Fast Facts for FFY 2022

Child Protective Services

- The Oregon Child Abuse Hotline (ORCAH)'s total contacts (calls and cross-reported police reports) answered during Federal Fiscal Year (FFY) 2022 (October 2021-September 2022), was 170,853.
- Of those contacts, a total of 87,529 screening reports were documented.¹
- A total of 46,136 reports received during FFY 2022 were assigned for CPS assessment.² A total of 39,191 CPS assessments were completed, which includes reports that were assigned in the previous year.³
- Of all completed CPS assessments, 7,455 were founded for abuse and involved 10,711 victims. Of those victims, 1,980 (18.5%) were removed from their homes.
- Of all victims, 41.6 percent were 5 years old and younger.
- Of all types of abuse incidences, the threat of harm was the most frequently identified type of abuse (46.9 percent), followed by neglect (35.4 percent).
- At 40.2 percent, parent/caregiver substance use represented the most common family stress factor when child abuse was present.
- The next most common stressors were domestic violence (31.0 percent) and parent/caregiver involvement with law enforcement agencies (17.5 percent).

In-Home Family Services

- During FFY 2022, a total of 5,550 children received case management and safety services while being served in their homes.
- Of the total served in-home, 42.1 percent received additional services.

¹ This number reflects all potential reports of child abuse that are screened by ODHS (Child Welfare and the Office of Training, Investigation and Safety) and includes a variety of notifications.

² All references to assigned CPS assessments also include child abuse reports assigned by Office of Training, Investigation and Safety (OTIS) for investigation.

³ Reports assigned for CPS assessment can be combined with a currently open CPS assessment, changing the count of CPS assessments. Further, when this combination happens, it can impact the time period in which the now-linked report shows up in.

Foster Care

Total Served

- A total of 7,727 children spent at least one day in foster care such as family foster care, professional treatment programs, psychiatric residential treatment, placements in pre-adoptive homes, placements through developmental disability services, or independent living.
- Of the total children served in foster care, 63.9% were White, 19.0% were Hispanic, 7.4% were Black or African American, 4.7% were American Indian or Alaska Native, 3.2% did not have race/ethnicity recorded, and 1.7% were Asian or Pacific Islander.⁴
- A total of 1,034 youth received independent living program services.
- Of all children leaving foster care, 50.0% were reunited with their families.

Average Daily Population

- An average of 5,222 children were in foster care daily. Of these:
 - An average of 3,735 children were in family foster care. Of those, 51.1 percent (about 1,909 children) were placed with relatives.
 - An average of 502 children were on trial home visit.
 - An average of 213 children and young adults were served in treatment foster care through Child Welfare Behavior Rehabilitation Services programs or Oregon Health Authority psychiatric treatment settings.
 - The remaining average of 772 children were in other types of foster care placements such as placements through developmental disability services, placements in pre-adoptive homes, and independent living.

Point in Time

- Of the 5,029* children in care on September 30, 2022, 58.9 percent (2,960) had two or fewer placements. (* Source: ROM CM.19 Number of Federal Placements for Children in Foster Care)

Adoption & Guardianship Program

- A total of 575 children had adoptions finalized. Of these, 68.3% were White, 21.6% were Hispanic, 5.6% were Black or African American, 1.9% were American Indian or Alaska Native, 1.6% were Asian or Pacific Islander and 1.0% had no race/ethnicity recorded.

⁴ Race categories are defined in compliance with REAL-D (OAR 943-070-0010) and U.S. Census Bureau standards and are gathered through self-identification. Children may have multiple races. The primary race is the first one identified. If a child self-identifies as Hispanic in addition to other races, their race category will be Hispanic (any race).

- Of those adopted, 277 had siblings and of those, 257 (92.8%) were adopted by the same family as one or more of their siblings.
- A total of 395 children exited foster care to guardianship. Of these children, 62.5% were White, 23.5% were Hispanic, 6.8% were American Indian or Alaska Native, 3.8% were Black or African American, 3.3% were Asian or Pacific Islander, and 0% had no race/ethnicity recorded.

Child Protective Services

Screening Reports and Reporters of Suspected Child Abuse

Oregon Child Abuse Hotline (ORCAH) serves as one of the primary points of contact for children in Oregon at risk for or experiencing abuse. The 24-hour hotline receives, and screens reports of child abuse statewide, and provides guidance and subject matter expertise to callers and partners to ensure child safety. The hotline also assigns reports for Child Protective Services (CPS) assessments when allegations of abuse meet the criteria for assignment and to ensure child safety. Additionally, the hotline serves Oregonians through cross-reporting to local law enforcement, completes required notifications with multiple community partners and refers to services when appropriate.

