To learn more about Washington's highway charging network, visit [www.WestCoastElectricHighway.com](http://www.WestCoastElectricHighway.com).

\* Each Oregon and Washington West Coast Electric Highway (WCEH) original EV station site currently consists of only a 50 kW CHAdeMO DC Fast Charger and a 7.2 kW Level 2 Charger. No Combo Charging System (CCS) DC Fast Chargers are currently available at these original sites.

- These original sites were initiated in 2012 and only equipped with CHAdeMO DC Fast Chargers, prior to the adoption of the CCS DC Fast Charging standard.
- To better serve all makes and models of plug-in electric vehicles, Oregon and Washington are pursuing upgrades to original WCEH locations through competitive funding opportunities to replace CHAdeMO-only stations with dual protocol DC Fast Chargers.
