1.	6/9/2026	Email	Mark B., Copart	<p>Good morning to all</p> <p>I have reviewed this proposal several times this morning and Copart only has one follow up question.</p> <p>I have noticed on page 11 [of the Notice of Proposed Rulemaking], towards the bottom in section (3) is the only reference to a notary that I see. I wanted to confirm that none of the new forms will require a notary if they are signed electronically. Is that correct? If that is accurate, we have no issues with this rule and support its passage.</p> <p>I also wanted to say thank you for all your work that the ODOT team has put into this document. It looks pretty time consuming and we at Copart appreciate your efforts. This will be a game changer for our industry.</p> <p>Thank you again and have a great day.</p>
