

Route Map 8 Legend

Route Map 8 shows weight restricted bridges on state highways, and is divided into three categories:

- Emergency Vehicle – apply onto to two – or three-axle Emergency Vehicles.
- Specialized Hauling Vehicle (SHV) – apply only to solo vehicle with 4 or more axles hauling a divisible load.
- Regular – other axle, group, axle, and/or gross weight restrictions that apply to all vehicles or combinations.

Some bridges may have multiple categories of weight restrictions.
