Dedicated Medicaid Intake Specialist Fact Sheet 1

Discharge issues or difficulty with Long-Term Care (LTC) placements? 1

How it benefits you 1

Discharge issues or difficulty with Long-Term Care (LTC) placements?

If these are contributing to staff burnout and the depletion of critical resources at your hospital, our new program can help.

The Oregon Department of Human Services (ODHS) through the office of Aging and People with Disabilities (APD) now offers contracts with dedicated staff to determine Medicaid LTC eligibility.

How it benefits you

Dedicated Intake Specialists (DIS) focus exclusively on your hospital, offering an array of services to ensure the fastest and safest discharge possible.

Their services include:

- CA/PS assessments to determine consumer eligibility for Medicaid LTC services.
- Coordination with local APD offices to ensure financial determinations are scheduled.
- Assistance with access to support needed to complete financial eligibility determinations.
- Coordination with hospital staff to determine which residents are ready for discharge and need to be assessed for services.
- Timely updates for hospitals on eligibility and placement status.
- Assistance with LTC placements to ensure swift and safe discharge.

Cost: $9,133 per month full-time / $4,567 part-time.

Transition Coordinators and Eligibility Specialist contracts are also options.

For more information on this program and its benefits, please contact:

- Joel Sayre, Contract Administrator
