - see program unit/activity description	
			I/DD	I/DD Program	K Plan Services (Incudes community living supports (CLS))	K-Plan or Community First Choice Option (CFCO) provides a broad range of home and community-based services and supports for people with disabilities, including those with I/DD. Most used service under the K-Plan is Attendant Care which provides support for people to perform activities of daily living and instrumental activities of daily living (ADL/IADL), which may include skills training in those areas. With CFCO, this is the primary service available to people with I/DD. Attendant care services and are generally categorized based on the setting in which the person lives. Services that now fall under attendant care include: • In-home supports for children and adults • Children's intensive in-home services • 24-hour services. • Group home for children and adults • Adult and child foster care • Supported living (adults only) • Day supports • Stabilization and Crisis Unit (SACU) Other services provided under the K-plan include environmental safety modifications, assistive technology, behavioral consultation, transportation.	People with disabilities in community settings	12	2,014,762,099	10,024,640	3,754,709,866	0	5,779,496,605	0	0.00	Y	Y	FO	42 CFR 441 subpart K https	All - see program unit/activity description	
			I/DD	I/DD Program	Waiver Services - Employment First (no CSL)	These services have been strengthened and improved as part of the important Employment First initiative. I/DD has restructured employment services to encourage integrated, competitively paid employment for people with I/DD. Employment services are no longer bundled with attendant care services, they have been broken out into discrete services to support people as they learn about, find and maintain employment. Employment services are not offered through the CFCO, they remain available through the Medicaid waiver. Employment services include: Employment path; job discovery; Job development; Job coaching and Small-group supported employment.	People with disabilities in community settings	12	77,289,139	11,996,722	120,908,495	0	210,194,356	0	0.00	Y	Y	FO	EO 15-01 https://www.oregon.gov/DHS/EMPLOYMENT/EMPLOYMENT-FIRST/Documents/Executive%20Order%2015-01.pdf	All - see program unit/activity description	
			I/DD	I/DD Program	Waiver Services - No Employment	1915c Waivers include Adult HCBS Waiver, Children's HCBS Waiver and three model Waivers for children under 18 with complex needs: Medically Involved Children's Model Waiver, Medically Fragile Model Waiver, and Behavioral Model Waiver. These waivers primary service is case management that is furnished to assist individuals in gaining access to needed medical, social, educational and other services. Waiver Case Management includes the following assistance: assessment and periodic reassessment of individual needs, development (and periodic revision) of a specific care plan, referral and related activities, and monitoring and follow-up activities. Other 1915c Waiver services include environmental safety modifications, vehicle modifications, family training, specialized medical supplies, and direct nursing services (for adults only).	People with disabilities in community settings	12	10,714,135	0	12,335,994	0	23,050,129	0	0.00	Y	Y	FO	42 CFR 441 Subpart G https://www.ecfr.gov/cgi-bin/text-idx?SID=ee1d5a7b4341f1514069eca301e17436&mc=true&node=pt42.4.441&rgn=div5	All - see program unit/activity description

			I/DD	I/DD Program	Stabilization and Crisis Unit (k plan group homes)	SACU is a 24-hour service provided under the CFCO. SACU provides a safety net for Oregon's most vulnerable, intensive, medically and behaviorally challenged people with I/DD. SACU provides services when no other community-based option is available for a person. This includes persons with I/DD coming out of the Oregon State Hospital, corrections systems, and from crisis situations where counties and private providers cannot meet the needs of the person to ensure their health and safety. SACU focuses on supporting people in community-based settings and enabling them to return to less intensive service levels as quickly as possible. SACU provides 24-hour residential and day supports to people with I/DD from across the state who have significant medical or behavioral needs. The services are provided in licensed five-bed group homes.	People with disabilities in community settings	12	74,908,575	1,720,867	128,605,791	0	205,235,233	745	744.92	N	Y	FO	42 CFR 441 subpart K https	All - see program unit/activity description	
			CW	Foster Care	Independent Living Services	Helps youth who are, or were, in foster care to become self-sufficient adults. Gives an opportunity for youth to learn valuable skills necessary to make a successful transition from state or tribal care to living independently.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	11,652,473	143,126	6,332,512	0	18,128,111	0	0.00	Y	Y	FM	ORS 419A and 419B	All - see program unit/activity description	
			CW	Foster Care	Nursing Assessments	Every child receives an intake nursing assessment by a DHS contracted nurse shortly after entering foster care. This assessment assures the child has all prescribed medication and assistive devices and is second set of eyes assuring safety. The contracted nurse also works with the foster/relative care provider to assure they have a clear understanding of the child's needs and can expedite referral to a physical, dental or mental health assessment when necessary.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	1,699,835	20,016	2,362,385	0	4,082,236	0	0.00	Y	Y	FM	ORS 419A and 419B	All - see program unit/activity description	
			CW	Foster Care	Other Medical	Other Medical is used to pay for services to help guide good case planning when the services are not covered by Medicaid or private health insurance, such as: Parent/Child Interaction, Sibling Interaction, Urinalysis Drug Testing, Psychosexual Evaluations, etc.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	6,374,998	24,706	496,425	0	6,896,129	0	0.00	N	Y	FM	ORS 419A and 419B	All - see program unit/activity description	
			CW	Foster Care	IV-E FC and Admin Reimbursements	Title IV-E Waiver project is Leveraging Intensive Family Engagement (LIFE). LIFE services include intensive family finding efforts to create and strengthen relationships with kith and kin, structured case planning meetings that are strengths based; trauma informed; culturally responsive, and family driven, and referrals to parent mentors who can facilitate the family's navigation through the system to help shorten the lengths of stay for children predicted to stay in the system for more than 3 years.	Timeliness and permanency of child reunification	12	0	0	11,236,599	0	11,236,599	0	0.00	Y	N	FO	ORS 419A and 419B	All - see program unit/activity description	
			CW	Foster Care	Foster Care Services	Contracted services to support the recruitment and retention of good foster families.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	6,779,405	26,141	1,751,215	0	8,556,761	0	0.00	Y	Y	FO	ORS 419A and 419B	All - see program unit/activity description	
			CW	Foster Care	Interstate Compacts	The Interstate Compact for the Placement of Children (ICPC) Program processes requests for placement across state lines in the context of dependency cases and in private placements, ensuring that legal and administrative requirements are met so that children are placed in safe and appropriate permanent homes. In addition, field-based specialized ICPC workers complete home studies for Oregon families across the state who are seeking placement of their relative children from another state's foster care program.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	671,479	17,117	295,155	0	983,751	0	0.00	N	N	FO	ORS 419A and 419B	All - see program unit/activity description	
			CW	Addiction & Recovery Services		Services in Washington, Clackamas and Lane counties that allow parents who have just completed residential treatment for their addiction to stabilize in their communities in settings that are alcohol and drug free and staff supported. Decreases foster care costs as children stay with their parents. Family Support Teams are a combination of contracted staff with expertise in addiction treatment and intervention and Child Welfare caseworkers responding to parents with substance use disorders. Service providers include addictions counselors and peer level supports known as 'outreach workers' housed in Child Welfare branches for immediate access by caseworkers and families.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification. Absence of repeat maltreatment	12	5,495,475	26,731	4,857,712	0	10,379,918	0	0.00	N	Y	FO	ORS 419A and 419B	All - see program unit/activity description	
			CW	Guardianship Assistance		Guardianship Assistance is intended to help prevent a child from remaining in foster care when reunification with parents and adoption are not appropriate permanency options. Guardianship assistance supports relatives assuming legal guardianship by providing financial and medical assistance until the child/young adult is 18 years of age, to guardians who are not able to meet their child's needs without assistance.	Timely adoption, Absence of repeat maltreatment, Timeliness and permanency of child reunification	12	31,461,530	328,115	21,403,493	0	53,193,138	0	0.00	N	N	FO	Social Security Act, Section 473; ORS 418.330; ICWA	All - see program unit/activity description	
			CW	Adoption Assistance		Adoption Assistance is intended to help prevent a child from remaining in foster care when they cannot be safely returned to parent(s), and provides financial and medical assistance until the child/young adult is 18 years of age, to adoptive parents who are not able to meet the child/young adult's needs without assistance.	Timely adoption, Timeliness and permanency of child reunification	12	90,205,228	214,395	88,235,219	0	178,654,842	0	0.00	N	N	FM	Public Law 96-272; Public Law 105-89; Social Security Act , Section 473; ICWA	All - see program unit/activity description	
			CW	Post Adoption-Services		Post Adoption Services support adoptive parents and guardians through training, specialized support, mentoring, etc.	Timely adoption, Timeliness and permanency of child reunification	12	585,409	18,067,582	1,091,323	0	19,744,314	0	0.00	N	Y	FO	ORS 419A and 419B	All - see program unit/activity description

			SSP	Supplemental Nutrition Asst. Program	EBT SNAP	SNAP offers food assistance to low-income individuals and families to help meet their nutritional needs. Benefits to participants are 100 percent federally funded; however, the administration of the program requires a 50 percent state match. Approximately one in five Oregonians receive food assistance through SNAP. SNAP is an important and constantly growing anti-poverty program. Recent research has shown that SNAP benefits reduce the depth and severity of poverty, and have a particularly strong effect on reducing child poverty. SNAP benefits add about $1.1 billion dollars per year to the Oregon Economy including rural Oregon. Self-Sufficiency offices across the state serve the majority of the SNAP population. Elderly persons (60 and older) plus persons with disabilities who require services are assisted by Aging and People with Disabilities (APD) Program offices and their contracted: Area Agencies on Aging, Disability Services Offices and Councils of Government.	Food stamp utilization, Food stamp accuracy	12	0	0	0	3,089,534,623	3,089,534,623	0	0.00	N	N	FM	SNAP is guided by federal legislation found in the "Farm Bill" authorized by the Agricultural Act of 2014 (P.L. 113-79, Feb. 7,2014). Program policy is reauthorized every five years through the Farm Bill.	All - see program unit/activity description

			APD	Disability Determination Services Program		People with disabilities may be able to qualify for one of two federal disability programs: Social Security Disability Insurance (SSDI) or Supplemental Security Income (SSI). These programs are governed by the federal Social Security Administration (SSA). Oregon performs this work on behalf of the Social Security Administration under contract. DDS employs over 200 employees and has a budget of over $60M.			0	0	22,864,874	0	22,864,874	0	0.00	N	N	FM	N/A		
			SSP	Supplemental Nutrition Asst. Program	SNAP Employment and Training	Oregon is federally required to offer a limited companion employment and training program. SNAP participants may be enrolled in one of the following programs: Oregon Food Stamp Employment Transition (OFSET) program and the Able-Bodied Adults Without Dependents (ABAWD) program. More comprehensive services are provided through the 50/50 employment and training program, referred to in Oregon as SNAP Training and Employment Program (STEP).	Food stamp utilization, Food stamp accuracy	12	855,631	0	64,137,641	0	64,993,272	0	0.00	N	N	FM	This program is mandated by federal legislation found in the Food and Nutrition Act of 2008, authorized by the 2008 Farm Bill. 			SSP	Supplemental Nutrition Asst. Program	SNAP Outreach 50%	SNAP Outreach to potentially eligible household who are not currently accessing SNAP benefits is part of Oregon's plan. priorities include messaging the need to complete and return necessary paperwork and retention of their Oregon Trail Cards (Oregon's EBT card). The education component of the plan also includes stretching food budgets, utilizing locally available resources and assist by educating people about reporting changes. Currently there are 15 Outreach contracted partners that work closely with local DHS offices. This State Plan has a 50% Federal reimbursement for contractors.			192,789	0	2,602,883	0	2,795,672	0	0.00	N	N	FM	This program is mandated by federal legislation found in the Food and Nutrition Act of 2008, authorized by the 2008 Farm Bill.	All - see program unit/activity description	
			SSP	Food Assistance	TEFAP, CSFP, OHRF, OHTF	The Emergency Food Assistance Program (TEFAP) is a federally funded program that helps supplement the diets of low-income Americans, including elderly people, by providing them with emergency food assistance at no cost. The Oregon Food Bank is primary grantee in Oregon and works with the Oregon Food Bank network to deliver services across Oregon. The Commodity Supplemental Food Program (CSFP) provides nutritious commodities to help meet the nutritional needs of low-income elderly persons (aged 60 or older) in Oregon. Through local agencies, each participant receives a monthly package of commodities. There are currently 7 Regional Food Banks who contract with roughly 100 pantries that distribute the food boxes. The Oregon Hunger Response Fund is an allocation from the Legislature to the Oregon Food Bank to help build infrastructure and transport food to food pantries and other important efforts to support the Food Bank and Food Bank Networks. Oregon Housing and Community Services, with legislative approval, transferred the Oregon Hunger Response Fund (OHRF) to the Department of Human Services effective 10/1/2015. Oregon Hunger Task Force (OHTF) is a 28-seat task force that is directed to "serve as an advocate for hungry persons," studying the problem of hunger, making recommendations, and helping local communities implement changes. Working with partners throughout Oregon, the task force has since worked to promote community awareness, compile research, develop proposals for government action, and conduct outreach to expand participation in nutrition programs. 			SSP	Family Support and Connections		Provides supports to prevent children in the TANF program from entering the child welfare system. Home visiting and community-based services are some of the interventions used to build on family strengths and address family functioning issues.	TANF re-entry, TANF family stability	12	324,103	0	22,092,046	0	22,416,149	0	0.00	N	N	FO	Title II of the Child Abuse Prevention and Treatment Act (CAPTA), as amended by P.L. 111-320, authorizes grant funds to be released to the states and names the program Community-Based Grants for the Prevention of Child Abuse and Neglect (CBCAP).	All - see program unit/activity description	
			SSP	Cash Assistance	TANF Basic	TANF is a collection of programs directed at improving the lives of very low-income Oregon families with children. It is a critical safety net program for families with children living in extreme poverty and helps families from a variety of diverse backgrounds to address their most basic needs. TANF provides eligible families with cash assistance, connections to support and community resources, case management, and employment and training services. Families typically use TANF funds to prevent homelessness and to help with other factors contributing to family instability. The goal of the program is to help families address barriers, gain skills and access employment opportunities to become self-sufficient.	TANF re-entry, TANF family stability	12	44,584,152	358,400	188,310,002	0	233,252,554	0	0.00	Y	Y	FO	The TANF program is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Act, as amended by the Work Opportunity Reconciliation Act of 199 (PRWORA), and the Deficit Reduction Act of 2005. State Statue chapters are 411 and 412.	All - see program unit/activity description	
			SSP	Cash Assistance	TANF UN	TANF is a collection of programs directed at improving the lives of very low-income Oregon families with children. It is a critical safety net program for families with children living in extreme poverty and helps families from a variety of diverse backgrounds to address their most basic needs. TANF provides eligible families with cash assistance, connections to support and community resources, case management, and employment and training services. Families typically use TANF funds to prevent homelessness and to help with other factors contributing to family instability. The goal of the program is to help families address barriers, gain skills and access employment opportunities to become self-sufficient.	TANF re-entry, TANF family stability	12	57,228,033	640	0	0	57,228,673	0	0.00	N	Y	FO	State Statutes Chapters 411 and 412.	All - see program unit/activity description	
			SSP	Cash Assistance	State Family Pre SSI/SSDI	The State Family Pre-SSI/SSDI (SFPSS) Program is designed to assist TANF-eligible individuals with disabilities obtain Social Security disability benefits through the Supplemental Security Income (SSI) and Social Security Disability Insurance (SSDI) programs. The program serves individuals who are not required to participate in the JOBS program. The program provides families with a cash grant, professional assistance with Social Security Administration (SSA) applications and appeals as well as case management services. Once a client is awarded SSI benefits, the department recovers a portion of the payments it made to the family during the application process from the client's initial SSI lump-sum payment.	TANF re-entry, TANF family stability	12	475,504	773,015	0	0	1,248,519	0	0.00	N	Y	FO	State Statutes Chapters 411 and 412.	All - see program unit/activity description	
			SSP	JOBS Contracts/Support Services Activities	TANF Programs	Most adults must meet additional requirements to receive TANF services. The JOBS program provides employment, education, skill-building and family stability services to individuals of families receiving TANF assistance. Individuals participate in JOBS to gain skills necessary to join the workforce and retain employment.	TANF re-entry, TANF family stability	12	18,220,455	451,439	45,863,761	0	64,535,655	0	0.00	Y	N	FO	State Statutes Chapters 411 and 412.	All - see program unit/activity description	
			I/DD	I/DD Program	Other Services (Includes Housing)	The I/DD Community Housing Program assists persons with developmental disabilities to live successfully in community housing that is affordable and safe and contributes to their independence and quality of life. I/DD Community Housing supports services to persons with developmental disabilities by overseeing the property management of homes developed for the former Fairview State Training Center residents, develops and manages funds eligible for home modification for IDD individuals, coordinating the operation of the Fairview Community Housing Trust that was established with revenue from the sale of Fairview and providing technical assistance to individuals, families, brokerages, and counties regarding housing issues faced by persons with developmental disabilities and best practices to implement solutions.	People with disabilities in community settings	12	6,977,975	3,399,905	3,609	0	10,381,489	0	0.00	N	Y	FO	42 CFR 441 subpart K https	All - see program unit/activity description	
			VR	VR - Basic Rehabilitative Services		These are basic services provided to individuals whose disabilities present a potential barrier to employment. A rehabilitation counselor conducts a comprehensive assessment to evaluate vocational potential, including diagnostic and related services necessary for the determination of eligibility for services as well as the nature and scope of services to be provided. Vocational counseling and guidance builds on this assessment and helps the client identify a vocational goal. The counselor, in partnership with the client, develops an individualized plan for employment and authorizes appropriate services in support of the plan while maintaining a counseling relationship with the client. This program has a mandated set aside for providing students with Pre-employment Transition Services as well as a set aside to serve youth with he most significant disabilities in supported employment.	Vocational rehabilitation services employment	12	20,201,591	1,886,371	35,423,227	0	57,511,189	0	0.00	Y	Y	FO	29 U.S.C. 796c and 29 U.S.C 796e-2	All - see program unit/activity description	
			VR	State Independent Living Council (SILC)		This funding supports the seven Centers for Independent Living through out the state of Oregon. Centers for Independent Living are designed to help individuals who experience disabilities achieve personal goals for independence and participation in their families and communities.	Vocational rehabilitation services employment	12	2,265,571	0	738,328	0	3,003,899	0	0.00	N	Y	FO	29 U.S.C. 796d	All - see program unit/activity description

			APD	APD Program	Other Services	The Centers for Medicare and Medicaid Services (CMS) requires DHS to coordinate with Medicare in many areas and clients need help accessing other programs for which they are eligible. The federal Medicare program is the most common program clients need assistance with. APD determines client eligibility and submits client data to CMS for two Medicare-related programs: Medicare buy-in and Medicare Part D low-income subsidy. APD served more than 130,000 clients in these two programs over one year. These programs help low-income beneficiaries with their cost-sharing requirements. Securing this coverage also ensures Medicare remains in a "first payor" status, ultimately saving the state's Medicaid program significant money.		12	4,252,150	2,148,828	4,187,573	0	10,588,551	0	0.00	Y	Y	FO	ORS 410.070	All - see program unit/activity description	
			APD	APD Program	Older Americans Act	Services and supports provided to individuals under the Older Americans Act (OAA) provide vital assistance designed to prevent or delay entry into Medicaid-funded long-term care such as In-Home or 24-hour residential services. The OAA is a Federal law that set out a national aging network structure consisting of the U.S. Administration on Aging (AoA) now part of the Administration for Community Living, State Units on Aging (DHS/Aging and People with Disabilities program), and Area Agencies on Aging (AAAs). The OAA authorizes funding and services through this network to serve older individuals in their homes and communities, through local entities. All individuals, aged 60 or older, regardless of income are eligible to receive services but the programs are targeted towards those in greatest social or economic need. A specific focus on how to better serve diverse populations of older adults across race/ethnicity, sexual orientation, gender, veteran status, and other intersecting categories are essential with the continually changing demographics of Oregon.		12	3,332,075	0	46,884,458	0	50,216,533	0	0.00	N	Y	FO	ORS 410.070	All - see program unit/activity description	
			APD	APD Program	Oregon Project Independence	This is a state-funded program offering in-home services and related supports to individuals 60 years of age and older or people who have been diagnosed with Alzheimer's or a related dementia disorder. Approximately 5,000 Oregonians are served in this program. It represents a critical element in Oregon's strategy to prevent or delay individuals from leaving their own homes to receive services in more expensive facility-based settings, or depleting their personal assets sooner than necessary and accessing more expensive Medicaid health and long-term service benefits. The program was expanded by the 2005 Oregon Legislature to include younger adults with disabilities. In 2014 and 2015 a pilot program was funded expanding the program to adults ages 19-59 with physical disabilities. Through this pilot more than 500 individuals have been served. OPI is administered statewide by local Area Agencies on Aging (AAAs). Many areas have waiting lists due to high demand and limited program funding. Client eligibility is determined by an assessment of functional ability and natural supports related to activities of daily living. Typical services include assistance with housekeeping, bathing, grooming, health care tasks, meal preparation, caregiver respite, chore services, adult day services and transportation. The OPI program has no financial asset limitations for clients. A sliding fee scale is applied to clients with net monthly income between 100 and 200 percent of the federal poverty level (FPL) to pay toward the cost of service. A small group with income above 200 percent of FPL pays the full rate for services provided. Generally, this is because they benefit from the case management; ongoing support and monitoring, in addition to the actual purchased services.		12	43,137,140	0	50,227,518	0	93,364,658	0	0.00	N	Y	S	ORS 410.410		
			SSP	Refugee Program		The program serves individuals and families who fled persecution in their country of origin and were legally admitted for resettlement by the United States government. Refugees and people who have been granted asylum access the program for financial, employment-related and acculturation services. The program guides refugees toward economic stability through employment as early as possible. The program serves only those persons in immigration categories approved by the Federal Office of Refugee Resettlement (ORR).		12	6,668,785	0	31,251,715	0	37,920,500	0	0.00	N	N	FM	ORS 411.060, 409.010(2) ©, 409.010(2) (h)	All - see program unit/activity description	
			SSP	Summer EBT		This is a new program started after the 2024 February Legislative Session. More details will be available at a later date.		12			70,560,000		70,560,000								
			SSP	Employment Related Daycare		This program moved to the Department of Early Learning (DELC). This portion represents the body of work still found within ODHS.		12		480,036,614			480,036,614								
			SSP	Cash Assistance	TANF Transition	Services are available to families who transition from TANF cash benefits to employment. These programs include allowing families to make more money before closing the TANF grant, a reduced copay for childcare, and three months of supportive cash benefits once the TANF has closed. These services are intended to provide a glide path for families as they transition to employment and help ease the burden of the costs related to this change. 			SSP	Youth Services		My Future - My Choice program is an age-appropriate, medically accurate, sexual health education program. This service supports community prevention efforts to help families break the generational connection to public assistance. The program expands on the historical teen pregnancy prevention program to provide education and tools for youth to resist multiple risk-taking behaviors. DHS partners with the Oregon Department of Education and the My Future - My Choice Advisory Committee to develop and implement the program.		12	22,797,617	0	1,656,674	0	24,454,291	0	0.00	N	N	FO	The Title V Federal Abstinence Education Program Grant	All - see program unit/activity description

			SSP	SUD Childcare		The Department of Education, Early Learning Division (ELD) supported contracts with Substance Use Disorder (SUD) treatment clinics to cover child care for parents in treatment for several years. Due to changes in the funding source, 2014 Reauthorization of the Child Care Development Block Grant, ELD was no longer able to leverage these funds to support the contracts. Department of Human Services (DHS) worked closely with the SUD facilities, ELD, Child Welfare, and Oregon Health Authority to create the DHS SUD child care program to allow for continued support for the SUD facilities and the families they serve. DHS leveraged TANF Federal funding to support the contracts to cover child care needs for families in SUD treatment. The TANF funding allows DHS to cover the cost of care for up to 4 months while the families apply for a TANF grant and work with their local DHS worker to create a case plan that includes SUD treatment. Once a case plan is in place the child care is covered through the local DHS JOBS support service payment budgets.		12	0	0	900,000	0	900,000	0	0.00	N	N	FO	45 CFR 260.31 (b) & ORS 411.117 (1) (e)		
			SSP	Other Family Support		Other Family Supports provides services to families not fitting into other program areas. For CSL, this budget only includes the Culturally Responsive Tax program. Oregon Department of Human Services
2025-27 Estimated Revenue Narrative

Forecast methods and assumptions

Revenues for the Oregon Department of Human Services comes from funding sources classified as the state General Fund, Other Funds and Federal Funds. Three major methodologies are used to project revenues for the department:

- The category of expenditures based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) is primarily used for federal entitlement grants.
- Grant cycles and where they fall within the biennium are considered for block grants. Assumptions based on the results of prior grant averaging and the anticipated effect of the federal budget process both are used to project the amount of funds that will be received.
- The historical receipt trends method is used for Other Funds sources such as collections of overpayments and fees unless the agency has additional information, such as anticipated special projects that would increase revenue or a temporary need for additional staff that will change the projections for a specific time period.

ODHS projects revenue based on assumptions that consider:

- Essential packages that adjust the existing base budget to the 2025-2027 Current Service Level Budget (CSL). Essential packages include phasing program changes in or out, one-time costs, Department of Administrative Services inflation factor, mandated caseload changes, and any needed fund shifts;
- Applicable federal funding limits and requirements, including the availability of state funds to meet matching or maintenance of effort (MOE) requirements;
- Changes in federal policies that affect federal revenue available to ODHS programs;
- Expected non-mandated program caseload changes; and
- Recent changes in state or federal statutes and regulations that affect the availability or timing of revenue receipts.

Significant known federal revenue changes or risk factors

Sequestration & Reauthorization

The possibility of sequestration being implemented at the federal level could cause a significant impact in federal funding for programs related to Child Welfare, Self Sufficiency and Vocational Rehabilitation. Additionally, there are federal programs up for reauthorization that could also impact funding.

Federal Medical Assistance Percentage (FMAP)

As part of the federal response to the pandemic, several time-limited enhancements were made to the FMAP rate used for the Medicaid, CHIP and title IV-E reimbursements. These enhancements have all ended as of December 31, 2023. As a result, additional General Funds are needed to backfill for the reduction in federal percentage. FMAP was increased by 6.2% from January 2020 through March 2023. It was then phased out over the next 3 quarters with 5% for the quarter ending June 2023, 2.5% through September 2023 and finally 1.5% through December 2023.

American Rescue Plan Funding for Medicaid Home and Community Based Services (One time only for 21-23)

Enhanced funding from the Centers for Medicare & Medicaid Services (CMS), provided through the American Rescue Plan Act of 2021 (ARPA), to increase access to home and community-based services (HCBS) for Medicaid beneficiaries. These benefits provide critical services to older adults and individuals with disabilities, allowing them to receive health services in their homes and communities, rather than in nursing homes and other institutions. The intent of the added federal resource was to increase health equity in Medicaid beneficiaries' access to HCBS, positive health outcomes, and community integration. Both, Aging and People with Disabilities and Intellectual and Developmental Disabilities programs, were able to leverage an additional 10% federal funds through the 3rd quarter for qualifying Home and Community Base service expenditures. The General Fund savings resulting from the additional 10% is required to be reinvested back into HCBS by March 31, 2025.

Self Sufficiency Program

Summer EBT

The Consolidated Appropriations Act, 2023 (P.L 117-328) authorized a new permanent, nationwide Summer EBT Program with direct requirements that relate under section 13A of the Richard B. Russell National School Lunch Act (NSLA) [42 U.S.C. 1762].

Summer EBT is intended to reduce hunger and food insecurity for children who lose access to free and reduced-price meals through the National School Lunch Program (NSLP) and School Breakfast Program (SBP) during the summer months when school is not in session.

The new permanent Summer EBT program will be administered in partnership between the Oregon Department of Human Services (ODHS), the Oregon Health Authority (OHA) and the Oregon Department of Education (ODE) with ODHS as the lead agency.

The USDA Food and Nutrition Services (FNS) will support states, including Oregon in the implementation of this permanent food benefits program. Federal budget supports from FNS will include 50/50 (50 percent) direct match for approved administration costs and 100 percent for food benefit issuances.

Temporary Assistance for Needy Families (TANF)

An $8 million TANF penalty for FFY2007 was levied by the federal government. ODHS lost its appeal. The TANF federal grant was reduced in FFY2023 and an additional $8 million of General Fund is required in FFY2024.

Additionally, if the agency does not meet certain federal requirements for monitoring clients' work, a penalty causes the maintenance of effort requirement to increase an additional 5 percent of the base. This means that rather than the maintenance of effort being set at 75 percent of the base year, it is set at 80 percent of the base year.

TANF has also failed to meet its work participation rate for FFY2022. This could result in a possible penalty of less than $50,000. Self Sufficiency is working on a remediation plan with ACF which could result in the penalty being waived.

Child Care and Development Fund (CCDF)

The Deficit Reduction Act (DRA) reauthorized CCDF for five years and increased appropriations requiring additional state matching funds. The programs within ODHS were historically funded by CCDF were transferred to the Department of Early Learning and Care (DELC) effective June 30, 2023. However, ODHS will continue to make payments on behalf of DELC until such time as they are able to develop their own payment system. Therefore, CCDF and General Fund will be used by DELC to reimburse ODHS for these payments. This will be reflected as Other Funds in the ODHS budget.

Targeted case management (TCM)

The DRA contains a more stringent definition for TCM services, while third-party liability language has been changed to reflect that any legally responsible entity can be considered a third-party resource payer before Medicaid pays. Any program that currently uses Medicaid and has another funding source may be at risk for Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, including resources available through SS programs.

Child Welfare Changes and Risk Factors

The Family First Prevention Services Act (FFPSA), Public Law 115-123, became law on February 9, 2018. Effective dates varied, depending on the provision of the law. Among other things, FFPSA amended Title IV-E foster care to create new optional prevention funding and place payment limits on child caring institutions (certain residential care placements). To assist with transitioning to FFPSA, the Family First Transitions Act, P.L. 116-94, became law on December 20, 2019. This act modified the requirements for IV-E prevention services, authorized funding for transition grants, and authorized grants to provide funding certainty for states that were operating Title IV-E waivers. The Family First Transition Act funding is provided over FFY 2020 and FFY 2021, to be spent by

the end of FFY 2025. These one-time grants will assist states to transition to more preventative services. The Family First Prevention Services Act itself will have a large impact on Child Welfare services and funding. These laws also impacted Adoption Assistance IV-E eligibility and IV-E eligibility for Residential Treatment settings, as well as for Prevention Services.

Change in Eligibility Title IV-E Adoption Assistance

P.L. 110-351 created "Applicable Child[1]" criteria, whereby nearly all children became eligible by FFY 2018, regardless of income. FFPSA delayed this for children ages 0-2 until 6/30/24.

Change in Eligibility Title IV-E Foster Care Reimbursement

The Family First Transitions Act, P.L. 116-94 limits IV-E reimbursement for certain Residential Care placements that do not meet the law's criteria. Residential facilities must meet the requirements as a Qualified Residential Treatment Program (QRTP) for IV-E funding to be used beyond the first 14 days for IV-E eligible children in residential care placements.

Children and Families Services Review Penalty

The state did not meet its negotiated Program Improvement Plan measurement goals for Safety Outcome 2 and Permanency Outcome 1, so the Administration on Children and Families is withholding $1,682,626 in federal financial participation (FFP) for the outcomes remaining out of substantial conformity for FFY 2021. The funds withheld are based on the state's title IV-B allotments and title IV-E expenditure data provided for the period beginning with Federal Fiscal Year (FFY) 2016. In accordance with 45 CFR 1355.36(b)(5)(i), this amount represents one percent of the pool of funds subject to withholding for each outcome and systemic factor for which a penalty is applicable. This pool of funds includes the state allotment of title IV-B funds for each of the years to which the withholding applies and an amount equivalent to ten percent of the state's federal claims for title IV-E foster care administrative costs for each year funds are to be withheld, as required by 45 CFR 1355.36(b)(4).

[1] The state general fund savings from this provision is mandated to be used to invest in additional child welfare services.

The Children's Bureau informed ODHS in April 2023 that they were revising the approach to withholding for Round 3 CFSR. Federal funds will still be withheld for Program Improvement Plan measures not met, however the Children's Bureau (CB) will not withhold penalties for additional periods until the state is found to be in substantial conformity in its Round 4 CFSR or successfully completes a Round 4 PIP. The CB reached this decision because we are reinstituting the use of the national statewide data indicators in CFSR Round 4 which makes it difficult to measure the extent to which states with outstanding outcomes achieve Round 3 performance goals during Round 4. This reversed the penalty costs of $3,365,252 for the 23-25 biennium.

Noncompliance with the outcome measures in Round 4 CFSR represents a budget risk for ODHS Child Welfare.

Title IV-E Family First Prevention Services Act (FFPSA)

FFPSA has many parts with different effective dates. The focus here is to describe the funding for prevention services. The start date for prevention services is linked to the start date for the residential care placement requirements. The provisions are effective 10/01/19 but may be delayed at the state's option for up to two years. The services are for children who meet the state's definition as a "candidate for foster care," pregnant or parenting foster youth in need of the services, and the parents or kin caregivers of these children and youth. Services include certain mental health, substance abuse and in-home parenting services. A certain proportion of the services must meet evidence-based practice standards. In general, the state may provide the services for up to 12 months, but on a case-by-case basis may provide services for additional 12-month periods. The federal share is 50% until 2027 (where it moves to the FMAP rate) and states are required to meeting a maintenance of effort as well as evidence-based practice standards.

Temporary Assistance for Needy Families

TANF is a federal block grant to states that operates according to four overarching purposes, one of which is to aid needy families with children so that the children can live in their own homes or the homes of relatives. For children removed from their homes due to abuse and neglect by their parents, TANF can be used to provide financial

assistance and an array of services to support children living with non-parent caregivers. In addition, federal law allows states to use TANF dollars to cover programs and activities a state had conducted under its pre-1996 (pre-TANF) Emergency Assistance program. Since this is a block grant, funding increases are not possible. This runs the risk of creating revenue shortages or additional need for General Fund as the Child Welfare or Self-Sufficiency programs change.

Aging and People with Disabilities (APD) and Intellectual & Developmental Disabilities (I/DD)

Targeted case management (TCM)

The DRA provides a more stringent definition of TCM services. Any program that currently uses Medicaid and has another funding source may be at risk of Medicaid reductions. The TCM statute allows the rules of third-party liability to determine if Medicaid will cover services that are normally provided under another program authority, which could include Intellectual and Developmentally Disabled programs (I/DD). Before ODHS would be required to stop providing TCM services, viable third-party providers would need to be found to provide or pay for equivalent case management services.

Long-term care reform

The DRA increased the look-back period (the period during which the disposition of assets is reviewed to determine eligibility for services) from three to five years. This change in long-term care asset determinations is a greater administrative burden because staff are required to review more client documents; additionally, the change increases technical assistance and training requirements.

ODHS Major Funding Sources

The following section identifies the major funding sources for ODHS. All references to a grant "Title" are references to the originating statute in the federal Social Security Act.

Federal Funds:

Child Welfare Program
Federal dollars for child welfare services come from a variety of sources, some dedicated exclusively to child welfare activities, including Titles IV-B and IV-E of the Social Security Act. Other federal programs allow for spending on child welfare activities but are designed for broader purposes or populations. These include the Temporary Assistance for Needy Families (TANF) program, the Social Services Block Grant (SSBG), and Medicaid. These federal funding streams are often referred to as either "dedicated" or "non-dedicated" sources of child welfare funding, based on whether they are designed exclusively to support child welfare activities. In addition, states may also use federal "child income"-related funding streams for child welfare purposes, including Supplemental Security Income (SSI) and Social Security benefits, as well as U.S. Department of Veterans Affairs funds and child support dollars.

The principal sources of federal funds dedicated to child welfare activities derive from Titles IV-B and IV-E of the Social Security Act.

Title IV-B of the Social Security Act
There are two major programs under Title IV-B of the Social Security Act:

Subpart 1 (Stephanie Tubbs Jones Child Welfare Services)
The Stephanie Tubbs Jones Child Welfare Services (CWS) program is a discretionary grant program (meaning that it must go through the annual Congressional appropriations process, and the amount of money allocated to the program can be changed from year to year) that funds a range of child welfare services. Eligible populations are families and children in need of child welfare services. Eligibility determinations for individuals are not required. Services include services and activities to prevent abuse and neglect; preserve and reunite families; promote safety, permanence, and well-being of children in foster care or adoptive placements; and maintain a qualified workforce.

Subpart 2 (MaryLee Allen Promoting Safe and Stable Families)
MaryLee Allen Promoting Safe and Stable Families is a mandatory grant program that enables states to develop and operate coordinated programs of family support, family preservation, family reunification, and adoption promotion services. Families and children are eligible if they need services to assist them to stabilize their lives, strengthen family functioning, prevent out-of-home placement of children, enhance child development and increase competence in parenting abilities, facilitate timely reunification of the child, and promote appropriate adoptions. Eligibility determinations for individuals are not required. Services include services for family preservation, family support, family reunification, and adoption promotion and support – each of these areas must receive at least 20% of the funding. There is also a 10% admin cap. This grant also includes dollars set aside for the following purposes: improving caseworker visits; improving outcomes of children affected by parental abuse of methamphetamine or other substances, court improvement programs; and research, evaluation, training, and technical assistance.

Title IV-E of the Social Security Act
The largest federal funding stream dedicated to child welfare purposes, Title IV-E of the Social Security Act is a mandatory program that provides support to states through four main programs: (1) foster care, (2) adoption assistance, (3) guardianship assistance, and (4) the John H. Chafee Foster Care Program for Successful Transition to Adulthood (the "Chafee Program") and now (5) optional prevention services. Except for the Chafee Program, the Title IV-E programs operate as open-ended entitlements, meaning states can receive federal reimbursement for every eligible claim they submit with no cap or upper limit. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC). The change in expected revenue is based on the caseload forecast showing a change in cases, as well as the child eligibility rate.

For Administrative charges, the projection of revenue is based on use of time and effort and other measures. Federal financial participation is available at the Medicaid FMAP rate for administrative costs based on the overall child eligibility rate at the rate of 50 percent for administrative expenditures necessary for the proper and efficient administration of the Title IV-E state plan. The state's cost allocation plan identifies which administrative costs are allocated and claimed under this program. Federal financial participation also is available at the rate of 75 percent

for the costs of training related to all supported programs for staff, court personnel and prospective or current foster or adoptive parents or and members of the state licensed or approved child-care institutions providing care to foster and adopted children receiving Title IV-E assistance.

All training activities and costs funded under Title IV-E must be included in the state agency's training plan that is part of the Child Welfare services plan. Administrative costs and Training costs federal share is modified by the overall child's IV-E eligibility rate.

The Family First Prevention Services Act (FFPSA), Public Law 115-123, became law on February 9, 2018. Effective dates varied, depending on the provision of the law. Among other things, FFPSA amended Title IV-E foster care to create new optional prevention funding and place payment limits on child caring institutions (certain residential care placements). To assist with transitioning to FFPSA, the Family First Transitions Act, P.L. 116-94, became law on December 20, 2019. This act modified the requirements for IV-E prevention services, authorized funding for transition grants, and authorized grants to provide funding certainty for states that were operating Title IV-E waivers. The funding was provided over FFY 2020 and FFY 2021.

Foster Care Maintenance Payments, Administration and Training

It is important to note that not all children in foster care are eligible for the Title IV-E foster care program. Rather, a specific set of requirements must be met for a state to be able to make a claim for federal reimbursement on that child's behalf. The percentage of children in out-of-home placements for which a state receives Title IV-E reimbursement for foster care maintenance payments is known as the state's "foster care penetration rate" or foster care eligibility rate. Data show that the national foster care penetration rate has declined over time, which is not surprising given that a qualifying child must meet eligibility requirements for the now-defunct Aid to Families with Dependent Children (AFDC) program, at 1996 levels. Children are eligible if a child is in out-of-home placement who would have been considered needy in the homes from which they were removed (based on measures in place in 1996 under the Aid to Families with Dependent Children program), who entered care through a judicial determination or voluntary placement, and who are in licensed or approved placements. Services covered are room

and board payments to out-of-home care providers for eligible children, clothing and personal incidental needs, selected transportation costs, and childcare for foster parents.

Foster care administrative costs covers administrative expenditures necessary for the administration of the IV-E state plan. Examples of allowable costs: Case planning, management and review (including caseworker salaries to carry out these activities) for IV-E eligible children, eligibility determinations, licensing of foster homes and institutions, and foster parent recruitment, and other overhead and administrative activities required under the IV-E program.

Foster care training costs can be for public and private child welfare agency staff, prospective and current foster parents, and court personnel. This is generally limited to individuals working with IV-E eligible children.

Title IV-E Family First Prevention Services Act

As noted above, FFPSA has many parts with different effective dates. The focus here is to describe the funding for prevention services. The start date for prevention services is linked to the start date for the residential care placement requirements. The provisions are effective 10/01/19 but may be delayed at the state's option for up to two years. Children who meet the state's definition as a "candidate for foster care," pregnant or parenting foster youth in need of the services, and the parents or kin caregivers of these children and youth are eligible for services. Services covered certain mental health, substance abuse and in-home parenting services. A certain proportion of the services must meet evidence-based practice standards. In general, the state may provide the services for up to 12 months, but on a case-by-case basis may provide services for additional 12-month periods.

Title IV-E Adoption Assistance Payments, Administration & Training Costs

The Title IV-E Adoption Assistance Program reimburses states for expenditures in three categories: (1) adoption assistance payments on behalf of eligible children, (2) adoption placement services and administrative costs related to adoptions from foster care, and (3) expenses related to training for staff and adoptive parents.

Prior to FFY 2010, children adopted from foster care who have "special needs" (as determined by the state) and who (1) would have been considered needy in the homes from which they were removed (based on measures in place in 1996 under the AFDC program), (2) are eligible for SSI, (3) are children whose cost in a foster care setting are included in the IV-E foster care maintenance payment being made on behalf of their minor parents, or (4) were eligible for IV-E adoption assistance in a previous adoption but whose adoptive parents died or their parental rights to the children were terminated. P.L. 110-351 created "Applicable Child[2]" criteria, whereby nearly all children became eligible by FFY 2018, regardless of income. FFPSA delayed this for children ages 0-2 until 6/30/24. Any general fund savings resulting from the Applicable Child criteria implementation must move saved and reinvested into Child Welfare.

Adoption assistance payments are made to adoptive parents, and payment of non-recurring expenses incurred in connection with the adoption of a child also receive Federal match.

Adoption administrative costs covers administrative expenditures necessary for the administration of the IV-E state plan. Examples of allowable costs: placement costs and other administrative activities related to IV-E adoption; recruitment of adoptive parents; and non-recurring adoption expenses, including court costs, attorney fees, and other related expenses.

Adoption training costs can be for public and private child welfare agency staff, prospective and current adoptive parents, and court personnel are covered. This is generally limited to individuals working with IV-E eligible children

<u>Title IV-E Guardianship Assistance, Administration & Training Costs</u>
The Fostering Connections Act gave states the option to operate a Title IV-E Guardianship Assistance Program (GAP), which provides federal reimbursements for: (1) kinship guardianship assistance payments to relatives who

[2] The state general fund savings from this provision is mandated to be used to invest in additional child welfare services.

become the legal guardians of children for whom the relatives previously served as foster parents, (2) applicable guardianship placement and administrative costs, and (3) expenses related to training for staff and guardians.

Children are eligible for IV-E Guardianship Assistance if they are exiting foster care to legal guardianships with relatives meeting the following conditions: (1) the child has been eligible for Title IV-E foster care maintenance payments while residing for at least six consecutive months in the home of the prospective relative guardian, (2) the state or tribe has determined that the permanency options of being returned home or adoption are not appropriate for the child, (3) the child demonstrates a strong attachment to the prospective guardian and the prospective guardian is committed to caring permanently for the child, and (4) for children who have attained the age of 14, the child has been consulted regarding the kinship guardianship arrangement. Beneficiaries may also be siblings of eligible children placed in the same kinship guardianship arrangement.

Guardianship administrative costs are administrative expenditures necessary for the administration of the IV-E state plan. Examples of allowable costs: placement activities and other administrative activities related to IV-E guardianship; non-recurring guardianship expenses including court costs, attorney fees, and other related expenses.

Guardianship training costs can be for public and private child welfare agency staff, prospective and current guardians, and court personnel. This is generally limited to individuals working with IV-E eligible children

<u>The John H. Chafee Foster Care Program for Successful Transition to Adulthood; Education and Training Vouchers (ETV)</u>

The John H. Chafee Foster Care Program for Successful Transition to Adulthood allocates funding to states under Title IV-E for expenses related to activities that prepare youth transitioning out of the foster care system (or those who have already transitioned) for self-sufficiency after leaving the agency's care. The Chafee Program operates as a capped entitlement, with the education and training voucher component receiving discretionary funding. States receive Chafee dollars allocated at an amount proportional to their share of the foster care population in the United States. For Chafee, youth who experienced foster care at age 14 or older, left foster care for adoption or guardianship after attaining age 16, and former foster care recipients up to 21 years are eligible. States that provide

foster care for up to age 21 may extend Chafee services up to age 23. Services include Life skills training programs; services to improve educational outcomes, job readiness, and employment; personal and emotional supports (e.g., mentoring); substance abuse prevention; preventive health activities; and for youth aged 18-23 who are no longer in foster care, housing expenses and financial assistance. For ETV, youth who experienced foster care at age 14 or older, who have aged out of foster care, or who have been adopted or left for kinship guardianship from the public foster care system after age 16. Services include vouchers up to $5,000 per year for post-secondary education or vocational training.

Temporary Assistance for Needy Families

TANF is a federal block grant to states that operates according to four overarching purposes, one of which is to aid needy families with children so that the children can live in their own homes or the homes of relatives. For children removed from their homes due to abuse and neglect by their parents, TANF can be used to provide financial assistance and an array of services to support children living with non-parent caregivers. In addition, federal law allows states to use TANF dollars to cover programs and activities a state had conducted under its pre-1996 (pre-TANF) Emergency Assistance program. Families with children in need of assistance, as determined by the state, are eligible for services. For child welfare funding, children must either be in out-of-home placements or have an open child welfare case and be receiving in-home services.

Social Services Block Grant

SSBG is a flexible source of federal funds provided to states in support of a diverse set of five overarching policy goals, including preventing neglect, abuse or exploitation of children and adults. Multiple SSBG service categories are related to child welfare services, and foster care services are one of the largest areas of SSBG expenditures. Other examples of areas related to child welfare include adoptive services, case management, counseling services, home-based services, housing services, information and referral, prevention and intervention, protective services for children, special services for youth at risk, and substance abuse services. Oregon chooses to use SSBG for Child Welfare and to support the Youth Experiencing Homelessness Program in Self-Sufficiency.

Medicaid

Medicaid is a federal-state health care financing program that provides health insurance to millions of low-income individuals. Children who are eligible for Title IV-E foster care, adoption, or guardianship assistance are automatically eligible for Medicaid. States have the option to extend Medicaid coverage to non-Title-IV-E eligible children, and most states do so. Children who are Title IV-E eligible (whether for foster care maintenance payments, adoption assistance, or kinship guardianship assistance) are categorically eligible for Medicaid. Additional low-income and disabled children are eligible on state-specific basis but within federal mandates. States have the option to extend Medicaid to non-IV-E eligible adopted children or former foster youth aged 18-21. In addition to funding basic health care services, Medicaid can also be used to support certain activities related to child welfare, such as being used to fund services related to child welfare including targeted case management, rehabilitative services, Medicaid-funded therapeutic foster care, and administrative costs associated with these options. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) for administrative charges, use of time and effort and other measures.

Other Federal Child Welfare Funds

In addition to the primary sources described above, states can use a variety of other federal grants and awards for child welfare purposes. These include dollars from the Child Abuse Prevention and Treatment Act, the Adoption Opportunities and Adoption Incentives program, and numerous other vehicles designed for broader purposes (such as the Child Care Development Fund and the Victims of Crime Act).

In 25-27 there is still revenue from several one-time Federal grants to support child welfare services, with the grants from Federal COVID-19 related bills. These include: IV-B subpart 2 grant from the Consolidated Appr Act, the Child Abuse and Neglect Prevention Act (CAPTA) COVID Supplemental Award ARPA grant, and the Family Violence Prevention Service Act Award from the ARPA bill. In most cases the funding must be spent by 9/30/2025.

Self Sufficiency Program

Federal dollars for self-sufficiency services come from a variety of sources. Some of the funding is dedicated to specific programs and activities within Self-Sufficiency to offer assistance to low-income families. Programs that may allow spending on child welfare activities are title IV-A of the social security act, Temporary Assistance to Needy Families (TANF) and the Child Care and Development Fund (CCDF) under section 418 of title IV-A. Families involved with self-sufficiency programs may also be involved with child welfare, this involvement does not limit the family's ability to receive benefits such as SNAP, Employment and Training Services, Child Care and TANF.

Temporary Assistance to Needy Families - Title IV-A of the Social Security Act

The TANF program is authorized under Title IV-A of the Social Security Act, as amended by the Personal Responsibility and Work Opportunity Reconciliation Act of 1996 (PRWORA), and the Deficit Reduction Act of 2005.

Eligible Population: To qualify for TANF a one or two parent family must be under the required income limit for the family size, such as a family of three must be below 36 percent of the Federal Poverty Limit (FPL). Eligible children are under age 18 or 18 if attending full-time secondary school. A significant portion of the TANF eligibility criteria is determined by the state and in state statute chapters 411 and 412.

Eligible Services or Costs: TANF provides eligible families with cash assistance, connections to support and community resources, case management, and employment and training services.
Services and activities of the program are to engage families in becoming self-sufficient by helping them address challenges, gain skills, and access employment opportunities. Both the TANF federal block grant and MOE expenditures must be spent in a manner reasonably calculated to meet one of the four federally-mandated TANF purposes which are: 1) provide assistance to needy families; 2) end dependence of needy parents by promoting job preparation, work and marriage; 3) prevent and reduce out-of-wedlock pregnancies, and 4) encourage and maintain family formations or activities that were in the state's AFDC (Aid to Families with Dependent Children plan on September 30, 1995 or August 21, 1996).

Type of Funding: The TANF program is funded primarily through the TANF Federal block grant and general fund dollars. The TANF block grant requires a minimum state expenditure level, known as Maintenance of Effort (MOE), it does not require state share matching.

Temporary Assistance for Domestic Violence Survivors (TA-DVS)
This program provides temporary financial assistance and support to families affected by domestic violence. TA-DVS provides up to $3,200, over a 90-day period, funds are used to address safety concerns such as relocating, rent, utilities, etc.

The TANF eligible refugees receive cash assistance and services paid with TANF funding, and all other refugees are served with ORR funds, which are federal funds. (8 U.S.C. 1522)

Family Violence Prevention grant
The Family Violence Prevention grant is a discretionary grant that supports states in the establishment, maintenance and expansion of programs and projects to prevent incidents of family violence as well as programs that provide immediate shelter and related assistance for victims of family violence and their dependents. This grant is used in support of the Domestic Violence program.

This grant moved from Child Welfare to Self Sufficiency starting in the 25-27 biennium. The projection of revenue is based on grant cycle.

Refugee Services Program
This program can serve only those persons in immigration categories approved by the Federal Office of Refugee Resettlement (ORR): Refugees, Asylees, Cuban/Haitian entrants and parolees, Amerasians, victims of human trafficking (international) and certain family members, and Iraqi/Afghan Special Immigrant Visa holders.

Eligible Population: Refugees that have been in the U.S. as a refugee for less than eight months or attained the qualifying status within the past 8 months. Income limits apply and individuals are at least 18 years old.

Eligible Services or Costs: Cash Assistance, SNAP and Medical benefits, family needs assessment, direct case management assistance.

Type of Funding: The Refugee Program is authorized and operates under the Federal Immigration and Nationality Act and the Refugee Act (8 U.S.C. 1522). The Refugee Program operates as a public assistance program under ORS 411.060, 409.010(2) (c), and 409.010(2) (h). During the initial resettlement period, the Refugee Program serves two different populations of refugees: those refugees who are eligible for Temporary Assistance for Needy Families (TANF) and those refugees who are eligible for ORR-funded services. The TANF eligible refugees receive cash assistance and services paid with TANF funding, and all other refugees are served with ORR funds, which are federal funds. (8 U.S.C. 1522)

United States Department of Agriculture, Supplemental Nutrition Assistance Program (SNAP, under Food and Nutrition Services)

SNAP is funded by federal legislation found in the "Farm Bill" authorized by The Agricultural Act of 2014 (P.L. 113-79, Feb 7, 2014). Program policy is reauthorized every five years through the Farm Bill.

Eligible Population: As of January 2022, families who have an income of less than 200% of the Federal Poverty Level are eligible. Eligibility criteria primarily determined at the Federal level.

Eligible Services or Costs: SNAP provides supplemental food benefit dollars to low-income families, seniors, single adults, people with disabilities, and children to help purchase food to meet their nutritional needs. Currently, one in six Oregonians receive these benefits. Other services and programs beyond food benefits can be administered using SNAP funding. These include nutrition education, outreach services, disaster SNAP and employment and training.

Type of Funding: SNAP benefits are 100 percent federally funded through FFY2027. Beginning FFY2028, state's may be responsible for matching for up to 15 percent if their SNAP Error Rate is 6 percent or above in a specified prior year. Oregon is responsible for 50 percent of the administrative costs through FFY2026. Beginning FFY2027, Oregon will be responsible for 75 percent of the administrative costs. Oregon's portion of the administrative costs for SNAP comes from the State General Fund.

SNAP Employment and Training programs opportunities for individuals:

Able Bodied Adults without Dependents (ABAWD): Is a SNAP employment and training program for individuals between the ages of 18-49 who do not meet the exemption criteria. Currently, individuals aged 18 to 49 are subject to the ABAWD time limit. The Fiscal Responsibility Act of 2023 gradually increases the age of those subject to the ABAWD time limit as follows: • September 1, 2023: The age of those subject to the ABAWD time limit increases to age 50 • October 1, 2023: The age of those subject to the ABAWD time limit increases to age 52 • October 1, 2024: The age of those subject to the ABAWD time limit increases to age 54. With the 2025 passage of The One Big Beautiful Bill (HR1), the age requirements change to 65. In addition, the definition of "dependent child" used to determine if a person has a dependent for ABAWD, is changed from under 18 years old to under 14 years old. It also removes the following categories from those exempted: those experiencing houselessness, veterans, and youth who aged out of foster care and are under age 24.

HR1 eliminates some situations that would previously allow a county to waive the work requirements, with only unemployment at 10% or higher being left.

Participants receive employment related and support services. If a non-exempt individual chooses not to participate, the SNAP benefit is limited to three months over a 36-month period.

SNAP Training and Employment Program (STEP): STEP is known nationally as the SNAP 50/50, this

program provides employment-related services to SNAP participants who voluntarily choose to pursue employment and training resources. Contracted, service providers draw down 50 percent federal funds with their own 50 percent non-federal match to provide services in their organizations in over 80 total sites to the populations they serve. There are some support services available to participants.

Community-Based Grants for the Prevention of Child Abuse and Neglect (CBCAP)

Title II of the Child Abuse Prevention and Treatment Act (CAPTA), as amended by P.L. 111-320, authorizes grant funds to be released to the states and names the program Community-Based Grants for the Prevention of Child Abuse and Neglect (CBCAP). The grant requires a 20 percent match of State General Funds. This grant helps fund the Family Supports & Connections program.

The CBCAP grant awards additional leveraged funds each year based on a formula giving credit for the previous year's contribution of state General Fund dollars. In addition, individual contracted programs in the ODHS districts add leveraged funds on the local level from agency donations, grants and fundraising.

My Future My Choice – Title V Federal Abstinence Education Program

The "My Future-My Choice" program includes age-appropriate, medically accurate sexual health education curriculum and services for sixth and seventh grade, and a high school leadership and mentor component. These services support community prevention efforts to enable TANF families in breaking the generational dependence on public assistance.

- Eligible Population: Youth in sixth and seventh grade.
- Eligible Services or Costs: Youth Services include sexual health education, leadership and mentor programs. These services support community prevention efforts to enable Temporary Assistance for Needy (TANF) families to break the generational dependence on public assistance
- Type of Funding: The Title V Federal Abstinence Education Program grant provides annual funding. ODHS submits a request for funding each year and continued funding is contingent on federal budget approval.

Federal Sexual Risk Avoidance Grant

A new grant called the Federal Sexual Risk Avoidance Grant has been awarded for a project period is 9/30/23 - 9/30/26. This grant will help expand the middle school My Future-My Choice program to rural and underserved areas by establishing new subgrantees and developing culturally responsive and adapted materials.

The Emergency Food Assistance Program (TEFAP)

This program helps supplement the diets of low-income Americans, including elderly people, by providing them with emergency food assistance at no cost. The Oregon Food Bank is the primary grantee in Oregon.

- Eligible population: low-income Americans in need of emergency food assistance.
- Eligible Services or Costs: The amount of food each state receives out of the total amount of food provided is based on the number of unemployed persons and the number of people with incomes below the poverty level in the state. States provide the food to local agencies they have selected. Generally, this is food banks, they distribute the food to local organizations such as soup kitchens and food pantries. States also provide the food to other types of local organizations, such as community action agencies, which distribute the foods directly to low-income households.
- Type of Funding: 100% federally funded

Commodity Supplemental Foods Program (CSFP)

The program works to improve the health of low-income elderly persons at least 60 years of age by supplementing their diets with nutritious USDA Foods. Currently all the service delivery is occurring through partnerships with the Oregon Food Bank.

- Eligible population: Low-income person at least age 60 and above.
- Eligible services and Cost: Supplementing diets with nutritious USDA foods.

- Type of funding: 100% federally funded

Medicaid

Medicaid is a federal-state health care financing program that provides health insurance to millions of low-income individuals. ODHS Oregon Eligibility Partnership staff are responsible for determining Medicaid eligibility through the ONE eligibility system. In addition to funding basic health care services, Medicaid can also be used to support certain activities related to self-sufficiency, such as targeted case management and administrative costs associated with performing Medicaid eligibility. The projection of revenue for TCM and administrative costs are based on use of time and effort and other measures.

Aging and People with Disabilities (APD) and Intellectual & Developmental Disabilities (I/DD)

Medicaid (Title XIX)

Medicaid provides reimbursement to states for medical care and related services to low income and other medically needy individuals. This includes financing for:

- Health care services provided under the Oregon Health Plan;
- Private insurance premium;
- Long-term care in institutional and community-based care settings;
- Some client care provided in state hospitals;
- Residential treatment services to adults and youth;
- Central administration of alcohol and drug programs;
- Medical and non-medical transportation for Medicaid eligible individuals;
- Family planning services for individuals not enrolled in the Oregon Health Plan; and
- Uncompensated care provided by hospitals serving a high proportion of Medicaid and uninsured individuals.

State General Funds or Other Funds must be used to match federal Medicaid dollars for administration and direct service payments. The administration match rate is primarily 50 percent. A 75 percent federal fund match is

available for skilled professional medical personnel, certification of nursing facilities, and related information systems activities, including the Medicaid Management Information System (MMIS) computer system support and Preadmission Screening and Resident Review (PASRR) activities. The cost of services and supplies for Family Planning is matched at 90 percent.

Most services in Oregon are provided through seven Medicaid programs that require waivers of federal requirements. The Oregon Health Plan is the largest of these waiver programs. ODHS must obtain approval from the federal Centers for Medicare and Medicaid Services (CMS) to make changes to its Medicaid program whether the changes are Medicaid state plan services or waiver services. This approval process can be lengthy, sometimes affecting the timing of program changes and the receipt of associated federal revenues.

Medicaid currently funds services in all ODHS programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC) for Administrative charges, use of time and effort and other measures.

Older Americans Act

Funds are allocated to Oregon annually through the Older Americans Act. The Aging and People with Disabilities (APD) program allocates program funds by a federally approved population formula to the 17 area agencies on aging. Emphasis is placed on serving the most economically and socially needy persons 60 years of age and older. There is a 15 percent match requirement of which 10% is met by area agencies on aging and 5% from state sources through local funds, in-kind and Oregon Project Independence (OPI) allocations.

- State administration funds provide for state plan administration. There is a 25 percent match requirement met with OPI funds.
- Title III funds provide for support services such as transportation, legal assistance, in-home care, and congregate and home-delivered meals programs. The act allows for provision of in-home services for frail individuals to prevent premature institutionalization and preventive health services for elderly clients in rural areas. Title III also provides funding for family caregiver support and training and services to prevent abuse

of the elderly. The match requirement ranges from 15 to 25 percent depending on whether the funds are paying for administration or program expenditures.

- Title V programs subsidize part-time paid community service work for low-income persons, aged 55 and over and job training skill. There is a 10 percent match requirement, which is met by the program operators.
- Title VII funding provides support for the long-term care ombudsman and prevention of elder abuse, neglect and exploitation. No match is required for Title VII.
- The Nutrition Services Incentive Program grant (NSIP) supplements Title III-C local funds to provide nutrition services to eligible Older Americans Act participants. Funds are 100 percent federal. No match is required.

This grant currently funds APD programs. The projection of revenue is based on actual and projected federal awards.

Nutrition Services Incentive Program (NSIP)

The Nutrition Services Incentive Program grant (NSIP) supplements Title III-C and local funds to provide nutrition services to eligible Older Americans Act participants. Funds are 100 percent federal. No match is required.

This grant currently funds APD programs through Area Agencies on Aging. Projection is based on history of fund awards from the U.S. Administration on Aging.

Developmentally Disabled Service Act (DDSA)

Congress sets a national allocation determining the amount of annual funding for this grant, which is administered by the Developmental Disabilities (DD) Council in partnership with ODHS. Program expenditures are limited to programs for clients with developmental disabilities and are guided by a state plan submitted to the federal government. There is a 5 percent limit on administrative expenditures except for expenditures by the DD Council.

This grant currently funds ODHS Intellectual & Developmental Disabilities programs. The projection of revenue is expenditures-based using estimated Average Daily Populations (ADP) and Cost per Case (CPC). Federal law

requires a state or local match, most of which can be in-kind.

Oregon Disability Determination Services (DDS)
Oregon Disability Determination Services (DDS) provides timely and accurate eligibility determinations for Oregon citizens applying for Social Security disability benefits. Although the disability program, as part of the Social Security Administration (SSA), is administered by the federal government, state agencies make the initial medical determination of disability. The Oregon DDS currently has more than 200 staff and is 100 percent federally funded.

Vocational Rehabilitation Program

Rehabilitation Act grants (US Department of Education)
The Rehabilitation Act grants are the major funding source for programs provided through Vocational Rehabilitation Services. Rehabilitation Act grants currently fund ODHS VR – Basic Rehabilitative Services programs. The projection of revenue is based on grant cycle.

Section 110 (Basic 110 Grant)
Basic 110 Grant, which is available to assist people with disabilities in becoming employed, is a formula grant based on the state's population and per capita income. The funds available to Oregon are divided between Vocational Rehabilitation (84.4 percent) and the Commission for the Blind (15.6 percent). These federal funds must be matched with state funds. Under the new Workforce Investments and Opportunities Act, 15% of this grant must be set aside to be spent on pre-employment transitions services for youth.

Section 633 (Title VI-C grant for supported employment)
This grant assists the state in developing programs with public and private agencies for training and services leading to supported employment for individuals with severe disabilities. This grant under the new Workforce Investments and Opportunities Act must set aside 50% for services to the most severely disabled youth. The 50% set aside must be matched with 10% non-federal fund expenditures. The remaining 50% of the grant is 100 percent

federal funds and does not require state match.

Section 711 (Independent Living Rehabilitation, Part B)
Independent living rehabilitation funds support the state Independent Living Council and Independent Living Centers. This grant has a required 10% match.

Assistive technology
The Assistive Technology Act of 1998 supports state efforts to improve the provision of assistive technology (AT). Grant funds allow implementation of programs designed to meet the AT needs of individuals with disabilities, including plans that improve access to and acquisition of AT devices and services for individuals with disabilities.

This grant is a revenue source of the Oregon Disabilities Council, which was transferred to Vocational Rehabilitation (VR) within the VR – Basic Rehabilitative Services program in the 2007-09 biennium.

Other Funds

Title IV-A (sec. 418)– Child Care and Development Fund (CCDF)
The Child Care and Development Block Grant (CCDBG) is administered by the Department of Health and Human Services, Administration for Children and Families Office of Child Care. The Department of Early Learning and Care (DELC) is designated as the lead agency in Oregon to administer these funds. CCDF funding was previously transferred from DELC to ODHS and came in as Other Funds. This revenue was used to support the Employment Related Day Care (ERDC) program. The ERDC program is transferred from ODHS to DELC effective June 30, 2023.

Care of state wards
Trust recoveries are Other Funds collected from Social Security Insurance (SSI) and child support payments and are used to reimburse the state for the maintenance cost of children in care. Social Security Benefits used to be used for child maintenance costs (room and board) however are no longer. SB 556 (2023) made only the federally

required 22% of a child's SSI to be used for maintenance cost reimbursement, with the rest being saved for a child in a separate account and used for a child's personal needs. Trust recoveries are used to reimburse Federal and General Funds to match Title IV-E, TANF-EA or Title XIX federal funds.

Trust recoveries currently fund Child Welfare (CW) and Intellectual & Developmental Disabilities (I/DD) programs. The projection of revenue is based on caseload trends and historical receipt trends.

Collection of overpayments

Overpayment recoveries are recovered program dollars incorrectly paid to or for clients through client error or fraud. Recovery may be made in any of several program areas including food stamps, child-care, public assistance cash and public assistance grant reductions. The projection for these revenues is developed using past performance, inflation and changes in caseloads and regulations as indicators of future trends. Public assistance recoveries are applied against program expenditures during the month of the recovery. Food stamp and child-care overpayment recoveries are budgeted as Other Funds. Currently these funds also support programs in the CW and APD programs. The projection of revenue is based on historic receipt trends.

Client account collections estate recoveries

Other Funds are collected from the estates of clients to reimburse previous cost of care. Collections are used to reimburse cost and offset both the Title XIX program cost and General Fund costs.

Currently funds APD programs. The projection of revenue is based on estimated Average Daily Populations (ADP) and Cost per Case (CPC). Revenues are projected to increase as a result of increased receipts.

Medicaid XIX Local Match

The Intellectual & Developmental Disabilities (I/DD) program matches Medicaid Title XIX funds with funds or services from transit districts, community developmental disability programs and others for providing enhanced non-medical transportation and administrative costs.

Domestic violence receipts

Enacted in 1981, marriage license fees are dedicated to fund the domestic violence program. The marriage license fee is currently $25. Legislation directed that the unitary tax and the criminal fines and assessments account provide additional funding for this program. Expenditures are limited to the amount of revenue actually received.

Domestic violence receipts currently are in Self Sufficiency, having moved from Child Welfare; however, it is expended through community provider grants in partnership with the Department of Justice. The projection of revenue is based on historical receipt trends for marriage license fees and Department of Revenue projections for criminal fines and assessments accounts.

Fees and premiums

The CW program collects fees for adoption home study and registry, and adoption search services.

- Independent Adoption Placement Reports cost $800; $675 passes through to private agencies.
- The fee for registration with the mutual consent registry is $25. This registry allows individuals who have been a party to adoption access to other party information where both parties have registered and consented to disclosure.
- The non-identifying registry allows registrants to provide genetic, social and health history only for use in the adoption registry. The cost for this registry is $45.
- The cost of an adoption assisted search is $400 for the first search request and $200 for subsequent search requests. This allows individuals to request the agency's assistance in locating biological family members.

Applicable Child Savings Other Fund

This funding is general fund savings accrued through the 'applicable child' provision of P.L. 110-351 that delinked the title IV-E Adoption Assistance program from the Aid to Families with Dependent Children (AFDC) requirements. This is general fund savings that otherwise would have been spent to support Adoption Assistance for children with a finalized adoption, absent the federal law change. Federal law required states to reinvest this

savings into Child Welfare (but not supplant existing services). This requirement was met by the implementation of SB 102 (2017): Relating to Adoption Applicable Child Savings Fund, enabling the State to carry forward General Fund savings as Other Fund across biennia. Thirty percent of the funding must be spent on post-adoption or prevention services (no more than 10% on prevention services) and 70% can be spent on any services allowable under IV-B. As of the 17-19 biennium Child Welfare created a Child Care for Foster Parent program. All children in foster care are eligible to have their child-care costs reimbursed up to $375 a month. Post-Adoption services were also provided at a level meeting the spending requirements.

Additional Other Fund Sources for Child Welfare

There are several smaller Other Fund grants, such as funding from the Department of Transportation for foster youth driver's education, SPOTS Visa rebates, and donated fund.

Local school funding for rehabilitation services

Other Funds from local schools are used as the 21.3 percent state match needed for the Basic 110 Grant for rehabilitation services which is funded with 78.7 percent federal funds. The Youth Transition Project (YTP) is a collaborative program with school districts that assists youth with disabilities in their transition from school to the community work force.

The projection of revenue is capped based on agreements with schools.

Long-term care facilities tax

The current tax rate is set to collect up to 6 percent of resident service revenues of non-exempt long-term care nursing facilities. Revenue projections are based on previous years' cost reports, current year tax reports, and a growth factor. At present, the agency collects approximately $25 million per quarter in Other Funds through this tax. The federal match is approximately $34 million per quarter. Provider tax dollars are used to offset general fund expenditures for nursing facility services.

Quality of Care Fund

During the 2009 Legislative Session, HB 2442 required the establishment of the Quality of Care Fund and increases in fee schedules for adult foster homes, residential care and assisted living facilities, as well as increases in state civil penalties. Revenue collected from APD and I/DD licensing fees and civil penalties are dedicated to promoting quality of care and life in long-term care settings, including enhancement and maintenance of long-term care facility licensing and regulatory activities and additional training and technical assistance for facilities.

Oregon Department of Human Services
Central and Shared Services
and State Assessments and Enterprise-wide Costs

ODHS Mission

To help Oregonians in their own communities achieve safety, well-being and independence through opportunities that protect, empower, respect choice and preserve dignity.

About Central and Shared Services

ODHS Central Services provide essential supports to ODHS programs, helping each achieve their vision, realize target outcomes, and advance the wider agency mission.

The mission of OHA | ODHS Shared Services is to provide critical business services that are data-informed, accountable, and transparent. ODHS and Oregon Health Authority (OHA) govern their shared services through a board composed of operational leaders from the two agencies who ensure that shared services are prioritized and managed to support program needs. The board and its subgroups have established service level agreements and performance measures for each service, implemented recent budget cuts, moved staff in and out of shared services to rationalize service delivery, and begun implementing more integrated systems to support the performance of all our employees.

ODHS Central Services Offices

- **Office of the Director**

The ODHS Director's Office is responsible for agency leadership, policy development, resource allocation, and administrative oversight for all programs, staff, and offices in ODHS in a manner that supports equitable outcomes for Oregon's diverse population. These functions are led by the Director and Deputy Director and coordinated by the Director Cabinet members, with the Governor's Office, the Oregon Legislature, state and federal agencies, Tribes, community partners, communities of color, LGBTQIA2S+ communities, local governments, advocacy and client groups, and the private sector.

The Office of the Director houses the following units:

- *Chief of Staff*

  The Chief of Staff to the agency enables the Director to work most effectively with internal and external partners to fulfill commitments that achieve the agency's mission, goals, and outcomes. This is a strategic and facilitative role that requires a combination of focus and flexibility, as well as a willingness to play an active, behind-the-scenes role as the Director's trusted advisor.

- *Office of the Chief Financial Officer*
  The Office of the Chief Financial Officer provides optimal business services to ensure accountability, data-driven decisions, and stewardship of resources in support of the ODHS mission. This is done by:

  - Working closely with ODHS and OHA programs and the OHA Chief Financial Officer to ensure culturally competent and equitable services and accurate, timely, and efficient recording and management of financial resources.
  - Authorizing the redistribution of available resources to meet changing needs; and
  - Establishing administrative controls.

  This office also oversees budget, planning, and analysis functions for ODHS-based programs as well as coordination and leadership of the ODHS budget with the Governor's Office, Legislature, Department of Administrative Services, Legislative Fiscal Office, and ODHS partners.

- *Office of Immigrant and Refugee Advancement*
  The Oregon Legislature through, SB 778 (2021), established the Office of Immigrant and Refugee Advancement (OIRA) for the purpose of operating a statewide immigrant and refugee integration strategy. Transferred to ODHS from the Governor's Office in 2022, OIRA is mandated to identify existing structural gaps and to promote the successful social, linguistic, educational, economic and civic integration of Oregon's immigrant and refugee communities.

  The office accomplishes its work through partnering with state agencies, local government, community-based and faith-based organizations, refugee resettlement agencies, private sector organizations, and immigrant and refugee advocacy groups to:

- Help coordinate strategies,
- Review and track legislation,
- Monitor and publish potential investments and efforts in the state,
- Collect and protect data,
- Advocate for the equitable and effective allocation of resources, and
- Implement plans that support the advancement of immigrants and refugees across the state.

The office conducts outreach and education and serves as a resource on state initiatives and programs to ensure equitable access for immigrants and refugees. The office also ensures that any racial and ethnic impact statements for legislation accurately include the impact to immigrants and refugees in this state who are individuals who are Black, Indigenous, or other people of color.

- *Governor's Advocacy Office*
  The Governor's Advocacy Office (GAO) ODHS Ombuds. Ombuds (also "ombudsman" or "ombudsperson") are neutral or impartial conflict resolution practitioners who may provide confidential and informal assistance to ODHS clients and others affected by the Department's action or inaction. The GAO is a part of the ODHS Director's office and resolve issues and track trends on behalf of the ODHS Director – but also reports to the Governor's Office. The office includes:
  - ODHS Ombuds - the GAO has Ombuds dedicated to serving client and others with questions, concerns, and complaints about all ODHS programs and services.
  - Foster Care Ombuds - the Foster Children's Bill of Rights requires that ODHS foster youth are enabled to make complaints and assert grievances regarding their care, safety, or well-being.
  - Client Civil Rights investigations - ODHS non-discrimination rules and policies require investigation of reports of discrimination.
  - Oversight of the ODHS formal complaint process - by rule, the Department maintains a process for handling formal complaints. While complaints may be resolved locally, the GAO partners with supervisors to oversee this process.

- *Office of Tribal Affairs*
  The Office of Tribal Affairs within the ODHS Director's Office is committed to ensuring all Oregon Tribal communities are thriving mentally, physically,

spiritually, and emotionally. Tribal Affairs works with all six ODHS programs to create and provide Tribally appropriate programs, services, policies, and support. Through Tribal consultation with Oregon's Nine Federally Recognized Tribes, ODHS ensures programming, services and policies meet the needs of Oregon Tribal communities. Tribal Affairs elevates Tribal voice and facilitates opportunities for ODHS to respect, build and maintain relationships with Oregon Tribal communities that uphold tribal sovereignty.

- *Office of Budget, Planning and Analysis*

This office functions as the central budget for ODHS based programs working under the guidance of the CFO. Its main duties include:

  - Developing and preparing the department's biennial budget documents and providing leadership of the ODHS budget process in partnership with the Governor's Office, Legislature, Department of Administrative Services (DAS), Legislative Fiscal Office (LFO) and ODHS partners;
  - Initiating, coordinating and developing the department's budget rebalance plans and Legislative Emergency Board items;
  - Providing fiscal analysis of proposed legislation and responses to inquiries regarding fiscal impacts of policy changes; and
  - Providing managers with accurate budget and projections to assist in the management of the overall ODHS budget of over $23.0 billion total funds and over 11,300 budgeted positions.

- *Office of Equity and Multicultural Services*

The Office of Equity and Multicultural Services (OEMS) provides leadership and direction in the integration of equity, diversity and inclusion policies and initiatives throughout the agency. As an office that assists all ODHS program areas, OEMS has two main charges: The first is to guide the agency to ensure a diverse workforce with the cultural agility and language skills to serve the needs of all Oregonians, and the second is to help the agency work toward equitable outcomes for all populations using ODHS services. OEMS accomplishes this mission though policy making, strategic planning, quality improvement consulting, technical assistance, research, Employee Resource Groups (ERGs), Diversity Committees, community engagement, advocacy, ally-ship, partnerships, and continuous learning.

- *Office of Human Resources*
  The Office of Human Resources (HR) enables the organization to equitably recruit, support and engage a diverse workforce in a collaborative partnership to foster an environment where employees maximize their potential to achieve the agency's mission. The Human Resources office serves as a strategic partner to ODHS programs, providing proactive, comprehensive human resources services in alignment with agency and program mission and goals.

  HR works closely with internal customers on workforce strategies that support agency and program strategies as well as a healthy workplace culture of ongoing development and feedback. Through these efforts, HR helps ensure that ODHS has the right people with the right skills, training, and support to do their work, now and in the future.

- *Office of Program Integrity*
  The Office of Program Integrity's mission is to support the Oregon Department of Human Services (ODHS) and Oregon Health Authority (OHA) by monitoring and measuring federal compliance, making recommendations, taking appropriate action, providing support, facilitating activities, training/coaching field staff, and reporting trends and statistics to ODHS and OHA leadership, stakeholders, and federal agencies. This unit reports to the ODHS Chief Operations Officer (OCOO).

- *Office of Public Affairs*
  This office consists of four units that provide unified support and coordination in community outreach and communication, legislative and legal matters, and access to public records and information.

  Within the office, the **Communications** team supports the ODHS mission by connecting Oregonians with the information they need to access, receive or understand department services. The unit helps engage the public in the work of ODHS, which leads to more effective and inclusive policy making. This includes implementing communication plans, coordinating social media and website content, writing direct notices to clients, and talking with the media and legislature.

The communications team engages with diverse audiences, including employees, clients, legislators, advocacy and interest groups, providers and partners, local governments, state and federal agencies, policymakers, Oregon's Nine Federally Recognized Tribes, the news media, targeted audiences, and the wider public. The unit strives to use culturally relevant and linguistically competent communication practices to effectively reach Oregonians. Effective communication is the primary vehicle to demonstrate public transparency, accountability, and trust. The office also provides support to the department's priority projects as defined by the ODHS Director and executive team.

The Office of Public Affairs also includes the **Government Relations** unit. This unit advances the ODHS mission by ensuring that statutory, policy, and budget implications positively impact the Oregonians that we serve. The Government Relations team coordinates all ODHS legislative matters and works closely with the Governor's Office and key community, state, and federal partners. The team also supports field and central office staff by providing consultation and support related to legislative and policy changes. Staff in this unit support the director of ODHS, the directors of all agency programs, and operations in the field. Legislative work is conducted with the intent of eliminating existing inequities and promoting equitable outcomes, using a comprehensive equity lens.

The ODHS **Public Records Unit** reviews, completes, and responds to public records requests from clients, the media, public entities, and individuals. With a focus on equitable service delivery, the unit focuses on consistency, transparency, and adherence to public records law across all programs within the agency. The centralized team affords the ODHS workforce and partner with streamlined responses for records requests and serves as a single point of contact for records-related questions. This unit reports to the ODHS Chief Operations Officer (OCOO).

The **Legal** unit, also housed in Public Affairs, manages all lawsuits, tort claims, expunctions, and subpoenas related to ODHS program and operations. Staff in this unit provide expert consultation to ODHS field and central office staff and Department of Justice and Department of Administrative Services Risk Management in policy related to legal matters. The team ensures timely completion of the required judicial documents to move smoothly through a complex legal matter. This unit reports to the ODHS Chief Operations Officer (OCOO).

- *Office of Reporting, Research, Analytics, and Implementation*
  The Office of Reporting, Research, Analytics, and Implementation (ORRAI) serves as a trusted partner in data-informed decision-making. ORRAI provides mission-critical information to directors, legislators, partner agencies, program staff, and the public. ORRAI compiles reports, conducts research, analyzes data, implements research, and provides both enterprise-wide and inter-agency, program-level data. ORRAI is dedicated to actionable, equitable solutions and improvement of service delivery through the collection, stewardship, and use of data. We create positive and equitable change within and across human service systems leading to improved and lasting outcomes for all Oregonians.

- *Office of Resilience and Emergency Management*
  The Office of Resilience and Emergency Management (OREM) focuses on the needs of people before, during and after disasters, reducing disaster impacts on people in times of crisis and investing in communities year-round to ensure greater resilience. OREM carries out ODHS' roles in Oregon's Comprehensive Emergency Management Plan as the primary agency for mass care, food and water in disaster situations and social services during recovery. The office centers equity in its work, ensuring that the goals and needs of vulnerable communities directly inform resilience plans and that our response systems effectively address disproportionate disaster impacts. OREM also assists other ODHS programs in preventing, mitigating, responding to, and recovering from natural, technical, and human-caused hazards.

  OREM recognizes that being ready and quickly responsive hastens recovery. To achieve this, the office adheres to National Incident Management System standards and carries out a statewide strategy that aligns with the 2022-2026 Federal Emergency Management Agency Strategic Plan. Its staff are dispersed around the state to better identify local needs and enhance community-level relationships. To prepare for OREM's 4 mission areas of: (1) Disaster response; (2) Disaster recovery; (3) Business continuity including support to ODHS clients to ensure safety, and ODHS offices and provider facilities to ensure availability of services in disasters, and; (4) Statutory responsibilities as the lead agency to support warming/cooling/cleaner air centers, OREM is:

    - Establishing a mass care network consisting of public and private partners through pre-disaster contracts with community-based

organizations, non- governmental organizations, and non-profits. The mass care network will also consist of the resilience hubs and networks being developed this year.
    - Conducting exercises and drills around the state in collaboration with local, state, federal and Tribal partners.
    - Identifying needs and gaps in Oregon's mass care systems.
    - Investing in community-level mass care capabilities.
    - Helping to build local capacity for emergency preparedness.
    - Collaborating with a range of partners to advance resilience through technical, direct, and grant support.
    - Forward-deploying warming/cooling/cleaner air equipment into most impacted areas of the state.
    - Recruiting and training Mass Care Response Teams, consisting of ODHS employees who can staff and/or support disaster shelter operations and public warming, cooling and cleaner air centers and be paid for doing so.

ODHS Shared Services Offices

- *Background Check Unit*
  The Background Check Unit (BCU) provides a comprehensive background screening process to determine if an individual should be allowed to have access to vulnerable people, IT systems or client information. BCU also provides centralized support for FBI Criminal Justice Information Services (CJIS) clearance and training for ODHS and OHA staff. BCU is also Oregon's point of contact for processing out-of-state child protective service check requests in support of federal legislation. BCU provides background check services and support to all ODHS and OHA divisions for employment purposes; for those who provide services or seek to provide services as a contractor, subcontractor, vendor, or volunteer; and for those who are employed by qualified entities that provide care and are licensed, certified, registered or otherwise regulated by ODHS or OHA.

- *Budget Center*
  This area provides budget planning, financial analysis, position management consultation, facilities and motor pool coordination, and technical budget support for ODHS and OHA. These services are provided for department leadership, programs, policy and field managers, staff, and external

policymakers.

- *Office of Contracts and Procurement*
  The Office of Contacts and Procurement (OC&P) supports all offices of ODHS, OHA, and the Home Care Commission by procuring supplies and services in the most cost-effective manner through innovative and responsible solutions. The unit provides guidance, training, and support to meet contracting and procurement needs and assists agencies with supplier diversity programs that seek to include women- and minority-owned and emerging small businesses.

- *Office of Enterprise Data Analytics*
  The 2015 Oregon Legislature created the Oregon Enterprise Data Analytics (OEDA) unit to conduct inter-agency research. The legislation encouraged the expansion of data informed decisions throughout state government. The research analysts, economists, and information technology positions work among agencies to translate data into information; that information promotes data-informed decisions and improves outcomes for children and families. OEDA uses advanced analytics with human service organizations, health organizations, public health organizations, corrections, the courts, employment, housing, and education.

- *Office of Facilities Management*
  This office provides the management and oversight of all facility and leasing related matters for ODHS and OHA administrative offices, branch offices, and other facilities statewide. Its staff and operations support the departments' missions by ensuring that buildings are safe and universally accessible and by maintaining and operating buildings, telecommunications, and physical infrastructure in a cost-effective, sustainable, and environmentally responsible manner. The office collaborates with both ODHS and OHA leadership to develop long-term strategic plans for the facilities needs of both organizations.
  OFM manages 2.7 million square feet of leased property for OHA and ODHS statewide. This includes support and management of over 168 offices on behalf of ODHS and OHA. This office is responsible for managing maintenance, remodeling, furniture acquisition and reconfiguration, staff relocations, coordination with DAS and state brokers on lease negotiations, and analysis of the costs and benefits of space utilization, ADA compliance, Trauma Informed spaces, and energy conservation.

- *Office of Financial Services*
  The Office of Financial Services (OFS) provides leadership, fiscal policy direction, financial systems management, and coordination of core financial accounting, payroll, and financial reporting services for ODHS and OHA. Services include but are not limited to:
    - Receipting, recording, and applying millions of dollars in state and federal revenue.
    - Accounting for and disbursing resources to clients, providers, vendors, and contractors.
    - Managing client trust accounts.
    - Administering employee payroll and benefits to approximately 14,500 employees.
    - Managing cash flow, completing federal draws, and reconciling Treasury accounts.
    - Ensuring accounting transactions are accurately recorded, reconciled, and reported to state and federal partners.
    - Compiling, reporting, and managing federal grant awards.
    - Developing financial statements, completing tax reporting.
    - Overseeing e-commerce programs including ACH and credit card payments and the SPOTS Visa program.
    - Managing the federal Public Assistance Cost Allocation plan and process.
    - Developing and managing financial systems including all sub-system interfaces; and ensuring a proper control environment is maintained.

  The size, scope, and complexity of the financial structure of these agencies is the most complex in the state of Oregon. Currently OFS is responsible for more than 20 interfaced financial systems, 35 treasury accounts, 200 funds (state, federal, other, lottery), 400 program areas, 800 SPOTS Visa cards, and grants/fees (funding sources).

  The office reports to the ODHS OCFO and the OHA CFO.