ORCAH receives calls, cross-reported police reports, and as of March of 2021, electronic reports from Child Welfare caseworkers and the Office of Training, Investigations and Safety (OTIS) staff when a new allegation on an open case or assessment needs to be screened. These are collectively referred to as “contacts.” A portion of these contacts resulted in a documented screening report (either assigned or closed at screening), or a case note on an open case. The remaining contacts are generally callers seeking information or providing information that is not related to concerns for alleged abuse or open cases. ORCAH’s total contacts answered during FFY 2022 was 170,853. Of those contacts received, 87,529 resulted in a screening report being documented, an increase of 11.1 percent from the prior year.

During FFY 2022:

- Public and private officials required by law to report suspected child abuse made up 79.1 percent of the screening reports received by Child Welfare.
- Of all reports, 41.3 percent came from schools and law enforcement agencies.

Response Time for CPS Assessments

Oregon Child Welfare has three response times: within 24 hours, within 72 hours, and within 10 business days. Response time refers to the time required for CPS staff to make direct face-to-face contact with the child who is the alleged victim of a report of abuse. Once the screening decision is made, determining the urgency of a CPS Assessment response is the second fundamental safety decision of the screening assessment. The criteria for determining when CPS must respond to an assigned CPS Assessment is based on the application of criteria in the Structured Decision Making tool to the information in the abuse report. Of the total assigned reports, 58.0 percent were assigned a response time of *within 24 hours*.

Reports Assigned for CPS Assessments

Of the 87,529 screening reports received, 46,136 were assigned for CPS assessment. During the year, 39,191 CPS assessments were completed. Of this total, 7,455 (19 percent) resulted in a founded disposition. The 7,455 CPS assessments with founded dispositions represent 8.5 percent of the total abuse reports. Once there is a founded disposition, the children for whom there is reasonable cause to believe they were abused are considered victims of child abuse.

Victims of Abuse

During FFY 2022, there were 10,711 unduplicated child abuse victims. Most child victims remained in their own homes (81.5 percent), while 18.5 percent of child victims were removed from their homes. For those remaining in their homes, this is a decrease of 0.1% from FFY 2021.

Of the total victims, 13.4 percent remained home with an in-home safety plan and 68.1 percent remained in their homes, but Child Welfare determined that it was not necessary to open a case to keep the child(ren) safe.

The following data show the key demographics of children who were victims of child abuse during FFY 2022.

FFY 2022 Victims by Age and Gender

Age	Boys	Girls	Unknown/ Unreported	Total	Percent of Total
<1	591	580	6	1,177	11.0%
1	339	285	2	626	5.8%
2	339	318	1	658	6.1%
3	325	300	1	626	5.8%
4	320	352	0	672	6.3%
5	367	332	1	700	6.5%
6	335	287	0	622	5.8%
7	264	298	1	563	5.3%
8	304	307	0	611	5.7%
9	279	272	1	552	5.2%

11	253	276	0	529	4.9%
12	215	314	1	530	4.9%
13	241	334	1	576	5.4%
14	197	312	0	509	4.8%
15	157	320	0	477	4.5%
16	139	289	1	429	4.0%
17	124	229	0	353	3.3%
Total	5,058	5,637	16	10,711	100.0%

During FFY 2022, a total of 4.8 percent of victims were of more than one race/ethnicity. However, the following data for Oregon displays the child's first recorded race/ethnicity. The Disproportionality Index (DI) is also shown.

**Disproportionality Index (DI) and Representation by Race for Victims of Child Abuse
for FFY 2022 Compared to Oregon's Child Population**

Race	# of Oregon's Children*	% of Oregon's Children	# of Victims of Child Abuse	% of Victims of child abuse	DI** 1=Proportionate
Black or African American	32,405	3.8%	504	4.7%	1.3
Asian/Pacific Islander	50,175	5.8%	174	1.6%	0.3
White	570,938	66.3%	6,246	58.3%	0.9
Hispanic (any race)	194,742	22.6%	1,401	13.1%	0.6
American Indian or Alaskan Native	12,518	1.5%	418	3.9%	2.5
Unable to Determine	n/a	0.0%	1,968	18.4%	n/a
Statewide Total	860,778	100.0%	10,711	100.0%	

