

Preface

The purpose of this manual is to provide an introduction to the standards, practices, devices and technologies that serve as the foundation for the temporary traffic control discipline. This manual provides an organized collection of traffic control plan design standards, guidelines, policies, and procedures to be used in the development of a temporary Traffic Control Plan (TCP).

This *TCP Design Manual* is intended for TCP designers, engineers or technical staff, members of City or County Public Works offices and private consulting engineering firms responsible for developing temporary traffic control plans and highway construction staging plans. However, concepts and guidance within this manual may also be applied to highway maintenance operations, utility and permit services, or other temporary activities within public highway rights of way.

Professionals conducting work outside of ODOT for other agencies should exercise caution in applying standards and practices within this manual as differences in design policy may exist between ODOT and those established by other agencies.

This technical manual is intended to provide greater detail in the design of temporary traffic control plans and supersedes other existing ODOT design policies that make reference to temporary traffic control design standards. This manual should be considered as the primary technical design policy for ODOT in the design of temporary traffic control plans.

This manual discusses Traffic Control Plans Design beginning with general information – including ODOT’s Guiding Principle – and progressing to specific TCP design elements such as Traffic Control Devices, Traffic Control Measures, standard drawings, estimating, specifications and special provisions, etc.

This manual is updated annually. To expedite updates, this manual is available on-line. The on-line version is considered an official document. As an on-line document, it will not be published and distributed as a traditional publication, and there is no user list for update notifications.

It is the user’s responsibility to verify they are using the most current version of the manual as their reference. Updated information will be detailed on the [Work Zone Traffic Control Website](#).

The Traffic Work Zone Unit maintains the *Traffic Control Plans Design Manual*. Send comments or questions on this document to workzonestandards@odot.state.or.us or to:

Justin King, P.E.

