CM02 Worker Assignment

(CAFORKIDS-32048) Inability to Create Assignment on an Active Provider Record

A change was implemented to allow the "Create Assignment" option to appear under the Actions hyperlink of a provider record when it is either open or closed. Previously, the option was only available when the provider record was closed. This change will allow users to add their own assignment to an open provider that currently has no active assignments; they will no longer need to submit a ticket.

CM06 Notes

(CAFORKIDS-34724) Case Notes > Visitation Case Notes Can Be Saved Without Face to Face Contact Information Completed

This fix resolves the issue that allowed users to save case notes with the selected category of Visitation without filling out the now required Face-to-Face Contact Result drop-down.

(CAFORKIDS-35008) The Text on Printed Case & Provider Notes is Formatted Incorrectly, Causing Pending and Historical 307B's to be Negatively Impacted

This fix resolves the issue in which Case & Provider Notes printed with extra line breaks in the narrative text on the form

CM10 Search

(CAFORKIDS-32048) Inability to Create Assignment on an Active Provider Record

A change was implemented to allow the "Create Assignment" option to appear under the Actions hyperlink of a provider record when it is either open or closed. Previously, the option was only available when the provider record was closed. This change will allow users to add their own assignment to an open provider that currently has no active assignments; they will no longer need to submit a ticket
