

# Smith Rock Way Construction

## U.S. 97: LOWER BRIDGE WAY - NW 10TH STREET (TERREBONNE)

The work on Smith Rock way will include Sanitary sewer, waterline, and stormwater work. The culvert crossing at the H Lateral Canal will be widened. Sidewalk will be added and the roadway will be repaved.

In order to complete the improvements there will be a 6 week closure of Smith Rock Way. A signed detour route will be in place during this closure. Access to Smith Rock State park will be maintained during construction via two detour routes.

Construction staging shown is subject to change once a contractor is selected for the project
