

CUG Annual Meeting ADA Panelists

David Morrissey, Equity Manager
Oregon Department of Transportation | Salem, OR
503-979-5827 | David.N.Morrissey@odot.oregon.gov

David Morrissey has worked at ODOT since 2019 and served as the Program Manager for Title VI of the Civil Rights Act of 1964, the Americans with Disabilities Act, and Environmental Justice before moving into the position of Equity Manager in 2023. Prior to joining ODOT, he served as Executive Director of the United States International Council on Disabilities, based in Washington, DC. He worked in the nonprofit sector for over twenty years and has implemented programs engaging civil society and governments, allied human rights advocates, and young professionals from around the world. He has also volunteered with a variety of nonprofit organizations throughout his career and life.

Heidi Shoblom, State Roadway Engineer
Oregon Department of Transportation | Salem, OR
503-689-2957 | Heidi.e.shoblom@odot.oregon.gov

Heidi Shoblom has over 25 years of civil engineering experience working in various capacities for ODOT. Heidi began her career with ODOT in 1997 in the graduate engineer program. She has spent time in Region 1 in both the construction office as well as the Traffic section where she held a variety of positions. She moved to HQ in 2002 to work in the Bicycle & Pedestrian program, followed by positions in both Traffic and Roadway. Heidi is the State Roadway Engineer where she is responsible for statewide standards and programs. Heidi represents ODOT on the AASHTO Committee on Design.

Lisa Strader, ADA Coordinator | Ramps by Request Program Manager
Portland Bureau of Transportation | Portland, OR
503-823-5703 | lisa.strader@portlandoregon.gov

Lisa Strader is a certified ADA Coordinator currently serving in that role for the Portland Bureau of Transportation (PBOT). Lisa is responsible to advise PBOT on making its programs and activities accessible to people with disabilities. Some responsibilities in that role include review of transportation system designs for the requirements of the ADA; providing guidance to staff on accessible presentations, documents, and websites; development and implementation of the bureau's ADA Title II Public Right of Way Transition Plan; accepting and managing responses to transportation system accessibility concerns or complaints; and engaging community members with disabilities to ensure their experience is considered in PBOT's work and that we are addressing their needs. Lisa was formerly ODOT's ADA Program Manager and ODOT's ADA Planning Manager.

Jenifer Willer, P.E., City Engineer
City of Eugene | Eugene, OR
541-682-6036 | jwiller@eugene-or.gov

Jenifer Willer has over 20 years of experience as a civil engineer working on a variety of public infrastructure projects. Jenifer spent 5 years working for a consulting firm in Idaho before spending the last 18 years with the City of Eugene in the Public Works Engineering Division. Jenifer is currently the City Engineer managing a division of approximately 93 full-time-equivalent positions (FY24-25), a division operating budget of \$41 million (FY24-25) and a capital budget of \$159.6 million (2023-2029 CIP). Within the Engineering Division, she manages six engineering sections: administration, two capital project teams, engineering development review, GIS and data services, and transportation planning. As City Engineer, Jenifer is responsible to adopt standards for the City's public infrastructure and public rights-of-way.
