The movement of two wide loads each over 12 feet in width, but not exceeding 14 feet in width, may haul opposing directions through the City of Sisters is not allowed through a six block section of the downtown merchant area between South Pine Street and South Larch Street due to horizontal width constraints. The lead pilot vehicle operator is responsible for ensuring that there are no overhang loads over 12 in width and there is ample clearance for a vehicle traveling from the opposite direction before the permitted vehicle enters the width restricted section. Pilot vehicles escorting wide loads exceeding 12 feet in width must announce their approaching presence on CB radio channel 17 prior to entering the six block section of the downtown merchant area between South Pine Street and South Larch Street. In the event of an oncoming oversized load, one of the lead pilot vehicle operators must direct his pilot load to wait and allow the approaching oversized load to pass safely before proceeding.