**Population data is always a year behind. Population data is from Puzzanchera, C., Sladky, A. and Kang, W. (2021). "Easy Access to Juvenile Populations: 1990-2020." Online. Available: <http://www.ojjdp.gov/ojstatbb/ezapop/>.*

***Disproportionality Index (DI) is calculated by taking the percent by race of victims of child abuse and dividing it by the percent by race in Oregon's child population. Values less than 1 mean underrepresentation and values over 1 mean overrepresentation.*

The following table displays the disproportionality index (DI) three-year trend. The DI outcomes remain stable for each race/ethnicity category over the three-year period except for a slight decrease for victims in the American Indian or Alaska Native category and a slight increase for victims in the Hispanic (any race) and Black or African American category.

Victims of Child Abuse FFY 2020 - FFY 2022 by Race/Ethnicity and Disproportionality Index (DI)

Race/Ethnicity	FFY 2020		FFY 2021		FFY 2022	
	%	DI	%	DI	%	DI
Black or African American	4.6%	1.2	4.6%	1.2	4.7%	1.3
Asian/Pacific Islander	1.9%	0.3	1.6%	0.3	1.6%	0.3
White	58.5%	0.9	58.0%	0.9	58.3%	0.9
Hispanic (any race)	12.9%	0.6	12.4%	0.5	13.1%	0.6
American Indian or Alaska Native	3.6%	2.3	3.7%	2.6	3.9%	2.5
Unable to Determine	18.5%	n/a	19.7%	n/a	18.4%	n/a

Types of Abuse Incidents

Each type of abuse experienced by a victim in a founded CPS assessment counts as an incident of child abuse. The number of incidents is larger than the number of victims because victims may have suffered more than one type of abuse or may have been involved in more than one founded CPS assessment. Between FFY 2021 and FFY 2022, the total number of incidents of child abuse decreased by 0.6 percent.

Threat of Harm is the largest category of child abuse at 46.9 percent, followed by neglect, at 35.4 percent of all incidents of abuse.

Effective January 1, 2020, the following new abuse types were added: Abandonment in Care, Financial Exploitation in Care, Involuntary Seclusion in Care, Neglect in Care, Physical Abuse in Care, Sexual Abuse in Care, Verbal Abuse in Care, and Wrongful Restraint in Care.

Some abuse types decreased from the previous year. Neglect in Care decreased the most by 3.1% and Mental Injury decreased by 2.8%.

FFY2022 Incidents of Child Abuse

Abuse type	FFY 2021	FFY 2022	From Last Year
Mental Injury	177	172	-2.8%
Physical Abuse	1,261	1,247	-1.1%
Neglect	5,011	4,985	-0.5%
Sexual Abuse	1,012	1,002	-1.0%
Threat of Harm	6,621	6,596	-0.4%
Abandonment in Care	0	0	n/a
Financial Exploitation In Care	0	0	n/a
Involuntary Seclusion In Care	6	6	0.0%
Neglect in Care	32	31	-3.1%
Physical Abuse In Care	11	11	0.0%
Sexual Abuse in Care	0	0	n/a
Verbal Abuse in care	8	8	0.0%
Wrongful Restraint in care	5	6	20.0%
Total Incidents	14,144	14,064	-0.6%

People Identified as Responsible for Abuse

People identified as responsible for child abuse are most often family members, making up 90.8 percent. Of family members, mothers and fathers represent 70.2 percent.

FFY 2022 Number of Founded Child Abuse Victims by Responsible Person's Relationship to Victim

Responsible Person's Relationship to Victim	Number	Percent
Familial		
Father	5,318	36.5%
Mother	4,915	33.7%
Unmarried partner of parent	1,852	12.7%
Other Relative (non foster parent)	960	6.6%
Nonrelative foster parent	95	0.7%
Legal guardian	68	0.5%
Foster Parent, relationship unknown or unspecified	16	0.1%
Relative foster parent	13	0.1%
Total Familial	13,237	90.8%
Nonfamilial		
Other	752	5.2%
Unknown or missing	428	2.9%
Child daycare provider	61	0.4%
Friends or neighbors	23	0.2%
Group home or residential facility staff	34	0.2%
Other professionals	43	0.3%
Total Nonfamilial	1,341	9.2%
Grand Total	14,578	100.0%

Family Stress Factors

Leading family stress factors of abused children are substance use, domestic violence, and parental involvement with law enforcement. Many families also have significant financial stress or unemployment issues. Some parents may have a diagnosis of mental illness or were abused as children. There usually are several stress factors in families of child abuse victims.

