Message:

Collective (formerly Pre-Manage) is a tool used to view information about hospital (emergency and in-patient), home health, skilled nursing facility and other medical encounters. This information may be used in case management and monitoring, risk assessment, diversion/transition work, Protective Services and other work. Training is required before Collective access is authorized.

Two new Goto Webinar sessions of Basic Collective training for new users will be held this fall. Staff need only attend one session.
