**Tips for Driving Safely in Work Zones**

**Know before you go...**

**Online Information**

Visit www.TripCheck.com or call (503) 588-2941 (out-of-state callers)

ODOT is an equal opportunity, affirmative action employer committed to a diverse workforce. Accommodations will be provided to persons with disabilities. Alternative formats available upon request. ODOT does not discriminate on the basis of disability in admission or access to our programs, services, activities, hiring, and employment practices.

Questions: 1-877-336-6368 (EEO-ODOT) or statewide relay, 711.

**Highway Projects Key**

The following descriptions will give you an idea of what to expect when you encounter a road project. The amount of delay and congestion depends on overall traffic volume, time of day, and the size and type of the project.

**Resurfacing/Paving/Overlay** — Adding pavement over existing road or structure. You will likely encounter lane closures and a lower speed limit.

**Chip seal** — A method of resurfacing that places gravel over the roadway to work in the pavement.

Details for specific projects listed on this map are included on the inside of this brochure. Projects are listed by highway type and route number, then sorted by milepost. Information is subject to change.

This map lists only major projects on state highways. You may also encounter short-duration maintenance projects or work being done on city or county roads.

**Oregon Improvement Projects**

**Summer 2019**

---

**Portland Area Improvement Projects**

1. **(Pacific Highway)**
   - Replacement of the I-84 bridge over Graham Road in Troutdale. Raise bridges, widen parts of Graham Road, add a sidewalk throughout the project on Graham Road.
   - Through traffic on I-84 to be shifted through the project area.