- *Office of Forecasting and Research and Analysis*
  Office of Forecasting and Research and Analysis (OFRA) supports ODHS and OHA by providing accurate, timely, unbiased caseload forecasts and related research and analysis to support budgeting, policy development, identification and elimination of inequitable outcomes, and operational planning. OFRA maintains the Integrated Client Services data warehouse, which provides

  caseload forecasters and other researchers with data from multiple systems within ODHS and OHA, uniting individual person records from separate siloed enrollment systems into a cohesive whole, showing the interconnected patterns of human services as they are experienced by Oregonians in need. This unit reports to the ODHS Office of the Chief Financial Officer (OCFO).

- *Office of Health, Safety & Employee Well-being*
  This office provides services including employee occupational health and safety, workers' compensation tracking and program analysis, property loss tracking, threat management assessments and tracking, trauma-informed services, a suicide prevention program, administration of the Employee Assistance Program (EAP), and employee risk management. Work within these program areas includes the development and delivery of training, regulatory compliance monitoring, strategic planning, and legislative tracking.

- *Office of Imaging and Records Management*
  This office provides services tailored to business and program operational needs related to:
    - Agencies' delegated authority regarding imaging and electronic and physical document and records management.
    - Data entry and transmission of data to mainframe applications that generate payment to medical and childcare providers.
    - Imaging and data capture of source documents into a central repository.
    - Imaging and data capture of documents into electronic workflow, eliminating the need for the customer(s) to process physical documents.
    - Archive storage of physical records.
    - Tracking and shipping of archived records; and
    - Destruction of physical documents/records per agreement and the

Secretary of State's Office retention schedule.

The office converts more than three million pieces of paper – applications, bills, claims, checks, and more – each month, making information more readily available and saving money on storage costs.

- *Office of Internal Audit and Consulting*
  This unit provides independent and objective information and consulting services for ODHS and OHA. The internal audit team reviews all areas of ODHS/OHA, including central operations and programs, field offices, and institutions. The unit provides other services such as consultation on internal controls and process improvement efforts, facilitation of risk assessment activities, coordination of external audits and tracking and follow-up on both internal and external audit findings.

- *Office of Payment Accuracy and Recovery (OPAR)*
  OPAR's mission is to support the Oregon Department of Human Services (ODHS), Oregon Health Authority (OHA), and the Department of Early Learning and Care (DELC) by assisting their programs in ensuring client and provider payment accuracy and by completing timely recovery of monies owed.

  OPAR is a critical service provider in ensuring ODHS, OHA and DELC payment accuracy and in delivering recovery services (identify, establish, recover) in an efficient, effective and customer focused manner.

- *Office of Training Investigations and Safety (OTIS)*
  This office ensures safety and protection to the more than 77,500 people per biennium who receive mental health, developmental disability, or children's therapeutic services in Oregon. The office consists of four primary functional units: Investigations, Children's Care Licensing, Contested Case – Administrative Law Judge Hearings, and Training and Transformation (TnT - which includes: Quality Management and Prevention, Policy and Legal, Data, and Investigator training). Together, these functional units provide services to several programs of ODHS and OHA that serve some of Oregon's most vulnerable citizens, including:

    - Adults and children with intellectual/developmental disabilities.

- Adults with mental illness.
- Adults with substance abuse disorder (SUD) in residential settings.
- Aging adults and people with disabilities; and
- Children and young people under the age of 21 living in residential settings, other Child Caring Agencies, or in school or daycare settings.

- *Publications and Creative Services*

Publications and Creative Services (PCS) manages the writing, design, development, printing, and distribution of ODHS and OHA publications for internal and external audiences, including those in accessible formats and multiple languages. This unit plays a central role in document translation services for both agencies. PCS provides consulting to plan professional quality print and digital publications that reflect ODHS and OHA style guidelines; edits and proofs materials created by staff experts and partners in their individual fields; and provides graphic design, layout, illustration, and form creation services.

State Assessments and Enterprise-wide Costs

ODHS also has statewide assessments that include Department of Administrative Services charges such as the State Government Service Charge, Risk Assessment and State Data Center Charges. Rent for all ODHS is in the Facilities budget. IT Direct is for all computer replacement needs. The Shared Services funding is the revenue for the ODHS portion of ODHS | OHA Shared Services and Debt services is to pay off Certificates of Participation or Q-Bond loans taken for major ODHS projects. Each service, both shared and assessed, are important for ODHS to attain its programmatic outcomes.

Oregon Department of Human Services: Self-Sufficiency Programs

Program Overview

Oregon Department of Human Services is advancing a future where all who live in Oregon – regardless of race, identity, age, disability, or place – have the needed supports to achieve whole well-being for self, family and community. In alignment with this goal, as well as the department's Equity North Star and the Governor's customer service goals, Self-Sufficiency Programs (SSP) is working to center its services and resources around whole-person well-being. This approach acknowledges the complexity of needs that must be met if individuals and families are to thrive in our economic and social climate – including stable housing, affordable childcare, and adequate cash resources. The approach also involves a fundamental shift away from SSP's previous system-centered model, in which services and resources were primarily shaped by federal funding and program regulations, and toward a model where federal programs become tools in a larger suite of resources to help families meet their basic needs and achieve economic stability. Transforming our approach in these ways is integral to SSP's core focus of alleviating poverty in Oregon.

In Oregon, the burden of poverty is not equally shared: Communities of color and Tribal members are disproportionally impacted as are residents of rural communities, women, youth, LGBTQIA12S+ communities, people with disabilities, immigrants, and refugees.

SSP recognizes the structural racism and oppression embedded within our programs and is committed to addressing historic and current harms while working with impacted communities to transform these systems. With this transformation, individuals and families will be better positioned to reach stability and access asset-building tools, generational wealth, and equal opportunities for economic and social mobility.

Equity North Star

The path to this envisioned future is guided by the ODHS Equity North Star, which

puts race and intersectionality at the center of our decisions and positions communities as shapers of ODHS policies, programs and delivery strategies. SSP recognizes that solutions must be grounded in the lived experience of individuals and families and the balance of decision-making power must be shifted to communities who are most affected. Accordingly, SSP will leverage community engagement efforts to identify shared concerns and community-driven solutions. SSP will act with intentionality, humility, curiosity, and respect while ensuring affected communities' access to complete information and ability to influence the outcomes.

Community-driven accountability mechanisms will create greater transparency and invite disempowered groups to shape the future of SSP and its services. Rather than expanding the reach and resources of the agency itself, SSP will invest in partners who are rooted in community and already performing invaluable work. Together with our partners, SSP is committed to addressing the roots of systemic oppression and aligning services and resources around a more equitable future.

Program Goals

SSP will:

- Provide services to lift people out of poverty and keep them from experiencing poverty in the first place.
- Assess policies and practices to reduce the racial wealth gap and support each person served to achieve financial stability.
- Deliver holistic services that are tailored to connect people with future-focused skills, training, and education to secure stable and well-paying jobs connected to their long-term goals.
- Ensure case management, resource navigation support and referrals are accessible and equitable so people can address the barriers unique to them.

Program – Current State

SSP administers an array of programs to people who live in Oregon experiencing low or no income. These benefits and services are aimed at helping individuals and families move out of poverty into economic stability. With the recent establishment of the Oregon Eligibility Partnership (OEP), the work of determining eligibility for

the Supplemental Nutrition Assistance Program (SNAP), Temporary Assistance for Needy Families (TANF) and other SSP-operated assistance programs has shifted from SSP to OEP, creating opportunities for SSP to articulate a new path forward that prioritizes actions to support well-being, helps people move from crisis to surviving to thriving, and provides upstream supports to ensure they don't reach the point of crisis. This includes providing economic and concrete supports to support families and preventing involvement with the child welfare system.

Federal programs alone are not enough to move individuals and families into economic stability, a key social determinant of health. SSP needs added capacity and state investment to build policy and programs in partnership with impacted communities and to better collaborate with community partners and our sister agencies to coordinate a comprehensive suite of services that meaningfully improve well-being for people living in Oregon.

The programs within SSP include:

- Supplemental Nutrition Assistance Program (SNAP) and related programs:
    - SNAP Employment and Training Program (STEP)
    - Able-Bodied Adults without Dependents (ABAWD) Program
    - SNAP Nutrition Education (SNAP-Ed)
- Summer Electronic Benefits Transfer (SEBT)
- Commodities Supplemental Food Program (CSFP)
- The Emergency Food Assistance Program (TEFAP)
- Temporary Assistance for Needy Families (TANF) and related programs:
    - Job Opportunity and Basic Skills (JOBS) program
    - Family Support and Connections (FS&C)
    - State Family Pre-Supplemental Security Income (SSI) and Supplemental Security Disability Income (SSDI)
- Domestic Violence Survivor Programs

    - Temporary Assistance for Domestic Violence Survivors (TA-DVS)
    - Co-located Domestic Violence Advocates Program
    - Survivor Investment Partnership (SIP)
- Refugee Program
- Youth Services
    - My Future - My Choice (MFMC)
    - Youth Experiencing Homelessness Program (YEHP)
- Tax Infrastructure Grant Program

Program – Future State

SSP is committed to helping create an integrated human service continuum of care that addresses the holistic needs of individuals and families. To do this, we must think differently and creatively, listen more effectively to communities, and collaborate across multiple systems to create and coordinate services. We must also allocate more resources toward the most impacted communities to reduce systemic disparities. In other words, our work is larger than the programs we currently administer; we must focus on holistically improving the conditions in people's environments, from food security to housing security to wealth building.

The social determinants of health are foundational to the well-being of individuals and families[1] and SSP policies and programs must be structured to address that reality. In addition to maintaining and optimizing federal program administration, SSP is arranging our broader policy and practice work around food security, housing security, economic and social mobility, equitable budgeting and implementation, and data. In our future vision, we are committed to investing in communities across all aspects of peoples' lives.

Benefits Overview

- Supplemental Nutritional Assistance Program (SNAP)

SNAP offers food aid to individuals and families experiencing low income to help meet their nutritional needs. SNAP food benefits are 100 percent federally funded; however, administration of the program requires a 50 percent state match. Approximately one in five people living in Oregon receive food benefits through SNAP.

Adults 60 and older and people with disabilities who are receiving SNAP in Oregon are served by SSP in partnership with the Oregon Eligibility Partnership as well as Aging and People with Disabilities (APD) and their contracted partners (Area Agencies on Aging (AAAs), Disability Services Offices and Councils of Government).

SNAP is the largest food security program in Oregon and the United States. Research has shown that SNAP benefits reduce the depth and severity of poverty and improve diet-related chronic health conditions, lowering medical costs for the individual and the state.[2] SNAP benefits add approximately $1.1 billion per year to the Oregon economy, benefiting both urban and rural communities.[3] Oregon's Double Up Food Bucks program supports our efforts to stretch SNAP food dollars further for SNAP households. Through this program, $20 in SNAP can be matched up to $20 in fresh fruit and veggies at participating farmer's markets across the state. Families can find a participating market at doubleuporegon.org.

Oregon is federally required to offer an Employment and Training (E&T) program to assist SNAP households in obtaining skills, training, and work or experience, which in turn increases their ability to secure and maintain living-wage employment.

[3] Calculation based on internal ODHS data and source: Patrick Canning and Brian Stacy, "The Supplemental Nutrition Assistance Program (SNAP) and the Economy: New Estimates of the SNAP Multiplier," United States Department of Agriculture, July 2019, https://www.ers.usda.gov/webdocs/publications/93529/err-265.pdf?v=6395.4

Oregon has two voluntary SNAP E&T programs: the SNAP Training and Employment Program (STEP) – nationally called the SNAP 50/50 program – and the Able-Bodied Adults Without Dependents (ABAWD) program. The ABAWD program establishes time limits for SNAP participants aged 18 to 49 who can work, do not have a child under 18 as part of their SNAP case and do not live in a waived area.[4]

Oregon SNAP encompasses several additional programs including the SNAP Nutrition Education (SNAP-Ed) program, which is active in all 36 counties. ODHS oversees SNAP-Ed program, design and planning, and Implementing Agencies deliver programming and work directly in communities. The state's singular Implementing Agency is Oregon State University Extension Service (OSU ES). Partners at OSU ES live and work in the diverse communities SNAP-Ed serves, including Tribal communities across the state.

One of the primary focus areas for SNAP-Ed is directed at school-aged children, with additional strategic initiatives and supports aimed at serving older adults, the Nine Federally Recognized Tribes and other Tribal communities in Oregon, Black communities, and other communities of color.

- Summer Electronic Benefits Transfer (S-EBT)

The S-EBT program is a federally funded initiative designed to provide crucial food assistance to families with school-aged children during the summer months when school meals are unavailable. Through electronic benefits, S-EBT provides $120 per eligible child over the summer, helping to increase access to nutritious food and promoting children's well-being.

In its inaugural year, S-EBT is anticipated to benefit approximately 294,000 children in Oregon, with annual issuances exceeding $35.3 million beginning Summer 2024. While the program is 100 percent federally funded, its administration requires a 50 percent state match. By investing in S-EBT, Oregon reaffirms its commitment to

[4] The law allows states to ask FNS to temporarily waive the ABAWD time limit based on evidence showing that an area has an unemployment rate of over 10 percent or does not have a sufficient number of jobs. An ABAWD time limit waiver does not waive the general SNAP work requirements. Source: https://www.fns.usda.gov/snap/ABAWD/waivers

nurturing healthy children and communities.

- Commodities Supplemental Food Program (CSFP)

This federal program provides a prescribed nutritious food package each month to help meet the needs of older adults experiencing low income. Food packages are distributed through local agencies and include canned fruits and vegetables, canned meat, poultry and other protein items, and grain products such as pasta and rice. While CSFP food packages do not provide a complete diet, they are a good source of the nutrients many older adults experiencing food insecurity struggle to access, helping these adults combat poor health conditions and avoid hospitalizations and nursing home placements.[5] Recipients are also offered the opportunity to receive nutrition education instruction and information, often in their preferred language and with culturally appropriate recipes. Most of this information is developed in partnership with SNAP-Ed and includes direct input from older adult workgroups in Oregon.

- The Emergency Food Assistance Program (TEFAP)

This federal program helps supplement the diets of people living in Oregon experiencing low income by providing emergency food and nutrition assistance at no cost. The amount of food Oregon receives is based on the number of unemployed persons and the number of people with incomes below the federal poverty level. SSP provides funding to purchase USDA commodities – as well as administrative funds to support statewide food distribution – to the Oregon Food Bank (OFB), the state's distributing agency. OFB works with a cooperative network of regional food banks, partner agencies and programs to distribute emergency food to families.

- Temporary Assistance for Needy Families (TANF)

The TANF program provides cash benefits and job support services to families with children experiencing deep poverty, which is defined as living in a household with a

[5] Ziliak, J., Gundersen, C. (August 2021). The Health Consequences of Senior Hunger in the United States: Evidence from the 1999-2016 NHANES. Report for Feeding America. Available from Feeding America: https://www.feedingamerica.org/sites/default/files/2021-08/2021%20-%20Health%20Consequences%20of%20Senior%20Hunger%201999-2016.pdf

total cash income below 50 percent of the federal poverty level. These benefits are designed to help meet a family's basic needs.

- Job Opportunity and Basic Skills (JOBS)

JOBS is the employment and training component of TANF. It provides services for family stabilization, well-being, education, and employment readiness. Family Coaches meet with families and connect them to local services and supports such as work experience and on-the-job training; English language classes; high school, GED, and college degree programs; parenting education classes; medical, mental health, or substance treatment programs; housing; childcare.

- Family Support and Connections (FS&C)

FS&C provides support to families experiencing low income to increase protective factors and decrease risks associated with child abuse and neglect. Protective factors include nurturing and attachment, knowledge of parenting and child and youth development, parental resilience, social connections, and concrete supports[6] for parents. Identifying protective factors helps parents find resources, supports and coping strategies that support effective parenting even in times of stress, increasing the well-being of children and families. Front-end support and primary and secondary prevention services are used to build upon family strengths, address family functioning and develop skills that lead to self-sufficiency and reduce the need for Child Welfare intervention.

- State Family Pre-Supplemental Security Income (SSI) and Supplemental Security Disability Income (SSDI)

State Family Pre-SSI/SSDI provides temporary cash assistance, case management and professional-level support to TANF-eligible adults and their families. The program is available to participants who have been assessed by the program's disability analysts. The program is voluntary but provides additional staff resources for those selected to participate. Selected individuals must sign an interim assistance agreement to repay the adult portion of their State Family Pre-SSI/SSDI grant back

[6] Goods, services and other tangible resources that help families meet their children's daily needs.

to the state when they are found eligible for federal disability program benefits. State Family Pre-SSI/SSDI expenditures are funded with state only, non-Maintenance of Effort dollars.

- Domestic Violence Survivor Programs

Domestic Violence Survivor Programs include three unique programs that support domestic violence and sexual assault (DVSA) survivors in crisis by providing supports and financial resources, ongoing safety planning, and connection to DVSA experts and culturally responsive services.

  - Temporary Assistance for Domestic Violence Survivors (TA-DVS)

    TA-DVS provides short-term financial assistance and support services to families and pregnant individuals affected by domestic violence when other resources are not available. TA-DVS is used to help domestic violence survivors and their children address their safety concerns and stabilize their living situation. This reduces the likelihood of the survivor having to return to a domestic violence situation and can prevent life-threatening situations. This program also includes safety planning and connection to community resources.

  - Co-located Domestic Violence (DV) Advocates Program

    The Co-located DV Advocates Program contracts with local domestic violence sexual assault (DVSA) nonprofit agencies to station certified DV advocates in every county across Oregon within ODHS Child Welfare (CW) and SSP offices to provide confidential advocacy to survivors and staff. This program serves to create a central access point for survivors as certified DV advocates provide enhanced safety planning, legal advocacy, counseling and emergency shelter.

  - Survivor Investment Partnership (SIP)

    SIP is a partnership with the Nine Tribes of Oregon, culturally responsive DVSA providers and co-located DVSA advocacy agencies to expand

meaningful services and supports to survivors of DVSA. SIP awarded grants to each of the Nine Tribes of Oregon through intergovernmental agreements, to eight culturally responsive providers through grant agreements, and to the contracted co-located DVSA agencies through stipends. SIP funds are general funds that provide Tribes and providers with the flexibility and autonomy to utilize funds in ways that best support survivors individually and within their communities.

- Refugee Program

The Refugee Program serves individuals and families who have fled persecution in their country of origin and are legally admitted for resettlement by the United States. Under the program, ODHS administers refugee cash and refugee medical benefits to refugees and other eligible populations. In collaboration with partner Refugee Resettlement Agencies (RRAs) and community based organizations (CBOs), the program helps refugees and other eligible populations to successfully resettle in Oregon by providing case management, financial literacy services, health and behavioral health services, employment services, English language instruction, cultural integration support, youth mentorship, senior services, immigration legal services, emergency housing assistance, school impact services, community outreach and emergency food services.

The Refugee Program began significant rebuilding efforts following the 2020 election and change in administrative direction regarding immigrants and refugees. The crises in Afghanistan and Ukraine, and the significant increase in the arrival of Cuban and Haitian immigrants has necessitated the expansion of the Refugee Program's efforts and collaboration with the ODHS Office of Resilience and Emergency Management as well as the state's RRAs and CBOs.

- Tax Infrastructure Grant Program

The Tax Infrastructure Grant Program provides operational funding to organizations offering free tax credit education, tax system navigation and tax return preparation to people experiencing low income. Eligible organizations must be one of the following: culturally specific, culturally responsive, a Tribal government or an under-

resourced rural community organization. The program also supports efforts to increase the number of certified tax preparers in Oregon.

Program grantees tripled the number of returns filed this year to nearly 15,000, compared to two years ago before grant funding was available. Grant funding has allowed expansion of service through October 15 and assistance is available in 21 languages. The program is also reaching high school and college students, youth experiencing homelessness and Job Corps youth who would not have received their excess withholding without this program. Due to funding constraints, service outside of the Portland metro area is limited.

- Youth Services

  - My Future - My Choice (MFMC)

    MFMC is an age-appropriate, medically accurate, comprehensive, trauma-informed and inclusive sexual health education program developed for the 6th and 8th grade. It can be delivered with the support of trained high school peer educators and meets all Oregon sexual health education standards. It supports sexual violence prevention and teen pregnancy prevention efforts to help reduce the need for public assistance in the future. ODHS partners with the Oregon Department of Education, the My Future - My Choice Advisory Committee and the Teen Advisory Board to further develop and implement the program. In 2023, Oregon received an additional $1.3 million in federal funding to expand access to the MFMC program services to underserved groups, including culturally specific and rural populations.

  - Youth Experiencing Homelessness Program (YEHP)

    In 2021, ODHS in collaboration with the Corporation for Supportive Housing (CSH) released the results of a statewide analysis that examined the need and pipeline for housing and services for youth experiencing or at risk of experiencing homelessness.[7] Unique in the study was a comprehensive effort to recruit and engage youth across the state with lived

[7] https://www.oregon.gov/dhs/CHILDREN/Homeless-Youth/Documents/CSH-YH-Needs.pdf

experience of homelessness to inform and design housing and services programs that may receive state funding. Following the assessment, YEHP has strategically identified and prioritized key opportunities delineated in the report, ensuring alignment with the overarching objectives of the program and SSP. These initiatives encompass the establishment of a Youth Action Board, implementation of Direct Cash Transfer pilots, development of youth-specific low- and no-cost housing initiatives, and the expansion of accessibility to core services.

In 2023, YEHP received $18.75M in funding via HB 5019 to support the expanded core service areas, as well as host home expansion. A **Host Home** is a privately owned or rented residence of a community member, where a youth experiencing homelessness may live under the terms of a formal agreement. This arrangement is supported by a community-based organization's Host Home Project. For more information, see OAR 461-198-0010.

Coupled with an additional fund transfer from Child Welfare, YEHP awarded $19.5M via 61 grants to 42 providers in 26 counties. House Bill 3395 also allocated $4M to YEHP for extending housing support aimed at low-income college students.

- Design and Implementation

D&I provides program direction, guidance, consultation, planning, implementation and training at the state and local level. D&I works in close partnership with local office staff, SSP Policy and Self-Sufficiency Training Unit (SSTU) teams to ensure aligned, consistent and coordinated practices are in place throughout the state. D&I staff collaborate with service delivery operations both internal and external to ODHS. Collaborative partners include ODHS Child Welfare, the Department of Early Learning and Care (DELC), Oregon Housing and Community Services, (OHCS), Oregon Health Authority (OHA), Oregon Department of Education (ODE), community-based organizations, Tribal partners and communities served across Oregon. D&I coordinates among service delivery operations areas with the goal of increasing access to holistic, person- and equity-centered, and community-based services, programs and supports.

D&I's efforts ensure effective and sustainable service delivery that improves accessibility for the individuals and families SSP serves. Current cross-agency and cross-program collaborations include efforts related to domestic violence, housing, substance use disorder and mental health treatment, vocational rehabilitation, health care, early childhood, behavioral health and education. Family Preservation is a collaborative approach between SSP and CW to support families and children in their homes and communities instead of foster care placement. This prevention-based method aligns with the overall focus of SSP to promote family wellbeing and economic stability.

D&I emphasizes participant, Tribal and community voice to guide efforts and centers the cultural and language needs of those served. D&I staff develop and research methods to better understand the communities served through enhanced data collection and analysis related to race, ethnicity, language, and disability.

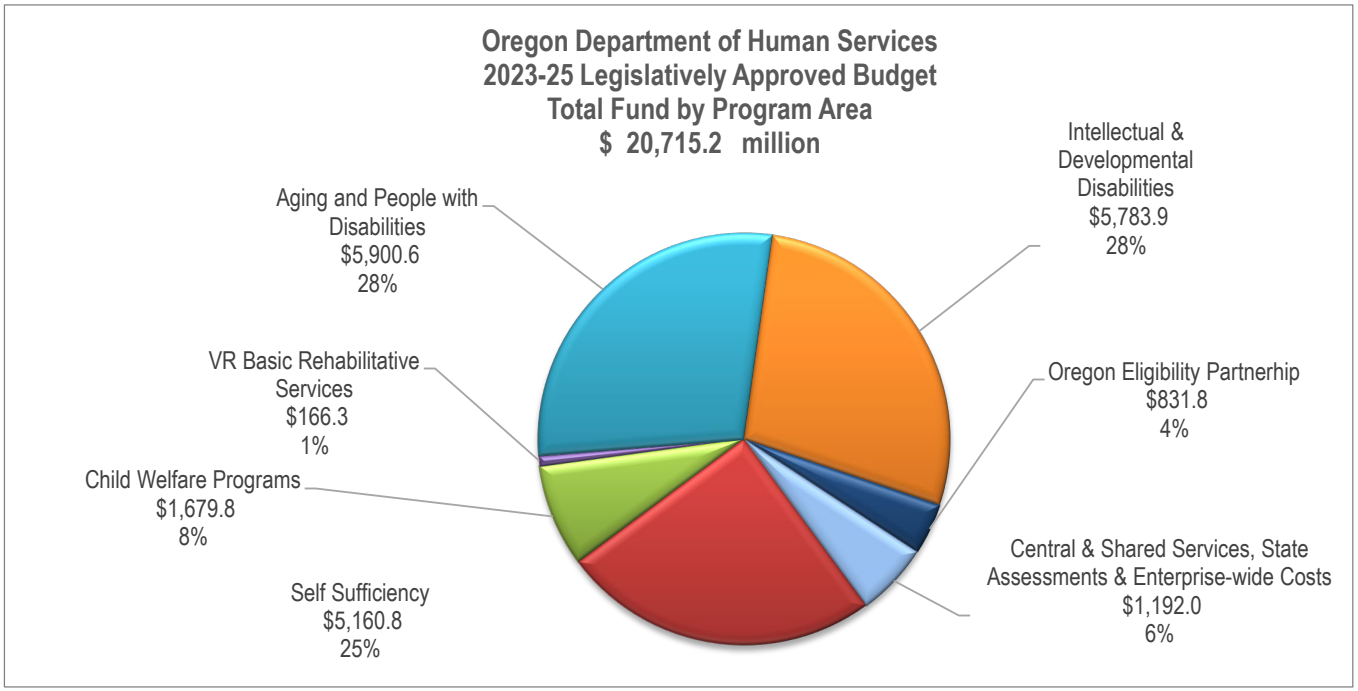
Service Delivery Structure

To help people across the state get the benefits and assistance they need, SSP offers local service delivery offices across the state, satellite locations. This structure allows staff to offer personalized services to individuals and families in the way they want to be served. The ONE system allows for the sharing of work by staff across the state, providing equity in access to services as well as supporting the goal of delivering benefits on a same day/next day basis. SSP will continue to closely partner with OEP on eligibility processes to ensure excellent customer service and seamless support for individuals and families seeking assistance. SSP has 16 districts with a total of 80 offices, and satellite locations. The SSP workforce serves customers in twenty-one different languages including English, enhancing the program's ability to meet the needs of individuals and families, and reflecting the demographics of diverse communities across Oregon.

Self-Sufficiency Training Unit (SSTU)

The Self-Sufficiency Training Unit (SSTU) provides training and professional development for staff to develop the technical and interpersonal skills necessary for success in their roles. Trainings are based on position competencies and adhere to the Department of Administrative Services (DAS) Training Standards.

SSTU provides new-hire and ongoing training to Family Coaches, Engagement Specialists and Operations Managers, in addition to responding to emergent training needs like policy or process changes that impact service delivery staff. The training materials developed by SSTU focus on strength-based practice, being trauma informed and working in partnership to achieve individual and family goals to achieve economic stability, remove barriers and attain overall well-being. SSTU collaborates with a variety of groups throughout the department to ensure alignment in messaging and practice. SSTU also partners with Child Welfare on Family Preservation efforts and in the development of values-based trainings that are trauma-informed and support Oregon's diverse communities.



Oregon Department of Human Services
Child Welfare Division

Vision for Transformation

The Child Welfare Vision for Transformation is based on the belief that children do best growing up with their family, and on core values related to honoring and supporting Tribal and cultural wisdom, building community resilience and voice, and ensuring the self-determination of all communities – particularly those that have historically experienced poor outcomes in our system.

ODHS Child Welfare will achieve this Vision for Transformation through:

- Assessing child safety and providing in-home supports to prevent unnecessary separation of children from parents, family, friends and community.
- Expanding services to prevent foster care placements and ensuring that intensive interventions are as safe and effective as possible.
- Ensuring foster care is family- and community-based, time-limited, culturally responsive and designed to stabilize families rather than serving primarily as a placement for children and young adults.
- Ensuring we are building a kin-first system and establishing that children and young adults will be in the care of family, friends and known community whenever possible, and further that we are helping children keep connections to their cultures, Tribal Nations and communities.
- Recognizing the necessity of short-term, individually customized treatment programs for children who have higher-level physical, developmental and/or mental health needs. These supports should occur while children or young adults are living in families with birth or adoptive parents, relatives, close friends or foster caregivers (resource families).
- Collaborating and building strong relationships with Tribes, communities, people with lived expertise and systems partners.
- Striving for a well-supported workforce that has the developmental opportunities, and access to the resources and services needed to support children, young adults, families and communities; and
- Dismantling structural and systemic racism and moving toward a more equitable and fair system of support for all families.

Child Welfare's mission is to ensure every child and family is empowered to live a safe, stable, and healthy life. This mission is based on a set of beliefs and core values:

- *We believe* children, youth and young adults do best growing up in their family.
- *We believe* our child welfare agency and its partners can better ensure people's safety, health and well-being if they work in constant collaboration and proactively engage individuals, families and communities.
- *We believe* when families and communities are strong, fewer children experience abuse and neglect.
- *We believe* earlier, less intrusive support for families means more children can remain safe and healthy at home and in school, where they can maintain the bonds and connections that are critical to their well-being, leading to better long-term outcomes for children and young adults.
- *We believe* families and communities working together in a more proactive, holistic way will also help free up budget and staff resources. This allows ODHS and its partners to allocate resources in ways that have the greatest impact for children and young adults. Integrating services will mean less need for costly foster care, residential placements and other crisis support, creating opportunities for more innovation, creative solutions and new business models.

About Child Welfare

The Child Welfare Division serves children, young adults and families who are facing challenges that can affect child safety and responds when children are subject to possible abuse and neglect. Skilled and diverse Child Welfare staff respond to reports of child abuse and neglect, helping to assess whether supports or services can be provided to the family to support their remaining together, and coordinating foster care placement in cases where a child cannot be maintained safely at home.

Child Welfare's work encompasses the following areas:

1. Oregon Child Abuse Hotline (ORCAH)
2. Child Safety Program
3. Child Fatality Review and Prevention Program
4. Family Preservation
5. Child and Family Well-Being Program (Foster Care, Youth Transitions and Health and Wellness Services)

6. Permanency Program
7. Behavioral Rehabilitative Services and Treatment Services
8. Program Design & Delivery
9. Federal Policy, Planning & Resources, and Child Welfare Policy
10. Other Central Office Programs and Focus Areas

In Oregon during Federal Fiscal Year (FFY) 2024, 6,799 children spent at least one day in foster care. The number of children entering foster care during FFY 2024 decreased by 4.9 percent from the FFY 2023 level. The number of children leaving foster care decreased by 9.9 percent difference in the same time frame. The number of children in foster care on September 30, 2024 (4,458) decreased by 4.7 percent difference from the number of children in foster care on September 30, 2023 (4,676).

1. Child Abuse Hotline

The Oregon Child Abuse Hotline (ORCAH) serves as one of the first points of contact for children in Oregon who are at risk for or are experiencing abuse and/or neglect. The 24-hour hotline receives and screens reports of child abuse and neglect statewide and provides guidance and subject matter expertise to callers and partners to ensure child safety. The hotline also assigns reports for Child Protective Services (CPS) assessments when allegations of abuse meet criteria for assignment and to ensure child safety. Additionally, the hotline serves Oregonians through cross-reporting to local law enforcement and completes required notifications with multiple community partners, including named Tribes, and coordinates emergency services when appropriate.

ORCAH receives calls and cross-reported police reports as well as electronic reports from Child Welfare caseworkers and the Office of Training, Investigations and Safety (OTIS) staff when a new allegation on an open case or assessment needed to be screened. These are collectively referred to as contacts. In calendar year 2024:

- ORCAH received 169,623 contacts.
- 94,906 reports were referred for investigation.
- 8,242 reports were founded dispositions, meaning there was reasonable cause to believe abuse occured.
- 35.9 percent of the victims were younger than 6 years old.

2. *Child Safety Program*

The Child Safety program investigates reports of child maltreatment that were screened in from ORCAH to determine if a child has experienced abuse or neglect or is safe. Response is sometimes done in partnership with local law enforcement and Tribes. The program also offers locally based services for safety planning, services and interventions to mitigate child safety concerns.

The Child Safety program also provides coordination for the following areas:

- Commercial Sexual Exploitation of Children (CSEC)
  The CSEC coordination provides culturally and linguistically responsive multi-disciplinary services by connecting Child Welfare staff to key partners in order to help youth who are being sexually exploited to access safe shelter and wrap-around services supporting their physical and emotional needs. These partners include:
  - National Center for Missing & Exploited Children
  - Law Enforcement Agencies (LEA)
  - Federal Bureau of Investigation (FBI)
  - Other community agencies

- Addiction Recovery Teams (ART Teams)
  These teams provide coordinated, culturally, and linguistically responsive, multi-disciplinary services to family members who struggle with substance use and/or substance use disorder. Issues around substance abuse are identified through a comprehensive safety assessment.

- Domestic Violence/Sexual Assault
  ODHS makes grants available to domestic violence and sexual assault service providers throughout Oregon. These providers offer culturally and linguistically responsive crisis lines, crisis response, emergency shelter and other related services to survivors of sexual assault and domestic violence and their children.

3. *Child Fatality Prevention and Review Program*

This program was created to improve child safety and prevent child maltreatment and fatalities in Oregon. The goals of this program align with the Family First Prevention and Services Act requirement to create a state fatality prevention plan. It also provides a unique and necessary opportunity to promote a system shift toward prevention policies and practices that address risk to Oregon's most vulnerable children.

The Child Fatality Prevention and Review program coordinates the Critical Incident Review Team (CIRT), which is an approach Oregon's Child Welfare system has used for many years to respond to critical incidents that result in child fatalities. With several significant changes to the CIRT statute in 2019, there was a need to increase program capacity to comply with the law and respond to the significant increase in the number of assigned CIRTs and implementation of recommendations resulting from these reviews. The development of this program has created opportunities for Oregon's Child Welfare system to better understand, learn from and prevent these tragedies. The work of the CIRT is intended to advance quality improvement in Oregon's Child Welfare system. Moving CIRT coordination out of the Child Safety Program and into Child Fatality Prevention and Review has increased the independence and transparency of child safety and fatality reviews. Child Welfare must report all newly assigned CIRTS in a timely fashion on a public dashboard and, once the CIRT is complete, post a public report. The program will continue to work across systems and with community partners, such as public health and other child- and family-serving agencies in Oregon to improve child safety outcomes and prevent child maltreatment and fatalities in our communities.

4. *Family Preservation*

Child Welfare is implementing a Family Preservation approach with 2021-23 state investments in the initial infrastructure. Through a partnership between Child Welfare and Self-Sufficiency Programs, the approach supports families to remain together while increasing stability and safety instead of putting children in foster care. This approach is a key step in Oregon's implementation of the federally approved Family First Prevention Services Act plan. Family Preservation strives to spare children and families from the trauma of separation by engaging community, meeting needs identified by families and developing

safety supports and services that support families' ability to safely meet their children's needs.

Currently, when a Child Welfare safety assessment indicates that a child is unsafe and safety can be managed with the child in their home, Child Welfare and Self- Sufficiency Programs partner with the family and their team to develop a safety plan, identify and meet needs, and conduct ongoing safety monitoring. The long-term goal for this approach is to serve more children and young adults safely in their homes and communities than in foster care.

5. *Child and Family Well-Being Programs*

Child and family well-being programs include Foster Care, Youth Transition Services and Health and Wellness Services.

- Foster Care

  Oregon's Foster Care program values foster care services as a support to families, not as a substitute for parents and families. In order to support the families it serves, the program engages parents, youth, kin, community partners, legal professionals, Tribal partners, resource families and others as a way to holistically support family safety and stabilization. Foster care services include relative care, family foster care, and professional levels of care such as shelter care and Behavioral Rehabilitation Services, which are provided in therapeutic home or residential settings through contracted Child Caring Agencies (CCAs). The foster care system operates 24 hours a day, seven days a week, to accept and care for children who cannot remain safely at home. Oregon's goal aligns with the federal requirement of placing a child in the least restrictive, most appropriate setting that meets the child's individual needs when the child cannot safely be cared for by parent(s). This program focuses on the well-being of children and young adults while they are in foster care and is responsible for recruitment of resource (foster) families that reflect the characteristics of children in foster care. It also certifies, trains, and retains resource families (both general applicants and kith/kin caregivers). Resource families are trained by agency staff and receive a newly redesigned training curriculum. Resource families participate in a Structured Analysis Family Evaluation (SAFE) home study, designed to evaluate a family's suitability and readiness to meet the needs

of children and young adults that enter the child welfare system. Resource families must also pass:

- A criminal background check.
- Reference checks.
- A review of Oregon's abuse registry, which includes all prior abuse reports received on children and adults.

ODHS partners with community members, Oregon Tribal Nations, local and national foster care organizations, provider organizations, youth-led organizations and organizations representing diverse cultural perspectives to deliver services throughout the state.

ODHS also works in collaboration with multiple state, Tribal and local government agencies – including Oregon Healthy Authority, Oregon Department of Education, local law enforcement and Oregon Tribal Nations – as well as community programs, schools, the faith community, and volunteer programs to identify and develop a local array of equitable, cultural, and linguistically responsive services. The program supports the overall well-being of children in foster care by:

- Addressing behavioral, emotional, and social functioning.
- Meeting core educational needs.
- Ensuring appropriate physical, dental and mental health care.
- Maintaining safe family and community connections.

- <u>Youth Transition Services</u>
  The Child Welfare Youth Transition programs, including the Independent Living Program (ILP), serve current and former foster children and young adults up to age 21. Services include assistance with developing life skills and learning about:
  - Financial literacy;
  - Communication and social skills;
  - Relationship building skills;
  - Resources available in local communities;
  - Informed decision-making;
  - Parenting;
  - Health;

- Education support;
- Housing;
- Transportation options; and
- Job readiness.

The program contracts with providers that help young people develop plans to complete high school and successfully transition to post-secondary education or employment. Housing support options are available to eligible youth through transitional living programs, the Independent Living Housing Subsidy Program, and the federal Chafee housing program.

- Health and Wellness Services

  ODHS places high priority on ensuring that children in out-of-home care receive appropriate medical, dental, and mental health care. In addition to the appointments and screenings that are required when a child enters foster care, children are assessed by a contracted nurse shortly after entering care to address any immediate health needs. Support and timely referrals are provided to the child and resource parents for any health-related or medication issues the child may have. Contracted nurses provide:
  - Medication management services.
  - Case consultation.
  - Medical care coordination.
  - Nursing delegation.
  - Resource parent teaching and training.
  - Other nursing services as needed.

  The Health and Wellness team provides resources, support and case consultation to staff and provides resources for resource parents who care for medically fragile children. Annual psychotropic medication reviews and psychotropic medication authorizations are completed by a nurse consultant for all children in care who are currently prescribed psychotropic medications. Medical Assistance Resource Coordinators (MARCs) assist with access to care issues and help coordinate services with Coordinated Care Organizations (CCOs) throughout the state to ensure children's health, mental health and dental needs are being met.

6. Permanency Program

Child Welfare prioritizes keeping children with their families and in their communities. When this is not possible, the initial goal is the safe and successful reunification of children with their parent(s). Staff partner with parents to develop and meet goals so that children can remain safely at home or return home after placement in substitute care. Permanency staff work together with families, children, community partners and the legal system to create and support case plans with the goal of reunification. When reunification is not possible, the Permanency Program works to identify the most appropriate alternate permanency plan. Once children are placed with a permanent adoptive or guardian family, the Permanency Program continues to provide services and supports to children up to age 18 to help meet the special needs and challenges of those who have experienced abuse and neglect. These efforts include consideration of the child's specific cultural, developmental, and linguistic needs.

ODHS is also responsible for the coordinating the Voluntary Adoption Search and Registry Program for Oregon's public and private adoptions. This registry may include adoptions for children with relatives living in other countries pursuant to The Hague Convention and the Intercountry Adoption Act.

The Permanency Program includes:

- Strengthening, Preserving and Reunifying Families (SPRF)
  The Strengthening Preserving and Reunifying Families law (ORS 418.575-418.598) allows funding for an array of services to families through collaboration between ODHS and local community partners. ODHS has developed outcome-based contracts for services to specifically address the needs of children and families who come to the attention of child welfare through a screened in report of abuse or neglect. These outcome-based contracts also enable accurate reporting on results associated with SPRF services and funding.

- In-Home Safety and Reunification Services (ISRS)
  This program provides culturally responsive, intensive, short-term services to families with children who can remain safely in their homes, and to children and families who have been safely reunited. ISRS provides a combination of safety and strengths-based services that lead to lasting safety changes within the family. These services are time-limited and are

complemented by SPRF services for families in need of longer term or more intensive services.

- System of Care (SOC)
  System of Care funds support Oregon's most vulnerable children by providing local Child Welfare offices with the flexibility to purchase services to meet a family's specific needs and ensure the safety, permanency, and well-being of their child(ren) in culturally and linguistically responsive ways. Families are directly involved in case planning and the identification of needed services. Whenever possible, community partners share funding of custom-designed services.

7. *Program Design & Delivery*

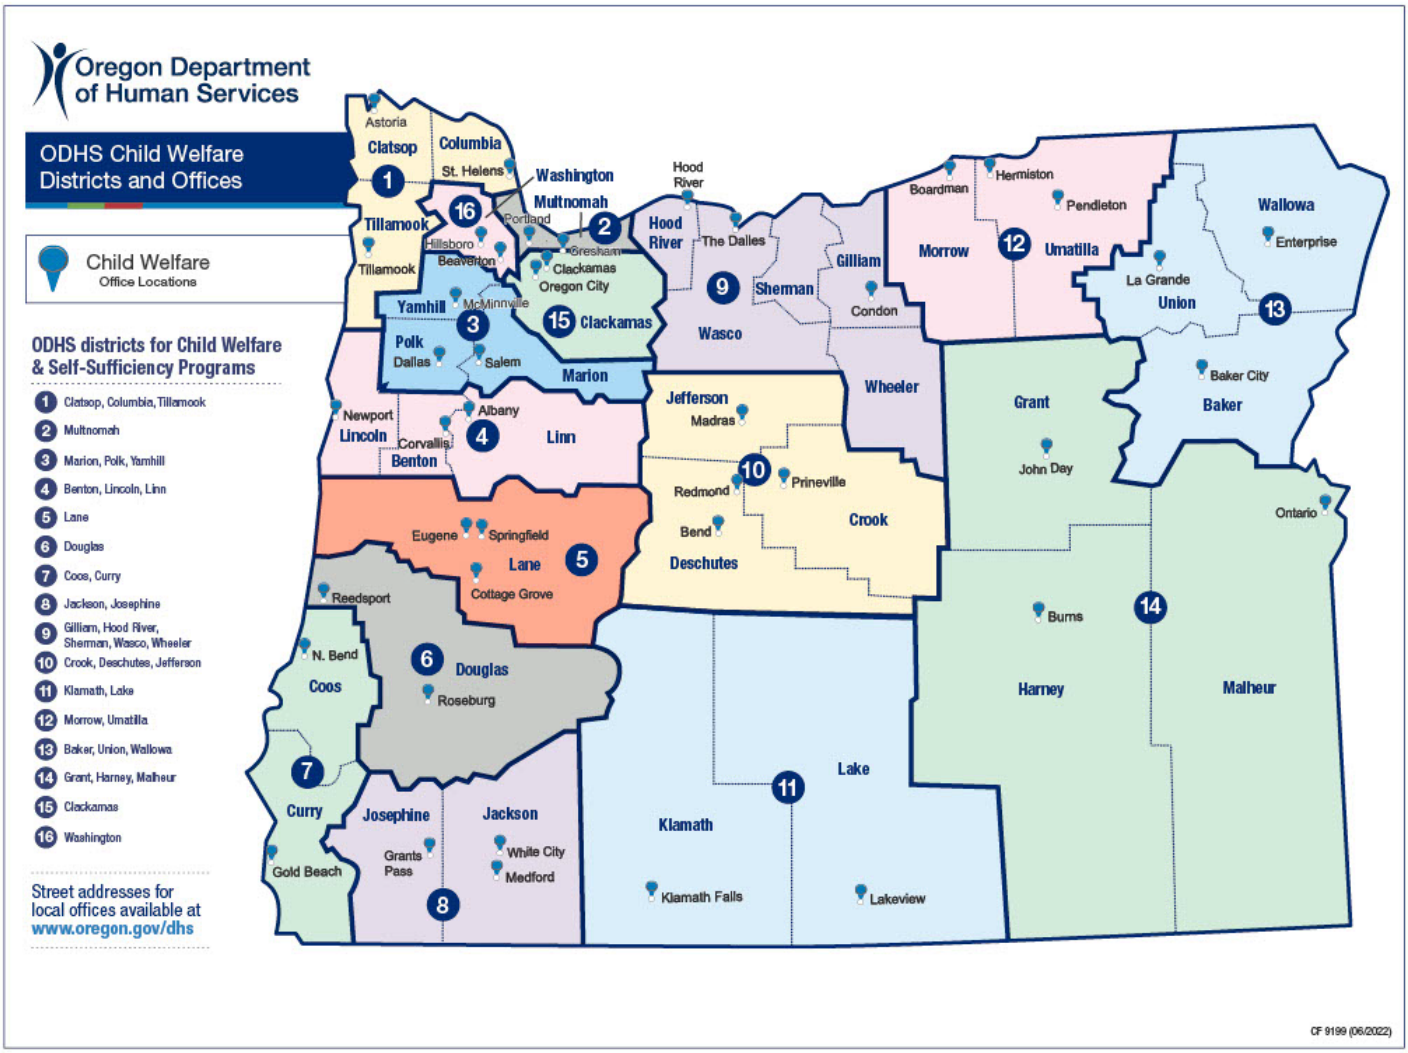
Oregon has a state-administered child welfare division. The Child Welfare Executive Leadership team, in collaboration with the Child Welfare design program managers and staff, provide leadership, guidance and central office support to program and delivery staff through:

- Collaborating with Tribal Nations and community partners.
- Developing policy and rule.
- Complying with federal and state regulations.
- Conducting quality assurance and continuous quality improvement reviews.
- Managing projects and providing technical assistance.
- Evaluating and analyzing the division and program progress and improvement.
- Designing training and workforce resources for staff and resource families.
- Ensuring the integrity of business processes and standards.
- Identifying and implementing equity-building, evidence-based and best practice frameworks.

Managers and supervisors in local Child Welfare offices provide case-level supervision of direct service staff across the program areas. Child Welfare leaders and staff coordinate with Self-Sufficiency Programs to support family stability and prevent entry/re-entry into the child welfare system. Child Welfare staff coordinate with other child and family-serving systems including housing-focused organizations, Oregon Health Authority, Oregon Department of

Education, county-based health and support services and others. Child Welfare employees provide direct services to children and families in local offices.

Figure 1: Child Welfare district map



8. *Federal Policy, Planning & Resources (FPPR)*

FPPR is responsible for ensuring that Child Welfare remains in compliance with federal program standards, maximizing continued federal financial support for the Child Welfare programs and services described above. FPPR submits all required federal reporting and responds to related inquiries. The primary goal of FPPR is to

optimize the use of federal funds while ensuring that all funds are used solely for allowable purposes. These include:

- Title IV-B – Subparts 1 & 2
- Title IV-D – Child Support
- Title IV-E – Foster Care, Adoption Assistance and Guardianship Assistance, Family First Prevention Services
- Title XIX – Medicaid
- Title XX – Social Services Block Grant
- TANF EA – Emergency Assistance

- Child Welfare Policy

  Child Welfare Policy is responsible for ensuring that policy, procedure, and rules are updated in accordance with statutes and requirements. The team provides leadership to the Peer Advisory Review Committee ensuring that any new rules and any policy changes have the opportunity for public comment. The team also reviews all proposed and existing policies, rules, and procedures to ensure that they are in alignment with the Vision for Transformation and supports updates to those that need changes.

9. Other Central Office Programs and Focus Areas

- Equity, Training and Workforce Development and Resource Family Training

  Child Welfare staff and leaders are supported by the central office Equity, Training and Workforce Development (ETWD) program. This program is responsible for establishing and maintaining the best practices and standards for curriculum development, instructional design, training evaluation, and instructional technology. They deliver training in person, virtually and offer video learning options for varied audiences. Additionally, the ETWD program works collaboratively with Portland State University and other technical assistance partners to develop and implement training for staff at all levels. The program also has assigned equity coordinators that support agency efforts towards workforce well-being and equitable service for race, gender, sexual orientation, and those who are differently-abled under the ADA. The workforce development framework is

grounded in a clear research-informed and data-driven systems of best-practices related to:

- Recruiting, screening, selection, and onboarding quality recruits.
- Providing pre-service and ongoing training and development for staff and resource families that develop baseline and developmental knowledge, skills, and abilities.
- A transfer-of-learning, coaching, supervisory and consultation framework that work to continuously increase the competence and confidence of staff at all levels.
- Developing leadership with promotional readiness and succession planning to retain high-performing and adaptive leaders for the future.
- Using continuous quality improvement processes that are informed by a robust workforce development evaluation plan.
- Evolving technology to increase access to learning, attend to diverse adult learning needs and track and report on the developmental learning of all staff and resource families.

- <u>Diversity, Equity, Inclusion, Accessibility and Belonging (DEIAB)</u>
  In alignment with the ODHS Equity North Star. Child Welfare is working to improve DEIAB in all aspects of our programs and to provide accessible, inclusive, equitable and culturally responsive and appropriate services to children, young adults, and families. Additionally, Child Welfare is working with communities, Tribal Nations, and other partners to:

  - Center equity in all aspects of the work.
  - Create more transparent and meaningful partnerships.
  - Share quality data and outcomes.
  - Meaningfully include and center the voices of the community and those with lived experience in planning and in decision-making.
  - Create a shared vision for how meaningful partnerships will promote improved child and family outcomes.

  Child Welfare is constantly looking for ways to assess how policies, rules, organizational culture, and practices are contributing to inequitable outcomes. Among the division's priorities are:

- Honoring the sovereignty of Oregon Tribal Nations and complying with the spirit and intent of ICWA and ORICWA.
- Re-envisioning and increasing the use of culturally relevant services and supports.
- Increasing the inclusion of and sharing power with those most impacted by child welfare systems and reviewing all policy, rules, and procedures for evidence of unintended contributors to inequitable outcomes.

- Oregon Indian Child Welfare Act/ Indian Child Welfare Act (ORICWA/ICWA)
  In collaboration with the ODHS Office of Tribal Affairs and central office leaders, Child Welfare continuously partners with Tribes, Tribal partners and Native American children and families to improve compliance with and integration of the spirit of ICWA and ORICWA in all our work. Native American children are currently over-represented in Oregon's child welfare system. Compliance with the Indian Child Welfare Act is a federal mandate and Oregon's state ICWA, which passed in the summer of 2020, further spells out Child Welfare's responsibility to protect and honor Tribal sovereignty, culture, and traditions. ODHS currently has ICWA Consultants, Active Efforts Specialists and identified ICWA liaisons who work to:
  - Improve ICWA/ORICWA compliance.
  - Enhance Tribal relationships.
  - Provide technical assistance and expert consultation.
  - Support Child Welfare staff in improving outcomes for Tribal children and families.
    - Reduce disproportionality and disparities.

- Family First and Integrated Policy
  The Federal Family First Prevention Services Act was passed by Congress in February 2018. It changed how Title IV-E funding can be used for prevention and preservation and the type of placements in foster care. The Family First Prevention Services Act plan is an important tool for implementing ODHS Child Welfare's Vision for Transformation goals and helping to support families so that more children can remain safely with

their parents and kinship caregivers. Family First presents an unprecedented opportunity to give child welfare systems the federal support needed to make transformative changes.

Family First supports in-home services that utilize evidence-based practices approved by the Federal Clearinghouse in the following categories:

- Mental health prevention and treatment programs or services.
- Substance abuse prevention and treatment programs or services.
- In-home parent skill-based programs or services.
- Kinship navigator programs.

Oregon is using a phased approach toward implementation with ongoing, structured opportunities for partner feedback and adjustment. Lessons learned from other states and jurisdictions underscore the importance of progressively scaling up an evidence-based service array, with ample occasion for communication and collaboration between program developers, local office staff, service providers, community partners, Tribes, families and youth with lived experience and other stakeholders.

This team is leading the implementation with the newly created Family Preservation team and working across divisions with ODHS as well as with community partners and organizations to focus on the prevention of child welfare involvement.

- Interstate Compact on the Placement of Children (ICPC)

The ICPC is the statute that governs the movement of children across state lines. All 50 states, the District of Columbia and the U.S. Virgin Islands are members of the ICPC.

The ICPC covers:

- Children in Oregon foster care being placed in other states,
- Children in the custody of another state's public child welfare agencies being placed in Oregon, and
- Private adoption and residential treatment placements that cross state lines.

According to the Association of Administrators of the Interstate Compact on the Placement of Children (AAICPC) the ICPC applies to approximately 5

percent of all child welfare cases nationwide. The Oregon ICPC program includes a team of central office staff who provide training and case consultation to Child Welfare local office staff, attorneys, and members of the public. The program also includes a team of regionally based workers who complete home studies with Oregon families seeking to care for children from other states.

- OR-Kids
  OR-Kids, a Criminal Justice Information System (CJIS) and case management system, is the statewide data Child Welfare information system with more than 3,807 Child Welfare users and 255 partner users across the state and agencies. It provides reports to internal and external partners, including Child Welfare caseworkers, ODHS Office of Financial Services, ODHS Human Resources, and the Federal Agency Administration of Children and Families.
- OR-Kids contains case records on all children and families served by Child Welfare and issues payments to service providers. Required federal reports are submitted via the OR-Kids system to access federal reimbursement for eligible services. The OR-Kids program staff monitor access for all system users across the state and partner agencies to ensure privacy and access policies are being followed.
- Ad-hoc queries are run to ensure data quality and to operate a data-informed organization. The program also runs queries to identify system issues and resolve end-user problems as case work is completed. The program supports every area of Child Welfare and is the system of record for Child Welfare work.

- Strategy and Innovation

The Strategy and Innovation program supports the Program Reporting and Outcomes team (PRO), the Continuous Quality Improvement (CQI) team and the Project Management Office (PMO). All three teams support the agency's efforts to make significant and sustainable improvements to Oregon's child welfare system by identifying, prioritizing, and executing a portfolio of projects and CQI strategies to improve practice.

- Program Reporting and Outcomes
  The Program Reporting and Outcomes team works with child welfare program on legal audit tracking, data analysis, data literacy, reporting, and creation of data tools. The team supports the Federal Child and

Family Services Review Round 4, which is a comprehensive evaluation of our system and collection of feedback from workforce, providers, persons with lived experience, and Tribes. This information provides insights into our program improvement plan, which will be implemented in 2025.

- Continuous Quality Improvement
  The Continuous Quality Improvement team is a newly created program in Child Welfare. From the 2021 legislative session, a POP granted positions to start the statewide improvement efforts to improve our Federal Performance measures. The CQI team works with districts on their individualized quality improvement plans, provides technical assistance on continuous quality improvement strategies, and provides data literacy tools and education while creating a comprehensive and cohesive approach to improvement in Child Welfare.

- Project Management Office (PMO)
  Services of the PMO include strategic and implementation planning, project management, and portfolio management. The PMO supports projects both within the program and at the agency level to advance the program's Vision for Transformation.

- <u>Business Operations</u>
  The Business Operations team consists of 3 sub teams: Contracts, Business Operations and Position Management. The Contract team provides guidance and assistance to the delivery and design contract administrators to ensure contracts for the necessary services for our clients meet the office of contract and procurements requirements. They also assist in ensuring the services serving the diverse populations of our communities are culturally appropriate. They provide support and guidance in identifying and developing strong working relationships with service providers and community partners. They assist contract administrators with resolving issues with contracted providers, ensuring they are providing the services agreed upon.

  The Business Operations team provides guidance and assistance across delivery and design programs. They assist in developing business processes

across delivery and design, which ensures we are fiscally sound, in compliance with our policy and procedures and aligned with other agency expectations. Providing guidance and assistance with facility-related issues when needed. The Business Operations team leads our COOP and emergency response across delivery and design.

The Position Management team oversees the agency's 3,590 positions across both delivery and design by working collaboratively with delivery to ensure the positions are balanced across delivery, providing support and assistance in filling vacancies, problem-solving with districts' staffing needs, and working collaboratively with design to provide the guidance, support, and advocacy necessary in developing workforce for programs within design. Position Management works collaboratively with agency position management ensuring our positions align properly with the budget and our reporting to legislatures and directors accurately reflects our workforce and needs.

Oregon Department of Human Services: Vocational Rehabilitation Program

Program Mission

Vocational Rehabilitation aims to assist Oregonians with disabilities to achieve, maintain and advance in employment and independence.

Program Vision

Every Oregonian with a disability who desires to work is given an equitable opportunity and means.

About Vocational Rehabilitation

Vocational Rehabilitation (VR) is a state and federal program authorized by state law and the federal Rehabilitation Act of 1973 and amended in 1998 and in 2014 by the Workforce Innovation and Opportunity Act (WIOA).

VR staff work in partnership with Oregonians with disabilities, communities, and businesses to develop employment opportunities and provide individualized services to each eligible person.

Employment helps people with disabilities live independently, become involved in their communities and live more engaged and fulfilled lives.

VR helps Oregonians with disabilities gain employment through a variety of services, including:

- Helping youth with disabilities transition to jobs as they become adults;
- Providing individualized counseling and supports to job seekers with disabilities to help overcome barriers to employment;
- Helping employers realize and receive the benefits of employing diverse people with disabilities; and
- Partnering with other state and local organizations that coordinate and provide equitable employment and workforce programs.

All working-age Oregonians who experience a disability and are legally entitled to work are potentially eligible for VR services. Individuals who experience a medical, cognitive, or psychiatric diagnosis that results in a functional impediment to employment are typically eligible. Recipients of Social Security

disability benefits are presumed eligible for services.

VR has a diverse staff of counselors with expertise in the areas of:

- Intellectual and Developmental Disabilities
- Self Employment
- Rural Engagement
- Deaf and Hard of Hearing Services
- Motivational Interviewing
- Veterans Affairs
- Internship and Counselor Mentoring
- Assistive Technology
- Academic and Vocational Training
- Substance Abuse Disorders and Justice Involved
- Case Management
- Benefits Planning
- Mental Health
- Tribal Affairs
- Customized Employment

Additionally, VR counselors consider the participant's cultural and language needs and the intersection of barriers to employment that race, language, and disability can present for Oregonians seeking employment. Ongoing efforts aim to reach underserved communities and create a more inclusive and supportive environment for all job seekers with disabilities.

Order of Selection

Vocational Rehabilitation implemented a statewide waitlist for services on June 14, 2025, using a service delivery model called Order of Selection (OOS). The waitlist became necessary because resource constraints and increased service demand meant VR was unable to serve all eligible individuals in the state. The federal Rehabilitation Services Administration (RSA), which oversees state VR grants, requires that states implement Order of Selection (OOS) in instances where they are unable to serve all eligible individuals. This service delivery model ensures VR is serving individuals with the most significant disabilities

first. Once determined eligible, new applicants are placed on the waitlist and assigned to one of three priority categories depending on the degree to which their disability presents a barrier to employment. As resources become available, individuals will be served according to their priority category and date of application.

VR and the ODHS Office of Developmental Disabilities Services (ODDS) signed a memorandum of understanding that allows people with I/DD to access employment services without delay caused by the VR waitlist process. ODDS can fund job development and related employment services for those who are on the waitlist and eligible for ODDS services while VR is in Order of Selection.

VR is also working with the Oregon Department of Education (ODE) and local school districts to ensure students with disabilities continue to receive pre-employment transition services.

Individuals VR serves

In State Fiscal Year 2024 VR made significant strides in supporting job seekers with disabilities. Through the dedicated efforts of the service delivery team — including rehabilitation counselors, youth services coordinators, workforce and business relations coordinators, support staff and contracted employment specialists — we achieved notable service outcomes:

- 4,780 job seekers entered rehabilitation plans.
- 14,253 received VR services.
- 2,298 successfully obtained employment.
- 404 individuals with Intellectual and Developmental Disabilities (I/DD) secured competitive, integrated employment.
- 3,568 young people benefited from Pre-Employment Transition Services (Pre-ETS).
- 786 received services who are Deaf or Hard of Hearing (DHH).

VR's commitment to equity is reflected in the diversity of participants served. In SFY 2023, VR participation by race comprised:

- 463 American Indian / Alaska Native
- 204 Asian

- 291 Black / African American
- 591 Hispanic / Latino / Latina
- 59 Native Hawaiian / Other Pacific Islander
- 4,457 White

Services and programs

VR employees provide direct services through a network of 43 local offices and satellite locations across Oregon.

Services are provided by rehabilitation counselors, youth services coordinators, workforce and business relations coordinators, support staff and contracted employment specialists. VR is also co-located in some WorkSource Oregon Centers and other human services offices across the state as part of an effort to increase access to the larger workforce support system in Oregon.

VR provides the following services:

- Core vocational rehabilitation services
- Youth services
- Supported employment
- Services to businesses
- Career Counseling, Information and Referral

VR also administers the following programs:

- Inclusive Career Advancement Program (ICAP)
- Work Incentives Network (WIN)

- **Core VR services**

  These are individualized services provided to VR participants whose disabilities present a barrier to employment. A rehabilitation counselor conducts a comprehensive assessment to evaluate a client's career potential. This includes assistance determining which services can help support an individual in achieving their employment potential. Vocational counseling and guidance build on this assessment and help the client identify a vocational goal. The counselor works with the client to develop an individualized plan for employment and helps the client access appropriate services in support of the plan.

- **Youth Services**

  VR provides services to young people between the ages of 14 and 24 who are getting ready to transition to work. Individualized services help each person develop job skills, explore career interests, and learn to advocate for themselves.

  Pre-Employment Transition Services (Pre-ETS)

  In 2014, Congress passed the Workforce Innovation and Opportunity Act (WIOA). The legislation allows students ages 14-21 who are potentially eligible or eligible for VR services to receive Pre-Employment Transition Services (Pre-ETS). VR Pre-ETS Coordinators, as well as contracted positions located in schools and Education Service Districts, provide students an opportunity to access:

  - Career Exploration
  - Post-Secondary Counseling
  - Self-Advocacy Instruction
  - Work-Based Learning Experiences
  - Workplace Readiness Training

  Individual Transition Services

  These services are available to students and youth ages 14-24 who have been found eligible for VR services and have an open Individual Plan for Employment. The purpose of these services is to assist young people — whether or not they are enrolled in school — in developing and pursuing career interests through post-secondary education or vocational training, as well as securing a job through job search, placement, retention, follow-up and follow-along services.

  Group Transition Services

  These services are available to young people with disabilities — whether or not they are enrolled in school — who may not have yet applied or been determined eligible for Vocational Rehabilitation services. These specific transition services are designed to benefit a group and are not individualized services directly related to an Individualized Plan for Employment goal. Services may include tours of universities and vocational training programs; employer or business site visits to learn about career opportunities; career

fairs coordinated with workforce development organizations and employers to facilitate mock interviews and resume writing; and other general services.

- **Supported Employment Services**

  These services are for individuals with the most significant disabilities for whom employment is not possible through traditional means, but who can obtain and maintain competitive employment in the community with job coaching and ongoing supports. Substantial and supported employment services are provided on a time-limited basis for each client. Oregon Health Authority, ODHS Office of Developmental Disability Services, other community programs, families and private employers are responsible for the subsequent services once VR has found employment for an individual and completed training. Supported Employment Services provide individuals with both traditional VR services and support services provided by job coaches, typically at job sites.

- **Career Counseling, Information and Referral (CCIR)**

  The WIOA created CCIR services in the 2014 update to the Rehabilitation Act, and states began related subminimum wage projects in 2017. These services provide career counseling, information, and referral to individuals of any age known by VR to be employed at subminimum wage. Employers with 14C certificates from Department of Labor are allowed to employ individuals at less than minimum wage. These employers are required to inform employees about training opportunities but are prohibited from providing CCIR services as the latter is a VR function. Currently there are no clients in Oregon earning subminimum wage.

- **Inclusive Career Advancement Program**

  The Inclusive Career Advancement Program (ICAP), a five-year federal disability innovation grant initiated in 2021 and funded through September 2026, aims to empower Oregonians with disabilities by enhancing their access to meaningful career opportunities through specialized training and support. Partnering with 16 Oregon community colleges and focusing on high-demand fields, ICAP facilitates skill development and establishes pathways to sustainable careers, optimizing long-term success for participants.

  ICAP is embedded within VR and collaborates with the Oregon Commission for the Blind, Cornell Yang-Tan Institute, and Portland Community College. ICAP delivers integrated support through career coaching and wraparound

services to VR participants. Through local and statewide communities of practice and local implementation teams, ICAP enhances collaboration, addressing unique participant needs. The program prioritizes equitable access by creating partnerships with historically underserved communities, including rural areas, Indigenous communities, Black communities, and other communities of color. By addressing challenges faced by individuals with disabilities, ICAP strives to improve employment outcomes, retention rates, median earnings, credential attainment, workforce skills and effectiveness in meeting Oregon's workforce needs.

As of August 2025, ICAP has enrolled 600 students at local community colleges.

- 123 students with disabilities have completed their training.
- 43 have gained and maintained competitive employment in their new career field.
- By December 2025, VR anticipates 75 more enrollments, 50 completing their training, and 35 achieving competitive employment.

- **Work Incentives Network**

  The Work Incentives Network (WIN) provides benefits planning through contracts with six Centers for Independent Living. Through the state's General Fund dollars, WIN is able to provide benefits and work incentives planning to any Oregonian with a disability who receives a public benefit and who wants to obtain, maintain or increase their employment. In doing so, the network empowers individuals to make informed decisions regarding their employment and benefits while understanding how to maintain access to crucial services and medical coverage. People who successfully have access to benefits planning are better able to secure employment, live independently, engage with their communities, and live a higher quality of life. Through employment, they also pay taxes and reduce reliance on publicly funded services.

VR Partnerships

- **Centers for Independent Living**

  Oregon's seven Centers for Independent Living (CILs) are nonprofit organizations that provide the following independent living services:

  - Information and referral to services

- Independent living skills training
- Peer counseling
- Systems and individual advocacy
- Transition services for youth
- Work Incentives Coordinators who provide benefits counseling to help people with disabilities make informed employment decisions

Authorized under the Rehabilitation Act of 1973, CILs also provide a range of services based on local needs, many of which complement services provided through other state and federally funded programs. Services are provided through a peer-mentoring model with an emphasis on self-advocacy and consumer responsibility.

The State Independent Living Council (SILC) oversees Oregon's independent living services. The council's mission is to promote choice, equal access, and full inclusion for people with disabilities throughout Oregon. The council meets quarterly; meetings are open to the public.

- **State Rehabilitation Council**

  The Oregon State Rehabilitation Council (SRC) aims to ensure Vocational Rehabilitation (VR) is consumer-driven and that available programs, services and resources result in competitive, integrated employment.

  Authorized under the federal Rehabilitation Act of 1973, the SRC is an accountability partner to VR. Members represent the voice of those who receive VR services and provide VR with an external, consumer-oriented perspective. The council also provides consumers with a formal mechanism to influence the direction of VR programs in Oregon. The council meets quarterly.

- **Employment First**

  Oregon's Employment First initiative is a partnership among state agencies to improve employment outcomes for people with intellectual and developmental disabilities (I/DD). Cooperating agencies are VR, the ODHS Office of Developmental Disabilities Services and Oregon Department of Education.

  Partners work to increase competitive, integrated employment for people with I/DD, as outlined in the Employment First Policy. With the passage of Senate Bill 810 during the 2025 Legislative session, this policy will become law on Oct. 1, 2025. The policy states that employment in fully integrated work

settings will be the first and priority option explored in service planning for all working-age adults and students preparing to transition to the world of work. The policy is based on the general philosophy that people with I/DD have the ability, with the right supports and job match, to succeed and advance in competitive integrated employment.

In alignment with this policy, ODHS stopped funding services in sheltered workshop settings as of September 2020. Additionally, Employment First partners have continued to support and implement SB 494 passed in 2019 to end 14(c) subminimum wage certificates as of July 1, 2023.

VR has specialized counselors around the state committed to working with people with I/DD to help them find employment in their communities.

- **Tribal Partnerships**

  The VR program continues to partner with and support the five Tribal VR programs:

  - Confederated Tribes of Grand Ronde
  - Klamath Tribes
  - Confederated Tribes of the Umatilla Indian Reservation
  - Confederated Tribes of Siletz Indians
  - Confederated Tribes of Warm Springs

  Each federally recognized Tribe shares a unique vision for its program and identifies how ODHS VR can support service delivery to Tribal members.

  This collaboration includes:

  - Supporting shared clients with complex disability-based barriers to employment who require specialized rehabilitation services.
  - Cross-training new VR counselors on the cultural customs specific to the Tribal Nation.
  - Hosting joint rehabilitation trainings for state and Tribal VR counselors.
  - Facilitating Tribal VR directors and Tribal leaders to meet with the ODHS Director.
  - Sharing space within WorkSource buildings.

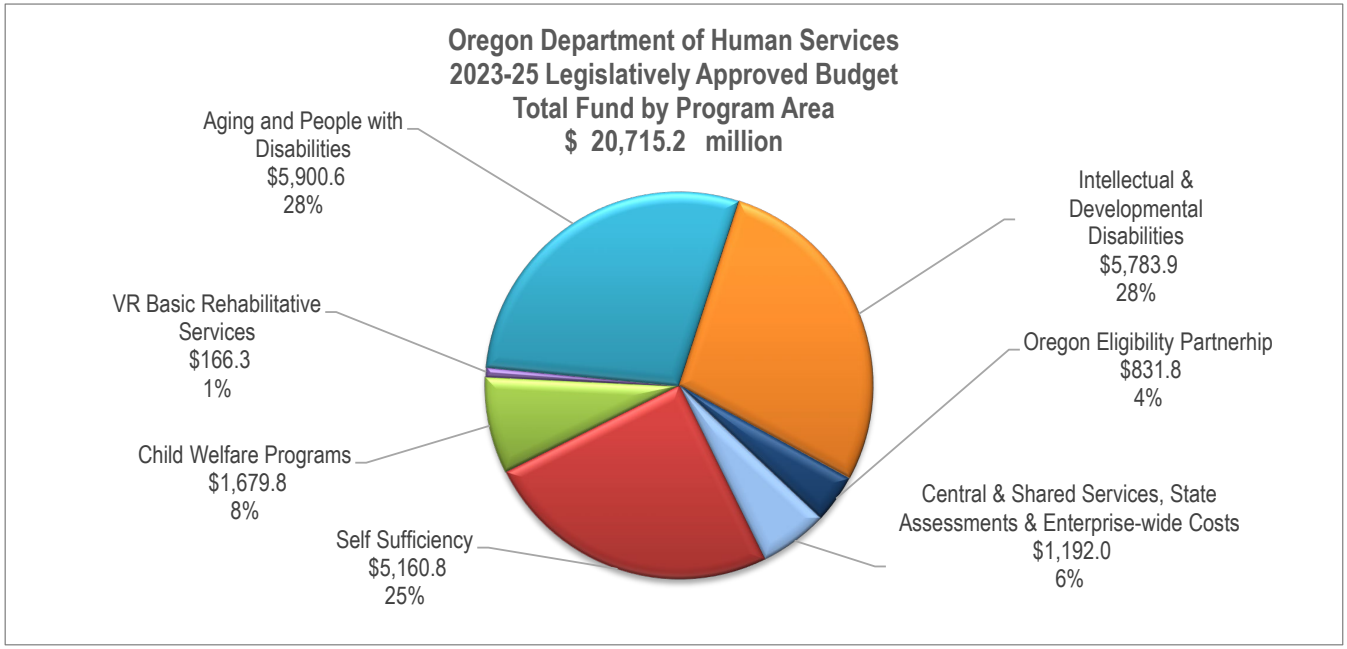
- **Workforce Partnerships**

  With the passage and implementation of the Workforce Opportunity and Innovation Act (WIOA) of 2014, VR was identified as a core partner in the workforce system. VR works closely with core workforce partners to create a system that is less siloed, more efficient, inclusive, equitable and diverse.

  VR is represented on the nine local workforce development boards in Oregon and has a large role in the statewide Workforce and Talent Development Board. VR and its workforce partners have developed and updated the combined state plan that guides collaborative efforts to build an effective and strong workforce support system throughout Oregon.

  Additionally, VR, ODHS Self Sufficiency Programs, the Oregon Employment Department, local workforce development boards and Adult Basic Education programs around the state meet regularly to ensure all services are aligned, minimize duplication, and create opportunities for expanding services in ways that meet the needs of shared clients. Moving toward this shared purpose has increased awareness of the needs of individuals with disabilities seeking employment while creating more opportunities for clients in local communities.

  VR continues to create diverse opportunities for individuals with disabilities to gain equitable access to employment. VR provides training and outreach to businesses to help eliminate stigmas around hiring people with disabilities and demonstrate that VR's diverse clients are reliable, dependable, and skilled workers. VR also partners with businesses to provide work-based learning opportunities for all clients, including youth transitioning into post-secondary careers and apprenticeships.



Oregon Department of Human Services
Office of Aging and People with Disabilities

Program Mission

To help Oregonians in their own communities achieve well-being and independence through opportunities that protect, empower, respect choice and preserve dignity.

Program Vision

Oregon's older adults, people with physical disabilities and their families have easy access to services, supports and early interventions that help maintain independence, promote well-being, honor choice, respect cultural preferences and uphold dignity.

Program Goals

Safety and well-being: Older adults and people with disabilities feel safe and experience their best quality of life.

Accessibility: Oregonians can readily and consistently access timely, person-centered services and supports to meet their needs.

Quality outcomes: Oregonians engage in services and supports that are preventive, evidence-informed and lead to quality outcomes.

Service equity: Oregonians experience programs, services, and supports that are designed, improved and responsive to historical inequities, current disparities and individual experiences.

Engagement: Through strong, collaborative partnerships and rich community dialogue, consumers are provided information and are engaged in two-way communication and regular opportunities to voice their needs and opinions.

About the Aging and People with Disabilities (APD) Program

During the biennium, APD expects to serve:

- About 38,000 older adults and people with physical disabilities per month who qualify for Medicaid-funded long-term services and supports.

- More than 150,000 older individuals who benefit from Older Americans Act services.

- About 175,000 people who need Medicare Premium assistance.

- Residents of more than 2,000 licensed care providers through regulatory oversight.

- More than 80,000 individuals who receive a Social Security Disability determination and need help accessing federal income benefits available to individuals with a disability.

- About 5,000 individuals ages 60 and older who seek help through Oregon Project Independence.

- More than 1,200 people who receive long-term care options counseling from the Aging and Disability Resource Connection.

- Individuals who will make more than 100,000 calls seeking to report abuse or neglect or request information and referral services from Adult Protective Services.

Services, Delivery and Design

APD's budget is sectioned into three key areas: program services, program delivery and program design.

Program services focus on supporting older adults and people with disabilities in maximizing their independence while supporting their individual needs. Services are provided through the following APD programs:

- Aging and Disability Resource Connection
- Adult Protective Services
- Safety Oversight and Quality
- Medicaid Services
    - In-home services
    - Community-based care facilities including adult foster homes

    - Nursing facilities

- Oregon Deaf and Hard of Hearing Services
- Senior Health Insurance Benefits Assistance (SHIBA)
- Older Americans Act
- Oregon Project Independence
- Oregon Project Independence - Medicaid
- Financial support services
- Oregon Brain Injury Program

Aging and Disability Resource Connection

- The Aging and Disability Resource Connection (ADRC) of Oregon serves individuals who live in Oregon and need information or referral services about APD programs and services and/or other resources that serve older adults and people with disabilities. The ADRC is a collaborative public-private partnership that streamlines consumer access to a complex aging and disability service delivery system. ADRC services are free to Oregonians and the service raises visibility and awareness of the full range of options available. The ADRC provides trusted information and assistance and empowers people to make informed decisions. Through trained options counselors, consumers can develop long-term services and supports action plans that align with their preferences, financial situation, strengths, values and needs.
- If a person may be eligible for Medicaid long-term services and supports, they will be referred to APD local offices or Area Agencies on Aging (AAAs) for a full assessment.
- Employees from both APD local offices and AAAs throughout Oregon are responsible for providing direct consumer services. Employees also determine eligibility for older adults and people with disabilities for medical programs provided through the Oregon Health Authority (OHA).
- During the 2024 calendar year, the ADRC received 72,328 direct contacts and 150,361 website visits. The ADRC, as with all APD, must keep pace with the growth of the older adult population and is increasingly serving a more diverse

population. APD strives to identify and mitigate disparities in outcomes for diverse populations using REAL-D[1] and SOGI[2] data collection, and to provide timely and culturally and linguistically appropriate access to services. For transparency, the ADRC provides a service data dashboard.

Adult Protective Services (APS)

APD and some AAA offices are responsible for investigating instances of abuse against older adults and persons with disabilities across the state. Abuse is costly both from a human and financial perspective. A person who has experienced abuse is likely to have increased health and long-term care costs.

- In 2024, local Adult Protective Services (APS) offices received a total of 52,297 reports. These numbers are slightly down from 2023, when local offices received 52,538 calls. Of the cases investigated, 22 percent were in community-based long-term care settings such as adult foster homes, assisted living facilities, residential care facilities and those with memory care settings.
- In 2024, APS completed 11,338 abuse investigations in community settings, as well as 7,197 investigations in licensed long-term care settings. Financial exploitation and neglect remain the most common forms of abuse for older adults and people with disabilities. In the 2024, 31 percent of abuse allegations in the community were for financial exploitation.
- Many alleged victims involved in APS investigations are not already being served by APD through Medicaid or other benefits at the time of the investigation. APS involvement is often the first occasion that APD works with these individuals.

Safety, Oversight and Quality

- The APD Safety, Oversight and Quality (SOQ) licenses most providers of long-term services and supports for older adults and people with disabilities. The providers offer a wide range of services. Through oversight, investigation of complaints and reports of potential abuse, and corrective action, SOQ reduces future incidence of unsafe conditions and improves the quality of care. These

[1] REALD: race, ethnicity, language and disability
[2] SOGI: sexual orientation, gender identity

services are most effective when they are provided in a quality model aimed at preventing harm.
- The providers licensed by SOQ include adult foster homes, assisted living facilities, residential care facilities, nursing homes, conversion facilities, intensive intervention care facilities and facilities with memory care endorsements. SOQ strives to ensure service equity and the delivery of culturally and linguistically appropriate services.

Medicaid Services

- All long-term services and supports options are funded with support of the Medicaid program through home- and community-based waivers or state plan options for eligible individuals. Oregon has been able to create cost-effective programs that meet people's needs in their homes and other community settings using these options, sparing consumers from the unnecessary use of higher-cost services, primarily those offered in nursing facilities.
- Each month, in the 2023-2025 biennium, about 36,000 older adults and people with physical disabilities use Medicaid long-term services provided through APD. By federal law, each state must develop criteria for access to nursing facility care paid by Medicaid. Criteria must include financial and asset tests as well as service eligibility criteria. The federal government, through Centers for Medicare and Medicaid Services (CMS), must approve any criteria established by the states. Access to home- and community-based care are determined by the same critiera.
- More than 4,400 older adults and people with physical disabilities are eligible to receive Medicaid long-term services but are not yet receiving paid care. These individuals receive APD case management services only.
- Many older adults and individuals with disabilities need assistance from other people to perform daily activities and to ensure their health and safety. Activities of Daily Livings (ADLs) are personal activities required for continued health and well-being and include mobility, eating, elimination, cognition and personal hygiene. Instrumental activities of daily living (IADL) include housekeeping and meal preparation.
- APD created service priority levels (SPLs) to establish eligibility for Medicaid long-term services and supports. SPLs prioritize services for older adults and people with physical disabilities whose well-being and survival would be in jeopardy without services. SPLs s are based on the ability of the person to

perform ADLs. SPL 1 reflects the highest level of need and SPL 18 is the lowest level of need.

- Prior to 2003, APD served individuals through SPL 17. Since then**,** because of budget constraints, APD is only able to serve individuals in SPLs 1-13. Beginning in June 2024, APD's new Oregon Project Independence – Medicaid (OPI-M) program will serve eligible individuals through SPL 18.
- APD assists thousands of Oregonians in selecting competent providers and establishing effective working relationships with those providers. Due to an increasingly diverse population of older adults and people with disabilities in Oregon, APD must develop services and supports that are responsive to the cultural and linguistic needs of consumers. This includes efforts through the Oregon Home Care Commission in recruiting diverse homecare workers.

Medicaid-funded Long-Term Services and Supports provides help to eligible individuals with fundamental ADLs such as mobility, elimination, cognition, eating, bathing, dressing and personal hygiene. These services ensure that the person is living in a safe and healthy environment. A fundamental tenant of the program is to promote choice, independence and dignity. Services can be provided in nursing facilities or in home- and community-based settings.

In-Home Services: In-home services are the cornerstone of Oregon's long-term services and supports system and were created to meet the preferences of older adults and people with disabilities throughout Oregon. For more than 25 years, Oregon has created options to meet people's needs in their own or their families' homes.

In the in-home service option, there are an array of services that an individual can choose to meet their specific needs and preferences. A case manager works with the individual to develop a person-centered service plan that is specific to the consumer. The different options that an individual can select to receive include:

a.) Medicaid consumer-employed Homecare Workers: Homecare Workers (HCW) are hired directly by the consumer and provide many of the services Medicaid recipients need to remain in their own homes. The consumer, or their selected representative, is responsible for locating, hiring, and providing day to day direction on how their services should be delivered. The HCW must pass a criminal background check conducted by the Department and must complete required training. In partnership with the

consumer, APD develops and authorizes a person-centered service plan, makes payment to the HCW and provides ongoing contact with the consumer to ensure service needs are met.

b.) The Oregon Home Care Commission (OHCC) was established in 2000 by an amendment to the Oregon Constitution. It is a public commission dedicated to ensuring high-quality home care services to individuals using consumer-employed providers. Service Employees International Union Local 503, Oregon Public Employees Union, represents the approximately 21,500 HCWs who are available to serve APD consumers of which about 14,600 are actively working each month. For purposes of collective bargaining, OHCC serves as the HCW employer of record. The commission provides an extensive training curriculum. The OHCC also makes training available to consumers to better understand their employer responsibilities and increase their skill in managing the use of HCWs.

c.) In-home agency services*:* Many consumers prefer to receive their in-home services through an in-home care agency. In-home care agencies (IHCA) are licensed by the Oregon Health Authority. These agencies employ, assign and schedule caregivers to perform the tasks authorized by the consumer's case manager. APD contracts with licensed IHCAs throughout the state. IHCAs work closely with ODHS case managers and consumers to ensure services are provided as authorized and to ensure the quality of the work performed.

d.) Medicaid Independent Choices Program*:* This program increases consumers' self-direction and independence by allowing the consumer to purchase the services directly. Consumers receive a cash benefit based on their assessed need based on what the state would have paid an HCW. The consumer directly pays for services. Consumers are responsible for locating providers, paying their employees, and withholding and paying necessary taxes. Depending upon how they manage their service benefit, many can purchase a few additional services or items otherwise not covered by Medicaid to increase their independence or well-being.

e.) Medicaid adult day services: Adult day services are designed to provide support and companionship for older adults who need assistance or supervision during the day. Programs offer relief to family members and caregivers, allowing them to go to work, handle personal business, or just relax while knowing their relative is safe and receiving the services and

supports they need. The goals of the programs are to delay or prevent institutionalization by providing alternative care, to enhance self-esteem, and to encourage socialization.

f.) Medicaid home-delivered meals: Home-delivered meals are provided to those who are homebound and unable to go to sites, such as senior centers, for meals. These programs generally provide a hot midday meal and often frozen meals for days of the week beyond the provider's delivery schedule.

g.) Medicaid (state plan) personal care services: Individuals who do not meet service priority levels (SPLs), but have more limited personal care needs, may qualify for Medicaid Personal Care Services. Services are generally limited to no more than 270 hours per year. Personal care services are more limited than the standard Medicaid Long-term Services and Supports benefit and individuals must meet more restrictive financial eligibility.

h.) Medicaid specialized living services: The services are provided through a contract with APD and targeted to a specific group of consumers living in their own apartments and assisted by a specialized program offering direct service and supports.

Community-based care licensed homes and facilities

Community based care licensed homes and facilities are another service option available to eligible consumers. These include adult foster homes, residential care facilities and assisted living facilities, as well those with memory care endorsements. These licensed homes and facilities serve as an alternative to nursing facilities which are a more institutional setting. Services include assistance with ADLs, medication oversight and social activities. Services can also include nursing and behavioral supports to meet complex needs. State and federal guidelines related to health and safety of these facilities must be met.

a.) Adult foster homes: Services are provided in home-like settings licensed for five or fewer individuals who are not related to the foster home provider. Homes may specialize in certain services, such as serving ventilator-dependent residents. Care providers are onsite 24 hours per day.

b.) Assisted living and residential care facilities: Licensed 24-hour service settings serve six or more residents and facilities range in size from six to

more than 100 beds. The difference between residential care and assisted living is the fact that individuals typically have shared rooms in residential care and in assisted living individuals have their own rooms with small kitchenettes.

c.) Intensive intervention care facilities: Intensive Intervention Care (IIC) facilities are small residential care facilities designed to serve individuals with significant behavioral and mental health needs who cannot safely be served in larger facilities. Five or fewer people can live in a single IIC home.

d.) Enhanced care services: Enhanced care services are specialized 24-hour programs in licensed care settings that provide intensive behavioral supports for older adults and people with physical disabilities who have needs that cannot be met in any other setting. These programs support consumers with combined funding from APD and the Oregon Health Authority's mental health program.

e.) Memory Care Community Endorsement: Memory care endorsements can be added to licensed Assisted Living Facilities, Residential Care Facilities or Nursing Facilities. Facilities with a memory care endorsement serve individuals with dementia and other cognitive diseases. They are required to have enhanced training and a more secure setting for their residents. The endorsement is in addition to the underlying facility licensure.

f.) Program for the All-inclusive Care for the Elderly (PACE): PACE is a Medicare/Medicaid program built on a care model that combines all medical services and long-term services and supports into one program. Currently, about 1,950 Oregonians ages 55 and older are served in this program, which generally allows them to attend adult day services and live in a variety of settings. Through a capitated payment, PACE programs are responsible for providing and coordinating their consumers' full health and long-term service needs in any facilities approved in Oregon or in the individual's home.

