Avinash Unnikrishnan, PSU  Cary Goodman, ODOT Rail Division
Scott Drumm, Port of Portland  Jason Beloso, WSDOT
Miguel Figlioizzi, PSU

Purpose:
Bring together a team of experts in the field of freight to identify issues and provide strategic direction for actions supporting robust analytical capabilities in the field of freight planning, including but not limited to:

• Policy: Identify current freight issues, trends, questions, needs related to information used to make informed decisions; (requirements associated with the National Multimodal Freight Policy, National Freight Strategic Plan, safety, economic development, state performance measures.)
• Data: identify data needed to prepare information: existing data, improvements to existing data, new data needed, potential data sources, data simulation tools;
• Tools: current, emerging and new; identify gaps in tools, improved forecasts,
• Collaboration: Identify areas of common interest and opportunities for collaboration, consistency between tools and data; Develop research proposals focused on implementation; Develop outreach materials to increase awareness of freight issues;

Member Roles and Responsibility:
Committee members are asked to provide the following:
• Commit to attending subcommittee meetings, either in person (preferred, when possible) or remotely
• Actively participate in subcommittee discussions
• Promptly respond to requests for information from the subcommittee chair

Knudson, Draft 08/28/2017
• Promptly return comments on materials provided for review
