

OR213 (82nd Ave): SE Foster Rd - SE Thompson Rd

ODOT - Multnomah County

Project Description

Repaves and rehabilitates Oregon 213 (82nd Avenue); enhances crossings at SE Thompson, SE Glencoe, SE Clatsop and SE Cooper; and fills gaps in the sidewalk between SE Clatsop and SE Lindy. Some project funding comes from the 2018-2021 STIP and House Bill 2017.

Purpose And Need

The pavement on this section of SE 82nd Avenue has severely deteriorated. This is a five-lane section of highway with a significant distance between marked crosswalks and many areas lack sidewalks or have sidewalks that do not meet standards.

Proposed Solutions

- Repave and rehabilitate the highway.
- Install sidewalks between SE Clatsop Street and SE Lindy Street.
- Install enhanced crossings.

Anticipated Benefits

- Improved safety and accessibility by providing enhanced crosswalks across SE 82nd Avenue (previously funded) and sidewalks (2021-2024 STIP funded).
- Smoothed out pavement, improving the ride and safety for travelers (previously funded).

Project location on SE 82nd Avenue.

Existing travel conditions on SE 82nd Avenue.

Cost

2018-2021 STIP	\$7,308,497
Oregon House Bill 2017	\$9,200,000
2021-2024 STIP	\$5,089,214
Estimated Total Cost	\$21,597,711
