Resource and System Improvement Plan

Below is a list of resources and system improvements developed by the State Child Fatality Review Team (state team) to address the needs identified by Oregon's county child fatality review teams (county teams) through participation in the county team needs assessment.

I. Resources

Resource	Goal date	Done
Onboarding packet for new county team members	Summer	
	2022	
Procedural guide for preparing for and conducting child fatality	Summer	
review	2022	
Model job and task descriptions for CFR Lead and CFR Coordinator	Summer	
	2022	
Information sharing and confidentiality quality practices and tools	Fall 2022	
Training in multiple modalities	Spring	
	2023	
Trauma informed fatality review tools, training, and support	Fall 2022	
Equitable fatality review tools, training, and support	Fall 2022	
Resources to support prevention efforts identified most by county	Fall 2022	
teams		
Opportunities for county team members to observe other county	Summer	
reviews	2022	
Opportunities to participate in state team meetings	Summer	
	2022	
Virtual one-on-one or group support for county team members	Winter	
	2022	
State team contact assigned to each county team to provide		Χ
support		

II. System enhancements

Enhancement	Goal date	Done
Re-develop OHA hosted Child Fatality Review website to be a	Summer	
comprehensive resource hub for Oregon child death review,	2022	

Implement onboarding process for new team leads and coordinators. Implement onboarding process for new team leads and coordinators. Improve the data import from the State of Oregon Vital Statistics to the National Fatality Review Case Reporting System. Increase frequency of notifications to county teams regarding cases needing review. Make current contact list of county team leads and coordinators to county team leads accessible to county teams. Summer 2022 Make current contact list of county team leads and coordinators to county team leads accessible to county teams. Summer 2022 Set up role specific peer groups for (1) leads and coordinators and (2) based on team member professional role to: share information about roles and responsibilities across counties support onboarding of new members provide peer support Encourage and support county teams to convene regular meetings outside of case review to provide opportunities for learning, information sharing, and communication. Improve collaboration with and access to state level experts for consultation and support such as suicide, sleep related infant death, and overdose experts. Host annual statewide convening of county teams. 2024 Form implementation team comprised of community members and legislators for the purpose of implementing statewide improvement opportunities and prevention recommendations. Revise focus of state team to providing support to county teams, using county team death review data to identify patterns and opportunities for reducing child fatalities statewide, and providing information and recommendations to the implementation team. Clarify the state team's role in Oregon's child death review and prevention system through creation of a state team charter.	including connecting to National Center for Child Fatality Review
