

# Sidewalk Curb Ramps – City of Hood River

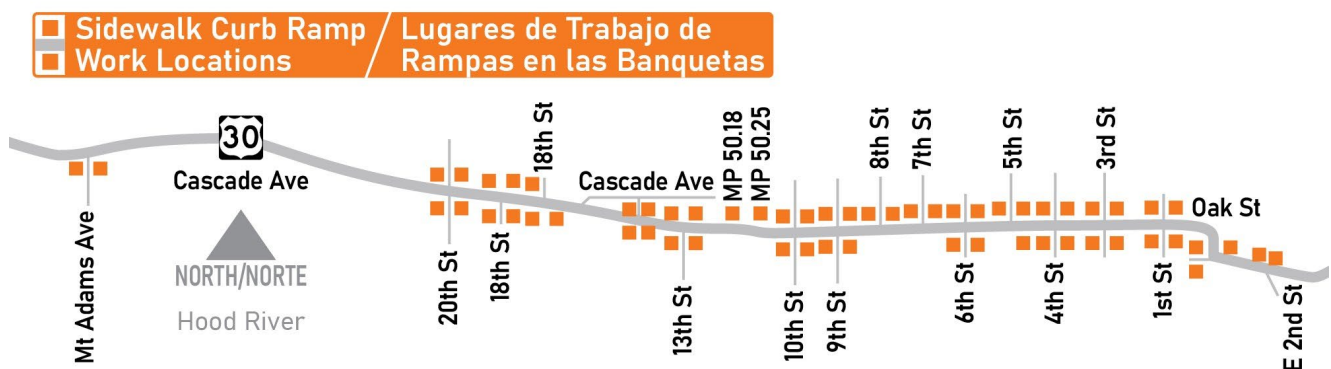

## Project Details

We are making sidewalk curb ramps safer on U.S. 30 (Cascade Avenue and Oak Street) in Hood River. We are bringing them up to the current standards of the Americans with Disabilities Act (ADA). This will help everyone who uses the sidewalks along the highway. We will upgrade sidewalk corners from Mt. Adams Avenue to E 2nd Street and add a new ramp at some corners.

Construction is set to start in late 2024 or early 2025. Each corner usually takes 1-2 weeks to finish. We will work on several corners at the same time, but only one corner per intersection will be under construction at a time. There won't be any construction in the downtown area between Memorial Day and Labor Day.

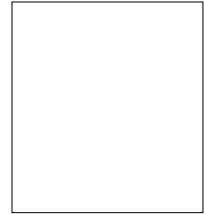

For updates on construction and to see our ADA program in action, visit the project website at [www.R1ADA.org](http://www.R1ADA.org).

## Project Map

Construcción comenzará a finales de 2024 o principios de 2025 para mejorar las rampas de las banquetas en la U.S. 30 (Cascade Avenue y Oak Street) en Hood River. Aprende más aquí: [www.R1ADA.org](http://www.R1ADA.org).

## Traffic Impacts

There will be temporary impacts to Cascade Avenue, Oak Street and nearby streets during construction. Expect lane, shoulders, parking spaces and sidewalks to be closed for a short time. All roads will remain open. We will provide accessible paths around the work zones for people walking, biking and rolling. We will keep access open for customers of nearby businesses during business hours. No work will occur in the downtown area between Memorial Day and Labor Day.

*An example of an accessible sidewalk curb ramp.*

## Improving access for those walking, rolling and riding in Oregon

The **ODOT ADA PROGRAM** is upgrading over 25,000 curb ramps in Oregon. This is to make sure they follow ADA standards. We will upgrade curb ramps and pedestrian signals. We will provide accessible routes through work zones. We also are making extra efforts to talk to the public and address any concerns. Everyone who uses sidewalks along our highways will benefit from the improvements.
