

Xaaladaha hadda jira iyo

xanuunada:

- Ciriiriga Xabadka ee Joogtada Ah
- Wax liqitaanka adag (Dysphagia)
- Cudurka Keena Laab Jeexa (Gastroesophageal reflux disorder – GERD)
- Qufac jooto ah
- Pneumonia (sanadkii la soo dhaafay)
- Guuxid marka neefsano

Daawaynta iyo dabiibida:

- Daawaynta neefsashada
- Garaacida laabta ‘chest percussion’ (oo uu ku jiro suunka laabta lagu xiro ee caawimaada ka geysta dheecaan soo saarida)
- Dheecaan ka soo saaridda afka/sanka ‘postural drainage’
- Daawaynta neefshada ‘Nebulizer’
- Daawaynta neefshada ee cunaha daloola ‘tracheal aerosol therapy’

- Tuubada dheecaanka nuugta ee afka la geliyo ma gaarto wax ka baxsan qoyaanka afka
- Tuubada mareenka hawada ee dheecaanka soo nuugta ‘airway suctioning’
- Tuubada dheecaanka nuugta ee cunaha la geliyo ‘tracheal suctioning’
- Tuubada dheecaanka nuugta ee sanka la geliyo ‘nasopharyngeal suctioning’
- Tuubada dheecaanka ee kale

- Daryeelka dhuunta daloosha ‘tracheotomy’

- Daryeelka irbadaha la geliyo xididdada ‘central line’

- Irbadaha/isku durida xididdada laga qaato (IV)
- Irbadaha maqaarka laga qaato ‘subcutaneous injections’
- Tuubada wax quudinta ‘jejunostomy’
- Tuubada quudinta ee sanka la geliyo ama tuubada quudinta ee caloosha la geliyo (tusaale, g-tube, tuubada NG)

- La socodka tuubada la geliyo kaadi hayaha ama caloosha hoosteeda
- Gelinta tuubada katheter ‘insertion of catheter’ (oo kaadi hayaha qofka la geliyo marka loo baahan yahay)

Joogtanimada Daawaynta iyo Dabiibida:

- Marnaba loo baahnayn
- Baahi hore, hadda maaha
- Loo baahan yahay laakiinse lama helo

- Hela < toddobaad walba
- Hela toddobaad walba, < 5 jeer maalmood/toddobaadkiiba
- Hela toddobaad 5 jeer ama ka badan maalmood/toddobaadkiiba

- Hela maalin walba
- Hela 5 jeer ama ka badan/maaliintii

- CPAP/BiPAP
- Mishiinka neefsashada oo aan ahayn CPAP/BiPAP
- Isku daawaynta Oxygen-ta

- Bacda saxarada ee caloosha furan 'colostomy', tuubada kaadida 'urostomy', iyo/ama meelaha kale ee jirka ee furan 'ostomy'
- Ka saarida caloosha dareeraha dheeraadka ah 'peritoneal dialysis'
- Tuubada shaqada kelyaha 'hemodialysis'
- Tuubada madaxa/maskaxda la geliyo si loola socdo bararka ku yimaada madaxa/maskaxda
- Qalabka daawada qaada 'baclofen pump'
- Daryeelka boogta, marka laga reebo heerka III ama IV ee boogta/ulcer-ka
- Daaweynta heerka III ama IV ee boogaha/ulcer-ka (lumin buuxda ee maqaarka iyo unugyada, waxay ku sii fidi kartaa murqaha ama lafta)
- Daaweynta caafimaadka hab-dhaqanka, oo uu ka mid yahay caafimaadka maskaxda
- Daaweynta/adeegyada maskaxda
- Kuwo kale: _____
