## **Discussion/interpretation:**

This transmittal may also be applied to the ice storm emergency that occurred on February 2021. If a 512 or POC was temporarily closed due to the individual being temporarily relocated, the payment should be reauthorized for that time unless another 512 or POC was opened for another care setting.

Due to the current wildfire emergency, many individuals receiving LTSS services were forced to evacuate, per local authority instructions, to other settings. This policy

transmittal covers how payment authorization will work while individuals are temporarily staying at other settings. This policy will be in effect until further notice.

If the individual temporarily evacuated from a Medicaid CBC/NF setting to any other setting, the payment authorization will remain in place for the originating setting.

The originating setting will need to establish a payment arrangement with the other setting and/or Medicaid providers. The payment amounts are determined between the entities.

If the originating setting is unable to have the individual return to their care setting when the area is allowing for residents to return, the individual will need to transfer to a new permanent setting. For Medicaid eligible individuals, the facility should work with the case manager.

As mentioned in <u>APD-PT-20-098</u>, individuals receiving in-home services may continue to receive their services in any setting other than licensed settings.

Field/stakeholder review: X Yes No

If yes, reviewed by: Reviewed internally and with advocacy stakeholders
