

## I-5: MARINE DRIVE to FREMONT BRIDGE

### PROJECT OVERVIEW

The Oregon Department of Transportation will be installing advisory speed signs and traveler information signs and relocating green guide signs in seven locations along I-5 between I-405 and Marine Drive in North Portland. These signs will assist in reducing crashes, improve travel time reliability, and enhance transit operations by providing real-time traffic information.

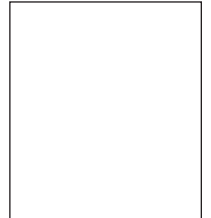

### CONSTRUCTION BEGINS NOVEMBER 2019

Construction will start in November and will take place mostly at night to minimize traffic impacts during the day. Work is expected to be complete in summer 2020 but is subject to change based on weather and site conditions.

## NOISE IMPACTS DURING CONSTRUCTION

Daytime and nighttime construction noise will occur periodically from heavy equipment, construction trucks, beeping vehicle reverse noise (a requirement by the Occupational Safety and Health Administration), drilling and other equipment such as compressors, pneumatic tools, and potentially nighttime flagging with generators. Those working or living in the area may be affected. ODOT will apply construction noise mitigation measures to reduce noise impacts to surrounding neighbors.

Use the 24/7 nighttime noise hotline to reach a live person to discuss any noise concerns: 971-673-5239