Nursing facilities

Institutional services for older adults and people with physical disabilities are provided in nursing facilities licensed and regulated by APD. Nursing facilities provide individuals with skilled nursing services, housing, related services, and ongoing assistance with activities of daily living.

Oregon has led the nation since 1981 in the development of lower cost alternatives to institutional (nursing facility) care. Home- and community-based alternatives to nursing facility services emphasize independence, dignity and choice and offer needed services and supports at lower costs than medical models. Nursing facilities play a critical role in hospital discharges and placements for individuals with high needs. Consumers can select to receive their services in a nursing facility though APD has services available to help individuals transition to lower levels of care.

Oregon Deaf and Hard of Hearing Services

- Oregon Deaf and Hard of Hearing Services (ODHHS) serves as a resource for all Oregonians, to improve quality of life for Deaf, DeafBlind and Hard of Hearing people and their families. APD's ODHHS is engaged in ongoing training of state agency staff to improve the experiences of people seeking services and ensures that state agencies are able to provide American Sign Language and closed captioning supports. They also advocate across state agencies to identify and improve access for Deaf, DeafBlind and Hard of Hearing individuals. Recently, APD invested in co-navigator services to help DeafBlind individuals access their communities.

Senior Health Insurance Benefits Assistance (SHIBA)

- In 2024, there were 944,474 Medicare beneficiaries in Oregon. Older adults who are newly eligible for Medicare may be unsure of where to start with enrollment and may not understand which plan best fits their unique health care needs. The Senior Health Insurance Benefits Assistance (SHIBA) program offers Medicare-eligible adults and their families free, objective and comprehensive one-on-one benefits counseling so people can make informed decisions about their Medicare coverage.
- Direct services are provided by SHIBA staff and a team of 217 certified volunteer counselors who provide information about what Medicare plans are available, help with Medicare appeals and educate consumers on how to protect, detect and report Medicare fraud, waste and abuse. During the 2024 federal fiscal year, SHIBA certified counselors provided 13,754 one-on-one counseling sessions to Oregonians.

Older Americans Act

The Older Americans Act is administered in Oregon through APD and is primarily

funded by the federal government. It provides funding for locally developed programs serving individuals ages 60 and older. APD distributes funds to local Area Agencies on Aging (AAAs) for services. AAAs may deliver services directly or through subcontractors. Approximately 78,060 Oregonians currently access these services. The AAAs develop services that are within federal and state expectations and meet the needs and preferences unique to individuals in their local area. Federal mandates require that services target those with the most significant economic and social need, to minorities and to those residing in rural areas. There are no income or asset requirements to receive services except those related to the Senior Community Service Employment Program (SCSEP).

APD distributes federal funds to the AAAs using a federally approved intra-state funding formula that is based on the demographics and square mileage of each area. APD encourages and incentivizes culturally specific and linguistically competent supports within all programs through contractual equity and demographic reporting requirements. Programs include family caregiver supports, nutrition via congregate and home-delivered meal programs, older adult employment, legal services, elder abuse prevention services and more. Most AAAs also sponsor and promote evidence-based wellness and chronic health condition management activities, and many also provide assistance to local senior centers.

Oregon Project Independence (OPI)

OPI is a state-funded program offering in-home services and related supports to individuals 60 years of age and older or people who have been diagnosed with Alzheimer's or a related dementia disorder. Approximately 2,000 Oregonians are expected to be served in this program during a calendar year. The program was expanded in 2014 by Oregon Legislature to include younger adults with disabilities. The funding allowed for a pilot program to expand the program to adults ages 19-59 with physical disabilities.

OPI is administered statewide by local Area Agencies on Aging (AAAs). Many areas have waiting lists due to high demand and limited program funding. Consumer eligibility is determined by an assessment of functional ability using the same criteria that is used for Medicaid eligibility. Typical services include assistance with ADLs, housekeeping, bathing, grooming, health care tasks, meal preparation, caregiver respite, chore services, adult day services and transportation.

The OPI program has no financial asset limitations for consumers. A sliding fee scale is applied to consumers with net monthly income between 100 and 200 percent of the federal poverty level (FPL) to pay toward the cost of service. A small group with income above 200 percent of FPL pays the full rate for services provided. Generally, this is because they benefit from case management and ongoing support and monitoring in addition to the purchased services.

Oregon Project Independence – Medicaid (OPI-M)

To address ongoing waitlists and limits on the numbers of individuals who could be served in OPI, the Oregon Project Independence – Medicaid (OPI-M) program was approved by the Oregon Legislature in 2021 and approved by Centers for Medicare and Medicaid Services (CMS) in February 2024. Funding for OPI-M comes from a combination of OPI and a new appropriation initially authorized in 2021-2023 for family caregiver assistance. Implementation started in June 2024 with the caseload expected to grow over the 2023-2025 and 2025-2027 biennia to approximately 5,000 individuals.

OPI-M is an important in-home services program that:

- Serves individuals with higher incomes and assets than traditional Medicaid.
- Provides similar in-home services to Oregon Project Independence (OPI) program
- Provides family caregiver supports such as respite and training
- Draws down federal funding unlike Original OPI
- Exempts individual's estate from estate recovery unlike traditional Medicaid
- More than doubles the number of individuals who may be served and eliminates OPI waitlists with very little new state General Funds.

With the CMS approval in February 2024, APD is implementing this program in part by transitioning as many individuals as possible from the OPI program to the OPI-M program. Additionally, APD and the Area Agencies on Aging will work to eliminate OPI waitlists and transition individuals who lose eligibility for traditional Medicaid to OPI-M.

Financial support services

APD has financial support programs designed to meet a variety of special circumstances for certain low-income populations. These include:

- General assistance (GA) program – With this program, APD serves individuals with severe disabilities who are experiencing homelessness or who are at risk of homelessness. To be eligible for the GA program, individuals must meet all the following criteria:
    - Be experiencing homelessness or at risk of experiencing homelessness.
    - Be an adult, age 18-64, with no minor children living with them.
    - Have a severe disability that meets Social Security disability criteria.
    - Be eligible for Presumptive Medicaid medical assistance.
    - Meet all eligibility criteria for Supplemental Security Income (SSI).
    - Apply for SSI and appeal any denials received; and
    - Sign an Interim Assistance Agreement (IAR), allowing ODHS to recover GA funds paid to them once awarded SSA benefits.
    - General assistance program benefits include up to $615 per month in housing assistance, $103 in utility assistance per month, $69 in cash assistance per month, and free assistance with the Social Security application and appeals process.

- Cash payments – special needs – APD is required to meet maintenance of effort (MOE) payments for older adults and people with disabilities who have lower incomes and receive federal Supplemental Security Income (SSI) benefits. These benefits are focused on payments that allow consumers to maintain independence and mobility in a safe environment. Examples of special needs payments include help for non-medical transportation, repairs of broken appliances such as a furnace, or for such things as adapting a home's stairs into a ramp.

- Employed Persons with Disabilities Program (EPD) – This program allows people with a disability to work to their full extent and not lose Medicaid coverage. To be eligible, a person must be deemed to have a disability by Social Security Administration criteria, be employed and have adjusted income of less than 250 percent of FPL. Eligible individuals pay a monthly participation fee and are eligible for the full range of Medicaid benefits and services.

- Other benefits – In addition to Medicare, consumers often need help accessing other programs for which they are eligible. APD determines consumer eligibility and submits consumer data to CMS for two Medicare-related programs: Medicare buy-in and Medicare Part D low-income subsidy. APD serves more than 175,000 consumers in these two programs. These programs

help low-income beneficiaries with their cost-sharing requirements. Securing this coverage also ensures Medicare remains in a "first payor" status, ultimately saving the state's Medicaid program significant money.

Social Security Disability Determination Services

APD determines eligibility for Social Security Disability and Supplemental Security Income benefits on behalf of the Social Security Administration. In the 2024 federal fiscal year, 32,117 cases were adjudicated. The total number of cases was affected by an SSA moratorium on claims. In 2023, 44,050 cases were adjudicated.

Oregon Brain Injury Program

APD launched the Oregon Brain Injury Program in Spring 2025. The program helps individuals with brain injuries navigate and access the services and supports available to them. Services are free and available to anyone in Oregon affected by a brain injury, including family members or others seeking information.
Free help is available through a toll-free phone line at 1-833-685-0848 that accepts calls Monday through Friday, from 8 a.m. to 5 p.m. Services provided include:

- One-on-one, free and confidential support.
- Personalized referrals to resources specific to brain injury recovery and management.
- Comprehensive resource information to help navigate available services and options.

The Brain Injury Program serves people with brain injuries through four key areas:

- Advocacy: Helping people advocate for their needs and access essential supports.
- Options Counseling: Offering guidance on understanding and comparing available services and programs.
- Resource Navigation: Connecting individuals to the right resources, whether medical, therapeutic or social.
- Service Coordination: Facilitating connections between different service providers to ensure coordinated care and support.

Program Design **–** APD programs are supported by a variety of staff and services. These include:

- Central leadership and administration
- Medicaid eligibility and federal waiver administration
- Development and maintenance of policy and administrative rules
- Training and technical assistance for local office staff
- Oversight of licensed care facilities
- Ensuring Medicaid provider enrollment
- Support and leadership for various advisory councils.
- Administration of the Older Americans Act
- Oregon Home Care Commission.

Program Delivery **–** Direct services to Oregonians are provided through:

- Direct service staff located in local offices throughout the state
- Case management
- Presumptive Medicaid Disability Determination Team
- State Family/Pre-SSI
- General Assistance
- Disability Determination Services
- Provider payments and relations
- Adult Protective Services investigations
- Adult Foster Home, Nursing Facility and Community Based Care licensing
- Long term care referral services registry.

Eligibility and case management services are delivered throughout the state by APD and Area Agency on Aging (AAA) employees. ORS Chapter 410 allows AAAs, run by governmental entitites, to determine which populations they wish to serve and which programs they wish to administer. Type B Transfer AAAs choose to provide Medicaid services in addition to Older Americans Act and Oregon Project Independence services. In areas where the AAAs (Type A - AAAs) do not

provide Medicaid services, APD has local offices to serve older adults and people with disabilities.

APD and AAA case managers perform a variety of roles in serving older adults and people with disabilities and are the front line in protecting individuals from abuse and neglect. They determine eligibility for long-term services and supports and assist individuals in developing person-centered service plans, accessing supports through APD and other programs, and finding qualified providers. They also address issues and concerns regarding providers and act as advocates and champions for consumer rights.

APD case managers face increasingly complex work. APD has implemented Waivered Case Management expectations requiring monthly contact on every case to ensure the health and safety of individuals receiving services. Due to changes to the Fair Labor Standards Act, APD added more responsibilities on working with homecare workers, including managing hourly caps, limiting overtime, and ensuring access to adequate services. Based on federal expectations, APD has also increased expectations related to person-centered planning and ensuring individuals' safety. Legal requirements have made notices more complex and detailed, requiring more case management time to issue eligibility related notices.

In addition, a new CMS Rule, Ensuring Access to Medicaid Services (CMS-2442-F) finalized on April 4, 2024, will have significant impacts on APD, including:

- The requirement to develop new advisory councils and minimum requirements for advisory committee membership,
- Strengthened oversight of person-centered service planning,
- Stronger requirements for critical incident reporting,
- Creation of a new grievance system,
- Increased public reporting on compensation to direct care workers, and
- In six years, a requirement that a minimum of 80 percent of Medicaid payments for services be spent on compensation for direct care workers, and a requirement for public reporting of quality, performance, and compliance measures.

History

During the past 40 years, there has been a profound shift in society's understanding of the importance of supporting the independence of older adults and people with

disabilities. Traditionally, states provided services in institutional settings such as nursing facilities. Oregon's first nursing facility opened in the 1940s. With the passage of the federal statute creating Medicaid, the state began to pay for nursing facility services for eligible individuals in the 1960s.

The Older Americans Act, also passed in the 1960s, has gradually expanded additional protections and services to vulnerable older adults, including access to home-delivered meals, senior centers, transportation, family caregiver support and legal services as well as support through the Office of the Long-Term Care Ombudsman to uphold rights and resolve complaints.

As professional standards and public thinking about how to best serve people with disabilities began to change, community living options became more accessible. Leading the nation in the 1970s, Oregon developed legislation that recognized the importance of assisting older adults in maintaining their independence and honoring their inherent dignity. Later, on a national level, the Americans with Disabilities Act strengthened and expanded civil rights in the areas of employment, public accommodations, transportation, and housing. As accessibility increased, the right to community integration became more attainable for individuals with disabilities and families had more options for members to be able to receive needed supports at home.

Federal dollars to fund Medicaid waivers first became available in 1981 for Home and Community-Based Services. That same year, the Oregon Legislature updated its policies around disabilities and found that significant numbers of people with disabilities lived in institutions because adequate community services did not exist. The legislature mandated that the state work to empower people with disabilities, keep them as independent as possible and develop service settings that were alternatives to institutionalization. The 1981 Oregon Legislature also created the Senior Services Division and a strong statutory mandate to support older adults in their own homes and community settings outside of institutions. This action forged the way for Oregon to lead the nation in the development of lower-cost alternatives to institutional care.

In response to that mandate, Oregon applied for and received the first home and community-based services waiver that allowed Medicaid funds to provide long-term services outside an institution. Throughout the 1980s and 1990s, Oregon received waivers that allowed services for unique groups of people. For Medicaid-

eligible older adults and people with disabilities in Oregon, this has meant that the provision of long-term services and supports has, in large measure, shifted away from nursing facilities to in-home services, assisted living facilities, residential care facilities and adult foster homes. In 2013, APD worked with the legislature to shift from waivers to a state plan, which allowed the state to gain additional federal funds to support individuals receiving services through the Medicaid program.

Future populations

The aging population is growing rapidly. The number of people 65 and older in the United States is expected to increase to 70 million by 2030, and to 88.5 million ─ or 20 percent of the population ─ in 2050.

The aging population in Oregon will continue to grow dramatically as more baby-boomers reach retirement age. More than 875,000 Oregonians are age 65 and older. By 2030, this population is projected to increase by 12 percent to nearly one million older adults. Those age 85 and older, and most at risk of needing Medicaid long-term care services and supports, are estimated to increase by 60 percent in the next 10 years, according to the Oregon Office of Economic Analysis from approximately 85,000 today to more than 135,000 in 2033.

Guided by the ODHS Equity North Star, APD programs and services continue to evolve through a focus on equity and inclusion for individuals of all races, ethnicities, sexual orientations, gender identities and expressions, disabilities, ages, geographic locations, and Tribal affiliations. By working closely with communities to design and deliver services, APD helps ensure that all of Oregon's older adults and people with disabilities have access to the supports they need to achieve and maintain whole well-being.

Oregon Department of Human Services: Office of Developmental Disabilities Services

---

Program mission
The Office of Developmental Disabilities Services (ODDS), partners and the developmental disabilities community come together to provide services, supports and advocacy to empower Oregonians with intellectual and developmental disabilities (I/DD) to live full lives in their communities.

Program vision
People and families access quality supports that are simple to use and responsive to their strengths, needs and choices while they live and thrive as valued members of their community.

Program values
ODDS fulfills its mission and carries out its responsibilities while adhering to the following values:

- Choice, self-determination and person-centered practices
- Children and families together
- Health, safety and respect
- Community inclusion and community living
- Meaningful employment in an integrated community setting
- Strong relationships
- Service equity and access

Our communities are enriched and strengthened by embracing intellectual and developmental diversity, as every individual has something unique and important to contribute. Individuals with I/DD and their families can achieve their highest potential when their supports are centered on and directed by individuals' unique needs and are flexible, community inclusive, and supportive of the discovery and development of each individual's unique gifts, talents and abilities.

All people with I/DD should have equitable access to the services and supports provided by ODDS and its statewide partners. ODDS is committed service equity

and is guided by ODHS' Equity North Star to create a system that is sustainable, easy to use, effectively communicated and equitably accessible. This includes:

- Engaging people with I/DD, their families and diverse communities to better understand how the system supports them and/or comes up short;
- Reaching out to and prioritizing underserved communities;
- Building partnerships with the Nine Federally Recognized Tribes of Oregon and Indigenous peoples across the state to better support individuals with I/DD;
- Identifying systemic barriers to equitable access and working to remove those barriers to improve outcomes;
- Translating documents into accessible formats and languages spoken by individuals and their families and providing more equitable access to interpretation services;
- Embedding equitable practices at all levels of the service delivery system; and
- Building a Tribal Navigator program.

To realize our service equity values, ODDS is developing a Service Equity Action Plan that guides and supports equity initiatives at the agency, program and partner levels. The ODDS Service Equity Committee and manager are working with ODDS leadership and staff to find ways to remove systemic barriers and to apply best practices. ODDS also has an external service equity committee for its CME partners. Each CME has completed equity assessments and developed action plans and will report progress annually to ODDS. ODDS will develop a third committee for providers, individuals and families.

The realization of our values is built on critical partnerships between the state agencies, local governments, Tribal partners, self-advocates and families, nonprofits, provider agencies and other partners. Guided by these values, we observe that:

- People participate more fully in their communities through our services and advocacy.
- Children with I/DD grow up with the same expectations and opportunities as any child in Oregon.
- People can focus on their well-being while their support workers focus on the demands of providing professional services and supports.
- People are more independent and empowered to achieve their goals and live their best lives as they see fit in their community.

ODDS has also been working to achieve the following goals from its 2018–23 strategic plan:

- Create a system that is sustainable and easy to use with effective communication and equitable access.
- Honor and support people to make their own choices about who they want to be and what they want to do in their lives.
- Support equal opportunity for living options and meaningful employment in an integrated community setting.
- Provide families the amount and type of supports they need to raise their children at home, or when necessary, in another family home within their community.
- Support health and safety while people live rich, full lives.

Our current strategic plan is outdated due to the leadership transition ODDS has been undergoing since fall 2022. ODDS' new interim leadership will be reviewing and updating the strategic plan in partnership with the ODDS Vision Advisory Committee (leaders of key I/DD partner organizations) and the I/DD community.

People served

ODDS serves people with intellectual disabilities (IQ 75 or below) or developmental disabilities such as autism, Down syndrome and cerebral palsy. Some people with I/DD may also have significant medical or behavioral health needs. Most people with I/DD meet Medicaid financial and nonfinancial eligibility requirements and ODDS program requirements. ODDS also serves a small number of children with extraordinary medical needs who do not have I/DD in ODDS' Children's Intensive In-home Services Program and the Children's Extraordinary Need's Program. These criteria will be defined later in this document. All individuals served by ODDS experience disabilities that have a significant lifelong impact on their ability to function independently. Therefore, ODDS' system of supports provides services across the lifespan.

As of June 3, 2024, ODDS serves 36,224 individuals in Oregon, 24,554 adults and 11.670 children.[1] In order to be eligible for ODDS program services and supports, a person must meet financial and nonfinancial eligibility requirements for Medicaid and have at least one of the following:

[1] Source: ODDS data team, June 3, 2024.

- Intellectual disability as determined by IQ with onset before age 18 and limited ability to handle day-to-day activities.
- Developmental disability with onset before age 22 limited ability to handle day-to-day activities.

Additionally, individuals meeting the above-listed criteria must also require the "level of care" provided in an intermediate care facility for individuals with intellectual disabilities (ICF/ID). This means that, if not for receiving services provided through the ODDS program in a home and community-based setting, an individual would reside in an ICF/ID.

Services offered

Oregon's I/DD program services are primarily offered through federal Medicaid home- and community-based services (HCBS) authorities, most of which are through the Community First Choice Option (K Plan). Other ancillary services are offered through six HCBS waivers operated by ODDS. Waiver services are complimentary to and coordinated with K Plan services to optimize choice and offer cost-effective supports based on individuals' functional needs and that meet the goals that are important to each person.

ODDS offers the following home- and community-based services:

- **Case management:** Case management services are delivered using person-centered practices to assist individuals in accessing needed medical, employment, social, educational and other services. Case management services include but are not limited to assessment and periodic reassessment of individual needs and preferences, development, and periodic revision of the Individual Support Plan (ISP), referral and related activities, and monitoring and follow-up activities.

  Under the K Plan and HCBS waivers, through the provision of case management services, eligible persons must receive a functional needs assessment called the Oregon Needs Assessment (ONA). The assessment process includes an individual's case manager gathering person-centered information and the functional needs assessment, which includes risks, conducted by a state-trained assessor or case manager.

  The ONA informs an individual's person-centered planning process. Person-centered means the process is focused on each person's strengths, their

personal goals and outcomes, service needs and risks, and ways they can best integrate into their communities. The planning process results in an annual Individual Support Plan (ISP) that documents the services the person will access in order to meet their goals and needs.

Together, the ONA and ISP inform the types of paid and unpaid services and supports a person receives and the number of service hours available to each person including the rates paid for ODDS-funded services.

- **Attendant care:** Attendant care provides support for people to perform activities of daily living and instrumental activities of daily living (ADL/IADL). This is the primary service available to people with I/DD through the K Plan. Activities of daily living include assistance with bathing/personal hygiene, dressing, eating, mobility (ambulation, transferring and positioning), bowel care and bladder care, stand-by support, cognition, memory care, and behavior supports. IADL supports include light housekeeping, laundry, medication management, meal preparation, shopping, and chore services. This document expands on additional types of attendant care later in the "Services information by settings" section of this document.

- **Other services:** ODDS offers other HCBS Waiver and K Plan services that are meant to increase independence and enhance participation in the broader community. Attendant care can be provided within the provision of these other services. Other services include but are not limited to:
    - *Employment services*: ODDS partners with ODHS Vocational Rehabilitation (VR) and the Oregon Department of Education to offer employment services to help people find and advance in competitive integrated jobs in their communities. Some employment services include benefits counseling, job coaching, Employment Path services, Discovery, small group supported employment, and job development.
    - *Day support activities* include services that support people to achieve their goals related to integration, independence and participation in their communities. These services are often used as a wraparound support to employment and other supports that promote independence and community inclusion.

- *Community transportation*: People who live at home may access community transportation if it's related to a goal or support need. People who live in a residential service setting may access community transportation to get to or from work or day support activities. Otherwise, transportation supports are considered part of the rate for 24-hour services. Community transportation does not include medical transportation.
- *Professional behavioral services* include emergency crisis strategy, proactive strategy, reactive strategy, and recovery strategy that are included in an individual's Positive Behavior Support Plan or Temporary Emergency Safety Plan and delivered by a designated person to assist an individual with challenging behavior.
- *Assistive devices* are any category of durable medical equipment, mechanical apparatus, electrical appliance, or instrument of technology used to assist and enhance an individual's independence in performing any ADL/IADL.
- *Assistive technology* provides additional security to individuals and replaces the need for direct interventions. Assistive technology also allows individuals to self-direct their care and maximizes independence.
- *Environmental modifications for in-home settings* are physical adaptations to the interior of an individual's home that are related to an ADL, IADL or health-related task, or that maximize independence around the home.
- *Environmental safety modifications for in-home settings* are physical adaptations to the exterior of an individual's home to ensure the individual's health, welfare and safety, or maximize their independence around the home.
- *Vehicle modifications for in-home settings* include adaptations or alterations made to a vehicle that is the primary means of transportation for an individual in order to accommodate the individual's service needs.
- *Long-term care community nursing* includes nursing services that focus on an individual's chronic and ongoing health and safety needs. These services include nurse delegation and care coordination for eligible individuals. This service does not include direct nursing care.

- *Direct nursing services for adults* includes the continuous assessment and reassessment of an individual's medical condition, as part of each shift, skilled nursing tasks, nursing interventions, implementation of treatment and therapies, data collection, documentation, written and oral communication with various parties and entities, assuring current physician orders are in place or coordinating this responsibility with the residential provider, and other nursing responsibilities under OAR 851-045-0040 approved by the ODDS.
- *Specialized medical supplies* include, but are not limited to various medical items, such as incontinence, nutrition, and infection control supplies, supplies necessary to the proper functioning of life support equipment, supplies that address physical conditions, and supplies necessary for the continued operation of augmentative communication devices or systems.
- *Family training* includes the training, education or instruction for an individual's unpaid family member to increase the family member's understanding of the individual's disability, how to care for the individual, or how to support the individual at home. Family training occurs at workshops and conferences.

Services information by settings

Individuals receive services and supports in these settings:

- In-home settings
  - One's own or family home
  - ODHS Child Welfare-licensed resource homes (formerly called foster homes)
- 24-hour settings
  - Group care homes for children and adults, including the Stabilization and Crisis Unit homes (SACU)
  - ODHS ODDS-licensed adult and children's foster homes
  - Host Homes for children
  - Supported living for adults
- The broader community
- Employment settings

In all of these settings, a diverse workforce, and the ability to provide linguistically and culturally appropriate services are critical to removing barriers to service access.

In-home services are provided to the majority of individuals served by ODDS. Without these services, many individuals would require much more expensive out-of-home services such as group care or foster homes. Most children and adults living in their own or family homes receive waiver case management services through ODDS' contracted case management entities.

For both children and adults, in-home services are currently provided by personal support workers (PSWs) or by direct support professionals (DSPs) affiliated with Medicaid-certified provider agencies. PSWs are hired directly by the person receiving services or by their employer representative. DSPs are employees of private organizations who contract with the state to provide services.

Individuals who live in their own home or with their family can access a range of additional services (defined in the "Other services" section above) that are needed to successfully support them and to meet their goals and needs. They access these services through the K Plan or a waiver.

Some children receiving in-home services do so through ODDS' *Children's Intensive In-home Services (CIIS)* program. Children enrolled in CIIS receive case management services from ODDS employees. CIIS operates three HCBS model waivers that provide intensive supports to children living in their family home or with Child Welfare resource parents:

- The first program is for children with significant behavioral challenges who, without supports, would require services in an ICF/ID.
- The second program is for children with medical conditions who, without supports, would require services in a nursing facility.
- The third program is for children with intense medical needs. These children are dependent on life support technology such as ventilators that, without these in-home services, would require services in a hospital.

A small number of children receive in-home services through a new HCBS waiver program called the *Children's Extraordinary Needs (CEN) program*. As required by Senate Bill 91, ODDS implemented the CEN program July 1, 2024. This waiver allows children with the highest medical and behavioral needs to receive paid attendant care from their parents or guardians in their family home. The parents or

guardians of enrolled children become DSPs employed by a provider agency. Each enrolled child receives up to 20 hours per week of paid-parent attendant care. The children receive case management services from CIIS or their local CDDP.

24-hour settings provide services to children and adults who, for various reasons, are unable to live at home, on their own or with their family. Adults may also choose to receive services in a *group care home*, I/DD-licensed *foster home* or *supported living service*. Private organizations enrolled with the state as qualified Medicaid providers provide group care home and supported living services. Supported living for adults includes 24-hour services provided in an individual's own home by a provider agency. Adult foster care providers are represented by the Service Employees International Union (SEIU) and licensed by their local CDDP as I/DD providers. Child foster care providers are private providers certified by their local CDDPs as an I/DD children's foster home.

Children with I/DD may enter 24-hour services as a voluntary placement when their needs cannot be met at home. Children may also be placed in these settings when under the care and custody of ODHS Child Welfare. Children under *Child Welfare's licensed resource homes* are considered to be residing in an in-home setting. In these cases, Child Welfare maintains responsibility as guardian of the child. ODDS, CDDPs and I/DD provider agencies provide the services and supports related to the child's I/DD.

The Stabilization and Crisis Unit (SACU) provides 24-hour residential services and day supports to adults and children with I/DD who experience intense medical and behavioral challenges. SACU provide when no other home- and community-based setting can meet an individual's needs. SACU is a safety net for Oregon's most vulnerable individuals with I/DD. This includes persons with I/DD coming out of the Oregon State Hospital or corrections systems, as well as those from crisis situations where counties and private providers cannot meet the needs of the person to ensure health and safety. SACU focuses on supporting people in community-based settings and enabling them to return to less intensive service levels as quickly as possible. SACU provides services in licensed four and five-bed group care homes. Adults residing in SACU receive waiver case management through CDDPs. Children receive waiver case management through ODDS Children's Residential Unit.

General Fund and other funded services and programs

- **Family support services:** These services are available to any family with a child with I/DD who is under age 18 and is not eligible for Medicaid. This is a state General Fund program that offers minimal support services with the most common request being for respite care.

  All children in this program have case managers through their county CDDP and state-funded services are allocated based on need. Most participating children are also in school programs and the case manager coordinates between school and home. Family support services can be more cost effective by allowing the family to support the child with a small amount of funding, without accessing Medicaid.

- **Oregon Council on Developmental Disabilities:** The Oregon Council on Developmental Disabilities (OCDD) is an advisory council to ODDS that advances "social and policy change so that people with developmental disabilities, their families and communities may live, work, play, and learn together." (Source: ocdd.org) ODDS and the council work together with other advocacy organizations to advance the rights of people with I/DD, their families and support staff and to advance awareness of and equitable access to Oregon's system of I/DD services and supports. OCDD provides funding and staff support to the Oregon Self-Advocacy Coalition (OSAC). The council receives its funding from the ODHS/ODDS budget.

- **Family networks:** The Oregon Consortium of Family Networks (OCFN) are family-driven networks that provide training, information, referral and general support. The networks support families in their own communities. OCFN states that it, "believes in supporting families to have a vision for a whole life for themselves and their children, to use services effectively, and to develop natural support in local communities." (Source: ocdd.org) All families are welcome to join the networks, which are committed to honoring diverse voices and are expanding supports in Oregon's growing Spanish-speaking community. The Oregon Council on Developmental Disabilities provides the networks with funding and staff support.

Program design and delivery
ODDS programs are supported by central office staff and services. Central operations provide strategic planning, program funding, policy development, service equity initiatives, general oversight and technical support to community services as well as support and leadership for various advisory organizations.

The structure for service delivery and design includes a central program administration office within ODHS, and case management entities (CMEs), including Children's Intensive In-home Services (CIIS), Children's Residential Unit (CRU), community developmental disabilities programs (CDDPs) and brokerages.

- CIIS supports children with intensive needs who live in in-home settings.
- CRU supports children residing in group care home settings, including SACU.
- There are two types of contracted CMEs:
    - CDDPs support children and adults regardless of setting, and
    - Brokerages support adults in in-home settings.

CIIS, CRU, and contracted CDDPs are responsible for I/DD eligibility determination and redeterminations, protective service investigations, and foster care licensing and reviews. After their eligibility is established through the CDDP, adults who live in in-home settings can choose to be served by the CDDP or by a brokerage. Brokerages provide case management services, including assessment and service planning for adults in-home. A functional needs assessment ― the Oregon Needs Assessment (ONA) ― determines a person's level of need and the amount or rate of services to meet that need. A services coordinator (SC) or personal agent (PA) then works with the person, their family and others important in the person's life to complete an Individual Support Plan (ISP) and a Career Development Plan (CDP). They then work with the person to identify necessary supports required to meet the needs identified through the assessment and the goals identified in the ISP and CDP. SCs and PAs provide referrals to providers and other resources necessary to meet the person's needs. SCs and PAs continuously monitor the individual's ISP implementation, their satisfaction with services and supports, and the plan and services in place to ensure the person's health and safety.

ODDS provides regulatory oversight and assures that provider agencies and CMEs adhere with federal and state requirements via the following units:

- **The ODDS Quality Improvement Unit** is responsible for coordinating quality assurance and quality improvement for I/DD services, including:
    - Regular quality reviews of brokerages, CDDPs and CIIS.
    - Oversight of licensing activities.
    - Coordinating with abuse investigator specialists and the Office of Training, Investigations and Safety (OTIS).
    - Establishing quality metrics for I/DD programs; collecting and analyzing data to measure overall system performance and inform policy decisions.
- **The ODDS Quality Assurance Unit** conducts field reviews on a two-year cycle at CIIS, the Children's Residential Program and in each CDDP and brokerage. The reviews are focused on meeting the Centers for Medicare and Medicaid Services' (CMS) assurances using performance measures approved by CMS and ensuring compliance with specific program administrative rules and procedures. The reviews help ODDS identify program-specific strengths and areas requiring improvement. The reviews inform the training and technical assistance we provide to CIIS, Children's Residential Services, CDDPs and brokerages. The reviews help us identify common trends across the state areas in need of systemic change, improvement, implementation of best practices and training.
- **The ODDS Licensing Unit** is responsible for licensing and ensuring the quality of care in programs that serve persons with I/DD. This includes the licensing of adult foster homes and 24- hour residential care facilities. The unit is responsible for the Medicaid-agency certification of partner agencies and the endorsement of 24-hour residential programs, supported living programs, community living supports, direct nursing supports, professional behavior services, employment services and host homes. It also certifies support service brokerages and child foster homes. Through licensing and certification, the Licensing Unit ensures providers of services comply with requirements for federal and state reimbursement. The unit also conducts complaint investigations and determines necessary corrective actions, such as civil penalties and revocation of a license or certificate.

Future trends

Oregon is recognized nationally as an innovative leader in developing community-based services for persons with I/DD. ODDS and its partners take a self-directed, family-involved, individually focused, culturally appropriate and sustainable approach to service. Oregon is one of the few states that have no state- or privately-operated, institutional-level services specifically for people with developmental disabilities. Ongoing input from our partners both nationally and in Oregon indicates that the number of people with I/DD-related needs is growing. As of June 3, 2024, ODDS served 36,224 individuals with I/DD compared to 21,294 in July of 2013 when the K-Plan was implemented. Since then, I/DD system has experienced 70 percent growth in total enrollment.[2]

We are also observing significant growth in the number of provider agencies and 24-hour residential providers, which, since 2020, have experienced average annual growth rates of 25 and 20 percent, respectively.

Cumulative new I/DD providers by year						
Provider type	2020	2021	2022	2023	As of March 2024	Average annual % growth
Agencies	374	489	636	823	855	25%
Residential	827	967	1177	1422	1498	20%

(Source: ODDS Licensing Unit)

Using the same average annual growth rates as above for 2024, we anticipate there will be 215 new agency providers and 300 new residential providers in 2024. However, based on the pending number of applications as of March 2024 (145 and 136, respectively, according to the ODDS Licensing Unit), we expect the 2024 growth rates to be much higher than 25 and 20 percent.

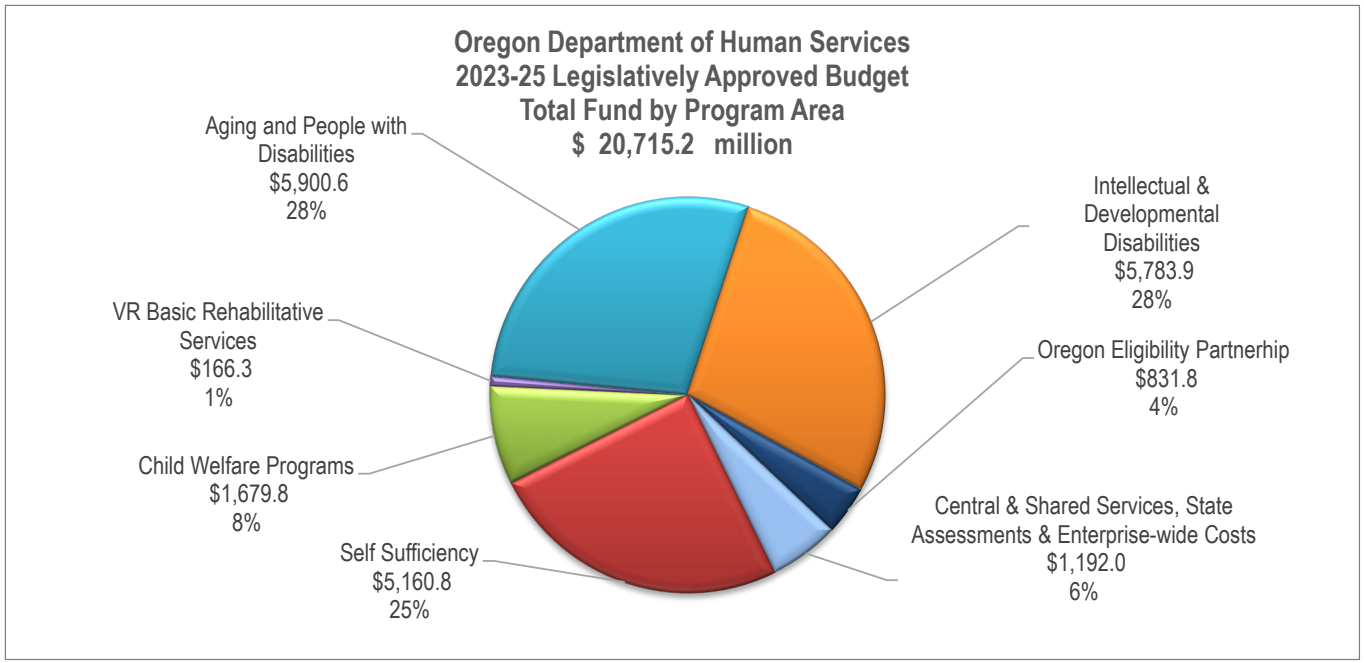
Efforts to ensure the long-term sustainability of ODDS' programs, services and oversight responsibilities are essential to meet the growing needs of Oregon's I/DD community. The staffing capacity of ODDS' regulatory and licensing team must keep pace with the increased number of new agencies.

[2] Source: ODDS data team, June 3, 2024.

ODDS is committed to providing choices for individuals to choose a living setting that is right for them and helps them achieve their goals. To reach underserved and underrepresented communities, we must continue our efforts to build a diverse workforce capable of delivering linguistically and culturally agile services. To do this, we are working to ensure capacity and staffing within its existing care settings and programs. One such effort is Impact Oregon, a website that connects job seekers with careers in Oregon's I/DD system of services and supports.

ODDS has also seen a trend of child foster homes closing. In 2019, there were 223 child foster homes. That number steadily dropped each year. The total number of child foster homes in 2023 was 159, a 29 percent decrease from 2019. This decline limits the out of home service setting options for children to primarily 24-hour residential settings that utilize shift staff, rather than a family-like setting. Additionally, children placed in ODDS-certified child foster homes have not been able to access home modification services. This means children placed in a foster home may not have the accessibilities needed during their stay. Funding home modifications in child foster homes would build more capacity by increasing the pool of providers that have the appropriate home environment to meet accessibility needs. The proposed policy option package (POP), "ODDS Certified Child foster care capacity and accessibility supports," will fund recruitment and development of child foster care providers, including culturally and linguistically specific providers. This will create a more robust pool of skilled child foster providers capable of supporting children who cannot be served safely in their own family homes due to their complex support needs.

ODDS Operations is also modernizing its IT systems to improve and standardize processes for case management entities and the access for individuals and families. This will be achieved with a statewide case management system which will go live in 2025. ODDS is also adding a new IT system for enrolling and maintaining providers. This will be implemented in two phases; phase 1 will be agency providers and foster care providers to replace the ASPEN system and phase 2 will be personal support workers, homecare workers and personal care attendants. The first phase will go live in fall of 2024. The current eXPRS system allows CMEs to enter service authorizations for individuals, which allows providers to bill and receive payment. Operations is also responsible for contracting, including the contracts and grants currently involved with ARPA, auditing the financial impacts of a completed contract or grant and reviewing other contract obligations, enrolling PSW providers, and providing technical assistance to all CMES and providers.



Oregon Department of Human Services
Oregon Eligibility Program

Program Overview

There are core needs every person must address to thrive in our communities. Sometimes when an individual or family's circumstances change, they need help with basic supports to get through the bumps in the road on their way to well-being. Oregon Eligibility Partnership (OEP) provides medical, food, cash, and childcare benefits to over one in three people in Oregon. OEP is dedicated to coordinating access to these essential services, on behalf of the Oregon Health Authority (OHA), Department of Early Learning and Care (DELC), and Oregon Department of Human Services programs (ODHS), so people receive the supports they are eligible for and can move forward on their journey to well-being.

OEP prioritizes accuracy, timeliness, service equity, and quality customer service for those seeing medical, food, cash, and childcare. To these ends, OEP has established structured governance and processes that unite historically independent programs together to better support individuals and families. OEP is responsible for the oversight, training, systems, and delivery of eligibility for OHA, DELC, and ODHS.

OEP's core responsibility is to make sure eligibility determination happen timely and accurately and that system and supports are available for people in Oregon and staff . The goal is to maintain a customer service experience that is consistent and delivers equitable, prompt and accurate eligibility determinations.

OEP is steadfast in adhering to program eligibility rules and regulations and the service delivery expectations of our federal partners. OEP actively collaborates with partners, community members, and sovereign Tribal communities to address operational impacts and identify opportunities to improve customer service.

To gauge its effectiveness, OEP evaluates customer and staff information through data, both qualitative and quantitative ways.. This assessment includes analyzing relevant performance metrics, which are publicly accessible on our ONE Customer Service Center dashboard.

Equity North Star

The path to OEP's envisioned future is guided by the ODHS Equity North Star, which puts race and intersectionality at the center of our decisions and positions communities as shapers of ODHS policies, programs and delivery strategies. OEP recognizes that solutions must be grounded in the lived experience of families and the balance of decision-making power must be shifted to communities who are most affected. Accordingly, OEP engages community to identify shared concerns and community-driven solutions.

Community-driven accountability mechanisms will create greater transparency and invite disempowered groups to shape the future of the services delivered. Rather than expanding the reach and resources of the agency itself, OEP will invest time, training and other resources in partners who are rooted in community and already performing invaluable work.

Program Goals

Service Delivery Quality and Timeliness

- Stabilize OEP operations as a statewide support system for eligibility.
- Build support systems for statewide delivery through local offices and the virtual ONE Customer Service Center.
- Improve, monitor, and adjust for timeliness, accuracy, and customer service expectations based on KPIs.
- Collaborate with program leadership to address changes, enhancements or new service offerings.
- Implement corrective actions for identified system and systemic issues.
- Analyze and deliver implementation solutions for changing federal policies.

Equity and Engagement

- Enhance engagement with people in Oregon seeking and receiving services, employees, legislature, and community partners and advocates.
- Operate community and staff forums to provide input into our work.
- Identify and address data and gaps to inform engagement strategies.

- Provide diversity, equity, inclusion and belonging (DEIB) education and support.
- Develop solutions to improve accessibility to benefits.
- Connect the customer service model to equity principles.

Work Environment

- Sustain and improve a safe and inclusive work environment.
- Support employee development opportunities.
- Promote workforce diversity and equity.
- Maintain genuine engagement as we grow.

Long Term Goals

- Ensure OEP is accountable to those we serve at every level.
- Fully support state and federal legislation.
- Engage and support social service navigation and people-centered approaches.
- Optimize processes to support economic stability and mobility for people in Oregon.
- Eliminate systemic forms of inequity.

OEP measures its performance through data and information tracking. We have proposed the following Key Performance Measures (KPMs) related to our work:

APPLICATIONS PROCESSED TIMELY Percentage of new eligibility determination requests for Supplemental Nutrition Assistance Program (SNAP), medical, Long-Term Services and Supports (LTSS) and Employment Related Day Care (ERDC) services completed on time in accordance with federal requirements.	95 percent
RENEWALS PROCESSED TIMELY The percentage of renewal eligibility determination requests for SNAP, Medical, LTSS and ERDC services that are received on time and processed with no break in benefits.	95 percent
SNAP APPLICATIONS PROCESSED ACCURATELY The percentage of eligibility determination requests for SNAP services completed accurately.	94 percent
CUSTOMER SATISFACTION WITH ELIGIBILITY SERVICES PROVIDED	85 percent

The percentage of customers receiving eligibility determination services for SNAP, Medical, LTSS and ERDC rating the services as 'satisfactory' or better.	

OEP has internal scorecards available for staff that track key performance indicators. Additionally, OEP maintains an external dashboard with information about applications, medical redeterminations, and call times. We are committed to continually providing transparent data on our customer service, timeliness and quality. OEP believes each number and statistic represents a promise to serve the individuals in this state with integrity and stewardship.

Program – Current State

Oregon Eligibility Partnership was legislatively created within the Oregon Department of Human Services in the 23-25 biennium. OEP spent the last two years bringing staff, positions, and budgets together to create a single, accountable unit for eligibility related to medical, food, cash, and childcare on behalf of OHA, ODHS, and DELC. Prior to this transition, eligibility was being done by multiple divisions, with timeliness for eligibility being in the 70-80% region, wait times averaging 1-2 hours for those calling the ONE Customer Service Center, and error rate for SNAP being close to 23%. In two years, OEP has increased timeliness to above 95% multiple times and the normal range being closer to 85-95%, call wait times averaging closer to 10-15 minutes for eligibility staff within the ONE Customer Service Center, and the SNAP error rate being reduced by over 39% to a current rate around 14%; additionally, statewide processing of applications the same-day or by the next day hit historic marks at above 70% multiple times, and the caseload the OEP is operating is now the highest in the States history. OEP continues to be made up of the following units:

- **The OEP Director's Office** is accountable for the overall direction, prioritization and support for ONE program eligibility operations and the Centralized Abuse Management (CAM) system. This office also oversees the direction within OEP and liaises with partners across ODHS, Oregon Health Authority (OHA) and the Oregon Department of Early Learning and Care (DELC), serving as the single source of direction for ONE program eligibility staff.
- **Business Information Services** holds primary responsibility for Enterprise IT

Solutions that people in Oregon use to access benefits and that staff depend on to support the needs of programs and people. These include the ONE Eligibility system, Centralized Abuse Management (CAM), phones, the Oregon ONE Mobile app, and the Summer EBT system.

- **Service Delivery Supports** provides operational direction, training and change management support to meet the needs of eligibility staff, ensuring timely and accurate eligibility determinations. OEP change management includes a network of staff who provide feedback and help implement local changes. This unit also defines eligibility operational processes and design, communicates with program and policy teams about operational implementation, and supports the statewide delivery of eligibility through the customer service center and local offices. Helpdesk functionality for the ONE Eligibility system is housed within this group, connecting systems and people who use them for a more holistic operational response.
- **Oversight, Quality Assurance and Central Coordination** combine functions intended to provide oversight and ensure quality in specific areas of the eligibility determination process. This includes eligibility hearings, quality assurance, operational analysis, operational data, and key performance measures (KPMs), central coordination (for audits, projects) and Long-term Support and Services (LTSS) eligibility support.
- **Outreach and Engagement** offers OEP a data-driven, strategic direction to eliminate institutional and structural bias and discrimination based on race, ethnicity, language, gender, gender identity, nationality/immigration status, ability, sexual orientation, age, rurality, and religion. This unit develops and leverages community relationships to incorporate individual voices in eligibility operations and the governance of the ONE Eligibility system.
- **Statewide Virtual Eligibility Center (VEC)** manages the ONE Customer Service Center and ensures telephonic eligibility operations are adequately resourced and supported. It also ensures the customer service model, policies, procedures, and practices are implemented and followed.
- **Eligibility Operations** manages eligibility operations, staff, and other resources necessary to OEP staff in storefronts and Area Agencies on Aging (AAA)

operations adhere to the customer service model, policies, procedures, and practices. This section also directs workflow to meet operational objectives and manages several eligibility specialty teams needed to process discrete bodies of eligibility work effectively.

Program – Future State

OEP's core objectives remain steadfast:

- Providing timely, accurate, and equitable eligibility determination services for medical, food, cash, and childcare benefits.
- Ensuring that people in Oregon are central to our operational decisions and process designs.
- Strengthening our relationships and operational processes with partner agencies and programs.

OEP will continue to stabilize operations, in an environment that has some of the most significant changes to policy and accessibility for benefits since welfare reform in the mid 1990's. OEP is working to stabilize operations also during a period of time that we are supporting the highest numbers of individuals in Oregon's history, with more program types than ever before, and with staff funding levels at our lowest amount since statutorily required to provide workload data to the legislature.

As we work through this stabilization and change, we will explore ways to build greater capacity for our staff through technology. Currently, we are staffed at close to 43 percent of what our workload model indicates is necessary. To balance this, we are using technology to automate processes and provide users with options that do not require staff intervention, freeing up staff to assist individuals in applying, reapplying or receiving other necessary assistance.

Though outcomes for timely and accurate eligibility determinations are steadily improving, they are not yet meeting the satisfaction of our federal partners. Our primary strategies include improved focus, training, accountability, and oversight, as well as implementing process and IT system improvements to enhance both timeliness and accuracy. Additionally, we are using a Quality Oversight Board (QOB) with membership from OEP and its partners. This board analyzes, prioritizes,

problem-solves, and makes recommendations to OEP for measurable operational improvements. Our federal partners are closely monitoring this group, anticipating it to be a best practice for other states.

Alongside the necessary forward movement, OEP must emphasize balance and operational stability. OEP and the systems we have deployed are new and require time to stabilize. OEP has not had a stabilization period yet, but we hope to establish one, combined with a methodology that focuses on the fundamentals of our work, to allow systems and the people who use them time to mature.

OEP must prioritize the work of staff and support within allocated and funded levels. To keep up with high demand, OEP continues to authorize regular overtime and is finding ways to leverage resources, allocations, positions and technology to ensure our pillars of customer service, equity, efficiency and consistency are met, and that individuals receive timely services and accurate information.

Service Delivery Structure

The eligibility service delivery structure includes several access points for services and information. Understanding this structure depends on how individuals' approach ODHS, Oregon Health Authority (OHA) and the Department of Early Learning and Care (DELC) for services. The overarching principle is to provide a variety of methods that allow people to engage with us in their preferred way, ensuring a uniform and equitable customer experience.

Local offices

Eligibility for services, requests for replacement EBT cards and proof of eligibility letters needed for other programs are some of the major services provided through more than 80 local full-service, satellite and Area Agencies on Aging (AAA) offices located throughout the state in our 16 districts. The workforce stationed in these offices supports individuals who choose to access services and information by visiting a local office.

ONE Customer Service Center, statewide phone center

For people who prefer to get information or services by phone, the statewide ONE Customer Service Center operates with a fully remote workforce dedicated to answering thousands of calls each day. OEP recently implemented additional

interactive voice response technology to support self-service options, but the current phone system that is being utilized through the State of Oregon is not able to meet current federal requirements and remain stable. Over the last year the phone system or portions of federally required functionality have failed on average multiple times a month. This instability risks individuals being able to timely get access to benefits and federal compliance for Oregon. To mitigate this, Enterprise Information Services, is working on a contractual avenue for agencies to transition to a new platform. In order to maintain compliance, OEP will need to transition Summer EBT Phones and the ONE Customer Service Center phone systems by the end of 2026. To make things more complex, to meet new federal requirements, most likely additional functionality will be needed through phone systems in similar periods of time.

Public information about our call answer rates and survey responses is available on our dashboards at benefits.oregon.gov. The ONE Eligibility system also communicates important information to individuals via text, email and voicemail.

ONE Online

Oregon's ONE Online system supports service applications, renewals, updates, and information requests through a web-based and often fully automated process. Once a person has an account, they can apply for benefits, submit necessary updates and renewal documentation, and view their benefits or the status of their applications. While phone contact may occasionally be necessary to complete the process or clarify information, the use of ONE Online is growing. Surprisingly, a significant number of older adults in Oregon are using ONE Online, challenging the notion that IT-based tools are not readily adopted by this demographic. Notably, 45 percent of people log into ONE Online via a mobile device, which is one of the reasons the department developed a mobile application.

Oregon ONE Mobile App

Like ONE Online, the Oregon ONE Mobile app allows people to engage with ODHS eligibility services from their smartphones. While not all tasks available on ONE Online are currently accessible via the app, more features are being added. The Oregon ONE Mobile app is primarily designed for people who are already approved for benefits, enabling them to manage their benefits efficiently. Through the app,

users can view correspondence, upload documents by taking pictures, find offices, and receive reminders. More than 100,000 people have downloaded the Oregon ONE Mobile app.

Community Partners and Tribes

OEP's relationship with community partners and the Federally Recognized Nine Tribes of Oregon is essential for connecting with and providing services to many hard-to-reach people in Oregon. These partners often serve as the primary contact and trusted source of information for our programs, facilitating assistance for those needing services. OEP has added staff specifically to focus on these relationships, ensuring partners are well-supported and appreciated.

ODHS Policy Option Package (POP) Form

2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	**Office of Aging and People with Disabilities, Safety, Oversight and Quality and Office of Developmental Disabilities Services.**
POP Title	101 - Strengthening Safety and Regulatory Oversight
Related Legislation	Legislative Concept requiring a regulatory review shortly after an APD residential care facility, APD adult foster home, ODDS residential training facility, ODDS residential training home, and ODDS adult foster home has: • Been newly licensed by ODHS or ODDS, or • Had a recent change in ownership. This Legislative Concept would require a regulatory review of these facility types within the following timelines: • 120-day review of APD Residential Care Facilities • 120-day review of APD Adult Foster Homes • 120-day review of ODDS Residential Training Facilities • 120-day review of ODDS Residential Training Homes • 120-day review of ODDS Adult Foster Homes
Summary Statement (5 to 7 sentences)	When community-based facilities and homes that serve older adults and/or people with disabilities are newly licensed or change hands, Oregon Department of Human Services (ODHS) must be able to conduct timely site visits to help ensure licensing compliance and the health and safety of residents. This policy option package (POP) would provide investments to strengthen ODHS' regulatory oversight of newly licensed APD Residential Care Facilities, APD Adult Foster Homes, ODDS Residential Training Facilities, ODDS Residential Training Homes and ODDS Adult Foster Homes. The funding would allow ODHS to review community-based care facilities and homes within 120 days after being newly licensed or after a change in ownership, helping ODHS identify licensing compliance concerns earlier, provide opportunities for proactive technical assistance and support to help facilities and homes correct identified compliance issues, and most importantly, help ensure the safety and well-being of residents, including those receiving Medicaid-funded HCBS services. Without this investment, APD would lack the staff necessary to conduct timely site visits when facilities are newly licensed or change hands, which could contribute to a continued increase in licensing and abuse complaints and hinder APD's ability to meet CMS HCBS safety requirements. Additionally, a lack of investment here may perpetuate an evolving narrative and public perception that ODHS regulatory oversight is ineffective and is unresponsive to safety concerns that have received wide publicity.

	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE

ODHS 2025 POP Long Form

Part 1. SETTING THE STAGE

1. Briefly describe the **core value(s)** driving this POP. In the big picture, why does it matter?

- **Safety and Wellbeing:** ODHS prioritizes safety and wellbeing of individuals receiving intellectual and developmental disability services and older adults and people with disabilities.
- **Regulatory Oversight:** ODHS regulates community-based care facilities and homes to ensure that residents are safe and have adequate care. However, there are a growing number of new licensees opening community-based care facilities and homes. Because many of these licensees have not operated facilities or homes previously, enhanced oversight is needed to ensure these facilities are well-operated and do not put residents at risk. This proposal would help ODHS ensure facilities are operating effectively.
- **Federal Compliance:** The Centers for Medicare and Medicaid Services (CMS) requires states ensure provider qualifications to deliver Medicaid funded Home and Community Based Services (HCBS). CMS also requires states ensure the health and safety of individuals receiving Medicaid-funded HCBS services.

2. Describe the **problem/s or opportunity/ies** this proposal would address.
More people and entities are entering the community-based care market without prior experience operating facilities or homes. At the same time, residents entering these settings are becoming more medically complex. ODHS needs to take steps to assist these new facilities and homes through the provision of initial and ongoing assistance to help new facilities and homes to succeed.

Current state statutes and administrative rules require a person or entity to obtain a license to operate a community-based care facility or home prior to residents moving in, but there is often a substantial gap between the license being issued and ODHS staff visiting the facility to ensure proper management.

This POP addresses five types of facilities regulated by ODHS:

- APD residential care facilities include assisted living facilities and memory care facilities that house six or more individuals.
- APD adult foster homes house five or fewer older adults or people with physical disabilities in a home-like environment.
- ODDS residential training facilities are 24-hour group homes housing six or more individuals with intellectual and developmental disabilities.

- ODDS residential training homes are 24-hour group homes housing five for fewer individuals with intellectual and developmental disabilities.
- ODDS adult foster homes house five or fewer individuals with intellectual and development disabilities in a home-like environment. The current state statute and administrative rules allow for:
- A two-year license for APD residential care facilities (RCF), including assisted living facilities and memory care communities.
- A one-year license for APD adult foster homes (AFH).
- A two-year license for ODDS residential training facilities (RTH).
- A two-year license for ODDS residential training homes (RTH).
- A one-year license for ODDS adult foster homes (AFH).

ODHS licenses a facility or home prior to residents moving in. However, ODHS may not review the home again until one year (AFHs) or two years (RCF, RTF, RTC) later, when the first licensing review is due. Consequently, ODHS may not become aware of compliance and safety concerns of a newly licensed facility or home (including facilities or homes that have had a change of ownership) until a licensing or abuse complaint has been reported or a resident has been harmed.

The Department is seeing an increase in licensing and abuse complaints across all community-based care settings; we believe this increase is due, in part, to the lack of experienced licensees. This will continue to be exacerbated by the rapid rate of growth in community-based care settings.

In 2022, ODDS triaged 432 concerns reported by various partners and community members. In 2023, ODDS triaged 673 concerns. ODDS continues to see this increase due to the enormous provider growth over the last 3 years and the lack of experienced providers.

In 2022, APD triaged 8602 concerns reported by various partners and community members. In 2023, APD triaged 10,931 concerns. APD continues to see this increase due to provider growth and the lack of experienced providers.

Requiring a regulatory review shortly after (e.g., within 120 days) a facility or home has been newly licensed would allow ODHS to be proactive and review performance soon after residents have moved into the new facility or home. This initial review would allow ODHS to identify licensing compliance concerns, particularly those posing health and safety risks to residents and staff, much earlier in the process. This would allow ODHS to assist the licensee with preventative corrective action early in the life of the license, thereby avoiding later problems.

3. What **data** tells you that this problem/opportunity exists? Please be specific and provide data sources.

Please note in Multnomah County, both APD and ODDS AFH's are licensed by the county. The staffing numbers are included below.

The following numbers include licensing **totals for new licenses and CHOWs during the last four years**:

- 159 = total number of newly licensed facilities in APD RCFs, with an average of 40 per calendar year.

- 545 = total number of newly licensed homes in APD AFHs, with an average of 136 per calendar year.
- 930 = total number of newly licensed facilities and homes in ODDS RTFs/RTHs, with an average of 233 per calendar year.
- 255 = total number of newly licensed ODDS AFHs, with an average of 64 per calendar year.

Numbers of substantiated licensing and abuse investigations related to new licenses:

- 315 = total number of investigations for RCFs, with an average of 79 per calendar year.
- 3,991 = total number of investigations for AFHs, with an average of 998 per calendar year.
- 1,640 = total number of investigations for ODDS RTFs, RTHs and AFHs, with an average of 410 per calendar year.

Number of additional reviews needed to meet ODDS anticipated growth rate:

2024 monthly inspections	2025 monthly inspection estimate	Permanent FTE current capacity per month	Capacity with POP request per month
174	295	90	180

4. Is this POP, in whole or in part, a response to an **audit?** Explain.

   No, this POP was not the result of an audit. However, as the number of licensing and abuse complaints increase, there is increased pressure on the Department's capacity to meet state and federally required timelines for response and investigation of complaints. In addition, there is increased concern regarding resident safety amid the increased complaints, and growing demands from residents, families and advocates to strengthen ODHS's regulatory oversight.

5. What has **already been done** to address or mitigate the problem/opportunity?

   To provide earlier feedback to homes, ODDS has been conducting some regulatory reviews of new Residential Training Facilities and Residential Training Homes within 120 days of opening new homes. While there are preliminary positive results, ODDS needs additional resources to continue to meet this review deadline. Training requirements have also been recently enhanced for direct care workers.

6. What are the **risks** if the problem/opportunity is not addressed?

   - There is a risk to resident safety when new providers open their doors, but don't yet know how to effectively manage a facility or home.
   - If a new owner or administrator does not know how to run a facility, workforce turnover and workforce shortages due to lack of training and support to meet the complex care needs of residents is a real risk.

- If a facility is not managed well from the beginning, this can result in loss of bed capacity overall.

7. What solution are you proposing through this policy option package (POP)?

   This POP proposes to increase staffing to allow licensing staff to visit each facility and home within four months of opening to ensure community-based care facilities and homes are functioning according to regulation. This POP will also provide training resources for licensing staff and providers to support consistency in application, interpretation of and compliance with regulatory rules. In addition, the POP would provide sufficient resources to ensure timely processing of 120-day reviews, needed training and technical assistance to support provider compliance with regulatory policy and rules, corrective action oversight, quality assurance and data collection.

   To conduct these visits and track information related to new facilities and homes additional staff are needed, as follows:

   For APD:
   - 4 Client Care Surveyors (for CBC Survey)
   - 1 Administrative Support 2 (for CBC Survey)
   - 1 Compliance and Regulatory Manager 1 (for CBC Survey)
   - 1 Compliance Specialist 3 (for CBC Corrective Action)
   - 2 Operations Policy Analysts 2 (CBC Licensing Coordinators)
   - 2 Operations Policy Analysts 3 (CBC Policy)
   - 1 Compliance and Regulatory Manager 1 (for CBC Policy)
   - 3 Compliance Specialists 2 (APD AFHs)
   - 1 Operations Policy Analyst 2 (APD AFH Licensing Coordinators)
   - 1 Program Analysts 3 (QA review for CBC/AFH program)
   - 2 Learning and Development Specialists 2 (for CBC/AFH program)

   For ODDS:
   - 6 Client Care Surveyors (for ODDS RTHs/RTFs)
   - 2 Administrative Specialists 1
   - 1 Compliance and Regulatory Manager 1
   - 1 Program Analysts 2 (for ODDS QA review for AFH program)

8. What **alternative solutions** were considered and what were the reasons for selecting your solution?

   We considered submitting the Legislative Concept without requesting any financial investment. However, this option is not preferred because the implementation would increase workload without providing sufficient staff resources. Consequently, this would not meet the desired outcome of improved resident safety or provider compliance.

   We considered conducting 120-day reviews without adding staff or changing statutes. However, implementing 120-day reviews will increase community expectations regarding regulatory oversight of licensed facilities and homes. Without added resources the

likelihood of successfully implementing 120-day reviews is reduced. In addition, we believe licensed facilities and homes will question the authority to conduct the reviews.

Furthermore, without additional staff resources the increased workload poses challenges and burdens for the ODHS staff responsible for overseeing licensed facilities and adult foster homes, especially those represented by a union.

9. Has the proposed solution been successful in **other contexts or jurisdictions?** Alternatively, if there is no precedent, explain why you believe this concept will achieve its aims here in Oregon.

   Although we are not aware of any precedent, assigning licensors to assist licensees in their first year of operation will have a positive effect. AFH statute states that providers have the burden of proof in the first 24 months to show that they can remain in substantial compliance, and after, that the burden of proof is on ODHS to demonstrate homes are out of compliance. With proactive licensing review during the first year of operations, we expect facilities and homes will be more successful and will experience fewer licensing violations and complaints during initial years of operation.

   To provide earlier feedback to homes, ODDS has been conducting regulatory reviews of some new Residential Training Homes within 120 days of opening these new homes. Due to large numbers of new homes each year, the program has focused on the 120-day review for new homes proposed by existing licensees. The preliminary positive result for this sample group is that ODDS has identified compliance issues early, preventing a downward regulatory spiral.

   ODDS needs additional staff to meet this review deadline for all RTHs given the provider growth. ODDS increased its provider agencies from 351 in 2021 to over 855 in 2023. It's residential training homes have increased from 827 homes in 2021 to 1498 homes in 2023. This extensive growth has limited ODDS's ability to do 120-day reviews without administrative rule changes and staffing resources. This example has been working, but ODDS cannot continue to meet this need without the current limited duration staff made permanent.

10. Does this POP require a **new statute or changes to existing statute(s)?** If so, have you completed the Legislative Concept request form for statutory changes?

    The RCF and APD AFHs could initiate an early inspection program without a legislative change. However, putting this requirement into statute would reduce potential push back from facilities and may make compliance easier to achieve. ODDS would require new statutory language to enact this change for Residential Training Centers.

    See associated Legislative Concept request form for recommended statutory changes to ORS 443.416, ORS 443.755 and ORS 443.735.

Part 2. **EQUITY AND INCLUSIVITY**

1. How will this POP **address inequities** faced by impacted communities?

   Increasing the frequency of licensing inspections addresses inequities faced by impacted communities by providing more consistent oversight and accountability within care facilities.

   Communities that have historically experienced disparities in access to quality care, such as low-income neighborhoods or marginalized populations, often bear the brunt of inadequate oversight and substandard conditions in care settings. By conducting inspections more frequently, this policy ensures that any issues or violations are identified and addressed promptly, mitigating the potential harm experienced by these communities.

   Additionally, the increased visibility of inspections can empower residents and advocacy groups to hold facilities accountable for providing equitable and culturally competent care, ultimately contributing to a more just and inclusive healthcare system.

Part 3. **MEASURING PERFORMANCE**

1. Which of your **key performance measures (KPMs)** is this POP connected to?

   <u>These are proposed amended KPMs for the 2025-2027:</u>
   KPM #3: TIMELY APD ABUSE INVESTIGATIONS - The percentage of abuse reports assigned for field contact that meet policy timelines.

   KPM #4: SAFETY IN OREGON's LICENSED LONG TERM CARE FACILITIES – Percentage of Long-Term Care Facilities without Level 3, 4 or Immediate Jeopardy (IJ) licensing violations.

2. If none, are you proposing a **new or modified KPM?**

   Not applicable.

3. How will the work you're proposing help ODHS meet or exceed the **KPM targets?**

This new proposal would help to reduce the number of overall APS investigations because issues will be detected earlier in the operation of the facility or home. Consequently, the remaining APS investigations will be timelier because there are fewer investigations in the queue, improving the targets for KPM #3. Likewise, KPM #4 targets should also improve, because there should be fewer facilities with high levels of harm.

4. What are the envisioned **outputs** of this POP?

There are two primary key measurables that will demonstrate success of this program:

1. Count the number of substantiated abuse allegations and number of substantiated licensing allegations for new facilities and homes and compare data from earlier years to the same data after implementing this new program.

2. Measure the number of substantiated complaints for new facilities and homes and compare them to the number of substantiated complaints for established facilities and homes.

For all five license types, the measurable information to be tracked would include:

- Number of new facilities opened during the calendar year.
- Number of new Change of Owners (CHOWs) during the calendar year.
- Timing for the initial visits to each new facility or home (I.e., are we able to visit each new facility within the 120-day deadline).
- Number of substantiated abuse allegations for new facilities opened during the calendar year.
- Number of substantiated licensing allegations for new facilities opened during the calendar year.

5. **Outcomes** show how people are better off because of the outputs you listed above. What are your expected outcomes?

Expected Outcomes:

- The primary measurement for success will be improved safety of residents during the first year of operation of new facilities. This can be measured by counting the number of substantiated complaints for new facilities and homes and comparing those numbers to the historical number of substantiated complaints for new facilities and homes.

- As proposed, it will be useful to gather the following data for new facilities and homes following the first year of operation:
  - Number of substantiated abuse investigations; and
  - Number of substantiated licensing complaints.

6. How will you **collect the data** you need to measure the success of this solution? Is this data currently being collected? Have you engaged ORRAI to discuss elements needed to plan for data gathering?

- Corrective Action and Licensing Mgmt. System (CALMS) and Centralized Abuse Management (CAM) system will be used to collect the data, as they are currently
- We have been working with the BOTS program to gather the data from CALMS and ASPEN, to determine the number of cases that would be affected by this new process.
- APD and ODDS will track compliance data for new facilities and homes and record all information related to this new program.

7. To achieve optimal data collection, would you need to make **changes to your case management system?** Describe.

No, currently we do not anticipate needing changes to the case management system.

Part 4. **IMPROVING CUSTOMER SERVICE**

1. Discuss the ways this POP will **improve customer service**.

   This proposal will improve customer service because facilities and homes will receive feedback concerning their operational performance much sooner after initial licensure, with the department conducting an initial review within four months after opening. The intent is to provide feedback early, to promptly address any issues, and to allow facilities to correct potential problems early.

   More importantly, this POP will support new licensees to provide quality care and services to individuals residing in their licensed facilities and homes and promote an environment that is safe.

2. Will your solution require an IT investment? Explain.

   We do not anticipate that this proposal will require an additional IT investment. Our expectation is that our current CALMS, CAM, and ASPEN programs can be used to meet this timeline.

Part 5. **IMPLEMENTATION**

1. If the legislature allocates funds for the proposed POP, how specifically would we **use the money to implement it?**

   This POP will ensure strengthened regulatory oversight and support for new licensees and owners. Staff will provide increased attention on assuring facility standards promote a homelike, safe and secure environment that supports and enables residents in maximizing their abilities, enhancing dignity, independence, individuality and their decision-making ability. Strengthened regulatory oversight will include:

   - Enhanced review of new provider applicants and administrators.
   - Increased provider and licensor training and policy, rule technical assistance.
   - Increased surveyor and licensor positions to complete 120-day review, evaluation, of new and new ownership facilities.
   - Quality assurance oversight to ensure systems and resources that are implemented are meeting required timelines for licensing, survey, licensing complaints, new provider qualifications.

Adequate manager supervision supporting the 1:12 supervisor to staff ratio.

2. What are the biggest potential barriers or risks to successful implementation?

   The biggest potential barrier is the time and funding required to change state business and training practices. It takes time to implement any change and then to evaluate the effectiveness of this change.

APD is working with Human Resources to review and expand the Client Care Surveyor classification family. For example, establish a Client Care Surveyor 3 classification to help support recruitment, compensation, and retention of RN level surveyors. This could impact one of the four CCS2 positions we are requesting as we are striving to have 1 RN in a team of 4 surveyors.

3. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?

   This proposal affects two programs within ODHS - APD and ODDS are both involved.

   The statutes to be edited also affect OHA. OHA intends to join this process and make the same changes to their program that are being proposed here for ODHS.

Part 6. **BUDGET**

1. Are there **prior investments** allocated for this policy package?
   - No, there has not been a previous identical policy package.
   - However, we have submitted a previous successful funding package that focused on increasing the number of Community-Based Care surveyors. (See 2007-09 ODHS POP #106).
2. What **assumptions** affect the pricing of this policy package?

   - The number of staff needed and the appropriate level of those staff.
   - The staffing position levels will be different for the AFHs, as compared to the RCFs and RTFs. For the RCFs and RTFs, Client Care Surveyors are the correct staff positions to review the facilities, while Licensors are the correct staff level for all AFHs and ODDS RTHs.

3. Will there be **changes to caseload, cost per case or services provided** to specific populations? Explain.

   Not applicable.

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.

   Each of the five programs discussed in this proposal are requesting staff:

APD Positions:

- Four Client Care Surveyors for APD RCF programs to support the 120-day reviews
- Three Compliance Specialists 2 (licensors) for APD AFH program to be based out of APD Central office to support 120-day reviews.

- Three Operations and Policy Analysts 2 (to serve as licensing coordinators) for APD- APD currently uses Administrative Specialist 2 to help process new licensing applications and licenses, but position does not complete the needed research and analysis of applicants to ensure only applicants who are qualified and have demonstrated performance history (when applicable) are issued licenses. The OPA2s will support CMS compliance and increased expectations to complete thorough reviews of new applicants, including changes in ownership.
- Two Operations and Policy Analysts 3 for CBC Policy and Provider Support to assist currently licensed as well as newly licensed facilities with policy and OAR technical assistance, regulatory compliance, and corrective action monitoring.
- Two Compliance and Regulatory Managers 1 for APD CBC Survey Team- with the increase in Client Care Surveyors, another Manager position is needed to align with 1:12 supervisor to staff ratio. The second manager position is needed for the CBC Policy team. With the addition of 4 OPA positions to this unit, an additional manager is needed to align with 1:12 supervisor to staff ratio.
- One Compliance Specialist 3 for CBC Corrective Action Unit to support an anticipated increase in Corrective Action needed because of 120-day reviews and subsequent licensing visits for more serious violations.
- One Administrative Specialist 2 for CBC Survey Unit to support data collection, analysis and reporting of survey findings and outcomes, including 120-day review outcomes.
- One Program Analyst 3 for Safety, Oversight and Quality Operations team to provide CBC and AFH program evaluation and quality assurance. These staff will review and analyze performance data for CBC survey, AFH licensing, and licensing complaints, including evaluate effectiveness of policies and make recommendations for process improvement.
- Two Learning and Development Specialists 2 to support training of new surveyors and licensors, as well as development and training for both CBC and AFH providers based on trends identified through 120-day reviews, surveys and complaints. Currently, APD's has one Learning and Development Specialist to support training for 44 local licensors and over 1300 AFH providers. There are no Learning and Development Specialists for CBC Survey unit, which means existing Client Care Surveyors must help with training. This reduces their capacity to focus on needed survey work and contributes to inconsistent practices. Having dedicated trainers would support consistency, establish standardized training, and afford capacity to develop and provide training to facilities based on findings through the 120-day reviews, surveys and complaints.

Positions for ODDS:

- Eight Client Care Surveyors for ODDS RTF/RTH program to perform the 120-day reviews including two positions for the Community Living Supports compliance. These staff are currently limited duration and are needed permanently.
- One Compliance and Regulatory Manager 1 for ODDS to manage this unit. This staff is currently limited duration and needed permanently.
- One Program Analysts 2 for ODDS (licensing program coordination)
- Two Administrative Specialist 1s to support this work. This staff is currently limited duration and needed permanently.
- One Government Auditor 2 to performs audits on provider records including audits on Community Living Supports.
- One Business Operations Manager 1 for ODDS to manage the work of the audit team.

5. What are the **startup and one-time costs** associate with this POP?

   The primary startup cost involves hiring and training the new staff, as well as cost associated with updating policy and OARs.
   For ODDS our staff are currently working a limited duration so no startup costs would be needed.

6. What are the **ongoing costs?**

   Costs of staff associated with the full implementation and operationalization of the early reviews, including the associated costs of travel.

7. What are the **sources of funding (revenue)** and the funding split for each one?

   Fiscal staff indicate these positions will likely be paid using General Funds (GF) and Federal Funds (FF).

8. What are potential **savings?**

   Potential savings will result from less staff time spent imposing civil penalties and writing and reviewing sanctions such as license conditions, non-renewals, and closures. There should be fewer sanctions because the early 120-day review will allow the Department to identify issues with new facilities earlier in the process. If civil penalties and licensing sanctions decrease, the cost associated with administrative reviews and DOJ attorney fees will decrease.

TOTAL FOR THIS POLICY PACKAGE

	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE

ODHS Policy Option Package (POP) Form
2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	Oregon Eligibility Partnership
POP Title	104 - Maintaining technology and supporting effective customer service
Related Legislation	
Summary Statement (5 to 7 sentences)	This POP provides the funding for the Federal Data Services Hub. This has been used since 2015 in Oregon at 100% federal funding. Federal regulations now cover 75% of the costs, but require States to cover 25%. These data hubs allow 60% of medical applications to be processed without a worker interaction, allowing for quicker benefits, greater accuracy, and increased efficiency today. Not funding this places risk on the whole Medicaid system for the State of Oregon. Without this investment, OEP risks degraded customer service, inefficient operations, and missed opportunities to leverage these technological advancements fully.

ODHS 2025 POP Long Form

Part 1. **SETTING THE STAGE**

1. Briefly describe the **core value(s)** driving this POP. In the big picture, why does it matter?
   Timely completion of eligibility for services supporting health and safety, cost efficiency, and customer service. Ensuring we have data and modules ready from the federal government and providing support for staff and individuals in Oregon for applying is critical to adding capacity and ensuring compliance with federal timeframes and accuracy; while maintain customer service goals and targets.

2. Describe the **problem/s or opportunity/ies** this proposal would address.

   - **Key Issues Addressed:**
   - **Data Services Hub**
     - **Challenge:** Federal rule changes now require Oregon to cover 25% of the costs for automated eligibility verifications.
     - **Proposed Solution:** Allocate funds to cover state costs, preventing reliance on costly manual verification processes.

3. What **data** tells you that this problem/opportunity exists? Please be specific and provide data sources.

   a. **Data Services Hub:** Federal rule changes require Oregon to pay 25% of costs for verifications, with 500,000 requests and 100,000 responses monthly.

4. Is this POP, in whole or in part, a response to an **audit?** Explain.

   a. Not Applicable

5. What has **already been done** to address or mitigate the problem/ opportunity?

    a. **Data Services Hub**: None. This is an existing technical systems interface with the Federal eligibility hub. Digital transactions used to be 100% Federally funded, but are now 75% Federal funds, requiring 25% State General Funding. Manual verification is a much more costly alternative.

6. What are the **risks** if the problem/opportunity is not addressed?
   Manual workarounds to verify formerly automated eligibility fields.

   Negative impacts to individuals with medical eligibilities in Oregon. Inappropriate loss or missing eligibilities. Longer wait times for support, increased costs, system delays, inadequate support.

7. What **solution** are you proposing through this policy option package (POP)?

    a. **Data Services Hub:** Pay the State portion (25%) for eligibility verifications with Federal hub.

8. What **alternative solutions** were considered and what were the reasons for selecting your solution?

    a. **Data Services Hub:** Manual verification, and request significant staffing increases

9. Has the proposed solution been successful in **other contexts or jurisdictions?** Alternatively, if there is no precedent, explain why you believe this concept will achieve its aims here in Oregon.
   Not applicable.

10. Does this POP require a **new statute or changes to existing statute(s)?** If so, have you completed the Legislative Concept request form for statutory changes?
    No

Part 2. **EQUITY AND INCLUSIVITY**

1. How will this POP **address inequities** faced by impacted communities?

   Data Services Hub: Maintains high-level automation, minimizing paperwork.

Part 3. **MEASURING PERFORMANCE**

1. Which of your **key performance measures (KPMs)** is this POP connected to?

   Customer service reviews and timely benefits processing.

   If none, are you proposing a **new or modified KPM?**
   No

2. How will the work you're proposing help ODHS meet or exceed the **KPM targets?**

   More timely benefits and improved customer experience measures. If not funded, then I would expect to see negative trends.

3. What are the envisioned **outputs** of this POP?

   a. Ability to sustain the timeliness and number of automated medical applications.

4. **Outcomes** show how people are better off because of the outputs you listed above. What are your expected outcomes?

   Enhanced Customer Service: Improved response times and better user experiences across multiple service channels.
   Operational Efficiency: Reduced manual processes and optimized use of automated systems.

Compliance and Cost Savings: Adherence to federal regulations while avoiding expensive manual workarounds.

5. How will you **collect the data** you need to measure the success of this solution? Is this data currently being collected? Have you engaged ORRAI to discuss elements needed to plan for data gathering?

    a. Data Services Hub: Current service level as baseline.

6. To achieve optimal data collection, would you need to make **changes to your case management system?** Describe.
   No

Part 4. **IMPROVING CUSTOMER SERVICE**

1. Discuss the ways this POP will **improve customer service**.
   This sustains our ability to provide timely and accurate eligibility determinations for medical programs and provide quality service in a variety of channels.

2. Will your solution require an **IT investment?** Explain.
   No, Oregon already has this. If not funded, then yes; we would need an IT investment to disconnect from the Hub.

Part 5. **IMPLEMENTATION**

1. If the legislature allocates funds for the proposed POP, how specifically would we **use the money to implement it?**

    Data Services Hub: Pay federal fees.

    Overall, this will help create greater customer service, improve gaps in our operations, and ensure Oregon can continue with a medical process that allowed redetermination rates to be the highest in the country.

2. What are the biggest potential barriers or risks to successful implementation?

None noted if funded.

3. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?
   None noted; if not funded then OHA, ODHS, and all communities across Oregon.

Part 6. **BUDGET**

1. Are there **prior investments** allocated for this policy package?
   No

2. What **assumptions** affect the pricing of this policy package?
   Federal government funds at 75% per federal regulations, the rate is set by the federal government per returned transaction and will be published by them for each year.

3. Will there be **changes to caseload, cost per case or services provided** to specific populations? Explain.
   No

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.
   None

5. What are the **startup and one-time costs** associate with this POP?
   None

6. What are the **ongoing costs?**
   These are ongoing expenses into future biennia.

7. What are the **sources of funding (revenue)** and the funding split for each one?
   25% GF and 75% CMS federal funding

8. What are potential **savings?**
   Eliminates the extra effort and cost associated with the manual workarounds needed should we decouple from the hub. Ultimately, the costs of the workaround exceed the price we would pay the Feds to use the Data Hub.

TOTAL FOR THIS POLICY PACKAGE

	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE
Personal services						
Services + supplies	$4,461,370		$13,471,166	$17,932,536

ODHS Policy Option Package (POP) Form

2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	**Vocational Rehabilitation**
POP Title	105 - Contract and Fiscal Compliance
Related Legislation	Federal Corrective Action Plan
Summary Statement (5 to 7 sentences)	In 2023, Vocational Rehabilitation (VR) received a monitoring report from the federal Rehabilitation Services Administration (RSA) that had specific corrective actions to address insufficient fiscal oversight and monitoring of contracts administered with VR's federal award. Currently VR does not have adequate staff to effectively address RSA's corrective actions and the long-term solutions that are mandated by federal rules and regulations. This POP would fund four full-time positions to equip VR to meet the expectations of RSA and its Corrective Action Plan as well as improve and expand employment services throughout the state. Without this investment, the state risks non-compliance in the control and administration of the federal grant. This could result in sanctions on its VR program and a reduction in federal grant funds, which in turn would force a reduction in services available to people with disabilities in Oregon.

	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE
Policy package pricing	$745,663	$0	$0	$745,663	4	3.00

Part 1. SETTING THE STAGE

1. Briefly describe the **core value(s)** driving this POP. In the big picture, why does it matter?

Every Oregonian with disabilities who wants to work should have access to employment opportunities. VR assists people with disabilities in reaching their employment goals by connecting job seekers with hundreds of local service providers around the state.

VR is administering more than triple the number of contracts compared to a decade ago — with the same number of staff. The VR Contracts team does not have enough staff to maintain current contracts according to the need. This means not everyone is being served, and people from specific communities and with complex disabilities are disproportionately underserved.

VR is also out of compliance with federal law, a 2023 Monitoring Report from the Rehabilitation Services Administration (RSA) found.

2. Describe the **problem/s or opportunity/ies** this proposal would address.

Equitable service delivery
VR's Business Operations unit is responsible for developing, administering and maintaining more than 350 contracts. These job coaches and job developers provide essential services to help support Oregonians with disabilities get and maintain employment.

This POP presents an opportunity to improve service in priority communities, ensuring equitable access across the state.

This investment would give VR's contracts unit capacity to develop new contracts with service providers who can meet specific needs, such as:

- Located in rural areas of central and eastern Oregon
- Experienced in serving Tribal communities
- Able to provide services in Spanish and other top languages in Oregon
- Able to support people with the most complex disabilities
- Experienced in serving youth transitioning to work or secondary education

Compliance with federal requirements

Federal regulations state that the VR is responsible for oversight of the operations of the Federal award supported activities. To accomplish this VR must monitor its contracted activities under Federal awards to ensure compliance with applicable Federal requirements and that performance expectations are achieved. Monitoring VR must cover each program, function, or activity (2 C.F.R. §§ 200.302(a) and 200.329(a)). VR program implementing regulations at 34 C.F.R. §§ 361.3 and 361.12 require VR to employ methods and practices necessary for the proper administration and for carrying out all functions under VR's State plan. These methods include procedures to ensure accurate data collection and financial accountability. As such, VR must monitor and evaluate grant supported activities to ensure compliance of all activities performed under the VR program.

In addition, the Oregon Department of Administrative Services states that VR's primary role is to monitor performance throughout the life of the contract. Contract monitoring is the process of identifying and tracking key aspects of the contract, and their impact on scope, schedule and budget to ensure active administration of the contract to successful completion. Effective contract monitoring includes the following seven tasks:

1. Gather the contract and all pertinent contract documents.
2. Decide what to monitor.
3. Decide how it will be monitored.
4. Decide who will monitor.
5. Gather information and data for monitoring.
6. Analyze information and data for monitoring.

7. Act in cases of non-compliance.

VR should also monitor and evaluate other aspects of a contract on an ongoing basis, such as risk, quality, deliverables, performance measures and service level agreements. The key is to work through the seven tasks and build a repetitive process for actively monitoring and managing the contract.

More complex contracts and contracts for services that present a higher degree of risk may require both reviews and visits to the contractor's facilities to ensure performance meets the contract requirements.

Within the narrowest interpretation, both the Federal and State regulations require the grant recipient agency to conduct contract monitoring; neither discusses the option of assigning this task to a third party.

3. What **data** tells you that this problem/opportunity exists? Please be specific and provide data sources.

The thorough RSA's Monitoring Report conducted an extensive and in-depth analysis of the programs existing process, procedures and internal controls over the Federal award. This report identified specific findings and corrective actions that the program would need to address to come into federal compliance. A corrective action plan was developed in conjunction with RSA to meet these expectations and this POP specifically addresses capacity deficiencies.

4. Is this POP, in whole or in part, a response to an **audit?** Explain.

Yes. This POP is completely in response to the recent RSA Monitoring report and the required corrective actions described in that report. Corrective actions require VR to monitor vendors and contractors, follow procedures to identify contractual performance deficiencies and establish corrective action plans. Reports are available to assist in monitoring performance; however, staff are needed to complete the work. Staff are

needed to analyze reports to determine performance and compliance. Additional staff will allow VR to correctly track services provided, current contractor staff lists, background checks, minimum qualifications, continuing education, licensing and certification, contract compliance and performance. The ability to complete these tasks will allow VR to become more data informed in our decision making around vendors and contractors. This will also allow us to increase contract efficiency, reduce unneeded costs, and engage in better outcomes.