Family Stress Factors as a Percent of Founded Abuse

Stress Factor	FFY 2021	FFY 2022
Parent/caregiver substance use	42.3%	40.2%
Domestic violence	32.5%	31.0%
Parent/caregiver involvement with LEA	19.7%	17.5%
Parent/caregiver mental illness	14.2%	12.7%
Child mental/physical/behavior disability	12.6%	11.5%
Parent/caregiver history of abuse as child	11.2%	11.1%
Family financial distress	8.2%	8.2%
New baby/pregnancy	6.9%	6.2%
Inadequate housing	6.1%	6.0%
Head of household unemployed	5.1%	4.5%
Child developmental disability	2.5%	2.7%
Social Isolation	2.3%	2.5%
Parent developmental disability	1.7%	1.3%
Heavy child care responsibility	1.5%	1.3%

Fatalities Related to Child Abuse

There were 19⁵ children who died from causes related to abuse during FFY 2022.

- There were 18 fatalities with at least one parent as the identified person responsible. The relationships of the person responsible to the child in all 19 fatalities were:
 - The mother alone in eleven fatalities.
 - The father alone in one fatality.
 - The mother and father in four fatalities.
 - The mother and the mother's live-in significant other in one fatality.
 - The mother, father, and grandparents in one fatality.
 - An unrelated person in one fatality.
- There were 15 victims (78.9 percent) that were age 5 and younger, demonstrating the vulnerability of this age group. Ten victims were younger than one year old.
- Three children had an open Child Welfare case at the time of the fatality.⁶
- Eight children had an open CPS assessment at the time of the fatality.
- One child was in ODHS custody at the time of death.
- Nine children's families received family preservation services in the five years preceding the fatality.
- Fourteen fatalities were the result of neglect. Four fatalities were caused by physical abuse. One fatality was caused by both physical abuse and neglect.

⁵ The number of child fatalities does not correlate to the number of CIRT assigned within the same time frame.

- A CIRT can occur at any time during the CPS assessment when determined likely due to abuse and not necessarily at the time of the fatality.
- Not all abuse related fatalities are CIRTs. For example, when a child dies from abuse and the family has no Child Welfare history within the prior 12 months.

⁶ An open case refers to a family's case assigned to a caseworker after completion of a CPS assessment to manage child safety and provide services.

Child Fatalities Due to Child Abuse

Period	Abuse	Neglect	Abuse & Neglect	Total
FFY 2022	4	14	1	19
FFY 2021	4	13	1	18
FFY 2020	1	14	1	16
FFY 2019	6	17	0	23
FFY 2018	4	20	20	26
FFY 2017	10	20	0	30
FFY 2016	3	15	1	19
FFY 2015	7	17	3	27
FFY 2014	5	7	1	13
FFY 2013	4	5	1	10
FFY 2012	8	6	3	17

In-Home Family Services

Preserving Families

In situations when a child is determined to be unsafe and the parent/caregiver is not able to manage the child's safety without the assistance of Child Welfare, then safety plans are developed. When it is possible to manage the child's safety in the home, an in-home safety plan is developed with the child's family. This is referred to as an in-home case.

A total of 877 children were being served in their homes on September 30, 2022. The following data show the key demographics of children being served at home on September 30, 2022, as well as the disproportionality index.

Disproportionality Index and Representation by Race for Children with an In Home Case Compared to Oregon's Child Population (Excluding when on Trial Home Visits) on 9/30/2022

Race/Ethnicity	# of Oregon's Children	% of Oregon's children*	# of Children Served In Home	% of Children Served in Home	DI** 1=Proportionate
Black or African American	32,405	3.8%	45	5.1%	1.4
Asian/Pacific Islander	50,175	5.8%	20	2.3%	0.4
White	570,938	66.3%	529	60.3%	0.9
Hispanic (any race)	194,742	22.6%	124	14.1%	0.6
American Indian or Alaska Native	12,518	1.5%	38	4.3%	3.0
Unable to Determine	n/a	0.0%	121	13.8%	n/a
Statewide Total	860,778	100.0%	877	100.0%	

*Population data is always a year behind. Population data is from Puzzanchera, C., Sladky, A. and Kang, W. (2021). "Easy Access to Juvenile Populations: 1990-2020." Online. Available: <http://www.ojjdp.gov/ojstatbb/ezapop/>.