State Traffic Work Zone Engineer

ODOT Traffic –Roadway Section, MS#5

Table of Contents

Preface ii

Chapter 1: General Standards and Practices 1

1.1 Key Topics Covered in this Chapter..... 1

1.2 Work Zone Guiding Principle 2

 1.2.1 Guiding Principles and Decision Tree Application..... 3

1.3 Safety – A Primary Function..... 4

 1.3.1 Safety in TCP Design 4

 1.3.2 Engineering Judgement..... 6

1.4 TCP Design Standards..... 7

 1.4.1 Manual on Uniform Traffic Control Devices (MUTCD) 7

 1.4.2 OAR and ORS 7

 1.4.3 Additional Standards and References..... 8

1.5 Transportation Management Plan (TMP)..... 10

 1.5.1 Transportation Management Plan Document..... 10

1.6 Traffic control plan structure..... 12

 1.6.1 Work Zone Limits & Components..... 12

 1.6.2 Traffic Control Plan Design Form..... 16

 1.6.3 Standard Specifications & Special Provisions 17

 1.6.4 Standard Drawings 18

 1.6.5 Project – Specific Construction Staging Plan Sheets 19

1.7 Traffic Control Plan Design 20

 1.7.1 Design Considerations 20

 1.7.2 Traffic Control Measures 21

 1.7.3 Primary Design Policies 21

1.8 Work Zone Intelligent Transportation Systems..... 24

 1.8.1 Smart Work Zone Systems..... 24

1.9 Traffic Control Devices (TCD)..... 25

 1.9.1 Using TCD to Create a Safe Work Zone 25

 1.9.2 TCD Principles..... 25

1.9.3 TCD Crash Testing..... 25

1.9.4 TCD Crash Testing Categories..... 26

1.9.5 The Qualified Product List (QPL)..... 26

1.10 Mobility 28

1.10.1 Mobility Procedures Manual..... 28

1.10.2 Coordinating Travel Delay Estimates 28

1.11 Designer Resources and Web Links 29

1.11.1 TCP Designer Web links 29

1.11.2 Traffic Control Plan Checklist 29

Chapter 2: Temporary Traffic Control Devices..... 30

2.1 Key Topics Covered in This Chapter 30

2.2 Purpose and Principals of TCD..... 31

2.3 Crashworthy Devices..... 32

2.3.1 American Traffic Safety Services Association (ATSSA) 34

2.4 Category 1 Devices..... 35

2.4.1 Tubular and Conical Markers 35

2.4.2 Temporary Plastic Drums 36

2.4.3 Temporary Delineators 37

2.4.4 Temporary Pavement Marking and Markers 38

2.5 Category 2 Devices..... 45

2.5.1 Type I, II, and III Barricades 45

2.5.2 Pedestrian Channelizing Devices 47

2.5.3 Bicycle Channelizing Devices..... 48

2.5.4 Temporary Signs 49

2.5.5 Sign Sheeting..... 49

2.5.6 Sign Flags and Sign Flag Boards 49

2.5.7 ROAD WORK XX MPH and LOOSE GRAVEL XX MPH Signs 50

2.5.8 Specialty Signs 51

2.5.9 Sign Support 52

2.6 Category 3 Devices..... 57

2.6.1	Temporary Concrete Barrier.....	57
2.6.2	Temporary Steel Barrier	59
2.6.3	Temporary Glare Shields	60
2.6.4	Temporary Glare Screens.....	61
2.6.5	Reflective Barrier Panels	61
2.6.6	Temporary Impact Attenuators	62
2.6.7	Temporary Barrier, Guardrail Connections, and Guardrail Terminals	63
2.6.8	Other Barrier Systems.....	63
2.7	Category 4 Devices.....	66
2.7.1	Temporary Electrical Signs	66
2.7.2	Temporary Traffic Signals	68
2.7.3	Portable Traffic Signals.....	70
2.7.4	Flagger Station Lighting.....	71
2.7.5	Automated Flagger Assistance Devices (AFADs).....	71
2.7.6	Temporary Rectangular Rapid Flashing Beacon (RRFB)	73
2.8	Specialty TCD Bid Items	75
2.8.1	Overheight Vehicle Warning System (OVWS)	75
2.8.2	Protective Netting	75
2.8.3	Falsework Illumination	75
2.8.4	Pole Base Covers	76
Chapter 3:	Traffic Control Measures.....	77
3.1	Key Topics Covered in This Chapter	77
3.2	General Principles	78
3.3	Design Considerations.....	79
3.3.1	Sites Investigation	80
3.3.2	Project Scope	83
3.3.3	Project Duration	84
3.3.4	Project Schedules.....	86
3.3.5	Communication and Interaction.....	86
3.4	TCP Design Policies & Practices	88

3.4.1	Positive Protection	88
3.4.2	TCP Design Exception Process.....	96
3.4.3	Lane Restrictions	97
3.4.4	Abrupt Edges.....	100
3.4.5	Pedestrian Accessibility Design	102
3.4.6	Bicycle Accommodation Design	123
3.4.7	Clear Zones in the Work Zone	130
3.4.8	Crossover Design and “On-Site Diversions”	132
3.4.9	Design Speed	138
3.4.10	Detours	138
3.4.11	Device Spacing	139
3.4.12	“DO NOT PASS” Signing	140
3.4.13	Flagging.....	141
3.4.14	Flagging – Advance Flaggers for Extended Traffic Queues	144
3.4.15	Flagging – Flagger / Pilot Car Operations	144
3.4.16	Freeway Closures (Short Term)	147
3.4.17	Horizontal and Vertical Design Policy.....	149
3.4.18	Rumble Strips	152
3.4.19	Smart work zone System (SWZS).....	154
3.4.20	“ROAD WORK AHEAD” signing.....	154
3.4.21	Rolling Slowdown Method (RSM).....	155
3.4.22	Sign Placement	159
3.4.23	Speed Zone Reductions.....	160
3.4.24	Temporary Alignments	167
3.4.25	Temporary Concrete Barrier.....	168
3.4.26	Temporary Weigh Stations and Chain up Areas.....	174
3.4.27	Temporary Illumination.....	176
3.4.28	Work Zone Presence Lighting.....	176
3.4.29	Law Enforcement	177
3.5	Design-Related Specifications	181

3.5.1 20-Minute Stop or Hold..... 181

3.5.2 Alternative Contracting Methods..... 182

3.5.3 Business Accesses..... 183

3.5.4 Pavement Preservation Projects..... 184

3.5.5 Steel Plating..... 186

3.5.6 Traffic Control Supervisor (TCS)..... 186

Chapter 4: Specifications & Standard Drawings 189

4.1 Key Topics Covered in this Chapter..... 189

4.2 Standard Specifications 190

4.2.1 General Overview 190

4.2.2 Standard Specifications – Section 00220 191

4.2.3 Standard Specification – Sections 00221 through 00229 193

4.3 Special Provisions..... 197

4.3.1 Specification and Special Provision Writing 197

4.3.2 Section 00220 “Boilerplate” Special Provision 199

4.3.3 Sections 00221 through 00229 “Boilerplate” Special provision 200

4.4 Hierarchy of Documents 201

4.5 Standard Drawings 202

4.6 Standard Details 207

Chapter 5: Traffic Control Plans Design 208

5.1 Key Topics Covered in this Chapter..... 208

5.2 Traffic Control Plans (TCP)..... 209

5.2.1 Traffic Control Plans Form 209

5.3 Plan Sheet Function & Sequence..... 211

5.4 Plan Sheet Development 219

5.5 Typical Applications..... 222

5.6 Temporary Sign Design..... 223

5.7 Drafting Standards..... 226

Chapter 6: Traffic Control Cost Estimating 227

6.1 Key Topics Covered in this Chapter..... 227

6.2 TCP Cost Estimator..... 228

6.3 Traffic Control Plan Pay Items 229

6.4 Quantity Calculations..... 230

6.5 Temporary Protection & Direction of Traffic (TP&DT), Lump Sum Item 233

6.6 TCP Cost Estimate..... 234

Appendix A: Acronym List A-1

Appendix B: Glossary of Terms..... B-1

Appendix C: Forms C-1

Appendix D: Traffic Control Plans ChecklistD-1

Appendix E: Design Conversion ChartsE-1

Appendix F: Work Zone Unit Member’s Roles and ResponsibilitiesF-1