5. What has **already been done** to address or mitigate the problem/ opportunity?

The VR Program has made significant progress in developing appropriate policies, processes and internal controls to address some of the deficiencies identified by RSA in their monitoring report. But the routine administration and contract evaluation is a new workload, and the program has never had staff in place to conduct this work.

This POP is requesting resources that will meet this new requirement for contract administration.

6. What are the **risks** if the problem/opportunity is not addressed?

Noncompliance with the federal award could result in sanctions on the state program, a reduction in grant funds and other punitive actions.

This would force a reduction in employment services available to Oregonians with disabilities. This would result in an increased unemployment rate for people with disabilities and a significant reduction in transition services for students with disabilities moving from high school to employment or higher education.

7. What **solution** are you proposing through this policy option package (POP)?

   Add appropriate capacity to the contracts, compliance and training units to appropriately administer the VR program.

8. What **alternative solutions** were considered and what were the reasons for selecting your solution?

VR looked at contracting for some of these services, but many of the contract and fiscal administration aspects of this POP are required, non-delegable duties that must fall under the Organizational Structure of the Vocational Rehabilitation Program administration.

9. Has the proposed solution been successful in **other contexts or jurisdictions?** Alternatively, if there is no precedent, explain why you believe this concept will achieve its aims here in Oregon.

Yes. RSA routinely conducts these monitoring audits that result in corrective action plans to address identified deficiencies. RSA works with states and provides Intensive Technical Assistance through TA Centers that they fund, specifically, the Technical Assistance Center for Quality Management (VRTAC-QM: https://www.vrtac-qm.org/). Oregon VR has been working closely with the VRTAC-QM and Oregon VR has been connected to many other VR programs around the country that have made the programmatic adjustments proposed in this POP and those programs have been highly successful in addressing the corrective actions identified by RSA.

10. Does this POP require a **new statute or changes to existing statute(s)?** If so, have you completed the Legislative Concept request form for statutory changes?

No.

Part 2. EQUITY AND INCLUSIVITY

1. How will this POP **address inequities** faced by impacted communities?

   This POP presents an opportunity to improve services in priority communities, ensuring equitable access across the state. This investment would give VR's contracts unit capacity to develop new contracts with service providers who can meet specific needs, such as:

   - Located in rural areas of central and eastern Oregon
   - Experienced in serving Tribal communities
   - Able to provide services in Spanish and other top languages in Oregon
   - Able to support people with the most complex disabilities
   - Experienced in serving youth transitioning to work or secondary education

Part 3. MEASURING PERFORMANCE

1. Which of your **key performance measures (KPMs)** is this POP connected to?

While this POP is not directly connected to VR's KPMs it does support the overall contract services for the program that are measured by the KPM. Specially, contracts support the successful delivery of services that directly affect outcomes of VR's KPMs: Increasing the number of Consumers Employed in the Second and Fourth Quarter after Program Exit and overall increasing the Median Wage in the Second Quarter after Program Exit.

2. If none, are you proposing a **new or modified KPM?**

No.

3. How will the work you're proposing help ODHS meet or exceed the **KPM targets?**

This POP supports all of VR's KPM targets. See our response to the first question in this section for details.

4. What are the envisioned **outputs** of this POP?
   Consider activities you will be able to count in actual numbers: partners engaged, clients served, regions served, applications processed, staff trainings conducted, referrals made, transitions completed, families participating, etc.

   VR will be able to track the following outputs to help us gauge success:
   - Contractor expenditures
   - Referrals to contractors, employment placements and employment retentions
   - Number of clients served under contracts
   - Areas of state served by contractors
   - Contractor performance

5. **Outcomes** show how people are better off because of the outputs you listed above. What are your expected outcomes?
   Consider measurable effects like improved service navigability, reduced racial disparities within programs, expanded access to needed services among key populations, improved transition rates, etc.
   VR anticipates the following outcomes from this POP:

   - Effective management of the Federal Grant
   - Increase in the number of services provided because they will be more appropriately authorized
   - Increased number of contracts to diverse and non-traditional VR vendors that can provide culturally responsive services
   - Create a baseline of performance data to inform decisions
   - More control over expenditures to contractors
   - Improved employment and wage outcomes for clients served, as reflected in the program's KPMs, because of improved contract oversight and monitoring

6. How will you **collect the data** you need to measure the success of this solution? Is this data currently being collected? Have you engaged ORRAI to discuss elements needed to plan for data gathering?

   Data will be gathered using Smartsheet, ORCA client database, and contractor reports. Smartsheet will be used to gather information for monitoring. It will also be used for tracking youth contracts. The ORCA client database will be used to track referrals, placements and successful closures with job placement services contracts. Contractor reports will be used to assist in tracking needed information for other contracts.

7. To achieve optimal data collection, would you need to make **changes to your case management system?** Describe.

Yes, but those updates are being made concurrently and as a parallel corrective action resulting from the RSA audit. As such it is not part of this POP request because this need is resourced and is currently underway.

Part 4. IMPROVING CUSTOMER SERVICE

1. Discuss the ways this POP will **improve customer service**.

   Contracts with service providers will be set with the expectation of the highest level of customer service, thereby creating more consistency across the state. Under-performing contractors and undesirable service delivery will be addressed by the program with those contracts. This approach will directly improve the quality of services and customer service for VR clients receiving services from VR contracted service providers.
   There will be continuous improvement interventions for all VR vendors and contractors to raise their skills and service delivery methods. VR will train vendors and contactors on contract administration and service delivery. This will improve the customer service that VR vendors and contractors receive when interacting with the program.
   And finally, VR staff will receive substantial and continuous required trainings for all contract administrators in the program that issue

Authorizations for services. This will ensure that the staff know how to administer a contract in compliance with federal, state and program requirements. Additionally, staff will have required trainings on the appropriate disability specific services that they are authorizing for their clients to ensure that they are Documented Reasonable, Allowable, Allocable, and Necessary to the specific client needs.

2. Will your solution require an **IT investment?** Explain.

   No.

Part 5. IMPLEMENTATION

1. If the legislature allocates funds for the proposed POP, how specifically would we **use the money to implement it?**

   VR would hire three FTE that would be directly responsible for all the new requirements set forth in the Corrective Action Plan to address the findings in the most recent RSA audit. The positions would be housed in VR's Contracts Unit, Quality Assurance Unit and Training Unit.

   The Contract Unit and Quality Assurance Unit would be responsible for ensuring the effective management of the Federal Grant funds. This will include the development of appropriate procedures and internal controls for all aspects of purchased services; and then this team will implement all of these new polices to ensure compliance. Additionally, these teams will conduct routine monitoring of contract performance and internal Quality Assurance of staff work to ensure compliance. When themes, non-compliance findings and other concerns are identified these teams will work with the VR Training Unit to develop corrective actions (e.g. trainings, cure letters, corrective action plans, etc.).

   On the training side, the new positions will ensure internal training support and compliance of service delivery in coordination with the ODHS Office of Contracts and Procurement. VR will deliver required trainings for all

contract administrators in the program that issue authorizations for services. This will ensure that the staff know how to administer a contract in compliance with federal, state and program requirements. Additionally, staff will have required trainings on the appropriate disability specific services that they are authorizing for their clients to ensure that they are Documented Reasonable, Allowable, Allocable, and Necessary to the specific client needs.

2. What are the biggest potential barriers or risks to successful implementation?

   If this POP is not funded in full, VR is at risk of fiscal sanctions and, therefore, a reduction to employment services available to Oregonians with disabilities. This would increase unemployment rate for people with disabilities and significantly reduce transition services for students with disabilities moving from high school to employment or higher education.

3. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?

   Because these requirements are specific to the administration of the VR federal grant, there will be little required from other partners beyond RSA and VR. With that said VR, will place significant emphasis on ensuring that all ODHS units, public agencies, Tribes, communities and other partners are informed of the changes that VR is required to make. Additionally, VR will provide appropriate supports to ensure that there will be little impact to those partners.

Part 6. **BUDGET**

1. Are there **prior investments** allocated for this policy package?
   No, there have been no prior investments.

2. What **assumptions** affect the pricing of this policy package?
   The four new positions that will implement the work detailed in this policy package will be supported by three teams that currently do not have the resources or capacity. The Business and Operations team will support the contractual monitoring. The Training Team and Policy teams will support the internal professional development of staff that are fiscal agents authorizing payments with federal funds. And the Quality Assurance team will work with these staff to develop and implement the internal controls that will bring the program into compliance with federal rules and regulations.

3. Will there be changes to caseload, cost per case or services provided to specific populations? Explain.

   There will be no direct changes to caseloads or cost per case. There is an anticipated change to services provided to specific populations. On the contrary, the result of this policy package will be the qualitative improvement of services delivered by staff or by contracted vendors.

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.

   The recent federal monitoring report mandated several significant deficiencies in internal controls, quality assurance and the area of monitoring of contracts. The four positions request in this policy package directly address these findings and the corrective actions established by VR's federal funding and oversight agency. The four positions are:
   Program Analyst 3: will lead the development of policies, internal controls and the supporting trainings specific to VR's rules and regulations. This individual will also partner directly with the Quality Assurance team to monitor file reviews to develop new trainings and when appropriate to create individualized performance improvement plan for staff that have multiple

findings in their file review. The PA3 will be instrumental in being responsive to emerging needs and that staff are provided with the appropriate supports to conduct their work accurately as contract administrators of federal funds.

Learning & Development Specialist 2: will support the PA3 in providing all of the appropriate training to new staff and tenured staff that need remedial education on areas of the program that address compliance. At times the LDS2 will also work with the programs other units that support the programs vendor network to ensure they are connected to learning opportunities to so they can operate in contract compliance.

Procurement & Contract Specialist 2: will work within the programs contract unit to conduct contract monitoring. This entails an in-depth review of the program's vendors to ensure they are in compliance with the contract and that their service delivery models. There are currently over 350 active VR vendors that the program is required to monitor and currently there is no staff capacity to complete this task.

Operations & Policy Analyst 1: will work with the contracts team to monitor, track and renew all of the legal requirements of all of the vendors that VR contracts with for the direct services delivered to VR clients.

5. What are the **startup and one-time costs** associate with this POP?
   There will be minimal startup cost because the positions will be supervised and supported by existing program units and managers.

6. What are the ongoing costs?

   The ongoing cost will be for the four FTE or $986,327 (24 mos).

7. What are the **sources of funding (revenue)** and the funding split for each one?

   The source of funding for this policy package will be general fund.

8. What are potential **savings?**

This policy package is designed to bring the program into compliance with federal rules and regulations. If the program continues to operate out of compliance, then there can be federal sanctions levied on the program in the millions. Additionally, the program is expecting that this policy package will improve the efficiency, consistency and quality of services provided by the program.

TOTAL FOR THIS POLICY PACKAGE

	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE

ODHS Policy Option Package (POP) Form
2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	Self-Sufficiency Programs (SSP) Supplemental Nutrition Assistance Program (SNAP)
POP Title	108 - SNAP Elderly Simplified Application Project (ESAP)
Related Legislation	SNAP is administered in accordance with the provisions of the Food and Nutrition Act of 2008 and the regulations in subchapter C of Title 7 in the Code of Federal Regulations. Demonstrations for Individuals Who Are Elderly and/or Have a Disability Section 17(b)(1)(A)
Summary Statement (5 to 7 sentences)	The Supplemental Nutrition Assistance Program (SNAP), a federal program that provides monthly benefits to help people buy food, is an important tool for ending hunger in our state. By opting into the federal Elderly Simplified Application Project (ESAP), Oregon can make sure that eligible older adults and people with disabilities aren't missing out on these critical benefits. ESAP would improve overall program access to older adults and people with disabilities by allowing for a simplified 2-page application. It would also extend the certification period to 36 months and allow staff to leverage federal data to verify required household information, which would help reduce workload within the state's eligibility enterprise. The ESAP would also significantly improve customer service to older adults and people with disabilities through a dedicated call center with ESAP specialized staff. If Oregon elects not to participate in the ESAP option, it will miss the opportunities to a.) improve SNAP access for these priority populations, b.) improve customer service and recertification processing timelines and c.) help ease workload demands on Oregon's characteristically overextended eligibility staff.

	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE
Policy package pricing (new perm FTE)	**$580,925**	**$0**	**$580,925**	**$1,161,850**	**2**	**1.50**

Part 1. **SETTING THE STAGE**

1. Briefly describe the **core value(s)** driving this POP. In the big picture, why does it matter?

We all need access to nutritious food to support our health and well-being. But many people in Oregon, including older adults and people with disabilities, don't have enough to eat or don't know where their next meals will come from. The Supplemental Nutrition Assistance Program (SNAP), a federal program that provides monthly benefits to help people buy food, is an important tool for ending hunger in our state. By opting into the federal Elderly Simplified Application Project (ESAP), Oregon can make sure that eligible older adults and people with disabilities aren't missing out on these critical benefits.

2. Describe the **problem/s or opportunity/ies** this proposal would address.

According to the Food Research & Action Center, older adults and people with disabilities can encounter a range of barriers when applying for or getting recertified for SNAP:

> *They may have limited mobility to get to a SNAP office or have difficulty accessing or using online applications, mobile apps, and other technological innovations that can make it easier to access SNAP. Among SNAP households coming due for recertification, households with elderly or disabled members are more likely than others to churn (i.e., experience interruptions in their connections to SNAP due to procedural factors rather than financial ineligibility).*[1]

The Elderly Simplified Application Project (ESAP) is a federal option states can employ to streamline the SNAP application process for older adults and people with disabilities, improving access and timeliness outcomes for these priority populations. ESAP also lengthens the recertification timeline from a 24-month to a 36-month cycle, reducing the number of times people need to reapply for SNAP.

Oregon SNAP has a high program participation rate and along with medical programs it generates the greatest need for application-related customer support. By streamlining the application and recertification processes for both the customer and the eligibility worker, ESAP can help more eligible older adults and people with disabilities access and preserve vital benefits while improving operational efficiency and business outcomes.

3. What **data** tells you that this problem/opportunity exists? Please be specific and provide data sources.

[1] FRAC (2019): Best Practices for SNAP Elderly Simplified Application Projects, p1.

ESAP could improve SNAP access and customer experience for many thousands of people in Oregon. In fiscal year 2022, nationally more than 41 percent of SNAP participants were in households whose members included older adults or people with disabilities.[2] In Oregon as well, these populations represent a significant portion of the SNAP caseload. As of February 2024:

- More than 165,000 SNAP households included a member age 60 or older or experiencing a disability;
- Over 30,000 people were receiving both SNAP and long-term case services each month; and
- On average, 28,000 people receiving SNAP are also receiving in-home care services each month.

Additionally, Oregon Department of Human Services (ODHS) anticipates that the state's demographic trends will translate into increased demand for SNAP by older adults: According to a report created on October 27, 2023 by the Legislative Policy and Research Office, Oregonians aged 65 and older account for 16.8 percent of the state's population currently; by 2050 the percent of older adults is projected to increase to 24 percent.

4. Is this POP, in whole or in part, a response to an **audit?** Explain.

This POP will support the state's overall need to remain in federal compliance for the program and can support Oregon's current Accuracy and Timeliness Corrective Action Plans. Although this is not part of a current audit response it does align with SNAP audit requirements.

5. What has **already been done** to address or mitigate the problem/ opportunity?

Oregon has already implemented the 24-month option for recertifications and the Standard Medical Deduction (SMD) policy option for this priority population.

6. What are the **risks** if the problem/opportunity is not addressed?

Partners for a Hunger-Free Oregon notes that adults ages 60 and older have the lowest SNAP participation rates in the state.[3] By passing on the ESAP option, Oregon would miss out on the opportunity to improve SNAP access for this population as well as for people with disabilities risk. Additionally, by not leveraging ESAP, Oregon would not take advantage of a key opportunity to support greater application processing timeliness and ease the state's eligibility workload.

7. What **solution** are you proposing through this policy option package (POP)?

[2] Center on Budget and Policy Priorities (2023): A closer look at who benefits from SNAP.
[3] Partners for a Hunger Free Oregon (April 2024): Older Populations.

ODHS is recommending that Oregon implement an ESAP option for SNAP. In addition to reducing administrative burdens on older adults and people with disabilities, ODHS estimates that implementation of the ESAP option will:

- Reduce renewal applications each year by over 82,000;
- Save 41,000 staff hours annually;
- Open up more staff capacity to focus on getting medical, cash and child care benefits to eligible customers; and
- Potentially reduce SNAP benefit churn by extending the certification period to 36-months.

8. What **alternative solutions** were considered and what were the reasons for selecting your solution?

Oregon has been implementing alternative solutions like 24-month certifications. Over time as our elderly and disabled service needs and population has grown, the program has continued to increase in volume, which has prompted the need to expand to 36-month certifications to manage the increase in overall workload.

9. Has the proposed solution been successful in **other contexts or jurisdictions?** Alternatively, if there is no precedent, explain why you believe this concept will achieve its aims here in Oregon.

This solution is being implemented in 22 states; like Oregon, 13 of those states also offer the Standard Medical Deduction (SMD) option as a means of streamlining application processing.

10. Does this POP require a **new statute or changes to existing statute(s)?** If so, have you completed the Legislative Concept request form for statutory changes?

This would require updates to Oregon Administrative Rules if approved.

Part 2. **EQUITY AND INCLUSIVITY**

1. How will this POP **address inequities** faced by impacted communities?

This POP acknowledges that the SNAP application process can present unique barriers to older adults and people with disabilities – barriers that hinder these populations' access to benefits that are critical to their health and well-being – and aims to simplify the process and bring about more equitable access to SNAP in Oregon.

Part 3. **MEASURING PERFORMANCE**

1. Which of your **key performance measures (KPMs)** is this POP connected to?

This POP connects to OEP KPMs on SNAP timeliness and accuracy.

2. If none, are you proposing a **new or modified KPM?**

   N/A

3. How will the work you're proposing help ODHS meet or exceed the **KPM targets?**

This project should have a positive effect on SNAP timeliness and accuracy. We can track this element with coding on the eligible ESAP cases. This will improve program timeliness and accuracy by reducing the amount and frequency of times the applicant and worker will need to apply, renew or review their request for SNAP.

4. What are the envisioned **outputs** of this POP?

- Number of improved and simplified applications used by ESAP-eligible applicants (# of application processed)
- Number of days to process ESAP applications

5. **Outcomes** show how people are better off because of the outputs you listed above. What are your expected outcomes?

Improved SNAP access by ESAP-eligible populations

6. How will you **collect the data** you need to measure the success of this solution? Is this data currently being collected? Have you engaged ORRAI to discuss elements needed to plan for data gathering?

24-month recertifications data can be used to forecast the effects of implementing the 36-month program. We will collect data for 36-month recertifications by coding in the ONE system, per federal requirement.

7. To achieve optimal data collection, would you need to make **changes to your case management system?** Describe.

   New ONE system coding will be necessary to monitor, evaluate and administer ESAP per federal regulations.

Part 4. **IMPROVING CUSTOMER SERVICE**

1. Discuss the ways this POP will **improve customer service**.

The POP will simplify applications, reduce verification burdens and expand certification timelines for households that do not have earned income and in which all adult members are aged 60 or older and/or have a disability.

2. Will your solution require an **IT investment?** Explain.

Federal funds, once approved by FNS, will provide a 50 percent match to Oregon General Fund to complete Mainframe/ONE System enhancements.

- **System Changes:** Mainframe and ONE changes in applicant portal (AP), worker portal (WP) and Interface systems. This is not part of the Maintenance and Operations (M&O) for the program as this is a "new" function that does not currently exist.

Part 5. **IMPLEMENTATION**

1. If the legislature allocates funds for the proposed POP, how specifically would we **use the money to implement it?**

A complete fiscal analysis is needed and will cover the following key areas of anticipated work. Including start-up and ongoing costs to implement the new program:

- **System Changes:** Mainframe and ONE changes in applicant portal (AP), worker portal (WP) and Interface systems. This is not part of the Maintenance and Operations (M&O) for the program as this is a "new" function that does not currently exist.

- **New Personnel:** Additional FTE is needed in Central Teams to implement Elderly Simplified Application Project (ESAP) including new rule creation, defining technical system requirements, staff/community partner training and developing the shortened application.
- **Multimedia printed/virtual packets and communications:** Development of new applications, forms, notices, translations and other Community Supports for the roll-out of ESAP. Internal and External groups.
- **Eligibility Staffing support**: ESAP is intended to streamline workload and reduce barriers to participation and will not result in an ongoing eligibility of call center staffing need.

2. What are the biggest potential barriers or risks to successful implementation?

Potential delays getting the needed ONE system changes implemented.

3. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?

SSP will need to engage multiple partners in more depth to determine implementation timelines – including federal, state agency and community partners such as:

- Oregon Eligibility Partnership (OEP)
- Aging and People with Disabilities (APD)
- Oregon Health Authority (OHA)
- SSP/OEP District and Program Managers
- Partners for a Hunger Free Oregon
- Oregon Food Bank
- 211 Info
- Oregon Hunger Taskforce.

Part 6. **BUDGET**

1. Are there **prior investments** allocated for this policy package?

No

2. What **assumptions** affect the pricing of this policy package?

Level of Efforts needed to make necessary changes to Mainframe and ONE in applicant portal (AP), worker portal (WP) and Interface systems. This is not part of the Maintenance and Operations (M&O) for the program as this is a "new" function that does not currently exist.

3. Will there be **changes to caseload, cost per case or services provided** to specific populations? Explain.

Yes; more analysis will be needed on this.

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.

More detailed information is forthcoming but at this time it is clear that additional FTE will be needed in Central Teams to implement ESAP, including new rule creation, defining technical system requirements, staff/community partner training and developing the shortened application.

There may also be new staff needed in other system program areas.

5. What are the **startup and one-time costs** associate with this POP?

   This is undergoing further analysis.

6. What are the **ongoing costs?**

This is undergoing further analysis.

7. What are the **sources of funding (revenue)** and the funding split for each one?

The SNAP ESAP program is eligible for a 50/50 match of federal funds to state funds.

8. What are potential **savings?**

In the longer term, we anticipate that there will be savings in staff time that can be reallocated to other eligibility work. There will also be some limited administrative savings in the reduction of applications submitted to the department.

TOTAL FOR THIS POLICY PACKAGE

ODHS Policy Option Package (POP) Form
2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	**State Assessments & Enterprise-wide Costs (Facilities)**
POP Title	**109 – ODHS-OHA Office and Worker Safety**
Related Legislation	ORS 276 – Public Buildings and ORS 455 Building Codes ORS 654 and OAR 437 – Occupational Health and Safety
Summary Statement (5 to 7 sentences)	Oregon's Department of Human Services is struggling to maintain adequate safe and secure working environments across its statewide operations. Data shows a 450 percent rise in threatening incidents at offices over the last five years, a trend accompanied by a growing inability to meet employee health and safety needs. This proposal requests funding for facilities improvements and security and outreach contracts to ensure the safety and security of customers and staff at ODHS offices. Given the increasingly high acuity needs of people visiting our offices and the vicarious traumatization of staff, this request is time-sensitive and presented as a risk management strategy. Without the investment, we would expect safety issues to continue to grow in offices, which will put staff and community members in danger while increasing turnover and workplace complaints.

	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE

*OHA, DELC or other state partner

ODHS 2025 POP Long Form

Part 1. **SETTING THE STAGE**

1. Briefly describe the **core value(s)** driving this POP. In the big picture, why does it matter?

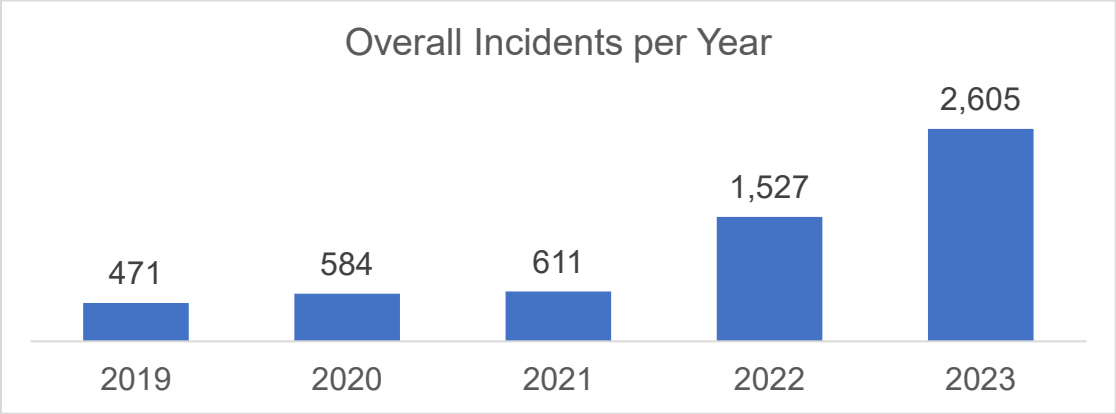
   This request promotes the safety of staff, public property both owned and leased, program participants, and community partners to ensure stewardship and responsible management of state resources and infrastructure improvements to mitigate risks that could otherwise lead to costly liabilities, injuries, or disruption of vital public services.

2. Describe the **problem/s or opportunity/ies** this proposal would address.

   The Oregon Department of Human Services (ODHS) and Oregon Health Authority (OHA) face critical challenges in managing more than 11,000 agency employees across seven major ODHS programs in at least 168 facilities across Oregon. With a surge in reported employee safety concerns, Occupational and Health Safety Complaints, and labor relations complaints, coupled with a notable increase in threatening incidents within ODHS and OHA offices over the past five years, there is a pressing need for safety and security resources to mitigate risks to both employees and the vulnerable populations served. Insufficient security measures for public property and at ODHS activities, a lack of risk identification and mitigation strategies at each site, a budget deficit for security and safety contracts, and a lack of staffing to ensure incident management and trauma response measures jeopardizes service delivery, presents danger for people, and puts the State at risk of costly tort liability, staff turnover, and decreased customer service.

3. What **data** tells you that this problem/opportunity exists? Please be specific and provide data sources.

Health and Safety (Source: Workday) Incidents Dramatically Increasing



Intensity of Claims in 2023

Low (Report only - No Further Action)	Medium (Required Action for workers compensation, liability, safety or consultation and Citizen Report)	High (Required in depth investiation including Restrictions of Access, severe injury claims management)
566	1,075	964

4. In the simplest way possible, how would you describe this POP to a legislator and show how it addresses **a problem/opportunity that impacts their constituents.**

   ODHS and OHA serve vulnerable populations in 168 locations statewide. Customer service and staff safety in large offices open to the public require an intentional safety, security, and wellness strategies. Safety and security risks must be mitigated in a manner that promotes inclusivity, reduces trauma to staff and community members, and fosters environments where all community members feel valued and respected when engaging with State health and human services. Physical, environmental and psychological safety threats, as well as provide proactive life-saving measures must be provided through security, occupational health and safety, and trauma recovery support. The investment proposed in this POP reduces the strain on law enforcement, mitigates unnecessary long

term physical and psychological risk factors, builds safe rapport within communities, ensures access to critical services, and averts lawsuits.

5. Is this POP, in whole or in part, a response to an **audit?** Explain.

   - The Department of Homeland Security did an audit of several buildings in Portland and this is responsive to the recommendations from that audit
   - ODHS/OHA Internal audit is currently preparing an audit of staff and office safety
   - This Safety POP is in response to significant and rapid escalation of high acuity in offices and in the community for ODHS and OHA staff across Oregon that impact the overall safety and wellbeing of staff, people serviced by ODHS, as well as community and Tribal partners.
   - This Safety POP ensures compliance with Building Codes, OSHA regulations and Labor Relations Agreements which are transparent to the public.
   - This POP is a proactive measure to mitigate risk management factors associated with potential non-compliance with facilities management requirements with DAS policies that implement ORS 276 for Public Buildings as monitored through biennial reporting required by OAR 125-125. Per Rule, the ODHS and OHA Facilities Plans are due by July 31, 2024, which may or may not result in compliance mitigation findings.

6. What has **already been done** to address or mitigate the problem/ opportunity?

   - Job Rotations and WOC assignments
   - Temporary and Limited Duration non-budgeted positions
   - Contractors – including armed and unarmed security that is paid for out of other budgets within ODHS and OHA due to lack of funding
   - Collaboration across agencies – OHA, DAS, LEAs
   - ODHS has successfully piloted safety and security solutions, including armed less than lethal equipped officers
   - ODHS-OHA Facilities Management has connected with DAS to seek support
   - ODHS has successfully piloted client de-escalation services in partnership with agencies delivering services with houseless communities.
   - The alternative solutions attempted to date are a short-term approach to a problem requiring a long-term strategy. These alternative solutions are sufficient for quickly managing a large volume of work to “react” to immediate threats and concerns; however, they are not sustainable strategies.
   - The ODHS -OHA Office of Facilities Management staff are engaging in ongoing efforts to increase knowledge, skill, and ability through free, low-cost, and “train the trainer” formats to ensure environmental safety and wellbeing for properties and

assets the Agencies are responsible to maintain, including buildings and parking areas.

- OFM has leveraged partnerships within District offices, OREM, and HR to explore cost-effective opportunities to collectively address safety, security and well-being needs for staff and community members. Ongoing Continuity of Operations coordination is being led by OREM.

7. What are the **risks** if the problem/opportunity is not addressed?

- Failure to efficiently implement and maintain these safety and security systems exposes the agency to employment liability, workers compensation liability, litigation due to non-compliance of statutes and administrative rules and policies.
- Potential for serious injury or death for staff and program participants
- Continued escalation of OHSA citations and fines
- Failure to effectively manage these risks impedes our ability to provide services in a safe and timely manner to high-need and fragile populations, which impacts one in three households statewide.
- The Office of Facilities Management is responsible for mitigating liability and risk through building and asset management. Remaining understaffed and underfunded ensures that public buildings, parking areas, environments, furniture and equipment present risk of personal injury, lawsuits, and erodes public confidence in the Agency.
- If OFM is unable to ensure climate related safety threats associated with clean air and safe spaces during events such as wildfires, flooding, ice storms, and poor air quality due to pollen and other allergens in 168 public buildings, the result may be an allegation or finding that ODHS is out of compliance with Climate Change and Air Quality legislation, OSHA regulations, and building closures may be required.
- OFM is responsible for maintaining badges and badging systems to support 13,000 employees statewide across ODHS and OHA, with high turnover rates. Lack of staffing to maintain security access measures leads to security delays and staff being unable to access their worksites in a timely and safe manner.
- The lack of ability to conduct safety and security assessments in 168 offices statewide on a consistent basis means ODHS and OHA are unaware of the scope of imminent risks/threats to staff and community members.
- Failure to effectively manage workplace safety, health, employee well-being, and mitigate the impacts of trauma directly impacts our clients and communities resulting in a loss of trust for the agency and an increase in liability.
- ODHS and OHA lead Suicide Prevention for Oregon. Without the staffing to adequately address the overwhelming number of suicide incidents the Trauma Aware program is not able to adequately and effectively function.

8. What **solution** are you proposing through this policy option package (POP)?

   - Fund investment for facilities improvements in 168 owned and leased buildings statewide, as well as safety and security contracting, in the amount of $4 Million to ensure uniformed and skilled professionals are available to meet safety needs where our staff are.

9. What **alternative solutions** were considered and what were the reasons for selecting your solution?

   - Non-budgeted Job Rotations and WOC assignments Temporary and Limited Duration positions
   - Contractors paid out of service delivery Program/Division and other budgets, often in the face of urgent incident management efforts
   - Collaboration across agencies – OHA, DAS, community partnerships and LEAs
   - Operating without any idea of what our risks are until we are faced with a crisis and reacting to crisis as they occur

   These temporary solutions do not prevent physical or psychological injury, tort claims and lawsuits, or support healthy safe service engagement. They are very expensive band-aids to real-time issues that we have the data, capability, and responsibility to anticipate and mitigate for staff and public safety. This POP proposal includes solutions that result of detailed data analysis across Workday, HR, Labor Management, OREM, facilities administration and field reports for a collaborative, cross-agency approach to intentionally prioritize safety for people in the most cost effective and inclusive manner possible. Without a responsible solution such as this, we are one incident away from potentially irreparable damage and being on the front page of the newspaper in an expose that further deters at-risk populations for the supports they require to remain safe, stable and having access to supports within their communities.

   This Safety POP focuses on five key solutions that are cost effective, accessible, measurable and provide a considerable return on investment.

   - Assessment – ongoing assessment of safety and security needs (physical, psychological, and environmental), along with recommendations and supports to implement them
   - Physical environment improvements – security and safety measures that deter, prevent, detect and respond to local physical security. This includes security cameras, secure entrances, perimeter fencing in secure parking areas, and more
   - Incident Management – staff support to review Workday incidents, coordinate responses, and follow up on outcomes

- Trauma Aware – suicide prevention and trauma response services driven by data and supported by legislation to ensure lifesaving responsiveness
- Accessibility – environments and accessible, safe, secure and welcoming for community members who seek out services and partnerships

10. Has the proposed solution been successful in **other contexts or jurisdictions?** Alternatively, if there is no precedent, explain why you believe this concept will achieve its aims here in Oregon.

- Multnomah County, beginning with libraries, has moved from pilot to a permanent security solution on which many of ODHS unfunded pilots have been modeled
- The Office of Human Resources, which oversees the OHSE and Trauma Aware programs, and OFM believe this proposal will enable ODHS and OHA to achieve multi-sector desired goals and outcomes in support of the communities we serve:
  - Thorough workplace investigations completed with the timeframes identified in statute and policy.
  - Complying with enterprise expectations facilities management
  - Creating safe, healthy and trauma free work environments for agency workforce and community members who are seeking our services.
  - Strengthen security practices and systems across all our ODHS and OHA offices in a proactive, inclusive, and responsive manner that reduces escalation and mitigates risk.

11. Does this POP require a **new statute or changes to existing statute(s)?** If so, have you completed the Legislative Concept request form for statutory changes?

- No. This POP does not require new or revised statute, rules, or policies.

Part 2. **EQUITY AND INCLUSIVITY**

1. How will this POP **address inequities** faced by impacted communities?
   - While data are not collected on racial demographics of ODHS and OHA staff reporting safety incidents, those using our services are disproportionately people of color. This will provide safer environments and additional protections against racially based or anti-LGBTQ incidents of violence or harassment.

Part 3. **MEASURING PERFORMANCE**

1. Which of your **key performance measures (KPMs)** is this POP connected to?

- While there are no ODHS – OHA KPMs filed with legislature regarding safety at this time, the Human Resources programs, including OHSE and Trauma Aware, as well as the Shared Services Office of Facilities Management support Program/Division service delivery in reaching their KPMs. HR incorporates the ODHS Management System to develop and monitor quarterly metrics and targets.
- OFM has KPM's associated with their Service Level Agreement with ODHS Programs and OHA Divisions that include Space Utilization and Customer Satisfaction. OFM is also responsible to provide a Facilities Plan, including metrics, to DAS by July 31st of even numbered years.

2. If none, are you proposing a **new or modified KPM?**

   - No, currently we are not proposing new or modified KPMs.

3. How will the work you're proposing help ODHS meet or exceed the **KPM targets?**

   - HR regularly reports to agency and program leadership on the following outcome measures: Employee Diversity and Turnover Rates.
   - HR provides services that promote organizational health and employee retention, which supports the agency and programs with meeting their KPM targets.
   - OFM provides building and environmental safety and security that are foundation to ODHS infrastructure, without which KPMs targets become compromised.
   - The COO delivers regular reports regarding operational support services, including facilities and asset management details, to ODHS and OHA executive leadership for consideration and is an input for ODHS in KPM target.

4. What are the envisioned **outputs** of this POP?

   - Reduce the number of workplace investigations related to safety, security and wellbeing issues
   - Reduce the number of workplace injuries
   - Reduce the number of safety incidents
   - Increase the number of employees reporting improved safety and wellbeing
   - Reduced staff turnover related to environmental and psychological safety concerns
   - Reduce the amount of funding drawn from other budgets to pay for security contracts; which in turn increases the amount of funds for service delivery
   - Reduce the number, amount and type of tort claims and lawsuits related to safety
   - Increase the number of safety assessments and proactive measures to mitigate risk

5. **Outcomes** show how people are better off because of the outputs you listed above. What are your expected outcomes?

   - Expanded and improved access to needed services among key populations
   - Reduced escalation of incidents
   - Improved safety and security contract administration
   - Improved budget management for security contractor services
   - Improved security measures in field offices
   - Reduced incidents of threats and injuries
   - Improved community relations, including historically underserved and under-engaged communities
   - Reduced property damage and loss

6. How will you **collect the data** you need to measure the success of this solution? Is this data currently being collected? Have you engaged ORRAI to discuss elements needed to plan for data gathering?

   - Workplace safety incidents are reported and tracked in Workday and reported by OHSE
   - OHSE also tracks the seriousness of each incident and if law enforcement was called
   - OHSA complaints are tracked by OHSE

7. To achieve optimal data collection, would you need to make **changes to your case management system?** Describe.

   - None other than continuous improvements as described in questions #6 of this part.

Part 4. **IMPROVING CUSTOMER SERVICE**

1. Discuss the ways this POP will **improve customer service**.

   - Each office will receive a comprehensive preventative safety assessment to determine the need for contracted security services or physical plant improvements to increase safety
   - Security presence creates a calmer and safer environment with higher staff morale, leading to improved customer service
   - All safety incidents reported will have timely case management from OHSE safety staff to safety plan based on the future risk
   - Trauma aware will respond to staff and teams after safety incidents to address the trauma response staff have from critical incidents

- Investing in facilities improvements and security contracts through Office of Facilities Management will ensure internal customer satisfaction by ensuring offices have the safe and secure environments they require for staff to conduct work efficiently, as well as increase external customer satisfaction by ensuring they are able to safely access and utilize ODHS spaces.
- Investing in security contracting ensures responsiveness to safety that prevents criminal activity/charges, de-escalates traumatic events, and ensures public safety without involving law enforcement and the criminal justice system in most cases.

2. Will your solution require an **IT investment?** Explain.
   - No.

Part 5. **IMPLEMENTATION**

1. If the legislature allocates funds for the proposed POP, how specifically would we **use the money to implement it?**

   - The allocation of legislative funds for this Central and Shared Services POP will be used for facilities improvements and contracted safety and security providers.
   - Upon approval of funding, planning across OHSE, Trauma Aware, Facilities Management, and OREM will be coordinated to clearly identify roles and responsibilities, funding allocation, additional resources to be leveraged and shared, as well as to develop a project plan, communication plan, and reporting mechanism.
   - Assessments will be developed and conducted in each of the 168 offices to learn the safety and security needs of each office, develop recommendations, plan solutions with field leadership, monitor and report progress/outcomes.
   - Facilities will source and purchase the most cost-effective security equipment and installation solutions for public building spaces.
   - Security contracts will be centralized under a single contract administrator to provide strong contractor support and accountability and adherence to budget.
   - OHSE will develop a strategic plan and documented processes, such as a manual, to facilitate incident management. This will span the reporting process, Workday report functions, recommendations for solutions, access to resources, monitoring and measuring outcomes.
   - Trauma Aware will develop a strategic plan to ensure staff have equitable and sufficient access to trauma response mechanisms, follow up care, and a data reporting mechanism is in place to learn from and adjust practices/policies.
   - HR and OEMS will be consulted early and often during the development of the implementation activities to ensure efficacy in hiring, onboard, and supporting staff as well as improving community relations.

- The COO will collect metrics outlined in the legislation implementation plan to track the progress of implementation and collaborate with other leaders to remove barriers and ensure successful implementation of the Safety POP.

2. What are the biggest potential barriers or risks to successful implementation?

   - Lack of investment in requested in this POP for facilities improvements, contract funds, as well as ensuring minimally adequate safety and security staffing.
   - This risk leads to employee stress and burnout, and it reinforces a reactionary response to critical issues that erode partnerships and processes that may otherwise focus on long-term collective solutions and achieve shared outcomes.
   - Lack of coordination across the safety programs within OHSE, Trauma Aware, and OREM if the Safety POP is not viewed, funded and implemented as collaborative agency-wide solution.
   - Lack of awareness and understanding across field programs of the menu of support services available to them throughout OHSE, Trauma Aware, OFM and OREM, including the roles and responsibilities as well as how to access each if a communication plan is not in place and facilitated.

3. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?

   - The Office of Equity and Multicultural Services and Tribal Affairs offices will be included in implementation planning conversations for this POP to ensure the safety measures in place do no harm, are responsive and inclusive of the diverse needs of the people in Oregon.
   - Tribal consultation will be utilized for significant building issues that affect tribal members
   - District leadership will be consulted included in Implementation Planning conversations that inform project plans, communication plans, processes and procedures as well as staffing models.
   - OREM will be included to ensure alignment with the ODHS Continuity of Operations Plan, as well as to share communication with external partners throughout their sphere of influence.

Part 6. **BUDGET**

1. Are there **prior investments** allocated for this policy package?

In a sense, there are. There is legislation funding Suicide Prevention, which resides within the Trauma Aware program. There is also recent legislation supporting harm reduction measures to prevent drug overdose. ODHS program budgets are funded to provide services and to meet some basic operational costs, however those funding allocations do not cover the expenses associated with Central and Shared Services supports that are responsible to address the exponentially expanded safety and security issues (450%) which have grown in a manner congruent with the health and human services staffing and acuity needs in Oregon.

2. What **assumptions** affect the pricing of this policy package?

    - $1 million for facilities improvements ($50,000 for cameras and minor hardening to ten buildings per biennium and $100,000 per building for parking lot fencing and exterior barriers for five buildings per biennium)
    - There are currently $5 million in piloted security contracts which will be continued with permanent partial funding from this POP

3. Will there be **changes to caseload, cost per case or services provided** to specific populations? Explain.

    No.

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.

    The following is a breakdown of the positions requested in support of the Safety POP supporting Central and Shared Services. There is an initial overview of the funding investment for facilities and contracting needs followed by an overview of staffing position request. Under each section is a brief description of the work these positions will perform and support internal to the agency(s) as well as within communities.

    Facilities Improvements = $1,000,000 investment for security measures such as cameras, fencing, entrance/exit changes, alterations of lobbies (hardening yet trauma informed), enhanced lighting, altered landscape, changes to parking, spanning 168 buildings.

    Security and Safety Service Contracts Budget = $4,000,000 for armed, unarmed, uniformed and culturally responsive security contractors serving ODHS offices, parking lots, events, and co-located staff areas. We anticipate a cost savings over time to result

from improved facilities, community rapport, and social wellness as mental health and addiction issues improve however this is a data-driven request and reflects the dynamics ODHS offices are facing currently and throughout the 2025-2027 biennium, at minimum.

HR – OHSE (Shared Services)

- Existing positions will have to be modified to support safety and health performance management systems to ensure workplace safety, health & employee well-being is efficiently managed throughout the agency and within all our programs.
- This section is a shared services section and will support and provide service to both ODHS and OHA agencies with a combined workforce of approximately 16,000 employees.
- Ensuring the safety, health, and well-being for ODHS and OHA employees also ensures a safe and trauma free environment for agency clients and communities.
- Existing positions will be modified to support the development of a systemic process for managing office safety and security risks that impact our workforce, clients, and communities. This includes but is not limited to:
  - A timely response to all threats or concerning behavior and to all safety incidents to ensure for a thorough investigation, analysis and response.
  - Developing a safety and health management system for ODHS and OHA to mitigate exposures that contribute to workplace injuries and illnesses.
  - Regionally based threat assessments, workplace safety and health audits, and security consultations within each of 160 ODHS and OHA office buildings supporting communities.
- Existing positions will be modified to provide the capacity to complete comprehensive safety assessments of our work processes and offices, enhance physical security improvements and services for the safety of our workforce and community members seeking services.
- Effectively managing workplace safety, health & well-being for our agency employees mitigates risk and exposures for our clients and communities ensuring for a safe and healthy environment within which to engage with programs for receipt of services.

HR – Trauma Aware (Shared Services)

- Existing positions will be modified to integrate trauma informed practices into our work environments mitigating risk of re-traumatization of employees and clients.
- This section is a shared services section and will support and provide service to both ODHS and OHA agencies with a combined workforce of approximately 16,000 employees.

- Existing positions will be modified to develop policy and business practices throughout ODHS and OHA that infuse trauma informed practices in our work models and program delivery processes.
- Existing positions will be modified to support domestic violence policy, training, and practices across ODHS and OHA. In addition, these positions will support policy and business process in other critical areas, including but not limited to:
  - Trauma Response Services
  - Employee Loss Response
  - Critical Incident Stress Management
  - Suicide Prevention, Intervention and Postvention

Office of Facilities Management (Shared Services)

- Existing positions will be modified to ensure security and safety in public buildings, adequate construction planning and procurement administration, as well as inventory control and oversight for ODHS and OHA, including mitigating property damage and loss.

5. What are the **startup and one-time costs** associate with this POP?

   - None anticipated

6. What are the **ongoing costs?**

   - Contracted services for safety and security.
   - Equipment maintenance costs are calculated within the purchase prices.

7. What are the **sources of funding (revenue)** and the funding split for each one?

   - Facilities is funded as a section within the centralized ODHS State Assessments & Enterprise-wide Costs budget for buildings as well as for Facilities Improvements and Contracted Security services.

8. What are potential **savings?**

   - OFM funding request for $4 million to centrally manage security contracts across the state will allow ODHS to leverage the spend by negotiation standardized contracts in advance of crisis rather than attempting to manage multiple small contracts at high prices out of various budgets managed in the field. This also reduces the risk of litigation and increases equitable contracting practices.

- Investment in Facilities Improvements will help reduce the expense ODHS is currently absorbing due to property damage and loss, staff injuries, tort claims and other lawsuits. Safety has no price tag when it comes to community members accessing services.

ODHS Policy Option Package (POP) Form
2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	ODHS – Child Welfare and Self-Sufficiency Programs
POP Title	112 - Evidence Based Services for Community Pathways to Prevention: Federal Prevention Plan Implementation
Related Legislation	Federal Family First Prevention Services Act (FFPSA)
Summary Statement (5 to 7 sentences)	To continue work currently underway as part of the federal Family First Prevention Services Act (FFPSA), ODHS is requesting funding for implementation of evidence-based programs related to parenting skills, substance use disorder and mental health services. Funding would advance Family First work serving Tribal communities, kinship caregivers and families across Oregon, promoting resilience and healing by addressing the underlying reasons children enter foster care. Funding will enable ODHS to continue prevention work beyond 2026, when federal Family First Transition grant funding ends. State funding would give ODHS access to 50 percent federal reimbursement dollars for ongoing Family First implementation, including training and technical assistance to build the behavioral health and parenting service array. Without a state investment, ODHS will not be able to continue implementing Family First Prevention Services and families would lose access to critical services that prevent costly and less-than-ideal downstream Child Welfare interventions such as foster care.

ODHS 2025 POP Long Form

Part 1. **SETTING THE STAGE**

1. In one sentence, identify the **core value(s)** driving this POP. In the big picture, why does it matter?

   Funding for Family First Prevention Services would continue implementation of evidence-based practices in accordance with Oregon's Title IV-E Prevention Plan, serving Tribal communities, kinship caregivers and families across Oregon, promoting resilience and healing by addressing some of key the underlying reasons children enter foster care.

2. Describe the **problem/s or opportunity/ies** this proposal would address.

   Families at risk of child welfare involvement often need supportive resources to stabilize during a time of crisis. Family Stressor Data from 2022 show that over 60 percent of child welfare cases identified issues with caregiver substance abuse, caregiver mental illness or child mental or physical disability.[1]

   Family First evidence-based practices and connected services are designed to provide specialized supports to help families facing these and other stressors get help with parenting skills, substance abuse and mental health issues that may contribute to child abuse. Funding this work will help families get what they need before child abuse occurs and will help both community providers and ODHS serve more families in their homes and communities, decreasing the number of children removed from their families and placed in foster care.

   [1]*The above data is from the 2022 Child Welfare Databook: https://www.oregon.gov/odhs/data/cwdata/cw-data-book-2022.pdf As the POP proceeds, CW will work with ORRAI to review up to date data. CW has previously requested, and will request again, all removal and family stressor data disaggregated by age, gender,*

and race/ethnicity.

3. What **data** tells you that this problem/opportunity exists? Please be specific and provide data sources.

   Child Welfare data demonstrates that families who come into contact with the system have needs that can be addressed by approved Family First evidence-based practices designed for substance use disorder, mental health and improving parenting skills. These services reduce the need for overly-traumatizing, costly and unnecessary Child Welfare interventions.

   According to 2022 Family Stressor Data:

   - 40.2 percent of cases identified a need related to parent/caregiver substance abuse.
   - 12.7 percent of cases identified parent/caregiver mental illness.
   - 11.5 percent of cases identified child mental/physical disability.

   In 2022 the following data was collected relating to removal reasons:

   - 64.6 percent of cases identified Neglect as a reason for removal.
   - 48.2 percent of cases identified Caregiver Drug Use as a reason for removal.
   - 11 percent of cases identified Caregiver Alcohol Use as a reason for removal.
   - 7.2 percent of cases identified Child Behavior as a reason for removal.

   The above data is from the 2022 Child Welfare Databook: https://www.oregon.gov/odhs/data/cwdata/cw-data-book-2022.pdf As the POP proceeds, Child Welfare will work with ORRAI to review up-to-date data. Child Welfare has previously requested, and will request again, all removal and family stressor data disaggregated by age, gender, and race/ethnicity.

   These data points illustrate the needs that Family First Prevention Services are designed to address.

   After an objective review of research on the evidence-based prevention services included in the Oregon Title IV-E Prevention Plan, the Title IV-E Prevention Services Clearinghouse found them to be effective programs linked with the following outcomes for families:

   - Increased positive parenting practices.
   - Increased family engagement and retention in services.
   - Improved family functioning.

- Improved parent/caregiver emotional and mental health.
- Improved child behavioral and emotional functioning.
- Improved child social and cognitive functioning.
- Improved child physical health and development.
- Enhanced internal motivation to change.
- Decreased substance use disorder for parents and children.
- Decreased child delinquent behavior.
- Reduced child maltreatment.

Funding for Family First services that specifically address substance use, mental health, parenting and kin caregiver needs would enable ODHS to serve far more families in their homes and communities, while decreasing the number of children removed from their families and unnecessarily placed in foster care.

4. Is this POP, in whole or in part, a response to an **audit?** Explain.

Prevention services, and often specifically Family First implementation, have been mentioned in multiple audits across agencies and in publicly available reports. Audits and reports include:

- 2020 Secretary of State Audit: Oregon Can More Effectively Use Family Services to Limit Foster Care and Keep Children Safely at Home. https://sos.oregon.gov/audits/Documents/2020-26.pdf
    - This audit included two specific recommendations: 1) to develop and implement a Family First plan, and 2) work with the Oregon Health Authority to create data collection and metrics for foster care prevention.
    - These recommendations have largely been satisfied. However, Child Welfare requires funding through this POP to continue implementation of Family First.
- Other reports that mention and support full implementation of FFPSA and/or prevention services include:
    - Oregon Health Authority 2020 audit: Systemic Issues in Oregon's Mental Health System Leave Children and Their Families in Crisis https://sos.oregon.gov/audits/Documents/2020-32.pdf
    - The 2023 report by Dr. Marty Beyer: https://olis.oregonlegislature.gov/liz/2023I1/Downloads/CommitteeMeetingDocument/279279 This report includes multiple recommendations that are supported by Family First implementation, including building a developmentally appropriate substance use service array, providing trauma-informed treatment to youth and developing a more prepared

workforce. All of these elements are congruent with Family First service development.
    - The Alvarez and Marsal report, commissioned by then Governor Kate Brown, included multiple recommendations for implementation of prevention services between ODHS and OHA when completed in 2019.
    - ODHS has completed a Title IV-E Prevention Plan, but it will not be able to maintain progress without investment through this POP.

5. What has **already been done** to address or mitigate the problem/ opportunity?

   From 2019 to 2026, the federal government gave states temporary, 100 percent funded transition grants to set up their new prevention systems and prepare for the shift to the new funding model of 50 percent federal matching for state investments.

   ODHS has strategically utilized these grants to begin implementation and to develop the infrastructure to support evidence-based practices in Oregon. This POP will be primarily utilized for a continuation of services and supports to families and growth of evidence-based programs as approved in the Title IV-E Prevention Plan for Oregon.

   The FFPSA provisions related to the prevention of foster care and maltreatment required the development of a whole new prevention system. In 2021, Oregon developed the Title IV-E Prevention Plan to outline how this new system will operate. The plan was approved by the Children's Bureau. Since that time, ODHS has:

   - Implemented a governance structure to guide the prevention system development.
   - Defined eligibility criteria and target populations.
   - Selected and implemented evidence-based practices.
   - Developed processes to ensure services are trauma-informed.
   - Developed a child-specific prevention plan.
   - Developed a new approach to prevention case management through values-based engagement and co-case management with Self-Sufficiency Programs.
   - Started developing processes to ensure appropriate services referral, linkage, and oversight.
   - Coordinated with other services provided to children and families under Oregon's Title IV-B Plan.
   - Enhanced monitoring of child safety for children and families receiving Family First services.
   - Started evaluation and continuous quality improvement of the prevention programs.

- Created evidence-based practice provider workforce training and support.
- Created Child Welfare and Self-Sufficiency Programs workforce training and support.
- Created a prevention caseload model and methods for prevention program reporting and federal claiming, and the development of prevention plans with Tribes in Oregon to enable access to Title IV-E prevention funds.

Additionally, FFPSA requires states to implement a Kinship Navigator Program. Oregon has used the transition grants to partner with a community-based organization to develop and implement the Oregon Kinship Navigator Program, including the development of:

- A basic service center including:
  - A 1-800 toll-free phone line, accessible M-F 9 a.m.-5 p.m.
  - Email business accessibility 24/7.
  - The Oregon Kinship Navigator Website.
- Financial and tangible supports for kinship families.
- Social, emotional, and recreational supports for children in kinship families.
- A Kinship Navigator Advisory Committee.
- Kin caregiver support groups.
- Resource guides and materials.

ODHS has also worked with community and system partners to identify additional funding streams to support these services. For example, many of the services eligible for Title IV-E Prevention funds are behavioral health services paid for through Medicaid. Child Welfare coordinates funding so that Title IV-E Prevention funds can cover administrative costs not typically covered by Medicaid (training and technical assistance, peer support, child care, travel, etc.). This model can be used to implement other services to ensure a diversity of funding streams and optimal use of federal funds.

Utilizing Title IV-E Prevention funds to build capacity for evidence-based services where Medicaid cannot also provide investment in the growth and sustainability of the overall behavioral health system, including comprehensive funding for the "true" cost of services (i.e., new models, curricula, training, etc.). This can contribute to greater stability for providers, programs and the behavioral health workforce.

6. What are the **risks** if the problem/opportunity is not addressed?

   The Family First Prevention Services Act (FFPSA) aims to prevent children from entering foster care by allowing 50 percent federal reimbursement for parenting skills, mental health, substance use disorder, and kinship navigation services provided to

families at risk of entry into foster care through community providers. The services must be evidence-based, trauma-informed, and must include a prevention plan for the child to remain safely at home or with a kin caregiver. Each state must develop a Title IV-E Prevention Plan approved by the federal Children's Bureau that identifies how they will implement these services. Oregon's Title IV-E Prevention Plan was approved in 2021.

Since that time, ODHS has utilized temporary Family First transition grants to invest in infrastructure to support Oregon's approved Prevention Plan. Following conclusion of the federal transition grants, ODHS can access a 50 percent federal fund match for services included in Oregon's Title IV-E Prevention Plan, and related staff and training costs. Without a state match, ODHS and Tribes in Oregon will not be able to access federal Title IV-E Prevention funds. Child Welfare will be unable to continue current services or fund expansion of service capacity through community providers. Cutting this progress short could undermine efforts to implement prevention on a wider scale, resulting in more separation of children from their families, greater costs to the system, and additional trauma for children and families. Additionally, Tribes in Oregon would have limited access to Title IV-E prevention funds given that ODHS is the required pass-through agency.

While the top priority for Child Welfare is to fully fund the services in the POP, if the requested positions are not also funded, there is a risk that federal billing activities for these services will be insufficient to continue implementation.

Evidence-based prevention and kinship navigation services and supports through Family First are a key strategy to ODHS's commitment to promoting prevention and supporting families. Without funding through this POP, ODHS will be limited in its ability to meet family needs further upstream and prevent entry into foster care.

7. What **solution** are you proposing through this policy option package (POP)?

   ODHS is proposing a POP that will provide state match investments for the continuation of Family First Prevention Services. With state investment, federal revenue through Title IV-E will be available to continue building and implementing evidence-based services initiated with the 100 percent federal Family First Transition Grants, including:

   - Evidence-based practices in Oregon's Title IV-E Prevention Plan.
   - The Oregon Kinship Navigator Program.
   - Evaluation and continuous quality improvement of the prevention services.
   - Positions specifically developed for successful implementation of Family First services. These positions require a new and unique skill set to monitor newly

contracted services, conduct federal billing activities, monitor fidelity to evidence-based models and support evaluation activities.

8. What **alternative solutions** were considered and what were the reasons for selecting your solution?

   ODHS considered the following funding alternatives:

   - Utilize funding that is allocated for other prevention services:
     - ODHS could utilize state general funding currently used to fund other family preservation and prevention services. These services and supports are designed by communities and Tribes in Oregon to serve families in their homes and prevent unnecessary Child Welfare involvement.
     - Since these services are not eligible for Title IV-E Reimbursement, this would require ODHS to end several contracts with current service providers that were identified by their community or Tribe as providing an effective community-specific or culturally specific service critical to preventing Child Welfare involvement.
     - This disinvestment in community-based services in favor of Family First services would communicate a prioritization of federal revenue over programs developed by and for Oregonians.
   - Develop Family First services on a smaller scale:
     - ODHS could consider scaling service development and delivery down. This would potentially include contracting with fewer providers, ending implementation of some of the evidence based practice and limiting services to specific regions, which could further inhibit service equity for eligible families.
     - This would limit ODHS's ability to utilize federal funds and will undermine statewide implementation of Oregon's Title IV-E Prevention Plan. This is not a favorable alternative because it will dramatically slow Oregon's prevention efforts and may delay Oregon's efforts to make services available to eligible populations identified in Oregon's Title IV-E Prevention Plan.
     - This would still require disinvestment in other prevention services or more limited state investment.

   Ultimately, ODHS determined the solution in this POP necessary because we have seen positive initial results from these programs. The programs are evidence-based, and families and communities will benefit from continued implementation of these services. As of the first quarter of 2024, according to the ODHS Family Preservation Data Dashboard, only 25 percent of children identified as being at imminent risk of foster

care were placed out of the home after receiving services. This is the best avenue for maximizing federal revenue to support these services.

9. Has the proposed solution been successful in **other contexts or jurisdictions?** Alternatively, if there is no precedent, explain why you believe this concept will achieve its aims here in Oregon.

   Yes. Several states are currently implementing Family First evidence-based practices in their respective jurisdictions. ODHS participates in monthly national learning collaboratives and has partnerships with national technical assistance partners, such as Casey Family Programs and Chapin Hall, to share successes and lessons learned.

   As ODHS works with community partners to implement the Family First Prevention Plan it will continue to share information and learn with other jurisdictions.

   There are several reasons to believe that this POP will be successful in Oregon, including:

   - Sustainable funding: The federal match for service delivery, evaluation, training, and administrative costs of implementation is substantial (dollar for dollar) and uncapped which will enable ODHS to implement services broadly and predictably.
   - Previously developed infrastructure: Much of the infrastructure and start-up needs for Family First services have been developed through strategic investment of federal funding, i.e., provider capacity building, training in the selected models, creating the infrastructure required to provide high-quality evidence-based services, and providing evaluation and continuous quality improvement for Family First implementation. This enables ODHS to utilize ongoing Title IV-E Prevention funding on the delivery of services, as opposed to using it for infrastructure building.
   - Federal support: Senator Wyden was a primary sponsor of the FFPSA. ODHS meets regularly with his staff regarding the progress of Family First in Oregon and the need for potential advocacy at the federal level to remove barriers to implementation.
   - Community, Tribal, and cross-agency partnership: Family First has a lot of support within Oregon communities and Tribes and across state agencies. ODHS has developed close community, cross-agency, and inter-governmental

partnerships focused on prevention. This broad partnership greatly improves the likelihood of success.

10. Does this POP require a **new statute or changes to existing statute(s)?** If so, have you completed the Legislative Concept request form for statutory changes?

    This POP does not require a statute change. ODHS has the regulatory authority to carry out this work if funded appropriately.

Part 2. **EQUITY AND INCLUSIVITY**

1. How will this POP **address inequities** faced by impacted communities?

   African American and American Indian/Alaska Native children and families are overrepresented in Oregon's Child Welfare system. In implementation of Family First in Oregon, Child Welfare and system partners developed strategies to ensure that prevention services are available to these priority populations without increased unnecessary surveillance of families. This includes how services are made available to families, data reporting requirements, and limiting who has access to data regarding family participation in prevention services. The Family First evaluation also includes tracking whether the implementation of Faily First is meeting its intent of keeping children safely with their families and not exposing more families to unnecessary involvement with the Child Welfare system.

Part 3. **MEASURING PERFORMANCE**

1. Which of your **key performance measures (KPMs)** is this POP connected to?

   KPM 4: ABSENCE OF REPEAT MALTREATMENT OF ABUSED/NEGLECTED CHILDREN (CW) - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization

   KPM 5: TIMELY REUNIFICATION OF FOSTER CHILDREN (CW) - The percentage of foster children exiting to reunification within 12 months of foster care

   KPM 7: REDUCTION OF RACE/ETHNICITY DISPARITIES IN LENGTH OF STAY (CW) - Outcome disparity in length of stay (reported in months) for children in substitute care by race/ethnicity

KPM 8: CHILDREN SERVED BY CHILD WELFARE RESIDING IN PARENTAL HOME - The percentage of children served in Child Welfare on an average daily basis (in home and foster care) who were served while residing in their parent's home

2. If none, are you proposing a **new or modified KPM?**
   Not applicable.

3. How will the work you're proposing help ODHS meet or exceed the **KPM targets?**

   KPM 4: The services in the Oregon Title IV-E Prevention Plan have shown ability to prevent repeat maltreatment of abused/neglected children. Through this POP ODHS will expand the type and scope of services to specifically target prevention of repeat maltreatment

   KPM 5: Family First services have demonstrated evidence in addressing family needs to prevent child removal from their families and placement in foster care. Family First services can also be delivered to reunifying families who had children placed in foster care. This application of Family First services is expected to minimize the amount of time that youth spend in foster care, and following reunification are anticipated to reduce the number of youth who re-enter foster care.

   KPM 7: ODHS has strongly prioritized partnerships with culturally and linguistically specific providers in Family First implementation. To accomplish this, Child Welfare has prioritized contracts and partnerships with culturally specific providers, with the support of their communities, to develop Family First evidence-based practices and other prevention services. Further, ODHS has consciously developed the Family First Design Team to include members of under-represented communities to ensure that further planning fully addresses current disparities.

   KPM 8: This measure represents the primary goal of Family First services. This POP enables Child Welfare to offer additional, evidence-based services to families. Child Welfare will be able to serve more families in home, and fewer in foster care, as it is able to expand the type of services and eligible families through Family First services.

4. What are the envisioned **outputs** of this POP?
   Consider activities you will be able to count in actual numbers: partners engaged, clients served, regions served, applications processed, staff trainings conducted, referrals made, transitions completed, families participating, etc.

Through this POP, Child Welfare will work with Tribes, partner agencies, and community partners to implement the evidence-based practices in Oregon's approved Title IV-E Prevention Plan. Expected outputs for each service include:

Functional Family Therapy

Functional Family Therapy (FFT) is a short-term prevention program for at-risk youth and their families. FFT aims to address risk and protective factors that impact the adaptive development of 11- to 18-year-old youth who have been referred for behavioral or emotional problems. The program focuses on developing a positive relationship between therapist/program and family, increasing motivation for change, identifying specific needs of the family, supporting individual skill-building of youth and family, and generalizing changes to a broader context. Typically, therapists will meet weekly with families face-to-face for 60 to 90 minutes and by phone for up to 30 minutes, over an average of three to six months. They work as a part of an FFT-supervised unit and receive ongoing support from their local unit and FFT training organization.

Program includes:

- 20 clinicians trained in FFT, and ongoing infrastructure to train an additional 10 each year. Training includes:
  - Three in-person trainings per year.
  - Weekly coaching/consultation.
  - Monthly learning collaborative.
  - Three fidelity reviews each year.
  - Training program lasts three years and results in self-sustaining sites that no longer require ongoing technical assistance.
- 200 families served in year one, 350 families served in year two.
- Pathway created to fund training and technical assistance for Juvenile Justice agencies and the Oregon Youth Authority.
- Methodology finalized and implemented to coordinate Medicaid funding with ODHS.

Parents as Teachers

Parents as Teachers (PAT) is a home-visiting parent education program that teaches new and expectant parents skills intended to promote positive child development and prevent child maltreatment. PAT aims to increase parent knowledge of early childhood development, improve parenting practices, promote early detection of developmental delays and health issues, prevent child abuse and neglect, and increase school readiness and success. The PAT model includes four core components: personal home visits, supportive group connection events, child health and developmental screenings, and community resource networks. PAT is designed so that it can be delivered to diverse

families with diverse needs, although PAT sites typically target families with specific risk factors. Families can begin the program prenatally and continue through when their child enters kindergarten. Services are offered on a biweekly or monthly basis, depending on family needs.

Program includes:

- 24 individual sites established with the capacity to train an additional 7 each year. Training includes:
  - Initial certification training.
  - Monthly coaching and case consultation.
  - Two fidelity reviews each year.
  - Menu of advanced trainings and coaching opportunities.
- 140 families served in year one, 280 families served in year two.

Parent Child Interactions Therapy

In Parent-Child Interaction Therapy (PCIT), parents are coached by a trained therapist in behavior-management and relationship skills. PCIT is a program for two- to seven-year-old children and their parents or caregivers that aims to decrease externalizing child behavior problems, increase positive parenting behaviors, and improve the quality of the parent-child relationship. During weekly sessions, therapists coach caregivers in skills such as child-centered play, communication, increasing child compliance, and problem-solving. Therapists use "bug-in-the-ear" technology to provide live coaching to parents or caregivers from behind a one-way mirror (there are some modifications in which live same-room coaching is also used). Parents or caregivers progress through treatment as they master specific competencies, thus there is no fixed length of treatment.

Program includes:

- 12 new partnerships developed with existing providers. Partnerships will include:
  - Child Welfare specific referral pathways for prevention.
  - Data collection related to family participation and outcomes.
  - CW grant funding for non-Medicaid reimbursable costs.
- Capacity to develop an additional 10 PCIT providers as need arises. Child Welfare will collaborate with OHA on necessity for new providers based on:
  - Cultural and linguistically specific providers.
  - Geographic availability.
  - Persistent waitlists for services.

Motivational Interviewing

Motivational Interviewing (MI) is a method of counseling clients designed to promote behavior change and improve physiological, psychological, and lifestyle outcomes. MI aims to identify ambivalence for change and increase motivation by helping clients progress through five stages of change: pre-contemplation, contemplation, preparation, action, and maintenance. It aims to do this by encouraging clients to consider their personal goals and how their current behaviors may compete with attainment of those goals. MI uses clinical strategies to help clients identify reasons to change their behavior and reinforce that behavior change is possible. These clinical strategies include the use of open-ended questions and reflective listening. MI can be used to promote behavior change with a range of target populations and for a variety of problem areas. MI is typically delivered over one to three sessions with each session lasting about 30 to 50 minutes.

Program includes:

- 12 sites established with capacity to add six each year.
  - Sites developed with providers currently contracted with Child Welfare for in-home services and Tribes in Oregon.
  - Development includes contract amendments, funding for training, fidelity monitoring, and expanded reporting.
- 100 families receive services that contain MI in first year, 200 in year two.
- Established list of MI trainers to provide training and technical assistance to any interested provider and partner with MI Trainers using an Indigenous training model with Tribes.
- Development of a streamlined and accessible training plan.

<u>Oregon Kinship Navigator Program</u>

Oregon Kinship Navigator is a statewide resource and referral service for grandparents raising grandchildren and other relative caregivers.

- Implement and maintain an evidence-based program model that is approved by the Title IV-E Prevention Services Clearinghouse and includes:
  - A Basic Service Center including:
    - A 1-800 toll-free phone line, accessible M-F 9am-5pm.
    - Email business accessibility 24/7.
- The Oregon Kinship Navigator Website
  - Financial and tangible supports for kinship families
  - Social, emotional, and recreational supports for children in kinship families
  - A Kinship Navigator Advisory Committee
  - Kin caregiver support groups

    - Resource Guides and Materials

- **Outcomes** show how people are better off because of the outputs you listed above. What are your expected outcomes?
  Consider measurable effects like improved service navigability, reduced racial disparities within programs, expanded access to needed services among key populations, improved transition rates, etc.

  Child Welfare is required to submit criteria for data collection and outcome evaluation as part of the Title IV-E Prevention Plan that is submitted for federal approval. For each service Oregon measures:

  Service Level Outcomes: These are service specific measures that demonstrate the impact that the service had for the participant. These are generally determined by utilization of standardized assessment administered before, during, and at the end of service delivery. These outcomes include, but are not limited to:

  - Intended service population.
  - Expected capacity.
  - Number of families referred, engaged in, and completing services.
  - Progress on identified goals.

  Child/Family Well-being Outcomes:
  These are measures that show the degree to which ODHS and our partners are successful in preventing foster care and preventing maltreatment. This includes collecting and analyzing data related to:

  - Families that receive prevention services and whether or not they experience foster care.
  - Time in foster care for families that receive prevention services.
  - Instances of repeat maltreatment when families have received prevention services.

  Program Improvements/Capacity Building:
  Progress towards continuous quality improvement of the program.

  - The evidence-based services that are included in the Family First Prevention Plan have existing fidelity and outcomes metrics by the proprietor or developer of the service and include a robust in-state infrastructure to collect and share fidelity and outcomes information.
  - Oregon is leveraging these existing metrics and infrastructure, in partnership with the Oregon Health Authority, Oregon's evidence-based services certified/affiliate

programs, and community providers who have current Child Welfare contracts, to continue to enhance continuous quality improvement strategies for these services.
- Each service will be continuously monitored to ensure fidelity to the practice model, determine outcomes achieved, and ensure that information gleaned from the continuous monitoring efforts will be used to refine and improve practices.

For the Oregon Kinship Navigator Program, ODHS partners with a community-based service provider to:

- Increase in the number of relatives who assume and maintain responsibility and care for children from their extended families who would otherwise enter the foster care system.
- Increase in the number of relatives who are caring for and parenting relatives' children that are well supported, aware of community resources, and can access them when needed.
- Increase the well-being of children through placement stability with relatives within their family systems and communities.

5. How will you **collect the data** you need to measure the success of this solution? Is this data currently being collected? Have you engaged ORRAI to discuss elements needed to plan for data gathering?

   Data is collected through three methods:
   - Many of the proprietors/developers of evidence-based programs have their own proprietary software to track service delivery and fidelity measures. Child Welfare contracts for training and technical assistance include access to these systems for evidence-based practice providers and ODHS staff. This allows for service level data collection in a streamlined manner.
   - The OR-Kids system has been set up to track child and family specific data. This data is collected by Child Welfare staff filling out a web-based form specific to Family First services.

- Child Welfare has contracted with a national organization to conduct the federally required evaluation of implementation the Title IV-E Prevention Plan. This organization collects additional data relating to family experience in services and information collected by providers but not included in other reporting requirements.

6. To achieve optimal data collection, would you need to make **changes to your case management system?** Describe.

FFPSA requires the reporting of child-level data. Because Family First prevention services are available to some families that are not currently involved with the child welfare system, it is important that their child-specific data not be entered into the Child Welfare database, OR-Kids. These services are voluntary, and thus should not be conflated with services that are required of parents as part of a safety plan with the Child Welfare agency. To achieve optimal data collection for this population served by Family First Prevention Service, ODHS will develop a separate prevention services database.

FFPSA identifies pregnant and parenting teens in foster care as categorically eligible for Family First services. Additional changes are needed to OR-Kids to effectively identify this population, ensure services are available to them, and for accurate tracking that ODHS is receiving federal reimbursement for those services.

Part 4. **IMPROVING CUSTOMER SERVICE**

1. Discuss the ways this POP will **improve customer service**.
    - Families with significant family stressors will have greater access to services that meet their needs and that keep their children safe without the need for removal and placement in foster care.
    - Kinship Caregivers will be able to care for children from their extended families who would otherwise end up in stranger foster care by being well supported and better aware of community resources.
    - Children will have increased wellbeing through placement stability with relatives within their family systems and communities.

2. Will your solution require an **IT investment?** Explain.

    FFPSA requires the reporting of child level data. Since Family First Prevention Services are available to some families that are not currently involved with the Child Celfare system, it is important that their child specific data not be entered into the Child Welfare database, OR-Kids. These services are voluntary for families to participate in, and thus should not be required of parents as part of a safety plan with the child welfare agency. To achieve optimal data collection for this population served by Family First, ODHS will develop a separate prevention services database.

Part 5. **IMPLEMENTATION**

1. If the legislature allocates funds for the proposed POP, how specifically would we **use the money to implement it?**

    Funds would be used to implement and evaluate the following evidence-based prevention services:

- Functional Family Therapy (FFT): A behavioral health service for families with adolescents. This service is delivered to an entire household and has demonstrated effectiveness is preventing system involvement. Funding for these services includes training and technical assistance for providers and coverage for non-Medicaid billable elements of the service.

  POP funds will be utilized as follows:
  - Training and technical assistance: General Fund match for federal Title IV-E Prevention Funds
  - Services: Funding for each contracted provider to cover non-Medicaid reimbursable costs (training, travel, child care, peer support, etc.)

- Parents as Teachers (PAT): A home visiting program for families with at least one child under kindergarten age. The PAT curriculum can be delivered by itself or as a part of other services and supports for families with young children. Funding for this service includes training and technical assistance for provider and coverage for all services provided.
  POP funds will be utilized as follows:
  - Training and Technical Assistance: General Fund match for federal Title IV-E Prevention Funds
  - All service delivery cost: General Fund match for federal Title IV-E Prevention Funds

- Parent Child Interaction Therapy (PCIT): A behavioral health service for parents with children from ages 2-5. Child Welfare will initially work with the Oregon Health Authority to develop relationships with existing PCIT trained providers to target services to families at risk of child welfare involvement. Child Welfare intends to develop formal agreements with PCIT providers to cover non-Medicaid reimbursable elements of the service to support FFPSA goals. As additional service capacity becomes necessary, Child Welfare will fund OHA to offer training to additional providers. Service costs and additional training are eligible for federal match through FFPSA.
  - Training and Technical Assistance: General Fund match for federal Title IV-E Prevention Funds
  - Services: Funding for each contracted provider to cover non-Medicaid reimbursable costs (training, travel, child care, peer support, etc.)

- Motivational Interviewing (MI): An evidence-based approach to service delivery focused on engagement with service participants around their identified treatment goals. Child Welfare will implement Motivational interviewing as a component of other contracted prevention services. Including fidelity-based MI along with other necessary services is expected to increase family engagement and service level outcomes.
  - Training and Technical Assistance: General Fund match for federal Title IV-E Prevention Funds
  - Additional service delivery cost related to MI: General Fund match for federal Title IV-E Prevention Funds

- Oregon Kinship Navigator Program (OKN): a true prevention model that keeps children safe and connected to family in the least intrusive way possible by providing a centralized access point to obtain information, referrals, and supports for relatives parenting their kin through a Basic Service Center, website, call-in line, statewide advisory committee, publications, and educational and support groups and materials. The program also assists state, county, and local agencies to pool resources to create a robust kinship system of care.
  - Training and Technical Assistance: General Fund match for federal Title IV-E Prevention Funds
  - All service delivery cost: General Fund match for federal Title IV-E Prevention Funds

- Turn two existing limited duration positions into permanent positions for the ongoing provision of Family First services (leading to federal revenue to pay for 50 percent of the personnel costs).

2. What are the biggest potential barriers or risks to successful implementation?

   Child Welfare has developed significant infrastructure to implement Family First services effectively. While Family First has a high likelihood of success, especially with funding through this POP, the following barriers remain:

   - Staffing Resources: A primary barrier to implementation is ensuring that Child Welfare is staffed to implement Family First services. Appropriate staffing, including the positions identified in the POP, has implications for both timeliness and quality of implementation. Child Welfare has made significant progress in

Family First implementation with limited resources. This progress has been slower than expected due to a small number of staff positions dedicated to the work.

- Community Support: There is broad support for Family First throughout communities in Oregon. If implementation stalls or services are not implemented based on community input, that could be a barrier to successful implementation. To mitigate this potential barrier, ODHS has emphasized community involvement in all phases of design and implementation.

3. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?
    - Child Welfare Division
        - Family First & Integrated Policy Unit
            - The unit with the primary responsibility for the implementation of Family First and integration of intersecting prevention policy and funding across agencies.
        - Federal Policy & Resources Unit
            - Will help ensure that federal requirements are met and reported appropriately.
        - Project Management Office
            - Will provide ongoing strategic planning and project management support to the implementation of Family First.
        - Continuous Quality Improvement Team
            - Will coordinate with national evaluator to integrate statewide Child Welfare continuous quality improvement efforts with Family First continuous quality improvement.
        - Family Preservation
            - Will develop the practice model and implement it throughout the state to guide ODHS staff in how to best serve families in their homes and prevent placement in foster care, complementing Family First prevention services.
        - Business Operations
            - Will consult on the development of contracts with providers as part of Family First.
        - Equity, Training & Workforce Development
            - Will participate in the development of training for staff related to Family First implementation.
    - Self-Sufficiency Programs

    - Will be a key partner in the planning and implementation of Family First, including determining eligible populations, pathways into prevention services and what prevention services are included in the Oregon Title IV-E Prevention Plan.
- Oregon Youth Authority
    - Will be a key partner in the implementation of Functional Family Therapy and Motivational Interviewing regarding how it can serve youth involved with the juvenile justice system in Oregon.
- Juvenile Departments
    - Will be key partners in the implementation of Functional Family Therapy and Motivational Interviewing regarding how it can serve youth involved with the juvenile justice system in Oregon.
- Oregon Health Authority
    - Maternal & Child Health
        - Will be a key collaborator regarding prevention home visiting programs funded through Family First such as Parents as Teachers and Family Spirit.
    - Behavioral Health
        - Will be a key partner in the implementation of Parent Child Interactive Therapy, Functional Family Therapy and Motivational Interviewing.
    - Medicaid
        - Will coordinate data and payment reporting with Family First staff and providers for any Family First services that are also eligible for Medicaid, including Functional Family Therapy and Parent Child Interactive Therapy.
- Department of Early Learning and Care
    - Will be a key collaborator regarding prevention home visiting programs funded through Family First such as Parents as Teachers and Family Spirit.
- Portland State University Center for the Coordination of Home Visiting Services
    - Will be a key collaborator regarding prevention home visiting programs funded through Family First such as Parents as Teachers and Family Spirit.
- Tribes in Oregon
    - Will implement Motivational Interviewing and Family Spirit.

Part 6. **BUDGET**

1. Are there **prior investments** allocated for this policy package?

   Child Welfare has received federal grants for transition and start-up funding:
   - FFPSA Transition Grant (Title IV-B, Part 2): $6,072,633 total
   - FFPSA Funding Certainty Grants (Title IV-E): $12,757,977 total
   - FFPSA Kinship Navigator Program Grant (Title IV-B): $200,000 annually

   These grants end September 30, 2026. Child Welfare intends to expend all grant funding prior to utilizing funding resulting from the POP.

2. What **assumptions** affect the pricing of this policy package?

   Costs for Services, Training, and Technical Assistance remain consistent: Significant changes in service and training costs could change the amount needed to fund services.

   ODHS will serve a high percentage of families in the target population: Federal match is only accessible when families served meet the target population as described in Oregon's Title IV-E Prevention Plan. ODHS has developed referral pathways to maximize and prioritize families eligible for the match. The total federal reimbursement is dependent on serving a high percentage of eligible families.

   Provider Workforce will be sufficient to support evidence-based practices: Oregon has a significant workforce shortage across the behavioral health and family serving systems. EBP implementation is dependent on provider ability to recruit and retain qualified staff. Workforce shortages could create delays in implementation or change the scope of Oregon's implementation.

3. Will there be **changes to caseload, cost per case or services provided** to specific populations? Explain.

   Family First services are intended to change service delivery and caseload in two primary ways:
   - Serve more children and families in their homes and communities.
   - Decrease the total foster care population.

   The initial impact of this work will be relatively modest and may not have dramatic impacts on caseloads. As ODHS improves the ability to develop services, match services

to family needs, and appropriately refer families, foster care caseloads will decrease as in-home cases will increase.

The cost of providing foster care services goes up each year as fewer families in Oregon qualify for the income requirements related to Title IV-E foster care reimbursement. Reimbursement for Title IV-E Prevention Services, however, have no income requirements. So, the more prevention investments we make the greater the overall Title IV-E reimbursement rate will be for the state of Oregon.

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.

   The initially seven positions were requested but due to budgetary constraints are being scaled back to just two critical positions:

   Critical Positions:

   - 1 Family First Tribal Liaison (Operations and Policy Analyst 4)
     - Currently limited duration position funded through the Family First Transition Grants which come to an end September 30, 2026
   - 1 Family First Project Manager (Project Manager 3)
     - Currently limited duration position funded through the Family First Transition Grants which come to an end September 30, 2026.

   Justification for Requested Positions

   The **Family First Tribal Liaison** (OPA4) is required to engage and consult with the Nine Federally Recognized Tribes in Oregon for the design, implementation and monitoring of the Tribes Social Services programs. The focus of this position is to enable access for Tribes to Title IV-E Prevention funding to support their prevention programs. This position negotiates government-to-government agreements for pass-through of state and federal dollars to the Tribes. It also negotiates and implements contracts with university partners who will be responsible for training and evaluating the Oregon Tribes on evidence-based practices. Oregon Tribes Social Services Programs already provide services to their Tribal citizens to prevent children from entering foster care, but the Tribes need additional support and funding. Each Tribe is different. ODHS must honor the sovereignty of each Tribe.

   The **Family First Project Manager** (PM3) is part of Child Welfare's Project Management Office and coordinates all project management and implementation activities for Family First. Implementation of Family First is a transformational Child

Welfare priority, directly linked to the Vision for Transformation, the ODHS Strategic Direction, and how Child Welfare operates to support the individual needs of families and best serves Oregon's children and young people. Due the highly complex, multi-agency nature of this work, Project Management support is essential for successful Family First implementation. This position will provide project management support and direction to all levels of management and staff and is responsible for evaluating current program operations, researching trends, making effective recommendations to upper-level management, and developing long- and short-range goals and objectives for initiating, planning, executing, monitoring, controlling, and implementing cross-cutting, transformational initiatives within the Family First plan. This position is vital to support this work's short-and long-term vision, including creating comprehensive project plans and deliverables to ensure services and support compliance with Oregon's Title IV-E Prevention Plan and meet the highest quality standards. This support is essential to ODHS's ability to maximize federal funds while delivering services that prevent families from further Child Welfare involvement. This position also supports the development of new Title IV-E Prevention Plan amendments. This includes extensive planning, incorporating all required FFPSA elements, and supporting ODHS in creating an effective and achievable Family First plan. This position will also support plans for data collection, contracting, and reporting that support claiming federal funds and several continuous quality improvement processes.

5. What are the **startup and one-time costs** associate with this POP?

   Most start-up and one-time costs associated with this POP have been funded through the Family First Transition & Certainty grant funds. This includes initial costs for training and technical assistance contracts and infrastructure for Family First evaluation.

   There will be additional one-time costs for the following:
   - Development of a data system to collect data for families referred to services who are not involved with Child Welfare.
   - Start-up costs for evidence-based practices as they are added to the Title IV-E Prevention Plan.

6. What are the **ongoing costs?**

   Service costs:
   - Training and technical assistance: Child Welfare maintains direct contracts for training and technical assistance for evidence-based practices required by FFPSA. These contracts are billed per year based on the number of individuals or

organizations that are trained. This is a key component to Oregon's Continuous Quality Improvement strategy and ensures that services are delivered to fidelity.

- Service delivery: Ongoing costs associated with direct services to children and families. Service delivery covers the majority of ongoing costs that Child Welfare incurs related to Family First. For services with no additional funding streams, Child Welfare pays the entire cost of services. For services with additional funding streams (such as Medicaid), Child Welfare enhances with payment of uncovered costs.

Evaluation and Continuous Quality Improvement (CQI):

- Child Welfare maintains a contract for CQI and evaluation of services that will continue. This contract will require ongoing payment to cover cost of the evaluation and CQI supports that are a required component of FFPSA.

7. What are the **sources of funding (revenue)** and the funding split for each one?

Title IV-E Prevention Funds

- Family First Prevention Services – 50 percent funding split until September 30, 2026. Starting October 1, 2026, will go up to the Federal medical assistance percentage (FMAP) rate.
  - expenditures related to Family First services and programs that are approved by the Title IV-E Prevention Services Clearinghouse and included in the approved the Oregon Title IV-E Prevention Plan.
- Family First Administrative costs – 50 percent funding split
  - expenditures necessary for the provision of Family First Prevention services for activities approved by the Children's Bureau that promote the development of processes and procedures to establish and implement the provision of the services for individuals who are eligible and for data collection and reporting.
- FFPSA Training costs – 50 percent fund split
  - expenditures with respect to the provision of Family First prevention services for training for staff employed by or preparing for employment by the State Child Welfare agency – including how to determine who are individuals eligible for the services or programs, how to identify and provide appropriate services and programs, and how to oversee and evaluate the ongoing appropriateness of the services and programs.