**Disproportionality Index (DI) is calculated by taking the percent by race of children served In Home and dividing it by the percent by race in Oregon's child population. Values less than 1 mean underrepresentation and values over 1 mean overrepresentation.

9/30/2022 Point in Time Children With an In Home Case (Excluding when on Trial Home Visits), by Age

Age Group	Number	Percent
Age 0-5	399	45.5%
Age 6-12	290	33.1%
Age 13-17	135	15.4%
Age 18+	53	6.0%
Total	877	100.0%

**9/30/2022 Point in Time Children With an In Home Case
(Excluding when on Trial Home Visits), by ICWA Status**

ICWA	Number	Percent
ICWA Eligible, Not Enrolled	34	3.9%
ICWA Eligible, Enrolled	3	0.3%
ICWA Not Eligible	840	95.8%
Total	877	100.0%

For the year (FFY 2022), a total of 5,550 children were served in their homes. All children served in-home receive case management and safety services. Over 2,200 children (2,338 or 42.1 percent) also received additional services.

Services offered primarily fall within two categories: In-Home Safety and Reunification Services (ISRS) and Strengthening, Preserving and Reunifying Families (SPRF) Program Services.

In-Home Safety and Reunification Services (ISRS) are services designed to provide for the immediate safety of children at risk of abuse by managing the safety threats within the family to prevent removal; or when children have been placed in protective custody, to help them return home with in-home safety services.

ISRS provides a combination of concrete safety and change services that lead to improved parent protective capacity. Services are designed to manage safety, stabilize the family, and support parents in strengthening or establishing connections to formal, informal, and natural supports and resources so that a child can remain safely with their family without the more intrusive intervention of Child Welfare.

SPRF services were created by the Oregon legislature in June 2011 (ORS 418.575-418.598). This was to specifically address the needs of children and families who come to the attention of Child Welfare through a report of abuse. These services are designed to support a comprehensive service array in local communities.

The overall goals of the SPRF Program are to maintain children safely at home with their parents or caregivers, safely and equitably reduce the number of children in the foster care system, reduce child trauma, reduce the length of stay in foster care, and reduce reentry rates of children into the Child Welfare system. Services provided are culturally responsive, trauma-informed, strengths-based, and family-focused.

Each county in the state has implemented the SPRF program and has developed its individualized service array through a process that identifies the services gaps and needs in their community. Some of the themes in the gaps and needs identified across the state are: Navigators, Parent Training and Support, Peer Parent Mentoring, Relief Nursery services, Substance Use Disorder Treatment, Housing, Front End Intervention, Reconnecting Families, Trauma and Therapeutic Services, Family Time, Transportation Services and Employment Related Services.

If a child's safety cannot be managed at home, they are placed in foster care and the family receives support and services (including ISRS, SPRF, and other services) to assist them in establishing an in-home safety plan so their child can safely return home.

[Back to Table of Contents](#)

Foster Care

Children in foster care range in age from birth to 21 years old. They come from various types of racial/ethnic backgrounds, different cultures, and family types. They have unique personalities, abilities, interests, and potential.

Children are placed in foster care for different reasons. Sometimes their families cannot provide them with the basic safety and protection they need, even with additional services and supports to serve them in-home. Many have also faced difficult experiences including parental substance abuse, sexual or physical abuse, and abandonment.

Entering Foster Care

Children most often enter foster care because of their parents' actions and not because of the child's behavior. Of all children who entered foster care during FFY 2022, 12.8 percent had four or more reasons for removal from their homes.

Nineteen new removal reasons were added to the data collection during FFY 2022, and several existing removal reasons had label changes. Both labels are provided in the table below for identification purposes.

Reasons Children Enter Foster Care FFY 2020 to FFY 2022

(includes all types of foster care)

Removal Reason	FFY 2020		FFY 2021		FFY 2022

* Removal Reason did not exist prior to FFY 2022.

** For Removal Reason of Diagnosed Condition (Formerly Child Disability) there was an error published in prior years where this was reported as 0. The FFY 2022 Data Book is updated with corrected data.

