General impacts on OR 8 and adjacent streets

- Mostly daytime work with occasional night work.
- Intermittent shoulder and single lane closures in the work areas with people on bicycles using travel lanes.
- Business access will be maintained during construction. Property owners will be notified about direct driveway impacts.
- Signed ADA-accessible detour routes during any sidewalk closures.
- TriMet stops for Line 57 may be temporarily impacted. Look for more information at the bus stops and on TriMet.org.
- Noise and vibrations from construction equipment.

Construction on OR 8 starts in May 2026

We are improving pedestrian and driver safety at three locations on OR 8 in Hillsboro and Forest Grove with upgraded crosswalks, intersections, and sidewalks. This means a safer and more accessible pedestrian network, improved nighttime visibility and more responsive traffic signals. Construction begins this spring and is expected to finish by the end of 2026.

Improvement legend

Enhanced Pedestrian Crossing
with Pedestrian Refuge Island

ADA Curb
Ramp Upgrades

New Traffic Signals

New Sidewalks

Improved Lighting

1 OR 8 (Pacific Avenue) and A&B Row in Forest Grove

Build a new mid-block crosswalk with a pedestrian-activated beacon, also known as a Rectangular Rapid Flashing Beacon, or RRFB, to alert drivers that someone is crossing the street. The crosswalk will also include a pedestrian refuge island halfway across.

2 OR 8 (SW Baseline Street) between SW Main Street and SW Dennis Avenue in Hillsboro

Fill in sidewalk gaps on the north side of SW Baseline Street between SW Main Street and SW Dennis Avenue, upgrade sidewalk curb ramps to meet ADA standards and replace the traffic signal at the SW Baseline Street and SW Main Street intersection to improve safety and visibility.

Extended traffic impacts:

- Around-the-clock single lane closures on SW Baseline Street for up to 90 days. Business driveways on SW Baseline Street will remain open during this time.
- Around-the-clock closure of northbound SW Main Street between SW Oak Street and SW Baseline Street for up to 30 days. A signed detour via SW Dennis Avenue will be in place.

3 OR 8 (SW Oak Street) and SW Armco Avenue in Hillsboro

Add new lighting at the intersection of OR 8 (SW Oak Street) and SW Armco Avenue in Hillsboro to improve nighttime visibility.