8. What are potential **savings?**

The POP enables significant potential savings from increasing revenue for existing positions that support the provision of prevention services, this could include but is not limited to:

- Potential savings in existing personnel costs
    - Staff from the Federal Policy & Resources Unit of Child Welfare who participate in the federal reporting and claiming and staff who participate in the coordination of IV-E agreements with Tribes in Oregon.
    - Staff from the Program Management Office of Child Welfare who manage projects related to Family First Prevention Services
    - Staff from the Continuous Quality Improvement Team who support the Family First Prevention Service CQI structure and processes.
    - Staff from the Family Preservation Program of Child Welfare and Self-Sufficiency Programs who participate in providing prevention services, connecting families to prevention services, and/or training and support for staff in identifying appropriate services for families.
    - Staff from multiple programs who are providing Family First Prevention Services directly to eligible families (such as staff providing Motivational Interviewing)
    - Staff from the Equity, Training & Workforce Development Team who are providing training to Child Welfare staff on the provision of prevention services.
    - Staff from the Business Operations Team of Child Welfare who are assisting with the administration of prevention service contracts.
        - Potential savings in existing training costs.
        - Existing contracts with university partners for the training of child welfare staff in prevention services.
- Potential savings for decreased foster care caseload:
    - The initial number of families served through Family First services will be relatively small.
    - As Child Welfare expands services and eligible populations it is expected that the number of families served in home will increase and the number of children served in foster care will decrease.
- This POP will also create opportunities for potential savings for system partners. Several services eligible for Title IV-E Prevention funding are evidence-based substance use disorder and mental health services. In Oregon, these services are primarily covered by Medicaid. While Title IV-E funds cannot pay for Medicaid funded services, it can be for the training, technical assistance, and other elements

of the service that Medicaid cannot pay for. This creates the opportunity for ODHS to partner with providers and agencies to invest in quality services at a sustainable rate.

TOTAL FOR THIS POLICY PACKAGE

ODHS Policy Option Package (POP) Form
2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	Oregon Department of Human Services (companion POP to OHA) APD, ODDS, CW, VR, SSP, OEP, DELC, OHA
POP Title	201 - Mainframe Modernization
Related Legislation	
Summary Statement (5 to 7 sentences)	The Oregon Department of Human Services (ODHS) relies on mainframe systems that exceed 50 years of age, posing significant risks to service delivery, system integrity, and legislative compliance. These outdated systems hinder the agency's ability to meet modern technological, security, and operational demands, leaving critical services for over 1.5 million Oregonians vulnerable. Staff and advocates, including SEIU, have raised concerns about how these systems negatively impact homecare workers, adult foster home providers, and other vital services. The requested funding and staffing for the 2025-27 biennium will support the planning, contracting, and continue the implementation necessary to transition off this antiquated infrastructure. This modernization will enhance program efficiency, provider payment accuracy, and benefit delivery, while aligning with federal expectations for sustainable IT solutions. Failure to act risks prolonged system outages, increased manual interventions, and compromised service quality for vulnerable populations across Oregon.

	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE

ODHS 2025 POP Long Form

Part 1. SETTING THE STAGE

1. Briefly describe the **core value(s)** driving this POP. In the big picture, why does it matter?
   Modernizing our IT systems is essential to ensuring the continuity of critical services such as medical, food, and provider benefits that support Oregon families. Without these upgrades, ODHS cannot meet federal reporting standards, process accurate payments, or provide responsive services to constituents. This initiative aligns with Oregon's commitment to equity, innovation, and operational excellence, ensuring that the technological backbone of our service delivery evolves with the needs of our communities.
2. Describe the **problem/s or opportunity/ies** this proposal would address.

Problem:

ODHS's reliance on mainframe systems developed in the 1970s limits scalability, security, and efficiency. This outdated technology restricts the agency's ability to integrate modern tools, meet new legislative mandates, and provide seamless service to clients and providers. A failure of this infrastructure could halt benefits processing and jeopardize federal funding.

Opportunity:

This transition to modern IT systems will provide a secure, adaptable, and efficient foundation for future growth. It enables ODHS to adopt 21st-century solutions for eligibility determination, financial reporting, and provider payments. Modernized systems will improve data accuracy, reduce manual errors, and enhance customer satisfaction by offering user-friendly interfaces and greater accessibility.

Risks if Not Addressed

Service Disruption: Mainframe failures could result in delayed or halted benefits for medical, food, and childcare programs, impacting millions of Oregonians.
Increased Costs: Prolonged reliance on legacy systems requires expensive, unsustainable manual workarounds and exposes the agency to escalating maintenance costs.
Federal Compliance Risks: Continued use of outdated systems jeopardizes ODHS's ability to meet federal standards for program administration and reporting.

Staff, Provider, and Client Frustration: Limitations in functionality, such as the inability to provide digital communications or accurate tax reporting, will erode trust and satisfaction.

3. What **data** tells you that this problem/opportunity exists? Please be specific and provide data sources.

   ODHS has data about the age and number of programs and transactions that move through these legacy mainframe systems. Federal partners continue to urge States to move onto more sustainable solutions. Data from the State CIO's office support the conclusion this action is needed to maintain services and customer service expectations.

4. Is this POP, in whole or in part, a response to an **audit?** Explain.

No – This is a companion POP to OHA's Mainframe Modernization POP.

5. What has **already been done** to address or mitigate the problem/ opportunity?

   The Mainframe modernization is a new body of work to eliminate dependencies on the 50-year-old IT systems. Participating in this effort requires additional staffing related to the Oregon Eligibility system and agency programs to support the transition and for new programs which would be part of ONE. Evaluations have been ongoing into these efforts as some functionality will come into ONE and other functionality will need to be procured and developed outside of ONE. This POP allows for planning through implementation, but does not have the implementation costs associated.

6. What are the **risks** if the problem/opportunity is not addressed?

   The Oregon Eligibility system is eligibility system for Medical, SNAP, TANF, TA-DVS and CASH programs for Oregonians, and is built with substantial dependencies on 35+ Mainframe sub-systems. Additionally, some data and existing program functionality of the existing Mainframe systems may need to migrate to the ONE system. ODHS must have participation in the Mainframe planning effort related to impacts and dependencies on the Oregon Eligibility system and other program areas still using the mainframe, or we will experience significant impacts to Enterprise functions in ONE and data/functions currently performed in Mainframe. There will also be increased system downtime and / or manual system workarounds to achieve program outcomes.

   Beyond eligibility there are provider payments, licensing and enrollment, and financing work for ODHS, OHA, and DELC programs still within the mainframe. Providers have limited ability to connect, verify, or engage other than through manual means, passing

work to Providers and Staff.

Computer systems allow us to serve individuals. When providers or consumers ask for mobile options, abilities to produce tax documents, email and text, and communicate in other ways that are natural and part of other areas of business; mainframe systems must be modified and fit into an architecture that wasn't meant for these old systems. This limits our ability to be responsive to the over 1.5 million individuals who rely on us for food, access to child care, medical assistance, long-term services and supports, safety, and compliance of licensure.

7. What **solution** are you proposing through this policy option package (POP)?
   This POP allows for the funding of positions and planning work for implementation POP in 2027-2029 to start to transition full programs off of the mainframe either to the ONE system or other procured options for licensing and provider payments. Please note: this POP does not include the costs for vendor and others to do the work, this is only planning costs.

8. What **alternative solutions** were considered and what were the reasons for selecting your solution?

   Continuing to operate with outdated technology.

9. Has the proposed solution been successful in **other contexts or jurisdictions?** Alternatively, if there is no precedent, explain why you believe this concept will achieve its aims here in Oregon.

   Not applicable

10. Does this POP require a **new statute or changes to existing statute(s)?** If so, have you completed the Legislative Concept request form for statutory changes?
    No

Part 2. **EQUITY AND INCLUSIVITY**

1. How will this POP **address inequities** faced by impacted communities?
   Not Applicable

Part 3. **MEASURING PERFORMANCE**

1. Which of your **key performance measures (KPMs)** is this POP connected to?

   Customer satisfaction

2. If none, are you proposing a **new or modified KPM?**
   Not applicable

3. How will the work you're proposing help ODHS meet or exceed the **KPM targets?**
   Improved system performance will enhance services to providers and clients, and consequently the experience of both.

4. What are the envisioned **outputs** of this POP?
   Consider activities you will be able to count in actual numbers: partners engaged, clients served, regions served, applications processed, staff trainings conducted, referrals made, transitions completed, families participating, etc.
   Improved system performance, user experience, and benefit issuance accuracy.

5. **Outcomes** show how people are better off because of the outputs you listed above. What are your expected outcomes?
   Consider measurable effects like improved service navigability, reduced racial disparities within programs, expanded access to needed services among key populations, improved transition rates, etc.
   Improved system performance will lead to more accurate, complete and timely services, payments to providers, and benefit issuance accuracy.

6. How will you **collect the data** you need to measure the success of this solution? Is this data currently being collected? Have you engaged ORRAI to discuss elements needed to plan for data gathering?
   Customer satisfaction data is starting to be collected.

7. To achieve optimal data collection, would you need to make **changes to your case management system?** Describe.
   No

Part 4. **IMPROVING CUSTOMER SERVICE**

1. Discuss the ways this POP will **improve customer service**.
   Improved system performance will lead to more complete and timely service and payment to providers.

2. Will your solution require an **IT investment?** Explain.
   This POP is an IT investment.

Part 5. **IMPLEMENTATION**

1. If the legislature allocates funds for the proposed POP, how specifically would we **use the money to implement it?**

Staffing costs for limited duration OEP staff during the biennium to support the transition; vendor costs for the programs transition. Some funding would be eligible related items at 90/10 federal match for new development and 75/25 for medical ongoing support, other funding would be cost allocated across the enhanced 90/10 funding, with the 50/50 funding for food programs, and general fund requirements for cash and child care. We would expect to see a blended funding closer to 65% Federally Funded. Staffing costs for permanent OFS to manage the new integrations between OEP and financial system.

2. What are the biggest potential barriers or risks to successful implementation?
   Cross-program and agency collaboration. Short timelines and competing agency priorities. Mainframe systems will come off in modules and need a structure to allow for payments, benefits, and oversight to continue in one version while transitioning to an upgraded platform. This will not roll out without defects and issues that will need to be resolved. There are not identified resource savings from these activities.

   To move items onto ONE, we need time and capacity. The programs and functionality on the mainframe will take a dedicated year of development to transition off of the mainframe. In that time we would need to hold any legislative or federal updates, or items requested by partners.

3. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?
   APD, OFS, ID/DD, OHA.

Part 6. **BUDGET**

1. Are there **prior investments** allocated for this policy package?
   Yes, initial pre-initiation costs for planning on finanical functions funded for in 23-25.

2. What **assumptions** affect the pricing of this policy package?
   Costs of staff and availability of federal match.

3. Will there be **changes to caseload, cost per case or services provided** to specific populations? Explain.
   Services currently performed under the antiquated and cumbersome legacy system will be better supported, timely, and efficient.

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.
   OEP **11.0 FTE (24mo/LD)** in this request. These include:
   *2 (24 mo LDs) – OPA3 ONE Senior Business Analysts
   *3 (24 mo LDs) – OPA2 ONE Business Analysts
   *2 (24 mo LDs) – OPA2 ONE UAT (Test coordinators)
   *4 (24 mo LDs) - OPA1 ONE UAT team (test execution)
   OFS 2.0 FTE in this request. These include:
   *1 (24 mo/Perm) - Accountant 2 System Reconciliation
   *1 (24 mo/Perm) - OPA2 System Integration Analyst

   Program ??Staffing costs for staff during the biennium to support the transition and vendor costs for the programs transition. Assumption that funding would be eligible related items at 90/10 federal match for new development and 75/25 for medical ongoing support.

   Due to current staffing levels, ongoing maintenance and operational needs, staff assignments, known system enhancements, current positions are not able to absorb the additional workload associated with this POP.

5. What are the **startup and one-time costs** associate with this POP?

   Staffing costs for technical staff during the biennium to support the transition planning; for the programs transition. Assumption that medical work would be eligible related items at 90/10 federal match for new development and 75/25 for medical ongoing support with cost allocated items with food (50/50) and cash and child care (0/100) equating to closer to a 65/35 (FF/GF) split.
   .

6. What are the **ongoing costs?**
   This is a planning POP. Implementation costs would come in 2027-2029 POP and then ongoing maintenance for systems (as mainframe contains more than just eligibility) would come in future POPs. Position and support costs from OIS to vendor costs would need to be determined and worked with OIS and OHA related to transition to new programs or the ONE system.

7. What are the **sources of funding (revenue)** and the funding split for each one?
   General funding (GF) provided would be eligible for medical related items at 90/10 federal (FF) match for new development and 75/25 for ongoing support, with cost

allocated items with food (50/50) and cash and child care (0/100) equating to closer to a 65/35 (FF/GF) split.

8. What are potential **savings?**

We cannot determine the level of savings at this time, there is belief that costs will be cheaper for maintaining systems and structures in cloud of new platforms, but this is part of the analysis that must be ongoing.

TOTAL FOR THIS POLICY PACKAGE

	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE

ODHS Policy Option Package (POP) Form
2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	Child Welfare
POP Title	501 - Foster Care Youth: Improving Access to the Independent Living Program (ILP) and SSI benefits
Related Legislation	ORS 458.390
Summary Statement (5 to 7 sentences)	Youth in foster care face many challenges as they transition into adulthood and prepare to live on their own. While all youth may struggle to achieve self-sufficiency and independence, youth in out-of-home care face additional obstacles and often benefit from extra support. This policy option package (POP) is directly targeted to benefit current youth aging out of foster care, and over time will benefit former foster youth as those youth transition into adulthood. This is done through two key initiatives: 1. Ensuring adequate ILP availability by increasing provider payments.

2. Improving eligible youths' financial stability by maximizing their access to federal Supplemental Security Income (SSI) benefits.

The Independent Living Program (ILP) provides skill building services to eligible young people who are in foster care or who have experienced foster care. It gives young people the opportunity to learn the skills they need to make a successful transition from state or Tribal custody to adulthood.

The Oregon Department of Human Services (ODHS) in consultation with providers has identified that the existing contract reimbursements do not fully support providers' true operating costs, which impacts their ability to continue offering services to Oregon's youth without an increase in the provider rate. For this reason, the department is proposing to increase the rates for these critical providers to retain their services.

Supplemental Security Income (SSI) is a federal program that provides monthly payments to people with disabilities who have little or no income or resources. Establishing SSI benefits is a vital step in providing financial support and access to resources during and following ODHS custody. However, current staff levels do not allow ODHS to expand the number of SSI applications to be completed to secure benefits of youth in ODHS custody.

ODHS is proposing to expand this program as it has identified an opportunity in which it could be uniquely leveraged to assist youth with disabilities as they transition into adulthood.

By actively pursuing the establishment of SSI benefits, ODHS/Child Welfare aims to enhance the well-being and stability of these vulnerable youth as they leave foster care,

	fulfilling one of its mandates to act in the best interest of the children and young adults.

	General Fund	Other Funds	Federal Funds	Total Funds	Pos.	FTE

ODHS 2025 POP Long Form

SETTING THE STAGE

1. Briefly describe the **core value(s)** driving this POP. In the big picture, why does it matter?

    a. Increasing access to federal benefits and other services for vulnerable youth.
    b. Fulfilling the duties and responsibilities of a legal custodian as directed in ORS 419B.373(6).

A successful transition from foster care to adulthood involves a young adult establishing stability in their life by securing housing, employment, education, and a supportive network of adults, while also developing essential life skills like financial management, healthcare navigation, and healthy relationships, often achieved through access to dedicated transition programs and consistent support systems that begin well before aging out of care. In Oregon these transition programs are run by a network of contracted ILP providers doing this valuable work.

Financial security is critical to stability, which is especially critical for vulnerable youth with disabilities. Actively pursuing the establishment of SSI benefits for youth before they exit care can directly benefit current youth aging out of foster care and over time benefits former foster youth as those youth transition into

adulthood. This is uniquely beneficial as benefits such as SSI are not dependent upon age, but on eligibility. Therefore, these potential benefits, when secured as a youth, may be retained into adulthood. Over time the number of individuals benefiting increases as additional cohorts age out of care and have additional stability and potential eligibility for federal benefits.

Current staff resources limit the number of applications for SSI that ODHS Child Welfare can complete and manage, especially as the eligibility grows over time. Additional positions dedicated to this policy package will increase the number of youths eligible for these benefits. This will also increase federal benefits received by ODHS to provide services to youth while in ODHS custody. More importantly it will increase financial stability of youth when leaving ODHS care as these benefits follow them.

2. Describe the **problem/s or opportunity/ies** this proposal would address.

Young people who are exiting or aging out of foster care often navigate their transition without the support of a stable family, while also at times losing access to key services and supports that were available to them while in care. Detrimental outcomes are much more probable for those individuals than they are for youths who are not in foster care (Tweddle, 2007). Youths transitioning out of foster care exhibit elevated rates of dropping out of high school, teen pregnancy, juvenile justice involvement, and homelessness (Reilly, 2003). Additionally, researchers have found that children in foster care are more likely to have mental or physical disabilities than those who are not (Ringeisen and others, 2008). For youths with disabilities, the transition out of foster care is even more challenging. Ensuring that these youths' benefits are maximized prior to their transition out of foster care will have a great impact on their future success.

The Social Security Administration (SSA), in their Deal Colleague Letter dated May 10, 2023, in recognition of National Foster Care Month, encouraged all states recognize and support efforts to ensure that eligible youth in foster care receive SSI benefits. The SSA emphasized the unique challenges that youth with disabilities in foster care face, particularly during their transition out of the foster care. One of the main components for SSI benefits is to help covering housing costs, a proven factor in providing stability for youth with disabilities transitioning out of foster care. To address these disparities, Oregon needs to ensure young people with

experience in the Child Welfare system have increased support to help them navigate their transition. The Oregon Department of Human Services (ODHS) Child Welfare division currently deploys multiple strategies for supporting young people through their transition out of care and into stable housing, including Independent Living Programs (ILPs) and their associated skill building services, housing subsidies, and help accessing benefit programs that support youths' financial stability.

3. Is this POP, in whole or in part, a response to an **audit?** Explain.

This POP is not in response to an audit.

4. What has already been done to address or mitigate the problem/ opportunity?

In 2022 the legislature passed House Bill 4012 which directed rate studies across the children's continuum. The next phase of this assessment, starting in 2025, will include ILP. Although the study won't be complete before the 2025 legislative session, a report is expected before the 2026 session. Furthermore, because of the inclusion of ILP, there will be ongoing reviews, which will also make recommendations for cost of living/inflation increases. Providers have shared that unfortunately this timeline is not adequate to address their current shortfall. Yep

During the 2023 legislative session the Oregon State Legislature passed Senate Bill 556 this legislation actively prohibited the department from utilizing benefits such as SSI for the cost of care while the child was in custody and further established that any funds ODHS receives on behalf of a child ward must be deposited into an account established with Treasury to be retained for the child's use for certain activities such as education, housing, and transitions into adulthood. ODHS has recognized the importance and opportunity retention of these funds provides for youth and recognizes this legislative mandate. At this time the department has reassigned an OPA 1 to this additional workload however this position was not provided as part of the fiscal for implementation of Senate Bill 556 but assignment of these duties was necessary for ODHS to remain in compliance with this legislation. This has not been sufficient to actively pursue the establishment of SSI

benefits. This POP seeks to remedy this as well as allocate employees that would be dedicated to this workload and allow for active establishment of SSI benefits for those with the highest need.

5. What are the **risks** if the problem/opportunity is not addressed?

ILP providers serve a wide array of young people ages 14-23 delivering skill building services and housing support. During FFY2023, a total of 1,294 young people received contracted ILP services. Providers' rates have not kept pace with inflation. ODHS has heard directly from providers that reimbursement rates do not cover their operating costs, yet they are devoted to serving the population. The only way to ensure adequate ILP availability and to improve ILP provider workforce stability is to support a rate increase. It is also important to note that federal funding for this population continues to decrease as the Oregon foster care population shrinks so there is no ability to provide increases aside from state general fund investment.

If Child Welfare is unable to obtain the additional positions, crucial financial benefits, access to services, and SSI benefits will not be established before the youth ages out of ODHS care and custody. Vulnerable youth transitioning into adulthood may not have the resources or the financial structure to ensure food security and safeguard against homelessness. SSI eligibility determinations can increase the child or youths' suitability for more therapeutic placements and provide income and supports beyond the youth's time in care.

6. What **solution** are you proposing through this policy option package (POP)?

If funded, the work would encompass:

1. Ensuring adequate ILP availability by increasing provider payments.
    a. This would be done by increasing the payments of ILP Basic and Peer Group services through existing contracts with providers.

2. Improving eligible youths' financial stability by maximizing their access to federal Supplemental Security Income (SSI) benefits.

a. This new body of work will be done through hiring a new team to apply on behalf of children in care that may be eligible for SSI benefits.
b. Two Social Security Analysts will be hired to make applications on behalf of children who may be eligible for SSI benefits. This will be able to provide applications for all or most of the youth in Child Welfare custody who qualify for SSI with a caseload of approximately 20 SSI eligibility applications per month.
c. One Accounting Technician (AT) will be hired to be responsible for the daily reconciliation of ACH transfers being received from the Social Security Administration (SSA) and insuring correct amounts are allocated to the clients' accounts, prepare, and submit annual and final representative payee reports to SSA for each client receiving SSA funds to account for amounts expended and conserved on the clients' behalf. They will also process payment requests received from the CW-Children's Benefits Unit (CBU) that will be drawn on clients' accounts and review the requests for allowability based on benefit type to used.

7. What **alternative solutions** were considered and what were the reasons for selecting your solution?

This solution directly supports the Governor's Housing Initiatives by addressing the financial stability needs of youth transitioning out of foster care to adulthood, therefore addressing one factor that may lead to homelessness. Given its alignment with the Governor's priorities, ODHS is advancing this proposal as part of a broader, coordinated effort to reduce youth homelessness and improve long-term stability for vulnerable populations.

8. Is this a joint ODHS/OHA (or other agency) POP? If so, describe the **partner agency's priorities** this POP is designed to serve.

This is not a Joint ODHS/OHA POP.

9. Has the proposed solution been successful in **other contexts or jurisdictions?**

The proposal would improve access to the Independent Living Program (ILP) and maximize access to federal Supplemental Security Income (SSI) benefits. Each of these represent an improvement to existing successful interventions. These both represent well established state and federal programming. This proposal seeks to maintain services and expand services for each respectively.

Part 2. **EQUITY AND INCLUSIVITY**

1. In what ways has **community and/or Tribal engagement** informed this proposed POP?

ODHS has received direct feedback from providers indicating that current reimbursement rates do not adequately cover their actual operating costs, jeopardizing their ability to sustain essential services for foster youth. This concern was underscored during a meeting with ODHS Director Fariborz Pakseresht on June 7, 2024, where providers emphasized the urgent need for a rate study and an immediate increase in reimbursement rates to ensure service continuity and provider stability.

2. Does this POP align with ODHS|OHA **Tribal Consultation Policy**? How?

The development and expansion of these existing Program's and payment increases would include community and Tribal engagement and consultation if approved by the legislature.

3. Does this POP advance the goals of the **ODHS DEIB Plan**? How?

Yes, this POP aligns with and advances the ODHS DEIB plan by addressing systemic inequities that disproportionately impact foster youth, particularly those from historically marginalized communities. This package operationalizes ODHS's DEIB commitments by directing critical resources toward youth aging out of foster care, a population that faces well-documented racial, economic, and disability-related inequities. By investing in independent living services, financial security,

and workforce equity, this package enhances long-term stability and success for some of Oregon's most at-risk young people.

4. How will this POP **address inequities** faced by impacted communities?

The targeted population, which is youth 14 to 20 years of age, who are likely to age out of foster care, often do not have a traditional network of support. Most leave foster care with little connection to permanent family, few natural supports, or opportunities for transfer of generational wealth. This population must, by necessity, mature and reach financial stability faster than their counterparts outside of the foster care system. Ensuring adequate independent living program availability across the state and securing SSI benefits prior to youth transition out of foster care will help to address this inequity.

Historical data published by The Social Security Administration indicates that youth with disabilities face numerous challenges during their transition into adulthood. Research suggests that youth nearing transition out of foster care are a particularly vulnerable population (Arnett, 2007). Detrimental outcomes are much more probable for those individuals than they are for youths who are not in foster care (Tweddle, 2007). Youths transitioning out of foster care exhibit elevated rates of dropping out of high school, teen pregnancy, juvenile justice involvement, and homelessness (Reilly, 2003). Additionally, researchers have found that children in foster care are more likely to have mental or physical disabilities than those who are not (Ringeisen, Casanueva, Urato & Cross, 2008). For youth with disabilities, the transition out of foster care is even more challenging. Ensuring that these youth's benefits are maximized prior to their transition out of foster care will have a great impact on their future success.

There are no unintended negative racial equity considerations. Instead, there may be positive racial equity considerations that are not directly related to this POP as eligibility is based upon their placement in substitute care. However, given that certain communities shown below are disproportionality represented within foster care compared to Oregon's Child population (figure 1 below) and that the population of eligible children receiving these benefits due to their involvement with child welfare is likely to increase, this could have a positive indirect impact on racial equity.

Disproportionality Index and Representation by Race for Total Children Served in Foster Care during FFY 2022 Compared to Oregon's Child Population

Race	# of Oregon's Children*	% of Oregon's Children	# of Children Served in Foster Care	% of Children Served in Foster Care	DI** 1=Proportionate
Black or African American	32,405	3.8%	575	7.4%	2.0
Asian/Pacific Islander	50,175	5.8%	134	1.7%	0.3
White	570,938	66.3%	4,937	63.9%	1.0
Hispanic (any race)	194,742	22.6%	1,471	19.0%	0.8
American Indian or Alaska Native	12,518	1.5%	360	4.7%	3.2
Unable to Determine	n/a	0.0%	250	3.2%	n/a
Statewide Total	**860,778**	**100.0%**	**7,727**	**100.0%**	

**Population data is always a year behind. Population data is from Puzzanchera, C., Sladky, A. and Kang, W. (2021). "Easy Access to Juvenile Populations: 1990-2020." Online. Available: http://www.ojjdp.gov/ojstatbb/ezapop/.*

***Disproportionality Index (DI) is calculated by taking the percent by race for children served in foster care and dividing it by the percent by race in Oregon's child population. Values less than 1 mean underrepresentation and values over 1 mean overrepresentation.*

Part 3. MEASURING PERFORMANCE

1. Which of your **key performance measures (KPMs)** is this POP connected to?

This is not directly related to an ODHS child welfare KPM.

2. If none, are you proposing a **new or modified KPM?**

At this time, new or modified KPMs are not being proposed.

3. How will the work you're proposed help ODHS meet or exceed the KMP targets?

N/A

4. What are the envisioned outputs of this POP?

Increased access to ILP services
More youth receiving SSI benefits before exiting foster care
Improved financial management of SSI benefits
Strengthened housing stability and homelessness prevention
Strengthened workforce and provider stability

5. Outcomes show how people are better off because of the outputs you listed above. What are your expected outcomes?

Young adult financial stability and long-term economic security
Young adult housing stability and reduction in youth homelessness
Young adult independent living skills and employment readiness
ODHS and provider capacity strengthening
Equity driven outcomes for marginalized youth

6. What are the biggest potential barriers or risks to successful implementation?

Disproportionate Impact on Marginalized Communities - Youth of color, Indigenous youth, and youth with disabilities are overrepresented in the foster care system and at higher risk for homelessness and financial insecurity. If POP 501 is not implemented effectively, these already marginalized populations will face further systemic barriers, contradicting ODHS's DEIB goals.

Inadequate Funding for ILP Providers - ILP providers serve a wide range of foster youth ages 14-23, offering critical skill-building and housing support services. However, their current reimbursement rates do not cover operating costs, leading to financial instability among providers. Without an increase in provider payments, there is a risk of service reductions or provider closures, which would limit access to essential transition programs for foster youth.

Limited Federal Funding for ILP Expansion - Unlike SSI benefits, ILP services rely primarily on state general funds, as federal funding for these programs continues to decline due to a shrinking foster care population.
This means that without state investment, ILP expansion cannot proceed, leaving many youth without adequate transition support

7. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?

ODHS Units & Responsibilities

- Child Welfare (CW) Division
  - Oversees Independent Living Program (ILP) expansion and ensures adequate provider reimbursement rates.
  - Manages SSI benefit applications for eligible foster youth.
  - Coordinates caseworkers and Social Security Analysts to streamline SSI applications and ILP referrals.
- Office of Financial Services (OFS)
  - Manages financial transactions related to SSI benefits and compliance with Senate Bill 556.
  - Oversees SSI funds, ensuring proper disbursement and reporting to the Social Security Administration (SSA).
- Youth Transitions Program
  - Ensures ILP service expansion and supports providers in implementing housing and life skills programs.
  - Works with ILP providers to align transition services with youth needs.
- Self-Sufficiency Programs (SSP)
  - Helps former foster youth access food assistance, employment programs, and additional state benefits.

Public Agencies & Responsibilities

- Social Security Administration (SSA)
  - Processes SSI applications and determines eligibility for foster youth.
  - Provides guidance on policies and procedures for SSI benefits under federal regulations.
- Oregon Health Authority (OHA)
  - Ensures foster youth maintain healthcare coverage through Medicaid.
  - Supports youth with mental health services and disability-related care that may impact SSI eligibility.

Office of Tribal Affairs and Child Welfare Programs Responsibilities - Compliance with ICWA/ORICWA in collaboration and consultation with Tribal Governments & Tribal Organizations

- Nine Federally Recognized Tribes of Oregon
  - Work with ODHS to ensure culturally responsive services for Native youth in foster care.

    - Provide input on ILP programming for Tribal youth and ensure Tribal consultation policies are followed.
- Tribal Child Welfare Programs, in consultation and collaboration with ODHS
    - Assist Tribal youth in foster care in applying for SSI and accessing ILP services.
    - Advocate for Tribal-specific housing and transition services for youth aging out of care.

Community-Based Organizations & Service Providers & Responsibilities

- Independent Living Program (ILP) Providers
    - Deliver skill-building, housing assistance, and transition services to foster youth.
    - Collaborate with ODHS to ensure youth receive timely SSI application support.
- Legal Aid and Advocacy Groups
    - Help youth navigate the SSI application process and appeal denials.
    - Advocate for policies that enhance foster youth's access to financial and legal resources.
- Youth Homelessness Organizations
    - Support youth transitioning out of foster care to secure stable housing.
    - Provide emergency support and connect youth to employment and education opportunities

8. At this point, have you **engaged** those identified above?

Child Welfare units and Self Sufficiency programs have been engaged. Resources for broader engagement are being assessed.

Part 6. **PLAN B**

1. Is this POP **scalable?** If it's not fully funded, how would you move this solution forward?

The POP is partially scalable if it is not fully funded, some components can still move forward with modified implementation. If not fully funded, ODHS can

prioritize high needs populations, reallocate existing resources, and implement incremental expansions.

BUDGET

1. Are there **prior investments** allocated for this policy package?

This initiative builds upon existing service contracts offered by ODHS Child Welfare under the Youth Transitions program and suggests additional utilization of the existing federal SSI programming. However, the investments into a dedicated team to make applications on behalf of youth in care represents a new investment.

2. What **assumptions** affect the pricing of this policy package?

All staff costs for each initiative are priced for 12 months of the 25-27 biennium, to allow time for hiring new staff. Child Welfare staff are priced at 70% General Fund, 30% Federal Fund. The Office of Financials Services staff are priced at 62% General Fund, 38% Federal Fund. Other Fund limitation is needed as well as part of Shared Services Funding.

Increase ILP Provider Payments – The pricing assumes that provider payments for Independent Living Services Contracts are increased. The current pricing assumes that the payments for Independent Living Services will increase from the current Basic ILP payment of $300 per youth per month to $435 per youth per month. The Peer Group payment will also increase from $100 per youth per month to $150 per youth per month. The actual increase may be different depending on provider feedback and the number of youth served. The current pricing assumes no change in the number of youth served. The pricing in the approved POP is for 12 months. There are no Federal Funds available for this area, so the pricing is 100% General Fund.

3. Will there be **changes to caseload, cost per case or services provided** to specific populations? Explain.

The Increase Engagement Rate for ILP Providers initiative increases the cost per case for the services provided. However, the Independent Living Services program is not a mandated caseload, so ongoing rate increases would not impact budget, but instead would be managed by Program Leadership through management actions or a future Policy Option Package.

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.

    - **Two Social Security Analysts** are responsible for submitting applications and securing SSI benefits for eligible children and young adults. A fully trained Social Security Analyst can submit approximately 20 SSI eligibility applications per month. By adding five Social Security Analysts, Child Welfare expects to be able to apply for all or most of the youth in Child Welfare custody who qualify for SSI.

    - One **Accounting Technicians (AT)** will be responsible for insuring the accuracy of expense and revenue transactions allocated to the fiduciary accounts of clients in the Child Welfare (CW), Aging & People with Disabilities (APD) and Developmental Disabilities Divisions. The ATs are responsible for the daily reconciliation of ACH transfers being received from the Social Security Administration (SSA) and insuring correct amounts are allocated to the clients' accounts. The ATs prepare and submit annual and final representative payee reports to SSA for each client receiving SSA funds to account for amounts expended and conserved on the clients' behalf. They process payment requests received from the CW-Children's Benefits Unit (CBU) that will be drawn on clients' accounts and review the requests for allowability based on benefit type to used. As requested by CW-CBU, OFS-Trust will create ABLE accounts and be responsible for processing any deposit and withdrawal requests

received. ATs are responsible for monitoring account balances and notifying CW-CBU to determine if action should be taken on those accounts that are approaching the resource threshold ceiling. If requested the ATs provide ledgers to CW-CBU indicating client fund balances, how client funds have been expended, and from which benefit type the expenditures occurred from.

5. What are the startup and one-time costs associate with this POP?
   N/A

6. What are the **ongoing costs?**
   Positions, provider payments, and supplies associated with positions shown below will be ongoing costs.

7. What are the **sources of funding (revenue)** and the funding split for each one?

   Funding splits are shown in the charts below.

TOTAL FOR THIS POLICY PACKAGE

	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE

ODHS Policy Option Package (POP) Form
2025-27 Legislatively Adopted Budget

Program(s) / Unit(s)	Self Sufficiency Programs – Youth Experiencing Homelessness Program (YEHP)
POP Title	502 - YEHP Core Services Maintenance
Related Legislation	HB 5019 / HB 2001
Summary Statement (5 to 7 sentences)	We have a shared obligation to support youth who are experiencing homelessness, helping them not only find housing but also access the wider array of services and supports they need to build well-being and long-term stability. The Youth Experiencing Homelessness Program (YEHP) coordinates statewide service planning to support youth who are experiencing homelessness. In 2023, House Bill 5019 allocated a one-time investment that allowed YEHP to more than double the number of localities served and triple the number of YEHP providers. However, this funding is set to expire in June 2025. This policy option package proposes an investment that will sustain YEHP's current local presence while also expanding its core services into unserved and underserved communities around the state, allowing more young people to access the supports they need to disrupt the cycle of homelessness and move toward permanent housing stability. YEHP is also requesting an investment to continue and expand its successful Direct Cash Transfer (DCT) initiatives to help more young people surmount financial barriers to secure and stable housing. Without these investments, YEHP's budget will be reduced by approximately 75 percent, which would substantially shrink Oregon's current youth homelessness response system and prevent youth in underserved localities from accessing critical services.

ODHS 2025 POP Long Form

Part 1. SETTING THE STAGE

1. Briefly describe the **core value(s)** driving this POP. In the big picture, why does it matter?

Every young person deserves safe, stable housing. Yet every night in Oregon, thousands of unaccompanied young people go to sleep in tents, abandoned buildings, makeshift shelters or on the couches of friends or strangers – all without the security of a home or family. We have a shared obligation to support youth who are experiencing homelessness, helping them not only find housing but also access the wider array of services and supports they need to build well-being and achieve long-term stability.

Recognizing that early intervention can effectively prevent youth from experiencing chronic homelessness in adulthood, Oregon Department of Human Services provides youth-specific supports through its Youth Experiencing Homelessness Program (YEHP). YEHP serves unaccompanied youth and young adults under age 24 who are without shelter and not able to safely reside with a parent or guardian. YEHP administers grant funding to local nonprofit providers across the state that provide shelter services, drop-in and outreach services, job development and mentoring services, housing supports such as host homes and transitional living programming, behavioral and substance use services, and more.

2. Describe the **problem/s or opportunity/ies** this proposal would address.

While numbers of youth experiencing homelessness nationally are often considered undercounts, Chapin Hall's Voices of Youth Count survey indicated that one in 10 young adults (ages 18-25) and one in 30 youths (ages 14-17) experienced homelessness in the space of a year.[1] As of 2023, Oregon has the highest percentage of unsheltered youth experiencing homelessness in the nation[2]

[1] Chapin Hall (2017): Missed Opportunities: Youth Homelessness in America.
[2] HUD (2023): Annual Homeless Assessment Report to Congress.

and state-level projections estimate that nearly 8,300 youths and young adults in the state need housing supports each year.[3]

Throughout its nearly 12-year tenure, YEHP has operated within a constrained budgetary framework that limits its ability to meet the need in Oregon. Over the past decade, the current service level (CSL) base budget has ranged from $3 to $5 million per biennium, augmented at times with modest one-time investments. At this funding level, YEHP could support a maximum of 12 service locations and 13 providers – a small fraction of what is needed to meet the needs of the youth around the state who experience housing crises. Recent infusions of one-time funding have enabled YEHP to strengthen and expand its core services[4] across multiple providers and locations, thereby extending support to a larger cohort of youth. However, these funds have been temporary in nature, with no assurance of continuity beyond June 2025. Consequently, the program faces a 75 percent reduction in funding, going from its current awarded service budget of $18.75 million to approximately $5.1 million per biennium.

The POP would also expand YEHP's Direct Cash Transfer (DCT) initiatives – which provides cash payments as well as optional support services to young people experiencing or at risk of experiencing homelessness. Designed to alleviate some of the financial hurdles young people face in securing housing and building well-being, DCT has been shown to significantly improve housing and debt outcomes for participating youth. For example, after the first year of Oregon's DCT+ pilot, nearly 70 percent of youth receiving monthly payments had become stably housed, and the percentage of youth reporting that they owed more than $3,000 in credit card debt had fallen from almost 17 percent to zero. In just the first 45 days of the DCT-P (DCT as Prevention) pilot, 29 youth in Lane County have been supported with one-time funding and connected to other supports to avoid formal entry into homelessness. Several Chapin Hall briefings[5] and reports[6] further discuss the power of cash in supporting young people who experience homelessness.

Without the investment proposed in this POP, YEHP would lack a significant portion of the resources necessary to continue its work. As a result, fewer Oregon youth would be able to access the services they need to stabilize their housing situation. Importantly, as funding contracts, so too would the geographic range of YEHP service availability, which would position rural and other historically underserved Oregon youth to have to travel to access services and/or seek services through the adult homelessness system.

3. What **data** tells you that this problem/opportunity exists? Please be specific and provide data sources.

[6] Chapin Hall (2020): Direct Cash Transfers Programs Can Help Youth Sustainably Exit Homelessness.

See response to question 2, above.

4. In the simplest way possible, how would you describe this POP to a legislator and show how it addresses **a problem/opportunity that impacts their constituents.**

We have a shared obligation to support youth who are experiencing homelessness, helping them not only find housing but also access the wider array of services and supports they need to build well-being and achieve long-term stability. As of 2023, Oregon has the highest percentage of unsheltered youth experiencing homelessness in the nation. We know that by supporting youth who are experiencing homelessness, we can disrupt the cycle and help prevent chronic homelessness in adulthood. YEHP helps make the necessary supports – from housing to crisis intervention to behavioral health services – available to young people in their own communities through partnerships with local nonprofit organizations. YEHP also partners with ODHS Child Welfare to ensure that youth exiting foster care can access the program's housing and related resources, and with Oregon Housing and Community Services to align services and make sure young people experiencing housing crises can access youth-specific supports.

Recent one-time investments have played a pivotal role in sustaining and expanding YEHP's core services. As a result, youth-specific homelessness programming now exists in 26 Oregon counties with the involvement of 42 providers. Without these services, more young people would be without resources—sleeping in places not meant for human habitation, forced to rely on unsafe situations and people, and dealing with the challenges of homelessness on their own.

To safeguard against these reductions in both geographic coverage and service availability, ODHS is requesting an investment that would increase the current budget allocation, ensuring YEHP has the sustainable, long-term funding necessary for fostering a robust, local youth homelessness response system.

Our communities are strongest when every community member is safely and stably housed. When we provide the right supports to young people experiencing homelessness, we can help them build the skills and access the resources and funds they need to stabilize their housing situations and avoid homelessness long-term and becoming chronically homeless adults.

5. Is this POP, in whole or in part, a response to an **audit?** Explain.

   No

6. What has **already been done** to address or mitigate the problem/ opportunity?

YEHP currently funds services within the following areas:

- Prevention (Street Outreach and Day Drop-In supports)
- Emergency/Crisis (Overnight Shelter)

- Medium-Term Housing (Transitional Living Programming)
- Host Homes
- Culturally Specific, Mental Health, and Substance Abuse supports

In Summer 2023, following the receipt of funding from HB5019, YEHP completed a Request for Grant Proposals and received over $60M in core services requests for $18.75M in available funding. YEHP awarded 61 grants to 42 providers in 26 counties.

YEHP has also led the nation in implementing unrestricted cash transfers as a way to prevent and end experiences of youth homelessness. The original DCT+ pilot, launched in 2022, supports 120 young people and has helped rehouse approximately 70 percent of its participants. A new DCT pilot (DCT-P), launched in April 2024, is aimed at preventing youth homelessness among roughly 50 at-risk youth with one-time cash infusions. In just the first 45 days, 29 youth have been supported in Lane County.

7. What are the **risks** if the problem/opportunity is not addressed?

Absent the recommended investment, the YEHP budget will return to approximately $5 million, which would lead to an anticipated 75 percent drop in the number of YEHP providers currently serving youth around the state.

Most of the shelter and medium-term housing beds created or sustained by HB 5019 would be lost unless providers are able to quickly secure alternative funding through local or private funders.

Without these resources, more young people will experience unsheltered homelessness and they will have fewer resources to transition out of homelessness. They may also have to travel long distances to seek services as YEHP's geographic coverage shrinks. Nonprofit youth service providers will also lose a critical revenue source, which could contribute to organizational instability among nonprofits offering critical services to Oregon youth.

If not funded, the DCT pilots will be limited in its capacity to support a new cohort of young people with this proven model for improving outcomes for youth.

8. What **solution** are you proposing through this policy option package (POP)?

To prevent the YEHP core services budget from reducing by over 75 percent in 2025, we are requesting an ongoing investment to sustain the program's current service level. This approach would allow for more sustainable provider budgets and ensure greater availability and continuity of youth services at the local level.

YEHP has led the nation in implementing unrestricted cash transfers as a way to prevent and end experiences of youth homelessness. The original DCT+ pilot, launched in 2022, supports 120

young people and has rehoused at least 70% of its participants. A new prevention DCT pilot (DCT-P) launched in April 2024, aimed at preventing youth homelessness among roughly 50 youth. In just the first 45 days, 29 youth have been supported. Both efforts are carved out of the YEHP base budget and do not have dedicated funding. An investment could create dedicated funding for this work to continue and/or expand the pilot(s) to serve more youth.

9. What **alternative solutions** were considered and what were the reasons for selecting your solution?

There are currently no other available funding streams to support this work. However, ODHS is actively engaged in the Interagency Council on Homelessness (ICH). A major component of the ICH's work is to evaluate and map the system of youth homelessness resources across various state agencies. If any efficiencies are found that could reduce the scope of YEHP's work and reduce costs while sustaining services for youth, they will be implemented at the direction of the ICH.

YEHP has also initiated initial discussions with the Oregon Community Foundation (OCF), which has shown interest in backing the ongoing DCT initiatives, potentially encompassing evaluation components. However, this partnership is still in the preliminary stages and requires further exploration to ascertain the feasibility of expansion. It will be crucial to assess the level of interest in this POP expansion opportunity before proceeding with more formal arrangements with OCF regarding funding allocations for the period spanning 2025 to 2027. The conversation specifics will be contingent upon the availability of state investment for DCT.

10. Has the proposed solution been successful in **other contexts or jurisdictions?** Alternatively, if there is no precedent, explain why you believe this concept will achieve its aims here in Oregon.

YEHP is a unique model that has not been replicated by many other states. However, the state of Washington has an Office of Homeless Youth (OHY) within their Department of Commerce. In 2023, they provided over $40 million in grant funding to support youth with emergency housing, rental assistance, crisis services, outreach, mental health services and flexible prevention funds. The investment helped close Washington's geographic service gap and as of February 2024, only two of the state's counties remain unserved. The OHY grant program budget is made up of $37.7 million state General Fund and $5 million federal funds.

DCT is a growing initiative across the country and has seen positive successes. DCT programming is experiencing substantial growth nationwide and globally. YEHP holds the distinction of being the second program in the U.S. to introduce youth-specific DCT initiatives. Presently, there are over a dozen programs in various jurisdictions either currently operating or planning to launch DCT programming tailored for youth. Given the recent inception of this initiative, there is limited data available within the youth sphere aside from research conducted

by Chapin Hall. However, research within the general adult population has demonstrated the power of DCT to reduce homelessness.[7]

11. Does this POP require a **new statute or changes to existing statute(s)?** If so, have you completed the Legislative Concept request form for statutory changes?

Not necessarily, but depending on the chosen option for maintaining the current service level, minor adjustments may be necessary for clarity. These adjustments could include:

- Removing mental health or substance abuse services as a funded service area and reinvesting funds into prevention and drop-in, crisis/shelter or medium-term housing efforts
- Not limiting grants to two-years

Part 2. EQUITY AND INCLUSIVITY

1. How will this POP **address inequities** faced by impacted communities?

Black, youth of color, LGBTQIA2S+ and Native American youth are disproportionately represented in youth homelessness counts. Recognizing these longstanding inequities, YEHP required during its request for grant proposals (RFGP) process that grantee narratives outline how their programming would support youth experiencing homelessness, particularly those from Black, youth of color, LGBTQIA2S+, immigrant and refugee communities and Tribal Nations in Oregon. Additionally, grantees were asked to outline plans for staff training on topics such as sexual orientation, gender identity and expression; healthy sexual development and other issues pertinent to staff working with LGBTQIA2S+ youth. Grantee strategies for supporting youth from these communities include but are not limited to the following:

- Non-binary shelter beds
- Provision of safe space for LGBTQIA2S+ youth
- Peer support groups
- Peer mentoring

Feedback from local youth homelessness providers has highlighted a concerning trend: Local planning teams often lack consistent understanding and investment in youth homelessness programming when allocating local homelessness dollars. This inconsistency perpetuates inequalities in resource distribution, leaving youth homelessness initiatives underfunded, underserved or even non-existent in many communities. Implementing this POP would provide a crucial opportunity to address this issue, albeit partially. By prioritizing youth homelessness within the broader context of local planning and budgeting, the POP would help sustain a more equitable distribution of resources and support for youth experiencing homelessness programming across various communities.

[7] Dwyer, Palepu, Williams and Zhao (2023): Unconditional Cash transfers reduce homelessness.

From its inception, YEHP's DCT initiative was conceived with housing justice as a central tenet. Considerations for generational wealth, narrowing the racial wealth gap, and providing support to demographic groups consistently marginalized and overrepresented in homelessness statistics were paramount during the planning phase. Beyond age and homelessness experiences, emphasis was placed on prioritizing youth of color, Tribal Youth, and LGBTQIA2S+Youth. This commitment to prioritization would persist through any expansion efforts.

Part 3. **MEASURING PERFORMANCE**

1. Which of your **key performance measures (KPMs)** is this POP connected to?

KPM 14: SNAP Participants reporting Housing Stability

2. If none, are you proposing a **new or modified KPM?**

N/A

3. How will the work you're proposing help ODHS meet or exceed the **KPM targets?**

SSP conducts an annual wellbeing survey of Supplemental Nutrition Assistance Program (SNAP) recipients to measure progress toward KPMs. Among other things, the survey asks about recipients' housing stability. While the population of youth participating in YEHP cannot currently be disaggregated from the broader population of SNAP recipients, it is likely that most youth served by YEHP are eligible for and/or enrolled in SNAP. Thus, increasing the housing stability of youth engaged in YEHP-funded supports has the potential to improve SSP performance on the Housing Stability KPM.

4. What are the envisioned **outputs** of this POP?

- Local community-based/nonprofit organizations receiving YEHP funds to support youth
- Number of youths served by programs
- Number and location of local communities with YEHP-funded services
- Provider compliance with the requirements of the Homeless Management Information System (HMIS; see below for more on this system.)

<u>DCT</u>

- Youth receiving funds
- Youth stably housed
- Youth participating in optional DCT programming
- Youth and CBO surveys

5. **Outcomes** show how people are better off because of the outputs you listed above. What are your expected outcomes?

While housing outcomes are certainly important, success for youth experiencing homelessness extends well beyond housing placement. YEHP's outcomes framework, inspired by the West Coast Convening Framework, recognizes that long-term stability stems from success in multiple areas, including education, employment and others. Under this framework, all YEHP grantee providers are tasked with entering data into HMIS, capturing both demographic information and a comprehensive set of outcomes indicators. These indicators encompass:

- Housing: Tracking program exits to safe and stable housing settings.
- Education: Monitoring increases in enrollment and completion rates, academic advancement, and overall educational motivation.
- Employment: Measuring progress in job-related skills development and attainment of employment at living wage jobs.
- Self-sufficiency: Assessing the acquisition of life skills such as financial literacy and personal safety awareness.
- Well-being: Evaluating efforts in managing physical health needs, fostering social connections, and promoting overall wellbeing.

By integrating these diverse outcome measures into our programming and data collection efforts, we ensure a holistic approach to supporting youth experiencing homelessness, aiming for meaningful and sustainable improvements in their lives beyond only housing stability.

DCT:

- Increased housing access
- Enhanced feelings of self-worth and personal well-being / mental health management and stress reduction
- Expanded financial literacy / poverty reduction
- Increased education and / or employment progression

6. How will you **collect the data** you need to measure the success of this solution? Is this data currently being collected? Have you engaged ORRAI to discuss elements needed to plan for data gathering?

Data collection for this initiative will be conducted through two primary methods:

1. **Quantitative Data:** The primary source of quantitative data will be the Homeless Management Information System (HMIS), a system ODHS is now engaging with through a partnership with Oregon Housing and Community Services and Continuums of Care. Currently, ORRAI is collaborating with YEHP to address data gathering needs and establish desired outputs.

2. **Narrative Data:** In addition to quantitative metrics, providers are responsible for submitting qualitative narrative data to ODHS so the YEHP team can delve into the nuanced successes, challenges, and barriers experienced by program participants. This narrative approach allows for a deeper understanding of individual experiences and provides valuable insights to inform program improvements and interventions.

DCT:
As part of this POP, YEHP aims to enhance the evaluation and data collection methodology beyond the current DCT pilot framework. Ideally, data would be gathered through feedback obtained from community-based organizations assisting DCT youth, as well as through surveys and interviews with youth recipients. It is not anticipated that ORRAI would be directly involved in the data collection for this specific initiative. Multiple avenues could be explored for conducting the evaluation, such as collaborating with institutions like Portland State University, Chapin Hall, or other relevant partners.

7. To achieve optimal data collection, would you need to make **changes to your case management system?** Describe.

No. Dedicated ongoing YEHP (and ORRAI) staff would assist in data collection.

Part 4. **IMPROVING CUSTOMER SERVICE**

1. Discuss the ways this POP will **improve customer service**.

By maintaining ongoing youth-specific programming within local communities, YEHP endeavors to empower these communities to enhance the service experience for their customers, namely youth in crisis and experiencing homelessness.

In the absence of adequately funded and supported local youth-specific providers, youth often experience misunderstanding, lack of support, and isolation. Recognizing the need for a nuanced understanding of youth experiences and needs, the maintenance of intentional youth services within local communities can significantly improve the quality of customer service offered.

Youth experiencing homelessness frequently encounter a restricted selection of options and are often compelled to conform to predefined criteria to access support services. DCT programming, however, operates on a foundation of trust in young people, while also offering optional support and engagement assistance. This approach has the potential to enhance the quality of customer service provided to DCT recipients by empowering them to take control of their own paths towards stability.

2. Will your solution require an **IT investment?** Explain.

No

Part 5. **IMPLEMENTATION**

1. If the legislature allocates funds for the proposed POP, how specifically would we **use the money to implement it?**

Depending on the guidelines that emerge from the Interagency Council on Homelessness (ICH), there are two options for implementation:

1. YEHP could use the funding to extend all existing grants by two years. This would maintain the same service array, geographic footprint and current funding levels for providers; or
2. YEHP could release a new request for grant proposals in 2025. This would allow us to make changes to the grant agreements per any emerging ICH guidelines.

<u>DCT Implementation</u>

- Locate and contract with evaluation partner
- Contract with multiple community-based organizations for support services
- Contract for Technical Assistance
- Enroll up to 200 new youth

2. What are the biggest potential barriers or risks to successful implementation?

I. YEHP Staff Challenges.

There are currently four (4) staff employed within the program. If fully staffed, the YEHP team consists of:

- Two (2) permanent positions - an administrative position (AS1) and an operations and policy analyst (OPA3) which is not filled as of April 2024;
- Five (5) additional limited duration (LD) positions created by HB 5019, and one limited duration position created by HB 3395.

There have been notable delays in hiring, likely exacerbated by the limited-duration nature of these positions. Nearly all positions were awarded, or later reclassed, at lesser position levels than requested in 2023.

As of now, all LD positions will end in June 2025, at which time YEHP will return to a team of two (2) – the AS1 and the currently unfilled OPA3. If we anticipate another sizeable investment in the program, we will need the staffing infrastructure, with a youth-homelessness specific knowledge base, to ensure timely and effective implementation.

II. Potential delays associated with contract/grant writing and Department of Justice review
III. Political landscape navigation of Direct Cash Transfer initiatives

3. What other **ODHS units, public agencies, Tribes, communities or other partners** will be involved in the implementation of this POP? What will their responsibilities be?

- Self Sufficiency Programs: implementation through YEHP
- Office of Contracts and Procurement: Creating, modifying, updating grant agreements
- Office of Reporting, Research, Analytics, and Implementation: Data capture, analysis and reporting
- The Youth Experiencing Homelessness Program Youth Action Board (YEHP YAB): Serve on hiring panels, score grant applications, provide service planning recommendations
- Youth-serving grantees across Oregon: Provision of services

Part 6. **BUDGET**

1. Are there **prior investments** allocated for this policy package?

This POP would maintain the previous investments from HB 2001 (2023) and HB 5019 (2024).

2. What **assumptions** affect the pricing of this policy package?

If all current grants were extended for two years:

- Assumes that all current grantees will continue their existing grant agreements with YEHP,
- Presupposes that current YEHP grantees will be capable of meeting and adhering to any new requirements, such as those which may established through the Interagency Council on Homelessness (ICH).

Assumes that the allocated budgets for DCT Technical Assistance, Evaluation, and support for community-based organizations can be attained within the estimated budget. The number of youth enrolled in DCT programming will also be affected depending on awarded budget.

3. Will there be **changes to caseload, cost per case or services provided** to specific populations? Explain.

No. YEHP funding is not tied to caseload or cost-per-case calculations. The program is delivered entirely through lump-sum grants to community-based organizations.

4. Describe the **staff and positions** needed to implement this policy package, and whether existing positions can be modified to meet the need. Be sure to note what each position type will be responsible for to move the proposed work forward.

This POP proposes that the following previously awarded YEHP positions be made permanent:

- HSM2 (filled but currently limited duration)
    - *Coordinates all efforts of programming and supports all staff.*
- OPA3 - Policy and Practices Specialist
    - *Supports the development and integration of best practices throughout YEHP programs and processes (policy and procedure, rules, transmittals, communications)*
- OPA2 - Performance & Data Coordinator (filled but limited duration)
    - *Creates and monitors program performance measures that align legislative intent, best practices, and community need. Oversees YEHP grant funding and invoicing*
- PA3 – Strategic Youth Engagement Coordinator (filled, but currently limited duration)
    - *Coordinates opportunities for youth and young adult lived experts to collaborate with YEHP (statewide youth action board coordination, creation support and collaboration with local advisory boards)*
- PA3 - Community Engagement and Youth Housing Coordinator
    - *Provide technical support to grantees of YEHP funded programs throughout the State, as well as implementation of initiatives and collaboration on housing-focused initiatives like host homes and direct cash transfer programming,*
- PA3 – Community Engagement – Service Provider Support
    - *Provide technical support to grantees of YEHP funded programs throughout the State*
- PA3 – Direct Cash Transfer Lead

- *Provide technical support to implement, expand, and support all aspects of Direct Cash Transfer programming.*

Other staff critical to the work include an already hired AS1 position, which provides administrative support to YEHP team and programs, and an OPA3 – Systems Change Specialist (in recruitment) that supports policy development work for systems change through interagency collaborations.

5. What are the **startup and one-time costs** associate with this POP?

It is not anticipated that there will be any start-up or one-time costs with the core service components of this POP. There may be start-up expenses linked to DCT implementation, encompassing technical assistance and evaluation throughout the extended pilot phase. By definition, a DCT pilot could be seen as one-time in nature, though YEHP desires to commit to this being an ongoing cost area.

6. What are the **ongoing costs?**

All costs within this POP are projected to be ongoing operational expenses and service provision with local grantees. YEHP desires to commit to DCT this being an ongoing cost area with new cohorts of recipients on an ongoing basis.

7. What are the **sources of funding (revenue)** and the funding split for each one?

This request is 100% General Fund.

8. What are potential **savings?**

A study commissioned as a requirement of HB 4013 attempted to quantify cost avoidance associated with ending homelessness for youth. The report provided an illustration of the potential positive outcomes that could result if youth homelessness is prevented and reduced through the implementation of a range of evidence-based interventions. The report estimated that if homelessness were ended for 25 percent of Oregon youth, the projected cost avoidance could total $16.6 million annually.[8]

[8] CSH (2022): Oregon Youth Experiencing Homelessness Program, Oregon Department of Human Services – Self Sufficiency Cost Analysis Report.
CSH (2022): The Cost of Youth Homelessness in Oregon.

A chronically homeless person costs taxpayers $35,578/year.[9] In YEHP's current DCT pilot, as of March 2023, 101 of 120 recipients are reported as being housed in some capacity. At an amount of $12,000-15,000/year for DCT payments, it is an overall cost savings. A Portland State University cost-benefit analysis show that $1 invested in youth homelessness supports provides over $4 in savings.[10]

TOTAL FOR THIS POLICY PACKAGE

	General Fund	Other Funds	Federal Funds	Total Funds	Positions	FTE
Personal services	$1,605,237			$1,605,237	6	5.25
Services + supplies	$58,968			$58,968		
Capital outlay						
Special payments	$18,043,000			$18,043,000		
Other						
Total	**$19,707,205**	**$0**	**$0**	**$19,707,205**	6	5.25

Department of Human Services
Affirmative Action Report

This report summarizes the progress the Oregon Department of Human Services (ODHS) has made in accomplishing its affirmative action goals for the 2023-2025 biennium and identifies ODHS' goals and strategies for 2025-2027. The Affirmative Action Report and plans are a joint effort with the Office of Equity and Multicultural Services (OEMS) and the Office of Human Resources (OHR).

Progress Made or Lost Since the Previous Biennium

July 1, 2023, to June 30, 2024
Accomplishments toward Affirmative Action Goals

ODHS continues to work to create an inclusive and anti-racist organization, utilizing our Equity North Star as a focal point. The agency continues to build upon our successes to achieve a more culturally responsive work force, create culturally appropriate and effective programs and service delivery systems, develop quality improvement strategies with a focus on inclusion and create welcoming environments for our diverse client base and staff. The ODHS Affirmative Action Plan is a key component of the department's ongoing diversity development efforts. These serve to enhance the diversity of our work force, provide equal employment opportunities, provide guidelines for organizational change, increase participation by diverse constituencies in agency operations, and guide leadership management by eliminating institutionalized and individual illegal discrimination in the workplace. Our diverse, culturally responsive work force assists the department to better understand and meet the needs of OHDS clients' and customers'. ODHS programs like RiSE and Trauma-Aware practices help build a culture where safety and well-being, supportive relationships, high expectations and accountability, equitable treatment, meaningful participation and community engagement are key.

ODHS workforce demographics reflect a greater representation for people of color from entry level to executive level positions. Demographics also reflect more equitable gender distribution in these same positions.

Progress Not Realized toward Affirmative Action Goals

ODHS workforce demographics reflect a smaller representation for people with disabilities and veteran status. Based on direct and indirect employee feedback through Employee Resource Groups (ERGs), we suspect employees are underreporting these statuses. Additional information is provided in the following sections.

July 1, 2025, to June 30, 2027
Goals and strategies for ODHS Affirmative Action Plan

New goals and strategies are being developed for the 2025-2027 Affirmative Action Plan. Below are some of the ways ODHS will continue their efforts to achieve a culturally responsive workforce and welcoming environment to increase our retention of employees of color, veterans, people with disabilities and women to:

- Developing and updating training for management and non-management staff focused on supporting career development, organizational growth and providing equitable client services.

- Continue active, focused, and tailored recruitment efforts to increase the number of qualified women, people of color and people with disabilities on our applicant lists for job openings by working with the Office of Human Resources Recruitment Unit to maximize the Workday system.

- Expand partnerships with local, state and regional community-based organizations and Tribal Nations to increase recruitment and retention efforts, resulting in a diverse and qualified workforce.

- Continue to encourage and support the development of employee resource groups (ERGs) throughout the agency.

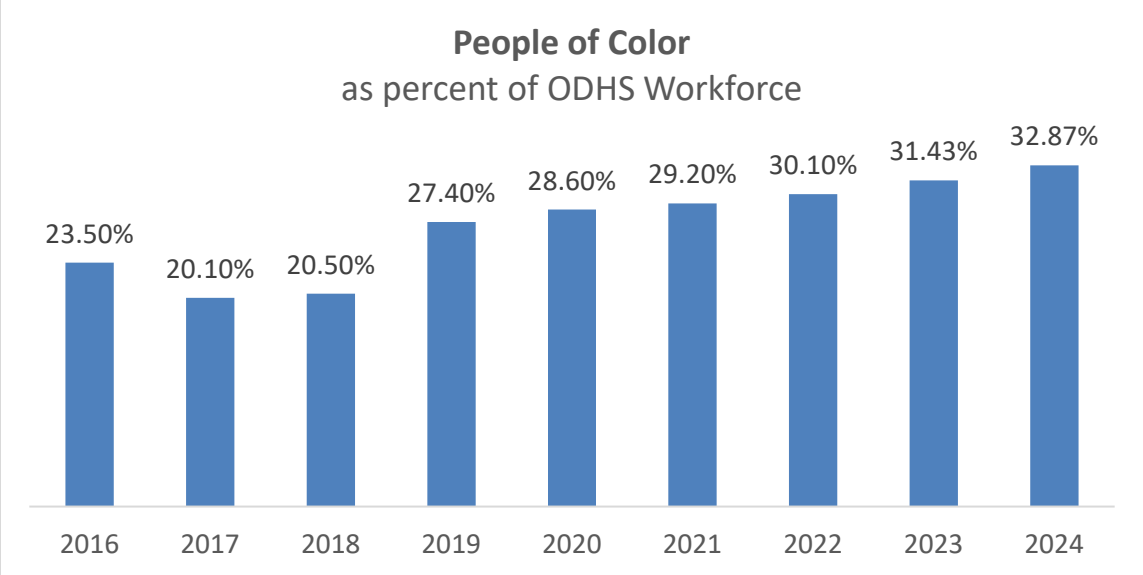
Overall, the emphasis for the Oregon Department of Human Services will be to achieve an increase in the retention of employees with disabilities in all job categories and retain employees of color, veterans, and women in underutilized job categories.

ODHS Workforce Demographic Summaries

The following charts reflect the ODHS actual FTE on June 30 of each year 2016 through 2024 as a comparison. These numbers show the percentages of People of Color, People with Disabilities, Veterans and Women within the ODHS workforce.

People of Color
Between June 2016 and June 2024, the ODHS workforce representation of people of color increased from 23.5 to 32.87 percent. ODHS continues to conduct focused and tailored recruiting efforts, as well as outreach and training on diversity topics. The agency works with and builds relationships with many other diverse organizations. The agency's goal is to continue to move toward diversifying our workforce to be a representation of Oregon population.

ODHS is continuing to focus on increasing and retaining the representation of people of color in all salary ranges and types of positions, but especially in professional and executive positions where we have historically seen lower representation.

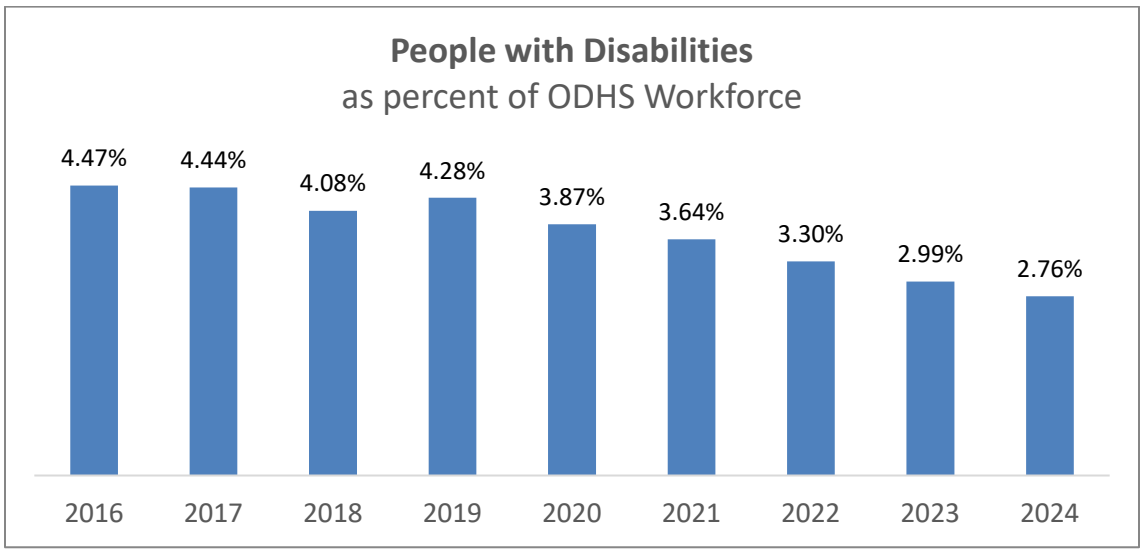


*2019 thru present data based on information available in Workday

People with Disabilities

Disclosure of disabilities is voluntary for employees, and we suspect the data is underreported.
Employees report confusion with Workday terminology and hesitate to identify as "Disabled" instead of identifying as 'having a disability". Some employees have shared that if they are not requesting an accommodation, they do not identify as "Disabled". Additionally, employees' disability status changes throughout their career and are not aware of how to update their status within Workday. We also hear from some employees that they are nervous to disclose disability status for confidentiality reasons.

The reported percentage has decreased from 4.47% to 2.76% from June 2016 through June 2024. The agency will continue to strengthen its outreach and education efforts to promote more employees disclosing disability status so that this population is more accurately reported at ODHS.

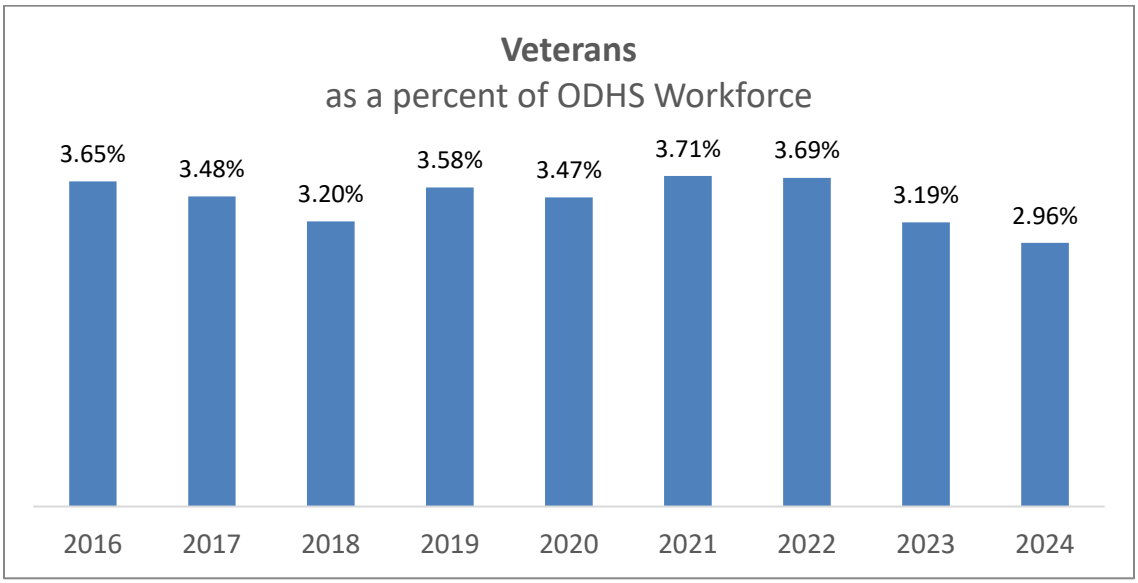


*2019 thru present data based on information available in Workday

Veterans

Disclosure of veteran status is voluntary and some in our workforce have chosen not to identify as a veteran; thus, we believe this number may be under reported. Some employees have reported that they associate identifying as a veteran as requesting veteran's preference, which some may not qualify for or want.

The reported percentage has decreased from 3.65% to 2.96% from June 2016 through June 2024. The agency will continue to strengthen its outreach and education efforts to promote more employees disclosing veterans' status to report so that this this population is more accurately reported at ODHS.

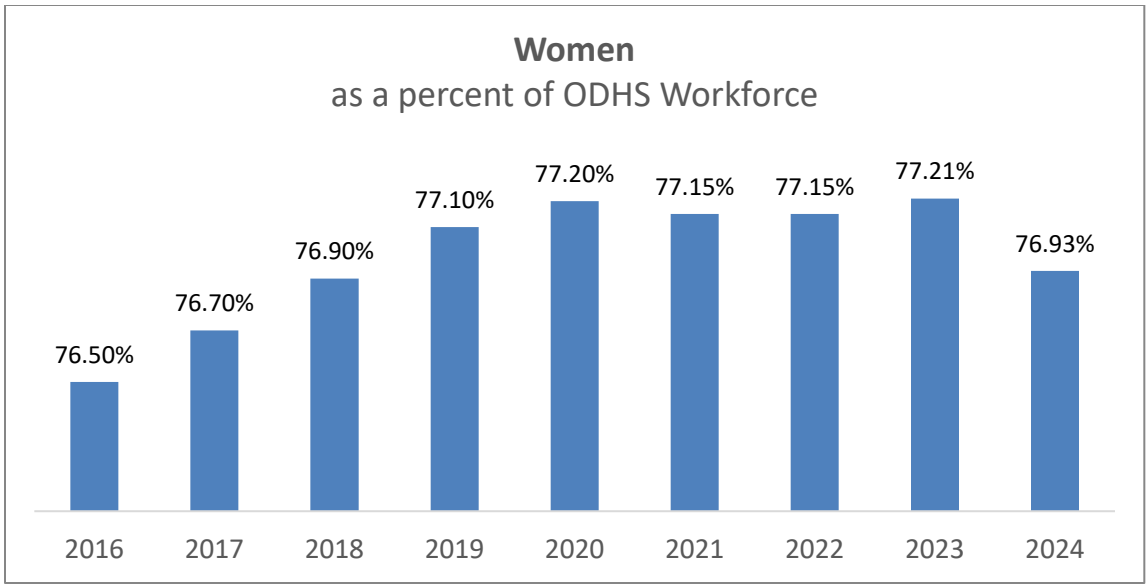


*2019 thru present data based on information available in Workday

Women

ODHS has historically had representation of women in most job categories above 70 percent and higher than Oregon overall population, which is closer to 50/50 male/female. While the table reflects a peak and then slight drop for the percentage of women in ODHS workforce, it is a positive shift in gender distribution throughout job levels. We see a higher percentage of male employees in vocational/technical positions providing direct community service and a higher percentage of female employees in executive level positions.

The reported percentage has increased from the initial tracking of this data from 76.50% to 76.93% from June 2016 through June 2024. The agency will continue to strengthen its outreach to support greater gender distribution through senior professional and executive level positions.



*2019 thru present data based on information available in Workday

Department of Human Services

Annual Performance Progress Report

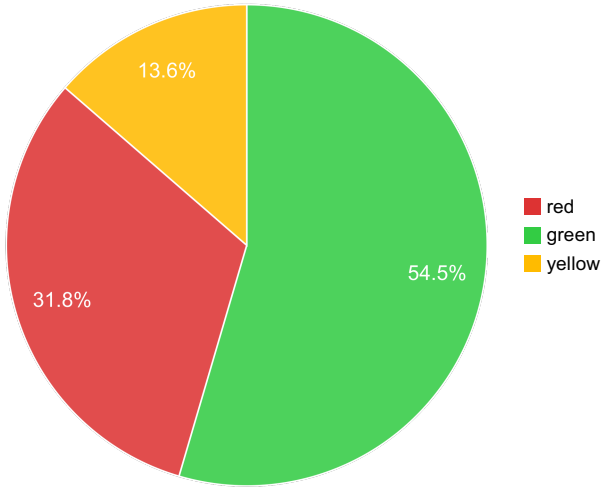
Reporting Year 2024

Published: 10/11/2024 10:39:36 AM

KPM #	Approved Key Performance Measures (KPMs)
1	OLDER ADULTS NEEDING LONG TERM CARE SERVICES (APD) - The percentage of older adults (65+) needing publicly-funded long term care services
2	LONG TERM CARE RECIPIENTS LIVING OUTSIDE OF NURSING FACILITIES (APD) - The percentage of Oregonians accessing publicly-funded long-term care services who are living outside of nursing facilities
3	TIMELY APD ABUSE INVESTIGATIONS - The percentage of abuse reports assigned for field contact that meet policy timelines
4	ABSENCE OF REPEAT MALTREATMENT OF ABUSED/NEGLECTED CHILDREN (CW) - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization
5	TIMELY REUNIFICATION OF FOSTER CHILDREN (CW) - The percentage of foster children exiting to reunification within 12 months of foster care entry
6	TIMELY ADOPTION ONCE CHILDREN ARE LEGALLY FREE (CW) - The percentage of legally free children adopted in less than 12 months
7	REDUCTION OF RACE/ETHNICITY DISPARITIES IN LENGTH OF STAY (CW) - Outcome disparity in length of stay (reported in months) for children in substitute care by race/ethnicity
8	CHILDREN SERVED BY CHILD WELFARE RESIDING IN PARENTAL HOME - The percentage of children served in Child Welfare on an average daily basis (in home and foster care) who were served while residing in their parent's home
9	TIMELY ELIGIBILITY DETERMINATION FOR ODDS SERVICES - The percentage of individuals who apply for ODDS services who are determined eligible within 90 days from application
10	INTELLECTUAL/DEVELOPMENTAL DISABILITY DISPROPORTIONALITY (ODDS) - Percentage of IDD service recipients by race and ethnicity compared to the Oregon population race and ethnicity
11	SUPPORTED ODDS EMPLOYMENT SERVICES TO MAINTAIN COMPETITIVE INTEGRATED EMPLOYMENT - Number of individuals in competitive integrated employment or individual supported employment
12	ABUSE/NEGLECT OF ADULTS WITH DEVELOPMENTAL DISABILITIES (ODDS) - The percentage of substantiated abuse/neglect of adults in licensed and endorsed programs
13	HOUSEHOLDS AT, OR ABOVE, LIVING WAGE FOUR QUARTERS AFTER LEAVING SSP PROGRAM - The median percentage of households leaving Self Sufficiency who are at, or above, a living wage four quarters out
14	SSP PARTICIPANTS REPORTING HOUSING STABILITY - The percentage of Self Sufficiency participants who report their housing needs are fully met
15	SSP PARTICIPANTS REPORTING FOOD SECURITY - The percentage of Self Sufficiency participants who report they did not worry about having enough food, or actually run out of food, in the past 12 months
16	SSP PARTICIPANTS REPORTING GREATER SELF-EFFICACY - The percentage of Self Sufficiency participants who report they feel more confident in their ability to improve their current circumstances because of SSP and other services they were connected to
17	OVRS CONSUMERS WHO ARE SUCCESSFULLY EMPLOYED AT PROGRAM EXIT - The percentage of Office of Vocational Rehabilitation Services (OVRS) consumers with a goal of employment who are employed at program exit
18	OVRS CONSUMERS EMPLOYED IN SECOND QUARTER FOLLOWING PROGRAM EXIT - The percentage of OVRS clients closed from plan who are employed during second quarter following program exit
19	OVRS CONSUMERS EMPLOYED IN FOURTH QUARTER FOLLOWING PROGRAM EXIT - The percentage of OVRS clients closed from plan who are employed during fourth quarter following program exit
20	OVRS MEDIAN QUARTERLY WAGE AT SECOND QUARTER FOLLOWING PROGRAM EXIT - Median quarterly wage at second quarter following OVRS program exit
21	DHS CUSTOMER SATISFACTION - The percentage of customers rating their satisfaction with DHS above average, or excellent
22	REDUCTION IN DISPROPORTIONALITY OF CHILDREN AT ENTRY INTO SUBSTITUTE CARE (CW) - Measure of the average disproportionality index across race/ethnicity for children at entry into substitute care

Proposal	Proposed Key Performance Measures (KPMs)
New	APPLICATIONS PROCESSED TIMELY - The percentage of NEW eligibility determination requests for SNAP, Medical, LTSS and ERDC services completed timely in accordance with Federal requirements.
New	RENEWALS PROCESSED TIMELY - The percentage of RENEWAL eligibility determination requests for SNAP, Medical, LTSS and ERDC services that are received timely are processed with no break in benefits.
New	SNAP APPLICATIONS PROCESSED ACCURATELY - The percentage of eligibility determination requests for SNAP services completed ACCURATELY.
New	CUSTOMER SATISFACTION WITH ELIGIBILITY SERVICES PROVIDED - The percentage CUSTOMERS receiving eligibility determination services for SNAP. Medical, LTSS and ERDC rating 'satisfactory' services and better.
New	TIMELY ELIGIBILITY DETERMINATIONS FOR APD LONG TERM SERVICES AND SUPPORTS - ALL - The percentage of older adults and people with disabilities who receive timely LTSS eligibility determinations (Timely is defined as within 45 days of the initial date of request for LTSS)
New	ACCESSIBILITY OF APD LONG TERM SERVICES AND SUPPORTS - ALL - Percentage of eligible older adults and people with disabilities who receive assistance from paid caregivers
Delete	OLDER ADULTS NEEDING LONG TERM CARE SERVICES (APD) - The percentage of older adults (65+) needing publicly-funded long term care services
Delete	LONG TERM CARE RECIPIENTS LIVING OUTSIDE OF NURSING FACILITIES (APD) - The percentage of Oregonians accessing publicly-funded long-term care services who are living outside of nursing facilities
Delete	TIMELY APD ABUSE INVESTIGATIONS - The percentage of abuse reports assigned for field contact that meet policy timelines
New	TIMELY APD ABUSE INVESTIGATIONS - The percentage of abuse investigations that are initiated timely
Delete	ABSENCE OF REPEAT MALTREATMENT OF ABUSED/NEGLECTED CHILDREN (CW) - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization
New	RECURRENCE OF MALTREATMENT (CW) - Of all children who were victims of a substantiated or indicated report of maltreatment during a 12-month target period, what percent were victims of another substantiated or indicated maltreatment allegation within 12 months of their initial report?
Delete	TIMELY REUNIFICATION OF FOSTER CHILDREN (CW) - The percentage of foster children exiting to reunification within 12 months of foster care entry

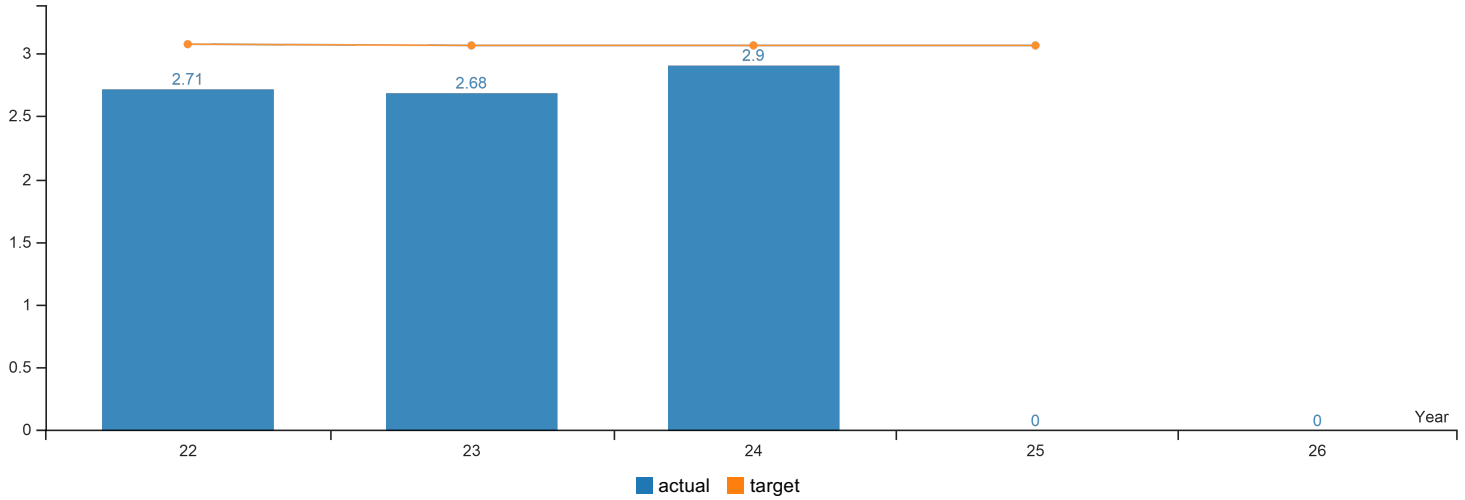
Proposal	Proposed Key Performance Measures (KPMs)
New	TIMELINESS TO PERMANENCY (CW) - Of all children who enter foster care in a target 12-month period, what percent discharged to permanency within 12 months of entering foster care
Delete	TIMELY ADOPTION ONCE CHILDREN ARE LEGALLY FREE (CW) - The percentage of legally free children adopted in less than 12 months
Delete	INTELLECTUAL/DEVELOPMENTAL DISABILITY DISPROPORTIONALITY (ODDS) - Percentage of IDD service recipients by race and ethnicity compared to the Oregon population race and ethnicity
New	INTELLECTUAL/DEVELOPMENTAL DISABILITY DISPROPORTIONALITY (ODDS) - Percentage of IDD service recipients by race and ethnicity compared to the Oregon population race and ethnicity



Performance Summary	Green	Yellow	Red
	= Target to -5%	= Target -5% to -15%	= Target > -15%
Summary Stats:	54.55%	13.64%	31.82%

KPM #1	OLDER ADULTS NEEDING LONG TERM CARE SERVICES (APD) - The percentage of older adults (65+) needing publicly-funded long term care services
	Data Collection Period: Jul 01 - Jun 30

** Upward Trend = negative result*



Report Year	2022	2023	2024	2025	2026
LTC NEED PREVENTION					
Actual	2.71%	2.68%	2.90%		
Target	3.07%	3.06%	3.06%	3.06%	

How Are We Doing

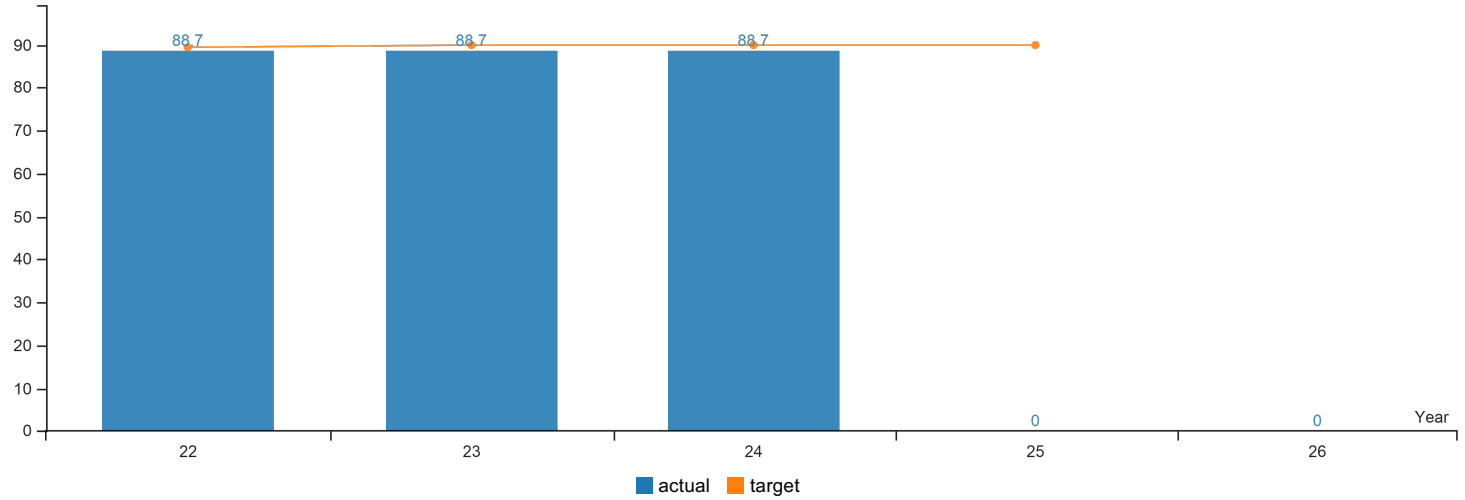
In 2024, 2.9% of Oregonians 65 or older needed assistance and utilized publicly funded long-term care. This represents a return to pre-pandemic trends and the measure continues to exceed legislative targets.

