

OREGON FEE SCHEDULE

HEAVY MOTOR VEHICLES

Effective January 1, 2022

Registration fees for most motor vehicles required to establish a registration weight are based on this fee schedule. The back of this form contains information on which vehicle types must use this fee schedule and how to determine a vehicle's registration weight. Buses: see reverse for instructions to calculate weight.

IMPORTANT NOTICE FOR VEHICLES WITH COMBINED WEIGHT OVER 26,000 POUNDS

Vehicles subject to weight-mile tax through Commerce and Compliance Division (CCD) must be registered with CCD. This applies primarily to vehicles with a registration weight of 26,001 pounds or more.

Vehicles with registration weights of less than 26,001 pounds may also be subject to weight-mile tax if the vehicle's combined weight with a trailer or other towed vehicle is 26,001 pounds or more. This would include, for example, tow trucks or a vehicle used exclusively to tow manufactured structures, since the towed vehicle or manufactured structure is not included in the registration weight, but is part of the combined weight. If the combined weight of your vehicle is 26,001 pounds or more, you must register it with CCD.

If you do not know if your vehicle is subject to weight-mile tax, contact Commerce and Compliance Division. Our office is located at 3930 Fairview Industrial Drive SE, Salem, Oregon 97302. You can also reach us by phone at (503) 378-6699.

All buses, trucks or other motor vehicles with a **registration weight** of more than 10,000 pounds may be registered for one, two or three quarters, or for a full calendar year. The quarters run January 1 – March 31, April 1 – June 30, July 1 – September 30, and October 1 – December 31. If the vehicle is registered for less than one year, \$2 is added to the registration fee.

Registration Weight

NOTE: Vehicles that will be used to tow or haul wrecked or disabled vehicles plus other commodities must use this fee schedule. Vehicles used **exclusively** to haul manufactured structures or tow and recovery vehicles should use Oregon Fee Schedule Tow Vehicles & Mobile Home Toters (Form 735-9933).

Trucks

Registration weight for these vehicles is the total empty weight of a vehicle or all vehicles in a combination (i.e., a truck and any trailers it may pull), plus the total weight of the load carried on that vehicle or combination of vehicles, minus the weight of a camper or the trailing vehicles listed below:

- (1) Trailers with a loaded weight of 8,000 pounds or less
- (2) Special use trailers, travel trailers, manufactured structures and fixed load vehicles
- (3) A towed motor vehicle

Self-propelled Mobile Cranes

Registration weight for these vehicles is the overall weight of the vehicle plus the weight of any cables, pulleys and the boom.

Motor Buses

The previous method for weight calculation for buses was eliminated – please use heaviest operating weight.

Maximum Registration Weight

The maximum *registration weight* per single vehicle or combination of vehicles is 105,500 pounds. Maximum registration weight does not authorize operation in excess of legal weights. For operations in excess of 80,000 pounds combined weight, or legal size or axle weights, you must also obtain a variance permit. Unlike registration weight, *combined weight* includes the weight of any camper, trailing vehicles or their loads. Variance permits may be obtained from CCD Over-Dimension Permit Unit. Visit our office at 3930 Fairview Industrial Drive SE, Salem, OR 97302, or give us a call at (503) 373-0000.

Heavy Trailers

Trailers with a loaded weight in excess of 8,000 are registered permanently at DMV. The loaded weight of these trailers is included in the registration weight of the power unit that pulls the trailer.

Please Note

Your vehicle may be subject to other requirements administered by CCD. For more information, stop by our office at 3930 Fairview Industrial Drive SE, Salem, OR 97302, or give us a call at (503) 378-6699.
