

ICS Data Governance Overview

Steering Committee

Executive leadership that identifies beneficial ICS uses.

MOU

Understanding between OHA and ODHS to set forth the respective commitments of the Agencies concerning network and information systems access, and information sharing between the Agencies.

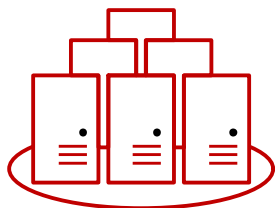

Data Governance Committee

Members representing each of the data sources contributing data to ICS. Each member contributes to determining overall ICS operations and use of their own program data stored in ICS.

Contracts

Additional agreements maintained between entities that share data with ICS but do not fall under the OHA and ODHS MOU (i.e., Center for Health Statistics, WIC, ODE, OED, etc.).

Integrated Client Services

Data Use Committee

Adhoc committee consisting of data owners who can authorize ICS to use their data for project specific linking into actionable datasets.

Data Use Agreements

Project specific contract giving ICS authority to connect specific source data elements into an actionable dataset and where recipients of final integrated dataset agree to the terms and conditions for data use.
