Topic: HCBS/IBL Online Training Available in Spanish

On January 15, 2024, the Oregon Department of Human Services, Aging and People with Disabilities (APD) launched a mandatory Home and Community-Based Services (HCBS) and Individually-Based Limitations (IBL) training for all staff of all HCBS providers licensed by APD. This training is available through Oregon Care Partners (OCP).

The online HCBS training is now available in Spanish. The new class is easily searchable on the OCP classes page with the keyword “[HCBS](#).” A link to the Spanish-language option has also been added to the other registration page. Here is the direct link to the Spanish-language registration page:
