InspectionsAdult foster homes

What's Changing?

ODDS is moving to a pass/fail system for inspections.

Why the Change?

Foster providers that pass their inspections can receive their license and then work on their plan of correction afterwards.

Important!

Providers must take action to ensure there is no ongoing risk to individuals in their care

Pass

The foster home was found to have no violations that result in ongoing risk to individuals in their care.

Your license will be issued.

Fail

The foster home was found to have violations with ongoing risk to individuals in their care.

Your licensor will complete follow-up inspections until your home is in compliance.