Factors Affecting Results

This growth is attributed to several factors. As the risk of COVID faded and the direct care workforce recovered, there has been an increase in the rate of individuals accessing long term services and supports. Additionally, as the population lives longer, including individuals who would have previously died from accidents or diseases, a higher percentage of them will likely need additional supports.

KPM #2	LONG TERM CARE RECIPIENTS LIVING OUTSIDE OF NURSING FACILITIES (APD) - The percentage of Oregonians accessing publicly-funded long-term care services who are living outside of nursing facilities
	Data Collection Period: Jul 01 - Jun 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
LTC RECIPIENTS LIVING OUTSIDE OF NURSING FACILITIES					
Actual	88.70%	88.70%	88.70%		
Target	89.50%	90%	90%	90%	

How Are We Doing

APD's performance in 2024 is slightly behind the goals established, however the percentage has not changed in the past three years. Continued challenges related to workforce across the home and community- based care continuum have led to many individuals staying for longer periods of time in nursing facilities. APD believes that the goal of 10% may be unattainable due to a frequent "starting point" for individuals accessing long term services and supports is often nursing facility. APD helps individuals transitioning from NF to home and community based care, however, a percentage of the caseload will stay long enough to be counted in this measure.

The Legislature authorized innovative programs in the 2021 Legislative Session such as the expansion of Oregon Project Independence through Medicaid. This in-home program may delay entry into NFs and may facilitate quicker access to in-home supports for individuals not typically eligible for Medicaid.

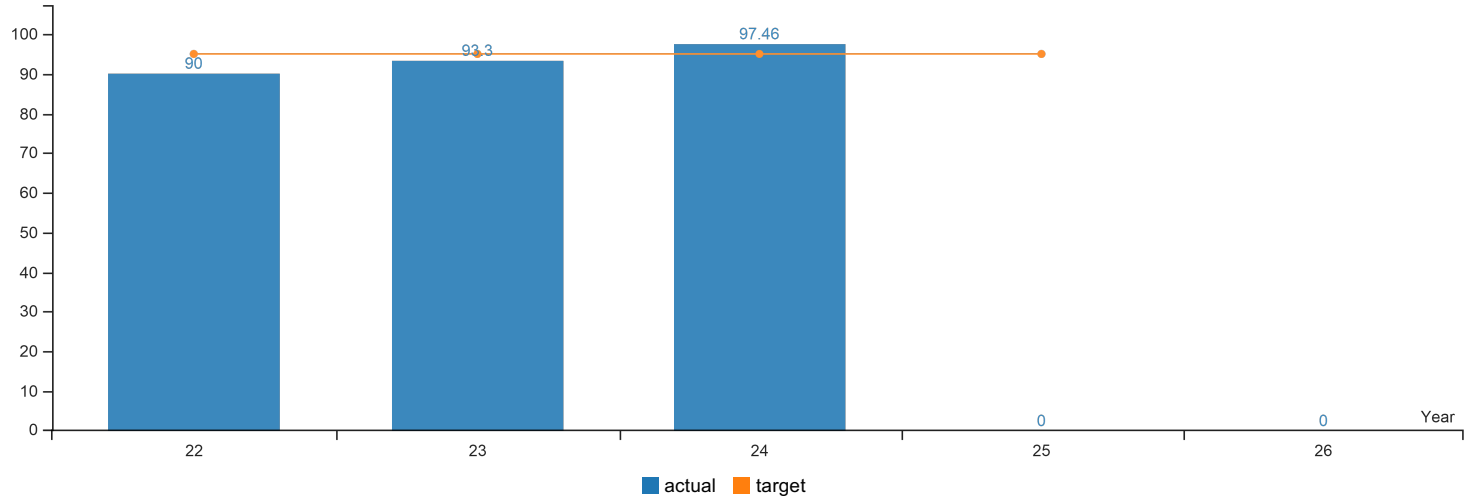
Factors Affecting Results

Hospitals continue to prefer to discharge older adults and people with disabilities needing post hospital care to nursing facilities. Institutional care may be appropriate for certain individuals for short periods of time. However, alternatives such as reviewing state mandates for insurance coverage for Home Health and establishing more intensive supports in other settings could help support the state in continuing to reach this KPM. APD is also working to increase available home and community based services including recruiting additional homecare workers, adult foster homes and specific needs contractors. This may help reduce the NF caseload further. However, these efforts are hampered by lower than sustainable rates for adult foster homes that routinely serve APD's most

complex individuals.

KPM #3	TIMELY APD ABUSE INVESTIGATIONS - The percentage of abuse reports assigned for field contact that meet policy timelines
	Data Collection Period: Jul 01 - Jun 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
Abuse Investigation Timeliness					
Actual	90%	93.30%	97.46%		
Target	95%	95%	95%	95%	

How Are We Doing

We are above our target of 95% for the first time since 2020.

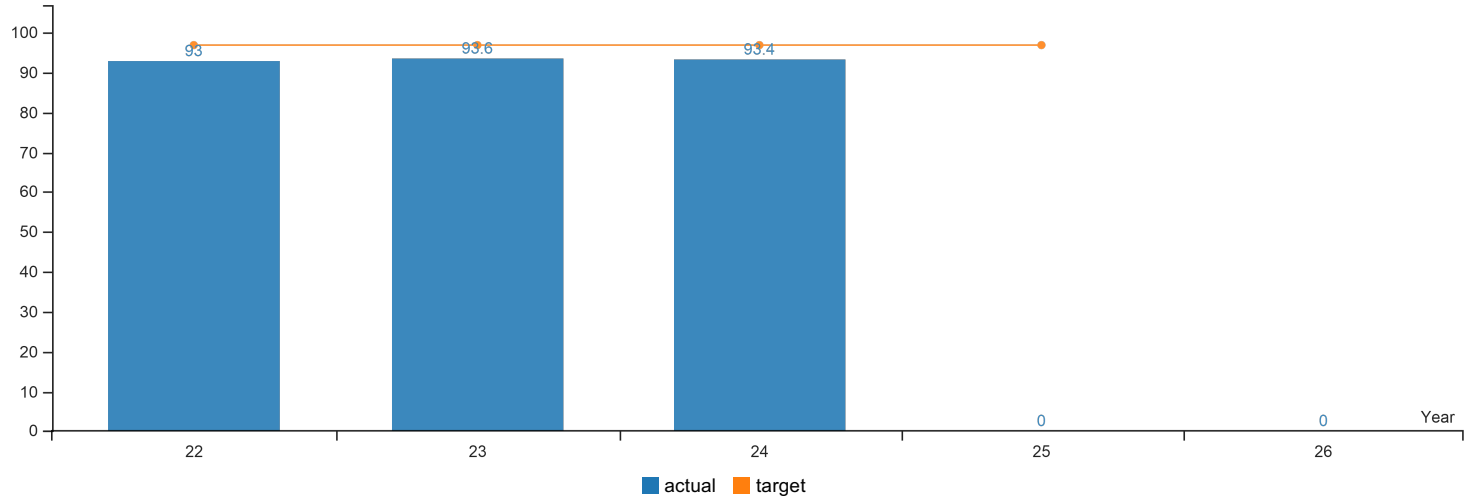
Factors Affecting Results

During this reporting period, there were 18,729 investigations completed by APS (compared with 18,633 from the past reporting period, an increase of 0.5%). Of those, 18,462 (98.6%) received a timely response. This is a slight increase from 98.3% during the last reporting period.

During this reporting period, there were 2,038 Nursing Facility Investigations (compared with 1,411 from the past reporting period, an increase of 44.4%). Of those, 1778 (87.2%) received a timely response. This is a significant increase from 27.7% during the last reporting period. Additionally, CMS changed the response timeliness, requiring states to adopt a severity level criteria for timeliness. This will impact future reporting on this measure.

KPM #4	ABSENCE OF REPEAT MALTREATMENT OF ABUSED/NEGLECTED CHILDREN (CW) - The percentage of abused/neglected children who were not subsequently victimized within 6 months of prior victimization
	Data Collection Period: Oct 01 - Sep 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
ABSENCE OF REPEAT CHILD MALTREATMENT					
Actual	93%	93.60%	93.40%		
Target	97%	97%	97%	97%	

How Are We Doing

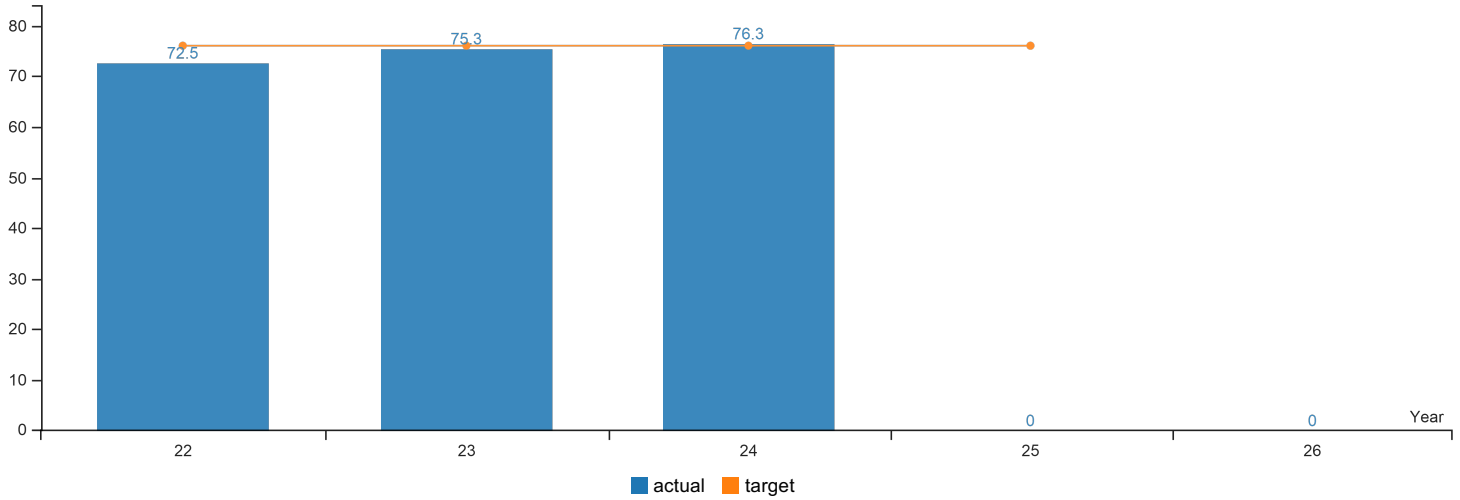
The outcome of 93.4% is Federal Fiscal Year 2023 data, for Report year 2024 (October 2022 to September 2023). This period under review shows a small decrease in the absence of repeat maltreatment of abused/neglected children.

Factors Affecting Results

There is ongoing cross-program analysis of root cause issues impacting this key performance measure. Oregon statute requires that ORCAH document and assign a new report of abuse for each incident of abuse reported. This at times results in multiple reports of a child victim that have occurred over a period including historical allegations of abuse and neglect. Younger more vulnerable children and children with exceptional behavioral and mental health needs are interacting with professionals from the community who are relying on Oregon's child welfare system to address family conditions when there are gaps in available resources. Oregon continues to work with community and staff to educate on poverty versus neglect as it is often being confused for child abuse and neglect in communities resulting in an increase in child abuse/neglect reported to ORCAH. Local offices are selecting goals to address sufficiency of information gathering during the child protective service process to accurately identify safety threats and the development of safety plans that help ensure children and youth are not subject to another occurrence of abuse or neglect during the Continuous Quality Improvement cycles. The Safety and Permanency programs are part of this planning and are providing coaching and support. Child Welfare leadership continues to focus on community engagement to improve access to resources and services and prevent child abuse and neglect. Oregon child welfare is enhancing the training and support of the child welfare workforce for substance use disorder. The increased knowledge and skills needed to understand how substance use disorder impacts family functioning and child safety will improve the effectiveness of child welfare interventions reducing the reoccurrence of child abuse and neglect. These efforts are in the early stages of development and implementation, therefore this factor may not have a measurable impact on the absence of repeat maltreatment in the Federal Fiscal Year 2025 (October 2023-September 2024).

KPM #5	TIMELY REUNIFICATION OF FOSTER CHILDREN (CW) - The percentage of foster children exiting to reunification within 12 months of foster care entry
	Data Collection Period: Oct 01 - Sep 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
Timely Reunification					
Actual	72.50%	75.30%	76.30%		
Target	76%	76%	76%	76%	

How Are We Doing

In FFY 2023, Oregon improved its performance by 1 percentage point making it the second year in a row of improvement in this measure. Oregon's performance of 76.3 % of foster children reunifying within 12 months of foster care entry is the best performance in at least 9 years and exceeds the current target goal of 76%. The outcome of 76.3% is Federal Fiscal Year 2023 data, for Report year 2024 (October 2022 to September 2023).

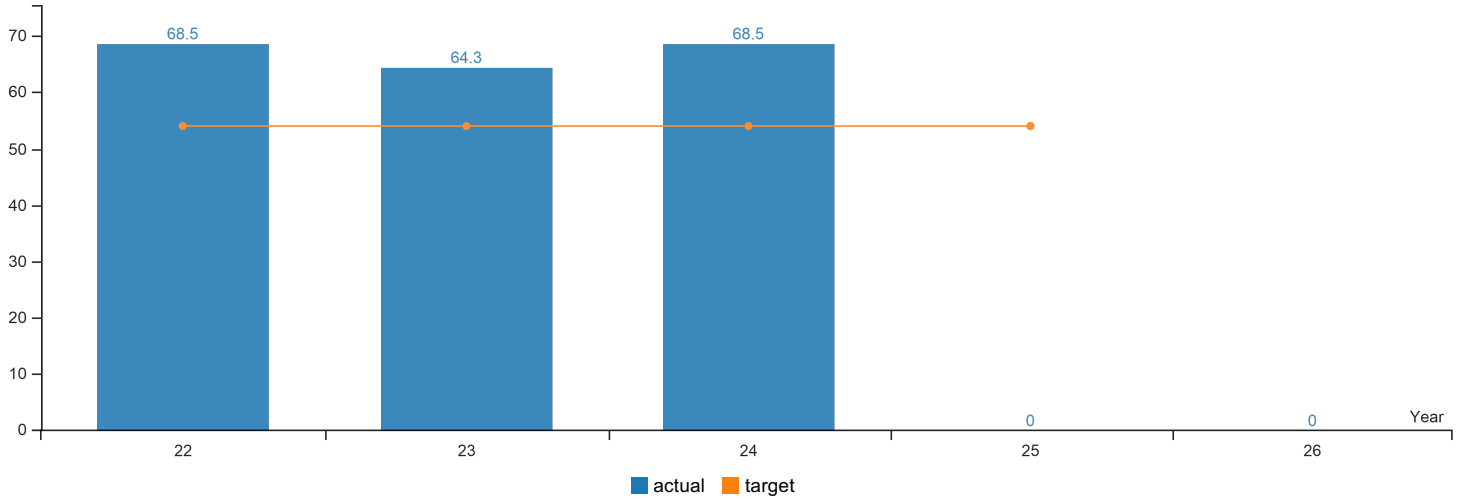
Factors Affecting Results

The factors that likely contributed to improvements in this measure in FFY 2022 continued, as well, in FFY 2023. Since FFY 2021, the rate of children entering into foster care has remained steady; therefore, removing a factor that had negatively impacted the reunification rate a few years ago. The year-over-year reduction in the average number of children assigned per permanency worker statewide has also continued to provide permanency workers more time to engage parents and implement reunification plans.

Over the last three years, Oregon has continued to enhance reunification efforts by significantly improving the timeliness of case plans within sixty days of a child entering foster care and steadily increasing the percentage of monthly face-to-face contacts of caseworkers with parents. More recently, the Continuous Quality Improvement (CQI) program has collaborated with districts to implement strategies for improving performance measures, including partnering with Permanency Consultants to support districts in improving the quality of Ongoing Safety Plans and Conditions for Return.

KPM #6	TIMELY ADOPTION ONCE CHILDREN ARE LEGALLY FREE (CW) - The percentage of legally free children adopted in less than 12 months
	Data Collection Period: Oct 01 - Sep 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
Timeliness of Adoption Once Legally Free					
Actual	68.50%	64.30%	68.50%		
Target	54%	54%	54%	54%	

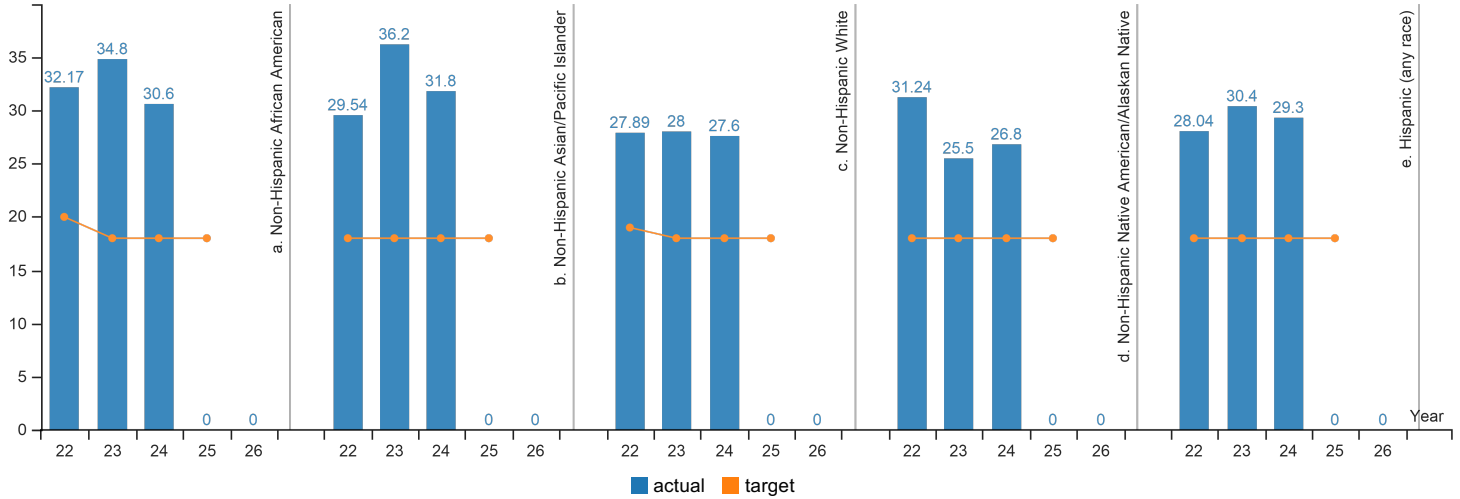
How Are We Doing

Oregon continues to surpass the target performance for this measure, and the actual performance matched the all-time high of 68.5% which was initially reached for the 2022 reporting year. It's also the fourth straight year when the actual percentage met exceeded 50% and the third straight year it exceeded 60%. The outcome of 68.5% is Federal Fiscal Year 2023 data, for Report year 2024 (October 2022 to September 2023).

Factors Affecting Results

Oregon continues to coordinate efforts among ODHS Central Office Child Permanency Program staff, ODHS Local Branch Office staff, and other entities/partners to use CQI strategies and activities to strive for improvements in this area. Targeted tracking of adoption finalization status/progress was still being done through the ODHS Child Permanency Program staff with assistance provided to ODHS Local Branch Office staff for efforts to move adoption placement and legally freeing activities forward simultaneously and timely. Overall timeliness to permanency continues to be an area of CQI work for the department and the outcome of this measure impacts and is impacted by that work.

KPM #7	REDUCTION OF RACE/ETHNICITY DISPARITIES IN LENGTH OF STAY (CW) - Outcome disparity in length of stay (reported in months) for children in substitute care by race/ethnicity
	Data Collection Period: Oct 01 - Sep 30



Report Year	2022	2023	2024	2025	2026
a. Non-Hispanic African American					
Actual	32.17	34.80	30.60		
Target	20	18	18	18	
b. Non-Hispanic Asian/Pacific Islander					
Actual	29.54	36.20	31.80		
Target	18	18	18	18	
c. Non-Hispanic White					
Actual	27.89	28	27.60		
Target	19	18	18	18	
d. Non-Hispanic Native American/Alaskan Native					
Actual	31.24	25.50	26.80		
Target	18	18	18	18	
e. Hispanic (any race)					
Actual	28.04	30.40	29.30		
Target	18	18	18	18	

How Are We Doing

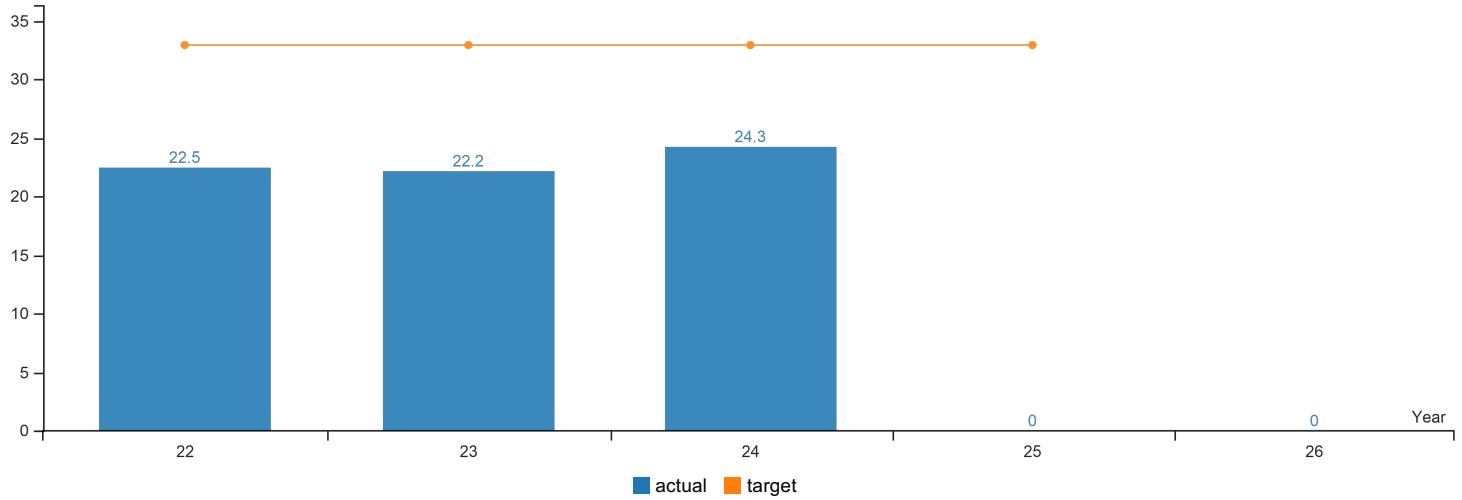
For reporting year 2024 most populations decreased their length of stay in months, except for Non-Hispanic Native American/Alaskan Native children and youth, which increased by just over a month after last year's drop of almost 6 months. Despite this increase, the length of stay of Non-Hispanic Native American/Alaskan Native children and youth is still significantly lower than it was two years ago. Non-Hispanic African American children/youth experienced a decrease of just over 4 months that continues to keep their length of stay experience shorter than Non-Hispanic Asian/Pacific Islanders who also had more than a 4-month drop (down/less is good).

Factors Affecting Results

As noted elsewhere, the steadying rate of children and youth entering foster care has impacted reunification rates, while the continued reduction in the average number of children assigned to a permanency worker gives those workers more time for engaging and implementing reunification plans with parents. Simultaneous efforts from the statewide CW Continuous Quality Improvement Program in partnership with permanency consultants and the targeted tracking of other metrics such as adoption finalization timeliness have all contributed to shorter lengths of stay.

KPM #8	CHILDREN SERVED BY CHILD WELFARE RESIDING IN PARENTAL HOME - The percentage of children served in Child Welfare on an average daily basis (in home and foster care) who were served while residing in their parent's home
	Data Collection Period: Oct 01 - Sep 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
CHILDREN RESIDING AT HOME IN LEAST RESTRICTIVE SETTING					
Actual	22.50%	22.20%	24.30%		
Target	33%	33%	33%	33%	

How Are We Doing

This data point indicates an increase in the percentage of children served in their parent's home for fiscal year 2023. During this reporting period the Family Preservation work which supports learning what it will take to serve more families together in their homes than foster care, expanded to include 7 more local offices (cohort 2) alongside the initial 3 offices (cohort 1). The increase in this percentage may be due to cohort 1 becoming more skilled and supported with the intensive work of managing safety while a child and parent are together with a safety threat present. Cohort 2 spent a majority of the reporting period in their readiness phase with just over 6 months in initial implementation. Oregon expects the upward trend to continue as cohorts mature and more sites are brought on and build their capacities for in-home work. The partnership between the Self Sufficiency and Child Welfare Programs and local communities is indicating a positive impact for families when their economic, safety and stability needs are met in a seamless approach. Numerous data points collected through the Family Preservation dashboards (current data and trending data) support these conclusions as well as other key CW measures. The continued focus on stability, safety, and community engagement are integral to this approach and the positive trajectory of this measure. Oregon plans to take the learning from this up-front approach and apply it to reunification to further impact this measure as children return home from foster care. The outcome of 24.3% is Federal Fiscal Year 2023 data for report year 2024.

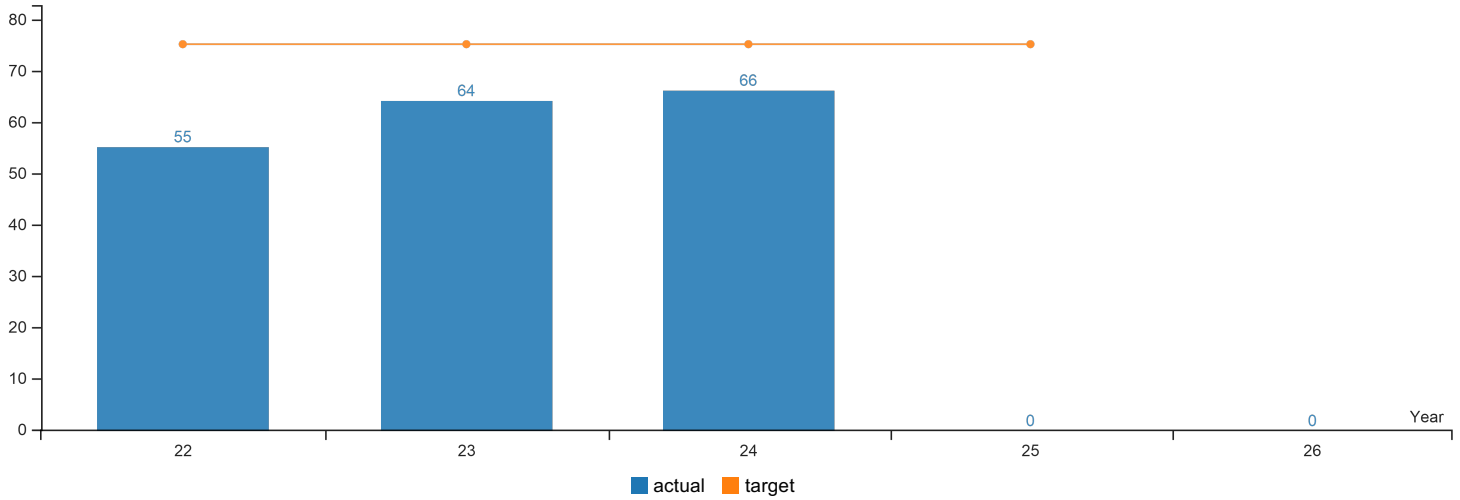
Factors Affecting Results

Led by our Vision for Transformation and Vision into Action, Oregon is determined to move this large agency toward a new purpose of keeping families together, stable, and safe and away from the outdated purpose of using separation as a strategy to build safety. Transformation is a long, slow process and small changes that Oregon is trying are showing impact. It is also true that a lot of work remains ahead. As stated in the last FY2022, case reviews continue to indicate that in some areas of the state in-home cases are often worked by protective services workers instead of being transitioned to permanency/preservation workers which can result in less intensive supports needed for families in their homes, cases closed prior to the family conditions being fully addressed, staff

seeing families in home on an infrequent basis or insufficient safety planning resulting in removal and placement in foster care. The scope for the Family Preservation work during this reporting period focused on in-home up-front cases where the child remained home for the duration of the case and did not include cases where a child returned to their parental home after experiencing foster care. The family preservation program hopes to address each of these areas by taking what is being learned up front and applying it to the entire journey of a family experiencing Child Welfare intervention. We continue to focus on the foundational elements to support leaders, staff and communities in getting families what they need, when they need, how they need it and whom they need it from. This continues to include reaching out and collaborating with communities and community partners to come together to develop resources throughout the state to support family stability which leads to children remaining safely in their homes while working with ODHS or returning home quickly after being placed in substitute care. Oregon continues to focus on family engagement, concrete connections to networks of support, engaging natural supports for families to manage safety threats while children are in-home and cross program collaboration.

KPM #9	TIMELY ELIGIBILITY DETERMINATION FOR ODDS SERVICES - The percentage of individuals who apply for ODDS services who are determined eligible within 90 days from application
	Data Collection Period: Jul 01 - Jun 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
SERVICE ELIGIBILITY - ODDS					
Actual	55%	64%	66%		
Target	75%	75%	75%	75%	

How Are We Doing

The ODDS data demonstrates continued positive change in the number of timely eligible determinations, with a 2% annual increase for FY2024, with the most recent quarter showing a 6% increase in determinations completed within 90 days. While 66% of FY2024 approvals were completed within 90 days, the number of applications approved have increased by 15% from the last fiscal year, with no additional staff allocated. This should be interpreted as a significant improvement.

Factors Affecting Results

There continues to be a positive impact from April 2023 Oregon Administrative Rule revisions establishing Presumptive Eligibility, and specific training requirements for new eligibility specialists, which is now incorporated into annual competency training for all eligibility specialists. The rule language requires that all pending applications are reviewed monthly to be considered for a determination, including Presumptive Eligibility. ODDS has also collaborated with the Oregon Health Authority on the Early Assessment and Screening for Youth (EASY) demonstration project, to obtain expedited evaluations and records collection with concurrent referrals to CDDP offices when it is suspected that a youth has an intellectual or developmental disability (I/DD), and following the EASY evaluation, a eligibility determination can be made quickly. OHA and the Oregon Autism Commission sub-committee are also collaborating with ODDS on ways to build the provider base and train providers for more specific expertise in I/DD evaluations and diagnosis.

ODDS subject matter experts have engaged in quarterly data analysis, and providing technical assistance to CDDPs to discuss data trends and aid in discussions about streamlining processes, reviewing rule interpretation and increasing allowances for presumptive eligibility determinations when the criteria is met.

Ongoing additional related impacts exist due to:

- Administrative Exam Provider availability and timeliness of return reports
- Limited psychologists willing to accept Medicaid funding for administrative examinations
- Educational settings completing fewer intellectual evaluations due to shortage of evaluators and varying interpretation of necessary testing, causing an increase in CDDPs needing to arrange intellectual testing
- Increased delays in receiving existing medical or psychological evaluations due to fewer support staff at medical and educational offices.

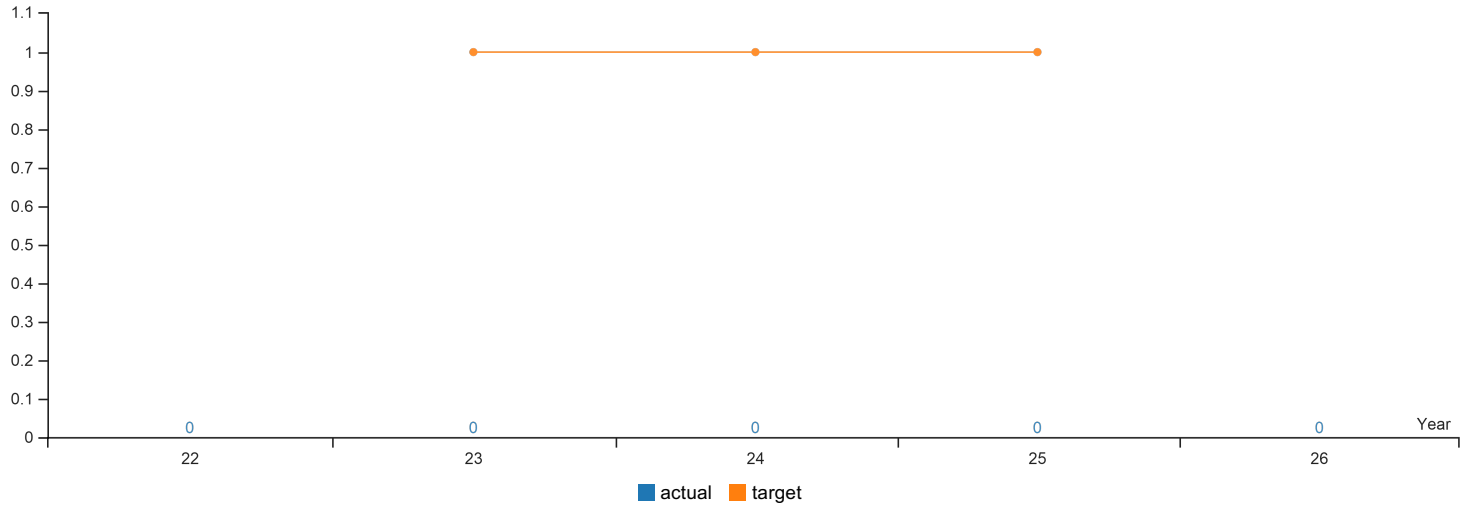
Actions:

- ODDS is reviewing presumptive eligibility data and incorporating findings into plans for improved metrics
- Use of EASY evaluations to reduce need for evaluations in some areas, increased capacity for psychologists for other referrals

Ongoing analysis of equity data for eligibility approvals and denials and identifying goals to improve these outcome measures.

KPM #10	INTELLECTUAL/DEVELOPMENTAL DISABILITY DISPROPORTIONALITY (ODDS) - Percentage of IDD service recipients by race and ethnicity compared to the Oregon population race and ethnicity
	Data Collection Period: Jan 01 - Dec 31

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
INTELLECTUAL/DEVELOPMENTAL DISABILITY DISPROPORTIONALITY (ODDS)					
Actual					
Target		1%	1%	1%	

How Are We Doing

ODDS has been working to assess equity within the Intellectual and Developmental Disabilities (I/DD) systems. To do that, ODDS created disproportionality metric. ODDS will use this data as a starting point to understand how our system serves people differently based on race and ethnicity.

Report Year	2019	2020	2021	2022	2023	2024
a. American Indian/Alaskan Native						
Actual					2.39	2.39
Target					1	1
b. Asian						
Actual					0.74	0.75
Target					1	1
c. Black						
Actual					2.64	2.7

Target					1	1
d. Native Hawaiian and Pacific Islander						
Actual					1.68	1.65
Target					1	1
e. White						
Actual					1.1	1.08
Target					1	1
f. Hispanic or Latina/o/x/e						
Actual					0.54	0.59
Target					1	1
g. More than One Race						
Actual					0.33	0.42
Target					1	1
h. Other Race						
Actual					0.63	0.64
Target					1	1

Factors Affecting Results

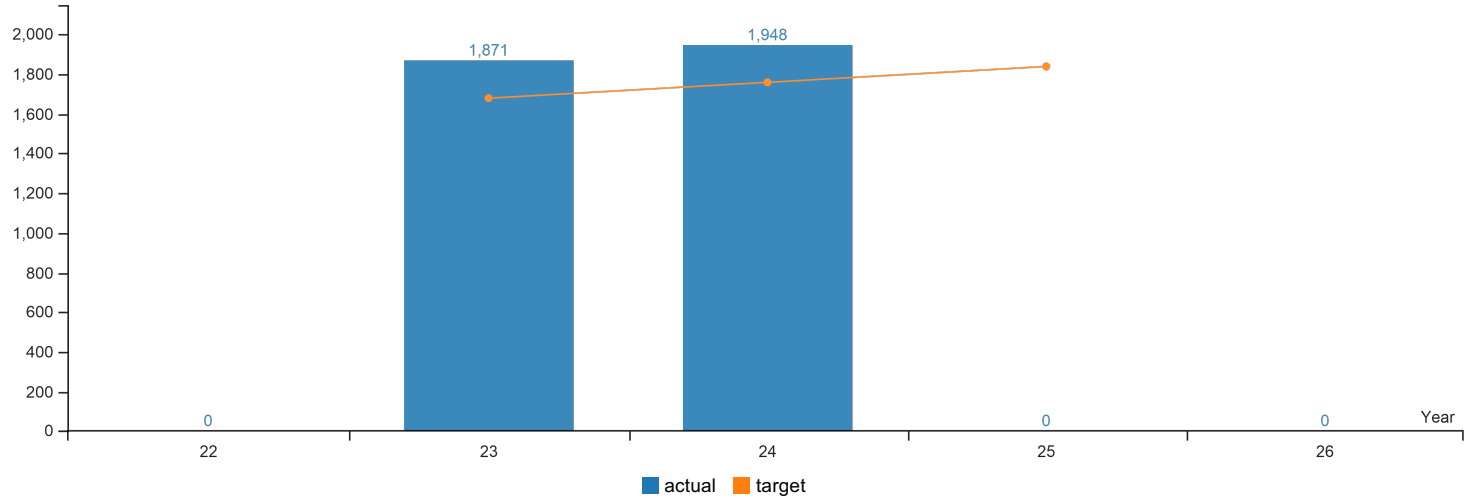
This data helps us explore how societal and systemic barriers may cause disproportionalities in how individuals of various racial and ethnic background access services and supports through ODDS and how they can be addressed through policy and practice. From this, we can start building questions to have conversations and develop efforts that potentially address inequities we see within our system. With both ODDS, CMEs and other community partners having access to the same data, we can support each other in understanding what the data is telling us and how we can adjust engagement with different communities. Data allows us to see the effectiveness of our efforts and to be able to see improvements more accurately over time.

Actions:

- Instituted requirements for Case Management Entities (CMEs) to develop and maintain service equity assessments and action plans. CMEs will report annually to ODDS on updates and work closely on collective initiatives. This is another way ODDS can see potential barriers through different perspectives and work together to address them.
- Distributed additional funding appropriated by the Oregon Legislature to Case Management Entities to improve language access and cultural and linguistic competency in the program and issued language access requirements and guidance to CMEs.
- Began community engagement efforts through community listening sessions where ODDS can hear first-hand from individuals and families, providers and CMEs on impacts that new and existing policies and practices are having on services provided.

KPM #11	SUPPORTED ODDS EMPLOYMENT SERVICES TO MAINTAIN COMPETITIVE INTEGRATED EMPLOYMENT - Number of individuals in competitive integrated employment or individual supported employment
	Data Collection Period: Jul 01 - Jun 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
SUPPORTED ODDS EMPLOYMENT SERVICES TO MAINTAIN COMPETITIVE INTEGRATED EMPLOYMENT					
Actual		1,871	1,948		
Target		1,680	1,760	1,840	

How Are We Doing

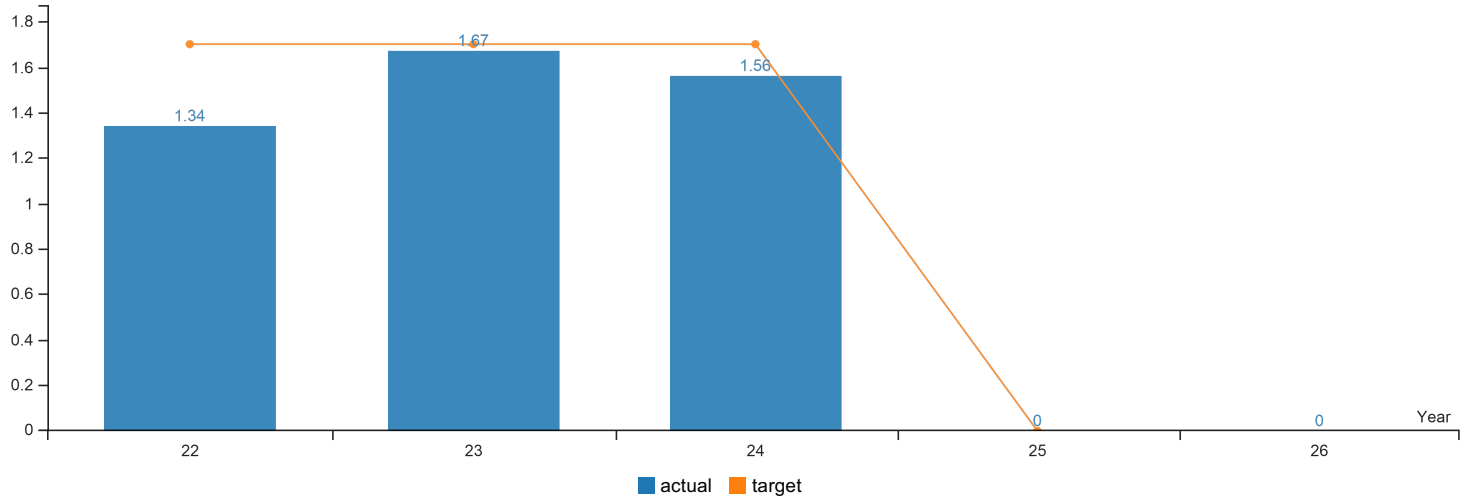
ODHS exceeded its goal of at least 1,800 individuals and currently has more than 1,948 people in competitive integrated employment.

Factors Affecting Results

ODHS continues to maintain policies, rate methodologies and other practices to ensure people with I/DD who want to go to work in the community are able to do so. This trend is continuing in Oregon. Actions: ODDS has been an Employment First state since 2008, meaning Oregon believes that anyone who wants to go to work can go to work with the right supports, no matter their disabilities or needs. It is the job of ODDS and ODHS to ensure those supports are in place and easy to access. Some work includes: continuing to work cross-program with Vocational Rehabilitation and Department of Education on policies, continuing regular technical assistance to our case management entities and providers, etc. Within Employment First there is consistent partner engagement and system improvements to help ensure people who want to go to work have the supports to do so.

KPM #12	ABUSE/NEGLECT OF ADULTS WITH DEVELOPMENTAL DISABILITIES (ODDS) - The percentage of substantiated abuse/neglect of adults in licensed and endorsed programs
	Data Collection Period: Jan 01 - Dec 31

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
ABUSE OF PEOPLE WITH DEVELOPMENTAL DISABILITIES					
Actual	1.34%	1.67%	1.56%		
Target	1.70%	1.70%	1.70%	0%	

How Are We Doing

This metric applies to substantiated abuse of adults in licensed and endorsed programs. Because these programs have sought licenses or endorsements, ODDS can have a direct impact on the provider agencies involved in abuse and neglect.

In previous years, most reports of abuse and neglect involved licensed settings. Employees in these settings are mandatory reporters of abuse and are trained to recognize signs of abuse. The estimate of abuse for this population declined by 0.12% from last year's figure. The adult population receiving these services increased 3.5% from 2022 to 2023 (8606individuals to8921) and the number of adults with a substantiated abuse allegation dropped nominally from 144 in 2022 to 139 in 2023, a decrease of 3.5%. Because of a lack of national abuse data, it is a challenge to establish a meaningful IDD abuse rate target. Targets are currently based on trends of historical data.

Oregon's recent transition to a Centralized Abuse Management (CAM) information system is providing enhanced tracking and monitoring of abuse referrals and investigations. The CAM system will enhance access and availability of information across the state and greatly improve the ability to make data informed decisions.

Factors Affecting Results

The last five years have seen significant variation in the substantiation rates for adults with developmental disabilities. In the past two years the rate seems to have settled at around 1.6%, about midway between rates before and during the COVID pandemic, and slightly below the long-term target (1.7%). Over the previous four years the overall trend has been an increase back towards pre-COVID rates, without fully reaching those levels. The apparent reduction may indicate true improvements (e.g., increased/better training for those working with DD individuals) or could in part relate to reporting issues, e.g., true instances of abuse are not being reported or an increase in reports that are ultimately not substantiated. Either scenario would tend to reduce overall substantiation rates.

Additionally, abuse rates for people with intellectual/developmental disabilities can be affected by many factors including:

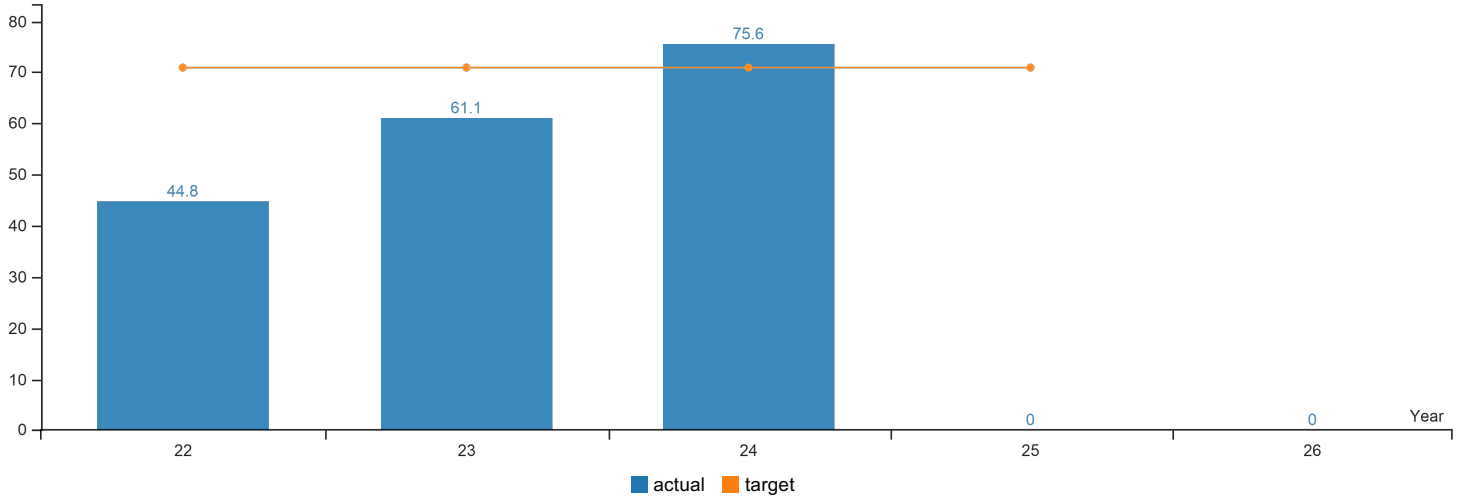
- The high acuity and service needs of residents being served in community-based care settings.
- High turnover rate of treatment and support staff in all settings.
- An adult's right to make decisions about their living situation, companions, etc.
- Barriers to the reporting of abuse by cognitively impaired clients.
- Limited resources available to respond to and support people with intellectual/developmental disabilities who are abused (e.g. domestic violence shelters, counseling resources, etc.).

What needs to be done in this area includes:

- Ongoing training for service coordinators, personal agents, personal support workers, direct support providers, service providers and facility staff in recognizing, reporting, and preventing abuse.
- Research and collaboration with community response systems and resources, including domestic violence interventions, sexual assault response, mental health services, housing, etc.
- Coordination and participation with local area multidisciplinary teams and coordinated-care organizations.

KPM #13	HOUSEHOLDS AT, OR ABOVE, LIVING WAGE FOUR QUARTERS AFTER LEAVING SSP PROGRAM - The median percentage of households leaving Self Sufficiency who are at, or above, a living wage four quarters out
	Data Collection Period: Jul 01 - Jun 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
HOUSEHOLDS AT, OR ABOVE, LIVING WAGE					
Actual	44.80%	61.10%	75.60%		
Target	71%	71%	71%	71%	

How Are We Doing

The Office of Self-Sufficiency Programs (SSP) is guided by the Oregon Department of Human Services (ODHS) Equity North Star[1] and by the agency's Building Well-being Initiative (BWBI) to advance a future where all who live in Oregon, regardless of race, identity, or place, have the resources and support they need to achieve whole well-being for themselves, their families, and their communities.

Our commitment to this vision is reflected in supports and services that aim to improve the economic stability of the communities we serve. Achieving living wages is essential for maximizing human potential. Families whose incomes are near or below the federal poverty level often struggle to afford basic needs such as food, housing, utilities, childcare, and clothing. This measure tracks the median percentage of participants who exit all Self-Sufficiency programs and earn at or above living wages four quarters after exiting.

The most recent data shows that 75.6% of these participants are earning living wages. This is a substantial improvement from last year's result of 61.1%, showing significant progress toward economic stability for program participants. It's important to note that only SSP exiters whose income is captured by OED are included in the analysis. Participants engaged in the informal economy or whose wages are not reported to OED are excluded, which may limit the scope of this data.

[1] https://www.oregon.gov/dhs/DHSNEWS/Documents/ODHS-Equity-North-Star.pdf

Factors Affecting Results

This measure is based on data provided by the Oregon Employment Department (OED), which tracks participant earnings one year after exiting all SSP programs. These earnings are compared to

the Washington State University Self-Sufficiency Standard for Oregon, which outlines the income levels required to meet basic needs, with adjustments for family size and geographic location.[1]

The 2024 results reflect participants who left SSP programs in 2022. The significant increase in households earning a living wage may be attributed to several factors, including improved economic conditions, the end of the public health emergency, and targeted programmatic investments in employment and training. However, the structure of the local economy, the availability of jobs, and macroeconomic trends may have also influenced these results.

ODHS continues to refine its role within the Oregon Workforce System, fostering stronger partnerships and enhancing service delivery. Through expanded data-sharing agreements, such as those with OED regarding Supplemental Nutrition Assistance Program (SNAP) employment plans, the department aims to further integrate services and improve outcomes.

Looking ahead, SSP will continue to focus on building partnerships and responding to community feedback, ensuring that programmatic efforts continue to support families on the path to self-sufficiency and living wage employment.

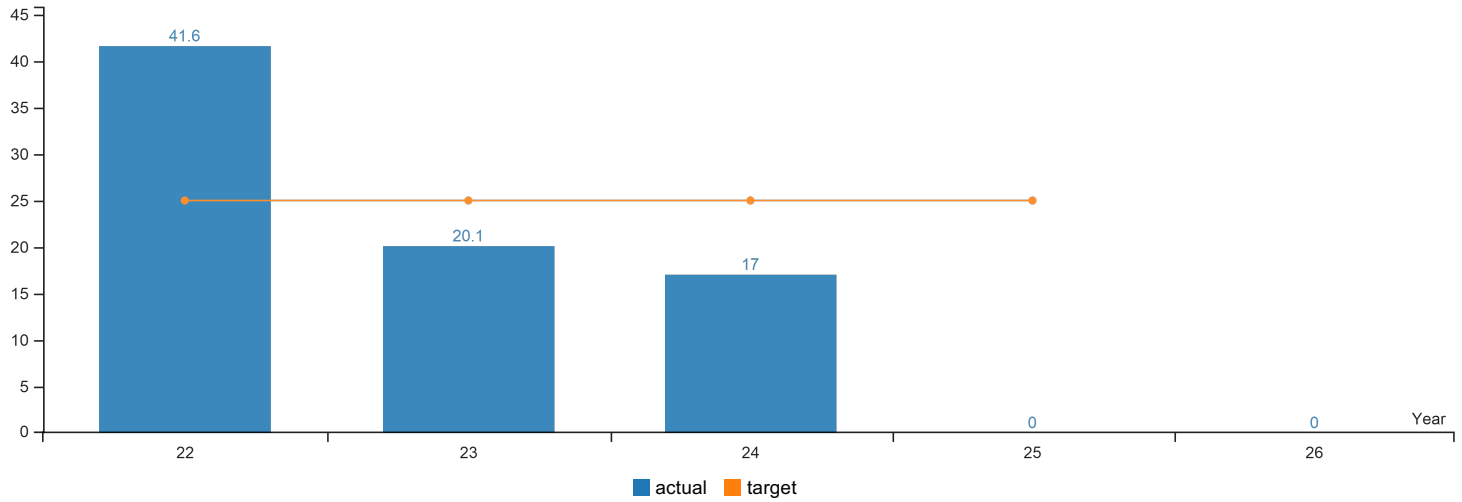
KPM #14	SSP PARTICIPANTS REPORTING HOUSING STABILITY - The percentage of Self Sufficiency participants who report their housing needs are fully met
	Data Collection Period: Jan 01 - Dec 31

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
HOUSING STABILITY					
Actual	41.60%	20.10%	17%		
Target	25%	25%	25%	25%	

How Are We Doing

The Office of Self-Sufficiency Programs (SSP) is guided by the Oregon Department of Human Services (ODHS) Equity North Star[1] and by the agency's Building Well-being Initiative (BWBI) to advance a future where all who live in Oregon, regardless of race, identity, or place, have the resources and support they need to achieve whole well-being for themselves, their families, and their communities. The Office of Self-Sufficiency Programs (SSP) is dedicated to upholding this vision through supports and services aimed at improving the economic conditions of the communities we serve. Housing is a key social determinant of health and a foundation for successful communities. Affordable and permanent housing improves the quality of life of families by leading to better health, stability, safety, and security. Where a person lives can predict their life expectancy[2]. The goal of this measure is to track the percentage of households connecting to Self-Sufficiency programs who report housing stability.

In the summer of 2024, SSP conducted a statewide voluntary survey of Supplemental Nutrition Assistance Program (SNAP) participants who applied or reapplied for benefits during the year. The survey was accessible in six languages: Arabic, Russian, Somali, Spanish, Vietnamese, and English. Out of 70,407 invited participants, a total of 5,866 responded resulting in an overall response rate of 8.3%.

The survey found that 17.0 percent of respondents reported housing stability, lower compared to 20.1 percent in 2023. Based on the survey, 74.2 percent of the respondents reported housing instability, meaning that their housing needs are not fully met.

The following is a breakdown by race, ethnicity and disability of participants who responded, "I and/or my family's housing needs are fully met (i.e., I can afford to pay rent/mortgage and utilities without difficulty)" to the KPM question: "Please select what you feel is most true for your family now". Please note the race, ethnicity and disability breakdown shown below is not generalizable to the entire

SNAP population.

Race/ethnicity/disability	Percentage
American Indian and Alaska Native	10.6%
Asian	22.2%
Black and African American	10.9%
Hispanic and Latino/a/x	15.2%
Middle Eastern and North African*	14.8%
Native Hawaiian and Pacific Islander*	6.3%
Unknown	14.5%
White	19.8%
Grand Total	**17.0%**
Individuals with disability(ies) (Included in the counts above)	11.4%
**small sample size for this population*	

The survey provided participants with an opportunity to share additional input. Below are a few quotes from respondents who chose to answer the question, "Is there anything else about your living situation you'd like to share?"

"I feel like the amount of money provided for assistance isn't enough, and I've had to make tough choices between food, medicine, and housing. The support doesn't match the rising cost of living."

"Currently no way to get to places, do not have a car, and with my low income I can't keep up with rent or utilities. It's been extremely difficult to stay afloat."

"The landlord refuses to do necessary repairs, and the place is falling apart. I'm stuck because I can't afford anything else right now."

"People who are struggling even with jobs and need rental assistance are being ignored. We're drowning in costs, and there's no help in sight."

"Inadequate living. Basement with mold, bugs, holes, etc at much too high a price, even with a roommate."

The general observations based on the comments from survey respondents are that survey respondents:

- Are facing financial struggles, with rent consuming a significant portion of their income.
- Are living in unsafe or poor housing conditions, including issues such as mold, pest infestations, and electrical hazards.
- Are experiencing housing instability and fear of losing their current living arrangements without additional support.
- Need continued assistance and support to remain in their homes, with some indicating that they would be unable to stay without external help.

Factors Affecting Results

Housing remains a critical issue across Oregon, with significant challenges in affordability and availability continuing to drive instability and homelessness.[1] Based on the 2024 SSP Wellbeing Survey, only 17.0% of respondents reported that their housing needs are fully met, revealing the extent of housing insecurity across the state. This percentage varies significantly across different racial

and demographic groups, highlighting disparities in housing access and stability.

Additionally, racial disparities in housing stability remain stark. While White respondents reported a higher rate of housing stability at 19.8%, marginalized groups, particularly Black, and American Indian respondents, experience disproportionately higher levels of housing insecurity. This reflects broader, systemic inequities in housing access and affordability across Oregon.

Key findings from the 2024 survey show that certain populations experience significantly lower levels of housing stability:

- Black and African American respondents and American Indian and Alaska Native respondents reported notably low housing stability rates, at 10.9% and 10.6%, respectively. These figures highlight systemic barriers to affordable, quality housing for communities of color.
- Individuals with disabilities continue to face significant housing challenges, with only 11.4% of respondents in this group reporting that their housing needs are fully met. This points to ongoing accessibility issues and the higher financial burdens experienced by those with disabilities.

The rollback of pandemic-era protections, such as emergency rental assistance, eviction moratoria, and increased SNAP benefits, has left many individuals vulnerable. Inflation and rising housing costs may have exacerbated these issues, and the limited availability of affordable housing units further compounds the problem.[2]

SSP has responded to these challenges by expanding TANF-funded support service payments for housing related costs and through partnerships with Oregon Housing and Community Services. These efforts include housing navigation services and other resources aimed at preventing eviction and supporting stable housing. However, the 2024 Wellbeing Survey data suggest that more systemic and targeted interventions are necessary to address housing, particularly for those most affected by economic hardship, disability, and racial inequities.

[1] According to the 2023 Oregon Statewide Homelessness Estimates, homelessness increased by 8.5% overall from 2022, with unsheltered homelessness rising by 17.2% and sheltered homelessness by 4.2%. Oregon also has the second-highest rate of unsheltered homelessness in the nation, with 65% of all homeless individuals being unsheltered.

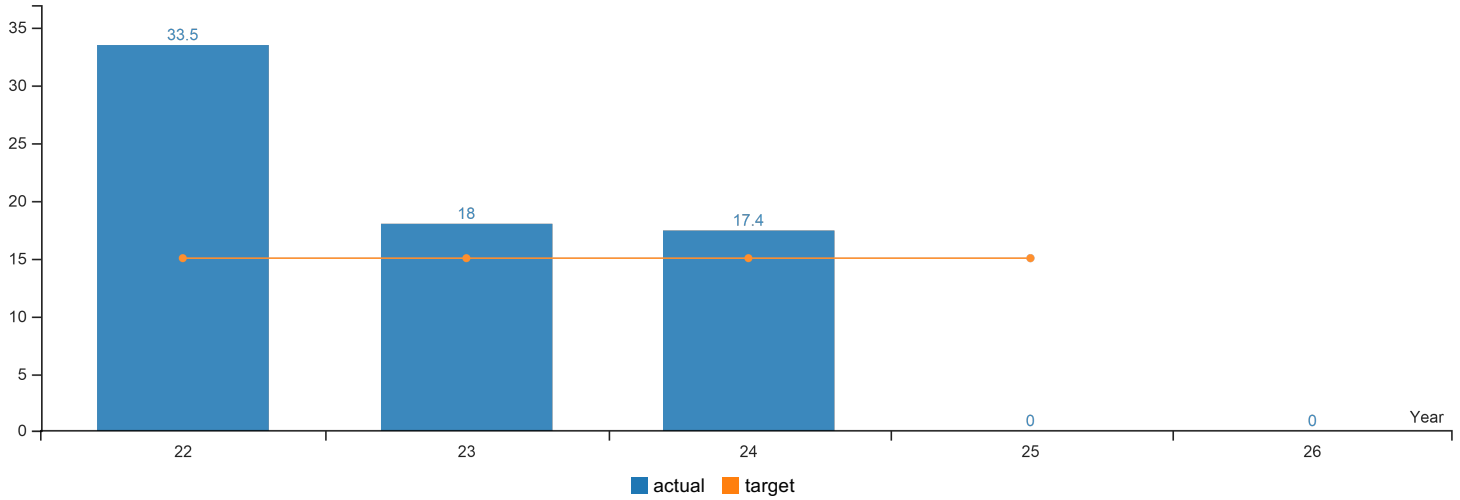
KPM #15	SSP PARTICIPANTS REPORTING FOOD SECURITY - The percentage of Self Sufficiency participants who report they did not worry about having enough food, or actually run out of food, in the past 12 months
	Data Collection Period: Jan 01 - Dec 31

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
FOOD SECURITY					
Actual	33.50%	18%	17.40%		
Target	15%	15%	15%	15%	

How Are We Doing

The Office of Self-Sufficiency Programs (SSP) is guided by the Oregon Department of Human Services (ODHS) Equity North Star[1] and by the agency's Building Well-being Initiative (BWBI) to advance a future where all who live in Oregon, regardless of race, identity, or place, have the resources and support they need to achieve whole well-being for themselves, their families, and their communities.

SSP is dedicated to upholding this vision through supports and services aimed at improving the economic conditions of the communities we serve. Food security is closely tied to economic mobility, a key social determinant of health. Access to nutritious food is essential for babies to reach developmental milestones, support children's learning and growth, reduce the likelihood of chronic disease in adults, and help seniors maintain health and independence. This measure aims to track the percentage of households engaging with Self-Sufficiency programs that report food security.

The United States Department of Agriculture (USDA) defines food security as consistent and dependable access to enough food for an active, healthy life. According to the USDA's "Household Food Security in the United States in 2023" report, 12.8 percent of Oregon households were food insecure, a statistically significant 2.6 percent increase from 2022.[2]

In the summer of 2024, SSP conducted a statewide voluntary survey of Supplemental Nutrition Assistance Program (SNAP) participants who applied or reapplied for benefits during the year. The survey was accessible in six languages: Arabic, Russian, Somali, Spanish, Vietnamese, and English. Out of 70,407 invited participants, a total of 5,866 responded resulting in an overall response rate of 8.3%.

Based on the survey, 17.4 percent of respondents reported experiencing food security. This year's result is 0.6 percent lower than the food security rate reported in 2023. This means that 77.5%

percent of respondents reported experiencing food insecurity, meaning that their access to adequate food is limited by a lack of money or other resources.

During the COVID-19 pandemic, federally approved benefits like enhanced SNAP emergency allotments, along with other USDA initiatives such as school lunches, state investments in food banks, the child tax credit, and various pandemic relief efforts, were crucial in supporting communities. However, the expiration of most of these programs, combined with broader economic factors like inflation, has affected food security rates.[3] A recurring theme in survey respondents' comments was that rising food prices, along with the end of SNAP emergency allotments, are increasing the strain on individuals and families to meet their basic needs.

The following is a breakdown by race, ethnicity and disability of participants who responded “Never true” to the KPM question**: “Within the past 12 months, we worried whether our food would run out before we got money to buy more”**

Race/ethnicity/disability	**Percentage**
American Indian and Alaska Native	12.2%
Asian	26.1%
Black and African American	14.9%
Hispanic and Latino/a/x	13.9%
Middle Eastern and North African*	17.7%
Native Hawaiian and Pacific Islander*	13.8%
Unknown	14.0%
White	20.1%
Grand Total	**17.4%**
Individuals with disability(ies) (Included in the counts above)	12.1%
**small sample size for this population*	

The following is a breakdown by race, ethnicity and disability of participants who responded “Never true” to the KPM question**:** “Within the past 12 months, the food we bought just didn’t last and we didn’t have money to get more”:

Race/ethnicity/disability	**Percentage**
American Indian and Alaska Native	17.4%
Asian	36.9%
Black and African American	20.5%
Hispanic and Latino/a/x	22.0%
Middle Eastern and North African*	25.8%
Native Hawaiian and Pacific Islander*	21.3%
Unknown	21.0%
White	30.3%
Grand Total	**26.1%**
Individuals with disability(ies) (Included in the counts above)	18.2%
**small sample size for this population*	

The following are a few of the quotes from survey respondents who opted to provide more input:

“The food assistance hasn't kept up with the increase cost of food since the pandemic assistance expired. Food cost continues to rise while food assistance was cut. I receive 90% less since the pandemic assistance was cut.”

“With prices increasing, the snap program is really insufficient now that it has lost its additional Federal bonus. It is hard to make ends meet food-wise, with the amount of credit we are given each month. I know Beggars can't be choosers, I just wish there was something more that could be done, not only with food, but with rent assistance.”

“We live in a very tight budget and we don't usually have enough food to last us the month at the moment I am in between jobs so we're having trouble paying for meals we also pay for our own propane which is the only way we can heat our home and cook our food thank you for your time today.”

“Food is soooo expensive!!!”

[2] Household Food Security in the United States in 2023. U.S. Department of Agriculture, 2023. https://www.ers.usda.gov/webdocs/publications/109896/err-337.pdf?v=9734.5

[3] Household Food Security in the United States in 2023. U.S. Department of Agriculture, 2023. https://www.ers.usda.gov/webdocs/publications/109896/err-337.pdf?v=9734.5

Factors Affecting Results

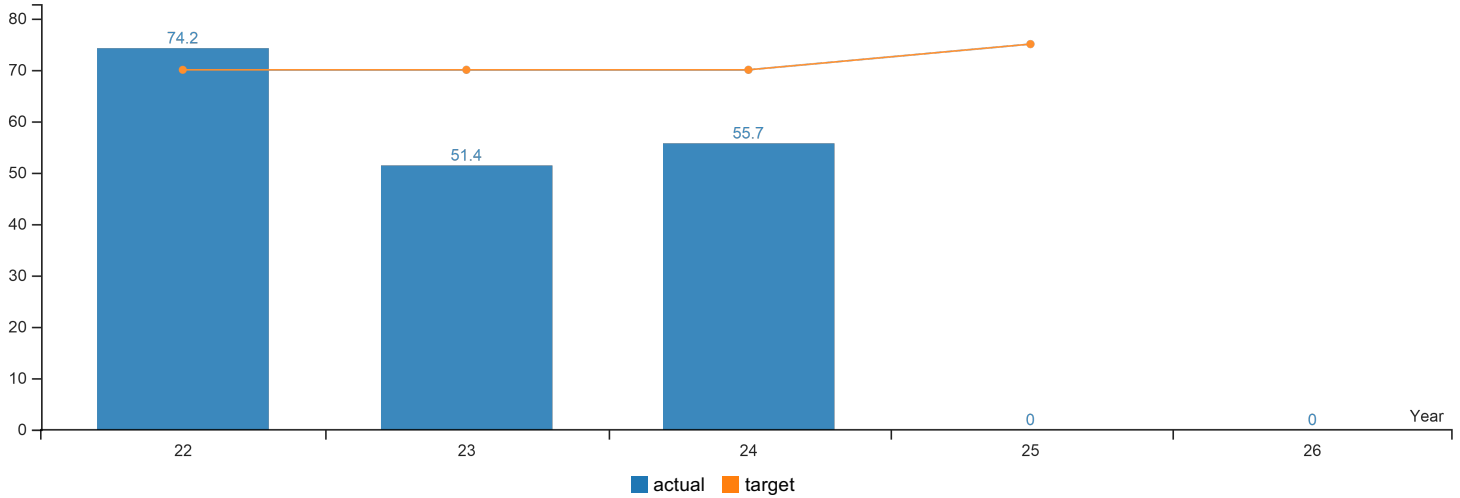
The rise in food insecurity is closely linked to the expiration of key pandemic-era benefits, particularly the Supplemental Nutrition Assistance Program (SNAP) emergency allotments, which had provided crucial financial support to low-income households during the COVID-19 public health crisis. As these benefits ended, many households experienced a sudden reduction in their food budgets, leading to increased food insecurity. The open-ended survey responses reveal that individuals and families who had relied on these expanded benefits struggled to adapt to the reduced support, often having to make difficult trade-offs between essential expenses such as rent, utilities, and groceries.

Another critical factor impacting food security is inflation, particularly the rising cost of food. Survey respondents consistently mentioned the sharp increase in grocery prices, which placed additional pressure on already strained household budgets. Inflation, coupled with the end of the SNAP emergency allotments, left many families unable to purchase enough food, forcing them to either reduce the quantity or compromise on the quality of their meals.

In response, SSP continues its efforts to connect underserved populations with available resources. This includes outreach programs to educate communities about SNAP benefits, dispel misconceptions, and aid with applications. Collaboration with community partners remains a cornerstone of these efforts, as SSP works with over 15 agencies to expand its outreach and address barriers to food access..

KPM #16	SSP PARTICIPANTS REPORTING GREATER SELF-EFFICACY - The percentage of Self Sufficiency participants who report they feel more confident in their ability to improve their current circumstances because of SSP and other services they were connected to
	Data Collection Period: Jan 01 - Dec 31

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
SELF-EFFICACY/HOPE					
Actual	74.20%	51.40%	55.70%		
Target	70%	70%	70%	75%	

How Are We Doing

The Office of Self-Sufficiency Programs (SSP) is guided by the Oregon Department of Human Services (ODHS) Equity North Star[1] and by the agency's Building Well-being Initiative (BWBI) to advance a future where all who live in Oregon, regardless of race, identity, or place, have the resources and support they need to achieve whole well-being for themselves, their families, and their communities.

The Office of Self-Sufficiency Programs (SSP) is committed to advancing this vision by providing services and support designed to enhance the economic stability of the communities we serve. Poverty is a complex issue that extends beyond insufficient income,[2] encompassing various dimensions of deprivation. Addressing these multiple dimensions is essential to helping individuals move out of poverty and achieve well-being.[3] This measure focuses on one aspect of poverty: participants' perception of control over their own circumstances. Specifically, it tracks reported increases in self-efficacy and hope resulting from their engagement with SSP and the connections SSP facilitates to other services.

In the summer of 2024, SSP conducted a statewide voluntary survey of Supplemental Nutrition Assistance Program (SNAP) participants who applied or reapplied for benefits during the year. The survey was accessible in six languages: Arabic, Russian, Somali, Spanish, Vietnamese, and English. Out of 70,407 invited participants, a total of 5,866 responded resulting in an overall response rate of 8.3%.

According to the survey, 55.7 percent of respondents reported increased confidence in their ability to improve their current circumstances due to their involvement with SSP and the services to which they were connected. This reflects an increase from 51.4 percent in 2022. Additionally, 59.2 percent of respondents indicated a greater sense of hope for their future, up from 56.4 percent in 2023, as

a result of their engagement with SSP and the connections it facilitated to other services.

The following is a breakdown by race, ethnicity and disability of participants who responded “Agree” or “Strongly agree” to the KPM question: “My involvement with ODHS Self-Sufficiency and the services ODHS has connected me to have helped me feel more confident in my ability to improve my current circumstances.”

Race/ethnicity/disability	**Percentage**
American Indian and Alaska Native	49.0%
Asian	68.2%
Black and African American	55.0%
Hispanic and Latino/a/x	74.6%
Middle Eastern and North African*	54.8%
Native Hawaiian and Pacific Islander*	65.0%
Unknown	43.8%
White	55.3%
Grand Total	55.7%
Individuals with disability(ies) (Included in the counts above)	46.2%
**small sample size for this population*	

The following is a breakdown by race, ethnicity and disability of participants who responded “Agree” or “Strongly agree” to the KPM question: “My involvement with ODHS Self-Sufficiency and the services ODHS has connected me to have helped me feel more hopeful about my future”:

Race/ethnicity/disability	**Percentage**
American Indian and Alaska Native	54.5%
Asian	70.1%
Black and African American	59.8%
Hispanic and Latino/a/x	73.2%
Middle Eastern and North African*	64.5%
Native Hawaiian and Pacific Islander*	68.8%
Unknown	47.0%

Grand Total	**59.2%**
Individuals with disability(ies) (Included in the counts above)	46.2%
**small sample size for this population*	

The following are a few of the quotes from survey participants who opted to provide more input:

"I feel like the amount of money provided for assistance isn't enough, and I’ve had to make tough choices between food, medicine, and housing. The support doesn't match the rising cost of living."

"I am grateful for the help I do receive. SNAP and other programs do help, but the amount is so small that I still feel anxious and uncertain about the future."

“Single parent homes are almost impossible to run. I am trying to prioritize being with my kids and breaking generational cycles. it feels like I have to be in poverty to keep my kids safe at this point. I can't leave them for 40-60 hours a week and expect them to grow up healthy.”

"Without SNAP and medical, my family would have nothing. But it's a constant problem trying to make ends meet, and it feels like there's no real way out."

Factors Affecting Results

Self-efficacy is defined as participants having a sense of control or influence over the events and circumstances that affect them and the ability to act on it. Hope is defined as participants' belief that their current circumstances will improve. The results provide insight into participants' experiences with SSP services, with both recurring and emerging themes. As in previous years, these results are derived entirely from participant entries in the SSP well-being survey. The feedback illustrates the importance of program accessibility, and the quality of interactions participants have with SSP staff. The following illustrates the complex and often conflicting experiences of participants, who express both gratitude for the support they receive from SSP services and frustration over the insufficiency of that assistance, particularly in the face of rising living costs and bureaucratic barriers:

- Many participants expressed appreciation for the assistance they received, particularly in terms of SNAP benefits, medical support, and positive interactions with staff. However, this gratitude was frequently paired with frustration over the insufficiency of the support, particularly in light of rising living costs. Participants noted that while helpful, the assistance often falls short of meeting basic needs, such as food and housing security, leaving them feeling that they are constantly struggling.

- A significant number of respondents shared frustrations about the complicated processes and rigid eligibility criteria associated with accessing SSP services. Participants reported feeling discouraged when they encountered bureaucratic obstacles, which hindered their ability to improve their circumstances. In particular, some felt penalized for attempting to work or make progress, as it could result in reduced benefits, creating a sense of being trapped within the system.

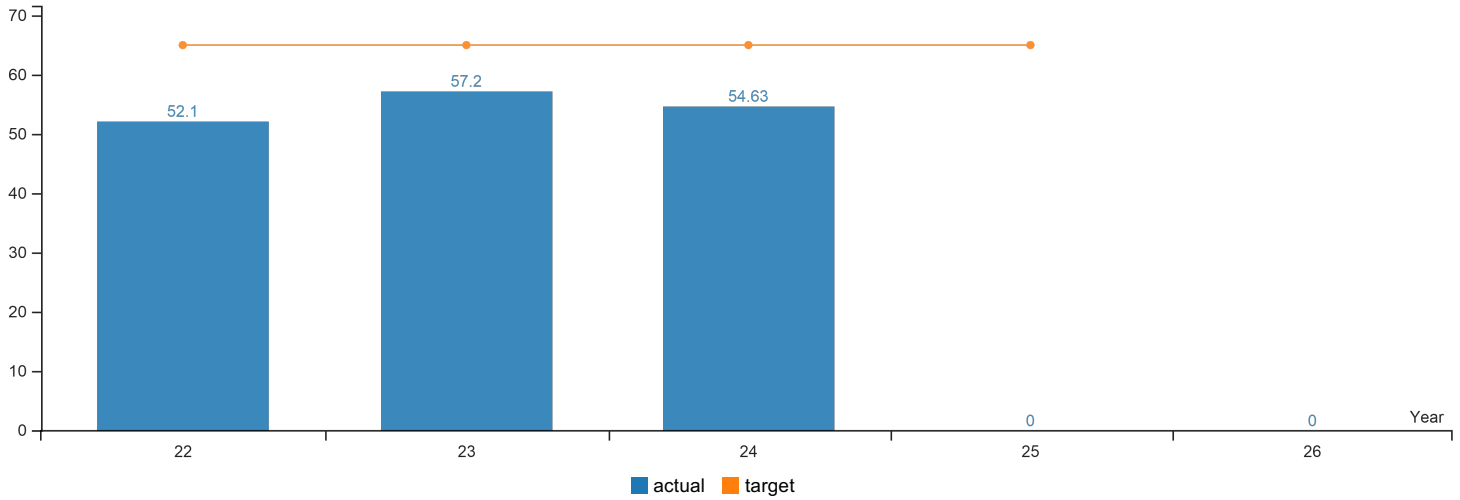
- Financial strain was a dominant theme throughout the feedback. Many participants reported ongoing struggles to make ends meet, particularly with housing and food costs. This financial insecurity is compounded by rising living expenses, which many feel are not adequately addressed by the support they receive. The emotional and psychological toll of this uncertainty has a direct impact on participants' sense of control over their circumstances, often eroding their self-efficacy and hope for the future.

- Despite the challenges, some participants indicated that SSP's support increased their confidence in their ability to take control of their lives and improve their situations. Positive interactions with staff and a sense of being cared for were important contributors to participants feeling hopeful. However, others reported that the limited assistance made it difficult to feel optimistic or in control of their circumstances, particularly when their basic needs were still unmet.

In light of these findings, SSP remains committed to improving accessibility, fostering positive, supportive interactions, and working to address the multifaceted challenges that participants face. The survey reinforces the need for a holistic approach to support—one that addresses financial, emotional, and systemic barriers—while continuing to focus on building self-efficacy and hope as key drivers of long-term well-being.

KPM #17	OVRS CONSUMERS WHO ARE SUCCESSFULLY EMPLOYED AT PROGRAM EXIT - The percentage of Office of Vocational Rehabilitation Services (OVRS) consumers with a goal of employment who are employed at program exit
	Data Collection Period: Oct 01 - Sep 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
OVRS CLOSED - EMPLOYED					
Actual	52.10%	57.20%	54.63%		
Target	65%	65%	65%	65%	

How Are We Doing

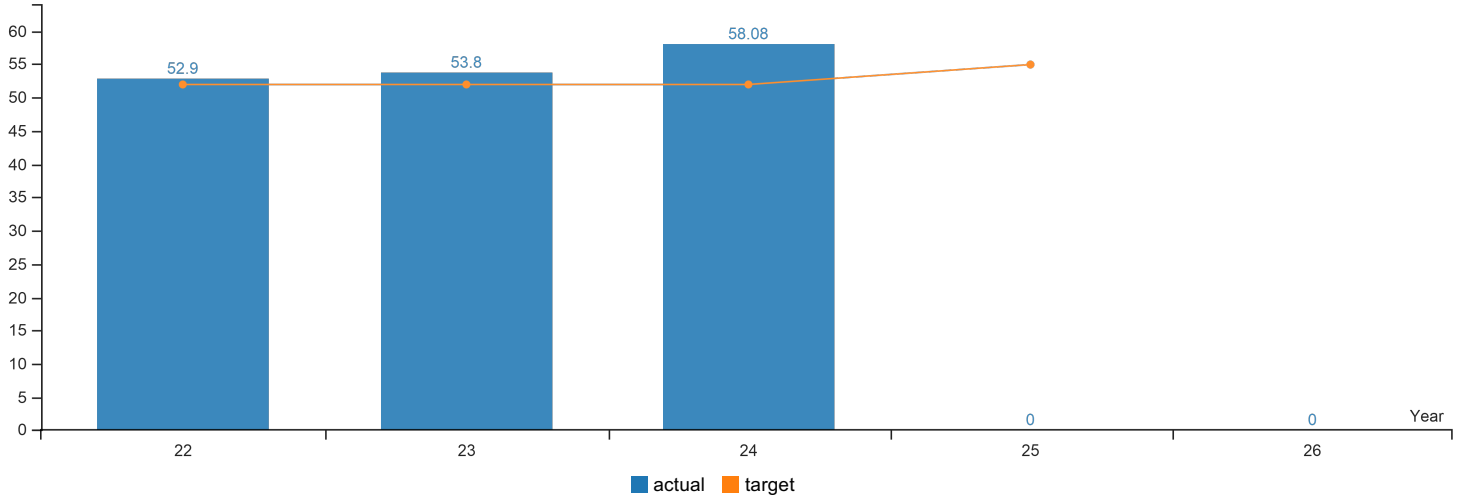
We are performing within a relatively narrow band over the last 5 years with a decrease from last year.

Factors Affecting Results

There was a slowing of the larger economy over this period with improvements after this reporting year ended. We have also had fairly significant staff turnover within our direct service staff. This has led to the need for a significant amount of training and turnover within case management. One of the biggest barriers to successful rehabilitation cases is when there is staff turnover because there is then a gap in contact with the customer as well as a refreshing of the case that is frustrating for customers.

KPM #18	OVRS CONSUMERS EMPLOYED IN SECOND QUARTER FOLLOWING PROGRAM EXIT - The percentage of OVRS clients closed from plan who are employed during second quarter following program exit
	Data Collection Period: Oct 01 - Sep 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
EMPLOYMENT IN SECOND QUARTER					
Actual	52.90%	53.80%	58.08%		
Target	52%	52%	52%	55%	

How Are We Doing

OVRS exceeded our target by ~6 percentage points this last program year. This continues increases over the last four years.

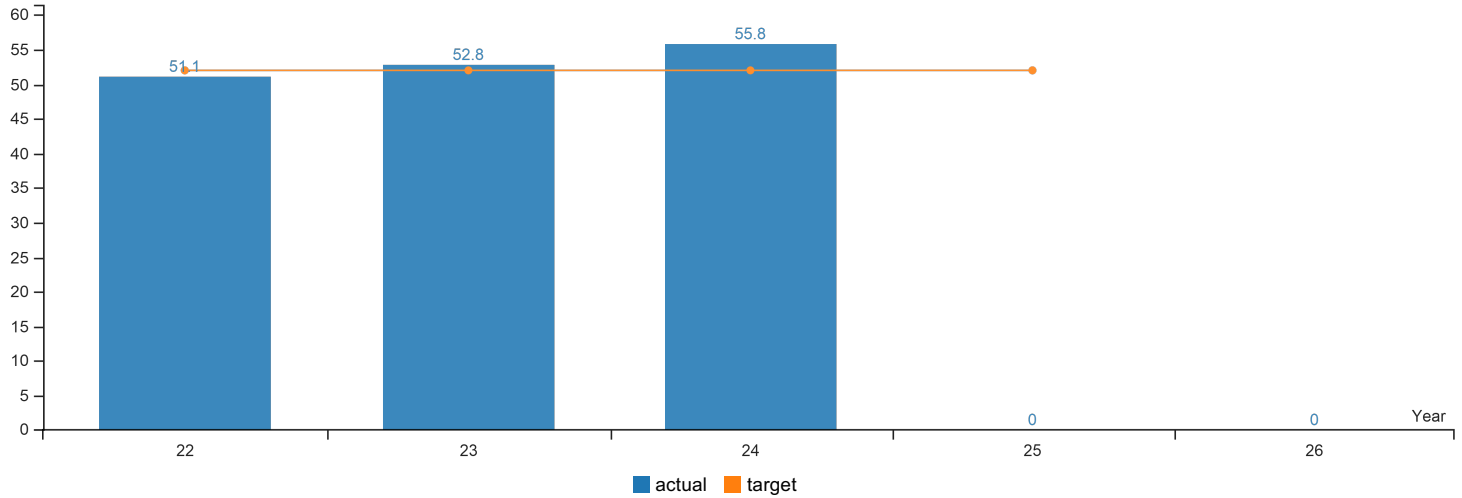
Factors Affecting Results

OVRS has made efforts to increase timeliness activities and increased “informed choice.” Timeliness from application to eligibility and eligibility to individualized plan for employment are important customer services, as well increased emphasis from our federal partners (RSA), to increase customer engagement and “motivation to change” leading to customers being more ready to engage their rehabilitation activities. OVRS has worked to put together resources to help branch managers and direct service staff to understand where customers are in the rehabilitation process so they can process new customers in a timelier manner. Additionally, OVRS had national experts provide training helping staff be aware of resources to help customers and staff identify job goals that meet customers’ interests and strengths.

Additionally, OVRS has provided trainings and increased awareness of the importance of “informed choice.” Informed choice is the involvement of customers in selecting their job goal, services, and service providers. The more engaged customers are with their rehabilitation process they are more likely to be in jobs they are more committed too and likely to stay in long-term.

KPM #19	OVRS CONSUMERS EMPLOYED IN FOURTH QUARTER FOLLOWING PROGRAM EXIT - The percentage of OVRS clients closed from plan who are employed during fourth quarter following program exit
	Data Collection Period: Oct 01 - Sep 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
EMPLOYMENT IN FOURTH QUARTER					
Actual	51.10%	52.80%	55.80%		
Target	52%	52%	52%	52%	

How Are We Doing

OVRS has seen steady improvement in this measure over the last five years and has moved more significantly over our target.

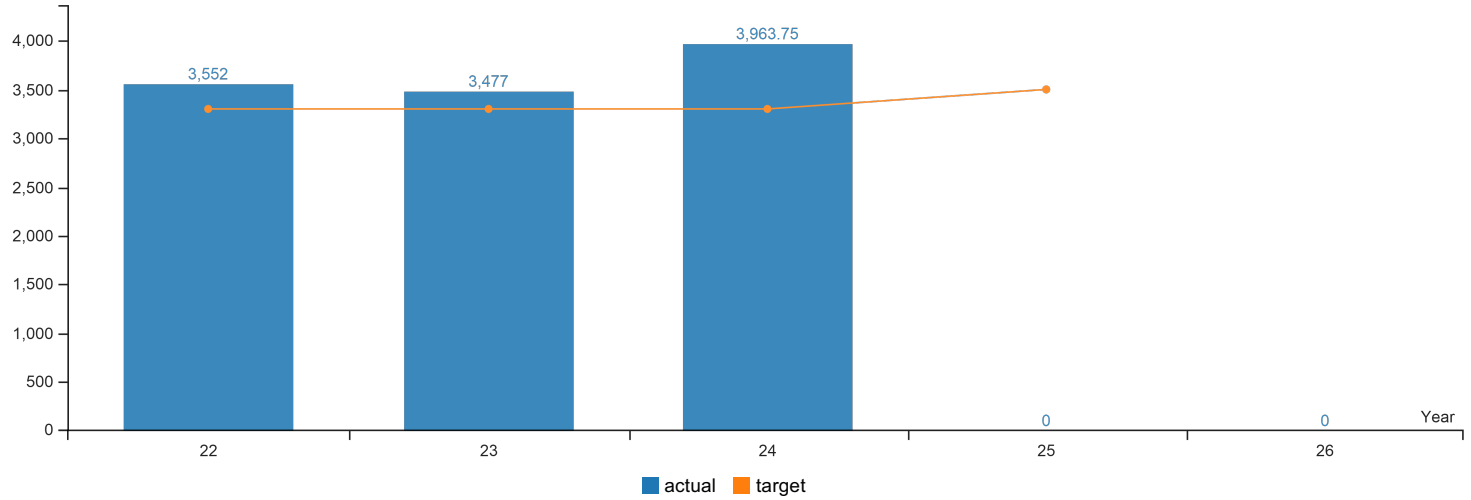
Factors Affecting Results

OVRS has made efforts to increase timeliness activities and increased “informed choice.” Timeliness from application to eligibility and eligibility to individualized plan for employment are important customer services, as well increased emphasis from our federal partners (RSA), to increase customer engagement and “motivation to change” leading to customers being more ready to engage their rehabilitation activities. OVRS has worked to put together resources to help branch managers and direct service staff to understand where customers are in the rehabilitation process so they can process new customers in a timelier manner. Additionally, OVRS had national experts provide training helping staff be aware of resources to help customers and staff identify job goals that meet customers’ interests and strengths.

