Message:

This transmittal clarifies which address should be entered in OR PTC DCI for consumer and provider profiles. This guidance should be followed for all future address updates. Previous address changes do not need to be reviewed.

The address field for consumers and providers in OR PTC DCI is meant for the **residence address**.

Why the residence address is used:

- Electronic Visit Verification requires that location is captured at clock in/out to ensure accurate reflection of location that services are being provided. If the clock in/out locations are ever audited (ex: review for fraud), the home address is based on what is recorded in OR PTC DCI. This address should be where the provider or consumer lives, not where they receive mail.
- OR PTC DCI does not distribute any mailings based on address in OR PTC DCI. Mailing address is documented in other systems of record.

General reminder: If you ever need clarification on what to put in any of the OR PTC DCI profile data fields, please reach out to the PTC Support team at

PTC.Support@dhsoha.state.or.us. We want to make sure all staff using OR PTC DCI are getting consistent and clear guidance from the PTC team.
