(d) The facility must maintain the posted nurse staffing data for a minimum of 18 months.

(3) **MINIMUM STAFFING, GENERALLY.** Resident service needs must be the primary consideration in determining the number and categories of nursing personnel needed. Nursing staff must be sufficient in quantity and quality to provide nursing services for each resident as needed, including restorative services that enable each resident to achieve and maintain the highest practicable degree of function, self-care, and independence, as determined by the resident's care plan. Such staffing must be provided even though it exceeds other requirements specified by this rule or specified in any waiver.

(4) **MINIMUM LICENSED NURSE STAFFING.**

(a) Licensed nurse hours must include no less than one RN hour per resident per week.

(b) When an RN serves as the administrator in the temporary absence of the administrator, the RN's hours must not be used to meet minimum nursing hours.

(c) In facilities with 41 or more beds, the hours of a licensed nurse who serves as facility administrator must not be included in any licensed nurse coverage required by this rule.

(d) The licensed nurse serving as a charge nurse must not be counted toward the minimum staffing requirement under section (5)(c) of this rule.

(b) Each resident must have assigned and be informed of the nursing assistant responsible for his or her care and services on each shift. The numbers listed in this rule represent the minimum staffing requirement. The numbers do not represent sufficient nursing staff. The number of staff necessary to meet the needs of each resident determines sufficient nursing staff.

(c) The number of residents per nursing assistant must not exceed the following ratios:

(A) Prior to October 1, 2013:

- (i) DAY SHIFT: 1 nursing assistant per 7 residents.
- (ii) EVENING SHIFT: 1 nursing assistant per 11 residents.

(B) The report must specify the shifts in which the minimum staffing standards as set forth in section (5)(c) of this rule were not met.

(C) Upon the Department's request, the facility must provide documents to support the quarterly staffing report, including payroll records.

(e) This rule does not prohibit nursing assistants from providing services to a resident to whom they are not assigned.

(f) The facility must ensure that nursing assistants only perform those tasks for which they are competent and qualified to perform and that are permitted by [ORS chapter 678](#) and [OAR 851-063-0030](#).

(g) Nursing assistants with a restricted duty status may be counted toward meeting the minimum staffing ratio as set forth in section (5)(c) of this rule if the nursing assistant is able to perform 90 percent of the authorized duties and responsibilities, with or without accommodation, required by a certified nursing assistant as determined by the Oregon State Board of Nursing ([OAR 851-063-0030](#)).

(h) The facility must ensure that a nursing assistant is not assigned more residents than the number for which the nursing assistant is able to meet the individual service needs.

(o) If an individual meets the criteria documented in [OAR 411-070-0087](#), and the Department has authorized the bariatric rate, the facility must provide one (1) additional Certified Nursing Assistant (CNA), for each shift, above the licensing staffing standard in [OAR 411-086-0100\(5\)](#), for the third through fifth approved individuals for the bariatric rate. Another CNA is then required, for each shift, for every additional five (5) individuals receiving the bariatric rate. For example:

(A) For the first two (2) approved individuals, the facility must meet the requirements in [OAR 411-086-0100\(3\)](#).

(B) For three (3) to five (5) approved individuals, one (1) CNA would be required above staffing standard, for each shift.

(C) For six (6) to ten (10) approved individuals, two (2) CNAs would be required above staffing standard, for each shift.

(6) CERTIFIED MEDICATION AIDES.

(a) The facility must ensure that all nursing assistants administering non-injectable medications are certified as nursing assistants and as medication aides. Documentation of these two certifications must be maintained in the facility.

(b) The certified medication aide assigned to administer medications must not be counted toward meeting the minimum staffing requirements for direct service of residents referenced at section (5)(c) of this rule.