The number of children entering foster care during FFY 2022 decreased by 2.8 percent from the FFY 2021 level. The number of children leaving foster care decreased by 13.4 percent in the same time frame. The number of children in foster care on September 30, 2022 (5,051) decreased by 8.4 percent from the number of children in foster care on September 30, 2021.

A total of 298 children (or 10.7 percent of all exits) left foster care and custody within three months of entry. The median length of time in care for a child who exits is 23.4 months, which is higher than the median of 21.3 months in FFY 2021. For children who reunify with parents, this includes up to six months on a trial home visit.

Children Served in Foster Care – Total Served

During FFY 2022, a total of 7,727 children spent at least one day in some kind of foster care. Of those, 90.8 percent (7,015 children) were served in a family foster care setting. The following data show the key demographics of children served in foster care during FFY 2022.

FFY 2022 Age of Children Served in Foster Care

Age Group	Number	Percent
Age 0-5	3,028	39.2%
Age 6-12	2,322	30.1%
Age 13-17	1,679	21.7%
Age 18+	698	9.0%
Total	7,727	100.0%

FFY 2022 Gender of Children Served in Foster Care

Gender	Number	Percent
Boys	3,966	51.3%
Girls	3,760	48.7%
Undetermined/Unknown	1	0.0%
Total	7,727	100.0%

During FFY 2022, a total of 776 children (10.0 percent) served in foster care were of more than one race/ethnicity. However, the following data for Oregon displays the child's first recorded race/ethnicity. Disproportionality Index (DI) is also shown.

Disproportionality Index and Representation by Race for Total Children Served in Foster Care during FFY 2022 Compared to Oregon's Child Population

Race	# of Oregon's Children*	% of Oregon's Children	# of Children Served in Foster Care	% of Children Served in Foster Care	DI** 1=Proportionate
Black or African American	32,405	3.8%	575	7.4%	2.0

Statewide Total	860,778	100.0%	7,727	100.0%	

*Population data is always a year behind. Population data is from Puzanhera, C., Sladky, A. and Kang, W. (2021). "Easy Access to Juvenile Populations: 1990-2020." Online. Available: <http://www.ojjdp.gov/ojstatbb/ezapop/>.

**Disproportionality Index (DI) is calculated by taking the percent by race for children served in foster care and dividing it by the percent by race in Oregon's child population. Values less than 1 mean underrepresentation and values over 1 mean overrepresentation.

The following table displays the disproportionality index (DI) three-year trend. The DI outcomes remain stable for most race/ethnicity categories over the three-year period. There has been an increase for children served in foster care in the Black or African American category.

Percent of Total Children Served in Foster Care, by Race, Disproportionality Index and Federal Fiscal Year

Race	FFY 2020		FFY 2021		FFY 2022	
	%	DI	%	DI	%	DI

Unable to Determine	3.9%	n/a	2.7%	n/a	3.2%	n/a

In 1978, Congress enacted the Indian Child Welfare Act (ICWA) in response to a national crisis in which an alarmingly high percentage of Native American children were being removed from their families and tribal communities. ICWA requires that states make Active Efforts to prevent removal of tribal children from their families. Oregon works closely with the federally recognized tribes to ensure ICWA compliance and tribes are actively involved in the decision-making process for their children. A total of 368 children served in foster care were ICWA eligible (enrolled/not enrolled) in FFY 2022.

**FFY 2022 Total Children Served in Foster Care, by Indian Child Welfare Act
(ICWA) Status**

ICWA Status	Number	Percent
ICWA Eligible, Not Enrolled	347	4.5%
ICWA Eligible, Enrolled	21	0.3%
ICWA Not Eligible	7,359	95.2%
Total	7,727	100.0%

Children in Foster Care – Point-In-Time

Family and Sibling Connections

ODHS helps maintain connections for children placed in foster care by working to place them in their local communities, with relatives, and by placing siblings together in out-of-home care.

There were 5,051 children in foster care as of September 30, 2022. At that time, 3,678 were in family foster care (a family-home setting). Of those in family foster care, 46.2% (1,701 children) were with relatives. The other settings for children in foster care include those in residential treatment, trial home visits, and pre-adoptive settings.

As of the last day of FFY 2022, there were 2,344 children in out-of-home foster care who were part of a sibling group. Of these children, 1,922 (82.0 percent) were placed with the same family as one or more of their siblings. The percent of children with siblings being placed with siblings decreased from those in care a year earlier when 83.6 percent of children with siblings were placed with the same family as one or more of their siblings.

