BULK DISTRIBUTOR REPORTING

This procedure details the manual process of entering data for registered Bulk Distributor reporting. Data may also be entered by Microsoft Excel spreadsheet upload. This process is detailed in a separate user guide.

To create a Tax Session, select the “Tax Filing” tab at the top left of the Oregon Fuels Tax System screen. From the drop-down list, select “Tax Sessions”. The following screen is displayed:

![Figure 1. Tax session screen](image)

Click “Add New Record” to create a new tax session. The following box appears:

![Figure 2. Creating a tax session](image)
Select “DLRBK – Registered Bulk Distributor” from the drop down box.

The appropriate ending date should prefill based on your beginning period date. Each report will start with the first day of the reporting period, regardless of when operations began during that period.

The tax report will now appear on the Tax Sessions screen.

Click on the tax session and select “Schedule Transactions” from the pop-up menu.

There are three schedule options for the Registered Bulk Distributor report:

Schedule 2 - Gallons Handled (receipts);
Schedule 5 - Gallons Delivered Tax Collected; and
Schedule 6 - Gallons Delivered Tax Not Collected.

Each schedule contains similar information:
2. Gallons Handled

A red asterisk indicates a required field. When the field has a black triangle on the right side of the box, entry options can be selected from the drop down list.

Where the 🌐 is displayed, functions may be performed outside of this entry window.

**Product Code**
- select appropriate fuel code from drop-down box (e.g., 170 – Bio-diesel)

**Carrier**
- select the company delivering the fuel from the drop-down box
- The alphabetical list displayed shows the first 25 records in the list. To display more, click on the “Items 1-25 out of xxx” text at the bottom of the list. Each click will add the next 25 items to the list. Scroll down to find the carrier name.
- You may also begin typing the name of the carrier and the list will automatically display and shorten based on what you continue to type.
- Select the correct record.
- If you cannot locate the correct record, it is because you are using a name other than the one they are registered with or they are not registered with the Fuels Tax Group. If you cannot ascertain the correct name from the carrier or from contacting the Fuels Tax Group, you may need to enter the company into the system separately.

NOTE: You may not find them in the list because the Carrier designation may not have been added to the Business Entity record.
SEE Creating Business Entities tutorial for details on adding designations to existing records.

**Mode**
- select the mode of delivery used (e.g., truck, pipeline, etc.) from the drop-down box

**Origin**
- select the origin of the fuel delivered – may be a terminal location different
than the Sellers name
   If the origin is not found in the drop-down box, it may be added using the feature.

Destination select the name of the company where fuel was delivered
   If the destination is not found in the drop-down box, it may be added using the feature.

An Origin is the storage facility from which the fuel was removed. This may be a terminal location or the supplier’s bulk location. If the terminal is known, enter the terminal location. The applicable Oregon choices are:

T93OR4453  Tosco Corp. - Coos Bay

Destinations are the storage facilities where the fuel was delivered. This may be your location or the final destination in the case of resales. The Fuels Tax Group assigns all locations a unique number. A list of each location number by address is available on the Fuels Tax Group website at

Select the Facility Locations IDs document under Tax Information.

Please contact us if you need assistance in finding the correct destination.

If you need to create an Origin or Destination record, you may leave this entry screen and create the record. SEE Creating Locations tutorial.

The File Tax Return screen is displayed.
Check the box at the bottom of the statement agreeing with the conditions.

Once you accept the conditions of the electronic filing, the “Submit” box will become available to click and the process will continue with paying the amount due, if applicable.

When a return is submitted where no amount is due, an acknowledgement screen is displayed.

When a report is submitted with an amount due, the following screen is displayed:
The Payment Amount displayed is the amount due from the tax report being submitted. This is the minimum amount that can be paid.

If you have amounts due from previous tax report errors or adjustments, they will show in the “Outstanding Balance Due:” field.

When also paying on an outstanding balance, enter the new amount being paid in the “Payment Amount” field and click the “Submit” button. The “Select Payment Date” screen is displayed.
The payment may be made as soon as the report is finished or can be delayed until the due date. Enter the date you want the payment to process in the “Payment Date” field and click the “Submit” button.

If this is the first time a payment is being made in the system, One Time Payment is the only option available.

Click the “Submit” button to proceed to the US Bank site and enter the account information for the initial setup.
The “Payment Information” area allows you to enter the frequency as one time or recurring payment. Selecting “Recurring Payment” will allow you to schedule automatic payments.

Once you have entered your bank account information, click “Continue” at the bottom of the screen to go on to confirm the payment information.
Check the box at the bottom of the electronic statement to accept the Terms and Conditions and then click “Confirm” to continue to the payment review.

When your payment has been completed, the confirmation screen showing the reference number and payment details will be displayed.
Click the “Continue” button to leave the US Bank site. The Fuels Tax System “Payment History” confirmation screen will be displayed. This screen shows the date the payment was created, tracking number, the status and amount.

The Status will show as Pending until the payment processes through the bank.

Return to the “Tax Sessions” screen. The tax session will now display a date in the “Filed Date” column and the Fuels tax System confirmation number in the “Tracking Number” field.
