INSTRUCTIONS
Part 2 - Recovered Stolen Vehicle

If your vehicle is recovered:

Determine if the vehicle is damaged and totaled: Is the estimated cost to repair the vehicle at least 80% of its retail market value before the damage?

If your answer to the question is "Yes":

- **Surrender the title** or primary ownership document to DMV, unless you have transferred it to the recovering tower within 30 days of the recovery date.
- Do one of the following:
 - a. Apply for a salvage title; or
 - b. If the vehicle is repaired, rebuilt, or eligible for a title, apply for title showing the vehicle is "totaled" and assembled, reconstructed, or replica; or
 - c. Surrender the title or primary ownership document to DMV with a statement that the vehicle is totaled and that you do not intend to rebuild or repair it, to transfer ownership of the vehicle frame or unibody, or to use the frame or unibody for repairing or constructing another vehicle.

If your answer to the question is "No":

- Fill out Part 2 of this form.
- If you want to remove the totaled notation from the vehicle record now, go to a DMV office and get a vehicle identification number (VIN) inspection. There is a fee for the inspection. Submit Part 2 of this form with the VIN inspection.
- If you do not want to get a VIN inspection now, mail Part 2 of this form to:

**DMV
1905 Lana Ave NE
Salem OR 97314**

DMV will remove the totaled notation and add a new notation that a VIN inspection is required before retitling the vehicle.

If you have questions, call DMV at (503) 945-5000.