Additionally, OVRS has provided trainings and increased awareness of the importance of “informed choice.” Informed choice is the involvement of customers in selecting their job goal, services, and service providers. The more engaged customers are with their rehabilitation process they are more likely to be in jobs they are more committed too and likely to stay in long-term.

KPM #20	OVRS MEDIAN QUARTERLY WAGE AT SECOND QUARTER FOLLOWING PROGRAM EXIT - Median quarterly wage at second quarter following OVRS program exit
	Data Collection Period: Oct 01 - Sep 30

** Upward Trend = positive result*



Report Year	2022	2023	2024	2025	2026
MEDIAN QUARTERLY WAGE					
Actual	$3,552.00	$3,477.00	$3,963.75		
Target	$3,300.00	$3,300.00	$3,300.00	$3,500.00	

How Are We Doing

We have seen consistent increases in this measure, which is a key measure for success to increasing independence for our customers

Factors Affecting Results

There have been significant activities with our partners around improving services to those with most significant disabilities such as Employment First following the Lane v Brown settlement. Staff have also has numerous trainings on how to write plans, and increase customer engagement, with career focused plans.

KPM #21	DHS CUSTOMER SATISFACTION - The percentage of customers rating their satisfaction with DHS above average, or excellent

How Are We Doing

In the summer of 2024, SSP conducted a statewide voluntary survey of Supplemental Nutrition Assistance Program (SNAP) participants who applied or reapplied for benefits during the year. The survey was accessible in six languages: Arabic, Russian, Somali, Spanish, Vietnamese, and English. Out of 70,407 invited participants, a total of 5,866 responded resulting in an overall response rate of 8.3%.

Based on the survey, 76.5% percent of respondents reported that they were satisfied with their customer experience at ODHS. This represents a .5% increase in customer satisfaction from 2023.

Factors Affecting Results

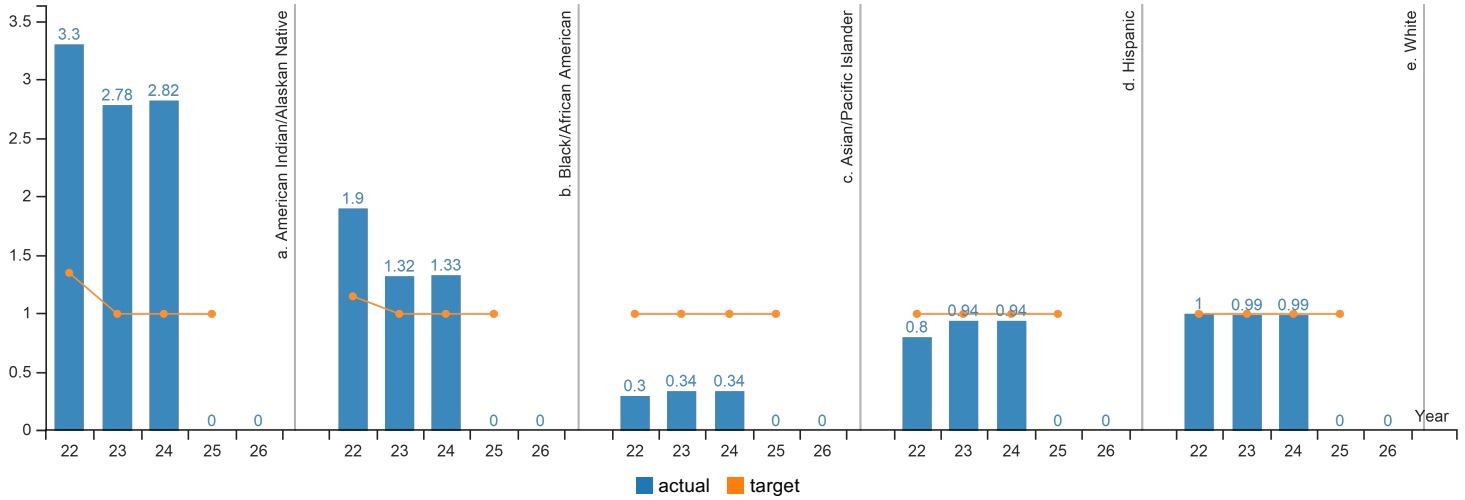
The survey results highlight several key factors that influence participants' experiences with ODHS programs. One critical issue is the adequacy of benefit amounts, which continues to play a significant role in customer feedback. Many survey respondents expressed dissatisfaction with the level of benefits provided, consistently noting that they fall short of meeting basic needs. This financial strain was especially pronounced around the costs of food, housing, and utilities, with respondents reporting that the assistance they receive is insufficient to provide financial stability.

Financial strain was a recurring theme, with participants highlighting that inadequate benefits exacerbate their struggles to maintain housing stability, cover utility bills, and achieve overall financial security. Respondents responsible for feeding families, particularly those with children, expressed heightened concerns over food affordability and the broader impact of insufficient benefits on their families' well-being.

Another factor influencing results is the clarity of communication and responsiveness from ODHS staff. While many participants expressed gratitude for the support received, they also noted that navigating the system was often confusing, with some respondents feeling that staff were not always equipped to answer their questions. This lack of clarity, particularly around how benefits are calculated and applied, contributes to frustration, and may reduce participants' confidence in the program's ability to address their needs.

ODHS is committed to enhancing the customer service experience by improving communication between participants and staff. Clear and consistent information is essential, particularly in helping participants understand how benefits are calculated and ensuring staff are better equipped to answer questions and provide guidance. Additionally, fostering more responsive and empathetic interactions will be key to building trust and ensuring participants feel heard and supported throughout their engagement with ODHS services. By focusing on these customer service improvements, ODHS aims to not only meet participants' immediate needs but also enhance their overall experience with the program.

KPM #22	REDUCTION IN DISPROPORTIONALITY OF CHILDREN AT ENTRY INTO SUBSTITUTE CARE (CW) - Measure of the average disproportionality index across race/ethnicity for children at entry into substitute care
	Data Collection Period: Oct 01 - Sep 30



Report Year	2022	2023	2024	2025	2026

b. Black/African American					
Actual	1.90	1.32	1.33		
Target	1.15	1	1	1	
c. Asian/Pacific Islander					
Actual	0.30	0.34	0.34		
Target	1	1	1	1	
d. Hispanic					
Actual	0.80	0.94	0.94		
Target	1	1	1	1	
e. White					
Actual	1	0.99	0.99		
Target	1	1	1	1	

How Are We Doing

For reporting year 2024, Asian/Pacific Islanders, Hispanic, and White populations continue to meet or exceed their targets (down/less is good). Black/African American children/youth disproportionality increased 0.01 percentage points (up/more is bad) away from the proposed target, while American Indian/Alaskan Native children/youth increased 0.04 percentage points for the reporting year.

Factors Affecting Results

As noted previously, multiple factors may have contributed directly to the performance of this KPI. The ongoing use of the Racial Equity and Social Justice Tool (RESJ) to help prevent racialized outcomes from policy changes continues, as well as Equity Training and Workforce development programs that help target equity training for staff. This work is supplemented by increased partnerships with the community and Oregonians with lived experiences taking leading roles in policy improvements that hopefully will show results in decreased disproportionality for children at entry into foster care.

Oregon Department of Human Services
AUDIT RESPONSE REPORT

1. ODHS and OHA: Statewide Single Audit Including Selected Financial Accounts and Federal Awards for the Year Ended June 30, 2020, audit #2021-13 (dated April 2021)

- Recommend management ensure transaction review is adequate and includes examination of proper and complete coding, accounting periods, and supporting documentation.

  The Office of Financial Services has reviewed and updated all year-end procedures and is engaged with staff for more accurate accrual data. For FY22, the office expects to have sufficient staffing do to a more thorough review of year-end entries. The team will also be reviewing any corrective findings to outline and discuss the best ways to prevent these errors in the future.

- Recommend management strengthen year-end review procedures to ensure necessary system processing has occurred, and account balances are reasonable and properly classified.

  Year-end methodologies have been reviewed and we continue to engage closely with the staff providing year-end transaction details to educate on the importance of accurate estimates. The MMIS contractor has made the FMAP rate updates from 2020 at this time.

- Recommend the department's office of information services ensure systems used for preparing the ACF-199 and ACF-209 reports provide the coding elements necessary for accurate and complete reporting in compliance with requirements. We recommend program management ensure performance data reports submitted are complete and accurate.

The Department continues to review ACF-199 and ACF-209 reports prior to submission to identify and resolve defects. The Department continues to monitor defects, sync up reports design with federal instructions, and progress towards complete and accurate reporting. The Department's, Oregon Eligibility Partnership, has contracted for a SOC Type 2 audit, through contract 178884. The first audit review will be utilized to make sure all the reporting requirements and functional areas are in place. This means, the first formal audit finding, based on recommendation from the vendors, will occur in FFY25. Additional internal and external audits are happening on the system.

- Recommend TANF program management ensure the work participation rate is calculated appropriately using verified and accurate participation data in adherence with the department's Work Verification Plan. We recommend program management review their system of controls and identify where improvements are needed to ensure compliance with the work verification plan.

  The JOBS program training based on error trends has been created. The training will be instructor led and the offering has been uploaded into Workday. Staff can sign up for the first session which will take place on June 13, 2024. The Department is in the process of moving staff tools to a new platform, which includes updating outdated materials. The TRACS workgroup was put on hold and the TANF team is planning to submit recommendations to the developers in the interim. It is unknown when the workgroup will reconvene.

- Recommend program management ensure client benefit payments are correctly calculated, paid on behalf of eligible individuals, and documentation is maintained to support eligibility decisions and benefit calculations. We also recommend program management correct the identified cases and reimburse the federal agency for any amounts claimed for ineligible cases.

  Oregon's new ONE system retains a record of applicants' agreement to cooperate with child support. It is a mandatory question in data collection, requiring that staff review the requirement with applicants and check yes, they agree or no, with the reason. ONE then determines appropriate eligibility.

Currently, ONE screens have a mandatory field indicating the employability screening has been completed for those mandatory to meet the requirement. A change request has been submitted to add the employability screening questions directly into ONE as mandatory field. Until the change request is prioritized and implemented, an operations process document has been created for staff which outlines the process to complete the form and upload into the ONE system.

The ONE system reads the TANF time limits for each recipient and removes individuals from the grant once they meet the 60-month time limit. ONE appropriately determines the funding stream for individuals who have exceeded 60 federal months, no longer requiring a manual funding adjustment by Office of Financial Services. Furthermore, when a hardship is granted in ONE, the system recognizes the hardship end date and removes the individual from the grant.

ONE requires basic information for all household members, benefits cannot be authorized until all required information is provided, the system then determines the benefit amount based on entire household composition for no-adult cases. Targeted communication has been sent to field staff who determine eligibility explaining the minimum required information and the importance of ensuring all household members are added to the case.

Policy will review the cases cited and make an appropriate referral to the Overpayment Recovery Unit, then the IE/JV subsystem will set up the overpayment and adjust the expenditures on the TANF federal grant based on the referral. Overpayments recouped can then be adjusted by Office of Financial Services and put back towards the TANF program rather than reimbursing, per instructions outlined in TANF-ACF-PI-2006-03.

With the implementation of the new eligibility system, ONE, the system determines eligibility and benefit calculations. Along with the implementation, SSTU provided both eligibility and system training to staff to ensure accurate information was entered into the system resulting in accurate benefit determination. Funding adjustments have not been verified as completed for federal amounts claimed for ineligible cases.

- Recommend program management ensure eligibility re-determinations are completed timely.

  Child Welfare reviewed and corrected the identified cases. This topic is covered in initial training for all Federal Revenue Specialists. It has also been addressed in annual ongoing training summits and in direct communications to all Federal Revenue Specialists. The Eligibility Program Specialist is providing ongoing training and support to all Federal Revenue Specialist staff. A reminder was sent out on April 26, 2021, to all Federal Revenue Specialists emphasizing the TANF anniversary determination requirements. As of March 2021, Child Welfare has implemented monthly eligibility reviews to help ensure that re-determinations are completed timely. Additionally, on May 12, 2021, an eligibility procedure manual update was sent to all federal revenue specialists which included more emphasis around the 30-day requirement.

- Recommend department management strengthen existing controls by implementing procedures that include review of financial records supporting expenditures submitted for reimbursement.

  This recommendation has been completed. One quarter each biennium, each subrecipient will submit all invoices and receipts for detailed review by APD. This has been communicated to subrecipients by transmittal and new language has been added to all subrecipient contracts explaining this deliverable. Implementation of the process will continue through June 30, 2022, when all language will be in all contracts.

- Recommend department and authority management strengthen controls to perform timely eligibility redeterminations and provide periodic training to caseworkers to reduce the risk of administrative errors. We also recommend management implement corrections in the ONE system to address the weaknesses identified in verifying income. Management should also review the entire duration of the claim identified to determine if there are additional questioned costs from previous years. Additionally, management should reimburse the federal agency for unallowable costs.

CMS guidance received in February 2022 and confirmed the guidance applies to CHIP as well as Medicaid. Per 42 C.F.R. § 435.945(a), states are permitted to accept self-attestation of information needed to determine the eligibility of an individual for Medicaid, except where law requires other procedures (e.g. citizenship or immigration status). States have flexibility to accept self-attestation of eligibility criteria, such as age or date of birth, income, state residency, and household composition. Consistent with 42 C.F.R. § 435.956(e), states must accept self-attestation of pregnancy, unless the state has information that is not reasonably compatible with the attestation. Additionally, states must describe these policies in their Verification Plan, per 42 C.F.R. § 435.945(j). In instances where an attestation is later determined to be incorrect, the state is not held liable for such an eligibility determination, if the state followed its documented policies and procedures and all applicable federal rules. In the example provided by the state, the state accepted self-attestation of pregnancy as part of an eligibility determination for an individual that the state later found out was never pregnant. The state's acceptance of self-attestation of pregnancy was in accordance with 42 C.F.R. § 435.956(e). The state's process for accepting self-attestation of pregnancy is also clearly documented in the state's Verification Plan[1] per 42 C.F.R. § 435.945(j), which indicates "Self-attestation of pregnancy will be accepted. If questionable, the eligibility worker will request additional information, which may include documentation, as part of the state's post-eligibility verification process. If no paper documentation is available, we will accept the client's statement.

- Recommend authority management strengthen controls to ensure documentation supporting a provider's eligibility determination and revalidation is retained. Additionally, we recommend management review the automated processes to ensure databases are checked timely.

  As of June 30, 2021, the state had addressed all exceptions noted and obtained the missing managing employee information, new disclosure statements or new enrollment agreements for all providers in the sample with one provider being inactivated who failed to respond. New enrollment agreements and provider disclosure documents for revalidating providers are now required.

Since April 2019, the State has been running monthly missed validation reports for newly enrolled or revalidated providers to ensure missed validations are completed.

- Recommend department management review OR-Kids transaction processing and complete system modifications as appropriate to ensure proper financial reporting of program expenditures. We also recommend department management review prior year and current year transactions and reimburse the federal agency for grant expenditures claimed inappropriately.

  Office of Financial Services (OFS) has developed and reviewed a process that allows us to report appropriately federal expenditures and identify the adjustments that are needed to release our federal partners from participating in expenditures that have since been reversed for various reasons. The process has been implemented as of March 2021. OFS has performed correcting entries that appropriately reflect federal funding for appropriation year 2021 through March 2021, as well as the individual month of April 2021. This process will continue to be used on a go-forward basis.

  Questioned costs for Foster Care and TANF have been corrected with document BTCL9104 entered on April 12, 2021. The adjustments are being reported on Q3 of FFY2021.

- Recommend department management ensure a client's monthly copay and childcare hours are correctly calculated, and provider addresses are updated timely. In addition, in situations with multiple providers, the department should seek reimbursement from a client when the client copay is not met as the primary provider did not provide care. We also recommend department management reimburse the federal agency for unallowable costs.

  ODHS agrees with this recommendation and plans on the following corrective actions.

- *Child Care Program will issue a policy transmittal to all staff determining ERDC eligibility providing information on the importance of calculating both childcare hours and copay correctly based on current Family Service Guide's instruction.*
- *Direct Pay Unit (DPU) manager and lead will provide a refresher training to DPU representatives to update provider address information correctly.*
- *DPU will review the uncollected copay report monthly to ensure processes are in place for copays to be collected each month. In addition, a refresher training for DPU representatives to issue billing forms with copays correctly.*
- *Child Care Program will provide case findings information to the Office of Payment and Accuracy and Recovery (OPAR) for recoupment purposes.*
- *Questioned costs of $10,241 was corrected with document BT195015 on May 11, 2021. Since the correction was backfilled with other qualifying expenditures of the same amount, the agency's federal reports remain unchanged and ACF will not see an actual refund.*

Direct Pay Unit (DPU) will review the uncollected copay report monthly to ensure processes are in place for copays to be collected each month. A new copay structure was put in place in October of 2022 which will improve the ability for copay and hours to be accurately calculated.

Questioned costs were moved to the General Fund with document BT195015 with an effective date of May 11, 2021. That document included $10,241 for finding 2020-025 as well as $12,250 for finding 2020-026. Because the Child Care Development Fund (CCDF) had other qualifying General Fund expenditures that were not claimed as MOE or Match, document BT195016 was used to backfill behind the refunded amounts. As a result, there were $0 in net change to the level of federal claiming and no funds were actually returned to the federal awarding agency.

- Recommend department management extend its retention policies for a sufficient length of time to ensure the department and auditors can verify federal awards are necessary and reasonable. In addition, the

department should review all incentive payments made to providers to ensure duplicate payments have been identified and reimburse the federal agency for all improper costs.

ODHS agrees with this recommendation and plans on the following corrective actions.

- *Provider log retention guidelines are aligned with Early Learning Department/Office of Child Care (ELD/OCC) for twelve months. Program will consult with lead agency ELD/OCC for consideration of extending provider log retention periods.*
- *Direct Pay Unit (DPU) will identify all incentive duplicate payments sent to the Office of Payment Accuracy and Recovery (OPAR) for recoupment efforts. DPU manager will provide program a spread sheet of all over payment referrals sent from the incentive payment program.*
- *Questioned costs of $12,250 was corrected with document BT195015 on May 11, 2021. Since the correction was backfilled with other qualifying expenditures of the same amount, the agency's federal reports remain unchanged and ACF will not see an actual refund.*

  Incentive payments are no longer being done. All needed actions have been taken to resolve controls.

- Recommend department management implement controls to ensure actions listed in Oregon's CCDF State Plan are accurate and occurring. We also recommend department management timely investigate its fraud referral cases in order to recover improper payments.

  Implemented controls to ensure actions listed in Oregon's CCDF State Plan are accurate and occurring (school age children monthly audit)

  - *The last report processed was 2/2020. Reports from 3/2020 through the 2020/2021 school year were not processed due to home schooling and distance learning due to the pandemic. Intent is to start processing the report beginning with September 2021 and forward.*

- *OPAR is working with the Office of Information Systems to be able to pull reports directly. This will streamline processing of the reports and reduce wait times as well as allow the work to follow an established schedule.*

- *Processing the School Age report will resume during March 2022.*

Timely investigate fraud referral cases in order to recover improper payments.

- *A two- year plan is in place to eliminate backlogs of work (anything over one year old). Effective March 7, 2022, we are completing the last milestone of the backlogged cases and moving into the following:*
  - *Controls that we have put into place are performance standards where staff are required to triage all assigned cases within 7 days of assignment,*
  - *Complete 75% of assigned cases within 140 days of assignment, and complete 100% of assigned cases within one-year of assignment.*
  - *Any cases exceeding one year are required to be staffed with the unit manager monthly. We are working on that report template now and expect it to be in place shortly. Additionally, staff are required to work with lead workers anytime that they get stuck and are not able to move forward with a case timely.*
  - *Staff also receive a monthly report with their pending cases and an aging graph that reflects whether they are meeting the standards or not and how they compare to the unit average.*
  - *The unit manager is meeting with staff periodically, to including the newly implemented quarterly check-ins for all managers to have with their staff. these check in's include discussion around meeting performance standards or not.*
  - *We modified our shared services division service level agreement for program areas to complete cases timely (within one-year) of assignment.*

- Recommend department management review policies and procedures surrounding documentation and approval of transactions, and provide additional staff training on processes involved, including verification of signature authority during the invoice review process.

  As of April 15, 2022, Vocational Rehabilitation has reviewed the Delegated Signature Authority forms and delegation for all staff. They have restructured sub-delegations and updated all MSC 0286 that needed a change. They have developed a draft training. They are working to finalize the training and expect to begin training in late June 2022 and training to be completed by October 2022.

2. ODHS: Developmental Disabilities Leadership is Proactively Addressing Program Challenges to Ensure Optimal Service Delivery, audit #2021-24 (dated August 2021)

- Assign staff, either through staff re-assignment or a request from the Legislature, that would be dedicated to complaint handling.

  The Office of Developmental Disabilities Services (ODDS) will request a position to oversee this work during the 2023-2025 legislative session. If approved, ODDS will move forward with hiring a staff to oversee the complaint process. ODDS will be mindful of the need for a dedicated position and will continue to assess opportunities to reassign staff in the meantime. A fulltime customer service coordinator was hired in August 2022.

- Create written policies and procedures to address:

  a. Formal complaints as defined by administrative rules.
  b. All other inquiries that do not fall under the administrative rules definitions but are received by complaint staff.

The Office of Developmental Disabilities Services (ODDS) has initiated discussions regarding formal and informal complaints. ODDS will hold stakeholder calls and gather input and feedback prior to the summer of 2022 in order to file rule amendments. ODDS is also working with Office of Information and Security to adjust the database that holds complaint details. The adjustments will align with the recommendations such that formal complaints are clearly identified and non- complaints are filed and tracked separately. The target date for completion was updated to December 31, 2024.

- Train and make users aware of the complaint process and its purpose and value during the required case management contacts with individuals receiving services.

  The Office of Developmental Disabilities Services (ODDS) provides training to case management offices that request the training or when it is identified that complaints are not being processed according to administrative rules. Following the rule amendments, ODDS will provide additional training related to the clarification of formal and informal complaints, expectations for case managers to discuss the option of filing complaints as well as how case management offices respond to complaints. The target date for completion was updated to October 31, 2024.

- Educate care providers about, and require case managers to discuss, ad hoc service hour increases with individuals during the annual review of rights and during the case management contacts with individuals to remind them of the opportunity to participate in meetings and advisory groups.

  The Office of Developmental Disabilities Services (ODDS) will add language to the Case Management rule requiring case managers to remind individuals of the opportunity to engage in advocacy at least annually, with the annual review of rights. ODDS will also continue to train case managers to review the individual's ability to request an exception for additional service hours to meet their assessed needs, including service hours to receive support during advocacy activities. ODDS will incorporate this requirement to discuss advocacy opportunities and supports needed for individual to engage in advocacy

to case managers training and will issue guidance to case managers and providers around this issue. The target date to complete implementation activities is December of 2024.

- Increase participation by individuals with I/DD and their families in advisory groups or agency meetings by providing consistent resources to improve accessibility for participating in process improvement such as:
    - Accessibility for individuals to attend meetings such as transportation,
    - Live streaming meetings with video recordings and captions,
    - Increasing notification requirements,
    - Varying times of day for meetings and providing support staff to help individuals ask questions and repeat information.
    - Providing support staff to help individuals ask questions and repeat information.

a. *Individuals receiving services already have ability to use Medicaid funded transportation services to access advocacy activities, exceptions to increase benefit limits can be granted if there is additional need. With implementation of the new rate model for transportation in July 2022, ODDS hopes to increase provider capacity to provide transportation. Additionally, ODDS has requested to use a portion of ARPA funding to explore creative ways to access transportation resources in the community. ODDS will be working with transportation experts to explore creative types of transportation by the end of 2022.*

b. *ODDS is exploring ways to make meetings more accessible in how they are structured, paced, facilitated and what types of supports can be provided during meetings (also including, but not limited to interpretation, live captioning, graphic facilitation, etc.). ODDS will expand these practices to enhance individuals and family member participation in meetings, work groups and other advocacy opportunities.*

c. *ODDS will work, with stakeholder input, to develop ways to increase notification*

requirements, including providing advance notices and making notifications available in at least five major languages (and other modes upon request).

d. *ODDS has conducted some meetings during various times or by offering scheduling options, including lunch hours, or after work hours to accommodate individual and family schedules. ODDS will continue to expand this practice to accommodate varying schedules when engaging self-advocates and family members.*

e. *Individuals have ability to use their paid support staff to support them during advocacy activities.*

The target date to complete implementation activities is the end of 2022.

Update: *ODDS continues in ongoing efforts to improve meeting accessibility, which includes the following:*

a. *Individuals receiving services can use Medicaid funded transportation services to access advocacy activities and can request exception to increase benefit limits if there is additional need. This currently happens at several of the ODDS partner meetings such as the Executive Order Policy meeting dedicated to Competitive Integrated Employment.*

ODDS has started to gather feedback from transportation experts to explore creative ways to access transportation resources in the community and has set aside a portion of ARPA (American Rescue Plan Act) funding toward these efforts. For the last year ODDS has been in conversation with CarePool regarding delivering transportation/ride share services in Oregon. Self-advocates can also access transportation through grants offered by the DD Council, and Oregon is in the process of releasing a self-advocacy grant, which would include some transportation for self-advocacy specifically.

Finally, ODDS has invested significantly in the transportation rates to make transportation more readily available.

b. *ODDS provides ASL interpretation and captioning services for all partner meetings that do not require registration to attend. For all meetings that require registration, links, and information on how to request accommodation is provided. ODDS lists a notice on all meeting notices so they can request accommodations.*

c. *Notification for agency meetings include targeted outreach to the I/DD community through Director's messages. Director's messages are translated into five major languages including Russian, Spanish, Chinese, Somali, and Vietnamese. Messages can also be translated into other languages upon request. ODDS also uses social media, such as the ODDS and Employment First Facebook pages.*

d. *ODDS has offered scheduling options and meeting at various times to accommodate individual and family schedules. This continues to be a requirement on training and communications for self-advocates and families and is purposely built into project and training plans. Examples of these efforts include:*

    i. *ODDS Launch and Learn Series*

    ii. *Compass Training meetings, including recordings of past trainings and on-demand training modules*

    iii. *The S.O.S and complaints project plan*

e. *Individuals have ability to use their paid support staff to support them during advocacy activities. As mentioned above, this already happens in several regularly scheduled meetings such as the Executive Order policy meeting and Vision Advisory Committee meeting.*

- Engage directly with organizations dedicated to a diverse group of people to invite members to participate in ODDS committees and workgroups or when gathering input for process improvements.

  The Office of Developmental Disabilities Services (ODDS) is committed to community relationship development and included this as one of six priority areas in its Service Equity Plan. ODDS will continue

and expand its community engagement efforts in collaboration with the Office of Equity and Multicultural Services (OEMS). ODDS is currently moving its Service Equity plan forward, and through this effort will identify and prioritize specific actions and projects related to community engagement. ODDS is working to hire an ODDS Equity and Inclusion Manager, who will assist ODDS Leadership in spearheading the work to build direct relationships with diverse groups and engage them in providing ongoing input in the policy making process. One example of the ongoing effort is ODDS' ongoing dialog with the Spanish Speaking Family leaders' group, Tribal outreach efforts and others. The target date to complete implementation activities is the end of 2022.

Update: *ODDS is committed to community relationship development and included this as one of six priority areas in its Service Equity Plan. In August 2022, ODDS hired an Equity and Inclusion Manager who will continue to lead efforts to build direct relationships with diverse groups. The Equity and Inclusion Manager will also continue to develop ODDS' Service Equity Plan by outlining specific actions and projects relating to community engagement.*

ODDS has dedicated a portion of ARPA (American Rescue Plan Act) funding toward Diversity, Equity, and Inclusion grants that will be used to reach, engage, partner with and provide support to those who have experienced barriers in accessing services and supports. The grant will aim to strengthen advocacy capacity for people who have experienced such barriers. To help guide how Diversity, Equity, and Inclusion funding will be prioritized, ODDS gathered feedback through a survey open to all community members, partners, and individuals.

Other examples of steps that ODDS has taken to encourage diverse community feedback include the following:

- *All information released for upcoming workgroups and partner meetings includes the following statement,*

- *"ODDS values diverse lived experiences and perspectives and encourages members of Tribal Nations, racial, ethnic, and culturally based communities including members of the Black community, women, individuals who identify as LGBTQIA2S+, people with disabilities, religious minorities, veterans, individuals with limited English proficiency, immigrants, and refugees to sign up."*

- *ODDS is committed to seeking out opportunities to work with organizations dedicated to diverse groups, recent partners include:*
  - *Easterseals of Oregon*
  - *Spanish Speaking Family Leaders' group*
  - *Slavic Employee Resource Group*

- *Utilizing communication strategies and thoughtful planning to reach diverse communities, recent efforts include:*
  - *Working with partners to develop targeted communication distribution lists regarding American Rescue Plan Act (ARPA) grant opportunities*
  - *The process for policy transmittals includes sharing information on ODDS' Engagement & Innovation webpage, gathering feedback from community partners and conducting an equity impact analysis before sharing official release of the policy transmittal with a broader audience.*
  - *Communication for the Compass Project, an ongoing effort to improve the way people with intellectual and developmental disabilities participate in services will be translated in at least five major languages and written in plain language. Continued analysis will be conducted to ensure that LifeCourse training is developed with an equity lens.*

3. ODHS and OHA: Statewide Single Audit Including Selected Financial Accounts and Federal Awards for the Year Ended June 30, 2021, Audit #2022-18 (dated July 2022)

- Recommend department management obtain a SOC report over the service organization's internal controls for the ONE application. Management should also ensure post implementation testing and QC reviews take place and determine if the overrides indicate an error in the application's processing. Additionally, we recommend management update review procedures to ensure year-end account balances are supported.

  ODHS in partnership with OHA has continued to test the ONE system, looking at outcomes and determinations around benefits. We are monitoring audits, reviews and continuing to test to ensure the quality of calculations. Third party penetration tests are performed on an annual basis. Identified risks are tracked to resolution.

  - *A formally documented Business Continuity and Disaster Recovery Plan is maintained, which is tested and evaluated on an annual basis.*
  - *Periodic incident response and recovery tests are performed with Information Security and IT.*
  - *Privileged access to production environments and critical supporting systems is restricted to authorized personnel based upon role and responsibility.*
  - *Changes in job function through transfer or termination are formally communicated and documented and logical access rights are modified or revoked in a timely manner. User access reviews are performed on quarterly basis. These reviews are performed to confirm access and permissions of users is appropriate for the in-scope systems and databases. Deletions or modifications of access requested during the review are performed in a timely manner.*
  - *Administrator groups, root accounts, and other system-related accounts are monitored on demand and at least once 14 days to ensure that unauthorized accounts have not been created. Privileged user roles associated with applications will are inspected every 30 days via reports that are generated monthly. The following were the recommendations:*

- *Third party penetration tests are performed on an annual basis. Identified risks are tracked to resolution.*
- *MHM recommends that ODHS adds a penetration test to be performed on an annual basis. Currently the SAR only requires a pen test on a 3-year basis, but best practice is an annually performed penetration test.*
- *Access to encryption keys is restricted to authorized individuals. recommends implementing a process of review over users access to encryption keys to be able to test this process moving forward.*
- *A formal Incident Response Procedure is documented for reporting detected or suspected incidents and for responding to security incidents. An annual review of this procedure is recommended given that this would be a requirement for a type 2. The next step is an annual SOC review.*

OFS is actively working with the ONE team to develop the necessary reports for the reconciliation process. Full implementation is expected by June 30, 2025.

- Recommend department management ensure system requirements used to prepare the ACF-199 and ACF-209 are appropriate to ensure compliance and implement review procedures to ensure performance data reports submitted are complete and accurate. We also recommend department management obtain an annual SOC report over the service organization's internal controls for the ONE application.

  The Department continues to review ACF-199 and ACF-209 reports prior to submission to identify and resolve defects. The Department continues to monitor defects, sync up reports design with federal instructions, and progress towards complete and accurate reporting. The Department's, Oregon Eligibility Partnership, has contracted for a SOC Type 2 audit, through contract 178884. The first audit review will be utilized to make sure all the reporting requirements and functional areas are in place. This means, the first

formal audit finding, based on recommendation from the vendors, will occur in FFY25. Additional internal and external audits are occurring on the system.

- Recommend TANF program management ensure the work participation rate is calculated appropriately using verified and accurate participation data in adherence to the department's Work Verification Plan. We also recommend program management review the system of controls and identify where improvements are needed to ensure compliance with the work verification plan.

  The Department will develop training specific to error trends based on Quality Control audits of the JOBS program, skill enhancement/best practices on collecting and documenting accurate attendance, and technical training on the Department's attendance documentation system, TRACS. The training will be instructor led and offered at minimum on a quarterly basis. The Department will review and edit tools, resources, and attendance logs to ensure compliance with the work verification plan. Updates made will be communicated to staff working with families receiving TANF. The Department will also form a workgroup to review the attendance documentation and case management system known as the Transition Referral and Client Self-Sufficiency (TRACS) system. The workgroup will make recommendations to developer, which will include system enhancements and edits to improve the process for staff.

- Recommend department management ensure verification of income with IEVS screens is clearly documented in client case files when determining client eligibility. It is also recommended management develop policies and procedures directing case workers to document their review of the IEVS screens in ONE, the new case management system.

  The Oregon Department of Human Services (ODHS) is reviewing and revising the previously submitted Change Request (CR) to implement a system change to capture when staff are using the IEVS screens at eligibility determination. The previous CR has not been prioritized due to the level of effort (LOE). By revising the CR, the LOE will reduce while still meeting the needs of the Department. Until the CR is

prioritized, the Department will update the Quick Reference Guide directing staff to document their review of the IEVS screens in ONE. A quarterly ONE system announcement reminding staff to check IEVS at eligibility determination and add a case note will be requested. The ODHS will also conduct training with staff regarding the IEVS requirements.

The IEVS Quick Reference Guide was updated in October 2022 providing instructions to add a case note on the case level whenever IEVS screens have been checked. TANF Policy completed a training on October 18, 2022, for all staff regarding the IEVS requirements.

The Department is implementing a new tool, Note Buddy, to assist workers with case notes when determining eligibility. Note Buddy will include a field that allows staff to select whether IEVS was checked. Staff will be encouraged, not mandated, to use Note Buddy. The Department will form a small workgroup to discuss options for revising and lowering the level of effort for the Change Request (CR) previously submitted. The Department will re-submit the CR for changes to ONE.

- Recommend department management implement procedures to ensure the accuracy of behavior rehabilitation service split rates entered into the system and reimburse the federal agency for unallowable costs.

  Treatment Services reviewed all contracts for the period under review to identify those with the incorrect AMSO (administration, maintenance, services, other expenses) split applied, and found that it was isolated to the BRS Proctor rate on 13 contracts. Corrections to the AMSO split in the OR-Kids database were completed on or before March 9, 2022, for all 13 contracts. The Office of Financial Services is processing corrections to refinance the errors in SFMA (Statewide Financial Management Application). Refinance is estimated to be completed by August 2022.

  Treatment Services implemented a new procedure effective April 25, 2022, requiring secondary review and approval of all new or updated AMSO entries by the Assistant Program Manager. Review and

approval of new or updated entries are saved in a shared drive. This unit also implemented a more thorough review of all current contracts on April 25,2022 and April 26, 2022, to ensure all AMSO split entry is accurate.

- Recommend department management ensure reviews of maintenance payment rates for continuing appropriateness are conducted timely and in compliance with department rules.

  The Foster Care Program has developed a protocol and assigned the work to a specific position's workload. The Foster Care Central Office Coordinator will review the rates every two years and record the review in an email communication with the Child Welfare Executive Leadership Team and Budget team. If the review results in a process to change rates, it will be documented through the regular Child Welfare-wide rule/policy/procedure change process.

- Recommend department management strengthen controls to ensure the long-term care facility's administrator compensation does not exceed the prorated maximum compensation limit for administrators who average less than 40 hours a week. We also recommend authority management strengthen controls to ensure evidence of review is maintained and readily available.

  ODHS - Aging and People with Disabilities (APD) Response:

  For the long-term care facility financial statement review audit deficiency findings, the ongoing corrective action plan is being implemented. The department is adding administrator hourly audit to the long-term care facility desk audit procedure. Additionally, the department will ensure the requested documentation is placed in a designated folder.

  OHA - Hospital Unit Response:
  The action plan is to have cost reports and back up documentation stored on a common drive that selected OHA/HSD employees have access to on a regular basis.

For the long-term care facility financial statement review audit deficiency findings, the ongoing corrective action plan has been implemented. The department added administrator hourly audit to the long- term care facility desk audit procedure. Additionally, the department will ensure to the requested documentation is placed in a designated folder.

Cost reports and back up documentation are stored on a common drive that selected OHA/HSD employees have access to on a regular basis.

- Recommend department management implement review processes and procedures to ensure manual calculations are complete and accurate.

  Automated processes are in place with the update of the agency's Random Moment Sampling system. Questioned costs have been processed and reported to CMS in FFY2021 Quarter 4. Questioned costs were originally $180,643, however the refund totaled $546,616 due to additional data sets included on base finding.

- Recommend department and authority management strengthen review controls to ensure only allowable expenditures are charged to the Medicaid program. Additionally, we recommend the authority reimburse the federal agency for unallowable costs.

  The Office of Financial Services will continue to consult with and advise program on the need for accurate coding and review of vendor payments to ensure proper funding is used for the services provided Questioned costs were corrected with documents BTCL4471 and BTCL4473 and appropriate amount was refunded to the federal agency.

- We recommend department and authority management strengthen controls to ensure documentation supporting a provider's eligibility determination and revalidation is retained and is complete.

ODHS – Aging and People with Disabilities (APD) Response:

The department's expectation to have a correctly completed and retained I-9 for homecare workers was reinforced by the department with APD and Area Agency on Aging (AAA) program managers, district managers, supervisors, and support staff responsible for completing I-9s in APD and AAA offices meetings held on April 13, 2022, May 10, 2022, May 11, 2022, and May 26, 2022. The Local office staff were reminded of the legal requirement to correctly complete and retain the form and have it readily available for inspection. Local office staff were reminded of the resources available to assist with completing and retaining I-9s, particularly referencing the information memorandum issued in 2019 on how to correctly fill out an I-9 for homecare workers (APD-IM-19-062), the U.S. Citizenship and Immigration Services' Handbook for Employers (M-274) and referenced the information available on the case management tools webpage for APD/AAA staff. Additionally, in August 2021, we implemented the process of uploading HCW provider applications, supporting documentation and renewals into EDMS as noted in APD-AR-21-039, which were previously maintained in paper files at the local office. This will assist with the finding and retention of records.

ODHS - Intellectual/Developmental Disabilities Response:

For a short-term solution, we are implementing a random sampling Quality Assurance by the Provider Enrollment team. Currently, there is a QA staff who is monitoring agency enrollments, but we are having them also include Personal Support Worker items as well. Our current Fiscal Intermediary, Public Partnerships, are processing the I-9s currently and we will go into their system to check for any missing items.

- We recommend department management implement a consistent process to verify branch offices are conducting required inventory and accurately completing inventory control logs.

Since August 2023, SSP Central Office Business Integrity and Coordination Unit has implemented a statewide monthly inventory audit of all negotiable items, including EBT cards. The forms are submitted via a Smartsheet and reviewed by Business Integrity Coordination Unit staff to ensure successful completion and that they are being filled out properly. Follow up with individual offices is done if issues are found or the survey is not complete. Since January 2024, completion rate has been at 100%.

4. ODHS and OHA: Statewide Single Audit Including Selected Financial Accounts and Federal Awards for the Year Ended June 30, 2022, audit #2023-21 (dated July 2023)

- Recommend the agency ensure any new federal programs have the correct coding applied to ensure accurate reporting of federal expenditure by each federal program.

  The Office of Financial Services has corrected the assistance number for federal reporting for P-EBT. We will review internal procedures to ensure validation steps are included and incorporated in the process for establishing structure to support federal reporting requirements.

- Recommend management strengthen internal controls to ensure leased asset, lease liability, and accumulated amortization is appropriately valued and ensure all leases meeting the criteria of GASB 87 are recorded. We also recommend management strengthen internal controls to ensure expenditures and offsetting other financing sources related to leases are recorded to the appropriate governmental funds.

  The Office of Financial Services (OFS) has reviewed and corrected all initial lease entries within the GASB87 software as per the audit findings. OFS has also created a new D23 fund per guidance to record entries in the appropriate financing source. OFS will create detailed GASB87 procedures to follow to ensure accurate reporting in the future years.

- Recommend management ensure accounting entries are complete, accurate, and made in accordance with accounting standards. Additionally, management should develop and implement a process to modify year-end entries if expected adjustments do not occur within expected timeframes.

  The Office of Financial Services Statewide Financial Reporting (SFR) Unit will engage more closely with staff providing year-end system transaction details to ensure all elements of the data are accounted for are still anticipated to be completed by September 30. Specific to this finding, SFR has also adjusted the year end process for the cash accrual to avoid missing transactions affecting cash. Additionally, written processes are being updated with greater details.

- Recommend department management make timely corrections to federal/state coding splits in the financial subsystem and also make timely corrections in state accounting records. We also recommend the department reimburse the federal agency for unallowable costs.

  The Department will analyze and identify the missing indicators sent from ONE to the financial subsystems to determine the correct funding stream. The Strategic Systems Unit will put together a TANF funding matrix to be approved by program. Indicators will be corrected through a system defect, a Work Item, or Change Request, depending on the level of effort to resolve.

  Office of Financial Services completed the financial adjustments through entry BTCLIV56 on June 9, 2023.

- Recommend department management continue to review ACF-199 and ACF-209 reports prior to submission and monitor known compilation defects to ensure performance data reports submitted are complete and accurate. We also recommend department management obtain an annual SOC report over the service organization's internal controls for the ONE application.

  The ACF 199 report issue regarding OR-Kids cases with 24 of 45 fields left blank is currently under development; mapping has been identified to rectify the missing data and once fixed, the future submissions

will be corrected. The OR-Kids, TANF Policy, and Business Analyst teams met to define the mapping on the ACF 199 and continue to work on remaining clarifications. The reports will be resubmitted to ACF at the end of the current fiscal year (for months October 2022 – Sept 2023) to correct previous data. The issue regarding discrepant case counts between ACF 199 report and OR Kids data extract is under analysis. Child Welfare, TANF, and our technical team will develop a plan for rectifying and reconciling case numbers.

The department continues to monitor and review ACF-199 and ACF-209 reports prior to submission. Defects identified through the monitoring and review process are logged into TFS and follow the defect management process. ONE/ODHS began SOC audit with an outside vendor at the end of 2023. The department is continuing to work through the items and anticipate completion with this audit by June 30, 2024. The department will share the findings once received if there are any. SOC audits will be done annually from here forward. The Agency provided a cure notice to Deloitte Consulting as the vendor related to the reports in December 2022 and considered the actions cured and removed the notice in July 2023. Quarterly reports sent through the contract have been provided and accepted by ACF. Defect triaging continues to be worked separately, and regular reports to verify changes, additional validations that were put into place, achieve expected quality in correct submission of data on behalf of Oregon from the ONE System.

- Recommend department management ensure noncooperative child support cases from ONE are completely and accurately reported in its performance data reports.

  The Department has logged defects to correct Federal reporting requirements. The ONE system approving eligibility without a cooperation record was addressed through a defect and system build which corrected the issue on May 10, 2023. The Department has logged a defect to correct historic records where referrals were not sent; currently awaiting input from Division of Child Support.

The system defect fix for issues identified related to incorrect values of child support cooperation status in ACF reports is currently in the development and testing cycle. Once the fix is deployed, future submissions will have correct data for this element. The reports will be resubmitted to ACF at the end of the current fiscal year (for months October 2022 – Sept 2023) to correct previous data.

Department of Child Support provided input that historic records for closed cases do not need to be addressed and the Department is following up on referring historic records for open cases. Incorrect values of child support cooperation status in ACF reports have been resolved via defect number 255577 and deployed into the system on July 6, 2023.

- Recommend TANF program management ensure the work participation rate is calculated appropriately using verified and accurate participation data in adherence to the department's Work Verification Plan. We also recommend program management review the system of controls and identify where improvements are needed to ensure compliance with the work verification plan.

  The Department will review and edit tools, resources, and attendance logs to ensure compliance with the work verification plan. Updates made will be communicated to staff working with families receiving TANF.

  The Department will also form a workgroup to review the attendance documentation and case management system known as the Transition Referral and Client Self-Sufficiency (TRACS) system. The workgroup will make recommendations to developer, which will include system enhancements and edits to improve the process for staff.

  A JOBS program training based on error trends has been created. The training will be instructor led and offering has been uploaded into workday. Staff can sign up for the first session which will take place on June 13, 2024. The Department is in the process of moving staff tools to a new platform, which includes obsoleting or updating outdated materials. The TRACS workgroup was put on hold and the TANF team is

planning to submit recommendations to the developers in the interim. It is unknown when the workgroup will reconvene.

- Recommend department management ensure verification of income and benefits with IEVS screens is clearly documented in client case files when determining client eligibility.

  The Department implemented a new tool, Note Buddy, to assist workers with case notes. Note Buddy includes a file that allows staff to select whether IEVS was checked. Note Buddy was implemented in June 2023. Communication was sent on June 8, 2023, along with a Quick Reference Guide.

  Deloitte and the department have agreed upon a solution in ONE to address documentation of IEVS being checked. ONE will display a 'yes/no' radio button for 'Has IEVS been checked?' on Determine Eligibility screen. When 'yes' is selected, a mandatory case note will be prompted. This question will be mandatory at intake and renewal modes, and optional for other case modes. The solution will be resolved via a work item, rather a change request. The Department implemented a work item on April 18, 2024, to document when IEVS has been checked during eligibility determination.

- Recommend department management ensure federally-funded client benefits are paid on behalf of eligible individuals, and documentation is retained to support eligibility decisions. We also recommend department management correct the identified error cases and reimburse the federal agency for questioned costs.

  The Department will communicate to eligibility staff the importance of reviewing information reported by the applicant compared to information received from a third-party and direct staff to case note in the ONE system how the discrepancy was reconciled. The Department will also communicate the requirement to maintain eligibility records in both case notes and electronic file when applicable.

The Department will review the cases cited and make an appropriate referral to the Overpayment Recovery Unit. Overpayments recouped can then be adjusted by Office of Financial Services to credit the TANF federal grant rather than reimbursing, per instructions outlined in TANF-ACF-PI-2006-03.

The department sent communication to eligibility staff regarding the importance of reviewing information received from a third-party and direct staff to case note in the ONE system on how the discrepancy was reconciled. The Department also communicated the requirement to maintain eligibility records in both case notes and electronic file when applicable. This communication was sent to staff and uploaded to an internal website on December 11, 2023. Overpayment referrals were sent on April 12, 2024.

- Recommend department and authority management strengthen controls over the OR-PTC system to ensure transactions are adequately supported and reviewed.

  Several system enhancements and changes slated for June 2023 are intended to help providers claim time accurately and reduce local office workload associated with reviewing pending entries. This will not fully resolve the issues noted by SOS, however, implementation of phase 2A of the Provider Time Capture (PTC) System, which is scheduled to go into production July 12, 2024, will eliminate the need for local offices to manually enter mileage or hours into the mainframe payment systems and will automatically flag discrepancies between OR PTC DCI and the Mainframe. The department has corrected all identified issues discovered through the audit process.

  The PTC Team initiated a series of Webinar and Learning lab in October of 2023. These will continue through November, December and January with topics that are intended to reinforce best practices and are reflective of issues that have been received or reviewed by PTC where authorizations or entries do not align with existing claims. The October webinar also contained an overview of the upcoming changes to the system "Phase 2A" in July, 2024. This is on schedule and the first of 2 system updates that will create interfaces between the PTC-DCI system and the mainframe, automate payroll batch entry and eliminated the manual data entry, ideally reduce errors. In preparation of this, PTC has found great value in using the

Regional Readiness Coaches (RRC's) in local offices and is expanding the recruitment of these positions in December to assist with UAT, change management and more training.

- Recommend department and authority management strengthen controls over review to ensure transactions are adequately supported and reviewed. Additionally, we recommend the authority reimburse the federal agency for unallowable costs.

  ODHS Facilities Management Response for Finding #1: The Office of Facilities Management (OFM) is committed to providing accurate coding for payments. Communications have been made with staff responsible for coding invoices and the need to conduct thorough reviews to ensure coding is accurate and charged to the appropriate funding source for the goods or services the agency is being invoiced for. OFM will be communicating with the programs that provide coding to confirm that the information provided appropriately aligns with the intended use of the funds. The department will review current processes and forms to ensure there is sufficient detail to verify accuracy. Questioned costs of $1,361 in Federal Funds (and $2,722 in Total Funds) paid with invoice number VP815455, was corrected on 4/26/2023 with document BTCL1412.

  ODHS, Aging and People with Disabilities (APD) Response for Finding #2: The department is committed to storing and retaining supporting documentation for all authorized payments. The processes and procedures on contract bidding and approval associated with payment authorization for 1915k services and support are being reviewed and improvements such as central repositories are being explored. Once analysis and improvements are complete, they will be documented and communicated to staff within the department and to the Office of Financial Services for awareness. Additionally, as part of succession plan development, the department will create intentional opportunities for knowledge transfer, shared document storage, and increased transparency amongst work teams, which will assist with document location in the context of unexpected personnel changes.

  The department will reimburse the federal agency for any unallowable costs.

- Recommend authority management reimburse the federal agency for unallowable costs.

  As indicated in the report and as of January 1, 2020, authority management updated the MMIS data tables to ensure all future provider payments were made at the correct rate. Additionally, authority management updated control procedures to ensure MMIS data tables are updated timely and accurately. The recoupment of funds paid for incorrect rates will be completed through the FFS cost settlement process. We expect to have this completed on or before June 30, 2024. We will evaluate the use of alternate recoupment processes in the event of future corrections.

  Refund has been reported on the FFY2024 Q1 64 and has been loaded into MBES for Audit Finding 2022-056. The final refunded amount including all adjustments was $1,725,396 in total funds, federal portion was $1,340,158. The Q1 CMS 64 will be certified by January 30, 2024.

- Recommend department management strengthen control to ensure documentation supporting a provider's eligibility determination and revalidation is complete.

  ODDS Response: The department is committed to having completed I-9 forms on file for all Personal Support Workers through our Fiscal Intermediary. The Provider Enrollment Unit now has a quality assurance staff who will conduct spot checks of the FI work. This is in process now and reviews will continue. ODDS has also just implemented in our fiscal intermediary's contract to now perform a stricter I9 processing. They will now be implementing tighter controls and stricter criteria for the corresponding documents that are required when accepting new I9.

  APD Response: The department is committed to having completed I-9 forms on file for all employees and homecare workers. This expectation, as it relates to homecare workers, was reinforced by the department at the Client Employment Program Annual Summit held on 3/28/23 and 3/29/23. This Summit was attended by approximately 160 local office staff. Local office staff were instructed on how to properly fill out the I-9 form

and retention requirements. Staff were also reminded of resources available to answer questions, including central office points of contact.

The department is also exploring short- and long-term solutions to mitigate this risk, including creating a peer review process on business procedures across the state intended to assist in not only accuracy, but knowledge transfer, developmental growth, and mentoring opportunities. The department may also explore system changes that would automatically validate the completion of tasks related to provider enrollment and renewals, including the presence of required documentation. We are exploring the option of using e-Verify for validation of I9s, for both central office and at the local office level.

- Recommend department management conduct more timely reconciliations of OR-Kids refinancing adjustments to ensure adjustments are made during the related periods of performance. We further recommend management work with its federal awarding agency to determine if it is appropriate to backfill program expenditures between grants to account for the reduction in expenditures created by the reconciliation process. If not appropriate, the questioned costs should be repaid to the federal awarding agency.

  The agency disagrees with this finding.

  SFMA grant phase is an internal tracking mechanism only and is not mandated by ACF. None of the expenditures observed were moved into or out of the period of performance for which they originally qualified for.

  SSBG awards have a two-year period of performance for claiming. As a result, there is an overlap between internal phases where expenditures qualify for two at any given time. Assignment of phase in SFMA is based on internal balancing needs to ensure claiming is not over or under the award for that period.

Prior period adjustments occur periodically and are debited or credited to the phase they were originally recorded under. Should those adjustments cause a phase to become under or over reported, the assigned phase in SFMA is adjusted to maintain consistency between SFMA expenditures and the SF-425 report provided to ACF. If a prior period increasing expenditure is outside the period of performance, it is moved to non-reportable and state only funding.

- Recommend DHS perform review to identify any additional discrepancies between benefits paid and the institutions reported status, to determine if payments were appropriate, and communicate with the federal awarding agency to determine if repayment is necessary.

  We respectfully disagree with the findings that schools were not able to directly update their learning mode according to the guidance provided in the P-EBT state plan.

  The department has included emails and documents that support the actions/decisions taken in the delivery of the Oregon P-EBT school year 2020-2021 state plan was in accordance with federal approval from Food and Nutrition Service (FNS).

  According to the USDA FNS approval letter received on May 7, 2021, and posted to the FNS website, FNS confirms that Oregon will "develop(ed) a centralized database to collect student eligibility information and school status" to determine the monthly benefit level for each school (6th bullet on page 2).

  This information is also confirmed in email correspondence with FNS on April 29, 2021, and May 3, 2021. Within the email the Department details that Oregon will develop a database to collect school status, this is then confirmed by FNS.

  As part of Oregon's federally approved simplified assumptions, the state plan allows the school points of contact to update their predominate learning model for each month of the 2020-2021 school year, which may be different than the Ready Schools, Safe Learners (RSSL) Weekly Status Report.

An email communication was shared with all identified school points of contact on June 28, 2021. This email requested that school points of contact update their schools predominate learning mode into the Oregon School Meals Benefit (OSMB) system used by the Oregon Department of Human Services to issue P-EBT benefits no later than July 13, 2021.

Information reported through the RSSL weekly status report was used to determine the predominate learning mode only in the event that the school point of contract did not update a learning mode manually within OSMB prior to July 13, 2021.

On May 9, 2023, the P-EBT policy team confirmed school operating status during the selected months with 5 schools for SOS audit. Email responses from the schools are summarized below:

School ID	***School Name***	***Audit Month/YR***	***Reported Learning Mode***	***Paid Learning Mode***	***School confirmed paid learning mode: Y/N***
162	*Scappoose High*	*April 2021*	*On-site*	*Distance (CDL)*	*Y – Distance (CDL)*
97	*Boring Middle*	*March 2021*	*Hybrid*	*Distance (CDL)*	*Y – Distance (CDL)*
474	*Keno Elem*	*April 2021*	*On-site*	*Hybrid*	*Y - Hybrid*
1270	*Sexton Mountain Elem*	*April 2021*	*Hybrid*	*Distance (CDL)*	*N - Hybrid*

At the recommendation of the auditors the Department has reached out to FNS Child Nutrition Program and SNAP program about the finding on June 8, 2023, and we are waiting for a response.

5. ODHS and OHA: Statewide Single Audit Including Selected Financial Accounts and Federal Awards for the Year Ended June 30, 2023, audit #2024-14 (dated April 2024)

- Recommend department management update accounting and review procedures to ensure entries prepared to address issues originating in prior fiscal years do not incorrectly impact the current year financial statements.

  The Office of Financial Services (OFS) is reviewing documentation from prior audits and direction from the Department of Administrative Services (DAS), Statewide Accounting and Reporting, to identify the most effective and efficient process going forward for refinancing prior year activity in the current fiscal year. As mentioned in the audit, the complexity of deferred revenue reimbursement, across multiple fiscal years, from FEMA during the pandemic increased the complexity of these accounting transactions. The office will write up a new process and train relevant staff on the new methodology. As of May 31, 2024, the new process has been implemented to perform semi-annually.

- Recommend management ensure compliance with federal program requirements by prioritizing the completion and documentation of hospital audits.

  The authority agrees with this finding and has completed the work to reconstitute the required tools necessary to perform these audits. As of January 2024, the authority has sent cost statements to the hospitals for review and response and is working to collect other reports required for completing the audits from actuaries and intermediaries. The authority will begin processing full audits starting April 2024 for outstanding fiscal year 2016 forward. The authority anticipates that the audits through fiscal year 2020 will be completed by December 31, 2024. The authority also affirms that the corrective action for finding 2021-17 has been implemented and resolved. This can be validated as completed audits become available in 2024.

- Recommend department and authority management strengthen controls over review to ensure documentation supporting a provider's eligibility determination and revalidation is complete. Additionally, we recommend the authority reimburse the federal agency for questioned costs related to ineligible providers including ineligible providers identified in prior year findings.

  The authority will provide two separate training modules to enrollment staff and staff responsible for the CCO enrollment and validation regarding complete ownership and disclosure documents. We will perform the trainings on April 18, 2024, during our monthly staff meeting and a separate ownership form only training on May 30, 2024. The Office of Developmental Disability Services has implemented new contractual language for our fiscal intermediary to review I-9 for providers with stricter criteria. This was added earlier this year and is already in place in the contract and implemented. Further, upon enrollment, state staff are validating older I-9s for providers who have submitted their I-9 historically.

  The Office of Aging and People with Disabilities is committed to ensuring Provider Enrollment Agreements and accurate I-9 forms are on file and ensuring records are stored and retained properly for all Home Care Workers. The department will reinforce the requirements concerning the collection and storage of agreements at both the Quarterly Home Care Coordinators meeting on May 30, 2024, and at the AAA/APD Local Line Leadership meeting on May 16, 2024. The department will also create a reference guide in the new ODHS Field Business Procedure Manual implemented in February 2024. The department will make provider enrollment agreements and I-9 forms available statewide via DocuSign as an optional tool for state staff that guides them through accurately completing information on the form and capturing electronic signatures. This will ensure that all required fields in forms are filled out correctly including ensuring the presence of required documentation to mitigate human error.

  Additionally, we will continue to explore developing a training module for front office staff and office managers as well as a peer review process on business procedures and exploring ways that we can leverage technology such as the replacement Electronic Data Management System (EDMS) "Laserfiche"

implemented by Imaging and Records Management Services (IRMS) to store provider records electronically.

The Office of Aging and People with Disabilities released updated guidance and clarification on I-9 forms through an Information Memorandum transmittal on January 24, 2024 (APD-AR-23-099) During the February 19, 2024, at the Home Care Coordinators quarterly convening meeting the revisions from the prior transmittal were discussed along with the importance of ensuring timely renewals and accurate documentation and retention of PEA/I-9's. During the May 30, 2024, at Home Care Coordinators Quarterly convening, Laserfiche project team shared information on status of new system implementation and timing of transition from EDMS along with Q&A. Laserfiche implementation began on July 15, 2024. The DocuSign contract administrator has provided an update noting that the DocuSign contract to go from pilot to statewide is currently behind schedule due to the Office of contracts and Procurement backlog, once available. During the July APD/AAA Local Line managers meeting, APD leadership discussed with line managers the results of the audit, reinforced the importance of accurate documentation and retention of records and discussed ways we are looking to strengthen the process such as leveraging new software and solicited ideas or best practices they have. We will continue to explore training options for onboarding front office staff, develop procedures for the Field Business procedures manual.

The questioned costs of $1,786 will be refunded to CMS and reported on the CMS 64 by 6/30/2024. Of note, the prior year finding with questioned costs of $1,843 has since been found as the provider being eligible. No corrective action is needed.

- Recommend department management strengthen controls over review to ensure transactions are adequately supported and reviewed. Additionally, we recommend the department reimburse the federal agency for unallowable costs.

The ODHS Office of Facilities Management coordinates care of a 168-building portfolio. Part of this work is coordination of furniture reconfiguration, minor and major remodels of office spaces and other building maintenance work. For these projects we rely on program staff with understanding of their funding sources to provide us with accurate coding to support the project related costs. Our office does not work directly with funding source management only coding and billing. To better track who is providing us the coding and maintain a record of payment approval we have revised our workorder form to include who from the program is providing the coding and what authority they have to provide the coding. This will allow us to assure that important details are captured regarding funding application and coding for billing and protect from funds being drawn from sources that do not support and/or are not appropriate for a given project. The questioned costs of $3,849 were corrected and refunded to CMS using document BTCL1485 with an April 17, 2024, effective date. The refund will be reported on the Q3 FFY 2024 CMS 64 to be submitted by June 30, 2024.

- Recommend department management continue to review ACF-199 and ACF-209 reports prior to submission and monitor known compilation defects to ensure performance data reports submitted are complete and accurate. We also recommend department management obtain an annual SOC report over the service organization's internal controls for the ONE application. Additionally, we recommend department management consider contractual and/or legal remedies if the contractor is unable to provide accurate and reliable information from the ONE system within a reasonable time frame necessary for the business needs of the department.

  The department continues to monitor and review ACF-199 and ACF-209 reports prior to submission. Defects identified through the monitoring and review process are logged into TFS and follow the defect management process.

  ONE/ODHS began SOC audit with an outside vendor at the end of 2023. The department is continuing to work through the items and anticipate completion with this audit by June 30, 2024. The department will share the findings once received if there are any. SOC audits will be done annually from here forward.

The Agency provided a cure notice to Deloitte Consulting as the vendor related to the reports in December 2022 and considered the actions cured and removed the notice in July 2023. Quarterly reports sent through the contract have been provided and accepted by ACF. Defect triaging continues to be worked separately, and regular reports to verify changes, additional validations that were put into place, achieve expected quality in correct submission of data on behalf of Oregon from the ONE System.

- Recommend management ensure department employees are adequately trained on applicable procedures and requirements relating to child support cooperation with the Department of Child Support (DCS).

  The department previously identified the need for more training and has been taking steps to address the issue. Based on feedback from staff, the Child Support Quick Reference Guide has been updated to make it more user friendly and easier to follow. Training on processing child support tasks has been provided both statewide alongside Department of Child Support in November 2023 and with individual districts. In addition to materials and training, department policy is working reports of both outstanding child support tasks and tasks cleared without processing. The department continues to monitor the reports and provide follow up guidance to individual branches.

  The department has developed a take time for training (TT4T) that was delivered to staff on May 4, 2022, which is now outdated. The current TT4T will be removed, a new one will be created, and delivered to staff within the next 120 days. The department will also consider adding this material to the regional accuracy and timeliness training during the summer of 2024. The Oregon Eligibility Partnership (OEP) - Learning and Engagement Team (LET) reviewed the eligibility guide and will be revising materials within the next 120 days. OEP will review and revise the current lesson plan delivered to staff within the next 90 days.

  Questioned costs of $790 were moved from federal funds to non-MOE state only funds with an effective date of July 16, 2024. The adjustment will be reported to ACF on the 2024 quarter 4, ACF-196R TANF federal report.

- Recommend department management ensure caseworkers are adequately trained on TANF enrollment procedures to ensure all applicable requirements are completed.

  The department previously submitted a work item (WI) to have a question in ONE that asks 'yes/no' if IEVS has been checked. The WI was approved and deployed into the system on April 17, 2024. The IEVS question will trigger and be required for TANF at certification, re-certification, and adding a person. The Quick Reference Guide for staff will be updated to reflect the new system functionality. Communication regarding the new system functionality will be provided to staff.

  The department previously submitted a change request (CR) to have the employability screening questions put into ONE as part of the TANF application/intake process. The CR has been approved and in final stages of design with the ONE system contractor, Deloitte. Once the WI is implemented into the system, the quick reference guide will be updated to reflect new system functionality. Communication regarding the new system functionality will be provided to staff.

  Questioned costs of $3,491 were moved from federal funds to non-MOE state only funds with document number BT217832 with an effective date of July 16, 2024. The adjustment will be reported to ACF on the 2024 quarter 4 ACF-196R TANF federal report.

- Recommend department management strengthen internal controls to ensure adequate supporting documentation is maintained to support information reported in the RSA-911 client case information report. We also recommend department management strengthen internal controls to ensure the reviews of the RSA-17 financial report are documented and the report contains accurate information.

  We agree with the first recommendation. We disagree with the second recommendation.

  We agree with the first recommendation and will ensure adequate supporting documentation is maintained and readily available to support information reported in the RSA-911. We have drafted an internal control for the RSA-911 and have submitted the internal control to RSA for review.

We disagree with the second recommendation. The RSA-17 is currently reviewed by both Program Leadership as well as the ODHS Grant Accounting Manager. Certification is evidenced by the signed RSA-17. This level of review meets federal requirements. Additional review and discussion may be had as a form of best practice but should not be considered a control mechanism. The Grant Accounting Unit will highlight the certification process in the RSA-17 desk manual to delineate between control functions and best practices. No further action will be taken.

- Recommend department management strengthen internal controls to ensure supporting documentation is maintained, reviews are documented, and transactions agree to supporting documentation.

  Questioned costs consist of facility payments totaling $139 and a separate payment which exceeded costs of client services by $10. The agency agrees with the finding and will refund those questioned costs. The agency will review the specific circumstances for each of the invoices paid to ensure staff receive the appropriate training as well as reiterate the need to review invoices carefully according to current policies and practices to avoid coding errors. Supporting documentation was identified for the $139 portion and was determined to be allowable. The $10 portion will be moved to non-reportable.

- Recommend department management implement and document additional internal controls to ensure only VR employees are paid with VR funding.

  We disagree with this finding.

  This finding pertained to two State Independent Living Council (SILC) board members paid with VR Innovation & Expansion funding. Upon review of the Rehabilitation Act and 34 CFR 361.35 section (a) part (2), funding may be used "To support the funding of the State Rehabilitation Council, if the State has a Council, consistent with the resource plan identified in § 361.17(i) " The SILC State Plan cover 2021-2023 references Innovation and Expansion funding on pages 5 and 6. Based on the department's review we believe the VR funding of $3,521 was used appropriately and that no further corrective action is required.

Healthy People	OHA	ALERT IIS Replacement	P50009	Steve/Randa	ALERT IIS Replacement Project	Federal	The Oregon Health Authority (OHA) Oregon Immunization Program (OIP) uses the ALERT IIS system, a database that records all immunization doses administered by participating providers in Oregon, as a powerful tool for managing immunization records and supporting healthier communities. The ALERT IIS Replacement Project will ensure continued administration of immunization records and promote modernization of OIP's processes and applications. This project aligns with the national Data Modernization Initiative (DMI) and with the Oregon Health Authority's strategic goal to eliminate health inequities in Oregon by 2030. This project must be executed before 12/31/2027, prior to the end of the existing vendor contract with Gainwell Technologies.	2022-10-20	2027-12-31	$ 1,205,000	TBD	$ 271,886	$ -	$ -	$ 271,886	TBD	TBD	TBD	TBD	TBD	TBD	TBD	TBD	Alert is just in the intitial planning stages, the current projected costs are minimal and do not reflect the total expected costs for this project. Project management is still collecting information for this project
Healthy People	OHA	COMPASS - MOTS Replacement	P80023/P80027	Said/Steve	Community Outcomes Management System (COMPASS)	None	The Measures and Outcomes Tracking System (MOTS) replacement will replace the existing siloed, aged, and fragmented MOTS system. The new system will support the administration, planning, and monitoring of substance abuse disorder and mental health treatment programs.	2020-01-23	TBD	$ 11,342,630	$ 9,296,386	$ 1,341,912	$ -	$ -	$ 4,249,387	TBD	TBD	TBD	TBD	TBD	TBD	TBD	TBD	Current MOTS spend plan through June 2024. Another phase is anticipated (APD in progress) but unprojected at this time. Does not include any M&O estimates.
Healthy People	OHA	GO Priority - 1115 HRSN - Community Information Exchange	-	Lisa/Randa	GO Priority - 1115 HRSN - Community Information Exchange	Federal	Oregon recently received Centers for Medicare and Medicaid Services (CMS) approval for the 2022-2027 1115 Medicaid Waiver. Provisions in the new waiver will be implemented over the course of the 5-year demonstration period and will include significant changes to Coordinated Care Organization (CCO) contract requirements; revision of Oregon Administrative Rules (OAR) that impact all providers; substantial changes to IT systems to support financial disbursement, claims activity, and data submission; and management of the adoption and utilization of statewide community information exchange (CIE) platforms for referrals.	2023-05-01	2026-02-24	$ -	TBD	$ -	$ -	$ -	$ -	TBD	TBD	TBD	TBD	TB D	TBD	TBD	TBD	
Healthy People	OHA	HIV-E (HIV-Electronic)	500001	Steve/Randa	HIV-E (HIV-Electronics)	None	Develop a solution that will replace the existing CAREAssist 1.0 application with a new, custom developed CAREAssist 2.0 application that addresses current system issues.	2015-11-30	2027-06-29	$ 23,700,949	$ 24,946,537	$ -	$ 10,305,584	$ -	$ -	$ -	$ 9,739,443	$ -	$ -	$ -	$ -	$ -	$ -	M&O has not been included in these estimates. Currently this project is projected to be completed March 2027. Total cost is a DDI estimate only.
Healthy People	OHA	Improving Medicaid Enterprise Data	P80041	Lisa, Said	N/A		OHA will expand the Behavioral Health Data Warehouse (BHDW) Person Index (PI) and enhance the BHDW, two primary building blocks from the Compass Modernization initiative, to improve data quality, sharing, and analytical capacity for the Medicaid population. Oregon's modular Medicaid Enterprise System (MES) will require a data environment capable of matching, cleaning, and storing integrated and interoperable data from various sources. Incremental expansion and improvement of the BHDW will improve Oregon's analytic and operational capabilities in the near term and will be consistently evaluated for inclusion as part of the state's Enterprise Data Warehouse (EDW) module.	2023-10-01	TBD		N/A	TBD	$ 819,253	$ -	$ -	$ 7,371,714	$ -	$ -	$ -	$ -	$ -	$ -	$ -	$ -	End date TBD, project extending. 1. Executive Overview

This Oregon Department of Human Services (ODHS) and Oregon Health Authority (OHA) Strategic Technology Plan 2024-27: A Comprehensive Overview document is intended to communicate the alignment between the vision, planning and execution of major technology initiatives.

This Executive Overview section is the heart of the plan, and no further reading is necessary to get a basic understanding of the technology goals and strategies. However, reading the subsequent sections will provide a deeper understanding of the drivers, priorities and frameworks within the ODHS|OHA's technology organization.

It represents priorities of the governor, Oregon Department of Human Services (ODHS), Oregon Health Authority (OHA), Enterprise Information Services (EIS), Office of Information Services (OIS) and many other organizations as noted below.

1.1. Health and Human Services Programs

The Oregon Health Authority (OHA) has eight core divisions. The Oregon Department of Human Services (ODHS) has eight core programs. Both agencies have Shared Services units that support the needs of both agencies.

Oregon Dept. of Human Services	Oregon Health Authority
• Self-Sufficiency (SSP) • Child Welfare (CW) • Aging and People with Disabilities (APD) • Office of Developmental Disabilities Svs. (ODDS) • Vocational Rehabilitation (VR) • Oregon Eligibility Partnership (OEP) • Director's Office • Central and Shared Services	• Equity and Inclusion (E&I) • Health Systems (HSD) • Health Policy and Analytics (HPA) • Oregon State Hospital (OSH) • Public Health (PHD) • External Relations • Agency Operations • Fiscal and Operations

There are 15+ shared services areas, such as financial and facilities services between the two agencies. The combined Health and Human Services organization supports 1.5 million clients; 16,700 staff; more than 50,000 partners; and more than 140 office locations. The agencies have a combined Legislatively Approved Budget (LAB) of $54.25 billion.

1.2. Office of Information Services (OIS)

For the purposes of this document, we'll focus on the Office of Information Services (OIS). However, also, important to the agencies are other units with a strong focus on technology which we refer to as "local IT" and we'll lightly cover them in this document.

OIS exists to provide services in helping Oregonians achieve health, well-being, and independence. In support of this mission, OIS provides information technology systems and services that help ODHS|OHA to:

- Determine client eligibility
- Provide medical, housing, food and job assistance
- Provide addiction, mental health and vocational/rehabilitative services
- Protect children, seniors and people with physical and/or developmental disabilities
- Process claims and benefits
- Manage provider licensing and state hospital facilities
- Promote and protect the state public health
- Support internal ODHS|OHA administrative functions, including human resource, finance and procurement programs

OIS supports more than 75 core business applications that are used by approximately 16,700 agency and partner staff located at 140 locations throughout Oregon.

The OIS organizational structure consists of the Office of the chief information officer and several major units that play vital roles in achieving the agencies' mission:

- Risk and Privacy Office
- Business Engagement Services (BES) including Enterprise Alignment
- Project Solutions (PS)
- Vendor Managed Services (VMS)
- Health and Service Equity Transformation (focused on HB 3159)
- Customer Services and Support (CSS)
- Solution Development and Delivery (SDD)
- Business Operations

1.3.Strategic Goals and Strategies

OIS exists to provide services in helping Oregonians achieve health, well-being, and independence. To support this mission, the Strategic Technology Plan's goals, and strategies were developed with the purpose **to strengthen the Office of Information Services' ability to deliver IT functions with greater perspective and effectiveness**.

Goal 1: Cultivate IT Workforce - Cultivate a highly skilled, diverse, and customer-focused organization.

- Improve equitable hiring
- Increase recruitment cycle transparency
- Accelerate customer service and technical training
- Accelerate development opportunities

Goal 2: Strengthen Cybersecurity, Risk and Privacy - Strengthen cybersecurity and consider the risk in the decision-making process.

- Improve the security and privacy posture
- Prevent, monitor, and rapidly respond to emerging threats and vulnerabilities
- Prioritize initiatives through a risk-based approach

Goal 3: Accelerate Technology Modernization - Enhance and augment IT infrastructure, systems, cloud capabilities, and processes to address pressing human services and health care challenges.

- Align IT investments with business strategy
- Modernize legacy IT; include a specific evaluation for new AI technologies
- Share technology solutions
- Promote ADA accessibility, language access, and user experience

Goal 4: Increase Data Insights - Consider community involvement in data that is collected, and used in a way that does not perpetuate or exacerbate existing inequities ensuring accuracy and completeness.

- Improve how we handle, organize and deliver information
- Connect systems through standardized approaches
- Make data easily available and accessible while respecting privacy

Goal 5: Optimize Technology Management - Provide inclusive, customer-focused collaboration

- Center technology governance processes on equity and inclusion
- Improve customer service
- Enhance communication and partnerships

1.4. Action Plan and Measures

To ensure accountability in achieving the plan goals and strategies, each goal has 3-5 action items that are tracked and reported using the Performance Management System Quarterly Target Reviews. Actions and measures are re-evaluated periodically and will be refreshed in quarter 1, 2024, and again upon the completion of the agency strategic plans. As a side note, operational measures also exist and are reviewed on a quarterly basis.

1.5. OIS Operating Principles

Operating principles have helped define the culture of OIS and provide guidance for decision making at all levels of the organization.

Each decision we make can affect technology, process, and people. OIS uses these operating principles to guide our choices as we navigate the complex opportunities and challenges of our work.

- **Honor Business Drivers** – We use governance effectively, partnering with the business to prioritize investments.
- **Choose Wisely** – We consider diverse options and choose solutions by thoughtfully evaluating their benefits, costs, and risk. We consider the impact across the enterprise IT ecosystem and throughout the lifecycle.
- **Consider the Data** – We provide solutions that support keeping the data accurate, unduplicated, secure, and accessible for multiple uses.
- **Invest for Sustainability and Agility** – We seek and embrace opportunities to simplify, including reducing redundancy, promoting re-use, and embracing standards and modularity.
- **Deliver Incremental Value** – We deliver value efficiently and predictably, continuously learning and improving.

1.6. Challenges

While strategic plans create vision and excitement, a plan would not be complete without discussing known challenges. The list below includes the top challenges in implementing technology in Oregon state government that causes significant delays in modernization, maintenance and operations.

- **Lack of IT investment strategy to fund technology modernization** – While IT roadmaps exist for technology modernization, an IT investment plan does not exist. This puts technology groups in a reactive state, which is a catalyst for the technology to age beyond usefulness. The biennium budget policy option package process is too slow and siloed to be effective in providing funding to keep systems modernized and policy nimble.
- **Competitive IT market elongates the recruitment cycle to on-board staff** – A typical OIS recruitment averages 6-12 months from vacancy to job requisition to on boarding or 110 days from posting to first offer (depending on how it is measured).
    - Pay structures for large agencies affect IT professionals, who are paid significantly less (in most classifications) compared to other Oregon public sector entities.
    - Pay equity assessments capped at the step six have, also, lengthened the process and frustration for both candidates and hiring managers.
- **Heavy administrative processes** (IT, Human Resources, Procurement) slow down the delivery of services.
    - Backlog and cumbersome processes in DAS and agency human resource groups cause a delay in the hiring process.
    - Long procurement processes (agency, IT, agency procurement, Department of Administrative Services (DAS) procurement, DAS Enterprise Information Services, Department of Justice) for large technical projects take 12-18 months to get an executed contract.
- **Lack of shared vision, needs, schedules and workloads are barriers to accelerating technology modernization**.
    - These barriers continue to impact cross program, agency and IT organizations.
    - Centralized approaches take much longer than program specific approaches. Program specific approaches can cause re-work and significantly increase agency costs and increase IT risks.
    - Improved communication and collaboration will be needed to accelerate technology modernization.

2. Drivers

2.1. Governor

As Gov. Kotek took office in January 2023, she set clear direction on the top priorities, improving customer services in state agencies, and priorities for ODHS|OHA.

Priorities for Oregon	State Agencies & Customer Service
Housing and Homelessness	Increased accountability
Behavior Health	Prioritizing customer service
Education and Early Learning	Making things work efficiently as possible
	Providing tools and not barriers
	Improving access to services when and where people need them.

The governor provided direction to ODHS|OHA leadership that listed the following priorities.

- Transition of **Employment Related Day Care (ERDC)** to the new Department of Early Learning and Care (DELC) agency.
- Process **Medicaid Redeterminations,** which is the first time in three years (paused during the pandemic) that 1.5 million people on the Oregon Health Plan (OHP) must go through a benefit renewal process.
- Implement the 1115 **Medicaid Waiver** that has many new opportunities, including housing for up to six months for people at risk of homelessness and people at risk of extreme weather events due to climate change.
- Expand the **Healthier Oregon** to people who meet eligibility regardless of immigration/citizenship status.

- Provide a **Basic Health Program** which is initially focused on OHP members who will no longer be eligible after the redetermination.

2.2.Oregon Department of Human Services (ODHS)

The Oregon Department of Human Services (ODHS) is the largest executive branch agency. The mission of the ODHS is to help Oregonians in their own communities achieve safety, well-being, and independence increasingly through locally informed, culturally appropriate, customer-focused services and customer service provided at the state and local level in a way that protects, empowers, respects choice and preserves the dignity of all Oregonians in need of ODHS services.

In 2023-2025, ODHS' top focus areas in alignment with the mission are:

Strengthening ODHS foundations

- Building the capacity we need to serve our communities more equitably and effectively.

Preparing for and responding to emergencies

- Providing mass care, shelter, food, and water in times of disaster while investing year-round in agency and community preparedness.

Creating the future of ODHS and human services in Oregon

- Working internally and externally to break down silos, connect systems together and identify and bridge gaps in services, while acknowledging that people and communities are the experts in their own lives and partnering with them to design services that better support their needs and goals.

ODHS has several initiatives and frameworks to guide the work of the agency.

Equity North Star - – The ODHS Equity North Star informs our work toward our vision of an agency free of racism, discrimination and bias.

RiSE - RiSE is about creating an intentional, positive, equitable and trauma informed organizational culture. The vision is an organization where we all feel

safe, valued, supported, strengthened and engaged in our personal growth and the agency's growth.

Building Well-Being Together Initiative (BWTI) – The BWTI goal is to focus on the whole well-being of people, families, and communities, especially those being left behind due to race, age, disability, identity and place.

2.3.Oregon Health Authority (OHA)

The Oregon Health Authority (OHA) is one of the state's largest executive agencies with a single overarching strategic goal: **eliminate health inequities in Oregon by 2030**. OHA's work is guided by the definition that the Oregon Health Policy Board (OHPB) and OHA adopted in 2020[1]:

Oregon will have established a health system that creates health equity when all people can reach their full health potential and well-being and are not disadvantaged by their race, ethnicity, language, disability, age, gender, gender identity, sexual orientation, social class, intersections among these communities or identities, or other socially determined circumstances.

Achieving health equity requires the ongoing collaboration of all regions and sectors of the state, including Tribal governments to address:

- *The equitable distribution or redistribution of resources and power; and*
- *Recognizing, reconciling and rectifying historical and contemporary injustices.*

To advance that goal, OHA is focused on accelerating the transformation of Oregon's health care system, expanding health coverage, and providing easier access to care, delivering better health outcomes, improving health care quality, and containing health costs for Oregon Health Plan members, and improving public health services in all Oregon communities. The focus areas for 2023-2025 include:

- **Reducing health disparities**, advancing health equity, and protecting health coverage
- Implementing the **1115 Medicaid waiver**
- Addressing unmet **behavioral health** needs

[1] Oregon Health Policy Board Health Equity Committee, https://www.oregon.gov/oha/EI/Pages/Health-Equity-Committee.aspx

- Supporting **Oregon State Hospital**
- Sustaining and **expanding public health** capacity

2.4.Joint Initiatives

The ODHS|OHA initiatives are being discussed at the recently formed Joint Governance Board and will be available early 2024.

2.4.1. Digital Accessibility in Hardware, Software and Systems

ODHS|OHA are committed to providing equitable access to information and services.

The agencies are committed to effective communications that are culturally and linguistically appropriate and accessible for a wide spectrum of people who have different communication needs or abilities.

In 2023, the agencies commissioned a workgroup to formalize a Digital Accessibility policy that define the expectations around scope and Web Content Accessibility Guides (WCAG) compliance. The EIS legislative and communications coordinator has participated in the agency workgroup. The policy is expected to be finalized in the first half of 2024.

2.5.Enterprise Information Services (EIS)

Enterprise Information Services led by State Chief Information Officer Terrence Woods has provided direction and guidance to Executive Branch Agency Leadership through several strategies and frameworks.

- *EIS Strategic Framework 2023-2026, Version 2.0* – EIS strategic plan including objectives, goals, and strategies for the EIS organization.
- *Cloud Forward: A Framework for Embracing Cloud in Oregon* – Define and communicate the EIS cloud vision and to enable state agencies to accelerate cloud adoption across the enterprise.
- *EIS Modernization Playbook: An Agency Guide to Digital Transformation, Version 1.0* – Recognizes the urgent need to modernize state IT systems and lay the foundation for digital transformation.
- *Oregon's Data Strategy: Unlocking Oregon's Potential, 2021-2023* – Oregon's Data Strategy establishes a central vision and critical actions to enable Oregon to better use, manage, and share its data to create

information, knowledge, and insight. Note: Will replace newer version upon publication.

For the context of this document and to provide an overview of alignment between various strategic plans to technology, we'll focus on the EIS Modernization Playbook for the next two sections. **The focus will continue to be on embracing and accelerating the move to cloud technology**.

2.5.1. EIS Guiding Principles

EIS crafted the following principles to align with the vision of the Enterprise Leadership Team, common goals, and outcomes, and shared with leadership across state government. They are derived from the 2021 EIS Modernization Playbook and abbreviated for inclusion here.

- **Put People First**. Successful modernization starts and ends with people – the experience of people who rely on the essential services provided by the State of Oregon, the ability of the state employees to effectively provide those services, and the ability of the agency leadership to drive digital transformation.
- **Aligned and Enabled**. Alignment with EIS vision for user-friendly, reliable, and secure IT systems between agency business and IT leadership that will enable agencies to fulfill their mission and strategic objectives, while continuing to deliver the core services that the people of Oregon rely on.
- **Data- and Privacy-Informed**. Modernization provides a unique opportunity to leverage data as a strategic asset across systems and programs, govern and manage that data through its lifecycle, enable data informed decision-making, transparency by default, while considering personal and private information.
- **Secure by Design**. Secure by design embraces coding practices and the seamless integration of security policy and controls into the fabric of the IT system itself.
- **Agile and Continuous Improvement**. Modernization requires sustained investment in our people, the formation of empowered teams that embrace agile practices, and a culture of continuous improvement encompassing people, processes, and technology.

2.6.Federal Mandates

This section includes a short list from the volume of federal mandates we must adhere to. The mandates below were chosen as we have active technical projects to meet the relevant mandate(s).

- **CMS MES Modernization** – CMS has for the past eight years signaled its interest seeing states move to a modular architecture for their Medicaid Management Information Systems (MMIS). In 2023, at the annual Medicaid Enterprise Services Conference, CMS announced that it will now focus on modernization as in "MES Modernization." (Technical Project: Medicaid Enterprise Services Modernization)
- **Fair Labor Standards Act (FLSA)** – In context of ODHS Home Care Workers (HCW) and Personal Service Workers (PSW), the FLSA requires that the records include certain identifying information about the HCW/PSW and data about the hours worked. (Technical Project: Provider Time Capture)
- **Federal Department of Health and Human Services** – The Federal Department of Health and Human Services (HHS) rule on Comprehensive Child Welfare Information Systems (CCWIS) went into effect on Aug. 1, 2016. The rule governs the next generation of technology to support child welfare programs. The new rule focuses on modularity, interoperability, reusability, data sharing between programs, lifecycle data management, and data quality. ODHS Child Welfare declared that it would move towards a CCWIS environment. (Technical Project: Child Welfare CCWIS Project)

2.7.State Mandates

This section lists the states mandates with a significant technology effort, over $1 million, and significant risks if not completed. It is not intended to be comprehensive and is focused on new legislation from 2023. A more detailed list is provided in Appendix A.