Stability While in Foster Care

For children in care as of September 30, 2022, a total of 58.9 percent had two or fewer placements. This is an increase over 2021 where 58.2 percent of children had two or fewer placements.

Number of Placements for Children in Foster Care on Last Day of Federal Fiscal Year

Number of Placements	9/30/2020		9/30/2021		9/30/2022	
	Number	Percent	Number	Percent	Number	Percent

Behavior Rehabilitation Services

Behavior Rehabilitation Services (BRS) is a Medicaid service aimed at improving the lives of children and families by providing behavioral intervention, counseling, and skills-training services to medically eligible youth having severe emotional, social and behavioral needs to support permanency.

Approximately 169 children in care per day receive these important services in professional assessment and stabilization facilities, therapeutic foster care, and residential placement models. These service programs are administered through contracts with licensed, private child-caring agencies.

On any given day during FFY 2022, BRS served the following:

- 87 children in professional treatment foster homes, and
- 82 children in residential treatment facilities.

Psychiatric Residential Treatment

Children in the state's custody whose mental health needs exceed or differ from the level or type of services provided by the BRS system may be served within the mental health services system in psychiatric residential placements or other mental health supported placements which are contracted through the Oregon Health Authority and authorized and paid for through Oregon's Coordinated Care Organizations.

On any given day, 44 children in care are served in psychiatric residential treatment settings.

Youth in Foster Care

Oregon Revised Statutes allow for children to remain in out-of-home care placement beyond the age of 18, and with a court order up to age 21.

During FFY 2022:

- Teens (13 years and older) comprised 30.8 percent of the foster care population.
- A total of 2,377 teens spent at least one day in foster care.
- Teens exiting foster care were reunited with their family 38.7 percent of the time.
- A total of 379 youth who are currently or have experienced foster care received scholarships for higher education for the 2021-2022 school year through a federal grant awarded to ODHS and implemented with the assistance of the Office of Student Access and Completion.

Independent Living Programs

Youth in foster care are eligible for Independent Living Program (ILP) services. ILP services are provided by 14 contracted community-based partners throughout the state. The number of youth receiving paid contracted ILP services increased by 31.8 percent from 1,201 in FFY 2021 to 1,583 in FFY 2022. The number of youth receiving an “independent living type” service during FFY 2022 increased by 45 percent from 1,521 in FFY 2021 to 2,199 in FFY 2022 (as reported through the National Youth in Transition Database Data Snapshot).

ILP services help youth in foster care and eligible young people who experience foster care:

- Make the transition to self-sufficiency as adults;
- Access financial assistance in support of a young person’s transition goals;
- Receive the education, training, and services necessary to obtain employment;
- Attain academic and/or vocational education and prepare for post-secondary training and education; and
- Obtain personal and emotional support and promote healthy interactions with dedicated adults.

Exiting foster care

Most children leaving foster care are reunified with their parents. But for other children, a plan to reunify them with their parents does not occur for many reasons. These children who exit foster care may move on to various other living arrangements and permanent plans, such as adoption, guardianship, or permanent relative care.

During FFY 2022, a total of 50.0 percent of children who left foster care were reunified with their families. If a child cannot safely return home, the law requires that an alternative permanency plan quickly be put into place.

The following data show the child’s first recorded race/ethnicity as well as the disproportionality index for children exiting foster care during FFY 2022.

**Disproportionality Index and Representation by Race for Children Exiting Foster Care in FFY 2022
Compared to Oregon's Child Population**

Race	# of Oregon's Children*	% of Oregon's Children	# of Children Exiting Foster Care	% of Children Exiting Foster Care	DI** 1=Proportionate

Adoption and Guardianship Program

The ODHS Permanency Program works closely with local branch staff to accomplish adoptions and guardianships for children and youth in foster care when it is no longer in their best interest to return to the care of their parents. ODHS also provides regulatory oversight and processing of all adoptions filed in the State of Oregon for children who are not in ODHS custody.

Adoptions

Adoption Finalizations

FFY 2022 Children with Finalized Adoptions

DHS DISTRICT	Child's District of Jurisdiction (Where From)	Child's District of Adoptive Placement (Where To)

Demographics

Of the 575 children adopted, 136 were younger than age 3 when their adoption became final.