- **HB 2683 (2023)** – Directs the Early Learning Council to adopt rules to establish eligibility for certain children to participate in Employment Related Day Care subsidy programs.
- **SB 966 (2023)** – Requires OHA to adopt standards for types of data collected for all payers and that all claims' databases are consistent with standards adopted for collection of data on race, ethnicity, language,

disability, sexual orientation, and gender identity. (Technical Project: REALD/SOGI Registry-Repository)

- **SB 972 (2023)** – Requires OHA to transition from healthcare.gov to state-based marketplace by Nov. 1, 2026. (Technical Project: State Based Marketplace)

2.8. Negotiated Labor Union Commitments

Through the Collective Bargaining process, ODHS|OHA have made commitments to the labor unions. Many of the agreements include large and small technical work with any changes over 40 hours going through the technology governance process – see Section 4.7, Technology Governance. For the 2023-2025 Collective Bargaining Agreement there are 11 large effort commitments. An example of these changes include:

- **Compensation and Payroll System Design** (925 development hours) – This request is to create multiple tiers of pay for ODHS/APD homecare workers and OHA/HSD personal care attendants.
- **Holiday Pay** (450 development hours) – Homecare workers who work on a specific holiday get 1.5 times their hourly rate of pay. Anything up to 8 hours would be 1.5 times; beyond 8 hours on the holiday, would be paid at their current rate.
- **Carina Registry** (300 hours) – Development of a web service interface with the Carewell/Carina registry to verify the identity of in-home service Medicaid, State Plan Personal Care, and Oregon Project Independence in-home consumers.

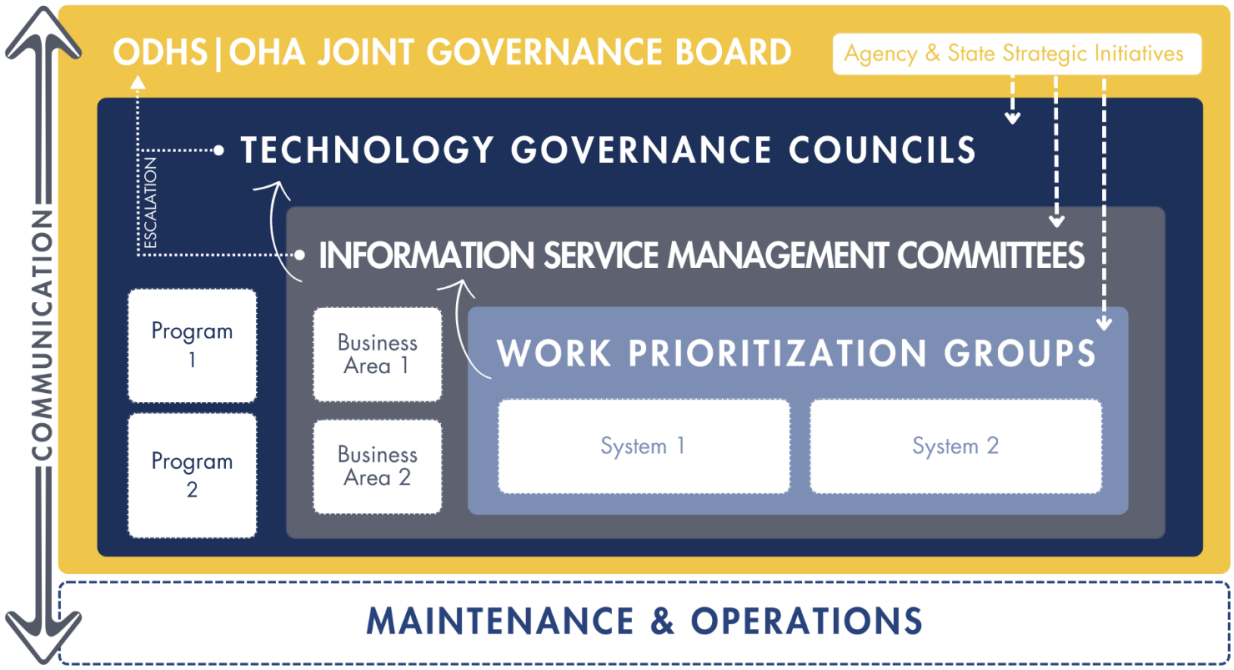
3. Large Technical Projects & Governance Model

3.1. Technology Governance

The current technology governance structure for ODHS|OHA has been intentionally evolving and maturing from as early as 2012. The technology governance process continuously matures and has received an EIS assessment score of 3 out of 4 for 2021 and 2022. Proposed changes for 2024 are in review.

The agencies recognize a strong investment prioritization structure and process are key to managing competing priorities where there are unlimited needs and limited resources.

Planning, coordination, and support for the overall governance structure and improvements is provided by Business Engagement Services, Business Relationship Management team, in partnership with agency leaders. The visual below represents the evolving technology governance structure. A written description of the different governing groups and roles follows the visual representation.



ODHS|OHA Joint Governance Board:
Starting at the top of the visual above, the Joint Governance Board (JGB), formed September 2023, was established to provide strategic direction on ODHS|OHA individual/joint strategic initiatives.

The strategic initiatives set by the board will help drive alignment with the agencies' goals of health equity and well-being. The board will help ensure the strategic direction is aligned with the governor's office initiatives, negotiated labor contracts, legislation, federal partners, as well as state and agencies goals. Priority setting at the Technology Governance Councils, Information Services Management Committees, and Work Prioritization Teams, described below, will be aligned to the top priorities of the JGB.

When lower-level governing body chairs/co-chairs are unable to resolve competing priorities, the board will act as a point of escalation.

Technology Governance Councils:
The ODHS|OHA Technology Governance Councils provide strategic guidance and prioritization on larger more complex technology initiatives and projects. These projects generally involve the implementation of a new system, platform, service, component, or module offering new capabilities and meet thresholds for EIS oversight.

Projects that will have an impact on and/or require staffing resources across the two agencies are reviewed and prioritized at both councils. The individual and joint agencies capacity to support and accomplish the individual and collective projects are part of the prioritization decision. Projects prioritized at the councils are vetted through a subordinate Information Services Management Committee (ISMC) prior to council prioritization, with a few exceptions. Project level governance is established within each project and the councils act as a point of escalation and review of proposed project schedule extensions.

During the biennial budget cycle policy option packages, existing, and new projects meeting the criteria go through a scoring process that is reviewed and finalized at the councils. After the councils complete their review, the policy option packages and projects scores and supporting documentation go through a statewide scoring process by the Enterprise IT Governance Committee (EITGC), which is made up of EIS and agency leadership. The EITGC is in process of being re-chartered for the 2025-2027 budget cycle.

Information Service Management Committees (ISMCs):
Both ODHS|OHA have ISMCs which review all change requests, prioritize, and sequence small to medium efforts greater than 40 hours that do not require project management or oversight support. There are six ISMCs prioritizing change requests for systems that support more than one program/division. There are nine ISMCs prioritizing change requests for systems supporting individual programs or divisions. Larger efforts requiring project management and/or oversight are prioritized at the appropriate ISMC and moved to the individual

agency council or both councils, in some circumstances, for review and final prioritization.

Work Prioritization Groups:
For tasks or small requests that will take less than 40 hours, there are small informal groups that collaborate to plan and coordinate accomplishing the work. Efforts greater than 40 hours are moved to the ISMC for review and prioritization.

3.2. Large Technical Project Portfolio

ODHS|OHA maintain a large portfolio of IT projects. A short list of the most significant and largest in-flight projects is presented here. Most of these projects are under oversight by OSCIO and the Legislative Fiscal Office.

The project management office continuously matures and has received a Enterprise Information Services assessment score of 4 out of 4 on both the portfolio and program management and maturity; and project management experience scores.

3.2.1. Major IT Projects Underway

As of October 2023, there are 45+ active technical projects with a project portfolio investment of $210 million. Not all projects meet the EIS thresholds for oversight. However, any time a professional technical project manager is assigned, we apply the same project management methodologies as large projects (though adjusted for size and complexity). Highlighted below are some of the active projects (listed alphabetically) with the full project portfolio available in Appendix A listed by agency priority.

- **Joint Department of Early Learning and Care (DELC) Technology Initiatives** – Work associated to DELC is being done with an interagency agreement via ODHS and activities are following project methodologies but is not an official designated project and is being managed through the technology governance processes. (Governor Priority)
- **Joint HB 3159 REALD & SOGI** – Establishes a centralized registry to collect Race, Ethnicity, Language, and Disability (REALD) & Sexual Orientation and Gender Identity (SOGI) data from CCO's, health providers and insurers in a consistent manner.

- **Joint Mainframe Migration Provider & Client Payment Systems** – Planning project to move ODHS|OHA off the mainframe with the focus around replacing payment type IT applications as the first phase.
- **Joint Medicaid 1115 Waiver Technology-only Portfolio** – Portfolio of the technical side of the projects in support of Health-Related Social Needs (Climate and Housing); Community Information Exchange; and the Basic Health Program. (Governor Priority)
- **Joint ONE & MMIS Infrastructure / Cloud Migration** – Two projects on two of the largest state IT systems are going through a significant lifecycle upgrade to keep the infrastructure reliable and secure. Both systems will be migrated to the cloud.
- **ODHS Case Management System** – Comprehensive Oregon Intellectual & Developmental Disability (I/DD) statewide case management system.
- **ODHS Comprehensive Child Welfare Information System (CCWIS) Portfolio** – To satisfy federal partners requirements and favorable cost allocation, Oregon has elected to migrate from the current legacy system to CCWIS. This is a case management information system that state and Tribal title IV-E agencies developed for the Child Welfare Program with a focus on data management and quality.
- **OHA Marketplace Transition from Federal to State-based Platform** – Move from a federal marketplace to a state-based marketplace in increased flexibility; provide more control over operations, customer service, and service levels; and consumer cost savings.
- **OHA Medicaid Enterprise Services (MES) Modernization** – Oregon Medicaid Enterprise System (MES) Modernization Planning effort is to move away from a single, monolithic system to a modular MES environment facilitating more efficient administration of Oregon's Medicaid program.
- **OHA OEBB/PEBB Benefit Management System Replacement** – Replacement of two legacy customized benefit systems with a solution that supports the delivery of required functionality, meets legislative mandates, and improves member experience.

3.2.2. Major IT Projects Recently Completed

There have been significant successes in project closures in recent years.

In March 2021, the final rollout of the Oregon Eligibility (ONE) implementation was completed and has transitioned to maintenance and operations. In the 2021-2023 biennium, 18 projects closed with an investment of $38.1 million.

In 2023-2025 biennium, 31 projects will close for an investment of over $125 million based on current project schedules. Of the significant and large projects listed above, the following are projected to close this biennium.

- Joint Department of Early Learning and Care (DELC) Technology Initiatives
- Joint Mainframe Migration Provider & Client Payment Systems (Planning only)
- Joint Medicaid 1115 Waiver Technology-only Portfolio
- Joint ONE & MMIS Infrastructure/Cloud Migration
- OHA Medicaid Enterprise Services (MES) Modernization (Planning only)
- OHA OEBB/PEBB Benefit Management System

3.2.3. Mapping Projects to Strategic Goals and Drivers

The *Drivers* and *Aligning Strategy, Priorities, and Plans* sections are the basis for the mapping criteria. Liberties have been taken to categorize the Drivers and IT Strategic Alignment criteria into three categories for document readability and simplification. The alignment assessment was done by the chief information officer in review with the deliverable workgroup and agency leadership.

Mapping Projects to Strategic Goals and Drivers		Strategic Alignment	Operational: Efficiency, Risk Management, Maintenance	Compliance	Strengthen Cybersecurity & Privacy	Accelerate Technology Modernization	Increase Data Insights
		Drivers			IT Strategic Alignment		
Joint	Department of Early Learning and Care (DELC) Technology Initiatives	X	X	X		X	X
Joint	HB 3159 REALD & SOGI	X	X	X	X	X	X
Joint	Mainframe Migration Provider & Client Payment Systems	X	X	X	X	X	X
Joint	Medicaid 1115 Waiver Technology-only Portfolio	X	X	X	X	X	
Joint	ONE & MMIS Infrastructure / Cloud Migration		X	X	X	X	
ODHS	Case Management System	X	X	X	X	X	X
ODHS	Comprehensive Child Welfare Information System (CCWIS) Portfolio	X	X	X	X	X	X
OHA	Marketplace Transition from Federal to State-based Platform	X	X	X		X	X
OHA	Medicaid Enterprise Services (MES) Modernization	X	X	X	X	X	X
OHA	OEBB/PEBB Benefit Management System Replacement	X	X	X	X	X	X

Incorporating strategic goals and drivers is part of our governance process – during Intake, and then validated as part of the Project Initiation phase, working with EIS to validate it meets the goals and drivers including OIS, ODHS|OHA, EIS, and our federal partners.

4. Continuous Modernization

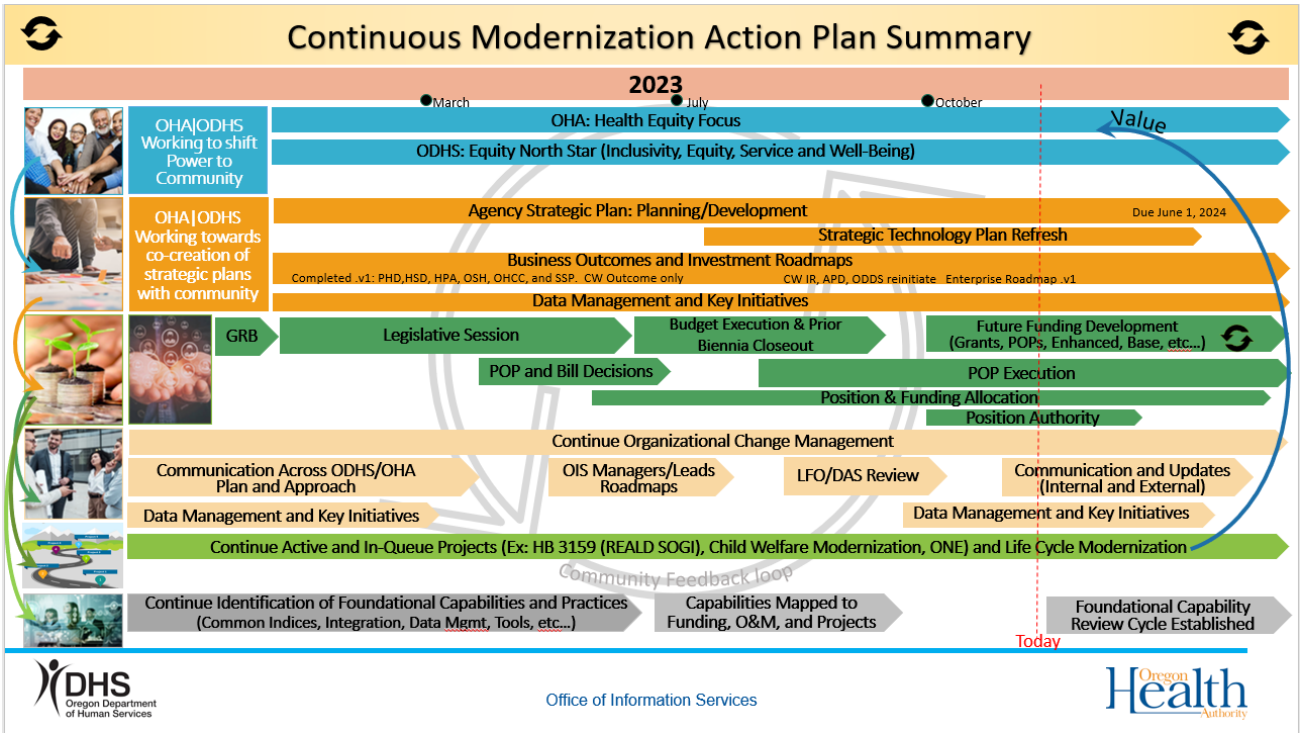
Our IT Modernization Framework aligns state level, business strategy and technical strategies. OIS is working closely with agency programs to develop what we refer to as Business Outcome Statements (business strategy) and Investment Roadmaps.

The work results in identification of current and future state capabilities, fosters proactive planning through investment roadmap development, positions the agency to be more strategic in decision making around funding requests, helps identify common capability needs and better informs decisions around prioritization of technology investment projects. The Outcome Statements and Investment Roadmaps will be refreshed and used to inform updates to the Strategic Technology plan.

The approach is based on various leading frameworks with heavy influence by Gartner frameworks. Other key contributors included the Enterprise Information Services (EIS) Assistant State CIOs and EIS Senior IT Portfolio manager. In addition, the strategies and plans have been shared with the LFO IT analysts who help provide further guidance in the process.

4.1.Continuous Modernization Action Plan

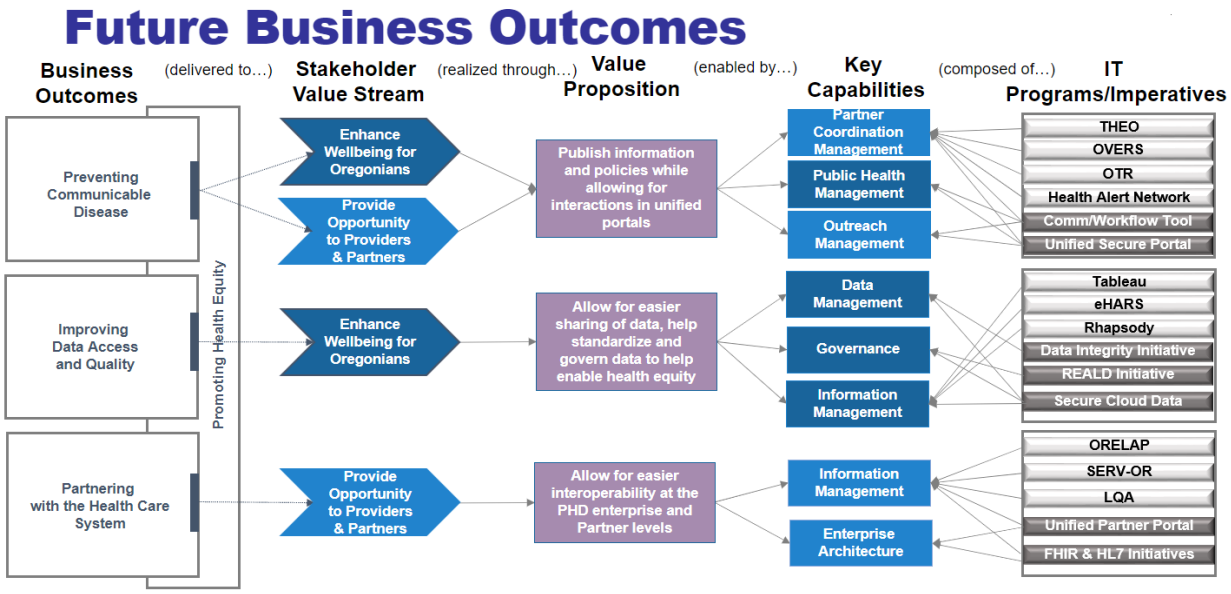
The visual below depicts the Continuous Modernization Action Plan. The plan and resulting deliverables are led from a health and service equity perspective. The resulting deliverables drive and inform technology investments to meet the outcomes the agencies' desire. See Appendix A for a larger visual.



4.2. Business Outcome Statements

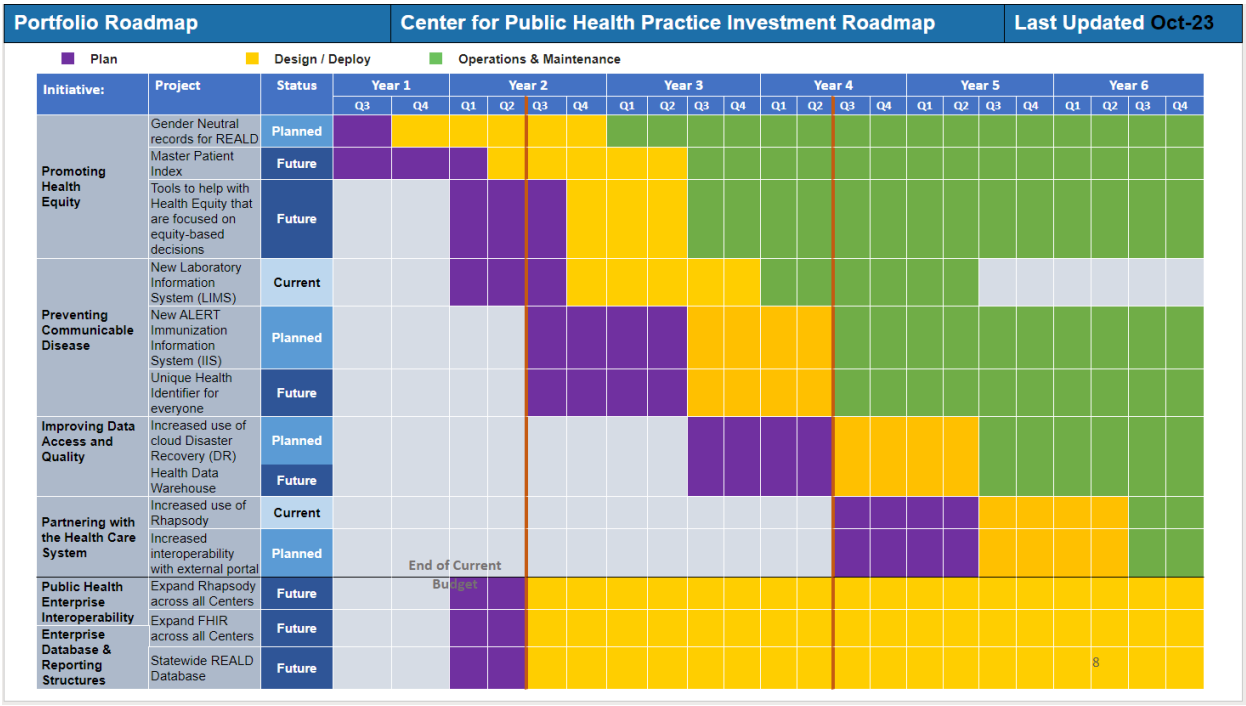
The Business Outcome States are the heart of the Continuous Modernization Approach. Enterprise architects' partner with program leadership to understand and collaborate on the desired business outcomes, compare it to an Integrated Health and Humans Services Capability Model (see Appendix A) and map it to technology components.

There are four components in every Business Outcome Statement, including Disruptive Business & Technology Trends; Business Goals and Objectives; Current Business Outcomes; and Future Business Outcomes. The visual below is a small portion of OHA's Public Health Division's Business Outcome statement, reflecting the future business outcomes component. See Appendix A for a larger visual.



4.3.Investment Roadmaps

The current capability gaps or future capabilities identified in Business Outcomes are mapped to Investment Roadmaps. The work results in identification of current and future state capabilities, fosters proactive planning through investment roadmap development, positions the agency to be more strategic in decision making around funding requests, helps identify common capability needs and better informs decisions around prioritization of technology investment projects. The Outcome Statements and Investment Roadmaps will be refreshed and used to inform updates to the Strategic Technology plan.



The visual above is a small portion of the OHA's Public Health Division's Investment Roadmap. See Appendix A for a larger visual.

4.4. Business Outcome Statements and Investment Roadmap Status

Since 2022, the Enterprise Architecture group has been working with the programs and divisions on the development of the Business Outcome Statements and Investment Roadmaps. A status by core programs is noted below.

Oregon Department of Human Services	Outcome Statement	Investment Roadmap	Target Start	Target Completion
Self-Sufficiency (SSP)	100%	90%		12/31/2023
Child Welfare (CW)	100%	45%		01/31/2024
Aging and People with Disabilities (APD)	100%	45%		01/31/2024
Office of Developmental Disabilities Svs. (ODDS)	100%	45%		02/28/2024
Vocational Rehabilitation (VR)	100%	45%		02/28/2024
Oregon Eligibility Partnership (OEP)			To be coordinated	TBD
Director's Office			To be coordinated	TBD
Central and Shared Services			To be coordinated	TBD
Oregon Health Authority				
Equity and Inclusion (E&I)			To be coordinated	TBD
Health Systems (HSD)	100%	100%		Complete
Health Policy and Analytics (HPA)	100%	90%		12/31/2023
Oregon State Hospital (OSH)	100%	90%		12/31/2023
Public Health (PHD)	100%	45%		01/31/2024
External Relations			To be coordinated	TBD
Agency Operations			To be coordinated	TBD
Fiscal and Operations			To be coordinated	TBD

5. Strategic Focus Areas

5.1. ODHS Office of Reporting, Research, Analytics, and Implementation (ORRAI)

The Office of Reporting, Research, Analytics, and Implementation (ORRAI) provides mission critical information to leadership and employees, legislators, partners, and the public. The office uses ODHS and inter-agency program data and tools such as predictive analytics, workload modeling and other quantitative and qualitative methods to improve outcomes for children and families. The office translates data into information and develops practitioner tools to ensure decisions are data informed.

ORRAI helps ensure our programs and services are accountable. ODHS reports to federal agencies, the Oregon state government, funders, and other community partners on an ongoing basis as well as in response to changes in policy or requirements. In addition to reporting, ORRAI staff conduct research and analytics to ensure ODHS programs and services are effective, efficient and best meet the needs of Oregonians. The implementation staff ensures that research and analysis are informed by workers, experts, and clients and that resultant changes are implemented through planned, consistent, and coordinated processes.

5.2. Cybersecurity, Risk and Privacy

Enterprise Information Services/Cyber Security Services (CSS) provides cybersecurity services for the executive branch. As such, this group is accountable for cybersecurity for ODHS|OHA. OIS is responsible for executing many cybersecurity activities and tasks in alignment with CSS. Examples of security activities that OIS handles include maintaining and adhering to the agency security plan; ensuring the security event and incident response plans are updated and adhered to; designing, developing, and procuring systems meeting statewide security requirements; implementation and adherence to the statewide standards and controls; and remediating known risks and vulnerabilities.

ODHS|OHA through the Office of Information Services has an Information Security and Privacy Office (ISPO) unit. ISPO has five primary functions – privacy; IT risk and compliance; information exchange; awareness and education; and e-discovery.

Due to the data protection obligations that originate from federal and state laws that include Health Insurance Portability and Accountability Act of 1996 (HIPAA), ODHS|OHA must have a Privacy Program and a dedicated Privacy Officer (PCO). The Privacy Program also supports privacy and security investigations for both ODHS and OHA including third party partnerships.

In addition, ISPO has a position for ONE (Oregon Eligibility) Security Advisement that supports federal compliance requirements with the Centers of Medicare and Medicaid Services (CMS).

ODHS Shared Services has a position for the Criminal Justice Information Services (CJIS) Local Agency Security Officer (LASO) in coordination with Oregon State Police CJIS Information Security Officer.

ODHS and OHA have state and federal requirements around regulated data sets including HIPAA (Protected Health Information); CJIS (Criminal Justice Information Systems); IRS (Federal Tax Information); SSA (Social Security Administration); MARS-E (Minimum Acceptable Risk Standards for Exchanges); PCI (Payment Card Data) and others.

5.3. Data Focus

In alignment with "Oregon's Data Strategy" and in compliance with EIS policy, ODHS|OHA each have named a lead data officer. These two roles along with the IT Director/Enterprise Architect provide leadership on respective agency data strategies, data governance, and ongoing data management practices necessary to manage data as an asset as required by policy and statute.

Lead data officers for both agencies work with leaders in other domains including the OHA REALD/SOGI director; ODHS REALD/SOGI(E) director; and ODHS|OHA Health & Service Equity IT director.

5.4. Newer Artificial Intelligence Technologies

Newer artificial intelligence capabilities have become a conversation topic from family dinner tables to board rooms to federal, state, and local governments.

In October 2023, the federal government released a Blueprint for an Artificial Intelligence Bill of Rights. The blueprint emphasizes the need for ethical and equitable principles, practices, and guidelines for government artificial intelligence adoption to protect individuals from harm.

In November 2023, State of Oregon Gov. Kotek signed Executive Order No. 23-26: Establishing a State Government Artificial Intelligence Advisory Council. The Council will be convened to guide awareness, education, and usage of artificial intelligence in state government that aligns with the State's policies, goals, and values and supports public servants to deliver customer service more efficiently and effectively. The recommended action plan shall include concrete executive actions, policies, and investments needed to leverage artificial intelligence while honoring transparency, privacy, and diversity, equity, and inclusion.

The agencies are having many conversations around this new AI technology and especially Generative Artificial Intelligence (GenAI). Freely available tools such as ChatGPT are being used and experimented with use cases include summarizing publicly available documents, rephrasing public information at different reading levels, and getting an opinion (with precautions) on a wide range of subjects. Broader application use cases being discussed in health and human services include using chatbots to provide quick and efficient answers to the public and assisting case workers by summarizing case notes across multiple platforms.

The fast pace of GenAI has the potential to shape our business and technology processes. The Office of Information Services has drafted an interim guidance document that the agencies can use until further direction from state leadership is provided. "Guidance on the use of generative AI technologies in the workplace" is beginning to be socialized with technical and agency leadership and will be adjusted to meet the needs of the agencies.

6. Operational Modernization

6.1. IT Infrastructure Overview

OIS supports the hardware and software that our staff, providers, and clients use.

On the client side, OIS is accountable for the infrastructure noted in the table below. This includes 32,100 computers and printers and 14,700 mobile devices geographically used across Oregon in 140 office locations.

People We Serve	
Clients	1,628,790
Staff	16,700
Partners	35,000
Medicaid providers	16,000

Locations We Support	
Office network devices	3,500
Web conferencing rooms	280
Offices around the state	140

Technology We Support	
Computers and printers	32,100
Mobile devices	14,700
Servers	1,800
Applications (Mission Critical)	75

On the server side, EIS is accountable for the state network, hardware infrastructure, server provisioning and operating system and virtual machine (VM). OIS is accountable for the applications that the agencies use in this infrastructure. Application development, patching, maintenance and operations all are under the responsibility of OIS.

Currently there are 1,544 virtual machines allocated to ODHS|OHA which represents 37 percent of the total VMs in the state. All changes to these systems are managed through OIS who ensures that change management processes are followed, including post-change testing and validation.

6.1.1. IT Infrastructure Modernization

In alignment with EIS, and a benefit to the agencies, there are two large technical projects to shift infrastructure to cloud services – see Section 4.8.1 Major IT Projects Underway – which are the ONE & MMIS Infrastructure/Cloud Migration

projects. With the completion projects in 2023-2025 the VMs hosted in the cloud will move from <5 percent to 62 percent.

ODHS|OHA has, also, invested resources and funding in planning efforts to migrate applications off the mainframe - see Section 4.8.1 - Mainframe Migration Provider & Client Payment Systems technical project. This planning project is in the pre-initiate phase. OIS leadership connects periodically with EIS (Data Center Services) leadership as there are plans underway on the future of support of Oregon's mainframe needs.

Also, OIS has an active project on IT Asset Hardware Management that will be completed this biennium.

6.2. Direct Customer Support Model

OIS has a presence in all 140 OHDS|OHA office locations throughout the state to the benefit of our staff, providers/partners, clients, and other agencies through our customer service and support field technicians support model. It's a support model that allows OIS to quickly provide in-person services; assistance to EIS on replacement of the 3,500 network devices in the agency's offices; and efficiently keep workstations reliable and updated through the workstation lifecycle replacement program (every four years.)

These field tech professionals are, also, the ones who respond to local needs in local or large scale disasters, such as relocating a majority of the workforce into remote working environments during the pandemic; handling infrastructure outages during severe weather events or fires; and providing support to other agencies in a disaster, such as assisting other call centers with setup during the pandemic or responding to urgent needs in recent local government security events that required workstations to be rebuilt.

6.3. Application Portfolio

The ODHS|OHA organization has a large and complex application portfolio. The holistic application portfolio includes roughly 450 applications with 75 considered mission/business critical. OIS manually maintains an application inventory for service support reasons and has an active project implementing an IT Asset Management Software system.

The five largest and most complex applications include the Oregon Eligibility (ONE); Medicaid Management Information System (MMIS); OR-Kids Child Welfare System; Oregon State Hospital Electronic Health Records (Avatar); and COBOL-Based Financial/Payment applications. OIS plays a variety of roles in each mission/business critical application ranging from technical oversight of a vendor-based systems to application development and support of on-premise systems.

The last application portfolio assessment was in 2020, led by the OIS Enterprise Architecture Team and Gartner Research. While it was completed, many interviews to validate the accuracy of the information were not held due to the agencies' limited availability during the global pandemic. Gartner concluded (at that time) that ODHS|OHA is lagging peers on the modernization and cloud journey migration. This 2020 result validated what the technical organization is aware of and continues to make progress and seek funding and resources to address legacy IT systems.

6.3.1. Application Portfolio Modernization

In alignment with EIS strategy, cloud-based applications are the preferred replacement for core applications. Of the five largest and most complex applications noted in the section above, all have active cloud projects in the continuous modernization journey.

For applications that OIS is responsible for developing, major initiatives are underway to remove dependence on non-standard operating systems, database platforms, application stacks, and programming environments. For example, OIS has decommissioned Sybase entirely, and is working to modernize off AIX, DB2, PowerBuilder and the mainframe platform.

In support of in-house application modernization, a lot of work has been done with process, practice, and standards maturity. OIS continues to incorporate modern operational processes and toolsets including agile development which is a highly iterative and flexible development process; DevOps which is aimed at streamlining software development and delivery into production environments; and using software tools that aid with accessibility and vulnerability maturity.

For details around the holistic application portfolio modernization – see Section 4.9, Continuous Modernization.

7. Investments

7.1. OIS Workforce

For the 2023-2025 biennium, OIS has 650 legislatively approved budget positions. Of these positions 6 percent are management/supervisory, 94 percent are staff with a management to staff ratio of 1:10.7. Our current OIS vacancy rate is less than 12 percent.

OIS is a Shared Services organization and ODHS|OHA use a 64 percent/36 percent cost allocation model. Direct charge codes are used for project-based work. It's common for OIS units to be fully dedicated to business units in our software development and delivery as the nature of the work is around internally developed and supported products. For a few examples, the OIS OR-Kids (child welfare) unit comprised of software engineers; OIS ONE unit comprised of project managers, contract administrators, system administrators; OIS Health & Service Transformation unit in dedicated support of REALD/SOGI. Approximately 100 staff direct charge 100 percent of their time on a monthly average, approximately 75 staff direct charge a portion of less than 100 percent of their time on a monthly average.

7.2. OIS Budget

OIS has a $234,600,000 budget for the 2023-2025 biennium, which is 0.44 percent of the combined ODHS|OHA budget. About 80 percent of the budget is for personnel services or labor, with the other software maintenance (10 percent), IT professional services (5 percent), and other services and supplies (5 percent).

Personnel services of local IT groups and product and solution business analysts are in agency budgets.

7.3. Technical Policy Option Package Investments in 2023-2025 budget

In 2023-2025, there were five investments (over $2 million) in technology through Policy Option Packages with descriptions in the Large Technical Project Portfolio – dollars are represented as total funds. The POPs below support the program and technology needed as outlined in the POP. This includes:

- **Joint Ongoing Maintenance (POP 143)** – **$39.1 million** – This policy package requests funding for ongoing maintenance and enhancements, ODHS Oregon Eligibility Program resources, cloud migration, additional

software licensing needs, and one-time payment to IT vendor for final contract cost.

- **REALD & SOGI Implementation: Getting to Data Justice (POP 403)** – $15.7 million –Supporting data collection by external providers, insurers, and individuals, the Initial Registry, Initial Repository, and creating the Enterprise Scale Statewide REALD & SOGI Registry and Repository represents an investment in data equity and facilitates data justice within communities most impacted by health inequities.
- **Joint – Mainframe Migration/Provider & Client Payments System (POP 203)** – $13.1 million – The policy package received funds and resources to start the planning work of a multi-biennia project to migrate the mainframe COBOL based payment & financial components to modern platforms. The oldest payment systems are complicated, antiquated, and fragile with limited resources being available in the IT industry. These mainframe COBOL components processed 14.5M payments for a total of $3.7B and is one of the greatest risks of the ONE Environment. This POP gets us started on planning and ideally to a pilot effort.
- **OHA – OEBB/PEBB Benefit Management System Replacement (POP 435)** $6.6 million –This policy package would fund implementation activities including additional project staffing, vendor implementation costs, hosting and licensing fees, oversight fees for quality assurance, and contingency allowances.
- **OHA – Marketplace Transition from SBM-FP to SBM (POP 416)** – $2.1 million – This (planning) policy package requests fund to end Oregon's reliance on the federal health insurance exchange eligibility and enrollment platform and the federal call center, and to fund the initial stage of its transition to a state-based marketplace platform and state-controlled call center.

8. Continuous Planning

8.1. Accountability

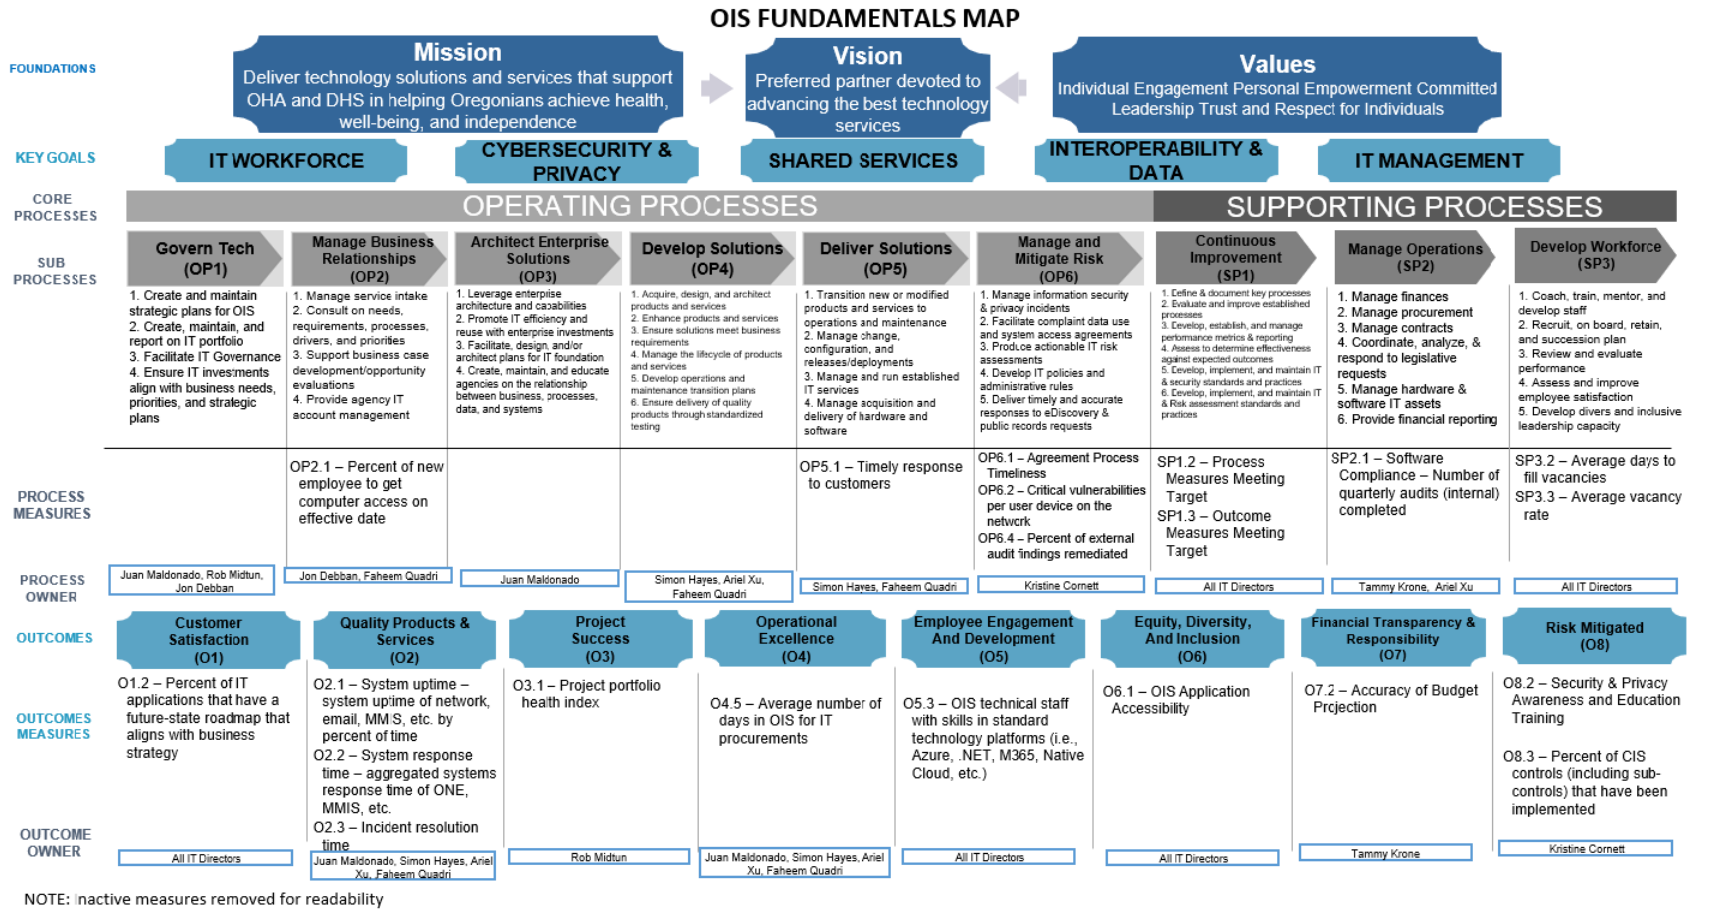
The ODHS|OHA chief information officer (CIO) and deputy CIO are accountable for the Office of Information Services. Key strategic documents such as this document, Strategic Technology Plan, and the Performance Management System will be a shared responsibility. Periodically, usually at year end and the end of the biennium, the materials are reviewed and refreshed.

8.2.Communication

IT progress and strategic artifacts are co-created, reviewed, and communicated to agency leadership. In recent years and going forward the leadership bodies for communication strategy includes agency directors and deputy directors; program/division directors; ODHS cabinet; OHA leadership team; agency technology councils; OIS and local IT technical directors, OIS all managers, and OIS all staff. Additionally, materials are co-created with and/or reviewed with the Healthy Policy assistant CIO; Senior Investment Program manager, and LFO IT analysts.

9. Appendix

9.1. Performance Management System – Fundamentals Map



NOTE: Inactive measures removed for readability

9.2. Project Portfolio with IT Governance Prioritization

The following snapshots are dated October 2023. Cross-agency projects will appear on both lists. Dollars are represented as total funds.

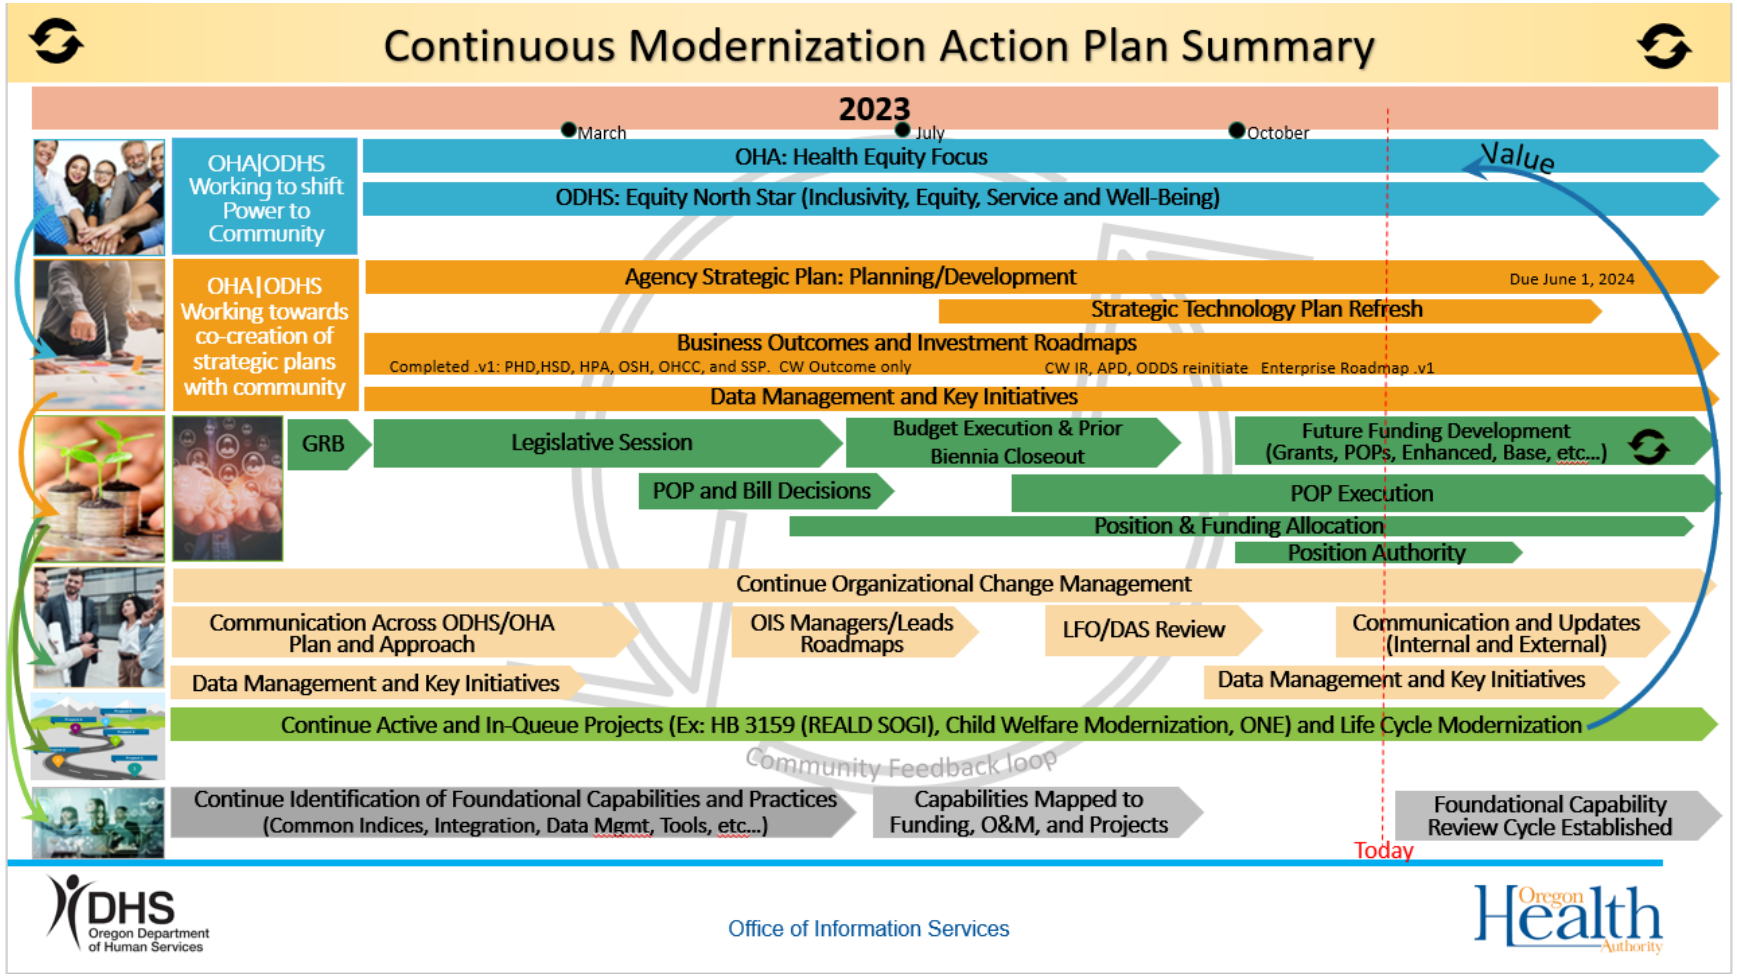
ODHS Governance Council Prioritization

Priority	Project Name	Health	Project Budget	Project Phase	Projected End
1	1115 Waiver Technology Implementation			1-Initiating	
2	Mainframe Modernization - Payment Systems			0-Pre-initiation	
3	SB155 Enhancements		$784,658	4-Closing	05/31/2023
4	Provider Time Capture (PTC)		$31,367,810	3-Executing	01/20/2025
5	CCWIS		$8,898,851	2&3-Planning/Executing	06/30/2024
6	REALD and SOGI Registry Implementation		$10,900,000	2-Planning	06/30/2025
7	Case Management System		$6,110,500	2-Planning	
8	Provider Enrollment Maintenance System		$9,200,000	2-Planning	
9	Resource Parent Inquiry Certification and Training (RPICT)		$1,363,107	1&2-Initiating/Planning	08/31/2024
10	GO Priority - DELC - Childcare Regardless of Citizenship			3-Executing	
11	ONE Program Cloud Migration			1-Initiating	12/31/2024
12	Aspen to iQIES Transition		$0	1&2-Initiating/Planning	09/16/2024
13	APS Community Workflow and REALD		$1,352,600	1-Initiating	07/10/2024
14	IT Service Management		$4,137,792	2-Planning	
15	Email Retention and Special Schedule Initiative			0-Pre-initiation	
16	Laserfiche Enterprise		$1,019,120	3-Executing	12/11/2023
17	OregonBuys Implementation		$220,000	2&3-Planning/Executing	03/29/2024
18	ODDS Electronic Visit Verification - Non-Web Solution			1-Initiating	

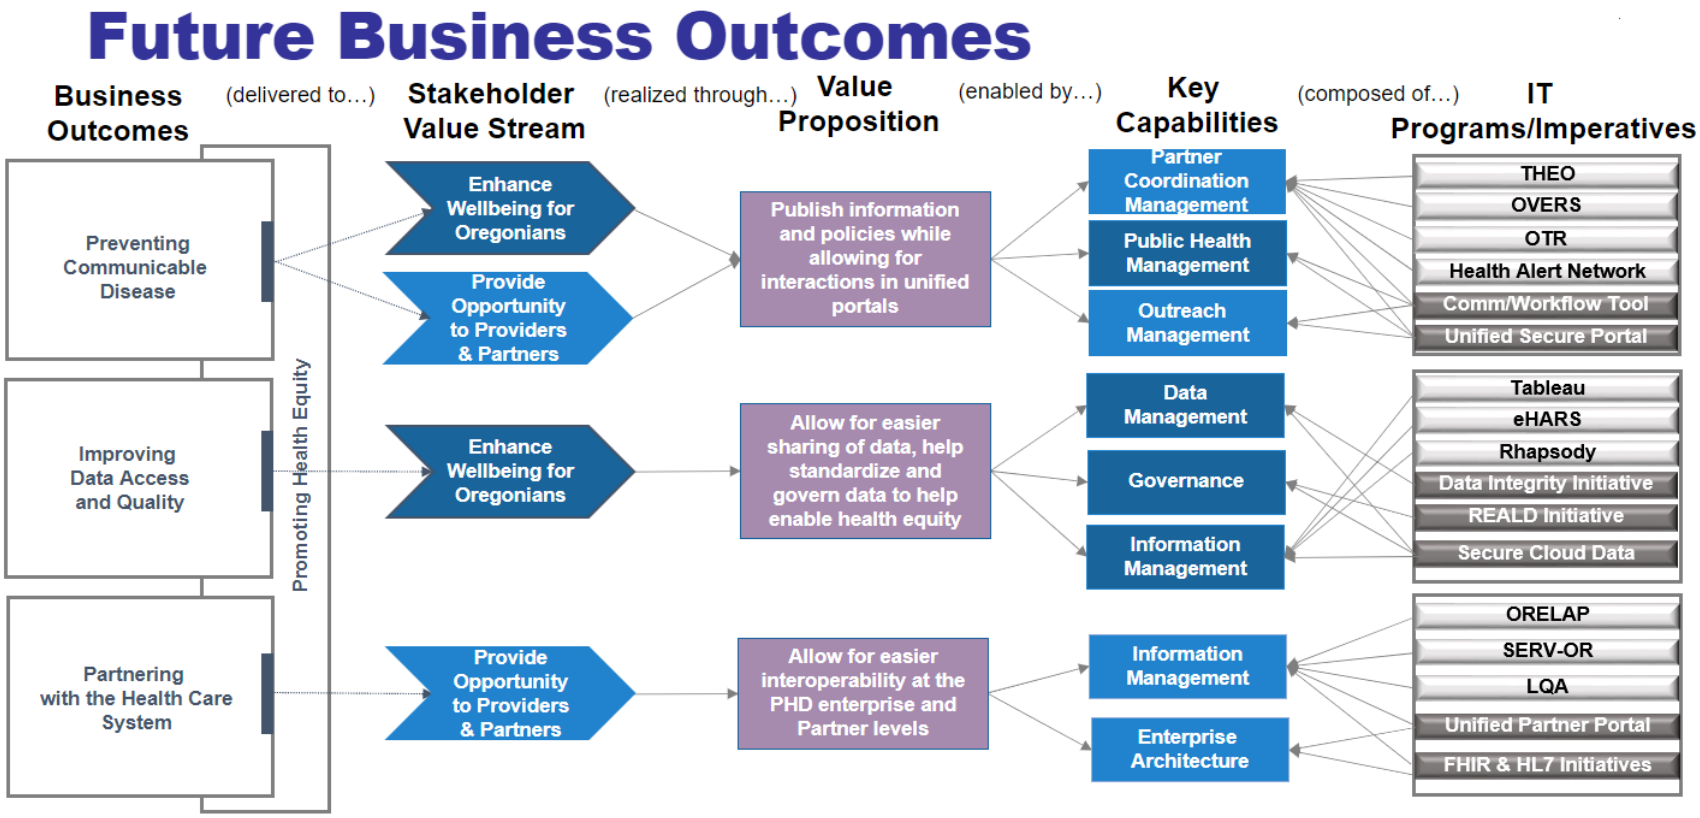
OHA Governance Council Prioritization

Priority	Project Name	Health	Project Budget	Project Phase	Projected End
1	1115 Waiver Technology Implementation			1-Initiating	
2	REALD and SOGI Registry Implementation		$10,900,000	2-Planning	06/30/2025
3	Mainframe Modernization - Payment Systems			0-Pre-initiation	
4	MES Modernization (formerly Modularity) Planning Phase		$922,994	3-Executing	12/31/2024
5	Oregon State-Based Marketplace		$1,200,000	2-Planning	04/04/2025
6	HASP 2		$2,067,840	3-Executing	02/02/2024
7	MES Interoperability - Claims & Provider Directory		$4,929,001	3-Executing	04/08/2024
8	SERV-OR		$769,980	3-Executing	09/12/2024
9	Compass Modernization		$1,788,046	1-Initiating	04/11/2024
10	OSH Incident Reporting and Infection Surveillance (IRIS)		$697,000	3-Executing	03/31/2024
11	MMIS Program Integrity - Release 4		$8,258,688	2&3-Planning/Executing	07/31/2023
12	HPA HEDIS			0-Pre-initiation	
13	ALERT IIS Replacement		$10,000,000	1-Initiating	
14	OEBB-PEBB Benefit Management Systems (BMS) Replacement		$14,470,585	3-Executing	08/04/2025
15	OSH Scheduling and Time Replacement			1-Initiating	
16	Email Retention and Special Schedule Initiative			0-Pre-initiation	
17	OregonBuys Implementation		$220,000	2&3-Planning/Executing	03/29/2024
18	HIV-E (HIV-Electronic)		$23,700,949	3-Executing	06/29/2027
19	TWIST TO WEB		$16,359,475	3-Executing	01/31/2024
20	IT Service Management		$4,137,792	2-Planning	
21	OVERS ICR		$6,455,838	2&3-Planning/Executing	07/26/2024
22	MMIS Letter Generator Upgrade		$1,179,731	3-Executing	12/22/2023
23	OSPHL LIMS Replacement		$1,873,953	2-Planning	
24	MMIS Infrastructure Replacement - Phase 1		$10,072,072	3-Executing	12/31/2024
25	Laserfiche Enterprise		$1,019,120	3-Executing	12/11/2023
26	ONE Program Cloud Migration			1-Initiating	12/31/2024
27	Oregon Trauma Registry (OTR) Replacement		$636,888	2-Planning	12/08/2023

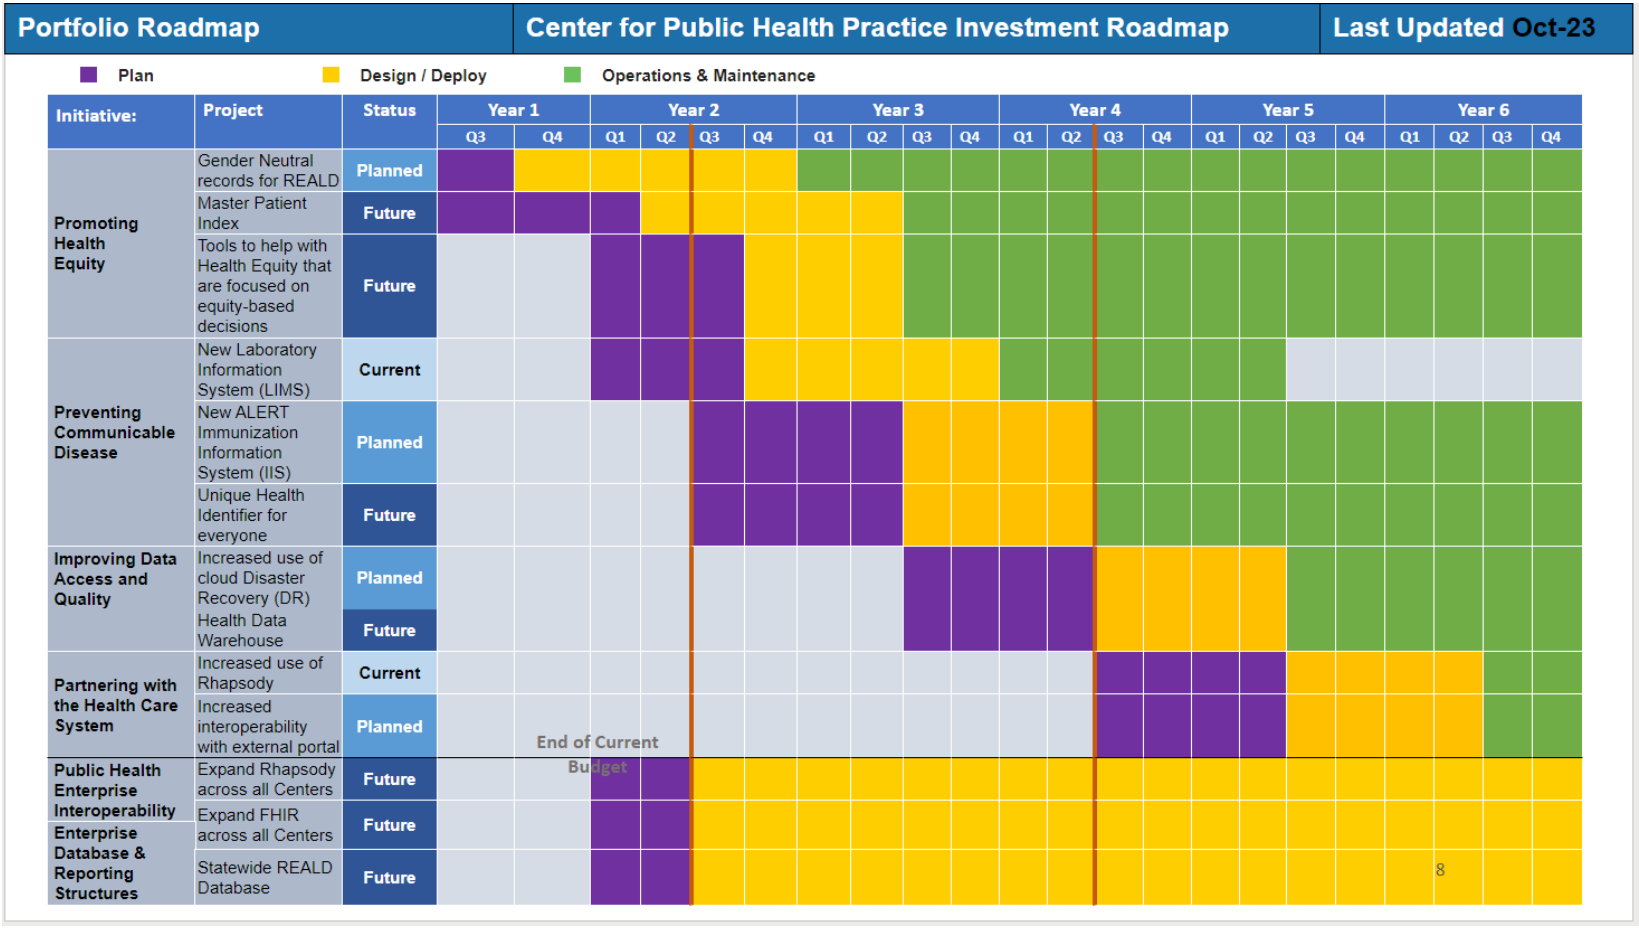
9.3.Continuous Modernization Action Plan Summary



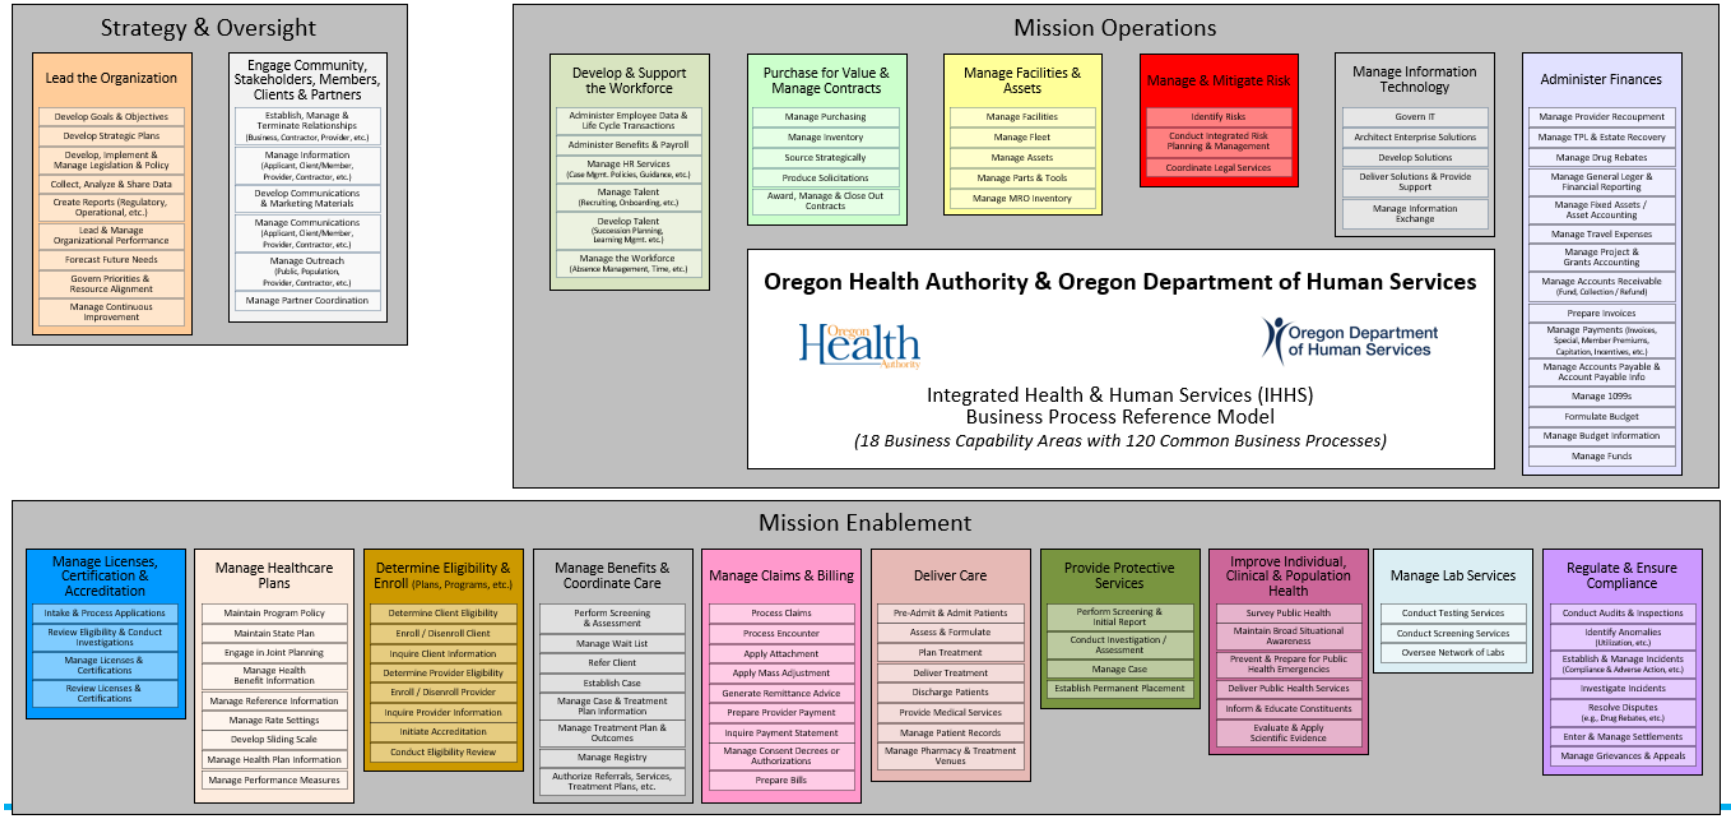
9.4.Future Business Outcomes Example



9.5.Investment Roadmap Example



9.6.Integrated Health & Human Services (IHHS) Business Process Reference Model



9.7.Federal Mandates

Top Federal Mandates
CMS MES Modernization – For the past eight years, CMS has signaled its interest seeing states move to a modular architecture for their Medicaid Management Information Systems (MMIS). In 2023, at the annual Medicaid Enterprise Services Conference, CMS announced that it will now focus on modernization as in "MES Modernization." (Technical Project: Medicaid Enterprise Services Modernization)
Fair Labor Standards Act (FLSA) – In context of ODHS Home Care Workers (HCW) and Personal Service Workers (PSW), the FLSA requires that the records include certain identifying information about the HCW/PSW and data about the hours worked. (Technical Project: Provider Time Capture)
Federal Department of Health and Human Services – The Federal Department of Health and Human Services (HHS) rule on Comprehensive Child Welfare Information Systems (CCWIS) went into effect on Aug. 1, 2016. The rule governs the next generation of technology to support child welfare programs. The new rule focuses on modularity, interoperability, reusability, data sharing between programs, lifecycle data management, and data quality. ODHS Child Welfare declared that it would move towards a CCWIS environment. (Technical Project: Child Welfare CCWIS Project)
21st Century Cures Act – Requires HCW and PSW time entries to be accurate and attested to by both service recipients and providers. (Technical Project: Provider Time Capture)
Hospital Accreditation – Patient safety and hospital accreditation require that federally mandated electronic health management systems be highly available. (Technical Project: Hospital Application Survivability Platform 2)
CMS Interoperability and Patient Access Final rule – The rules advance the efforts to make health information more easily available to patients and improve coordination of care. (Technical Project: Medicaid Enterprise Services Interoperability)
CMS MARS-E mandate – Federal mandates around information security, privacy, and accountability are evolving rapidly. Of relevance is the Minimum Acceptable Risk Standards for Exchanges (MARS-E). MARS-E provides a single, integrated approach to security and privacy that addresses multiple federal requirements. (Technical approach – ONE maintenance and operations)

9.8.State Mandates

Top State Mandates
HB 2468 (2023) – Requires property owners to allow dwellings to be used as family childcare homes and sets rules around certification, other children on premises, and subsidy payments from DELC.
HB 2665 (2023) – Requires the Health Licensing Office to establish processes to receive and investigate complaints regarding temporary staffing agencies. Requires OHA to develop rules to establish maximum rates that temporary agencies may charge.
HB 2683 (2023) – Directs the Early Learning Council to adopt rules to establish eligibility for certain children to participate in Employment Related Day Care subsidy programs.
HB 2757 (2023) – Expands and provides funding for a coordinated crisis services system including 9-8-8 suicide prevention and behavioral health crisis hotline.
HB 3127 (2023) – Identifies certain covered vendors and prevents state agencies from downloading and installing covered products from those vendors. Requires OSCIO to adopt rules, policies, and standards for state agencies to implement the removals relating to the vendors, including definitions and timelines of agency notification.
SB 11 (2023) – Requires certain executive department boards or commissions that conduct public meetings through electronic means to record and promptly publish recordings on websites or hosting services so the public may observe or listen to meetings for free.
SB 231 (2023) – Directs ODHS to establish and maintain a centralized child abuse reporting system.
SB 966 (2023) – Requires OHA to adopt standards for types of data collected for all payers and that all claims' databases are consistent with standards adopted for collection of data on race, ethnicity, language, disability, sexual orientation, and gender identity. (Technical Project: REALD/SOGI Registry-Repository)

SB 972 (2023) – Requires OHA to transition from healthcare.gov to state-based marketplace by Nov. 1, 2026. (Technical Project: State Based Marketplace)
SB 1089 (2023) – Establishes a Universal Health Plan Governance Board. (Note: Bill analysis stated need for single payer plan system)
HB 3159 (2021) – Getting to Data Equity - HB 3159 mandates a registry and repository for collection of Race, Ethnicity, Language, Disability (REALD) and Sexual Orientation, Gender Identity (SOGI) data from providers and insurers. REALD & SOGI data is OHA's best tool to assess how racism, disablism, lack of language access, sexism and heteronormative dominance impact individual and community health. (Technical Project: REALD/SOGI Registry-Repository)
SB 855 (2019) – Directs professional licensing boards to study matter in which people who are immigrants or refugees become authorized to practice occupation or profession – Directs the Oregon Home Care Commission (part of ODHS) to develop and implement methods to reduce barriers to enrollment for applicants who may be immigrants or refugees. (Technical Project - Provider Enrollment Maintenance System)
SB 1067 (2017) – Relating to government cost containment; and declaring an emergency – Per the bill, SB 1067 Oregon Educators Benefit Board (OEBB) and Public Employees Benefit Board (PEBB) are seeking to integrate the administrative and support of the two IT systems, with improved user experience and customer care, into a single platform to drive cost reductions and operational improvements consistent with applicable law and administrative rule. (Technical Project – OEBB-PEBB Benefit Management Systems (BMS) Replacement)
SB 774 (2015) – Requires Home Care Commission to adopt statewide plan to expand home care worker workforce – Directs ODHS to implement a single online application and universal provider number for the agency provider workforce and increase the size of the workforce available to serve individuals receiving services. (Technical Project – Provider Enrollment Maintenance System)

PROPOSED SUPERVISORY SPAN OF CONTROL REPORT

In accordance with the requirements of ORS 291.227, **Oregon Department of Human Services (agency 10000)** presents this report to the Joint Ways and Means Committee regarding the agency's Proposed Maximum Supervisory Ratio for the 2025 – 2027 biennium.

Supervisory Ratio for the 2025 – 2027 biennium

The agency actual supervisory ratio as of 9/23/2024 is 1: 1:10.09
(Date) (Enter ratio from last Published DAS CHRO Supervisory Ratio)

The Agency actual supervisory ratio is calculated using the following calculation:

1,144 =	1,054 +	91	- (1)
(Total supervisors)	(Employee in a supervisory role)	(Vacancies that if filled would perform a supervisory role)	(Agency head)

11,330 =	10,153 +	1,177
(Total non-supervisors)	(Employee in a non-supervisory role)	(Vacancies that if filled would perform a non-supervisory role)

The agency has a current actual supervisory ratio of-
1: 10.09 = 1,144 / 11,330

When determining an agency maximum supervisory ratio all agencies shall begin of a baseline supervisory ratio of 1:11, and based upon some or all of the following factors may adjust the ratio up or down to fit the needs of the agency.

← Narrow Span		Wide Span →
High	**RISK TO PUBLIC/EMPLOYEE SAFETY**	Low
Dispersed	**GEOGRAPHIC LOCATION(s) OF SUBORDINATES**	Assembled
Complex	**COMPLEXITY OF DUTIES/MISSION**	Not complex
Low	**BEST PRACTICES/INDUSTRY STANDARDS**	High
Small	**AGENCY SIZE/HOURS OF OPERATION**	Large
Many	**NON AGENCY STAFF/TEMPORARY EMPLOYEES**	Few
High	**FINANCIAL RESPONSIBILITY**	Low
← More Supervisors		Fewer Supervisors →

Ratio Adjustment Factors

Is safety of the public or of State employees a factor to be considered in determining the agency maximum supervisory ratio? Y/N

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11 -

ODHS is responsible for the safety of many vulnerable Oregonians in Child Welfare, Self Sufficiency, Aging and People with Disabilities, Individuals with Intellectuals Disabilities and Vocational Rehabilitation programs. Due to safety concerns and industry best practices in both Child Protective and Adult Protective Services a higher than 1:11 MSR is appropriate. ODHS has many supervisors that are working clinical supervisors responsible for the supervision of case managers that have an industry standard much higher ratio than 1:11 in order to maintain the safety of Oregonians and keep reasonable workloads.

ODHS houses the Stabilization and Crisis Unit (SACU) a series of 24/7 homes for people with developmental or intellectual disabilities who are in crisis. A ratio of 1:11 is not ideal for this unit, due to the acuity of the clients in the homes and the fact that currently ODHS has supervisors that cover more than one house. 1:7 is a more reasonable target for a supervisory ratio and ODHS is using this as its "target" ratio for SACU employees who are now all in the police and fire designation due to difficulty, stress and potential danger of the positions working with difficult clients.

Is geographical location of the agency's employees a factor to be considered in determining the agency maximum supervisory ratio? Y/N

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

ODHS has over 170 office locations statewide including many smaller offices in very rural parts of Oregon. (The number of buildings was reduced by consolidating some older, smaller offices into newer, larger offices; and, it does not include the 21 houses staffed by the Intellectual & Developmental Disabilities (IDD) Stabilization and Crisis Unit (SACU) staff.) However, many supervisors must travel long distances to interact with their staff and have smaller offices. Because of these geographic limitations a higher than 1:11 MSR is appropriate.

ODHS has, without double-counting staff, 2,273 employees/positions (2,073 non-supervisors and 200 supervisors) in non-urban/rural settings, and the ratio averages at 1:10.37. ODHS believes a reasonable target ratio for these rural areas should be 1:8. The remaining urban employees are proposed to be 1:11, where they are currently running at 1:9.81. (This does not include Child Welfare (CW) staffing mentioned in the child welfare section of the "industry standards" section, Aging & People with Disabilities (APD) or IDD SACU staff.)

Is the complexity of the agency's duties a factor to be considered in determining the agency maximum supervisory ratio? Y/N

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

ODHS is comprised of 6 major programs the smallest of which is over $160 million TF, the largest is almost $7 billion TF. In addition to Central Services, ODHS also houses Shared Services that support both ODHS and OHA. In each major program area there are multiple sub-programs that must be managed, each with its own set of complexities from federal reporting to limitations on how grants can be spent to complex eligibility determinations. In addition, each of these programs have impacts on each other making the interaction and complexity of ODHS much higher than most agencies. In many parts of the agency, supervisors are responsible not just for the management of staff, but also for policy and procedure questions and providing final guidance on how cases are managed. In other words, they are working supervisors, not just supervisors. This is the case in most of ODHS as there are very few supervisory positions that don't also do policy or technical work in addition to their supervisory duties. There is also a concerted effort to work across programs to become more focused on wrapping services around families for better outcomes at the lowest level. For ODHS, working across programs is like working across agencies, due to the size and complexity of the current 6 major program areas. The smallest "program area" in ODHS is larger than most state agencies. ODHS also houses Shared Services that support both ODHS and OHA this means juggling the needs of each organization for tasks like accounting and overpayment recovery. This adds to the complexity of the organization. These two factors justify a higher MSR than one to eleven.

Are there industry best practices and standards that should be a factor when determining the agency maximum supervisory ratio? Y/N

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

Child Welfare working supervisors, based on a January 2018 Casey Family Programs issue brief entitled Healthy Organizations (citing both Child Welfare League of America. (n.d.) *Standards of excellence for child welfare services.* Retrieved from http://www.cwla.org/our-work/ cwla-standards-of-excellence/standards-of-excellence-for-child-welfare-services and the Council on Accreditation. (n.d.) *Standards for public agencies: PA-PDS 3: Leadership support of supervisors.* Retrieved from http://coanet.org/standard/ pa-pds/3/, para. 7), have an industry best practice of 1:5-1:7 for supervisors providing clinical support to caseworkers. This is in addition to their supervisory duties. ODHS is using 1:5 as the target ratio.

Adult Protective services, based on a 2017 National Adult Protective Services Association nationwide survey the average ratio of caseworkers to supervisors in Adult Protective Service programs is 1:5.65. This report was concluded on September 30, 2019, and published as a Final Report to the Administration for Community Living (ACL). The recommended discussing the complexity and factors needing consideration when setting the APS supervisory ratios are also further outlined in the ACL Guidelines (National Voluntary Consensus Guidelines for State Adult Protective Services Systems, pages 18 and 19), which was updated in March 2020. Another point of consideration included a Rider Report from Texas, showing their span of control ratio for APS workers.

Vocational Rehabilitation also has working supervisors that provide clinical supervision.

In all three cases these managers are also doing case worker clinical type supervision of the actual work not just "supervising" employees. All three cases justify a higher ratio than 1:11 due to clinical supervision duty needs that help with the overall safety of these vulnerable populations.

Is size and hours of operation of the agency a factor to be considered in determining the agency maximum supervisory ratio? Y/N

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

ODHS Child Welfare fully staffs the 24-hour Oregon Child Abuse Hotline (ORCAH), which justifies a higher MSR than 1:11. ODHS is also reviewing its field structure and footprint and may be moving to more smaller locations across the state which may change the geographic footprint of the agency.

In addition, ODHS runs a 24/7 crisis service through the Stabilization and Crisis Unit (SACU). This provides services to those with Intellectual and/or developmental disabilities in crisis. There are 759 positions at SACU with some supervisors having to cover multiple houses and as necessary providing direct services to clients to ensure proper staff to client ratios based on the needs of the client. Staffing ratios have been below 1:11 which is not a reasonable ratio considering the acuity of clients and the 24/7 nature of the business. SACU should be at a higher ratio such as 1:7 to be more appropriately staffed in a 24/7 environment.

Are there unique personnel needs of the agency, including the agency's use of volunteers or seasonal or temporary employees, or exercise of supervisory authority by agency supervisory employees over personnel who are not agency employees a factor to be considered in determining the agency maximum supervisory ratio? Y/N

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

ODHS has 139 volunteers, and many contractors, that need some level of supervision. This justifies a higher ratio than 1:11.

In addition, all supervisors but the Director have supervisors and supervisors should be included as supervised employees in the denominator of the calculation. This would also justify a higher than 1:11 MSR. This should be taken into consideration on the ASR calculation but is not currently part of the calculation of the ASR.

Is the financial scope and responsibility of the agency a factor to be considered in determining the agency maximum supervisory ratio? Y/N

Explain how and why this factor impacts the agency maximum supervisory ratio upwards or downward from 1:11-

ODHS is responsible for serving over to 1 million Oregonians per year (which is almost a quarter of the state's total population of 4.23 million individuals) encompassing over $19.85 billion-dollar Total Funds in the 2023-25 Legislatively Approved Budget. This comes with more than 142 funding streams, each with their own limitations, rules and reporting requirements. There are 6 major program areas each bigger than most agencies. Within each program are multiple sub-programs again each with their own rules, funding sources and complexities. Most of this funding is spent in the community through hundreds of contracts, thousands of providers and multiple interagency agreements. Each program comes with its own eligibility criteria, usually having multiple different factors. Each sub-program usually has its own set of eligibility criteria and there is not continuity between program eligibility due to federal regulations. Employees must know each separate sub-program and their supervisor must also be able to guide the employee or answer questions they may have as to how to apply the criteria etc. In addition, the central office staff for each program must keep up with ever changing federal regulations and state changes that must then be distributed out to our many field offices. These changes can be weekly or even daily sometimes meaning employees and managers need to keep up with a myriad of process or policy changes every day. This justifies a higher ratio than 1:11.

Based upon the described factors above the agency proposes a Maximum Supervisory Ratio of 1: 8.50.

2025-27 Legislatively Adopted Budget

Diversity, Equity, Inclusion and Belonging (DEIB) Plan

Oregon Department of Human Services (ODHS) is committed to building a future where everyone in our state, regardless of who they are or where they come from, has the opportunity to thrive. Guided by our Equity North Star, the ODHS Diversity, Equity, Inclusion, and Belonging (DEIB) Plan charts a course for the agency in operationalizing this commitment, setting concrete goals for removing systemic barriers and ensuring essential services are accessible, inclusive and responsive to the diverse needs of Oregon's communities and Tribal Nations.

The plan is rooted in the understanding that DEIB-competent leadership is fundamental to this work. Accordingly, in the coming biennium it focuses on equipping central and district leaders with the knowledge and skills they need to advance DEIB and create and implement related accountability measures.

The plan also places a premium on community engagement. Legacies of racism have resulted in a system where members of Tribal Nations, Black/African American communities, and communities of color are often disproportionately represented within the populations ODHS serves, and yet these communities historically have not had equal voice in shaping ODHS programs and services. In recent years ODHS programs have significantly expanded opportunities for diverse communities to meaningfully influence programs, policy and implementation. From youth and provider advisory bodies to in-person and remote community listening sessions, these opportunities have helped ODHS programs better align specific services with communities' goals. The DEIB Plan recognizes the need to build on these efforts, making ODHS' community engagement strategy agency-wide in scope and establishing accountability mechanisms to ensure we are systematically increasing the involvement of marginalized groups in policy, program and practice decisions.

Other key focus areas of the plan are:

- **Culture and Education** – Integrating RiSE Culture throughout the agency and enhancing DEIB-focused professional development for employees.
- **Data and language access** – Developing REALD[1] and SOGIE[2] data implementation infrastructure and advancing the ODHS | OHA Auxiliary Aids, Alternate Formats and Language Access Services Policy.
- **Service equity** – Integrating an agency-wide service equity management system into all ODHS programs.
- **Government-to-government and Tribal relationships** – Prioritizing American Indian and Alaska Native data collection for program-specific service delivery and fully implementing ODHS' Tribal Consultation Policy to improve government-to-government relations with Oregon's Nine Federally Recognized Tribes.
- **Retention, promotion and hiring** – Ensuring equity across ODHS human resources policies and practices.
- **Communications** – Providing accessible materials to all customers and ensuring staff have the necessary tools to create culturally responsive communications.
- **Budgeting** – Embedding equity into the agency's budget and contracting processes.

2025-27 Legislatively Approved Budget for ODHS: Equity Impacts

Several 2025-27 investments will directly advance DEIB Plan objectives during the coming biennium, including:

- An investment in the **Youth Experiencing Homelessness Program** (YEHP) to maintain core services like street outreach, direct cash transfers, short- and medium-term housing, and other supports designed to increase stability for young people who are experiencing or are at risk of experiencing homelessness. The resources will ensure ODHS can continue this vital program and advance Governor Kotek's priority of addressing homelessness in Oregon.

[1] Race, ethnicity, language and disability
[2] Sexual orientation and gender identity expression

- An investment to support Oregon's adoption of the **Elderly Simplified Application Project** (ESAP) – a streamlined application and recertification process designed to help more adults ages 60 and over benefit from the Supplemental Nutrition Assistance Program (SNAP).
- HB 5006 included a one-time $2 million General Fund increase for grants to Oregon refugee resettlement agencies and community-based organizations to provide **extended case management to refugees** and individuals who are seeking asylum.

Looking forward

Our Equity North Star highlights the need to redesign human services to rectify longstanding disparities and ensure everyone can access the resources they need to achieve well-being. The first step in achieving a transformation of this scale is to focus within, building an organizational culture with DEIB at its core. By articulating clear equity objectives, measurements, timelines and responsible parties, the DEIB Plan will serve as a primary guide for this work in the biennium ahead.

As we implement the plan and move our organization toward its longer-term DEIB goals, ODHS will continue its immediate and near-term efforts to increase service equity. Through this simultaneous focus on inner transformation and improving client services, we look forward to a biennium of significant progress toward our DEIB goals.

Sincerely,

Dion Jordan

2025-27 Legislatively Adopted Budget
2023 Racial Equity Impact Statement
Self-Sufficiency Programs, Oregon Department of Human Services

The Oregon Department of Human Services (ODHS) is guided by its Equity North Star, which envisions all people and communities having the opportunity to achieve safety, stability, health, and well-being. Self-Sufficiency Programs (SSP) advances this vision by addressing the historic and systemic inequities that contribute to poverty and shape outcomes for communities of color, immigrant and refugee communities, and youth experiencing homelessness.

Through the 2025–27 Legislatively Adopted Budget, several investments build on this commitment:

- **Elderly Simplified Application Project (ESAP):** ESAP simplifies access to the SNAP for older adults and people with disabilities—groups that experience disproportionately high rates of food insecurity. By shortening and simplifying the application, reducing verification requirements, waiving interviews at recertification, and extending certification periods from 24 to 36 months, ESAP ensures that eligible individuals can maintain consistent access to nutritious food without administrative barriers.

- **Youth Experiencing Homelessness Program (YEHP)**: Continued investment in YEHP sustains culturally responsive supports and flexible resources that help youth stabilize housing, reconnect to education or employment, and avoid deeper system involvement.

- **Extended Case Management for Refugees**: This investment expands the duration and scope of individualized case management to better support newly arrived refugees in achieving long-term stability, employment, and belonging in Oregon communities.

Together, these investments strengthen SSP's ability to measure and reduce disparities in access, participation, and outcomes across programs. By aligning funding and policy

decisions with the ODHS Equity North Star, SSP is building a system that uses data to identify barriers, track progress toward equitable results, and ensure that all Oregonians have consistent opportunities for stability and well-being.