FFY 2022 Children with Finalized Adoptions, by Age

Age	Number	Percent
less than 3	136	23.7%
3-4 years	116	20.2%
5-8 years	164	28.5%
9-10 years	53	9.2%
11-13 years	61	10.6%
14 and older	45	7.8%
Total	575	100%

Finalized adoptions in FFY 2022 show more boys than girls with finalized adoptions.

FFY 2022 Children with Finalized Adoptions, by Gender

Gender	Number	Percent
Girls	283	49.2%
Boys	292	50.8%
Total	575	100%

Of the children adopted during the year, 30.6 percent represent racial/ethnic groups other than White, up from 24.6 percent in the previous year.

FFY 2022 Children with Finalized Adoptions, by Race

Race/Ethnicity	Number	Percent
Black or African American	32	5.6%
Asian/Pacific Islander	9	1.6%
White	393	68.3%
Hispanic (any race)	124	21.6%
American Indian or Alaska Native	11	1.9%
Unable to Determine	6	1.0%
Total	575	100.0%

Adoption Assistance

The Title IV-E Adoption Assistance Program is a mandatory federal program authorized under the Social Security Act to help facilitate timely placement of children whose needs or circumstances would otherwise make it difficult for a family to meet those needs without medical and/or financial support. The Adoption Assistance Program provides medical and/or financial support to eligible children to assist the adoptive parents in meeting their child's needs. Oregon also has a state funded Adoption Assistance Program for those children who do not meet the eligibility requirements for the Title IV-E Adoption Assistance Program. Adoption assistance can include a subsidy and medical agreement, a subsidy only agreement, a medical-only agreement, or an agreement only that keeps the child's eligibility for assistance intact if needed in the future.

Preserving Connections

ODHS places a high value on preserving and promoting relationships between siblings and placing them together in the same adoptive family whenever it is safe and possible to do so. In FFY 2022, a total of 277 children who were adopted had siblings also adopted during the year. Of these children, 257 (92.8 percent) were adopted by the same family as one or more of their siblings.

Timeliness of Finalization

A primary goal of federal and state governments is to establish permanency for a child as soon as possible. The federal government has established parameters that guide states in this effort, which includes establishing a national standard for the median length of time to achieve adoption. While the length of time to achieve adoption varies, the median time to

adoption was 37.3 months for children whose adoptions were finalized in FFY 2022. This is an increase over the median months to adoption from FFY 2021 of 35.6 months.

Statistics show 99.0 percent of Oregon’s adoptive placements continued to finalization without disruption in FFY 2022.

Guardianship

When a child cannot be returned home guardianship may be determined to be the most appropriate permanent plan.

Guardianship Completion

During FFY 2022, a total of 395 children exited to guardianship, and increase of 11.0 percent from 356 children in FFY 2021. The majority of children go to guardianship with relatives.

Exits to Guardianship by Year

Period	Number	% Change
2012	273	25.8%
2013	313	14.7%
2014	293	-6.4%
2015	328	11.9%
2016	282	-14.0%
2017	447	58.5%
2018	454	1.6%
2019	421	-7.3%
2020	375	-10.9%
2021	356	-5.1%
2022	395	11.0%

Demographics

The following data shows the key demographics of children who exited guardianship during FFY 2022. The majority of guardianships (78.7 percent) are for children ages 6 and older.

FFY 2022 Children Exiting to Guardianship, by Age

Age Group	Number	Percent
Age 0-5	84	21.3%
Age 6-12	187	47.3%
Age 13-17	124	31.4%
Age 18+	0	0.0%
Total	395	100.0%

More girls than boys left foster care to guardianship in FFY 2022.

FFY 2022 Children Exiting to Guardianship, by Gender

Gender	Number	Percent
Girls	203	51.4%
Boys	192	48.6%
Total	395	100%

Children of all different racial and ethnic backgrounds exit to guardianship; the following data for Oregon displays the child's first recorded race/ethnicity.

FFY 2022 Race of Children Exiting to Guardianship

Race/Ethnicity	Number	Percent
Black or African American	15	3.8%
Asian/Pacific Islander	13	3.3%
White	247	62.5%
Hispanic (any race)	93	23.5%
American Indian or Alaskan Native	27	6.8%
Unable to Determine	0	0.0%
Total	395	100.0%

Guardianship Assistance

Children who go to guardianship have the same assistance available to them as children who were adopted to help the legal guardian meet their child's needs. With respect to their background of child abuse and special emotional, medical, and physical needs, these children are statistically the same as those who were adopted.
